(2) The cost finding method to be used by ICF- MR providers will be the step-down method. This method recognizes that services rendered by certain non- revenue producing departments or centers are utilized by certain other non-revenue producing centers. All cost of non-revenue producing centers are allocated to all centers which they serve, regardless of whether or not these centers produce revenue. The cost of the non-revenue producing center serving the greatest number of other centers, while receiving benefits from the least number of centers, is apportioned first. Following the apportionment of the cost of the non- revenue producing center, that center will be considered "closed" and no further costs will be apportioned to it. This applies even though it may have received some service from a center whose cost is apportioned later. Generally when two centers render services to an equal number, that center which has the greater amount of expense will be allocated first.

B. Reporting year: For the purpose of determining a prospective per diem rate related to cost for ICF-MR services, the reporting year is the provider's fiscal year. The provider will submit a cost report each fiscal year.

C. Cost reporting:

(1) At the end of each fiscal year the provider will provide to the state agency or its audit agent an itemized list of allowable costs (financial and statistical report) on the N.M. title XIX cost reporting form. This cost report must be submitted on an annual basis to MAD or its designee within the time frames specified by medicare. ICFs-MR will not be granted an extension to the cost report filing time frames. Failure to file a cost report within the specified time frames will result in suspension of title XIX payments.

(2) In the case of a change of ownership, the previous provider must file a final cost report as of the date of the change of ownership in accordance with reporting requirements specified in this plan. The HCA will withhold the last two month's payment to the previous provider as security against any outstanding obligations to the HCA. The provider must notify the HCA 60 days prior to any change of ownership.

D. Retention of records:

(1) Each ICF-MR provider shall maintain financial and statistical records of the period covered by a cost report for a period of not less than four years following the date of submittal of the cost report to the state agency. These records must be accurate and in sufficient detail to substantiate the cost data reported. The provider shall make

such records available upon demand to representatives of the state agency, the state audit agent, or the department of health and human services.

(2) The state agency or its audit agent will retain all cost reports submitted by providers for a period of not less than three years following the date of final settlement of such report.

E. Audits: Audits will be performed in accordance with 42 CFR 447.202.

(1) Desk audit: Each cost report submitted will be subject to a comprehensive desk audit by the state audit agent. This desk audit is for the purpose of analyzing the cost report. After each desk audit is performed, the audit agent will submit a complete report of the desk review to the state agency.

(2) Field audit: Field audits will be performed on all providers at least once every three years. The purpose of the field audit of the provider's financial and statistical records is to verify that the data submitted on the cost report are in fact accurate, complete and reasonable. The field audits are conducted in accordance with generally accepted auditing standards and of sufficient scope to determine that only proper items of cost applicable to the service furnished were included in the provider's calculation of its cost. The field audit will also determine whether the expenses attributable to such proper items of cost were reasonably and accurately determined. After each field audit is performed, the audit agent will submit a complete report of the audit to the state agency. This report will meet generally accepted auditing standards and shall declare the auditor's opinion as to whether, in all material respects, the costs reported by the provider are allowable, accurate and reasonable in accordance with the state plan. These audit reports will be retained by the state agency for a period of not less than three years from the date of final settlement of such reports.

F. Overpayments: All overpayments found in audits will be accounted for on the HCFA 64 report to HHS no later than the second quarter following the quarter in which found.

G. Allowable costs: The following identifies costs that are allowable in the determination of a provider's actual, allowable and reasonable costs. All costs are subject to all other terms stated in the medicare provider reimbursement manual (PRM 15-1) that are not modified by these regulations.

(1) Cost of meeting certification standards: These will include all items of expense that the provider must incur under:

(a) 42 CFR 442;

(b) Sections 1861(j) and 1902(a)(28) of the Social Security Act;

(c) standards included in 42 CFR 431.610;

(d) cost incurred to meet requirements for licensing under state law which are necessary to provide ICF-MR service.

(2) Costs of routine services: Allowable costs shall include all items of expense that providers incur to provide routine services, known as operating costs. Operating costs include such things as:

(a) regular room;

(b) dietary and nursing services;

(c) medical and surgical supplies (including but not limited to syringes, catheters, ileostomy, and colostomy supplies);

(d) use of equipment and facilities;

(e) general services, including administration of oxygen and related medications, hand feeding, incontinency care, tray service and enemas;

(f) items furnished routinely and relatively uniform to all patients, such as patient gowns, water pitchers, basins and bed pans;

(g) items stocked at nursing stations or on the floor in gross supply and distributed or used individually in small quantities, such as alcohol and body rubs, applicators, cotton balls, bandaids, laxatives and fecal softeners, aspirin, antacids, OTC ointments, and tongue depressors;

(h) items which are used by individual patients but which are reusable and expected to be available, such as ice bags, bed rails, canes, crutches, walkers, wheelchairs, traction equipment, oxygen administration equipment, and other durable equipment;

(i) special dietary supplements used for tube feeding or oral feeding even if prescribed by a physician;

(j) laundry services other than for personal clothing;

(k) oxygen for emergency use--the HCA will allow two options for the purchase of oxygen for patients for whom the attending physician prescribes oxygen administration on a regular or on-going basis:

(i) the provider may purchase the oxygen and include it as a reimbursable cost in its cost report; this is the same as the method of reimbursement for oxygen administration equipment; or

(ii) the HCA will make payment directly to the medical equipment provider in accordance with procedures outlined in medical assistance manual Section 754, medical supplies, and subject to the limitations on rental payments contained in that section.

(l) all services delivered in relation to active treatment, such as physical therapy, occupational therapy, speech therapy, psychology services, recreational therapy, etc.;

(m)managerial, administrative, professional and other services related to the providers operation and rendered in connection with patient care.

(3) Facility cost, for the purpose of specific limitations included in this plan, include only depreciation, lease costs, and long term interest.

(a) Depreciation is the systematic distribution of the cost or other basis of tangible assets, less salvage value, over the estimated life of the assets.

(i) The basis for depreciation is the historical cost of purchased assets or the fair market value at the time of donation for donated assets.

(ii) Historical cost is the actual cost incurred in acquiring and preparing an asset for use.

(iii) Fair market value is the price for which an asset would have been purchased on the date of acquisition in an arms-length transaction between an informed buyer and seller, neither being under any compulsion to buy or sell. Fair market value shall be determined by a qualified appraiser who is a registered member of the American institute of real estate appraisers (MAI) and who is acceptable to the HCA.

(iv) In determining the historical cost of assets where an on-going facility is purchased, the provisions of medicare provider reimbursement manual PRM 15-1 will apply.

(v) Depreciation will be calculated using the straight-line method and estimated useful lives approximating the guidelines published in American hospital association useful lives guide.

(b) Long-term interest is the cost incurred for the use of borrowed funds for capital purposes, such as the acquisition of facility, equipment, improvements, etc., where the original term of the loan is more than one year.

(c) Lease term will be considered a minimum of five years for purposes of determining allowable lease costs.

H. Non-allowable costs:

(1) Bad debts, charity, and courtesy allowances: Bad debts on non-title XIX program patients and charity and courtesy allowances shall not be included in allowable costs.

(2) Purchases from related organizations: Cost applicable to services, facilities, and supplies furnished to a provider by organizations related to the provider by common ownership or control shall not exceed the lower of the cost to the related organization or the price of comparable services, facilities or supplies purchased elsewhere. Providers shall identify such related organizations and costs in the states' cost reports.

(3) Return on equity capital.

(4) Other cost and expense items identified as unallowable in PRM 15-1.

(5) Interest paid on overpayments as per MAD- 702, *Billing for Medicaid Services*.

(6) Any civil monetary penalties levied in connection with licensure, certification, or fraud regulations.

[8.313.3.11 NMAC - Rp 8.313.3.11 NMAC, 7/1/2024]

8.313.3.12 ESTABLISHMENT OF PROSPECTIVE PER DIEM RATES:

Prospective per diem rates will be established as follows and will be the lower of the amount calculated using the following formulas, or any applicable ceiling:

A. Base year:

(1) For implementation year one (effective September 1, 1990), the providers base year will be for cost reports filed for base year periods ending no later than June 30, 1990. Since these cost reports will not be audited at the time of implementation, an interim rate will be calculated and once the audited cost report is settled, a final prospective rate will be determined. Retrospective settlements of over or under payments resulting from the use of the interim rate will be made.

(2) Re-basing of the prospective per diem rate will take place every three years. Therefore, the operating years under this plan will be known as year one, year two, and year three. Since re- basing is done every three years, operating year four will again become year one.

(3) Costs incurred, reported, audited or desk reviewed for the provider's last fiscal year which falls in the calendar year prior to year one will be used to re-base the prospective per diem rate. Re-basing costs in excess of one hundred and ten percent of

the previous year's reported cost per diem times the index (as described further on in these regulations) will not be recognized for calculation of the base year costs.

B. Inflation factor to recognize economic conditions and trends during the time period covered by the facility's prospective per diem rate. Pursuant to budget availability and at the HCA's discretion, an inflation factor may be used to recognize economic conditions and trends. A notice will be sent out every September informing each provider that:

(1) MBI will or will not be authorized for determining rates for the year; and

(2) the percentage increase if the MBI is authorized;

(3) if utilized, the index used to determine the inflation factor will be the center for medicare and medicaid services (CMS) market basket index (MBI);

(4) each provider's operating costs will be indexed to a mid-year point of February 28 for operating year 1;

(5) if utilized, the inflation factor will be the actual MBI for the previous calendar year.

C. Incentive to reduce increases in cost:

(1) As an incentive to reduce the increases in the administrative and general (A&G) and room and board (R&B) cost center, the HCA will share with the provider the savings below the A&G/R&B ceiling in accordance with the formula described below:

$$A = [1/2 (B-C)] < \$1.00$$

(2) Where:

A = allowable Incentive per diem

B = A&G/R&B ceiling per diem

C = allowable A&G/R&B per diem from the base year's cost report;

D. Cost centers for rate calculation: For the purpose of rate calculation, costs will be grouped into four major cost centers. These are:

(1) direct patient care (DPC)

(2) administration and general (A&G)

(3) room and board (R&B)

(4) facility costs (FC)

E. Case-mix adjustment:

(1) In assuring the prospective reimbursement system addresses the needs of residents of ICF-MR facilities, a case mix adjustment factor will be incorporated into the reimbursement system. The case-mix index (CMI) will be used to adjust the reimbursement levels in the direct patient care cost center. The key objective of the CMI is to link reimbursement to the acuity level of residents in a facility. To accomplish this objective, the HCA utilizes level of care criteria which classify ICF- MR residents into one of three levels, with level I representing the highest level of need. Corresponding to each level of care, the relative values are as follows:

level I 1.077

level II 0.953

level III 0.768

(2) Using these level specific relative values, a provider specific base year CMI will be calculated. The CMI represents the weighted average of the residents' level of care divided by the total number of residents in the facility. The CMI is calculated as follows:

[(A x 1.077)+(B x .953)+(C x.768)]/N = CMI

(3) WHERE:

A = number of level I residents

B = number of level II residents

C = number of level III residents

N = total number of provider's residents

F. Calculation of the prospective per diem rate:

(1) A prospective per diem rate for each of the three levels of ICF-MR classification will be determined for each provider. Payment will be made based on the rate for the level of classification of the recipient.

(2) The provider's direct patient care (DPC) allowable cost will be divided by the provider's CMI to determine the cost at a value of 1.00 for the base year. The adjusted DPC is then multiplied by the relative value of the level of classification to determine the DPC component of the rate. To this, will be added the allowable A & G

and R & B amount and the allowable facility cost. The formula for the rates will be as follows:

(3) The formula for year one is: (A1 x RV) + C1 + D + E = PR (year 1)

(4) The formula for year two is: [(A1 x RV) + C1) x (1 + MBI)] + D + E = PR (year 2)

(5) The formula for year three is: [(A2 x RV) + C2) x (1 + MBI)] + D + E = PR (year 3)

(6) Where:

A = allowable DPC per diem adjusted to a value of 1.00

B = the relative value of the level of classification.

C = allowable A&G and R&B per diem

D = allowable incentive per diem

E = allowable facility cost per diem

MBI = market basket index PR = prospective rate

RV = the relative value for the level

"1" = the numerical subscript means the date of the data used in the formula; for example, "A1" means the base direct patient care costs established in the base year, while "A2" would refer to the base direct patient care costs adjusted by the MBI.

G. Effective dates of prospective rates: Rates will be effective September 1 of each year for each facility.

H. Calculation of rates for existing providers that do not have actuals as of June 30, 1990, and for new providers entering the program after September 1, 1990. For existing and for new providers entering the program that do not have actuals, the provider's interim prospective per diem rate will become the sum of:

(1) the state wide average patient care cost per diem for each level plus;

(2) the A&G and R&B ceiling per diem plus;

(3) facility cost per diem as determined by using the medicare principles of reimbursement;

(4) after six months of operation or at the provider's fiscal year end, whichever comes later, the provider will submit a completed cost report; this will be audited to determine the actual allowable and reasonable cost for the provider; a final prospective rate will be established at that time, and retroactive settlement will take place.

I. Changes of provider by sale of an existing facility: When a change of ownership occurs, the provider's prospective rate per diem will become the sum of:

(1) the patient care cost per diem for each level, established for the previous owner plus;

(2) the A&G and R&B per diem established for the previous owner; plus

(3) allowable facility costs determined by using the medicare principles of reimbursement.

J. Changes of ownership by lease of an existing facility: When a change of ownership occurs, the provider's prospective per diem rate will become the sum of:

(1) the patient care cost per diem for each level established for the previous owner; plus

(2) the A&G and R&B per diem established for the previous owner; plus

(3) the lower of allowable facility cost or the ceiling on lease cost as described by this plan.

K. Sale/leaseback of and existing facility: When a sale/ leaseback of an existing facility occurs, the provider's prospective rate will remain the same as before the transaction.

[8.313.3.12 NMAC - Rp 8.313.3.12 NMAC, 7/1/2024]

8.313.3.13 ESTABLISHMENT OF CEILINGS:

Ceilings on the four major cost centers will be established as follow:

A. Direct patient care: No ceiling will be imposed on this cost center.

B. A&G and R&B: The per diem costs for administration and general and for room and board will be grouped together for the establishment of a ceiling. This ceiling will be calculated at one hundred ten percent of the median of allowable costs for the base year, indexed to 12/31 of the base year. The ceiling will then be indexed to the mid-point of year one and set. For years two and three, the ceiling will not be recalculated, but rather will be indexed forward using the appropriate inflation factor described earlier in these regulations.

C. Facility cost:

(1) No ceiling will be imposed on this cost center, except in relation to leases.

(2) Effective for leases executed and binding on both parties on or after September 1, 1990, total allowable lease costs for the entire term of the lease for each facility will be limited to an amount determined by a discounted cash flow technique which will provide the lessor and annual rate of return on the fair market value of the facility equal to one times the average of the rates of interest on special issues of public debt obligations issued to the federal hospital insurance trust fund for the twelve months prior to the date the facility became a provider in the New Mexico medicaid program. The rates of interest for this fund are published in both the federal register and the commerce clearing house (CCH).

(3) The rate of return described above will be exclusive of any escalator clauses contained in the lease. The effect of escalator clauses will be considered at the time they become effective, and the reasonableness of such clauses will be determined by the inflation factor described in Subsection B of 8.313.3.12 NMAC of these regulations.

(4) Any appraisal necessary to determine the fair market value of the facility will be the sole responsibility of the provider and is not an allowable cost for reimbursement under the program. The appraisals must be conducted by an appraiser certified by a nationally recognized entity, and such appraiser must be familiar with the health care industry, specifically long term care, and must be familiar with geographic area in which the facility is located. Prior to the appraisal taking place, the provider must submit to the HCA the name of the appraiser, a copy of their certification, and a brief description of the appraiser's relevant experience. The use of a particular appraiser is subject to the approval of the HCA.

[8.313.3.13 NMAC - Rp 8.313.3.13 NMAC, 7/1/2024]

8.313.3.14 ADJUSTMENTS TO BASE YEAR COSTS:

Since rebasing of the prospective per diem rate will take place every three years, the HCA recognizes that certain circumstances may warrant an adjustment to the base rate. Therefore, the provider may request such an adjustment for the following reasons:

A. Additional costs incurred to meet new requirements imposed by government regulatory agencies, taxation authorities, or applicable law (e.g. minimum staffing requirements, minimum wage change, property tax increases, etc.)

B. Additional costs incurred as a result of uninsurable losses from catastrophic occurrences.

C. Additional costs of approved expansion, remodeling or purchase of equipment.

D. Such additional costs must reach minimum of $5,000 for facilities with 16 or more beds and $1,000 for facilities with 15 or less beds, of incurred cost per year for rebasing to be considered. The provider may request consideration of such rebasing no more than twice in its fiscal year. The provider is encouraged to submit such rebasing requests before the cost is actually incurred if possible. The HCA will approve or disapprove the rebasing request in a timely manner. If the rebasing is approved, the resulting increase in the prospective per diem rate will go into effect:

(1) beginning with the month the cost was actually incurred if prior approval was obtained, or

(2) no later than 30 days from the date of receipt of the request if retroactive approval was obtained. At no time will rebasing in excess of any applicable ceilings be allowed.

[8.313.3.14 NMAC - Rp 8.313.3.14 NMAC, 7/1/2024]

8.313.3.15 RESERVE BED DAYS:

Reserve bed days will be paid using the provider's level III rate.

[8.313.3.15 NMAC - Rp 8.313.3.15 NMAC, 7/1/2024]

8.313.3.16 CAREGIVERS CRIMINAL HISTORY SCREENING:

The MAD will reimburse providers for the medicaid portion of the billed amount that providers paid to the New Mexico department of health (DOH). The following is the billing format.

A. Each ICF-MR will pay DOH by check according to DOH regulations.

B. A copy of the check(s) that the ICF-MR sent to DOH will be submitted to medicaid for payment on a quarterly basis on a medicaid reimbursement voucher (available at MAD or at MAD's designee).

C. Medicaid will only be responsible for the medicaid portion of the billed amount.

D. There will be a one-time charge to medicaid for fingerprinting equipment. Ongoing supplies, such as ink, rubber gloves, and other supplies, will be accounted for on the provider's cost report.

[8.313.3.16 NMAC - Rp 8.313.3.16 NMAC, 7/1/2024]

8.313.3.17 RECONSIDERATION PROCEDURES FOR BASE YEAR DETERMINATIONS:

A. A provider who is dissatisfied with the base year rate determination or the final settlement (in the case of a change of ownership) may request a reconsideration of the determination by addressing a request for reconsideration to: Director, Medical Assistance Division, P.O. Box 2348, Santa Fe, NM 87504

B. The filing of a request for reconsideration will not affect the imposition of the determination.

C. A request for reconsideration, to be timely, must be filed with or received by the medical assistance division no later than 30 days after the date of the determination notice to the provider.

D. The written request for reconsideration must identify each point on which it takes issue with the audit agent and must include all documentation, citation of HCA, and argument on which the request is based. Any point not raised in the original filed request may not be raised later.

E. The medical assistance division will submit copies of the request and supporting material to the audit agent. A copy of the transmittal letter to the audit agent will be sent to the provider. A written response from the audit agent must be filed with or received by the medical assistance division no later than 30 days after the date of the transmittal letter.

F. The medical assistance division will submit copies of the audit agent's response and supporting material to the provider. A copy of the transmittal letter to the provider will be sent to the audit agent. Both parties may then come up with additional submittals on the point(s) at issue. Such follow- up submittals must be filed with or received by the medical assistance division no later than 15 days after the date of the transmittal letter to the provider.

G. The request for reconsideration and supporting materials, the response and supporting materials, and any additional submittal will be delivered by the medical assistance division director to the secretary, or their designee, within five days after the closing date for final submittals.

H. The secretary, or their designee, may secure all information and call on all expertise they believe necessary to decide the issues.

I. The secretary, or their designee, will make a determination on each point at issue, with written findings and will mail a copy of the determinations to each party within 30 days of the delivery of the material to him. The secretary's determinations on appeals will be made in accordance with the applicable provisions of the plan. The secretary's decision will be final and changes to the original determination will be implemented pursuant to that decision.

[8.313.3.17 NMAC - Rp 8.313.3.17 NMAC, 7/1/2024]

8.313.3.18 PUBLIC DISCLOSURE OF COST REPORTS:

A. Provider's cost reports submitted by participating providers as a basis for reimbursement as required by law are available to the public upon receipt of a written request to the medical assistance division. Information thus disclosed is limited to cost report documents required by social security administration regulations and, in the case of a settled cost report, the notice of program settlement.

B. The request must identify the provider and the specific report(s) requested.

C. The cost for copying will be charged to the requestor.

[8.313.3.18 NMAC - Rp 8.313.3.18 NMAC, 7/1/2024]

8.313.3.19 SEVERABILITY:

If any provision of this regulation is held to be invalid, the remainder of the regulations shall not be affected thereby.

CHAPTER 314: LONG TERM CARE SERVICES - WAIVERS

PART 1: GENERAL PROVISIONS [RESERVED]

PART 2: DISABLED AND ELDERLY HOME AND COMMUNITY-BASED SERVICES WAIVER [REPEALED]

[This part was repealed on December 15, 2010]

PART 3: MEDICALLY FRAGILE HOME AND COMMUNITY-BASED SERVICES WAIVER

8.314.3.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.314.3.1 NMAC - Rp, 8 .314.3.1 NMAC, 3/1/2018; A, 7/1/2024]

8.314.3.2 SCOPE:

The rule applies to the general public.

[8.314.3.2 NMAC - Rp, 8 .314.3.2 NMAC, 3/1/2018]

8.314.3.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12, NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.314.3.3 NMAC - Rp, 8 .314.3.3 NMAC, 3/1/2018; A, 7/1/2024]

8.314.3.4 DURATION:

[8.314.3.5 NMAC - Rp, 8 .314.3.5 NMAC, 3/1/2018]

8.314.3.6 OBJECTIVE:

The objective of this rule is to provide policies for the service portion of the New Mexico medical assistance program (MAP). These policies describe eligible providers, covered services, non-covered services, utilization review, and provider reimbursement.

[8.314.3.6 NMAC - Rp, 8 .314.3.6 NMAC, 3/1/2018]

8.314.3.7 DEFINITIONS:

A. Activities of daily living (ADLs): Those activities associated with an individual's daily functioning. The basic skills of everyday living such as toileting, bathing, dressing, grooming, and eating and the skills necessary to maintain the normal routines of the day, such as housekeeping, shopping and preparing meals. The term also includes exercising, personal, social and community skills.

B. Adult: An individual who is 18 years of age or older.

C. Authorized representative: An individual designated by the eligible recipient or his or her guardian, if applicable, to represent the eligible recipient and act on his or her behalf. The authorized representative must provide formal documentation authorizing him or her to access the identified case information for this specific purpose. An

authorized representative may be, but need not be, the eligible recipient's guardian or attorney.

D. Category of eligibility (COE): To qualify for medical assistance program (MAP) services, an applicant must meet financial criteria and belong to one of the groups that the New Mexico medical assistance division (MAD) has defined as eligible.

E. Centers for medicare and medicaid services (CMS): Federal agency within the United States department of health and human services that works in partnership with New Mexico to administer medicaid and MAP services under HSD.

F. Child: An individual under the age of 18. For purpose of early periodic screening, diagnosis and treatment (EPSDT) services eligibility,"child" is defined as an individual under the age of 21.

G. Eligible recipient: An applicant meeting the financial and medical level of care (LOC) criteria to receive MAD services through the medically fragile program.

H. Home and community-based services (HCBS) waiver: A set of MAD services that provides alternatives to long-term care services in institutional settings, such as the medically fragile waiver program. CMS waives certain statutory requirements of the Social Security Act to allow HSD to provide an array of home and community-based options through these waiver programs.

I. Intermediate care facilities for individuals with intellectual disabilities (ICF/IID): Facilities that are licensed and certified by the New Mexico department of health (DOH) to provide room and board, continuous active treatment and other services for eligible recipients with a primary diagnosis of intellectual disabilities.

J. Level of care (LOC): The level of care an eligible recipient must meet to be eligible for the medically fragile program.

K. Medically Fragile: a chronic physical condition, which results in a prolonged dependency on medical care for which daily skilled (nursing) intervention is medically necessary and is characterized by one or more of the following: a life threatening condition characterized by reasonable frequent periods of acute exacerbation which require frequent medical supervision, or physician consultation and which in the absence of such supervision or consultation would require hospitalization; a condition requiring frequent, time consuming administration of specialized treatments which are medically necessary; or dependence on medical technology such that without the technology a reasonable level of health could not be maintained; examples include but are not limited to ventilators, dialysis machines, enteral or parenteral nutrition support and supplemental oxygen.

L. Medically Fragile Waiver (MFW): New Mexico's 1915 (c) HCBS program serving individuals diagnosed with a medically fragile condition prior to the age of 22

and a developmental disability or who are developmentally delayed or at risk for developmental delay and meet an ICF/IID level of care.

M. Person centered planning: A service planning process that is directed and led by the recipient, with assistance as needed or desired from a representative or other persons of the recipient's choosing. Person-centered planning is designed to identify the strengths, capacities, preferences, needs, and desired outcomes of the recipient. The person-centered process is an ongoing process that enables and assists the recipient to identify and access a personalized mix of paid and non-paid services and supports that assists him or her to achieve personally defined outcomes in the community.

N. **Recipient**: Individual receiving waiver services.

O. Waiver: A program in which the CMS has waived certain statutory requirements of the Social Security Act to allow states to provide an array of HCBS options as an alternative to providing long-term care services in an institutional setting.

[8.314.3.7 NMAC - Rp, 8 .314.3.7 NMAC, 3/1/2018]

8.314.3.8 MISSION STATEMENT:

[RESERVED]

8.314.3.9 MEDICALLY FRAGILE HOME AND COMMUNITY-BASED SERVICES WAIVER:

The New Mexico MAP pays for medically necessary services furnished to eligible recipients. To help New Mexico recipients receive services in a cost-effective manner, the New Mexico medical assistance division (MAD) has obtained a waiver of certain federal regulations to provide home and community-based services (HCBS) waiver programs to recipients as an alternative to institutionalization. See 42 CFR 441.300. Section 8.314.3.9 NMAC describes the HCBS waiver program for the medically fragile population, including eligible providers, covered waiver services, service limitations, and general reimbursement methodology.

[8.314.3.9 NMAC - Rp, 8 .314.3.9 NMAC, 3/1/2018]

8.314.3.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico MAP provider participation agreements by MAD, providers who meet the following requirements are eligible to be reimbursed for furnishing waiver services to recipients:

(1) standards established by the HCBS waiver program; and

(2) provide services to recipients in the same scope, quality and manner as provided to the general public; see Section 8.302.1.14 NMAC.

B. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions, and other pertinent material from MAD and the New Mexico DOH. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

C. Qualifications of case management agency providers: Agencies must meet the standards developed for this HCBS waiver program by the applicable division of the DOH. Case management agencies are required to have national accreditation. These accrediting organizations are the commission on accreditation of rehabilitation facilities (CARF), the joint commission or another nationally recognized accrediting authority. Case management assessment activities necessary to establish eligibility are considered administrative costs.

D. Qualifications of case managers: Case managers employed by case management agencies must have the skills and abilities necessary to perform case management services for recipients who are medically fragile, as defined by the DOH medically fragile waiver standards. Case managers must be registered nurses, as defined by the New Mexico state board of nursing and have a minimum of two years of supervised experience with the target population in one or more areas of pediatrics, critical care or public health.

E. Qualifications of home health aide service providers:

(1) Home health aide services must be provided by a licensed home health agency, a licensed rural health clinic or a licensed or certified federally qualified health center using only home health aides who have successfully completed a home health aide training program as described in 42 CFR 484.36(a) (1) and (2); or who have successfully completed a home health aide training program described in the New Mexico regulations governing home health agencies, Section 7.28.2.30 NMAC. Additionally, home health aides providing services must be deemed competent through a written examination and meet competency evaluation requirements specified in the 42 CFR 484.36(b) (1), (2) and (3); or meet the requirement for documentation of training or competency evaluation specified in the New Mexico regulations governing home health agencies, Section 7.28.2.30 NMAC.

(2) Supervision: Supervision must be performed by a registered nurse and shall be in accordance with the New Mexico Nursing Practice Act, Section 61-3-1, NMSA 1978. Supervision must occur at least once every 60 days in the recipient’s home and be specific to the individual service plan (ISP). All supervisory visits must be documented in the recipient’s file.

(3) The supervision of home health aides is an administrative expense to the provider and is not billable as a direct service.

F. Qualifications of private duty nursing providers:

(1) Private duty nursing services must be provided by a licensed home health agency, a licensed rural health clinic, or a licensed or certified federally qualified health center, using only registered nurses or licensed practical nurses holding a current New Mexico board of nursing license and having a minimum of one year of supervised nursing experience; nursing experience preferably with individuals with developmental disabilities or who are medically fragile.

(2) Supervision: Supervision must be performed by a registered nurse and shall be in accordance with the New Mexico Nursing Practice Act. Supervision must be specific to the ISP.

(3) The supervision of nurses is an administrative expense to the provider and not billable as a direct service.

G. Qualifications of skilled therapy providers: Skilled therapy services may be provided by a licensed group practice/home health agency that employs licensed occupational therapists, physical therapists, or speech therapists and certified occupational therapy assistants and certified physical therapy assistants in accordance with the New Mexico regulation and licensing department. Physical therapy services must be provided by a physical therapist currently licensed by the state of New Mexico. Occupational therapy services must be provided by an occupational therapist currently licensed by the state of New Mexico, and registered with the American occupational therapy association or be a graduate of a program in occupational therapy approved by the council on medical education of the American occupational therapist association. Speech therapy services must be provided by a speech therapist currently licensed by the state of New Mexico and certified by the national association for speech and hearing. A physical therapy assistant working only under the direction and supervision of a licensed physical therapist, Section 16.20.6 NMAC, may provide physical therapy services. An occupational therapy assistant working only under the direction and supervision of a licensed occupational therapist, Section 16.15.3 NMAC, may provide occupational therapy services.

H. Qualifications of behavior support consultation providers:

(1) Behavior support consultation providers must possess one of the following licenses approved by a New Mexico licensing board: psychiatrist; clinical psychologist; independent social worker (LISW); professional clinical mental health counselor (LPCC); professional art therapist (LPAT); marriage and family therapist (LMFT); mental health counselor (LMHC); master social worker (LMSW); psychiatric nurse, or psychologist associate (PA).

(2) Behavior support consultation may be provided through a corporation, partnership or sole proprietor.

(3) Providers of behavior support consultation must have a minimum of one year of experience working with individuals with developmental disabilities or who are medically fragile. All behavior support consultants must maintain current New Mexico licensure with their professional field licensing body.

I. Qualifications of respite care service providers:

(1) Respite may be provided in the following locations: participant's home or private place of residence, the private residence of a respite care provider, or specialized foster care home. The participant and or the participant's authorized representative has the option and gives final approval of location of the respite services being provided. A specialized foster care home must be certified by the New Mexico children, youth and families department.

(2) Respite services are provided by a licensed home health care agency, a licensed or certified federally qualified health center, or a licensed rural health clinic. The registered nurses (RNs) and licensed practical nurses (LPNs) who work for the home health agency and provide respite services must be licensed by the New Mexico state board of nursing as an RN or LPN. See the New Mexico Nursing Practice Act, Section 61-3-1, NMSA 1978, and Section 16.12.2 NMAC. The home health aides who work for the home health agency and provide respite services, must have successfully completed a home health aide training program, as described in 42 CFR 484.36(a)(1) and (2); or have successfully completed a home health aide training program described in the New Mexico regulations governing home health agencies, Section 7.28.2 NMAC.

J. Qualifications of nutritional counseling providers: Nutritional counseling must be furnished by a licensed dietitian registered by the commission on dietetic registration of the American dietetic association, Nutrition and Dietetics Practice Act, Section 61-7A-1, NMSA 1978.

K. Qualifications of specialized medical equipment and supplies providers: Specialized medical equipment and supplies providers must have a business license for the locale they are in, a tax identification (ID) number for state and federal government, proof of fiscal solvency, proof of use of approved accounting principles, meet bonding required by the department of health (DOH), and comply with timeliness standards for this service.

L. Qualifications of an environmental modification provider agency: An environmental modification contractor and his or her subcontractors and employees must be bonded, licensed by the New Mexico regulation and licensing department (RLD), and authorized by DOH to complete the specified project. All services shall be provided in accordance with applicable federal, state and local building codes.

[8.314.3.10 NMAC - Rp, 8 .314.3.10 NMAC, 3/1/2018; A, 7/1/2019]

8.314.3.11 PROVIDER RESPONSIBILITIES:

A. A provider who furnishes services to an eligible recipient must comply with all federal and state laws, regulations, rules, and executive orders relevant to the provision of services as specified in the MAD provider participation agreement and the DOH provider agreement. A provider also must meet and adhere to all applicable NMAC rules and instructions as specified in the MAD provider rules manual and its appendices, MFW service standards, MFW service definitions, and program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and the centers for medicare and medicaid services (CMS) correct coding initiatives, including not improperly unbundling or upcoding services. Provider must maintain current knowledge and adherence to MFW requirements.

B. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services provided to recipients. See Section 8.302.1 NMAC.

[8.314.3.11 NMAC - Rp, 8 .314.3.11 NMAC, 3/1/2018]

8.314.3.12 ELIGIBLE RECIPIENTS:

A. Enrollment in the MFW program is contingent upon the applicant meeting the eligibility requirements as described in this rule, the availability of funding as appropriated by the New Mexico legislature, and the number of federally authorized unduplicated eligible recipients. Once an allocation has been offered to the applicant, he or she must meet certain medical and financial criteria in order to qualify. This criteria is contained in Section 8.290.400 NMAC. The eligible recipient must meet the LOC required for admittance to an ICF/IID. After initial eligibility has been established for a recipient, on-going eligibility must be determined on an annual basis.

B. Eligibility is limited to individuals who in addition to a developmental disability, developmental delay, or are at risk of developmental delay, have a medically fragile condition, diagnosed before the age of 22, defined as a chronic physical condition, which results in a prolonged dependency on medical care for which daily skilled (nursing) intervention is medically necessary and is characterized by one or more of the following:

(1) a life threatening condition characterized by reasonably frequent periods of acute exacerbation which require frequent medical supervision, or physician consultation and which in the absence of such supervision or consultation, would require hospitalization;

(2) a condition requiring frequent, time consuming administration of specialized treatments which are medically necessary; or

(3) dependence on medical technology such that without the technology a reasonable level of health could not be maintained; examples include but are not limited to ventilators, dialysis machines, enteral or parenteral nutrition support and continuous oxygen.

[8.314.3.12 NMAC - Rp, 8 .314.3.12 NMAC, 3/1/2018]

8.314.3.13 COVERED WAIVER SERVICES:

The services covered by the MFW program are intended to provide a home and community-based alternative to institutional care for an eligible recipient. In all services covered under the MFW the recipient has the right to privacy, dignity, and respect. The recipient further has the right to freedom from coercion and restraint. The MFW program covers the following services for a specified number of medically fragile recipients. The program is limited by the number of federally authorized unduplicated recipient (UDR) positions and program funding.

A. Case management services: Case management services assist recipients in gaining access to needed waiver and other state plan services, as well as medical, social, educational, and other services regardless of the funding source for the services. Case management services are offered in a manner that allows direct communication between the case manager, the recipient, and the family and appropriate service personnel. Case managers provide a link between recipients and care providers and coordinate the use of community resources needed for that care. At least every other month, the case manager conducts a face-to-face contact with the recipient, and on a monthly basis conducts a telephonic or electronic contact with the recipient. The scope of the case manager's duties includes the following:

(1) identifying medical, social, educational, family and community support resources;

(2) scheduling and coordinating timely interdisciplinary team (IDT) meetings to develop and modify the ISP annually and as needed by any team member;

(3) documenting contacts with the recipient and providers responsible for delivery of services to the recipient;

(4) verifying eligibility on an annual basis;

(5) ensuring the medically fragile long-term care assessment abstract (LTCAA) is completed and signed by the physician, physician assistant or clinical nurse practitioner (CNP);

(6) submitting the LOC packet including the LTCAA to the third-party assessor (TPA) contractor for prior authorization on a timely basis;

(7) ensuring the waiver review form (MAD 046) is submitted timely, both annually and as needed;

(8) initiating an ongoing monitoring process that provides for evaluation of delivery, effectiveness, appropriateness of services and support provided to the recipient as identified in the ISP;

(9) performing an annual recipient satisfaction survey; and

(10) coordinating services provided though the MFW program and other sources (state plan, family infant toddler (FIT), commercial insurance, educational and community).

B. Home health aide: Home health aide services are covered under the state plan as expanded early and periodic screening, diagnosis and treatment EPSDT benefits for waiver participants under the age of 21. Home health aide services are provided in the eligible recipient's own home or in the community. Home health aide services provide total care or assist a recipient in all activities of daily living. Total care is defined as: the provision of bathing (bed, sponge, tub, or shower), shampooing (sink, tub, or bed), care of nails and skin, oral hygiene, toileting and elimination, safe transfer techniques and ambulation, normal range of motion and positioning, adequate oral nutrition and fluid intake. The home health aide services assist the recipient in a manner that promotes an improved quality of life and a safe environment for the recipient. Home health aide services can be provided outside the recipient's home. Home health aides perform simple procedures such as an extension of therapy services, bowel and bladder care, ostomy site care, personal care, ambulation and exercise, household services essential to health care at home, assistance with medications that are normally self-administered, reporting changes in patient conditions and needs, and completing appropriate records. Home health aides may provide basic non-invasive nursing assistant skills within the scope of their practice.

C. Private duty nursing: Private duty nursing services are covered under the state plan as expanded EPSDT benefits for waiver recipients under the age of 21. Private duty nursing services are provided in the eligible recipient's own home and in the community and include activities, procedures and treatment for a physical condition, physical illness, or chronic disability. Services may include medication management; administration and teaching; aspiration precautions; feeding management such as gastrostomy and jejunostomy; skin care; weight management; urinary catheter management; bowel and bladder care; wound care; health education; health screening; infection control; environmental management for safety; nutrition management; oxygen management; seizure management and precautions; anxiety reduction; staff supervision; and behavior and self-care assistance. DOH requires certain standards to

be maintained by the private duty nursing care provider with which it contracts. In carrying out their role for DOH, private duty nursing care agencies must:

(1) employ only RNs and LPNs licensed in the state of New Mexico;

(2) assure that all nurses delivering services are culturally sensitive to the needs and preferences of the recipients and their families. Based upon the recipient's individual language needs or preferences, nurses may be requested to communicate in a language other than English;

(3) inform the case manager immediately of the agency's inability to staff according to the ISP;

(4) develop and implement an individual nursing plan in conjunction with the recipient's physician and case manager in a manner that identifies and fulfills the recipient's specific needs;

(5) document all assessments, observations, treatments and nursing interventions;

(6) document and report to the case manager any non-compliance with the ISP; and

(7) document any incidence of recipient harm, medication error, or other adverse event in accordance with the New Mexico Nursing Practice Act.

D. Skilled therapy services for adults: Skilled therapy services are covered under the state plan as expanded EPSDT benefits for waiver recipients under the age of 21. Adults access therapy services under the state plan for acute and temporary conditions that are expected to improve significantly in a reasonable and generally predictable period of time. Waiver services are provided when the limits of the state plan skilled therapy services are exhausted. The amount, duration, and goals of skilled therapy services must be included in an ISP. A therapy treatment plan must be developed with the initiation of therapy services and updated at least every six months. The therapy treatment plan includes the following: developmental status of the recipient in areas relevant to the service provided; treatment provided, including the frequency and duration; and recommendation for continuing services and documentation of results. Skilled maintenance therapy services specifically include the following:

(1) Physical therapy: Physical therapy services promote gross/fine motor skills, facilitate independent functioning or prevent progressive disabilities. Specific services may include: professional assessment(s), evaluation(s) and monitoring for therapeutic purposes; physical therapy treatments and interventions; training regarding physical therapy activities, use of equipment and technologies or any other aspect of the individual's physical therapy services; designing, modifying or monitoring use of related environmental modifications; designing, modifying, and monitoring use of related

activities supportive to the ISP goals and objectives; and consulting or collaborating with other service providers or family members, as directed by the recipient.

(2) Occupational therapy: Occupational therapy services promote fine motor skills, coordination, sensory integration, or facilitate the use of adaptive equipment or other assistive technology. Specific services may include: teaching of daily living skills; development of perceptual motor skills and sensory integrative functioning; design, fabrication, or modification of assistive technology or adaptive devices; provision of assistive technology services; design, fabrication, or applying selected orthotic or prosthetic devices or selecting adaptive equipment; use of specifically designed crafts and exercise to enhance function; training regarding occupational therapy activities; and consulting or collaborating with other service providers or family members, as directed by the recipient.

(3) Speech language therapy: Speech language therapy services preserve abilities for independent function in communication; facilitate oral motor and swallowing function; facilitate use of assistive technology, or prevent progressive disabilities. Specific services may include: identification of communicative or oropharyngeal disorders and delays in the development of communication skills; prevention of communicative or oropharyngeal disorders and delays in the development of communication skills; development of eating or swallowing plans and monitoring their effectiveness; use of specifically designed equipment, tools, and exercises to enhance function; design, fabrication, or modification of assistive technology or adaptive devices; provision of assistive technology services; adaptation of the recipient’s environment to meet his/her needs; training regarding speech language therapy activities; and consulting or collaborating with other service providers or family members, as directed by the recipient.

E. Behavior support consultation services: This medicaid waiver provides services to assist the medically fragile recipient, his or her parents, family members or primary care givers. Behavior support consultation includes assessment, treatment, evaluation and follow-up services to assist the recipient, parents, family members or primary care givers with the development of coping skills which promote or maintain the recipient in a home environment. Behavior support consultation:

(1) informs and guides the recipient's providers with the services and supports as they relate to the recipient’s behavior and his/her medically fragile condition;

(2) identifies support strategies to ameliorate contributing factors with the intention of enhancing functional capacities, adding to the provider's competency to predict, prevent and respond to interfering behavior and potentially reducing interfering behavior(s);

(3) supports effective implementation based on a functional assessment;

(4) collaborates with medical and ancillary therapies to promote coherent and coordinated services addressing behavioral issues and to limit the need for psychotherapeutic medications; and

(5) monitors and adapts support strategies based on the response of the recipient and his/her service and support providers. Based on the recipient's ISP, services are delivered in an integrated/natural setting or in a clinical setting.

F. Respite care services: The IDT is responsible for determining the need for respite care. Respite services are provided to recipients unable to care for themselves that are furnished on a short-term basis to allow the primary caregiver a limited leave of absence in order to reduce stress, accommodate caregiver illness, or meet a sudden family crisis or emergency. Respite care is provided in the eligible recipient's own home, in a private residence of a respite care provider, or in a specialized foster care home. The recipient or the recipient's authorized representative has the option and gives final approval of where the respite services will be provided. Respite services include: medical and non-medical health care; personal care bathing; showering; skin care; grooming; oral hygiene; bowel and bladder care; catheter and supra-pubic catheter care; preparing or assisting in preparation of meals and eating; as appropriate, administering enteral feedings; providing home management skills; changing linens; making beds; washing dishes; shopping; errands; calls for maintenance; assisting with enhancing self-help skills; promoting use of appropriate interpersonal communication skills and language; working independently without constant supervision/observation; providing body positioning, ambulation and transfer skills; arranging for transportation to medical or therapy services; assisting in arranging health care needs and follow-up as directed by the primary care giver, physician, and case manager; ensuring the health and safety of the recipient at all times. Respite services are limited to 14 days or 336 hours per budget year.

G. Nutritional counseling: Nutritional counseling is designed to meet the unique food and nutrition requirements of recipients with medical fragility and developmental disabilities. Examples of recipients who may require nutritional counseling are children or adults with specific illnesses such as failure to thrive, gastroesophageal reflux, dysmotility of the esophagus and stomach etc., or who require specialized formulas, or receive tube feedings or parenteral nutrition. This does not include oral-motor skill development such as that provided by a speech language pathologist. Nutritional counseling services include assessment of the recipient's nutritional needs, regimen development, or revisions of the recipient's nutritional plan, counseling and nutritional intervention and observation and technical assistance related to implementation of the nutritional plan. These services advise and help recipients obtain appropriate nutritional intake by integrating information from the nutritional assessment with information on food, other sources of nutrients, and meal preparation consistent with cultural backgrounds and socioeconomic status. These services can be delivered in the home.

H. Specialized medical equipment and supplies: This medicaid waiver provides specialized medical equipment and supplies which include:

(1) devices, controls or appliances specified in the plan of care that enable recipients to increase their ability to perform activities of daily living;

(2) devices, controls, or appliances that enable the recipient to perceive, control, or communicate with the environment in which they live;

(3) items necessary for life support or to address physical conditions along with ancillary supplies and equipment necessary to the proper functioning of such items;

(4) such other durable and non-durable medical equipment not available under the state plan that is necessary to address recipient functional limitations; and

(5) necessary medical supplies not available under the state plan. Items reimbursed with waiver funds are in addition to any medical equipment and supplies furnished under the state plan and exclude those items that are not of direct medical or remedial benefit to the recipient. The costs of maintenance and upkeep of equipment are included in the cost of equipment and supplies. All items must meet applicable standards of manufacture, design, and installation. Medical equipment and supplies that are furnished by the state plan are not covered under this service. This service does not include nutritional or dietary supplements, disposable diapers, bed pads, or disposable wipes.

I. Environmental modifications: Environmental modifications include the purchasing and installing of equipment or making physical adaptions to an eligible recipient's residence that are necessary to ensure the health, welfare and safety of the eligible recipient or enhance his or her access to the home environment and increase his or her ability to act independently.

(1) Adaptations, installations and modifications include:

(a) heating and cooling adaptations;

(b) fire safety adaptations;

(c) turnaround space adaptations;

(d) specialized accessibility, safety adaptations or additions;

(e) installation of specialized electric and plumbing systems to accommodate medical equipment and supplies;

(f) installation of trapeze and mobility tracks for home ceilings;

(g) installation of ramps;

(h) widening of doorways or hallways;

(i) modification of bathroom facilities (roll-in showers, sink, bathtub and toilet modification, water faucet controls, floor urinals and bidet adaptations and plumbing);

(j) purchase or installation of air filtering devices;

(k) purchase or installation of lifts or elevators;

(l) purchase and installation of glass substitute for windows and doors;

(m) purchase and installation of modified switches, outlets or environmental controls for home devices; and

(n) purchase and installation of alarm and alert systems or signaling devices.

(2) Excluded are those adaptations or improvements to the home that are of general utility and are not of direct medical or remedial benefit to the eligible recipient. Adaptations that add to the total square footage of the home are excluded from this benefit except when necessary to complete an adaptation (e.g., in order to improve entrance/egress to an eligible recipient's residence or to configure a bathroom to accommodate a wheelchair).

(3) Environmental modification services must be provided in accordance with applicable federal, state and local building codes.

(4) Environmental modification services are limited to $5,000 every five years. An

eligible recipient transferring into the medically fragile program, from another HCBS waiver, will carry his or her history for the previous five years of HCBS reimbursed environmental modifications.

[8.314.3.13 NMAC - Rp, 8.314.3.13 NMAC, 3/1/2018 A, 7/1/2019]

8.314.3.14 NON-COVERED SERVICES:

Only services listed as covered waiver services are covered under the waiver program. Ancillary services can be available to waiver recipients through the MAP state plan services. These ancillary services are subject to the limitations and coverage restrictions which exist for other MAP services. See Section 8.301.3 NMAC for an overview of non-covered services.

[8.314.3.14 NMAC - Rp, 8 .314.3.14 NMAC, 3/1/2018]

8.314.3.15 INDIVIDUALIZED SERVICE PLAN:

The CMS requires a person-centered individualized service plan (ISP) for each individual receiving services through a HCBS waiver program. The ISP is developed annually through an ongoing person-centered planning process.

A. The case manager assists the recipient in identifying his/her dreams, goals, preferences and outcomes for service. The case manager obtains information about the recipient's strengths, capacities, needs, preferences, desired outcomes, health status, and risk factors. This information is gained through a review of the LOC assessment; interviews between the case manager and recipient; and the person-centered planning process that takes place between the case manager and recipient to develop the ISP.

B. The ISP addresses: activities of daily living assistance needs, health care needs, equipment needs, relationships in the home and community, personal safety and provider responsibilities.

C. During the pre-planning process, the case manager provides the recipient with information about the MFW program. The case manager provides information about the range and scope of service choices and options, as well as the rights, risks, and responsibilities associated with the MFW program. The case manager is responsible for completing the CIA and obtaining other medical assessments needed for the ISP; completing the annual LOC redetermination process; and referring the recipient to the New Mexico human services department (HSD) income support division (ISD) for financial eligibility determination annually and as needed.

D. The case manager works with the recipient to identify service providers to participate in the IDT meeting. State approved providers are selected from a list provided by the case manager. The recipient sets the date and time of the IDT meeting. The case manager works with the recipient to plan the IDT meeting and encourages him/her to lead the IDT meeting to the extent possible.

E. The case manager assists the recipient in ensuring that the ISP addresses the recipient's goals, health, safety and risks along with addressing the information or concerns identified through the assessment process. The case manager writes up the ISP as identified in the IDT meeting. Each provider develops care activities and strategies for each outcome, goal, and objective identified at the IDT meeting. The case manager assures the ISP budget is within the capped dollar amount (CDA). To ensure continuity of care, additional funding is available for an eligible recipient's ISP budget that exceeds the CDA due to the impact of provider rate increases. Requests for additional funding are submitted by the case manager to the TPA contractor for review. Implementation of the ISP begins when provider service plans have been received by the case manager and recipient, and the plan and budget have been approved by the TPA contractor.

F. The case manager ensures for each recipient that:

(1) the plan addresses the recipient's needs and personal goals in medical supports needed at home for health and wellness;

(2) services selected address the recipient's needs as identified during the assessment process; needs not addressed in the ISP are addressed through resources outside the MF waiver program;

(3) the outcomes of the assessment process for assuring health and safety are considered in the plan;

(4) services do not duplicate or supplant those available to the recipient through the medicaid state plan or other public programs;

(5) services are not duplicated in more than one service code;

(6) the parties responsible for implementing the plan are identified and listed within the document;

(7) the back-up plans are complete; and

(8) the ISP is submitted to and reviewed by the TPA contractor in compliance with the MF waiver service standards.

G. The ISP is updated if personal goals, needs or life circumstances change that may or may not result in a change of the LOC. Revisions may be requested by the recipient. Each member of the IDT may request an IDT meeting to address changes or challenges. The case manager contacts the recipient to initiate revisions to the budget. The case manager initiates the scheduling of IDT meetings and assures the IDT meeting is in compliance with the MF waiver service standards.

H. The case manager is responsible for monitoring the ISP pre-planning and development process. The case management agency conducts internal quality improvement monitoring of service plans. The ISP is monitored monthly via phone, electronically, and face-to-face by the case manager.

I. After the initial ISP, the IDT reviews the ISP at least annually or more often as needed, in order to assess progress toward goal achievement and determine any needed revisions in care.

[8.314.3.15 NMAC - Rp, 8 .314.3.15 NMAC, 3/1/2018; A, 7/1/2019]

8.314.3.16 UTILIZATION REVIEW:

All medicaid services, including services covered under the MFW, are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before

payment is made, or after payment is made. See Section 8.310.2.14 NMAC. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. Prior approval: To be eligible for MFW program services, recipients must require an ICF/IID LOC and meet the eligibility requirements defined in Subsection B of Section 8.314.3.12 NMAC. LOC determinations are made by MAD or its designee. The ISP must specify the type, amount and duration of services. Certain procedures or services specified in the ISP can require prior approval from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior approval of services does not guarantee that individuals are eligible for MAP. Providers must verify that individuals are eligible for MAP at the time services are furnished and determine if recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior approval request denials or other review decisions can request a re-review and reconsideration. See Section 8.350.2 NMAC.

[8.314.3.16 NMAC - Rp, 8 .314.3.16 NMAC, 3/1/2018]

8.314.3.17 REIMBURSEMENT:

Waiver service providers must submit claims for reimbursement to MAD's fiscal contractor for processing. Claims must be filed per the billing instructions in the medicaid policy manual. Providers must follow all medicaid billing instructions. See Section 8.302.2 NMAC. Once enrolled, providers receive instructions on documentation, billing, and claims processing. Reimbursement to providers of medicaid waiver services is made at a predetermined reimbursement rate.

[8.314.3.17 NMAC - Rp, 8 .314.3.17 NMAC, 3/1/2018]

8.314.3.18 RIGHT TO A HSD ADMINISTRATIVE HEARING:

A. Pursuant to 42 CFR Section 431.220(a)(1) and (2), Section 27-3-3 NMSA 1978 an eligible recipient may request a HSD administrative hearing to appeal an adverse action or adverse decision. See Section 8.352.2 NMAC for a description of the HSD administrative hearing process. In addition to adverse actions defined in Section 8.352.2 the recipient may request an administrative hearing in the following circumstances:

(1) when an applicant has been determined not to meet the LOC requirement for medically fragile waiver program services; and

(2) when an applicant has not been given the choice of HCBS as an alternative to institutional care.

B. DOH and its counsel, if necessary, shall participate in any relevant HSD administrative hearing involving an eligible recipient. HSD's office of general counsel may elect to participate in the administrative hearing. See Section 8.352.2 NMAC for a complete description, instructions, and hearing process of a HSD administrative hearing for an eligible recipient.

[8.314.3.18 NMAC - N, 3/1/2018]

8.314.3.19 CONTINUATION OF BENEFITS PURSUANT TO TIMELY APPEAL:

A. Continuation of benefits may be provided to an eligible recipient who requests a HSD administrative hearing within the timeframe defined in Section 8.352.2 NMAC.

B. The continuation of a benefit is only available to an eligible recipient that is currently receiving the appealed benefit. The continuation of the benefit will be the same as the eligible recipient's current allocation, budget or LOC. See Section 8.352.2 NMAC for a complete description, instructions and process of a HSD administrative hearing and continuation of benefits process of a MAP eligible recipient.

[8.314.3.19 NMAC - N, 3/1/2018]

8.314.3.20 GRIEVANCE SYSTEM:

An eligible recipient has the opportunity to register a grievance or complaint concerning the MFW program. An eligible recipient may register complaints with DOH via e-mail, mail or phone. Complaints will be referred to the appropriate DOH division or as appropriate referred to MAD for resolution. The filing of a complaint or grievance does not preclude an eligible recipient from pursuing a HSD administrative hearing. The eligible recipient is informed that filing a grievance or complaint is not a prerequisite or substitute for requesting a HSD administrative hearing.

PART 4: ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS) OR AIDS-RELATED CONDITION HOME AND COMMUNITY-BASED SERVICES WAIVER [REPEALED]

[This part was repealed effective July 15, 2014.]

PART 5: DEVELOPMENTAL DISABILITIES HOME AND COMMUNITY-BASED SERVICES WAIVER

8.314.5.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.314.5.1 NMAC - Rp, 8.314.5.1 NMAC, 12/1/2018; A, 7/1/2024]

8.314.5.2 SCOPE:

The rule applies to the general public.

[8.314.5.2 NMAC - Rp, 8.314.5.2 NMAC, 12/1/2018]

8.314.5.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.314.5.3 NMAC - Rp, 8.314.5.3 NMAC, 12/1/2018; A, 7/1/2024]

8.314.5.4 DURATION:

Permanent.

[8.314.5.4 NMAC - Rp, 8.314.5.4 NMAC, 12/1/2018]

8.314.5.5 EFFECTIVE DATE:

December 1, 2018, unless a later date is cited at the end of a section.

[8.314.5.5 NMAC - Rp, 8.314.5.5 NMAC, 12/1/2018]

8.314.5.6 OBJECTIVE:

The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs (MAP).

[8.314.5.6 NMAC - Rp, 8.314.5.6 NMAC, 12/1/2018]

8.314.5.7 DEFINITIONS:

A. Activities of daily living (ADLs): Basic personal everyday activities that include bathing, dressing, transferring (e.g., from bed to chair), toileting, oral care, mobility and eating, and skills necessary to maintain the normal routines of the day such as

housekeeping, shopping and preparing meals. The term also includes exercising, personal, social and community skills.

B. Adult: An individual who is 18 years of age or older.

C. Authorized representative: HSD must permit applicants and beneficiaries to designate an individual or organization to act responsibly on their behalf in assisting with the individual's application and renewal of eligibility and other ongoing communications. Such a designation must be in writing including the applicant's signature and must be permitted at the time of application and at other times. Legal documentation of authority to act on behalf of an applicant or beneficiary under state law, such as a court order establishing legal guardianship or a power of attorney, shall serve in the place of written authorization by the applicant or beneficiary. Representatives may be authorized to; sign an application on the applicant's behalf; complete and submit a renewal form; receive copies of the applicant or beneficiary's notices and other communications from the agency; and act on behalf of the applicant or beneficiary in all other matters with the agency. The power to act as an authorized representative is valid until the applicant or beneficiary modifies the authorization or notifies the agency that the representative is no longer authorized to act on their behalf, or the authorized representative informs the agency that they are no longer acting in such capacity, or there is a change in the legal authority upon which the individual's or organization's authority was based. Such notice must be in writing and should include the applicant or authorized representative's signature as appropriate. The authorized representative is responsible for fulfilling all responsibilities encompassed within the scope of the authorized representation to the same extent as the individual they represent, and must agree to maintain, or be legally bound to maintain, the confidentiality of any information regarding the applicant or beneficiary provided by the agency. As a condition of serving as an authorized representative, a provider, staff member or volunteer of an organization must sign an agreement that they will adhere to the regulations relating to confidentiality (relating to the prohibition against reassignment of provider claims as appropriate for a health facility or an organization acting on the facility's behalf), as well as other relevant state and federal laws concerning conflicts of interest and confidentiality of information (42 CFR 435.923).

D. Child: An individual under the age of 18. For purpose of early periodic screening, diagnosis and treatment (EPSDT) services eligibility,"child" is defined as an individual under the age of 21.

E. Developmental disabilities supports division (DDSD): Operating agency that oversees daily administration of New Mexico's 1915c home and community-based waiver programs.

F. Electronic visit verification (EVV): A telephone and computer-based system that electronically verifies the occurrence of selected services, as required by the 21st Century CURES Act. The EVV system verifies the occurrence of authorized service visits electronically by documenting the precise time and location where service delivery

visit begins and ends. EVV is implemented according to federal requirements and timelines. The 21st Century CURES Act requires EVV for personal care services (PCS), defined as services that provide assistance with activities of daily living (ADLs) or instrumental activities for daily living (IADLs) effective January 1, 2020 and for home health services effective January 1, 2023.

G. Individual service plan (ISP): A person-centered plan for an eligible recipient that includes their needs, functional levels, intermediate and long-range outcomes for achieving their goals and specifies responsibilities for the eligible recipient's support needs. The ISP enables and assists the recipient to identify and access a personalized mix of paid waiver and non-paid services and supports that assists them to achieve personally defined outcomes in the community.

H. Person centered planning (PCP): Person centered planning is a process that places a person at the center of planning their life and supports. It is an ongoing process that is the foundation for all aspects of the DDW program and DDW service provider's work with individuals with I/DD. The process is designed to identify the strengths, capacities, preferences, needs, and desired outcomes of the recipient. The process may include other persons, freely chosen by the individual, who are able to serve as important contributors to the process. It involves person centered thinking, person centered service planning and person- centered practice.

I. Supporting documentation: Sufficient information and documentation that demonstrates the request for initial and ongoing developmental disabilities waiver (DDW) services is necessary and appropriate based on the service specific DDW clinical criteria established by the developmental disabilities support division (DDSD) for adult recipients excluding former class members of Walter Stephen Jackson, et al vs. Fort Stanton Hospital and Training School et. al, (757 F. Supp. 1243 DNM 1990). Examples of supporting documentation include but are not limited to: the DDW therapy documentation form (TDF), intensive medical living supports (IMLS) and adult nursing services parameter tools, electronic comprehensive health assessment tool (e-Chat), all other assessments, clinical notes, progress notes, interdisciplinary team (IDT) meeting minutes, letters or reports from physicians or ancillary service providers that provide sufficient clinical information that demonstrates the need for requested services, etc. Any relevant supporting information and documentation is acceptable and will be considered by the outside reviewer.

J. Third party assessor (TPA): The medical assistance division (MAD) contractor who determines level of care and medical eligibility for the developmental disabilities waiver and other 1915c waiver programs.

K. Waiver: Permission from the centers for medicaid and medicare services (CMS) to cover supports for a particular population or service not ordinarily allowed.

L. Young adult: An individual between the ages of 18 through 20 years of age who is allocated to the DDW and is receiving specific services as identified in the

DOH/DDSD standards. An individual under age 21 is eligible for medical services funded by their medicaid providers under EPSDT. Upon the individual's 21st birthday, they are considered to be an adult recipient of DDW services.

[8.314.5.7 NMAC - Rp. 8.314.5.7 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.8 SAFEGUARDS CONCERNING RESTRAINTS, RESTRICTIONS AND SECLUSION:

A. Seclusion and isolation is prohibited during waiver services.

B. Use of restraints or restrictions is only permitted during the course of delivery of waiver services under strict limitations and oversight.

(1) Certain specific interventions are considered ethically unacceptable for application and, as such, are unequivocally prohibited. Interventions that are prohibited include but are not limited to:

(a) contingent electrical aversion procedures;

(b) seclusion and isolation;

(c) use of time out (for an adult);

(d) use of mechanical or chemical restraints;

(e) use of manual application of any physical restraint, except in emergent situations involving imminent risk of harm to self or others (personal restraints);

(f) overcorrection;

(g) forced physical guidance;

(h) forced exercise;

(i) withholding food, water, or sleep;

(j) public or private humiliation including overreliance on prescribed protective gear or recommended assistive technology that is applied for programmatic convenience, calls undue attention to someone, and is therefore humiliating to the person supported; or

(k) application of water mist, noxious taste, smell, or skin agents.

(l) privacy violations such as body checks and electronic surveillance, remote monitoring in private areas such as bathrooms or bedrooms; or

(m)restricting a person from exiting their home using locks on doors and windows.

(2) Use of restrictive interventions must be documented in the individual's positive behavior support plan or behavioral crisis intervention plan or risk management plan and must be reviewed by the human rights committee prior to implementation.

(3) Chemical restraint is defined as the administration of medication at a dose or frequency to intentionally and exclusively preclude behavior without identifying an underlying anxiety, fear or severe emotional distress or other symptoms of psychiatric/emotional disturbance to be eased, managed or treated. The administration may be regularly scheduled or on a pro re nata (PRN), or"as needed" basis. The use of chemical restraints is prohibited.

(4) The administration of PRN psychotropic medication is allowed when prescribed in advance by the prescribing professional. A PRN psychotropic medication plan is a collaborative document that outlines the behavioral indications for using the medication. A human rights committee must approve use of PRN psychotropic medication prior to its implementation and the procedures that direct support personnel (DSP) must use to gain approval for its implementation.

(5) Mechanical restraints are defined as the use of a physical device to restrict the individual's capacity for desired or intended movement including movement or normal function of a portion of their body. The use of mechanical restraints is prohibited.

(6) Use of any emergency physical restraints must be written into a behavioral crisis intervention plan only and approved by a human rights committee prior to its use. Personal restraints (i.e. emergency physical restraints) are used as a last resort, only when other less intrusive alternatives have failed and under limited circumstances that include protecting an individual or others from imminent, serious physical harm, or to prevent or minimize any physical or emotional harm to the individual. Staff must be trained in both nonphysical and physical interventions.

(7) Any individual for whom the use of emergency physical restraints or PRN psychotropic medications is allowed is required to have a positive behavioral supports assessment, positive behavior support plan, and a behavioral crisis intervention plan or PRN psychotropic medication plan completed by a behavior support consultant in conjunction with the individual's agency nurse and interdisciplinary team.

(8) Ethical, medical or behavioral concerns, use of live or recorded video monitoring/observational systems, and resolution of plans contested on the individual team or provider agency level in local human rights committees are heard and resolved in a statewide and state coordinated human rights committee.

[8.314.5.8 NMAC - N, 4/1/2022; A, 4/1/2024]

8.314.5.9 DEVELOPMENTAL DISABILITIES HOME AND COMMUNITY-BASED SERVICES WAIVER:

The New Mexico medical assistance division (MAD) has obtained a waiver from certain medicaid payment and benefit statutes (42 CFR 441.300) to provide home and community-based services (HCBS) to eligible recipients as an alternative to institutionalization. DDW services are intended to enhance, not replace, existing natural supports and other available community resources. Services will emphasize and promote the use of natural and generic supports to address the eligible recipient's assessed needs in addition to paid supports. Provider agencies are required to ensure the settings in which they provide services meet the below requirements. All providers have a responsibility to monitor settings for compliance; monitor that waiver recipients are given choices; and, ensure rights are respected. DDW services must be provided in a setting that:

A. is integrated in and facilitates full access to the greater community;

B. ensures the individual receives services in the community to the same degree of access as individuals not receiving medicaid HCBS;

C. maximizes independence in making life choices;

D. is chosen by the individual (in consultation with the guardian if applicable) from among residential and day options, including non-disability specific settings;

E. ensures the right to privacy, dignity, respect and freedom from coercion and restraint;

F. supports health and safety based upon the individual's needs, decisions or desires;

G. optimizes individual initiative, autonomy and independence in making life choices;

H. provides an opportunity to seek competitive employment;

I. provides individuals an option to choose a private unit in a residential setting; and

J. facilitates choice of services and who provides them.

[8.314.5.9 NMAC - Rp, 8.314.5.9 NMAC, 12/1/2018; A, 4/1/2022]

8.314.5.10 ELIGIBLE PROVIDERS:

A. Health care to eligible recipients is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by

MAD. Upon approval of a New Mexico MAD provider participation agreement (PPA) by MAD or its designee, licensed practitioners, facilities, and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to eligible recipients. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HSD/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including New Mexico administrative code (NMAC) rules, billing instructions, utilization review instructions, EVV requirements and instructions, service definitions and service standards and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HSD or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD PPA and all applicable statutes, regulations, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only.

B. All DDW eligible providers must be approved by DOH or its designee and have an approved MAD PPA and a DOH provider agreement.

C. MAD through its designee, DOH/DDSD, follows a subcontractor model for certain DDW services. The agency, following the DOH/DDSD model, must ensure that its subcontractors or employees meet all required qualifications. The agency must provide oversight of subcontractors and supervision of employees to ensure that all required MAD and DOH/DDSD qualifications and service standards are met. In addition, the agency must provide oversight and supervision of subcontractors and employees to ensure that services are delivered in accordance with all requirements set forth by the DOH/DDSD DDW service definition, all requirements outlined in the DDW services standards, applicable NMAC rules, MAD supplements, and as applicable, their New Mexico licensing board's scope of practice and licensure. Pursuant to federal regulations, an agency may not employ or subcontract with the spouse of an eligible recipient or the parent of an eligible recipient under 18 years of age to provide direct care services to the eligible recipient.

D. Qualifications of case management provider agency: A case management provider agency, its case managers, whether subcontractors or employees must comply with 8.314.5.10 NMAC. In addition, case management provider agency must ensure that a case manager meets the following qualifications:

(1) one year of clinical experience, related to the target population; and

(2) one or more of the following:

(a) hold a current social worker license as defined by the New Mexico regulation and licensing department (RLD); or

(b) hold a current registered nurse (RN) license as defined by the New Mexico board of nursing; or

(c) hold a bachelor's or master's degree in social work, psychology, sociology, counseling, nursing, special education, or a closely related field or have a minimum of six years of direct experience related to the delivery of social services to people with disabilities; or

(d) have a high school diploma or GED and a minimum of six years of direct experience related to the delivery of social services to people with disabilities.

(3) comply with all training requirements as specified by DOH/DDSD; and

(4) have received written notification from DOH that they do not have a disqualifying conviction after submitting to the caregiver criminal history screening (CCHS);

(5) does not provide any direct waiver services through the same 1915 (c) HCBS waiver program; and

(6) any exception to the above must be approved by DOH/DDSD.

E. Qualifications of respite provider agency: A respite provider agency must comply and ensure that all direct support personnel, whether subcontractors or employees, comply with 8.314.5.10 NMAC. In addition, respite provider agencies and direct support personnel must:

(1) comply with all training requirements as specified by DOH;

(2) have and maintain documentation of current cardiopulmonary resuscitation (CPR) and first aid certification;

(3) have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS; and

(4) comply with all EVV requirements as defined by the 21st Century CURES Act and implemented by MAD including but not limited to documenting service provision using the approved EVV system.

F. Qualifications of adult nursing provider agencies: Adult nursing provider agencies must ensure all subcontractors or employees, including nurses, comply with DOH DDW service definitions, DDW service standards, applicable NMAC rules, MAD billing instructions, utilization review instructions, and supplements, and applicable

federal and state laws, rules and statutes. Direct nursing services shall be provided by a New Mexico licensed RN or licensed practical nurse (LPN), have a minimum of one year experience as a licensed nurse, and must comply with all aspects of the New Mexico Nursing Practice Act, including supervision and delegation requirements of specific nursing function and 8.314.5.10 NMAC.

G. Qualifications of therapy provider agency: A therapy provider agency must comply and ensure that each of its therapists including physical therapists (PT), occupational therapists (OT), and speech therapists (SLP), physical therapy assistants (PTA), and certified occupational therapy assistants (COTA), whether a subcontractor or employee complies with 8.314.5.10 NMAC.

H. Qualifications for living supports provider agency: Living supports consist of family living, supported living, and intensive medical living supports. A living supports provider agency must comply with the accreditation policy and all requirements set forth by the DOH, DDW service definitions, all requirements outlined in the DDW service standards and the applicable NMAC rules. A living supports provider agency must ensure that all direct support personnel, whether subcontractor or employees, meet all qualifications set forth by DOH, DDW service standards, and applicable NMAC rules.

(1) A living supports provider agency and direct support personnel must:

(a) comply with all training requirements as specified by DOH;

(b) have and maintain documentation of current CPR and first aid certification; and

(c) have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS.

(2) A family living provider agency must ensure that all direct support personnel, whether a subcontractor or employee, meet all qualifications set forth by DOH and the DDW service standards and the applicable NMAC rules. Legal guardians who are also natural or adoptive family members who meet the DOH/DDSD requirements and are approved to provide family living services may be paid for providing services.

A family living provider agency must employ or subcontract with at least one registered or licensed dietician or licensed nutritionist. A family living provider agency must also be an adult nursing services provider and must employ or subcontract with at least one licensed RN; employ or subcontract with at least one additional nurse for on call services and comply with the New Mexico Nurse Practice Act, including supervision and delegation requirements of specific nursing functions. The number of nurses (RNs and LPNs) must be sufficient to meet the routine and on call health care needs of the individuals. Both the direct support personnel employed by or subcontracting with the provider agency and the physical home setting must be approved through a home study

completed prior to the initiation of services, revised with any change in family composition, move to a new home, or other significant event and periodically thereafter as required of the provider agency.

(3) A supported living provider agency must ensure that all direct support personnel meet all qualifications set forth by DOH and the applicable NMAC rules and the DDW service standards. A supported living provider agency must employ or subcontract with at least one registered or licensed dietician or licensed nutritionist. The number of RD/LDs employed or under contract must be sufficient to meet the routine nutritional needs of the individuals. They must employ or subcontract with at least one licensed RN, employ or subcontract with at least one additional nurse for on call and services, and comply with the New Mexico Nurse Practice Act, including supervision and delegation requirements of specific nursing functions. The number of nurses (RNs and LPNs) must be sufficient to meet the routine and on call health care needs of the individuals.

(4) An intensive medical living supports provider agency must employ or subcontract with at least one registered or licensed dietician or licensed nutritionist. The number of RD/LDs employed or under contract must be sufficient to meet the routine nutritional needs of the individuals. They must employ or subcontract with at least one New Mexico licensed RN who must have a minimum of one year of nursing experience employ or subcontract with at least one additional nurse for on call services and comply with the New Mexico Nursing Practice Act including supervision and delegation requirements of specific nursing functions. The number of nurses (RNs and LPNs) must be sufficient to meet the routine and on call health care needs of the individuals.

I. Qualifications of a customized community supports provider agency: A customized community supports provider agency must comply with and ensure that all direct support personnel, whether subcontractor or employees, comply with 8.314.5.10 NMAC. A customized community supports provider agency and direct support personnel must:

(1) comply with all training requirements as specified by DOH;

(2) have and maintain documentation of current CPR and first aid certification; and

(3) have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS.

J. Qualifications of a community integrated employment provider agency: A community integrated employment provider agency must comply with and ensure that all direct support personnel, whether subcontractor or employees, comply with 8.314.5.10 NMAC. A community integrated employment provider agency and direct support personnel must:

(1) comply with all training requirements as specified by DOH;

(2) have and maintain documentation of current CPR and first aid certification; and

(3) have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS.

K. Qualifications of a behavioral support consultation provider agency: A behavioral support consultation provider agency must comply with and ensure that all behavioral support consultants, whether subcontractors or employees, comply with 8.314.5.10 NMAC.

(1) A provider of behavioral support consultation services must be currently licensed in one of the following professions and maintain that licensure with the appropriate RLD board or licensing authority:

(a) a licensed clinical mental health counselor (LMHC), or

(b) a licensed psychologist; or

(c) a licensed psychologist associate, (masters or Ph.D. level); or

(d) a licensed independent social worker (LISW) or a licensed clinical social worker (LCSW); or

(e) a licensed master social worker (LMSW); or

(f) a licensed professional clinical mental health counselor (LPCC); or

(g) a licensed marriage and family therapist (LMFT); or

(h) a licensed professional art therapist (LPAT); or

(i) Other related licenses and qualifications may be considered with DOH's prior written approval.

(2) Providers of behavioral support consultation services must have a minimum of one year of experience working with individuals with intellectual or developmental disabilities.

(3) Behavioral support consultation providers must participate in training in accordance with the DOH/DDSD training policy.

L. Qualifications of a nutritional counseling provider agency: A nutritional counseling provider agency must comply with and ensure that all nutritional counseling

providers, whether subcontractors or employees comply with 8.314.5.10 NMAC. In addition, a nutritional counseling provider must be registered as a dietitian or a licensed nutritionist by the commission on dietetic registration of the American dietetic association and be licensed by RLD as a nutrition counselor.

M. Qualifications of an environmental modification provider agency: An environmental modification contractor and their subcontractors and employees must be bonded, licensed by RLD, and authorized by DOH to complete the specified project. An environmental modification provider agency must comply with 8.314.5.10 NMAC. All services shall be provided in accordance with applicable federal, state and local building codes.

N. Qualifications of a crisis supports provider agency: A crisis supports provider agency must comply with and must ensure that direct support personnel, whether subcontractors or employees, comply with 8.314.5.10 NMAC. In addition, a crisis supports provider agency and direct support personnel must:

(1) comply with all training requirements as specified by DOH;

(2) have and maintain documentation of current CPR and first aid certification; and

(3) have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS.

O. Qualifications for a non-medical transportation provider agency: A non-medical transportation provider agency must comply with 8.314.5.10 NMAC. In addition, a non-medical transportation provider must have a business license and drivers must have a valid driver's license and not have a disqualifying conviction after submitting to the CCHS. Must have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS.

P. Qualifications of an assistive technology provider agency: An assistive technology purchasing agent provider and agency must comply with 8.314.5.10 NMAC, demonstrate fiscal solvency when functioning as a payee for this service. Assistive technology providers may also be the direct vendors of approved technology.

Q. Qualifications of an independent living transition service provider agency: An independent living transition service provider agency must comply with 8.314.5.10 NMAC, demonstrate fiscal solvency and function as a payee for this service.

R. Qualifications of a remote personal support technology provider agency: Remote personal support technology provider agencies must comply with 8.314.5.10 NMAC. This includes having a current business license and must demonstrate fiscal solvency and function as a payee of services. In addition, remote personal support technology

provider agencies must comply with all laws, rules, and regulations of the federal communications commission (FCC) for telecommunications.

S. Qualifications of a preliminary risk screening and consultation (PRSC) related to inappropriate sexual behavior provider agency: A PRSC provider agency must comply with 8.314.5.10 NMAC and all training requirements as specified by DOH. Additionally, the PRSC provider agency must subcontract with or employ the evaluator, who at a minimum must be:

(1) an RLD independently licensed behavioral health practitioner, such as an LPCC, LCSW, LMFT, LISW, or a psychologist; or

(2) a practitioner who holds a master's or doctoral degree in a behavior health related field from an accredited college or university.

T. Qualifications of a socialization and sexuality education provider agency: A socialization and sexuality education provider agency must comply with 8.314.5.10 NMAC. A provider agency must be approved by the DOH, bureau of behavioral support (BBS) as a socialization and sexuality education provider and must meet training requirements as specified by DOH. In addition, a socialization and sexuality education provider agency must employ or contract with a provider who has one of the following qualifications for rendering the service:

(1) a master's degree or higher in psychology;

(2) a master's degree or higher in counseling;

(3) a master's degree or higher in special education;

(4) a master's degree or higher in social work;

(5) a master's degree or higher in a related field;

(6) a RN or LPN;

(7) a bachelor's degree in special education or a related field such as psychology or social work;

(8) a certification in special education;

(9) a New Mexico level three recreational therapy instructional support provider license; or

(10) a certified therapeutic recreation therapist (CTRS) obtained through the national council for therapeutic recreation.

U. Qualifications of a customized in-home supports provider agency: A customized in-home supports provider agency must comply with and ensure that direct support personnel, whether subcontractors or employees, comply with 8.314.5.10 NMAC. Legal guardians who are also natural or adoptive family members, relatives, or natural family members that meet the DOH/DDSD requirements and are approved to provide customized in-home supports may be paid for providing services. A customized in-home supports provider agency and direct support personnel must:

(1) comply with all training requirements as specified by DOH;

(2) have and maintain documentation of current CPR and first aid certification; and

(3) have written notification from DOH that they do not have a disqualifying conviction after submitting to the CCHS.

(4) comply with all EVV requirements as defined by the 21st Century CURES Act and implemented by MAD including but not limited to documenting service provision using the approved EVV system.

V. Qualifications of a supplemental dental care provider agency: A supplemental dental care provider agency must comply with 8.314.5.10 NMAC. A supplemental dental care provider must contract with a New Mexico licensed dentist and dental hygienist who are licensed by RLD. The supplemental dental care provider will ensure that a RLD licensed dentist provides the oral examination; ensure that a RLD licensed dental hygienist provides all routine dental cleaning services; demonstrate fiscal solvency; and function as a payee for the service.

[8.314.5.10 NMAC - Rp, 8.314.5.10 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.11 PROVIDER RESPONSIBILITIES:

A. A provider who furnishes services to an eligible recipient must comply with all federal and state laws, regulations, rules, and executive orders relevant to the provision of services as specified in the MAD provider participation agreement and the DOH provider agreement. A provider also must meet and adhere to all applicable NMAC rules and instructions as specified in the MAD provider rules manual and its appendices, DDW service standards, DDW service definitions, and program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and the centers for medicare and medicaid services (CMS) correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify that an individual is eligible for a specific health care program administered by the HSD and its authorized agents and must verify the eligible recipient's enrollment status at the time services are furnished. A provider must determine if an eligible recipient has other health insurance. A provider must maintain

records that are sufficient to fully disclose the extent and nature of the services provided to an eligible recipient.

C. Provider agencies must mitigate any conflict of interest issues by adhering to at least the following:

(1) Any individual who operates or is an employee or subcontractor of a DDW provider shall not serve as guardian for a person served by that agency, except when related by affinity or consanguinity Paragraph (1) of Subsection A of Section 45-5-31 NMSA 1978. Affinity which stems solely from the caregiver relationship is not sufficient to satisfy this requirement.

(2) DDW provider agencies may not employ or sub-contract with a direct support person who is an immediate family member to support the person in services, except when the person is in family living, respite, or customized in home supports (CIHS).

(3) DDW provider agencies may not employ or subcontract with the spouse of the participant to support the person in any DDW funded services.

D. Case management agencies are required to mitigate real or perceived conflict of interest issues by adhering to, at minimum the following requirements. Case managers who are contracted under the DDW are identified as agents who are responsible for the development of the ISP.

(1) Case management agency owners and individually employed or contracted case managers may not:

(a) be related by blood or affinity to the person supported, or to any paid caregiver of the individual supported. Following formal authorization from DDSD, a case manager may provide family living services or respite to their own family member;

(b) have material financial interest in any entity that is paid to provide DDW or mi via services. A material financial interest is defined as anyone who has, directly or indirectly, any actual or potential ownership, investment, or compensation arrangement;

(c) be empowered to make financial or health related decisions for individuals on their caseload;

(d) be related by blood or affinity to any DDW service provider for individuals on their caseload. Providers are identified as providers of living care arrangements, community inclusion services, mi via consultants, mi via vendors, BSC’s and therapist.

(2) A case management provider agency may not:

(a) be a provider agency for any other DDW service;

(b) provide guardianship services to an individual receiving case management services from that same agency;

(3) A case manager or director of a case management provider agency may not:

(a) serve on the board of directors of any DDW provider agency;

(b) provide training to staff of DDW provider agencies unless meeting criteria as outlined in the DDW service standards.

(4) Case management provider agencies must disclose to both DDSD and the people supported by their agency any familial relationships between employees or subcontract case managers and providers of other DDW services.

(5) Case management provider agency staff and subcontractors must maintain independence and avoid all activity which could be perceived as a potential conflict of interest.

8.314.5.14 DDW COVERED WAIVER SERVICES FOR IDENTIFIED POPULATION UNDER 18 YEARS OF AGE:

The DDW program is limited to the number of federally authorized unduplicated eligible recipient (UDR) positions and program funding. All DDW covered services in an ISP must be authorized. DDW services must be provided in accordance with all requirements set forth by DDW service definitions, all requirements outlined in the DDW service standards, and the applicable NMAC rules, supplements and guidance. The DDW covers the following services for a specified and limited number of waiver eligible recipients as a cost effective alternative to institutionalization in an intermediate care facilities for individuals with intellectual disabilities (ICF-IID).

A. Eligible recipients age birth to 18: Services funded within this age category must be coordinated with and shall not duplicate other services such as the medicaid school-based services program, the MAD early periodic screening diagnosis and

treatment (EPSDT) program, services offered through the New Mexico public education department (PED), or the early childhood education and care department (ECECD) family infant toddler (FIT) program.

B. Service options available include:

(1) environmental modifications;

(2) assistive technology;

(3) remote personal support technology;

(4) preliminary risk screening and consultation;

(5) socialization and sexuality education;

(6) behavioral support consultation;

(7) customized community support;

(8) respite;

(9) non-medical transportation;

(10) case management;

(11) nutritional counseling; and

(12) crisis supports.

[8.314.5.14 NMAC - Rp, 8.314.5.14 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.15 DDW COVERED WAIVER SERVICES:

The DDW program is limited to the number of federally authorized unduplicated eligible recipient (UDR) positions and program funding. All DDW covered services in an ISP must be authorized by DOH. DDW services must be provided in accordance with all requirements set forth by DOH DDW service definition, all requirements outlined in the DDW service standards, and the applicable NMAC rules, supplements and guidance and must be based on assessed need. Services for individuals under the age of 21 must be coordinated with and shall not duplicate other services such as the medicaid school-based services program, the MAD early periodic screening diagnosis and treatment (EPSDT) program, or the early childhood education and care department (ECECD) family infant toddler (FIT) program. Services offered through the New Mexico public education department (PED), the Individuals with Disabilities Education Act (IDEA), the New Mexico division of vocational rehabilitation (DVR), the Rehabilitation

Act, the Workforce Innovation and Opportunities Act (WIOA), the New Mexico department of workforce solutions (DWS) must be utilized prior to accessing funding from the DDW. DDW covers the following services for a specified and limited number of waiver eligible recipients as a cost effective alternative to institutionalization in an ICF-IID.

A. Information and documentation that justifies the need for services based on the eligible recipient's assessed need may be required and requested. Justification for services must:

(1) outline the eligible recipient's clinical, functional, physical, behavioral or habilitative needs;

(2) promote and afford support to the eligible recipient for their greater independence and to maintain current level of function or minimize risk of further decline; or contribute to and support the eligible recipient's efforts to remain in the community;

(3) to contribute and be engaged in their community, and to reduce their risk of institutionalization;

(4) address the eligible recipient's physical health, behavioral, and social support needs, not including financial support, that arise as a result of their functional limitations or conditions, such as: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency; and

(5) relate to an outcome in the eligible recipient's individual service plan (ISP).

B. Exception authorization process, formerly known as the H authorization process is the process that allows individuals on the DDW, who have extenuating circumstances, including extremely complex clinical needs to receive services beyond what is authorized in their current ISP/budget level or to allow individual exceptions to DDW service standards. Exception authorization process includes:

(1) an eligible recipient who is included in the class established in the matter of Walter Stephen Jackson, et al vs. Fort Stanton Hospital and Training School et. al, (757 F. Supp. 1243 DNM 1990) is to receive a permanent NM DDW exception authorization approval. A former Jackson class member may receive service types and amounts consistent with those approved in their ISP.

(2) Exception authorization packet includes: the completed individual supports needs review form with all attachments indicated on the form as relevant to the nature/type of exception authorization process request submitted.

C. When determining what services the eligible recipient needs, the IDT should consider the individual's service options with the understanding that the focus must always be on the individual's DDW support needs that can be clinically justified. Services available:

(1) Case management services: Case management services assist an eligible recipient to access MAD covered services. A case manager also links the eligible recipient to needed medical, social, educational and other services, regardless of funding source. DDW services are intended to enhance, not replace existing natural supports and other available community resources. Services will emphasize and promote the use of natural and community supports to address the eligible recipient's assessed needs in addition to paid supports. Case managers facilitate and assist in assessment activities, as appropriate. Case management services are person-centered and intended to advocate for and support an eligible recipient in pursuing their desired life outcomes while gaining independence, and access to services and supports. Case management is a set of interrelated activities that are implemented in a collaborative manner involving the active participation of the eligible recipient, their authorized representative, and the entire IDT. The case manager is an advocate for the eligible recipient they serve, is responsible for developing the ISP and for ongoing monitoring of the provision of services included in the ISP. Case management services include but are not limited to activities such as:

(a) assessing needs;

(b) assisting in the submission process of the application for assistance and yearly recertification to the local income support division (ISD) office;

(c) directing the person-centered planning process;

(d) advocating on behalf of the eligible recipient;

(e) coordinating waiver and state plan service delivery and collaborating with managed care organization care coordinators;

(f) assuring services are delivered as described in the ISP;

(g) maintaining a complete current central eligible recipient record (e.g. ISP, ISP budget, level of care documentation, assessments);

(h) health care coordination;

(i) assuring cost containment by preventing the expense of DDW services from exceeding a maximum cost established by DOH and by exploring other options to address expressed needs.

(j) Case managers must:

(i) evaluate and monitor direct service through face-to-face visits with the eligible recipient to ensure the health and welfare of the eligible recipient, and to monitor the implementation of the ISP;

(ii) support informed choice;

(iii) support participant self-advocacy;

(iv) allow participants to lead their own meetings, program and plan development;

(v) increase an individual's experiences with other paid, unpaid, publicly-funded and community support options;

(vi) increase self-determination;

(vii) demonstrate that the approved budget is not replacing other natural or non- disability specific resources available; and

(viii) document efforts demonstrating choice of non-waiver and non-disability specific options in the ISP, IDT meeting minutes or companion documents when an individual has only DDW funded supports.

(2) Respite services: Respite services are a flexible family support service for an eligible recipient. The primary purpose of respite services is to provide support to the eligible recipient and give the primary, unpaid caregiver relief and time away from their duties. Respite services include assistance with routine activities of daily living (e.g., bathing, toileting, preparing or assisting with meal preparation and eating), enhancing self-help skills and providing opportunities for play and other recreational activities; community and social awareness; providing opportunities for community and neighborhood integration and involvement; and providing opportunities for the eligible recipient to make their own choices with regard to daily activities. Respite services will be scheduled as determined by the primary caregiver. An eligible recipient receiving living supports or customized in-home supports (when an eligible recipient is not living with a family member), may not access respite services. Respite services may be provided in the eligible recipient's own home, in a provider's home, or in a community setting of the eligible recipient family's choice. Amounts and units of respite available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Respite services must be provided in accordance with 8.314.5.10 NMAC.

(3) Adult nursing services: Adult nursing services (ANS) are provided by a licensed RN or LPN under the direct supervision of the RN to an eligible adult recipient. Adult nursing services are intended to support the highest practicable level of health, functioning and independence for an eligible recipient. This includes the direct nursing services and activities related to the assessment, planning, training and nursing

oversight of unrelated direct support staff when assisting with a variety of health related needs in specific settings. Nursing services may be delivered in person and via remote or telehealth services. Nursing services include an array of supports including efforts to support aspiration risk management (ARM). Amounts and units of adult nursing services available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Nursing services may be delivered in person and via remote or telehealth services. Individuals and their health care decision makers will be informed of telehealth service and technology as part of the ISP process.

(a) ANS is available to individuals ages 21 and over who reside in family living; those who receive customized in home supports and those who do not receive any living supports. It is available to any eligible recipient who has health related needs that require at least one of the following: nursing training, delegation or oversight of direct support staff during participation in customized community supports (individual or small group) or community integrated employment even if a living supports or customized community supports (CCS) group are also provided.

(b) ANS is available to individuals ages 18-20 who reside in family living and who are at aspiration risk and desire to have aspiration risk management services. It is also available to individuals who have health related needs that require nursing training, delegation or the oversight of non-related direct support staff during substitute care; customized community supports (individual or small group); community integrated employment or customized in home supports.

(c) There are two categories of adult nursing services:

(i) assessment and consultation services which includes a comprehensive health assessment (including assessment for medication delivery needs and aspiration risk) and consultation regarding available or mandatory services which requires only budgeting; and

(ii) ongoing services, which requires clinical justification and are tied to the eligible recipient's specific health needs revealed in the comprehensive health assessment and prior authorization process.

(4) Therapy services: Therapy services are to be delivered consistent with the participatory approach philosophy and two models of therapy services (collaborative-consultative and direct treatment). These models support and emphasize increased participation, independence and community inclusion in combination with health and safety. DDW therapy services are intended to improve, maintain or minimize the decline in functional ability and skills. Therapy services are designed to support achievement of ISP outcomes and prioritized areas of need identified through therapeutic assessment. PT, OT and SLP are skilled therapies that are recommended by an eligible recipient's IDT members and a clinical assessment that demonstrates the need for therapy services. Therapy services may be delivered in an integrated setting, clinical setting, or through telehealth as appropriate and will support the use of assistive

or remote personal support technology as needed. Upon recommendation for therapy assessment by the IDT members all three therapy disciplines: PT, OT, and SLP will be available to all DDW recipients if the therapy assessment indicates that services are needed. Individuals and their health care decision makers will be informed of telehealth service and technology as part of the ISP process. Therapy services for an eligible adult recipient require a prior authorization except for their initial assessment. A RLD licensed practitioner, as specified by applicable state laws and standards, provides the skilled therapy services. Amounts and units of therapy services available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Therapy services for eligible adult recipients must comply with 8.314.5.10 NMAC. All medically necessary therapy services for children under 21 years of age, are covered under the state plan through the early periodic screening, diagnostic and treatment (EPSDT) and must comply with 8.320.2 NMAC. To the extent that any listed services are covered under the state plan, the services under the waiver are additional services not otherwise covered under the state plan, and consistent with DDW objectives to support the recipient to remain in the community and prevent institutionalization. The exception is aspiration risk management supports for persons between age 18 and 21.

(a) Physical therapy (PT): PT is a skilled, RLD licensed therapy service involving the diagnosis and management of movement dysfunction and the enhancement of physical and functional abilities. Physical therapy addresses the restoration, maintenance, and promotion of optimal physical function, wellness and quality of life related to movement and health. Physical therapy prevents the onset, symptoms and progression of impairments, functional limitations, and disability that may result from diseases, disorders, conditions or injuries. PT supports access, mobility and independence in all environments. A RLD licensed physical therapy assistant (PTA) may perform physical therapy procedures and related tasks pursuant to a plan of care/therapy intervention plan written by the supervising physical therapist. Therapy services for eligible recipients must comply with 8.314.5.10 NMAC.

(b) Occupational therapy (OT): OT is a skilled, RLD licensed therapy service involving the use of everyday life activities (occupations) for the purpose of evaluation, treatment, and management of functional limitations. Therapy services for eligible recipients must comply with 8.314.5.10 NMAC. Occupational therapy addresses physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts to support engagement, performance and access to work and life activities that affect health, well-being and quality of life. A RLD certified occupational therapy assistant (COTA) may perform occupational therapy procedures and related tasks pursuant to a therapy intervention plan written by the supervising OT as allowed by RLD licensure.

(c) Speech-language pathology (SLP): SLP service, also known as speech therapy, is a skilled therapy service, provided by a speech-language pathologist that involves the non-medical application of principles, methods and procedures for the diagnosis, counseling, and instruction related to the development of and disorders of

communication including speech, fluency, voice, verbal and written language, auditory comprehension, cognition, swallowing dysfunction and sensory-motor competencies. Therapy services for eligible recipients must comply with 8.314.5.10 NMAC. Speech-language pathology services are also used when an eligible recipient requires the use of assistive technology or an augmentative communication device. For example, SLP services are intended to improve, maintain or minimize the loss of communication skills; treat a specific condition clinically related to an intellectual developmental disability of the eligible recipient; or improve or maintain the eligible recipient's ability to safely eat food, drink liquids or manage oral secretions while minimizing the risk of aspiration or other potential injuries or illness related to swallowing disorders.

(5) Living supports: Living supports are residential habilitation services, available up to 24 hours a day, that are individually tailored to assist an eligible recipient 18 year and older who is assessed to need daily support or supervision with the acquisition, retention, or improvement of skills related to living in the community to prevent institutionalization. Living supports include residential-type instruction intended to increase and promote independence and to support an eligible recipient to live as independently as possible in the community in a setting of their own choice. Living support services assist and encourage an eligible recipient to grow and develop, to gain autonomy, self-direct and pursue their own interests and goals. Living supports includes support to individuals to access: healthcare, dietary, nursing, therapy and behavior supports through telehealth and in person appointments; generic and natural supports, standard utilities including internet services, assistive and remote technology, transportation, employment, and opportunities to establish or maintain meaningful relationships throughout the community. Living supports providers are also required to coordinate and collaborate with nursing, behavior support consultants, dieticians, therapists and therapy assistants to implement plans including aspiration risk management plans. Living supports providers are also required to coordinate and collaborate with behavior support consultants to implement positive behavior support plans. Living support providers take positive steps to protect and promote the dignity, privacy, legal rights, autonomy and individuality of each eligible recipient who receives services. Services promote inclusion in the community and an eligible recipient is afforded the opportunity to be involved in the community and actively participate using the same resources and doing the same activities as other community members. Living supports providers are responsible for providing an appropriate level of services and supports up to 24 hours per day, seven days per week. Room and board costs are reimbursed through the eligible recipient's social security insurance (SSI) or other personal accounts and cannot be paid through the DDW. Living support services for eligible recipients must comply with 8.314.5.10 NMAC. Living supports consists of family living, supported living, and intensive medical living as follows.

(a) Family living (FL): Family living is intended for an eligible recipient who is assessed to need residential habilitation to ensure health and safety while providing the opportunity to live in a typical family setting. Family living is a residential habilitation service that is intended to increase and promote independence and to provide the skills necessary to prepare an eligible recipient to live on their own in a non-residential

setting. Family living services are designed to address assessed needs and identified individual eligible recipient outcomes. Family living is direct support and assistance that is provided to no more than two eligible recipients with intellectual or developmental disabilities at a time furnished by a natural or host family member, or companion who meets the requirements and is approved to provide family living services in the eligible recipient's home or the home of the family living direct support personnel. The eligible recipient lives with the paid direct support personnel in the same residence as the paid DSP. The FL provider agency is responsible for providing nutritional services from a registered dietician or licensed nutritionist. All FL providers must be adult nursing services (ANS) providers and deliver budgeted nursing services including nursing assessment and on call. The provider agency is responsible for up to 750 hours of substitute coverage for the primary direct support personnel to receive sick leave and time off as needed. An exception may be granted by DOH if three eligible recipients are in the residence, but only two of the three are on the DDW and the arrangement is approved by DOH based on the home study documenting the ability of the family living provider to serve more than two eligible recipients in the residence; or there is documentation that identifies the eligible recipients as siblings or there is documentation of the longevity of a relationship (e.g., copies of birth certificates or social history summary). Documentation shall include a statement of justification from a social worker, psychologist, and any other pertinent professionals working with the eligible recipients. Family living services cannot be provided in conjunction with any other living supports service, respite, or additional nutritional counseling accessed through the person's budget. Family living provider must arrange transportation for all medical appointments, household functions and activities, and to-and-from day services and other meaningful community options. The family living services provider agency shall complete all DOH requirements for approval of each direct support personnel, including completion of an approved home study and training prior to placement. After the initial home study, an updated home study shall be completed annually. The home study must also be updated each time there is a change in family composition or when the family moves to a new home or other significant event. The content and procedures used by the provider agency to conduct home studies shall be approved by DOH and must include assessment of environmental safety.

(b) Supported living (SL): Supported living is intended for an eligible recipient who is assessed to need residential-type habilitation support to ensure health and safety. Supported living is a living habilitation support service that is intended to increase and promote independence and to provide the skills necessary to prepare an eligible recipient to live on their own in a non-residential setting. Supported living services are designed to address assessed needs and identified individual eligible recipient outcomes. The service is provided to two to four eligible recipients in a community residence. Prior authorization is required from DOH for an eligible recipient to receive this service when living alone. The SL provider agency is responsible for providing nutritional services from a registered dietician or licensed nutritionist based on the person's needs. All SL providers must provide needed nursing services including on call based on the person's needs. The SL provider must arrange transportation to all medical appointments, household functions and activities, and to-and-from day services

and other meaningful community options. Supported living services cannot be provided in conjunction with any other living supports service, respite, or additional nutritional counseling assessed through the person's budget. Amounts and units of supported living services available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Levels of service category are differentiated by medical or behavioral need.

(i) Non-ambulatory stipend requires documentation verifying that the recipient is non-ambulatory.

(ii) Extraordinary behavior or medical support services require documentation that demonstrate extraordinary behavioral or medical support needs; need for enhanced or additional staffing is required for health and safety assurances; or medical needs cannot be met in a lower service category.

(iii) The person's physical or medical condition may be characterized by one of the following: life threatening condition characterized by frequent periods of acute exacerbation that requires regular or frequent medical supervision or physician treatment or consultation.

(c) Intensive medical living supports: An intensive medical living supports agency provides residential-type supports for an eligible recipient in a supported living environment who requires daily direct skilled nursing, in conjunction with community living supports that promote health and assist the eligible recipient to acquire, retain or improve skills necessary to live in the community and prevent institutionalization, consistent with their ISP. An eligible recipient must meet criteria for intensive medical living supports according to DDW service definitions and DDW standards for this service and they require nursing care, ongoing assessment, clinical oversight and health management that must be provided directly by a MAD recognized RN or LPN, see 8.314.5.10 NMAC.

(i) These medical needs include: skilled nursing interventions; delivery of treatment; monitoring for change of condition; and adjustment of interventions and revision of services and plans based on assessed clinical needs.

(ii) In addition to providing support to an eligible recipient with chronic health conditions, intensive medical living supports are available to an eligible recipient who meets a high level of medical acuity and require short-term transitional support due to recent illness or hospitalization. This service will afford the core living support provider the time to update health status information and health care plans, train staff on new or exacerbated conditions and assure that the home environment is appropriate to meet the needs of the eligible recipient. Short-term stay in this model may also be utilized by an eligible recipient who meets the criteria that is living in a family setting when the family needs a substantial break from providing direct service. Both types of short-term placements require prior approval from DOH. In order to accommodate referrals for short-term stays, each approved intensive medical living supports provider

must maintain at least one bed available for such short-term placements. If the short-term stay bed is occupied, additional requests for short-term stay will be referred to other providers of this service.

(iii) The intensive medical living supports provider will be responsible for providing the appropriate level of supports, 24 hours per day seven days a week, including necessary levels of skilled nursing based on assessed need of the eligible recipient. Daily nursing visits are required; however, a RN or a LPN under a RN's supervision is not required to be present in the home during periods of time when skilled nursing services are not required or when an eligible recipient is out in the community. An on-call RN or LPN, under the supervision of a RN must be available to staff during periods when a RN or a LPN under a RN's supervision is not present. Intensive medical living supports require supervision by a RN, and must comply with 8.314.5.10 NMAC.

(iv) Direct support personnel will provide services that include training and assistance with ADLs such as bathing, dressing, grooming, oral care, eating, transferring, mobility and toileting. These services also include training and assistance with instrumental activities of daily living (IADL) including housework, meal preparation, medication assistance, medication administration, shopping, and money management.

(v) The intensive medical living supports provider will be responsible for providing access to customized community support and employment as outlined in the eligible recipient's ISP. This includes any skilled nursing needed by the eligible recipient to participate in customized community support and development and employment services. The intensive medical living provider must arrange transportation for all medical appointments, household functions and activities, and to-and-from day services and other meaningful community options.

(vi) Approval for supported living intensive medical supports requires a IMLS parameter tool with a score of 20 or above.

(vii) Intensive medical living supports providers must comply with 8.314.5.10 NMAC.

(6) Customized community supports (CCS): CCS consists of individualized services and supports that enable an eligible recipient to acquire, maintain, and improve opportunities for independence, community integration and employment. Customized community supports services are designed around the preferences and choices of each eligible recipient and offer skill training and supports to include: adaptive skill development; adult educational supports; citizenship skills; communication; social skills, socially appropriate behaviors; self-advocacy, informed choice; community integration and relationship building. This service provides the necessary support to develop social networks with community organizations to increase the eligible recipient's opportunity to expand valued social relationships and build connections within communities. This service helps to promote self-determination, increases independence and enhances the

eligible recipient's ability to interact with and contribute to their community. Customized community supports are intended to be provided in the community to the fullest extent possible. Customized community supports must not duplicate services available through the New Mexico public education department or the Individuals with Disabilities Education Act (IDEA). Amounts and units of CCS available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards.

(a) Based on assessed needs, customized community supports services may include personal support, nursing oversight, medication assistance or administration, and integration of strategies in the therapy and healthcare plans into the eligible recipient's daily activities.

(b) The customized community supports provider may provide fiscal management for the payment of adult education opportunities as determined necessary for the eligible recipient.

(c) Customized community supports services may be provided regularly or intermittently based on the needs of the eligible recipient and are provided during the day, evenings and weekends. Customized community supports are not limited to specific hours or days of the week and should be provided in alignment with the persons desired outcomes.

(d) Customized community supports may be provided in a variety of settings to include the community, classroom, remotely and at site-based locations, depending on the ISP and the particular type of service chosen within CCS. Services provided in any location are required to provide opportunities that lead to participation and inclusion in the community or support the eligible recipient to increase their growth and development.

(e) Pre-vocational and vocational services are not covered under customized community supports.

(f) Customized community supports services must be provided in accordance with 8.314.5.10 NMAC.

(7) Community integrated employment (CIE): Community integrated employment is intended to provide supports that result in jobs in the community which increase economic independence, self-reliance, social connections, and the ability to grow within a career. CIE consists of intensive, ongoing services that support individuals to achieve competitive integrated employment or business ownership who, because of their disabilities, might otherwise not be able to succeed without supports to perform in a competitive work setting or own a business. Community integrated employment results in employment alongside non-disabled coworkers within the general workforce or in business ownership. This service may also include small group employment including mobile work crews or enclaves. An eligible recipient is supported to explore and seek opportunity for career advancement through growth in wages,

hours, experience or movement from group to individual employment. Each of these activities is reflected in individual career plans. Community integrated employment services must not duplicate services offered through the New Mexico public education department (PED), the Individuals with Disabilities Education Act (IDEA), the New Mexico division of vocational rehabilitation (DVR), the Rehabilitation Act, New Mexico department of workforce solutions (DWS), or the Workforce Innovation and Opportunities Act (WIOA). Compensation shall comply with state and federal laws including the Fair Labor Standards Act. DDW funds (e.g., the provider agency's reimbursement) may not be used to pay the eligible recipient for work. CIE services shall be provided based on the interests of the person and desired outcomes listed in the ISP. Employment services are to be available 365 days a year, 24 hours a day. Community integrated employment services must comply with 8.314.5.10 NMAC. Community integrated employment consists of job development, self-employment, short term job coaching, job maintenance, intensive community integrated employment and group community integrated employment models. Requests from eligible recipients for CIE Intensive services must include a letter of justification and the eligibility recipient's work hours or proposed schedule.

(a) Job development services through the DDW can only be accessed when services are not otherwise available to the beneficiary under either special education and related services as defined in the Individuals with Disabilities Education Act (IDEA) or vocational rehabilitation services available to the individual through a program funded under section 110 of the Rehabilitation Act of 1973 (29 U.S.C. 730). Job development may include but is not limited to, activities to assist an individual to plan for, accommodate, explore and obtain CIE. Requests to utilize the DDW for job development must have prior written approval by DDSD.

(b) Short term job coaching services through the DDW can only be accessed when services are not otherwise available to the beneficiary under either special education and related services as defined in the Individuals with Disabilities Education Act (IDEA) or vocational rehabilitation services available to the individual through a program funded under section 110 of the Rehabilitation Act of 1973 (29 U.S.C. 730). Short term job coaching services may include but are not limited to, activities to assist an individual to learn, accommodate and perform work duties, and maintain employment. Requests to utilize the DDW for short term job coaching must have prior written approval by DDSD.

(c) Job maintenance is intended to be used as the long-term supports once all available funding and services through vocational rehabilitation or the educational systems has been utilized. Job maintenance is provided on a one-to-one ratio. Job maintenance services may include, but are not limited to, activities to assist the individual to accommodate, maintain employment and career advancement.

(d) Self-employment: Services through the DDW can only be accessed when services are not otherwise available to the beneficiary under either special education and related services as defined in the Individuals with Disabilities Education Act (IDEA)

or vocational rehabilitation services available to the individual through a program funded under section 110 of the Rehabilitation Act of 1973 (29 U.S.C. 730). Self-employment services are intended to be used as the long-term supports once all available funding and services through vocational rehabilitation or the educational systems have been utilized. Self-employment does not preclude employment in the other models. Self-employment may include but is not limited to development of a business plan, conducting market analysis, and establishing and supporting the infrastructure for a successful business.

(e) Intensive community integrated employment (ICIE): Services for people who are working in an individual, community integrated employment setting and require more than 40 hours of staff supports per month to maintain their employment. ICIE is the same scope of services as outlined in 8.314.5.10 NMAC.

(f) Group community integrated employment: Group community integrated employment is when more than one eligible recipient works in an integrated setting with staff supports on site. Regular and daily contact with non-disabled coworkers or the public occurs. Group community integrated employment services may include but are not limited to activities to assist the individual to accommodate, maintain and advance from group to individual employment.

(8) Behavioral support consultation services: The behavior support consultation supports the person's successful achievement of vision-driven desired outcomes. Behavior support consultation services identify behaviors that impact quality of life and provide specific prevention and intervention strategies to manage and lessen the risks these behaviors present. This service is provided by an authorized behavior support consultant and includes a positive behavior supports assessment and positive behavior support plan development; interdisciplinary team (IDT) training and technical assistance; and monitoring of an individual's behavioral support services. Services may be provided in person for training, evaluation or monitoring and remotely via telehealth as needed. Amounts and units of behavioral support consultation services available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Requests from eligible recipients for behavioral support services with units over limits as outlined in the DDSD service standards will require submission of positive behavioral support assessment, positive behavioral support plan, behavioral crisis intervention plan, and PRN psychotropic medication plan as applicable. Annual assessments require an in-person interview or observation except when conducted during declared state or national emergencies or pandemics. Behavioral support services include:

(a) Assessment of the person and their environment, including barriers to independent functioning;

(b) Design and testing of strategies to address concerns and build on strengths and skills for independence;

(c) Writing and training in the implementation of plans in a way that the person and DSP can understand and implement them.

(d) Behavioral support consultation services must comply with 8.314.5.10 NMAC.

(9) Nutritional counseling services: Nutritional counseling services include the assessment, evaluation, collaboration, planning, teaching, consultation and implementation and monitoring of a nutritional plan and menu services that supports the eligible recipient to attain or maintain the highest practicable level of health. It may be provided by a registered/licensed dietician (RD/LD) or licensed nutritionist (LN). This service may be delivered in person or via telehealth. The RD/LD/LN is an active member of the IDT and addresses overall nutritional needs, diet, tube feeding, weight loss or gain, wounds and a variety complex medical or behavioral conditions that have or may impact the persons overall health. These nutritional counseling services are in addition to those nutritional or dietary services allowed in the eligible recipient's medicaid state plan benefit, or other funding source. This service does not include oral-motor skill development services, such as those services provided by a speech pathologist. Nutritional counseling cannot be billed as a separate service during the hours of living supports. Nutritional counseling services must comply with 8.314.5.10 NMAC.

(10) Environmental modification services: Environmental modifications services include the purchasing and installing of equipment or making physical adaptions to an eligible recipient’s residence that are necessary to ensure the health, welfare and safety of the eligible recipient or enhance their access to the home environment and increase their ability to act independently.

(a) Adaptations, installations and modifications include:

(i) heating and cooling adaptations;

(ii) fire safety adaptations;

(iii) turnaround space adaptations;

(iv) specialized accessibility, safety adaptations or additions;

(v) installation of specialized electric and plumbing systems to accommodate medical equipment and supplies;

(vi) installation of trapeze and mobility tracks for home ceilings;

(vii) installation of ramps;

(viii) widening of doorways or hallways;

(ix) modification of bathroom facilities (roll-in showers, sink, bathtub and toilet modification, water faucet controls, floor urinals and bidet adaptations and plumbing);

(x) purchase or installation of air filtering devices;

(xi) purchase or installation of lifts or elevators;

(xii) purchase and installation of glass substitute for windows and doors;

(xiii) purchase and installation of modified switches, outlets or environmental controls for home devices; and

(xiv) purchase and installation of alarm and alert systems or signaling devices.

(b) Excluded are those adaptations or improvements to the home that are of general utility and are not of direct medical or remedial benefit to the eligible recipient. Adaptations that add to the total square footage of the home are excluded from this benefit except when necessary to complete an adaptation (e.g., in order to improve entrance/egress to an eligible recipient’s residence or to configure a bathroom to accommodate a wheelchair).

(c) Environmental modification services must be provided in accordance with applicable federal, state and local building codes.

(d) Amounts and units of environmental modification services available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Requests from eligible recipients for environmental modification services must include a brief description of work to be done, itemized cost for equipment, materials, with a description and cost of labor and the DDSD verification of benefit availability form.

(e) Environmental modification services must comply with 8.314.5.10 NMAC.

(11) Crisis supports: Crisis supports are services that provide intensive supports by appropriately trained staff to an eligible recipient experiencing a behavioral or medical crisis either within the eligible recipient's present residence or in an alternate residential setting. Crisis supports must be prior authorized by the DDSD bureau of behavioral supports (BBS). Crisis support must comply with 8.314.5.10 NMAC.

(a) Crisis supports in the eligible recipient's residence: These services provide crisis response staff to assist in supporting and stabilizing the eligible recipient while also training and mentoring staff or family members, who normally support the eligible recipient, in order to remediate the crisis and minimize or prevent recurrence.

(b) Crisis supports in an alternate residential setting: These services arrange an alternative residential setting and provide crisis response staff to support the eligible recipient in that setting, to stabilize and prepare the eligible recipient to return home or to move into another permanent location. In addition, staff will arrange to train and mentor staff or family members who will support the eligible recipient long-term once the crisis has stabilized, in order to minimize or prevent recurrence of the crisis.

(c) Crisis response staff will deliver such support in a way that maintains the eligible recipient's normal routine to the maximum extent possible. This includes support during attendance at employment or customized community supports services, which may be billed on the same dates and times of service as crisis supports.

(d) This service requires prior written approval and referral from the bureau of behavioral support (BBS). Crisis supports are designed to be a short-term response (two to 90 calendar days).

(e) The timeline may exceed 90 calendar days under extraordinary circumstances, with approval from the BBS in which case duration and intensity of the crisis intervention will be assessed weekly by BBS staff.

(12) Non-medical transportation: Non-medical transportation services assists the eligible recipient in accessing other waiver supports and non-waiver activities identified in their ISP. Non-medical transportation enables the eligible recipient to gain physical access to non-medical community services and resources promoting the eligible recipient opportunity and responsibility in carrying out their ISP activities. This service is to be considered only when transportation is not available through the medicaid state plan or when other arrangements cannot be made. Non-medical transportation includes mileage reimbursement and funding to purchase a pass for public transportation for the eligible recipient. Reimbursement is allowable for eligible ride share programs identified through ISP. Amounts and units of non-medical transportation available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Non-medical transportation provider services must comply with 8.314.5.10 NMAC.

(13) Supplemental dental care: Supplemental DDW dental care services are provided for an eligible recipient that requires routine oral health care more frequently than the coverage provided under other MAP benefit plans. Supplemental dental care provides one oral examination and one cleaning once every ISP year to an eligible recipient for the purpose of preserving or maintaining oral health. The supplemental dental care service must comply with 8.314.5.10 NMAC.

(14) Assistive technology: Assistive technology (AT) purchasing agent service is intended to support the access of low tech devices that increase the eligible recipient's physical and communicative participation in functional activities at home and in the community. Items purchased through the assistive technology service assist the eligible recipient to meet outcomes outlined in their ISP, increase functional participation

in employment, community activities, activities of daily living, personal interactions, or leisure activities, or increase the eligible recipient's safety during participation of the functional or leisure activity. Amounts and units of assistive technology available to eligible recipients per ISP year must comply with limits outlined in the DDSD issued service standards.

(a) The assistive technology service allows an eligible recipient to purchase or obtain needed items to develop low-tech augmentative communication, environmental access, mobility systems and other functional assistive technology, not covered through the eligible recipient's medicaid state plan benefits.

(b) Assistive technology may be accessed through an approved waiver provider acting as a purchasing agent for technology vendors whose products meet definition and needs or directly through an approved technology provider who is the direct vendor of the service and approved DDW Provider.

(c) Assistive technology must comply with 8.314.5.10 NMAC.

(15) Independent living transition services: Independent living transition services are one-time set-up expenses for an eligible recipient who transitions from a 24 hour living supports setting into a home or apartment of their own with intermittent support that allows them to live more independently in the community. The service covers expenses associated with security deposits that are required to obtain a lease on an apartment or home, set-up fees or deposits for utilities (telephone, internet, electricity, heating, etc.), and furnishings to establish safe and healthy living arrangements, such as a bed, chair, dining table and chairs, eating utensils and food preparation items, and a cell phone. The service also covers services necessary for the eligible recipient's health and safety such as initial or one-time fees associated with the cost of paying for pest control, allergen control or cleaning services prior to occupancy. Requests from eligible recipients for independent living transition services must include DDSD verification of eligibility form. Amounts and units of independent living transition services available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Independent living transition services must comply with 8.314.5.10 NMAC.

(16) Remote personal support technology: Remote personal support technology is an electronic device or monitoring system that supports individuals to be independent in the community or in their place of residence with limited assistance or supervision of paid staff. This service provides up to 24-hour alert, monitoring or remote personal emergency response capability, remote prompting or in-home reminders, or environmental controls for independence through the use of technologies. The service is intended to promote independence and quality of life, to offer opportunity to live safely and as independently as possible in one’s home, and to ensure the health and safety of the individual in services. Remote personal support technology is available to individuals who may want to live independently in their own homes, may have a demonstrated need for timely response due to health or safety concerns, or may be

afforded increased independence from staff supervision in residential services. The use of technology should ease life activities for individuals and their families. Remote personal support technology includes development of individualized response plans with the installation of the electronic device or sensors, monthly maintenance, rental or subscription fees. This service is not intended to provide for paid, in-person on-site response. On-site response must be planned through response plans that are developed using natural or other paid supports for on-site response. Remote personal support technology may be accessed through an approved waiver provider acting as a purchasing agent for technology vendors whose products meet definition and needs or directly through an approved technology provider who is the direct vendor of the service and approved DDW provider. Amounts and units of remote support technology available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards.

(17) Preliminary risk screening and consultation related to inappropriate sexual behavior (PRSC): PRSC is designed to assess continued risk of sexually inappropriate or offending behavior in persons who exhibit or have a history of exhibiting risk factors for these types of behaviors. This service is part of a variety of behavior support services (including BSC and socialization & sexuality education) that promotes community safety and reduces the impact of interfering behaviors that compromise the person's quality of life. PRSC is provided by a licensed mental health professional who has been trained and approved as a risk evaluator by the BBS. Amounts and units of PRSC available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards.

(a) The key functions of PRSC are to:

(i) provide a structured screening of the eligible recipient's behaviors that may be sexually inappropriate;

(ii) develop and document recommendations of the eligible recipient in the form of a report or consultation notes;

(iii) develop and periodically review risk management plans for the eligible recipient, when recommended; and

(iv) provide consultation regarding the management and reduction of the eligible recipient's sexually inappropriate behavioral incidents that may pose a health and safety risk to the eligible recipient or others.

(b) Preliminary risk screening and consultation related to inappropriate sexual behavioral services must comply with 8.314.5.10 NMAC.

(18) Socialization and sexuality education (SSE) service: Socialization and sexuality education in the form of the friends & relationships course (FRC) is a comprehensive lifelong adult education program that teaches students knowledge and

skills to increase social networks with healthy, meaningful relationships and to increase personal safety including decreasing interpersonal and intimate violence in relationships, sexual victimization, exploitation and abuse. This enhances their ability to develop close friendships and romantic relationships. The FRC involves the person's network of support (natural supports, paid supports, teachers, nurses, family members, guardians, friends, advocates, or other professionals) teaching them to support the social and sexual lives of persons with I/DD, through participation in classes, and by using trained and paid self-advocates as role models and peer mentors in classes. Amounts and units of SSE available per ISP year to eligible recipients must comply with limits outlined in the DDSD issued service standards. Socialization and sexuality education services must comply with 8.314.5.10 NMAC.

(19) Customized in-home supports: Customized in-home support services is not a residential habilitation service and is intended for an eligible recipient that does not require the level of support provided under living supports services. Customized in-home supports provide an eligible recipient the opportunity to design and manage the supports needed to live in their own home or family home. Customized in-home supports include a combination of instruction and personal support activities provided intermittently to assist the eligible recipient with ADLs, meal preparation, household services, and money management. The services and supports are individually designed to instruct or enhance home living skills, community skills and to address health and safety of the eligible recipient, as needed. This service provides assistance with the acquisition, improvement or retention of skills that provides the necessary support to achieve personal outcomes that enhance the eligible recipient's ability to live independently in the community. Services are delivered by a direct support professional in the individuals own home or family home in the community. Services may be provided as part of on-site response plan with use of remote personal support technology. This service is intended to provide intermittent support and cannot be provided 24 hours a day/seven days a week. Requests for customized in-home living supports for over 11 hours a day must be approved the DDSD. Customized in-home support services must comply with 8.314.5.10 NMAC.

[8.314.5.15 NMAC - Rp, 8.314.5.15 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.16 NON-COVERED SERVICES:

Only those services listed in the DDW benefit package may be reimbursed through the DDW. Room, board and ancillary services are not covered under DDW services. An eligible recipient may access, as medically necessary, all medicaid state plan benefits in addition to their DDW services. If the eligible recipient is an enrolled member of a HSD managed care organization (MCO), they may access, as medically necessary, the benefits listed in 8.308.9 NMAC.

[8.314.5.16 NMAC - Rp, 8.314.5.16 NMAC, 12/1/2018; A, 4/1/2022]

8.314.5.17 INDIVIDUALIZED SERVICE PLAN (ISP):

A. CMS requires a person-centered service plan for every individual receiving HCBS. The ISP must be developed annually through an ongoing person-centered planning process. The ISP development must:

(1) Involve those whom the participant wishes to attend and participate in developing the service plan and are provided adequate notice;

(2) Use assessed needs to identify services and supports;

(3) Include individually identified goals and preferences related to relationships, community participation, employment, income and savings, healthcare and wellness, education and others;

(4) Identify roles and responsibilities of IDT members responsible for implementing the plan;

(5) Include the timing of the plan and how and when it is updated, including response to changing circumstances and needs; and

(6) Outline how the individual is informed of available services funded by the DDW as well as other natural and community resources.

B. The IDT must review the eligible recipient's person-centered plan every 12 months or more often if indicated.

C. The IDT is responsible for compiling clinical documentation to justify the requested services and budget to the OR for adult recipients excluding class members of Walter Stephen Jackson, et al vs. Fort Stanton Hospital and Training School et. al, (757 F. Supp. 1243 DNM 1990).

D. The person-centered service plan must consist of the following:

(1) identifies risks and includes a plan to reduce any risks;

(2) incorporates other health concerns (e.g. mental health, chemical health, chronic medical conditions, etc.);

(3) is written in plain language;

(4) records the alternative HCBS that were considered by the person;

(5) includes natural supports and services;

(6) includes strategies for solving conflict or disagreement within the process, including any conflict of interest guidelines for planning participants;

(7) identifies who is responsible for monitoring implementation of the plan;

(8) includes the person's strengths;

(9) describes goals or skills that are related to the person's preferences;

(10) includes a global statement about the person's self-determined goals and aspirations;

(11) details what is important to the person; and

(12) includes a method for the individual to request updates to the plan, as needed.

E. Upon completion of the ISP by the IDT, the case manager shall develop a budget to be evaluated in accordance with the TPA process; see Subsection D of 8.314.5.18 NMAC.

F. All services must be provided as specified in the ISP.

G. The case manager must conduct a pre ISP meeting annually with the recipient to evaluate and plan for upcoming ISP term. The CM is required to meet with the DD Waiver participant and guardian prior to the ISP meeting. The CM reviews current assessment information, prepares for the meeting, creates a plan with the person to facilitate or co-facilitate the meeting if desired, discusses the budget, reviews the current secondary freedom of choice forms, and facilitates greater informed participation in ISP development by the person.

[8.314.5.17 NMAC - Rp, 8.314.5.17 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.18 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All MAD services, including services covered under the DDW, are subject to utilization review for medical necessity and program compliance. Reviews may be performed before services are furnished, after services are furnished and before payment is made, or after payment is made; *see* 8.310.2 NMAC. Once enrolled, providers receive instructions and documentation forms necessary for prior authorization and claims processing.

A. MAD prior authorization: To be eligible for DDW services, a MAD eligible recipient must require the level of care (LOC) of services provided in an ICF-IID. LOC determinations are made by MAD or its designee. The eligible recipient's person centered ISP must specify the type, amount and duration of services and meet clinical criteria. Certain procedures and services specified in the ISP may require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. DOH prior authorization: Certain services are subject to utilization review by DOH.

C. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for MAD services. Providers must verify that individuals are eligible for MAD services, including DDW services or other health insurance prior to the time services are furnished. An eligible recipient may not be institutionalized, hospitalized, or receive personal care option (PCO) services or other HCBS waiver services at the time DDW services are provided, except for certain case management services that are required to coordinate discharge plans or transition of services to DDW services.

D. Third party assessor review process: All services for DDW recipients will be reviewed by the TPA contracted by MAD. The TPA will adhere to deadlines set forth in its contract with the MAD. The TPA will make a clinical determination on whether the requested services and service amounts are needed, and will recommend whether the requested annual budget and ISP should be approved. If the TPA approves in whole or part the requested ISP and budget, the TPA will enter the approved portion of the budget into the medicaid management information system and issue a prior authorization to the case manager. If there is a denial in part or whole, the TPA decision must be in writing, identify a list of all documents and input considered by the TPA team during its review, and state the reasons for any denial of requested services. The eligible recipient, case manager, and guardian (if applicable) will be provided with this written determination and notice of an opportunity to request a fair hearing as well as an agency review conference.

(1) The eligible recipient, case manager, and guardian (if applicable) may submit to the TPA additional information relating to support needs.

(2) The decision of the TPA approving services requested by the DDW participant is binding on the State. However, the state may agree to overturn a decision to deny services requested by the DDW participant at a requested agency conference.

E. Reconsideration: Providers who disagree with the denial of a prior authorization request or other review decisions may request a reconsideration. See 8.350.2 NMAC, Reconsideration of Utilization Review Decisions.

[8.314.5.18 NMAC - Rp, 8.314.5.18 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.19 REIMBURSEMENT:

DDW service providers must submit claims for reimbursement to MAD’s fiscal contractor for processing. A DDW provider must follow 8.302.2 NMAC, MAD billing instructions, utilization review instructions, and supplements. Reimbursement to providers of waiver services is made at a predetermined reimbursement rate.

[8.314.5.19 NMAC - Rp, 8.314.5.19 NMAC, 12/1/2018]

8.314.5.20 RIGHT TO A HSD ADMINISTRATIVE HEARING:

An eligible recipient may request a HSD administrative hearing to appeal a decision of MAD or its third party assessor contractor, that is an adverse action against the recipient. Prior to the fair hearing an eligible recipient may be offered an agency review conference. An agency review conference (AC) means an optional conference offered by HSD to provide an opportunity to informally resolve a dispute over the denial, suspension, reduction, termination or modification of DDW benefits or services. An AC will be attended by the recipient and their authorized representative if applicable, representatives of the TPA, HSD and any other necessary parties. The recipient may also bring whomever they wish to assist during the AC. The AC is optional and shall in no way delay or replace the fair hearing process or affect the deadline for a fair hearing request.

A. An authorized representative means any individual designated by the eligible recipient or their guardian, if applicable, to represent the recipient and act on their behalf. The authorized representative must provide formal documentation authorizing them to access the identified case information for this specific purpose. An authorized representative may be, but need not be, the recipient's guardian or attorney.

B. The HSD will issue written notification describing the outcome of the AC and any agreements within seven business days of the AC to the recipient, recipient's guardian if applicable, and case manager.

C. Unless the fair hearing request is withdrawn by the recipient or recipient's guardian or lawyer, any requested fair hearing will proceed. At the fair hearing the claimant may raise any relevant issue and present any relevant information that they choose. See 8.352.2 NMAC for a description of a claimant's HSD administrative hearing rights and responsibilities.

D. In addition to the requirements set forth in 8.352.2 NMAC, HSD shall take such actions as are necessary to assure the presence at the hearing of all necessary witnesses within DOH's control, including, when relevant to a denial of services or when requested by the claimant, a representative of the TPA with knowledge of the claimant's case and the reason(s) for the denial, in whole or in part, of any requested services.

E. Denials of services through the exception authorization process or other actions during this process adverse to the participant can also be appealed through a fair hearing.

F. All HSD administrative hearings are conducted in accordance with state and federal law.

G. No ex parte communications with an HSD administrative law judge are permitted by any DDW participant or counsel regarding any pending case. The MAD director shall not have ex parte communications regarding any pending cases with any DDW participant or counsel involved in that case. The MAD director's decision shall be limited to an on the record review.

[8.314.5.20 NMAC - Rp, 8.314.5.20 NMAC, 12/1/2018; A, 4/1/2022; A, 4/1/2024]

8.314.5.21 CONTINUATION OF BENEFITS PURSUANT TO A TIMELY APPEAL AND A HSD ADMINISTRATIVE HEARING PROCEEDING:

A continuation of an existing DDW benefit or benefits is automatically provided to an eligible recipient claimant pending the resolution of the agency review conference and any subsequent fair hearing. The continuation of a benefit is only available to a claimant that is currently receiving the appealed benefits. The continuation of the benefits will be the same as the claimant's current allocation, budget or LOC unless a revision is agreed to in writing by the eligible recipient (or authorized representative) and HSD.

[8.314.5.21 NMAC - Rp, 8.314.5.21 NMAC, 12/1/2018; A, 4/1/2024]

PART 6: MI VIA HOME AND COMMUNITY-BASED SERVICES WAIVER

8.314.6.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.314.6.1 NMAC - Rp, 8.314.6.1 NMAC, 3/1/2016; A, 7/1/2024]

8.314.6.2 SCOPE:

The rule applies to the general public.

[8.314.6.2 NMAC - Rp, 8.314.6.2 NMAC, 3/1/2016]

8.314.6.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Titles XI, XIX, and XXI of the Social Security Act as amended or by state statute. See Section 27-2-12 et seq. NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.314.6.3 NMAC - Rp, 8.314.6.3 NMAC, 3/1/2016; A, 7/1/2024]

8.314.6.4 DURATION:

Permanent.

[8.314.6.4 NMAC - Rp, 8.314.6.4 NMAC, 3/1/2016]

8.314.6.5 EFFECTIVE DATE:

March 1, 2016, unless a later date is cited at the end of a section.

[8.314.6.5 NMAC - Rp, 8.314.6.5 NMAC, 3/1/2016]

8.314.6.6 OBJECTIVE:

The objective of this rule is to provide instructions for the service portion of the New Mexico medical assistance programs (MAP).

[8.314.6.6 NMAC - Rp, 8.314.6.6 NMAC, 3/1/2016]

8.314.6.7 DEFINITIONS:

A. Authorized annual budget (AAB): The eligible recipient works with his or her consultant to develop an annual budget request which is submitted to the third-party assessor (TPA) for review and approval. The total annual amount of the mi via services and goods includes the frequency, the amount, and the duration of the services and the cost of goods approved by the TPA. Once approved, this is the AAB.

B. Authorized representative: The individual designated to represent and act on the member's behalf. The eligible recipient or authorized representative must provide formal documentation authorizing the named individual or individuals to access the identified case information for a specified purpose and time frame. An authorized representative may be an attorney representing a person or household, a person acting under the authority of a valid power of attorney, a guardian, or any other individual or individuals designated in writing by the eligible recipient. The eligible recipient's authorized representative may be a service provider (depending on what the eligible recipient or court order allows) for the eligible recipient. An authorized representative cannot approve his or her own timesheet. The authorized representative cannot serve as the eligible recipient's consultant.

C. Category of eligibility (COE): To qualify for medical assistance program (MAP) services, an applicant must meet financial criteria and belong to one of the groups that the New Mexico medical assistance division (MAD) has defined as eligible. An eligible recipient in the mi via program must belong to one of the MAP categories of eligibility (COE) described in 8.314.6.13 NMAC.

D. Centers for medicare and medicaid services (CMS): Federal agency within the United States department of health (DOH) and human services that works in partnership with New Mexico to administer medicaid and MAP services under HSD.

E. Consultant provider: An agency or an individual that provides consultant and support guide services to the eligible recipient that assist the eligible recipient (or the eligible recipient's family, personal representative or the authorized representative, as appropriate) in arranging for, directing and managing mi via services and supports, as well as developing, implementing and monitoring the service and support plan (SSP) and AAB.

F. Eligible recipient: An applicant meeting the financial and medical level of care (LOC) criteria who is approved to receive MAD services through the mi via program.

G. Employer of record (EOR): The employer of record (EOR) is the individual responsible for directing the work of mi via employees, including recruiting, hiring, managing and terminating all employees. The EOR tracks expenditures for employee payroll, goods, and services. EORs authorize the payment of timesheets by the financial management agency (FMA). An eligible recipient is required to have an EOR when he or she utilizes employees for mi via services. An eligible recipient may be his or her own EOR unless the eligible recipient is a minor, or has a plenary or limited guardianship or conservatorship over financial matters in place. An eligible recipient may also designate an individual of his or her choice to serve as the EOR, subject to the EOR meeting the qualifications specified in this rule. A power of attorney (POA) or other legal instrument may not be used to assign the EOR responsibilities, in part or in full, to another individual and may not be used to circumvent the requirements of the EOR as designated in this rule.

H. Financial management agency (FMA): Contractor that helps implement the AAB by paying the eligible recipient’s service providers and tracking expenses.

I. Home and community-based services (HCBS) waiver: A set of MAD services that provides alternatives to long-term care services in institutional settings, such as the mi via waiver program. CMS waives certain statutory requirements of the Social Security Act to allow HSD to provide an array of community-based options through these waiver programs.

J. Individual budgetary allotment (IBA): The maximum budget allotment available to an eligible recipient, determined by his or her age established level of care (LOC). Based on this maximum amount, the eligible recipient will develop a plan to meet his or her assessed functional, medical and habilitative needs to enable the eligible recipient to remain in his or her community.

K. Intermediate care facilities for individuals with intellectual disabilities (ICF/IID): Facilities that are licensed and certified by the New Mexico DOH to provide

room and board, continuous active treatment and other services for eligible recipients with a primary diagnosis of intellectually disabled.

L. Legally responsible individual (LRI): A person who has a duty under state law to care for another person. This category typically includes: the parent (biological, legal, or adoptive) of a minor child, or a guardian who must provide care to an eligible recipient under 18 years of age or the spouse of an eligible recipient.

M. Level of care (LOC): The level of care an eligible recipient must meet to be eligible for the mi via program.

N. Mi via: Mi via is the name of the Section 1915 (c) MAD self-directed HCBS waiver program through which an eligible recipient has the option to access services to allow him or her to remain in the community.

O. Personal representative: The eligible recipient may select an individual to act as his or her personal representative for the purpose of offering support and assisting the eligible recipient understand his or her mi via services. The eligible recipient does not need a legal relationship with his or her personal representative. The personal representative will not have the authority to direct the member's mi via waiver services or make decisions on behalf of the eligible recipient. Directing services remains the sole responsibility of the eligible recipient or his or her authorized representative. The personal representative cannot serve as the eligible recipient's consultant and cannot approve his or her specific timesheet.

P. Reconsideration: An eligible recipient who disagrees with a clinical or medical utilization review decision or action may submit a written request to the third-party assessor for reconsideration of its decision. The eligible recipient or his or her authorized representative may submit the request for a reconsideration through the consultant or the consultant agency or may submit the request directly to MAD.

Q. Self-direction: The process applied to the service delivery system wherein the eligible recipient identifies, accesses and manages the services (among the MAD approved mi via waiver services and goods) that meet his or her assessed therapeutic, rehabilitative, habilitative, health or safety needs to support the eligible recipient to remain in his or her community.

R. Service and support plan (SSP): A plan that includes mi via services that meet the eligible recipient's needs that include: the projected amount, the frequency and the duration of the services; the type of provider who will furnish each service; other services the eligible recipient will access; and the eligible recipient's available supports that will compliment mi via services in meeting his or her needs.

S. Support guide: A function of the consultant provider that directly assists the eligible recipient in implementing the SSP to ensure access to mi via services and supports and to enhance success with self-direction. Support guide services provide

assistance to the eligible recipient with employer or vendor functions or with other aspects of implementing his or her SSP.

T. Third-party assessor (TPA): The MAD contractor who determines and re-determines LOC and medical eligibility for mi via services. The TPA also reviews the eligible recipient's SSP and approves an AAB for the eligible recipient. The TPA performs utilization management duties of all mi via services.

U. Waiver: A program in which the CMS has waived certain statutory requirements of the Social Security Act to allow states to provide an array of HCBS options through MAD as an alternative to providing long-term care services in an institutional setting.

[8.314.6.8 NMAC - Rp, 8.314.6.8 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.9 MI VIA HOME AND COMMUNITY-BASED SERVICES WAIVER:

A. New Mexico's medicaid self-directed waiver program known as mi via is intended to provide a community-based alternative to institutional care that allows an eligible recipient to have control over services and supports. Mi via provides self-directed home and community-based services to eligible recipients who are living with developmental disabilities (DD), or medically fragile (MF) conditions. (See 42 CFR 441.300.)

B. The mi via program is for an eligible recipient who meets the LOC otherwise provided in an ICF/IID.

(1) DOH, at the direction of MAD, is responsible for the daily administration of the mi via program.

(2) Enrollment in mi via is limited to the number of federally authorized unduplicated eligible recipients and funding appropriated by the New Mexico legislature for this purpose.

[8.314.6.9 NMAC - Rp, 8.314.6.9 NMAC, 3/1/2016]

8.314.6.10 MI VIA CONTRACTED ENTITIES AND PROVIDERS SUPPORTING SELF-DIRECTED SERVICES:

Services are to be provided in the least restrictive manner. HSD does not allow for the use of any restraints, restrictive interventions, or seclusions to an eligible mi via recipient. The following resources and services have been established to assist eligible recipients to self-direct services. These include the following:

A. Consultant services: Consultant services are direct services intended to educate, guide and assist the eligible recipient to make informed planning decisions about services and supports, to develop a SSP that is based on the eligible recipient's assessed disability-related needs and to assist the eligible recipient with quality assurance related to the SSP and AAB.

B. Third-party assessor: The TPA or MAD's designee is responsible for determining medical eligibility through a LOC assessment, assigning the applicable IBA, approving the SSP and authorizing an eligible recipient's annual budget in accordance with 8.314.6 NMAC and the mi via service standards. The TPA:

(1) determines medical eligibility using the LOC criteria in 8.314.6.13 NMAC; determinations are done initially for an eligible recipient who is newly enrolled in the mi via program and thereafter at least annually for currently enrolled mi via eligible recipients; the LOC assessment is done in person with the eligible recipient in his or her home, a location agreed upon by the eligible recipient and TPA and approved by HSD, or in an inpatient setting; the TPA may re-evaluate the LOC more often than annually if there is an indication that the eligible recipient's medical condition or LOC has changed;

(2) applies the information from the LOC documentation and the following assessments: long-term care assessment abstract (ICF/IID), the comprehensive individual assessment (CIA), or other MAD approved assessment tools, as appropriate for the COE, to assign the IBA for the eligible recipient that is medically eligible; and

(3) reviews and approves the SSP and the annual budget request resulting in an AAB, at least annually or more often if there is a change in the eligible recipient's circumstances, in accordance with 8.314.6 NMAC and mi via service standards.

C. Financial management agent (FMA): The FMA acts as the intermediary between the eligible recipient and the MAD payment system and assists the eligible recipient or the EOR with employer-related responsibilities. The FMA pays employees and vendors based upon an approved SSP and AAB. The FMA assures there is eligible recipient and program compliance with state and federal employment requirements, monitors, and makes available to the eligible recipient the reports related to utilization of services and budget expenditures. Based on the eligible recipient's approved individual SSP and AAB, the FMA must:

(1) verify that the recipient is eligible for MAD services prior to making payment for services;

(2) receive and verify that all required employee and vendor documentation and qualifications are in compliance with 8.314.6 NMAC and mi via service standards;

(3) establish an accounting for each eligible recipient's AAB;

(4) process and pay invoices for goods, services, and supports approved in the SSP and the AAB and supported by required documentation;

(5) process all payroll functions on behalf of the eligible recipient and EORs including:

(a) collect and process timesheets of employees;

(b) process payroll, withholding, filing, and payment of applicable federal, state and local employment-related taxes and insurance; and

(c) track and report disbursements and balances of the eligible recipient's AAB and provide a monthly report of expenditures and budget status to the eligible recipient and his or her consultant, and quarterly and annual documentation of expenditures to MAD;

(6) receive and verify employee and vendor agreements, including collecting required provider qualifications;

(7) monitor hours billed for services provided by the LRI and the total amounts billed for all goods and services during the month;

(8) answer inquiries from the eligible recipient and solve problems related to the FMA's responsibilities; and

(9) report to the consultant provider, MAD and DOH any concerns related to the health and safety of an eligible recipient or if the eligible recipient is not following the approved SSP and AAB.

[8.314.6.10 NMAC - Rp, 8.314.6.10 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.11 QUALIFICATIONS FOR ELIGIBLE INDIVIDUAL EMPLOYEES, INDEPENDENT PROVIDERS, PROVIDER AGENCIES, AND VENDORS:

A. Requirements for individual employees, independent providers, provider agencies and vendors: In order to be approved as an individual employee, an independent provider, including non-licensed homemaker or direct support worker, a provider agency, (excluding consultant providers which are covered in a different subsection) or a vendor, including those that provide professional services, each individual or entity must meet the general and service specific qualifications set forth in this rule initially and continually meet licensure requirements as applicable, and submit an employee or vendor enrollment packet, specific to the provider or vendor type, for approval to the FMA. The provider agency is responsible to ensure that all agency employees meet the required qualifications. In order to be an authorized provider for the mi via program and receive payment for delivered services, the provider must complete and sign an employee or vendor provider agreement and all required tax documents.

Individual employees may not provide more than 40 hours of services in a consecutive seven-day work week. The provider must have credentials verified by the eligible recipient or the EOR and the FMA.

(1) Prior to rendering services to an eligible mi via recipient as an independent contractor for homemaker or direct support worker, respite, community direct support, employment supports, and in-home living support provider, an individual seeking to provide these services must complete and submit a nature of services questionnaire to the FMA. The FMA will determine, based on the nature of services questionnaire if the relationship is that of an employee or an independent contractor.

(2) An authorized consultant provider must have a MAD approved provider participation agreement (PPA) and the appropriate approved DOH developmental disabilities division (DDSD) agreement.

B. General qualifications:

(1) Individual employees, independent providers, including non-licensed homemaker/direct support workers who are employed by a mi via eligible recipient to provide direct services shall:

(a) be at least 18 years of age;

(b) be qualified to perform the service and demonstrate capacity to perform required tasks;

(c) be able to communicate successfully with the eligible recipient;

(d) prior to the initial hire and every three years after initial hire pass a nationwide caregiver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27-7a-1 et seq. NMSA 1978 and 8.11.6 NMAC; additionally employees must pass the employee abuse registry (EAR) pursuant to 7.1.12 NMAC, certified nurse aide registry pursuant to 16-12.20 NMAC, office of inspector exclusion list pursuant to section 1128B(f) of the Social Security Act; and the national sex offender registry pursuant to 6201 as federal authority for active programs.

(e) complete training on critical incident, abuse, neglect, and exploitation reporting;

(f) complete training specific to the eligible recipient’s needs; an assessment of training needs is determined by the eligible recipient or his or her authorized representative; the eligible recipient is also responsible for providing and arranging for employee training and supervising employee performance; training expenses for paid employees cannot be paid for with the eligible recipient’s AAB; and

(g) meet any other service specific qualifications, as specified in this rule and its service standards.

(2) Vendors, including those providing professional services shall meet the following qualifications:

(a) shall be qualified to provide the service;

(b) shall possess a valid business license, if applicable;

(c) meet financial solvency, maintain and adhere to training requirements, record management, quality assurance policy and procedures, if applicable;

(d) be in good standing with and comply with his or her New Mexico practice board or other certification or licensing required to render mi via services in New Mexico; and

(e) must not have a DOH current adverse action against them.

(f) assure that employees of the vendor:

(i) are at least 18 years of age;

(ii) are qualified to perform the service and demonstrate capacity to perform required tasks;

(iii) are able to communicate successfully with the eligible recipient;

(iv) pass a nationwide caregiver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27-7a-1 et seq. NMSA 1978 and 8.11.6 NMAC;

(v) complete training on critical incident, abuse, neglect, and exploitation reporting;

(vi) complete training specific to the eligible recipient's needs; an assessment of training needs is determined by the eligible recipient or his or her authorized representative; the eligible recipient is also responsible for providing and arranging for employee training and supervising employee performance; training expenses for paid employees cannot be paid for with the eligible recipient's AAB; and

(g) meet any other service specific qualifications, as specified in this rule and its service standards.

(3) Qualified and approved relatives, authorized representatives or personal representatives may be hired as employees and paid for the provision of mi via services

(except consultant and support guides, customized community group supports services, transportation services for a minor, and individual directed goods and services). The services must be identified in the eligible recipient's approved SSP and AAB, and the EOR is responsible for verifying that services have been rendered by completing, signing, and submitting documentation, including the timesheet, to the FMA. These services must be provided within the limits of the approved SSP and AAB and may not be paid in excess of 40 hours in a consecutive seven-day work week. LRIs, authorized representatives, personal representatives or relatives may not be both a paid employee for the eligible recipient and serve as the eligible recipient's EOR. An authorized or personal representative who is also an employee may not approve his or her own timesheet.

(4) A LRI may be hired and paid for provision of mi via services (except transportation services when requested for a minor, a consultant and support guide, and customized community group supports services, and related goods) under extraordinary circumstances (i) in order to assure the health and welfare of the eligible recipient and (ii) to avoid institutionalization when approved by DOH. MAD must be able to receive federal financial participation (FFP) for the services.

(a) Extraordinary circumstances include the inability of the LRI to find other qualified, suitable caregivers when the LRI would otherwise be absent from the home and, thus, the caregiver must stay at home to ensure the eligible recipient's health and safety.

(b) LRIs may not be paid for any services that they would ordinarily perform in the household for individuals of the same age who do not have a disability or chronic illness.

(c) Services provided by LRIs must:

(i) meet the definition of a service or support and be specified in the eligible recipient's approved SSP and AAB;

(ii) be provided by a parent or spouse who meets the provider qualifications and training standards specified in the mi via rule for that service; and

(iii) be paid at a rate that does not exceed that which would otherwise be paid to a provider of a similar service,and be approved by the TPA.

(d) A LRI who is a service provider must comply with the following:

(i) a parent, parents in combination, legal guardian of a minor, or a spouse of the eligible recipient, may not provide more than 40 hours of services in a consecutive seven-day work week; for parents or legal guardians of the eligible recipient, 40 hours is the total amount of service regardless of the number of eligible recipients under the age of 21 who receive services through the mi via program;

(ii) planned work schedules must be identified in the approved SSP and AAB, and variations to the schedule must be reported to the eligible recipient's consultant and noted and supplied to the FMA when billing; and

(iii) timesheets and other required documentation must be maintained and submitted to the FMA for hours paid.

(e) An eligible recipient must be offered a choice of providers. There must be written approval from DOH when a provider is chosen who is:

(i) a parent or legal guardian of an eligible recipient who is a minor; or

(ii) the eligible recipient's spouse.

(f) This written approval must be documented in the SSP.

(g) The FMA monitors, on a monthly basis, hours billed for services provided by the LRI and the total amounts billed for all goods and services during the month.

(5) Once enrolled, providers, vendors and contractors receive a packet of information from the eligible recipient or FMA, including billing instructions, and other pertinent materials. Mi via eligible recipients or EOR's or authorized representatives are responsible for ensuring that providers, vendors and contractors have received these materials and for updating them as new materials are received from MAD and DOH. MAD makes available on its website, and in hard copy format, information necessary to participate in medical assistance programs administered by HSD or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. DOH makes available on its website information, instructions and guidance on its administrative requirements for the mi via program. When enrolled, an eligible recipient or his or her authorized representative, or the provider, vendor or contractor receives instruction on how to access these documents. It is the responsibility of the eligible recipient or authorized representative, or the provider, vendor, or contractor to access these instructions or ask for paper copies to be provided, to understand the information provided and to comply with the requirements. The eligible recipient or authorized representative, or the provider, vendor, or contractor must contact HSD or its authorized agents to request hard copies of any program rules manuals, billing and utilization review instructions, and other pertinent materials and to obtain answers to questions on or not covered by these materials.

(a) No employee of any type may be paid in excess of 40 hours within the established consecutive seven day work week for any one eligible recipient or EOR.

(b) No provider agency is permitted to perform both LOC assessments and provide any services for the eligible recipients.

(c) Providers may market their services, but are prohibited from soliciting eligible recipients under any circumstances such as offering an eligible recipient or his or her authorized representative gratuities in the form of entertainment, gifts, financial compensation to alter that eligible recipient's selection of provider agencies, service agreements, medication, supplies, goods or services.

(d) Those signing a payment request form for vendor services rendered to an eligible recipient may not serve as an employee, contractor or subcontractor of that vendor for that eligible recipient. An eligible recipient who does not have an authorized representative providing oversight of the eligible recipient's financial matters may sign off on the payment request form.

(6) The EOR is the individual responsible for directing the work of the eligible recipient's employees. An eligible recipient is required to have an EOR when utilizing employees. The EOR may be the eligible recipient or a designated qualified individual. A recipient through the use of the mi via EOR questionnaire will determine if an individual meets the requirements to serve as an EOR. The recipient's consultant will provide him or her with the questionnaire. The questionnaire shall be completed by the recipient with assistance from the consultant upon request. The consultant shall maintain a copy of the completed questionnaire in the recipient's file. When utilizing both vendors and employees, an EOR is required for oversight of employees and to sign payment request forms for vendors. The EOR must be documented with the FMA, whether the EOR is the eligible recipient or a designated qualified individual. A POA or other legal instrument may not be used to assign the EOR responsibilities, in part or in full, to another individual and may not be used to circumvent the requirements of the EOR as designated in 8.314.6 NMAC.

(a) An eligible recipient that has a plenary or limited guardianship or conservatorship over the eligible recipient's financial matters may not be his or her own EOR nor sign payment vendor request forms for vendors.

(b) A person under the age of 18 years may not be an EOR.

(c) An EOR who lives outside New Mexico shall reside within 100 miles of the New Mexico state border. Any out of state EOR residing beyond this radius who has been approved prior to the effective date of this rule may continue to serve as the EOR.

(d) The eligible recipient's provider may not also be his or her EOR nor sign payment vendor request forms for vendors.

(e) An EOR whose performance compromises the health, safety or welfare of the eligible recipient, may have his or her status as an EOR terminated.

(f) An EOR may not be paid for any other services utilized by the eligible recipient for whom he or she is the EOR, whether as an employee of the eligible recipient, a vendor, or an employee or contactor, or subcontractor of an agency. An

EOR makes important determinations about what is in the best interest of the eligible recipient, and should not have any conflict of interest. An EOR assists in the management of the eligible recipient's budget and should have no personal benefit connected to the services requested or approved on the budget.

(g) An EOR is not required if an eligible recipient is utilizing only vendors for services; however, an EOR can be identified by an eligible recipient to assist with the use of vendors. In some instances an EOR for vendor services may be required by MAD. A recipient utilizing vendors only who selects not to have an EOR will submit documentation to the FMA identifying an authorized signer who will be responsible for signing payment request forms. The authorized signer for vendor services rendered to an eligible recipient may not serve as an employee, contractor or subcontractor of that vendor for that eligible recipient. An eligible recipient who does not have a plenary or limited guardianship or conservatorship providing oversight of the eligible recipient's financial matters may be his or her own authorized signer for the payment request form. A POA may not be used to assign the responsibilities of the authorized signer, in part or in full, to another individual and may not be used to circumvent the requirements of the authorized signer as designated in this rule.

(h) An EOR, or authorized signer, is required to complete and provide documents to the FMA according to the timelines and rules established by the state. Documents include, but are not limited to: vendor and employee enrollment agreements, vendor information forms, criminal background check forms, timesheets, payment request forms, invoices, and other documents needed by the FMA to enroll and process payment to employees and vendors. The mi via program requires that employee timesheets be submitted online unless the recipient has an approved exception from HSD.

C. Service specific qualifications for consultant services providers: In addition to general requirements, a consultant provider shall ensure that all individuals hired or contracted to provide consultant services meet the criteria specified in this section and comply with all applicable NMAC MAD rules and mi via service standards.

(1) Consultant providers shall:

(a) possess a minimum of a bachelor's degree in social work, psychology, human services, counseling, nursing, special education or a closely related field, and have one year of supervised experience working with people living with disabilities; or

(b) have a minimum of six years of direct experience related to the delivery of social services to people living with disabilities; and

(c) be employed by an enrolled mi via consultant provider agency; and

(d) complete all required mi via program orientation and training courses; and

(e) be at least 21 years of age.

(2) Consultant providers may also use non-professional staff to carry out support guide functions. Support guides provide more intensive supports, as detailed in the service section of these rules. Support guides help the eligible recipient more effectively self-direct services when there is an identified need for this type of assistance. Consultant providers shall ensure that non-professional support staff:

(a) are supervised by a qualified consultant as specified in this rule;

(b) have experience working with people living with disabilities;

(c) demonstrate the capacity to meet the eligible recipient's assessed needs related to the implementation of the SSP;

(d) possess knowledge of local resources, community events, formal and informal community organizations and networks;

(e) are able to accommodate a varied, flexible and on-call type of work schedule in order to meet the needs of the eligible recipient; and

(f) complete training on self-direction and incident reporting; and

(g) be at least 18 years of age.

D. Service specific qualifications for personal plan facilitation providers: In addition to general MAD requirements, a personal plan facilitator agency must hold a current business license, and meet financial solvency, training, records management, and quality assurance rules and requirements. Personal plan facilitators must possess the following qualifications in addition to the general qualifications:

(1) have at least one year of experience working with persons with disabilities; and

(2) be trained and mentored in the planning tool(s) used; and

(3) have at least one year experience in providing the personal plan facilitation service.

E. Service specific qualification for living supports providers: In addition to general MAD requirements, the following types of providers must meet additional qualifications specific to the type of services provided.

(1) Qualifications of homemaker direct support service providers: Provider agencies must be homemaker agencies certified by the MAD or its designee or a home health agency holding a New Mexico home health agency license. A

homemaker and home health agency must hold a current business license when applicable, and meet financial solvency, training, records management, and quality assurance rules and requirements.

(2) Qualifications of home health aide service providers: Home health or homemaker agencies must hold a New Mexico current home health agency, rural health clinic, or federally qualified health center license. Home health aides must have successfully completed a home health aide training program, as described in 42 CFR 484.36(a)(1) and (2) or have successfully completed a home health aide training program pursuant to 7.28.2.30 NMAC. Home health aides must also be supervised by a registered nurse (RN) licensed in New Mexico. Such supervision must occur at least once every 60 calendar days in the eligible recipient's home, and shall be in accordance with the New Mexico Nurse Practice Act and be specific to the eligible recipient's SSP.

(3) Qualifications of in-home living supports providers: Provider agencies must hold a current business license, and meet financial solvency, training, records management, and quality assurance rules and requirements. In-home living agency staff and its direct staff rendering the service must have one year of experience working with people with disabilities. In-home living support agencies must assure appropriate staff for a 24 hour response capability to address scheduled or unpredictable needs related to health, safety, or security in order to meet the needs of the recipient. In-home living support agencies are not fiscal intermediaries and cannot bill nor be paid for work that the recipient or EOR are responsible for as required by Paragraph (6) of Subsection B of 8.314.6.11 NMAC and the mi via service standards.

F. Service specific qualifications for community membership support providers: In addition to general MAD requirements, the following types of providers must meet additional qualifications specific to the type of services provided. An agency providing community membership services must hold a current business license, and meet financial solvency, training, records management, and quality assurance rules and requirements.

(1) Qualifications of supported employment providers:

(a) A job developer, whether an agency or individual provider, must:

(i) be at least 21 years of age;

(ii) pass criminal background check and abuse registry screen;

(iii) have experience developing and using job and task analyses;

(iv) have experience working with the division of vocational rehabilitation (DVR), a traditional DD waiver employment provider, an independent living center or other organization that provides employment supports or services for people with disabilities and be trained on the purposes, functions and general practices of

entities such as the department of workforce solutions navigators, one-stop career centers, business leadership network, chamber of commerce, job accommodation network, small business development centers, local businesses, retired executives, DDSD resources, and have substantial knowledge of the Americans with Disabilities Act (ADA); and

(v) complete training on critical incident, abuse, neglect, and exploitation.

(b) Job coaches whether an agency or individual provider, must:

(i) be at least 18 years of age;

(ii) have a high school diploma or GED;

(iii) pass criminal background check and abuse registry screen;

(iv) be qualified to perform the service;

(v) have experience with providing employment supports and training methods;

(vi) be knowledgeable about business and employment resources;

(vii) have the ability to successfully communicate with the employer and with the eligible recipient and his or her coworkers to develop and encourage natural supports on the job; and

(viii) complete training on critical incident, abuse, neglect, and exploitation.

(2) Qualifications of customized community group supports providers: Agencies providing community group support services must hold a current business license, and meet financial solvency, training, records management, and quality assurance rules and requirements. Providers, whether an agency staff or an individual provider must meet the following qualifications:

(i) must be at least 18 years of age;

(ii) pass criminal background check and abuse registry screen;

(iii) demonstrate capacity to perform required tasks;

(iv) complete training on critical incident, abuse, neglect, and exploitation reporting; and

(v) have the ability to successfully communicate with the eligible recipient.

G. Service specific qualifications for providers of health and wellness supports: In addition to the general MAD qualifications, the following types of providers must meet additional qualifications specific to the type of services provided.

(1) Qualifications of extended state plan skilled therapy providers for adults: Physical and occupational therapists, speech/language pathologists, physical therapy assistants and occupational therapy assistants must possess a therapy license in their respective field from the New Mexico regulation and licensing department (RLD). Speech clinical fellows must possess a clinical fellow license from the New Mexico RLD.

(2) Qualifications of behavior support consultation providers: Behavior support consultation provider agencies shall have a current business license issued by the state, county or city government, if required. Behavior support consultation provider agencies shall comply with all applicable federal, state, and rules and procedures regarding behavior consultation. Providers of behavior support consultation services must possess qualifications in at least one of the following areas:

(a) a licensed psychiatrist by his or her New Mexico practice board;

(b) a regulation and licensing department (RLD) licensed clinical psychologist;

(c) a RLD licensed psychologist associate, (masters or Ph.D. level);

(d) a RLD licensed independent social worker (LISW);

(e) a RLD licensed master social worker (LMSW);

(f) a RLD licensed professional clinical counselor (LPCC);

(g) a licensed clinical nurse specialist (CNS) or a certified nurse practitioner (CNP) who is certified in psychiatric nursing by a national nursing organization who can furnish services to adults or children as his or her certification permits;

(h) a RLD licensed marriage and family therapist (LMFT); or

(i) a RLD licensed practicing art therapist (LPAT) by RLD.

(3) Qualifications of nutritional counseling providers: Nutritional counseling providers must maintain a current registration as dietitians by the commission on dietetic registration of the American dietetic association and licensed by the RLD, (Nutrition and Dietetics Practice Act Section 61-7A-7 et seq. NMSA 1978).

(4) Qualifications of private duty nursing providers for adults: Direct nursing services are provided by individuals who are currently licensed as registered or practical nurses by the New Mexico state board of nursing, (Sections 61-3-14 and 61-3-18 NMSA 1978).

(5) Qualifications of specialized therapy providers: For each type of specialized therapy providers, the provider must hold the appropriate New Mexico licensure or certification for the services he or she renders to an eligible recipient:

(a) a RLD license in acupuncture and oriental medicine;

(b) a license or certification with the appropriate specialized training and clinical experience and supervision whose scope of practice includes biofeedback;

(c) a RLD license in chiropractic medicine;

(d) a license or certification for which he or she has appropriate specialized training and clinical experience and whose scope of practice includes cognitive rehabilitation therapy;

(e) a RLD license in a physical therapy, or occupational therapy, or speech therapy and whose scope of practice includes hippotherapy with the appropriate specialized training and experience;

(f) a RLD license in massage therapy;

(g) a RLD license in naprapathic medicine;

(h) a master's or a higher level behavioral health degree with specialized play therapy training, clinical experience and supervision and whose RLD license's scope of practice includes play therapy; and

(i) a native American healer who is recognized as a traditional healer within his or her community.

H. Service specific qualifications for other supports providers: In addition to the general MAD qualifications, the following types of providers must meet additional qualifications specific to the type of services provided.

(1) Qualifications of transportation providers:

(a) Individual transportation providers must:

(i) possess a valid New Mexico driver's license with the appropriate classification;

(ii) complete training on critical incident, abuse, neglect and exploitation reporting procedures; and

(iii) have a current insurance policy and vehicle registration.

(b) Transportation vendors must hold a current business license and tax identification number. Each agency will ensure any vehicle used to transport an eligible recipient is equipped with an up-to-date first aid kit. Each agency will ensure transportation drivers meet the following qualifications:

(i) holds a valid New Mexico driver's license of the appropriate classification to transport an eligible recipient;

(ii) holds a current vehicle insurance policy meeting New Mexico's insurance mandates in place for the vehicle used to transport an eligible recipient; and

(iii) holds a New Mexico vehicle registration for the vehicle used to transport an eligible recipient.

(2) Q**ualifications of emergency response providers:** Emergency response providers must comply with all laws, rules and regulations of the state of New Mexico.

(3) Qualifications of respite providers: Respite services may be provided by eligible individual respite providers; RN or practical nurses (LPN); or respite provider agencies. Individual RN or LPN providers must be licensed by the New Mexico board of nursing as an RN or LPN. Respite provider agencies must hold a current business license, and meet financial solvency, training, records management and quality assurance rules and requirements.

(4) Qualifications of individual directed goods and services vendors: Individual directed goods and services vendors must hold a current business license and tax identification for New Mexico and the federal government. Vendors for individual directed goods and services are retail stores, community health centers, or medical supply stores.

(5) Qualifications of environmental modifications providers: Environmental modification providers must possess an appropriate plumbing, electrician, contractor or other appropriate New Mexico licensure.

[8.314.6.11 NMAC - Rp, 8.314.6.11 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.12 RECORDKEEPING AND DOCUMENTATION RESPONSIBILITIES:

Service providers and vendors who furnish goods and services to mi via eligible recipients are reimbursed by the FMA and must comply with all applicable NMAC MAD

rules and service standards. The FMA, consultants and service providers must maintain records, which are sufficient to fully disclose the extent and nature of the goods and services provided to the eligible recipients, as detailed in applicable NMAC MAD provider rules and comply with random and targeted audits conducted by MAD and DOH or their audit agents. MAD or its designee will seek recoupment of funds from service providers when audits show inappropriate billing for services. Mi via vendors who furnish goods and services to mi via eligible recipients and bill the FMA must comply with all MAD PPA requirements and NMAC MAD rules and requirements, including but not limited to 8.310.2 NMAC and 8.321.2 NMAC and 8.302.1 NMAC.

[8.314.6.12 NMAC - Rp, 8.314.6.12 NMAC, 3/1/2016]

8.314.6.13 ELIGIBILITY REQUIREMENTS FOR RECIPIENT ENROLLMENT IN MI VIA:

Enrollment in the mi via program is contingent upon the applicant meeting the eligibility requirements as described in this rule, the availability of funding as appropriated by the New Mexico legislature, and the number of federally authorized unduplicated eligible recipients. When sufficient funding as well as waiver positions are available, DOH will offer the opportunity to eligible recipients to select mi via. Once an allocation has been offered to the applicant, he or she must meet certain medical and financial criteria in order to qualify for mi via enrollment located in 8.290.400 NMAC. The eligible recipient must meet the LOC required for admittance to an ICF-IID. After initial eligibility has been established for a recipient, on-going eligibility must be determined on an annual basis.

[8.314.6.13 NMAC - Rp, 8.314.6.13 NMAC, 3/1/2016]

8.314.6.14 ELIGIBLE RECIPIENT AND EOR RESPONSIBILITIES:

Mi via eligible recipients have certain responsibilities to participate in the program. Failure to comply with these responsibilities or other program rules and service standards can result in termination from the program. The eligible recipient and EOR, or authorized signer if the recipient has vendors only, have the following responsibilities:

A. To maintain eligibility the recipient must complete required documentation demonstrating medical and financial eligibility both upon application and annually at recertification, meet in person with the TPA for a comprehensive LOC assessment in the eligible recipient’s home, or in a location approved by the state and seek assistance with the application and the recertification process as needed from a mi via consultant.

B. To participate in the mi via program, the eligible recipient must:

(1) comply with applicable NMAC rules to include this rule, mi via service standards and requirements that govern the program;

(2) collaborate with the consultant to determine support needs related to the activities of self-direction;

(3) collaborate with the consultant to develop an SSP using the IBA in accordance with applicable NMAC rules to include this rule and service standards;

(4) use mi via program funds appropriately by only requesting and purchasing goods and services covered by the mi via program in accordance with program rules which are identified in the eligible recipient's approved SSP;

(5) comply with the approved SSP and not exceed the AAB;

(a) if the eligible recipient does not adequately allocate the resources contained in the AAB resulting in a premature depletion of the AAB amount during an SSP year due to mismanagement or failure to properly track expenditures, the failure to properly allocate does not substantiate a claim for a budget increase (i.e., if all of the AAB is expended within the first three months of the SSP year, it is not justification for an increase in the budget for the SSP year);

(b) revisions to the AAB may occur within the SSP year, and the eligible recipient is responsible for assuring that all expenditures are in compliance with the most current AAB in effect;

(i) the SSP must be amended first to reflect a change in the eligible recipient's needs or circumstances before any revisions to the AAB can be requested;

(ii) other than for critical health and safety reasons, budget revisions may not be submitted to the TPA for review within the last 60 calendar days of the budget year;

(c) no mi via program funds can be used to purchase goods or services prior to TPA approval of the SSP and annual budget request;

(d) any funds not utilized within the SSP and AAB year cannot be carried over into the following year;

(6) access consultant services based upon identified need(s) in order to carry out the approved SSP;

(7) collaborate with the consultant to appropriately document service delivery and maintain those documents for evidence of services received;

(8) report concerns or problems with any part of the mi via program to the consultant or if the concern or problem is with the consultant, to DOH;

(9) work with the TPA agent by attending scheduled meetings, in the eligible recipient's home if necessary and providing documentation as requested;

(10) respond to requests for additional documentation and information from the consultant provider, FMA, and the TPA within the required deadlines;

(11) report to the local HSD income support division (ISD) office within 10 calendar days any change in circumstances, including a change in address, which might affect eligibility for the program; changes in address or other contact information must also be reported to the consultant provider and the FMA within 10 calendar days;

(12) report to the TPA and consultant provider if hospitalized for more than three consecutive nights so that an appropriate LOC can be obtained;

(13) keep track of all budget expenditures and assure that all expenditures are within the AAB;

(14) have monthly contact and meet face-to-face quarterly with the consultant; and

(15) have an EOR if utilizing employees for services; the eligible recipient may be his or her own EOR unless the eligible recipient is a minor, or he or she has a plenary or limited guardianship or conservatorship over financial matters; an eligible recipient may also designate an individual of his or her choice to serve as the EOR, subject to the EOR meeting the qualifications specified in this rule. If the recipient is using vendors only and selects not to have an EOR then the recipient will identify an authorized signer for payment request forms; the eligible recipient may be his or her own authorized signer unless the eligible recipient is a minor, or he or she has a plenary or limited guardianship or conservatorship over financial matters. A POA or other legal instrument may not be used to assign the EOR, or authorized signer, responsibilities, in part or in full, to another individual and may not be used to circumvent the requirements of the EOR, or authorized signer, as designated in this rule.

C. Additional responsibilities of the eligible recipient or EOR, or authorized signer, are detailed below:

(1) Submit all required documents to the FMA according to the timelines and rules established by the state to meet employer-related responsibilities. This includes, but is not limited to, documents for payment to employees and vendors and payment of taxes and other financial obligations within required timelines. The EOR is responsible for submitting mi via employee timesheets online unless the recipient has an approved exception from HSD.

(2) Report any incidents of abuse, neglect or exploitation to the appropriate state agency.

(3) Arrange for the delivery of services, supports and goods.

(4) Hire, manage, and terminate employees.

(5) Maintain records and documentation for at least six years from first date of service and ongoing.

D. Voluntary termination: An eligible recipient has a choice of receiving services through the non-self-directed waiver or through the mi via HCBS waiver. If the eligible recipient wishes to change to the non-self-directed HCBS waiver, a waiver change must occur in accordance with the mi via NMAC rule and mi via service standards. Transitions can only occur at the first of a month.

E. Involuntary termination: A mi via eligible recipient may be terminated involuntarily by MAD and DOH and offered services through a non-self-directed waiver or the medicaid state plan under the following circumstances.

(1) The eligible recipient refuses to comply with this rule and mi via service standards after receiving focused technical assistance on multiple occasions, support from the program staff, consultant, or FMA, which is supported by documentation of the efforts to assist the eligible recipient.

(2) The eligible recipient is in immediate risk to his or her health or safety by continued self-direction of services, e.g., the eligible recipient is in imminent risk of death or serious bodily injury related to participation in the mi via program. Examples include but are not limited to the following.

(a) The eligible recipient refuses to include and maintain services in his or her SSP and AAB that would address health and safety issues identified in his or her medical assessment or challenges the assessment after repeated and focused technical assistance and support from program staff, consultant, or FMA.

(b) The eligible recipient is experiencing significant health or safety needs, and, after a referral to the state contractor for level of risk determination and assistance, refuses to incorporate the contractor’s recommendations into his or her SSP and AAB.

(c) The eligible recipient exhibits behaviors which endanger himself or herself or others.

(3) The eligible recipient misuses mi via funds following repeated and focused technical assistance and support from the consultant or FMA, which is supported by documentation.

(4) The eligible recipient commits medicaid fraud.

(5) When DOH is notified the eligible recipient continues to utilize either an employee or a vendor, or both who have consistently been substantiated against for abuse, neglect, exploitation while providing mi via services after notification of this on multiple occasions by DOH.

(6) The eligible recipient who is involuntarily terminated from the mi via program will be offered a non self-directed waiver alternative. If transfer to another waiver is authorized and accepted by the eligible recipient, he or she will continue to receive the services and supports from mi via until the day before the new waiver services start. This will ensure that no break in service occurs. The mi via consultant and the case manager in the new waiver will work closely together with the eligible recipient to ensure that the eligible recipient's health and safety is maintained.

[8.314.6.14 NMAC - Rp, 8.314.6.14 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.15 SERVICE DESCRIPTIONS AND COVERAGE CRITERIA:

The services covered by the mi via program are intended to provide a community-based alternative to institutional care for an eligible recipient that allows greater choice, direction and control over services and supports in a self-directed environment. Mi via services must specifically address a therapeutic, rehabilitative, habilitative, health or safety need that results from the eligible recipient's qualifying condition. The mi via program is the payor of last resort. The coverage of mi via services must be in accordance with 8.314.6 NMAC and mi via service standards. Waiver recipients in all living arrangements are assessed individually and service plan development is individualized. The TPA will assess the service plans of recipients living in the same residence to determine whether or not there are services that are common to more than one recipient living in the same household in order to determine whether one or more employees may be needed to ensure that individual different cognitive, clinical, and habilitative needs are met. Mi via services must be provided in integrated settings and facilitate full access to the community; ensure the recipient receives services in the community to the same degree of access as those individuals not receiving HCBS services; maximize independence in making life choices; be chosen by the recipient in consultation with the guardian as applicable; ensure the right to privacy, dignity, respect, and freedom from coercion and restraint; optimize recipient initiative, autonomy and independence in making life choices; provide an opportunity to seek competitive employment; and facilitate choice of service and who provides them.

A. General requirements regarding mi via covered services. To be considered a covered service under the mi via program, the following criteria must be met. Services, supports and goods must:

(1) directly address the eligible recipient's qualifying condition or disability;

(2) meet the eligible recipient's clinical, functional, medical or habilitative needs;

(3) be designed and delivered to advance the desired outcomes in the eligible recipient's service and support plan; and

(4) support the eligible recipient to remain in the community and reduce the risk of institutionalization.

B. Consultant pre-eligibility and enrollment services: Consultant pre-eligibility and enrollment services are intended to provide information, support, guidance, and assistance to an individual during the medicaid financial and medical eligibility process. The level of support provided is based upon the unique needs of the individual. When an opportunity to be considered for mi via program services is offered to an individual, he or she must complete a primary freedom of choice form. The purpose of this form is for the individual to select a consultant provider. The chosen consultant provider offers pre-eligibility and enrollment services as well as on-going consultant services. Once the individual is determined to be eligible for mi via services, the consultant service provider will continue to render consultant services to the newly enrolled eligible recipient as set forth in the consultant service standards.

C. Consultant services: Consultant services are required for all mi via eligible recipients to educate, guide, and assist the eligible recipients to make informed planning decisions about services and supports. The consultant helps the eligible recipient develop the SSP based on his or her assessed needs. The consultant assists the eligible recipient with implementation and quality assurance related to the SSP and AAB. Consultant services help the eligible recipient identify supports, services and goods that meet his or her needs, meet the mi via requirements and are covered mi via services. Consultant services provide support to eligible recipients to maximize their ability to self-direct their mi via services.

(1) Contact requirements: Consultant providers shall make contact with the eligible recipient in person or by telephone at least monthly for a routine follow-up. Consultant providers shall meet face-to-face with the eligible recipient at least quarterly; one visit must be conducted in the eligible recipient's home at least annually. During monthly contact the consultant:

(a) reviews the eligible recipient's access to services and whether they were furnished per the SSP;

(b) reviews the eligible recipient's exercise of free choice of provider;

(c) reviews whether services are meeting the eligible recipient's needs;

(d) reviews whether the eligible recipient is receiving access to non-waiver services per the SSP;

(e) reviews activities conducted by the support guide, if utilized;

(f) documents changes in status;

(g) monitors the use and effectiveness of the emergency back-up plan;

(h) documents and provides follow up, if necessary, if challenging events occur that prevent the implementation of the SSP;

(i) assesses for suspected abuse, neglect, or exploitation and report accordingly; if not reported, takes remedial action to ensure correct reporting;

(j) documents progress of any time sensitive activities outlined in the SSP;

(k) determines if health and safety issues are being addressed appropriately; and

(l) discusses budget utilization concerns.

(2) Quarterly visits will be conducted for the following purposes:

(a) review and document progress on implementation of the SSP;

(b) document usage and effectiveness of the emergency backup plan;

(c) review SSP and budget spending patterns (over and under-utilization);

(d) assess quality of services, supports and functionality of goods in accordance with the quality assurance section of the SSP and any applicable sections of the mi via rules and service standards;

(e) document the eligible recipient's access to related goods identified in the SSP;

(f) review any incidents or events that have impacted the eligible recipient's health, welfare or ability to fully access and utilize support as identified in the SSP; and

(g) other concerns or challenges, including but not limited to complaints, eligibility issues, and health and safety issues, raised by the eligible recipient, authorized representative or personal representative.

(3) Change of consultants: Consultants are responsible for assisting eligible recipients to transition to another consultant provider when requested. Transition from one consultant provider to another can only occur at the first of the month.

(4) Critical incident management responsibilities and reporting requirements: The consultant provider shall report incidents of abuse, neglect, exploitation, suspicious injury, environmental hazards, and eligible recipient death as

directed by the appropriate state agency(ies). The consultant provider shall provide training to eligible recipients EOR, authorized representatives or other designated individuals regarding recognizing and reporting critical incidents. Critical incidents include abuse, neglect, exploitation, suspicious injury, environmental hazards and eligible recipient deaths. The consultant provider shall maintain a critical incident management system to identify, report, and address critical incidents. The consultant provider is responsible for follow-up and assisting the eligible recipient to help ensure health and safety when a critical incident has occurred. Critical incident reporting requirements for mi via eligible recipients who have been designated with an ICF/IID LOC, critical incidents should be directed in the following manner.

(a) DOH triages, and investigates all reports of alleged abuse, neglect, exploitation, suspicious injury, environmental hazards, and eligible recipient deaths for mi via services and eligible recipients to include expected and unexpected deaths. The reporting of these critical incidents is mandated for all those providing mi via services pursuant to 7.1.14 NMAC. Any critical incidents must be reported to the children, youth and families department (CYFD) child protective services (CPS) or the DOH division of health improvement (DHI) incident management bureau (IMB) for eligible recipients under 18 years. For eligible recipient's 18 years and older, IMB is contacted to report any critical incidents. The reporter must then fax DHI the abuse, neglect and exploitation or report of death form within 24 hours of a verbal report. If the reporter has internet access, the report form shall be submitted via DHI's website. Anyone may report an incident; however, the person with the most direct knowledge of the incident is the individual who is required to report the incident.

(b) With respect to mi via services provided by any employee, contractor, vendor or other community-based waiver service agency having a provider agreement with DOH, any suspected abuse, neglect, exploitation, suspicious injury, environmental hazard, eligible recipient death must be reported to the CYFD/CPS or DOH/DHI/IMB for the eligible recipient under 18 years or to IMB for eligible recipients age 18 years or older. See Sections 27-7-14 through 27-7-31 NMSA 1978 (Adult Protective Services Act) and in Sections 32A-4-1 through 32A-4-34 NMSA 1978 (Child Abuse and Neglect Act).

(5) Conflict of interest: An eligible recipient's consultant may not serve as the eligible recipient's EOR, authorized representative or personal representative for whom he or she is the consultant. A consultant may not be paid for any other services utilized by the eligible recipient for whom he or she is the consultant, whether as an employee of the eligible recipient, a vendor, an employee or subcontractor of an agency. A consultant may not provide any other paid mi via services to an eligible recipient unless the recipient is receiving consultant services from another agency. The consultant agency may not provide any other direct services for an eligible recipient that has an approved SSP, an approved budget, and is actively receiving services in the mi via program. The consultant agency may not employ as a consultant any immediate family member or guardian for an eligible recipient of the mi via program that is served by the consultant agency. A consultant agency may not provide guardianship services

to an eligible recipient receiving consultant services from that same agency. The consultant agency may not provide any direct support services through any other type of 1915 (c) Home and Community Based Waiver Program. A consultant agency shall not engage in any activities in their capacity as a provider of services to an eligible recipient that may be a conflict of interest. As such a consultant agency shall not hold a business or financial interest in an affiliated agency that is paid to provide direct care for any individuals receiving mi via services. An affiliated agency is defined as a direct service agency providing mi via services that has a marital, domestic partner, blood, business interest or holds financial interest in providing direct care for individuals receiving mi via services. Affiliated agencies must not hold a business or financial interest in any entity that is paid to provide direct care for any individuals receiving HCBS services. Any direct service agency or consultant agency that has been referred to the DOH internal review committee (IRC) or is on a moratorium will not be approved to provide mi via services.

D. Personal plan facilitation: Personal plan facilitation supports planning activities that may be used by the eligible recipient to develop his or her SSP as well as identify other sources of support outside the SSP process. This service is available to an eligible recipient one time per budget year.

(1) In the scope of personal planning facilitation, the personal plan facilitator will:

(a) meet with the eligible recipient and his or her family (or authorized representative, or personal representative as appropriate) prior to the personal planning session to discuss the process, to determine who the eligible recipient wishes to invite, and determine the most convenient date, time and location; this meeting preparation shall include an explanation of the techniques the facilitator is proposing to use or options if the facilitator is trained in multiple techniques; the preparation shall also include a discussion of the role the eligible recipient prefers to play at the planning session, which may include co-facilitation of all or part of the session;

(b) arrange for participation of invitees and location;

(c) conduct the personal planning session;

(d) document the results of the personal planning session and provide a copy to the eligible recipient, his or her authorized representative, or personal representative, the consultant and any other parties the eligible recipient would like to receive a copy.

(2) Elements of this report shall include:

(a) recommended services to be included in the SSP;

(b) services from sources other than MAD to aid the eligible recipient;

(c) long-term goals the eligible recipient wishes to pursue;

(d) potential resources, especially natural supports within the eligible recipient's community that can help the eligible recipient to pursue his or her desired outcomes(s)/goal(s); and

(e) a list of any follow-up actions to take, including timelines.

(3) Provide session attendees, including the eligible recipient, with an opportunity to provide feedback regarding the effectiveness of the session.

E. Living supports: Living supports are provided in the individual's own home or in the community and may not be provided in residential facilities or agency owned homes.

(1) Homemaker direct support services: Homemaker direct support services are provided on an episodic or continuing basis to assist an eligible recipient 21 years and older with activities of daily living, performance of general household tasks, and enable the eligible recipient to accomplish tasks he or she would normally do for himself or herself if he or she did not have a disability. Homemaker direct support services are provided in the eligible recipient's own home and in the community, depending on the eligible recipient's needs. The eligible recipient identifies the homemaker direct support worker's training needs, and, if the eligible recipient is unable to do the training for him or herself, the eligible recipient arranges for the needed training. Services are not intended to replace supports available from a primary caregiver. Personal care services are covered under the medicaid state plan as enhanced early and periodic screening, diagnostic and treatment (EPSDT) benefits for mi via eligible recipients under 21 years of age and are not to be included in an eligible recipient's AAB.

(2) Home health aide services: Home health aide services provide total care or assist an eligible recipient 21 years and older in all activities of daily living. Home health aide services assist the eligible recipient in a manner that will promote an improved quality of life and a safe environment for the eligible recipient. Home health aide services can be provided in the eligible recipient's own home and outside the eligible recipient's home. Home health aide services under the waiver differ in nature, scope, supervisory arrangements, or provider type from home health aide services in the state plan. Home health aide services under the waiver provide total care or assistance to a recipient in all activities of daily living in a manner that will promote an improved quality of life and a safe environment to support the recipient's independence and health needs in the home and in the community. Home health aide services can be provided on a long-term basis for the recipient's habilitative supports whereas, state plan home health aide services address acute conditions; the purpose of which is curative and restorative, with the goal of assisting the recipient to return to an optimum level of functioning and to facilitate timely discharge of the recipient to self-care or to care by his or her family. Home health aide services are not duplicative of homemaker services. Home health aides may provide basic non-invasive nursing assistant skills

within the scope of their practice. Homemakers do not have this ability to perform such tasks. Home health aides are supervised by a RN. Supervision must occur at least once every 60 calendar days in the eligible recipient's home and be in accordance with the New Mexico Nurse Practice Act, Section 61-3-4 et seq. NMSA 1978.

(3) In-home living supports: In-home living supports are related to the eligible recipient's qualifying condition or disability and enable him or her to live in his or her apartment or house. Services must be provided in the home or apartment owned or leased by the eligible recipient or in the eligible recipient's home, not to include homes or apartments owned by agency providers. Service coordination and nursing services are not included in this service.

(a) These services and supports are provided in the eligible recipient's own home and are individually designed to instruct or enhance home living skills as well as address health and safety.

(b) In-home living supports include assistance with activities of daily living and assistance with the acquisition, restoration, or retention of independent living skills. This service is provided on a regular basis at least four or more hours per day one or more days per week and may be up to 24 hours per day as specified in the eligible recipient's SLRISP.

(c) Eligible recipients receiving in-home living supports may not use homemaker and direct support home health aide services or respite because they duplicate in-home living supports.

F. Community membership supports:

(1) Community direct support: Community direct support providers deliver support to the eligible recipient to identify, develop and maintain community connections and access social and educational options. This service does not include formal educational (including home schooling and tutoring related activities), or vocational services related to traditional academic subjects or vocational training.

(a) The community direct support provider may be a skilled independent contractor or a hired employee depending on the level of support needed by the eligible recipient to access the community.

(b) The community direct support provider may instruct and model social behavior necessary for the eligible recipient to interact with community members or in groups, provide assistance in ancillary tasks related to community membership, provide attendant care and help the eligible recipient schedule, organize and meet expectations related to chosen community activities.

(c) Community direct support services include:

(i) provide assistance to the eligible recipient outside of his or her residence;

(ii) promote the development of social relationships and build connections within local communities;

(iii) support the eligible recipient in having frequent opportunities to expand roles in the community to increase and enhance natural supports, networks, friendships and build a sense of belonging; and

(iv) assist in the development of skills and behaviors that strengthen the eligible recipient's connection with his or her community.

(d) The skills to assist someone in a community setting may be different than those for assisting an eligible recipient at home. The provider will:

(i) demonstrate knowledge of the local community and resources within that community that are identified by the eligible recipient on the SSP; and

(ii) be aware of the eligible recipient's barriers to communicating and maintaining health and safety while in the community setting.

(2) Employment supports: The objective of employment supports services is to provide assistance that will result in community employment jobs for an eligible recipient which increases economic independence, self-reliance, social connections and the ability to grow within his or her career. Employment supports services are geared to place and support an eligible recipient with disabilities in competitive, integrated employment settings with non-disabled co-workers within the general workforce; or assist the eligible recipient in business ownership. Employment supports include job development and job coaching supports after available vocational rehabilitation supports have been exhausted, including programs funded under Section 110 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act (IDEA) to an eligible recipient. Employment Services are to be individualized to meet the needs of the recipient and not the needs of a group.

(a) Job development is a service provided to an eligible recipient by a skilled individual. The service has several components:

(i) conducting situational and or vocational assessments;

(ii) developing and identifying community based job opportunities that are in line with the eligible recipient's skills and interests;

(iii) supporting the eligible recipient in gainful skills or knowledge to advocate for his or herself in the workplace;

(iv) promoting career exploration for the eligible recipient based on interests within various careers through job sampling, job trials or other assessments as needed;

(v) arranging for or providing benefits counseling;

(vi) facilitating job accommodations and use of assistive technology such as communication devices for the eligible recipient's use;

(vii) providing job site analysis (matching workplace needs with those of the eligible recipient); and

(viii) assisting the eligible recipient in gaining or increasing job seeking skills (interview skills, resume writing, work ethics, etc.).

(b) The job coach provides the following services:

(i) training the eligible recipient to perform specific work tasks on the job;

(ii) vocational skill development to the eligible recipient;

(iii) employer consultation specific to the eligible recipient;

(iv) eligible recipient co-worker training;

(v) job site analysis for an eligible recipient;

(vi) education of the eligible recipient and co-workers on rights and responsibilities;

(vii) assistance with or utilization of community resources to develop a business plan if the eligible recipient elects to start his or her own business;

(viii) conduct market analysis and establish the infrastructure to support a business specific for the eligible recipient; and

(ix) increasing the eligible recipient's capacity to engage in meaningful and productive interpersonal interactions co-workers, supervisors and customers.

(c) Employment supports will be provided by staff at current or potential work sites. When employment services are provided at a work site where persons without disabilities are employed, payment is made only for the adaptations; supervision and training required by the eligible recipient receiving mi via services as a result of his or her disabilities but does not include payment for the supervisory activities rendered as a normal part of the business setting. Federal financial participation (FFP) is not claimed

for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

(i) incentive payments made to an employer to encourage or subsidize the employer's participation in a supported employment program;

(ii) payments that are passed through to users of supported employment programs; or

(iii) payments for training that is not directly related to the eligible recipient's supported employment program; and

(iv) FFP cannot be claimed to defray expenses associated with an eligible recipient's start-up or operation of his or her business.

(3) Customized community group supports: Customized community group supports can include participation in congregate community day programs and community centers that offer functional meaningful activities that assist with acquisition, retention, or improvement in self-help, socialization and adaptive skills for an eligible recipient. Customized community group supports may include adult day habilitation programs, and other day support models. Customized community group supports are provided in integrated community settings such as day programs and community centers which can take place in non-institutional and non-residential settings. These services are available at least four or more hours per day one or more days per week. Service hours and days are specified in the eligible recipient's SSP.

G. Health and wellness:

(1) Extended skilled therapy for eligible recipients 21 years and older: Extended skilled therapy for adults may include physical therapy, occupational therapy or speech language therapy when skilled therapy services under the medicaid state plan are exhausted or are not a covered benefit. Eligible recipients 21 years and older in the mi via program access therapy services under the state medicaid plan for acute and temporary conditions that are expected to improve significantly in a reasonable and generally predictable period of time. Therapy services provided to eligible recipients 21 years and older in the mi via program focus on improving functional independence, health maintenance, community integration, socialization, and exercise, or enhance support and normalization of family relationships.

(a) Physical therapy: Diagnosis and management of movement dysfunction and the enhancement of physical and functional abilities. Physical therapy addresses the restoration, maintenance and promotion of optimal physical function, wellness and quality of life related to movement and health. Physical therapy activities do the following:

(i) increase, maintain or reduce the loss of functional skills;

(ii) treat a specific condition clinically related to the eligible recipient's disability;

(iii) support the eligible recipient's health and safety needs; or

(iv) identify, implement, and train on therapeutic strategies to support the eligible recipient and his or her family or support staff consistent with the eligible recipient's SSP desired outcomes and goals.

(b) Occupational therapy: Diagnosis, assessment, and management of functional limitations intended to assist the eligible recipient to regain, maintain, develop, and build skills that are important for independence, functioning, and health. Occupational therapy services typically include:

(i) customized treatment programs to improve the eligible recipient's ability to perform daily activities;

(ii) comprehensive home and job site evaluations with adaptation recommendations;

(iii) skills assessments and treatment;

(iv) assistive technology recommendations and usage training;

(v) guidance to family members and caregivers;

(vi) increasing or maintaining functional skills or reducing the loss of functional skills;

(vii) treating specific conditions clinically related to the eligible recipient's developmental disability;

(viii) support for the eligible recipient's health and safety needs; and

(ix) identifying, implementing, and training therapeutic strategies to support the eligible recipient and his or her family or support staff consistent with the eligible recipient's SSP desired outcomes and goals.

(c) Speech and language pathology: Diagnosis, counseling and instruction related to the development and disorders of communication including speech fluency, voice, verbal and written language, auditory comprehension, cognition, swallowing dysfunction, oral pharyngeal or laryngeal, and sensor motor competencies. Speech language pathology is also used when an eligible recipient requires the use of an augmentative communication device. Based upon therapy goals, services may be delivered in an integrated natural setting, clinical setting or in a group. Services are intended to:

(i) improve or maintain the eligible recipient's capacity for successful communication or to lessen the effects of the loss of communication skills; or

(ii) improve or maintain the eligible recipient's ability to eat foods, drink liquids, and manage oral secretions with minimal risk of aspiration or other potential injuries or illness related to swallowing disorders;

(iii) provide consultation on usage and training for augmentative communication devices;

(iv) identify, implement and train therapeutic strategies to support the eligible recipient and his or her family or support staff consistent with the eligible recipient's SSP desired outcomes and goals.

(d) Behavior support consultation: Behavior support consultation services consist of functional support assessments, positive behavior support plan that is part of the eligible recipient's treatment plan development, and training and support coordination for the eligible recipient's related to behaviors that compromise the eligible recipient's quality of life. Based on the eligible recipient's SSP, services are delivered in an integrated, natural setting, or in a clinical setting. Behavior support consultation:

(i) informs and guides the eligible recipient's service and support employees or vendors toward understanding the contributing factors to the eligible recipient's behavior;

(ii) identifies support strategies to ameliorate contributing factors with the intention of enhancing functional capacities, adding to the provider's competency to predict, prevent and respond to interfering behavior and potentially reducing interfering behavior(s);

(iii) supports effective implementation based on a functional assessment and support plans;

(iv) collaborates with medical and ancillary therapies to promote coherent and coordinated services addressing behavioral issues, and to limit the need for psychotherapeutic medications; and

(v) monitors and adapts support strategies based on the response of the eligible recipient and his or her service and support providers in order for services to be provided in the least restrictive manner; HSD does not allow the use of any restraints, restrictive interventions, or seclusion to an eligible recipient.

(e) Nutritional counseling: Nutritional counseling services include assessment of the eligible recipient's nutritional needs, development or revision of the eligible recipient's nutritional plan, counseling and nutritional intervention and observation and technical assistance related to implementation of the nutritional plan.

(f) Private duty nursing for adults: Private duty nursing for eligible recipients 21 years or older includes activities, procedures, and treatment for the eligible recipient's physical condition, physical illness or chronic disability. Services include medication management, administration and teaching, aspiration precautions, feeding tube management, gastrostomy and jejunostomy care, skin care, weight management, urinary catheter management, bowel and bladder care, wound care, health education, health screening, infection control, environmental management for safety, nutrition management, oxygen management, seizure management and precautions, anxiety reduction, staff supervision, behavior and self-care assistance.

(2) Specialized therapies: Specialized therapies are non-experimental therapies or techniques that have been proven effective for certain conditions. Experimental or investigational procedures, technologies or therapies and those services covered as a medicaid state plan benefit are excluded. Services in this category include the following therapies:

(a) Acupuncture: Acupuncture is a distinct system of primary health care with the goal of prevention, cure, or correction of any disease, illness, injury, pain or other physical or behavioral health condition by controlling and regulating the flow and balance of energy, form and function to restore and maintain physical health and increased mental clarity. Acupuncture may provide effective pain control, decreased symptoms of stress, improved circulation and a stronger immune system, as well as other benefits. See 16.2.1 NMAC.

(b) Biofeedback: Biofeedback uses visual, auditory or other monitors to provide eligible recipients with physiological information of which they are normally unaware. This technique enables an eligible recipient to learn how to change physiological, psychological and behavioral responses for the purposes of improving emotional, behavioral, and cognitive health performance. The use of biofeedback may assist in strengthening or gaining conscious control over the above processes in order to self-regulate. Biofeedback therapy is also useful for muscle re-education of specific muscle groups or for treating pathological muscle abnormalities of spasticity, incapacitating muscle spasm, or weakness.

(c) Chiropractic: Chiropractic care is designed to locate and remove interference with the transmissions or expression of nerve forces in the human body by the correction of misalignments or subluxations of the vertebral column and pelvis, for the purpose of restoring and maintaining health for treatment of human disease primarily by, but not limited to, adjustment and manipulation of the human structure. Chiropractic therapy may positively affect neurological function, improve certain reflexes and sensations, increase range of motion, and lead to improved general health. See 16.4.1 NMAC.

(d) Cognitive rehabilitation therapy: Cognitive rehabilitation therapy services are designed to improve cognitive functioning by reinforcing, strengthening, or reestablishing previously learned patterns of behavior, or establishing new patterns of

cognitive activity or compensatory mechanisms for impaired neurological systems. Treatments may be focused on improving a particular cognitive domain such as attention, memory, language, or executive functions. Alternatively, treatments may be skill-based, aimed at improving performance of activities of daily living. The overall goal is to restore function in a cognitive domain or set of domains or to teach compensatory strategies to overcome an eligible recipient's specific cognitive problems.

(e) Hippotherapy: Hippotherapy is a physical, occupational, and speech-language therapy treatment strategy that utilizes equine movement as part of an integrated intervention program to achieve functional outcomes. Hippotherapy applies multidimensional movement of a horse for an eligible recipient with movement dysfunction and may increase mobility and range of motion, decrease contractures and aid in normalizing muscle tone. Hippotherapy requires that the eligible recipient use cognitive functioning, especially for sequencing and memory. An eligible recipient with attention deficits and behavior problems are redirecting attention and behaviors by focusing on the activity. Hippotherapy involves therapeutic exercise, neuromuscular education, kinetic activities, therapeutic activities, sensory integration activities, and individual speech therapy. The activities may also help improve respiratory function and assist with improved breathing and speech production. Hippotherapy must be performed by a RLD licensed physical therapist, occupational therapist, or speech therapist.

(f) Massage therapy: Massage therapy is the assessment and treatment of soft tissues and their dysfunctions for therapeutic purposes primarily for comfort and relief of pain. It includes gliding, kneading, percussion, compression, vibration, friction, nerve strokes, stretching the tissue and exercising the range of motion, and may include the use of oils, salt glows, hot or cold packs or hydrotherapy. Massage increases the circulation, helps loosen contracted, shortened muscles and can stimulate weak muscles to improve posture and movement, improves range of motion and reduces spasticity. Massage therapy may increase, or help sustain, an eligible recipient's ability to be more independent in the performance of activities of daily living; thereby, decreasing dependency upon others to perform or assist with basic daily activities. See 16.7.1 NMAC.

(g) Naprapathy: Naprapathy focuses on the evaluation and treatment of neuro-musculoskeletal conditions, and is a system for restoring functionality and reducing pain in muscles and joints. The therapy uses manipulation and mobilization of the spine and other joints, and muscle treatments such as stretching and massage. Based on the concept that constricted connective tissue (ligaments, muscles, and tendons) interfere with nerve, blood, and lymph flow, naprapathy uses manipulation of connective tissue to open these channels of body function. See 16.6.1 NMAC.

(h) Native American healers: Native American healing therapies encompass a wide variety of culturally-appropriate therapies that support eligible recipients in their communities by addressing their physical, emotional and spiritual health. Treatments may include prayer, dance, ceremony, song, plant medicines, foods, participation in

sweat lodges, and the use of meaningful symbols of healing, such as the medicine wheel or other sacred objects.

(i) Play therapy: Play therapy is a variety of play and creative arts techniques utilized to alleviate chronic, mild and moderate psychological and emotional conditions for an eligible recipient that are causing behavioral problems or are preventing the eligible recipient from realizing his or her potential. The play therapist works integratively using a wide range of play and creative arts techniques, mostly responding to the eligible recipient's direction.

H. Other supports:

(1) Transportation: Payment for transportation is limited to the costs of transportation needed to access waiver services, activities, and resources identified in the recipient's SSP. Transportation services are offered to enable eligible recipients to gain access to services, activities, and resources, as specified by the SSP. Transportation services under the waiver are offered in accordance with the eligible recipient's SSP. Transportation services provided under the waiver are non-medical in nature whereas transportation services provided under the medicaid state plan are to transport eligible recipients to medically necessary physical and behavioral health services. Non-medical transportation services enable recipients to gain access to waiver and non-medical community services, events, activities and resources as specified in the recipient's SSP related to community resources and services, work, volunteer sites, homes of local family or friends, civic organizations or social clubs, public meetings or other civic activities, and spiritual activities or events. Payment for mi via transportation services is made to the eligible recipient's individual transportation employee or to a public or private transportation service vendor. Payment cannot be made to the eligible recipient. Whenever possible, family, neighbors, friends, or community agencies that can provide this service without charge shall be identified in the SSP and utilized. Transportation services for minors cannot be provided by a LRI as these are services a LRI would ordinarily provide for household members of the same age who do not have a disability of chronic illness.

(2) Emergency response services: Emergency response services provide an electronic device that enables the eligible recipient to secure help in an emergency at home and avoid institutionalization. The eligible recipient may also wear a portable help button to allow for mobility. The system is connected to the eligible recipient's phone and programmed to signal a response center when a help button is activated. The response center is staffed by trained professionals. Emergency response services include:

(a) testing and maintaining equipment;

(b) training eligible recipients, caregivers and first responders on use of the equipment;

(c) 24-hour monitoring for alarms;

(d) checking systems monthly or more frequently, if warranted by electrical outages, severe weather, etc.;

(e) reporting emergencies and changes in the eligible recipient's condition that may affect service delivery; and

(f) ongoing emergency response service is covered, but initial set up and installation is not.

(3) Respite: Respite is a flexible family support service, the primary purpose of which is to provide intermittent support to the recipient and give the unpaid primary caregiver relief from his or her duties on a short-term basis. Respite is provided on a short-term basis to allow the recipient's primary unpaid caregiver a limited leave of absence in order to reduce stress, accommodate a caregiver illness, or meet a sudden family crisis or emergency. Services must only be provided on an intermittent or short-term basis because of the absence or need for relief of those persons normally providing care to the recipient. If there is a paid primary caregiver residing with the eligible recipient providing living supports or community membership supports, or both, respite services cannot be utilized. Respite services include assisting the eligible recipient with routine activities of daily living (e.g., bathing, toileting, preparing or assisting with meal preparation and eating), enhancing self-help skills, and providing opportunities for leisure, play and other recreational activities; assisting the eligible recipient to enhance self-help skills, leisure time skills and community and social awareness; providing opportunities for community and neighborhood integration and involvement; and providing opportunities for the eligible recipient to make his or her own choices with regard to daily activities. Respite services are furnished on a short-term basis and can be provided in the eligible recipient's home, the provider's home, in a community setting of the family's choice (e.g., community center, swimming pool and park) or at a center in which other individuals are provided care. FFP is not claimed for the cost of room and board as part of respite services. Respite cannot be used for purposes of day-care nor can it be provided to school age children during school (including home school) hours.

(4) Individual directed goods and services: Individual directed goods and services are equipment, supplies or services, not otherwise provided through mi via, the medicaid state plan, or medicare. Individual directed goods and services must directly relate to the member's qualifying condition or disability. Individual directed goods and services must explicitly address a clinical, functional, medical, or habilitative need and:

(a) Individual directed goods and services must address a need identified in the eligible recipient's SSP and meet the following requirements:

(i) supports the eligible recipient to remain in the community and reduces the risk for institutionalization; and

(ii) promote personal safety and health; and afford the eligible recipient an accommodation for greater independence; and

(iii) decrease the need for other medicaid services; and

(iv) accommodate the eligible recipient in managing his or her household or facilitate activities of daily living.

(b) Individual directed goods and services must be documented in the SSP, comply with Subsection D of 8.314.6.17 NMAC, and be approved by the TPA. The cost and type of related good is subject to approval by the TPA. Eligible recipients are not guaranteed the exact type and model of individual directed good or service that is requested. If the eligible recipient requests a good or service, the consultant TPA and MAD can work with the eligible recipient to find other, including less costly, alternatives.

(c) The individual directed goods and services must not be available through another source and the eligible recipient must not have the personal funds needed to purchase the goods or services.

(d) These items are purchased from the eligible recipient's AAB and advance outcomes in the eligible recipient's SSP.

(e) Experimental or prohibited treatments and goods are excluded.

(f) Services and goods that are recreational or diversional in nature are excluded. Recreational and diversional in nature is defined as inherently and characteristically related to activities done for enjoyment.

(g) Goods and services purchased under this coverage may not circumvent other restrictions on the claiming of federal financial participation (FFP) for waiver services.

(5) Environmental modifications: Environmental modification services include the purchase and installation of equipment or making physical adaptations to the eligible recipient's residence that are necessary to ensure the health, safety, and welfare of the eligible recipient or enhance the eligible recipient level of independence.

(a) Singular or in combination of adaptations include:

(i) the installation of ramps;

(ii) widening of doorways and hallways;

(iii) installation of specialized electric and plumbing systems to accommodate medical equipment and supplies;

(iv) installation of lifts or elevators; modifications of a bathroom facility, such as roll-in showers, sink, bathtub, and toilet modifications, water faucet controls, floor urinals, bidet adaptations and plumbing;

(v) turnaround space adaptations;

(vi) specialized accessibility and safety adaptations or additions;

(vii) trapeze and mobility tracks for home ceilings; automatic door openers and doorbells;

(viii) voice-activated, light-activated, motion-activated, and other such electronic devices;

(ix) fire safety adaptations;

(x) air filtering devices; heating and cooling adaptations;

(xi) glass substitute for windows and doors;

(xii) modified switches, outlets or environmental controls for home devices; and alarm and alert systems or signaling devices.

(b) All services shall be provided in accordance with applicable federal, state, and local building codes.

(c) Excluded are those adaptations or improvements to the home that are of general utility and are not of direct medical or remedial benefit to the eligible recipient, such as fences, storage sheds or other outbuildings. Adaptations that add to the total square footage of the home are excluded from this benefit except when necessary to complete an adaptation.

(d) The environmental modification provider must:

(i) ensure proper design criteria is addressed in the planning and design of the adaptation;

(ii) be a licensed and insured contractor or approved vendor that provides construction and remodeling services;

(iii) provide administrative and technical oversight of construction projects;

(iv) provide consultation to family members, mi via providers and contractors concerning environmental modification projects to the eligible recipient’s residence; and

(v) inspect the final environmental modification project to ensure that the adaptations meet the approved plan submitted for environmental adaptation.

(e) Environmental modifications are managed by professional staff available to provide technical assistance and oversight to environmental modification projects.

(f) Environmental modification services are limited to $5,000 every five years. An eligible recipient transferring into the mi via program will carry his or her history for the previous five years of MAD reimbursed environmental modifications. Environmental modifications must be approved by the TPA.

(g) Environmental modifications are paid from a funding source separate from the AAB.

[8.314.6.15 NMAC - Rp, 8.314.6.15 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.16 NON-COVERED SERVICES:

The waiver does not pay for the purchase of goods or services that a household without a person with a disability would be expected to pay for as a routine household or personal expense. Non-covered services include, but are not limited to the following:

A. services covered by the medicaid state plan (including EPSDT), MAD school-based services, medicare and other third-parties; the TPA may verify that a good or service is not covered by another payor source by requesting a denial letter;

B. any service or good, the provision of which would violate federal or state statutes, regulations, rules or guidance;

C. formal academic degrees or certification-seeking education, educational services covered by IDEA or vocational training provided by the public education department (PED), division of vocational rehabilitation (DVR);

D. food and shelter expenses:

(1) including property-related costs, such as rental or purchase of real estate and furnishing, maintenance, utilities and utility deposits; and

(2) related administrative expenses; utilities include gas, electricity, propane, fire wood, wood pellets, water, sewer, and waste management;

E. experimental or investigational services, procedures or goods, as defined in 8.310.2 NMAC;

F. home schooling materials or related supplemental materials and activities;

G. any goods or services that are considered recreational or diversional in nature as defined in Subparagraph (f) of Paragraph (4) of Subsection (H) of 8.314.6.15 NMAC including but not limited to tickets for movies, theatrical and musical performances, sporting events; zoos, or museums;

H. personal goods or items not related to the disability;

I. animals and costs of maintaining animals including the purchase of food, veterinary visits, grooming and boarding but with the exception of training and certification for service dogs;

J. gas cards and gift cards;

K. purchase of insurance, such as car, cell phone, health, life, burial, renters, home-owners, service warrantees or other such policies;

L. purchase of a vehicle, and long-term lease or rental of a vehicle;

M. purchase of recreational vehicles, such as motorcycles, campers, boats or other similar items;

N. firearms, ammunition or other weapons;

O. gambling, games of chance (such as bingo or lottery), alcohol, tobacco, or similar items;

P. vacation expenses, including airline tickets, cruise ship or other means of transport, guided tours, meals, hotel, lodging or similar recreational expenses; mileage or driver time reimbursement for vacation travel by automobile;

Q. purchase of usual and customary furniture and home furnishings, *unless* adapted to the eligible recipient's disability or use, or of specialized benefit to the eligible recipient's condition; requests for adapted or specialized furniture or furnishings must include a recommendation from the eligible recipient's health care provider and, when appropriate, a denial of payment from any other source;

R. regularly scheduled upkeep, maintenance and repairs of a home and addition of fences, storage sheds or other outbuildings, *except* upkeep and maintenance of modifications or alterations to a home which are an accommodation directly related to the eligible recipient's qualifying condition or disability;

S. regularly scheduled upkeep, maintenance and repairs of a vehicle, or tire purchase or replacement, *except* upkeep and maintenance of modifications or alterations to a vehicle or van, which is an accommodation directly related to the eligible recipient's qualifying condition or disability; requests must include documentation that the adapted vehicle is the eligible recipient's primary means of transportation;

T. clothing and accessories, except adaptive clothing or accessories based on the eligible recipient's disability or condition;

U. training expenses for paid employees;

V. conference or class fees may be covered for eligible recipients or unpaid caregivers, but costs associated with such conferences or class cannot be covered, including airfare, lodging or meals;

W. consumer electronics such as computers, including laptops or any electronic tablets, printers and fax machines, or other electronic equipment that does not meet the criteria specified in Subsection A of 8.314.6.15 NMAC; no more than one of each type of item may be purchased at one time; and consumer electronics may not be replaced more frequently than once every three years; an eligible recipient transferring into the mi via program will carry his or her history for the previous three years of MAD reimbursed consumer electronics;

X. cell phone services that include more than one cell phone line per eligible recipient; cell phone service, including cell phone service that includes data, is limited to the cost of one hundred dollars per month;

Y. dental services utilizing mi via individual budgetary allotments.

[8.314.6.16 NMAC - Rp, 8.314.6.16 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.17 SERVICE AND SUPPORT PLAN (SSP) AND AUTHORIZED ANNUAL BUDGET(AAB):

A SSP and an annual budget request are developed at least annually by the eligible recipient in collaboration with the eligible recipient's consultant and others that the eligible recipient invites to be part of the process. The consultant serves in a supporting role to the eligible recipient, assisting the eligible recipient to understand the mi via program, and with developing and implementing the SSP and the AAB. The SSP and annual budget request are developed and implemented as specified in 8.314.6 NMAC and mi via service standards and submitted to the TPA for final approval. Upon final approval the annual budget request becomes an AAB.

A. SSP development process: For development of the participant-centered service plan, the planning meetings are scheduled at times and locations convenient to the eligible recipient. This process obtains information about eligible recipient strengths, capacities, preferences, desired outcomes and risk factors through the LOC assessment and the planning process that is undertaken between the consultant and eligible recipient to develop his or her SSP. If the eligible recipient chooses to purchase personal plan facilitation services, that assessment information would also be used in developing the SSP.

(1) Assessments:

(a) Assessment activities that occur prior to the SSP meeting assist in the development of an accurate and functional plan. The functional assessments conducted during the LOC determination process address the following needs of a person: medical, behavioral health, adaptive behavior skills, nutritional, functional, community/social and employment; LOC assessments are conducted in person and take place in the eligible recipient's home, or in a HSD approved location.

(b) Assessments occur on an annual basis or during significant changes in circumstance or at the time of the LOC determination. After the assessments are completed, the results are made available to the eligible recipient and his or her consultant for use in planning.

(c) The eligible recipient and the consultant will assure that the SSP addresses the information and concerns, if any, identified through the assessment process.

(2) Pre-planning:

(a) The consultant contacts the eligible recipient upon his or her choosing enrollment in the mi via program to provide information regarding this program, including the range and scope of choices and options, as well as the rights, risks, and responsibilities associated with self-direction.

(b) The consultant discusses areas of need to address on the eligible recipient's SSP. The consultant provides support during the annual re-determining process to assist with completing medical and financial eligibility in a timely manner.

(c) Personal plan facilitators are optional supports. To assist in pre-planning, the eligible recipient is also able to access an approved provider to develop a personal plan.

(3) SSP components: The SSP contains:

(a) the mi via services that are furnished to the eligible recipient, the projected amount, frequency and duration, and the type of provider who furnishes each service;

(i) the SSP must describe in detail how the services or goods relate to the eligible recipient's qualifying condition or disability;

(ii) the SSP must describe how the services and goods support the eligible recipient to remain in the community and reduce his or her risk of institutionalization; and

(iii) the SSP must specify the hours of services to be provided and payment arrangements;

(b) other services needed by the mi via eligible recipient regardless of funding source, including state plan services;

(c) informal supports that complement mi via services in meeting the needs of the eligible recipient;

(d) methods for coordination with the medicaid state plan services and other public programs;

(e) methods for addressing the eligible recipient's health care needs when relevant;

(f) quality assurance criteria to be used to determine if the services and goods meet the eligible recipient's needs as related to his or her qualifying condition or disability;

(g) information, resources or training needed by the eligible recipient and service providers;

(h) methods to address the eligible recipient's health and safety, such as emergency and back-up services; and

(i) the IBA.

(4) Service and support plan meeting:

(a) The eligible recipient receives an LOC assessment and local resource manual prior to the SSP meeting.

(b) The eligible recipient may begin planning and drafting the SSP utilizing those tools prior to the SSP meeting.

(c) During the SSP meeting, the consultant assists the eligible recipient to ensure that the SSP addresses the eligible recipient's goals, health, safety and risks. The eligible recipient and his or her consultant will assure that the SSP addresses the information and concerns identified through the assessment process. The SSP must address the eligible recipient's health and safety needs before addressing other issues. The consultant ensures that:

(i) the planning process addresses the eligible recipient's needs and goals in the following areas: health and wellness and accommodations or supports needed at home and in the community;

(ii) services selected address the eligible recipient's needs as identified during the assessment process; needs not addressed in the SSP will be addressed outside the mi via program;

(iii) the outcome of the assessment process for assuring health and safety is considered in the plan;

(iv) services do not duplicate or supplant those available to the eligible recipient through the medicaid state plan or other programs;

(v) services are not duplicated in more than one service code;

(vi) job descriptions are complete for each provider and employee in the plan; a job description will include frequency, intensity and expected outcomes for the service;

(vii) the quality assurance section of the SSP is complete and specifies the roles of the eligible recipient, consultant and any others listed in this section;

(viii) the responsibilities are assigned for implementing the plan;

(ix) the emergency and back-up plans are complete; and

(x) the SSP is submitted to the TPA after the SSP meeting, in compliance with mi via rules and service standards.

B. Individual budgetary allotment (IBA): Each eligible recipient's annual IBA is determined by MAD or its designee as follows.

(1) Budgetary allotments are based on calculations developed by MAD for each mi via population group, utilizing historical traditional waiver care plan authorized budgets within the population, minus the case management costs, and minus a ten percent discount.

(2) The determination of each eligible recipient's sub-group is based on a comprehensive assessment. The eligible recipient then receives the IBA available to that category of need, according to the eligible recipient's age.

(3) An eligible recipient has the authority to expend the IBA through an AAB that is to be expended on a monthly basis and in accordance with the mi via rules and program service standards.

(a) The state and CMS approves a range of rates, as applicable, for mi via services wherein each recipient or EOR can self-direct and establish his or her own rate with a particular provider of a service. The current rate schedule is available on the HSD and DOH websites. Mi via recipients, or EORs, are required to negotiate and determine

the rate for their employees and services within the range of rates established by the state. Justification for paying more than the established rates must be submitted, in writing, to the TPA for consideration. The established rate may not be exceeded in order to pay for additional services the employee or provider may provide which are outside the scope of the specific service for which the employee or provider is approved; nor can a rate exception be approved for credentials that exceed those required to provide the service unless the credentials specifically meet criteria below. To exceed the established range of rates the following criteria must be met:

(i) behavioral conditions: the recipient's behaviors are of a severity that pose considerable risk to the eligible recipient, caregivers or the community; and require a frequency and intensity of assistance to ensure the eligible recipient's health and safety in the home or the community or supervision or consultation requiring specialized or unique behavioral supports; these services cannot be accessed through other services; or

(ii) medical conditions: the recipient has ongoing need for intense medical supports including oxygen monitoring, diabetic monitoring, skin breakdown, J and G tube feedings, ostomy and urology care, catheter insertion, digital extractions, suctioning, nebulizer treatments, routine order treatments in the prevention of infections, and responsive awareness to severe allergic reactions; or

(iii) specialized supports: in order to support the recipient's inclusion in the community the recipient requires specialized support that can enhance communicative or functional skills such as american sign language or programming of adaptive communication devices; or

(iv) location: the recipient lives in a geographic location, within New Mexico, with limited providers. The recipient, or guardian, has researched multiple providers and has been unable to identify another provider in the geographic location available to provide the service within the range of rates. The service goal must specify the recipient's need for this service and contact with available local provider within six months of the date of request including reason why alternate providers are not available.

(b) The AAB shall contain goods and services necessary for health and safety (i.e., direct care services and medically related goods) which will be given priority over goods and services that are non-medical or not directly related to health and safety. This prioritization applies to the IBA, AAB, and any subsequent modifications.

C. SSP review criteria: Services and related goods identified in the eligible recipient's requested SSP may be considered for approval if the following requirements are met:

(1) the services or goods must be responsive to the eligible recipient's qualifying condition or disability and must address the eligible recipient's clinical, functional, medical or habilitative needs; and

(2) the services or goods must accommodate the eligible recipient in managing his or her household; or

(3) the services or goods must facilitate activities of daily living; or

(4) the services or goods must promote the eligible recipient's personal health and safety; and

(5) the services or goods must afford the eligible recipient an accommodation for greater independence; and

(6) the services or goods must support the eligible recipient to remain in the community and reduce his/her risk for institutionalization; and

(7) the services or goods must be documented in the SSP and advance the desired outcomes in the eligible recipient's SSP; and

(8) the SSP contains the quality assurance criteria to be used to determine if the service or goods meet the eligible recipient's need as related to the qualifying condition or disability; and

(9) the services or goods must decrease the need for other MAD services; and

(10) the eligible recipient receiving the services or goods does not have the funds to purchase the services or goods; or

(11) the services or goods are not available through another source; the eligible recipient must submit documentation that the services or goods are not available through another source, such as the medicaid state plan or medicare; and

(12) the service or good is not prohibited by federal regulations, NMAC rules, billing instructions, standards, and manuals; and

(13) each service or good must be listed as an individual line item whenever possible; however, when a service or a good are 'bundled' the SSP must document why bundling is necessary and appropriate.

D. Budget review criteria: The eligible recipient's proposed annual budget request may be considered for approval, if all of the following requirements are met:

(1) the proposed annual budget request is within the eligible recipient's IBA; and

(2) the proposed rate for each service is within the mi via range of rates for that chosen service; and

(3) the proposed cost for each good is reasonable, appropriate and reflects the lowest available cost for that chosen good; and

(4) the estimated cost of the service or good is specifically documented in the eligible recipient's budget worksheets; and

(5) no employee exceeds 40 hours paid work in a consecutive seven-day work week.

E. Modification of the SSP:

(1) The SSP may be modified based upon a change in the eligible recipient's needs or circumstances, such as a change in the eligible recipient's health status or condition or a change in the eligible recipient's support system, such as the death or disabling condition of a family member or other individual who was providing services.

(2) If the modification is to provide new or additional services than originally included in the SSP, these services must not be able to be acquired through other programs or sources. The eligible recipient must document the fact that the services are not available through another source.

(3) The eligible recipient must provide written documentation of the change in needs or circumstances as specified in the mi via service standards. The eligible recipient submits the documentation to the consultant. The consultant initiates the process to modify the SSP by forwarding the request for modification to the TPA for review.

(4) The SSP must be modified before there is any change in the AAB.

(5) The SSP may be modified once the original SSP has been submitted and approved. Only one SSP revision may be submitted at a time, e.g., a SSP revision may not be submitted if an initial SSP request or prior SSP revision request is under initial review by the TPA. This requirement also applies to any re-consideration of the same revision request. Other than for critical health and safety reasons, neither the SSP nor the AAB may be modified within 60 calendar days of expiration of the current SSP.

F. Modifications to the eligible recipient's annual budget: Revisions to the AAB may occur within the SSP year, and the eligible recipient is responsible for assuring that all expenditures are in compliance with the most current AAB in effect. The SSP must

be amended first to reflect a change in the eligible recipient's needs or circumstances before any revisions to the AAB can be requested.

(1) Budget revisions involve requests to add new goods or services to a budget or to reallocate funds from any line item to another approved line item. Budget revisions must be submitted to the TPA for review and approval. Other than for critical health and safety reasons for the eligible recipient, budget revisions may not be submitted to the TPA for review within the last 60 calendar days of the budget year.

(2) The amount of the AAB cannot exceed the eligible recipient's annual IBA. The rare exception would be the eligible recipient whose assessed or documented needs, based on his or her qualifying condition, cannot be met within the annual IBA, in which case the eligible recipient would initiate a request for an adjustment through his or her consultant.

(3) Mi via budgets are developed by service. A recipient may request an increase to his or her budget above his or her annual IBA, or AAB, as applicable if services necessary for health and safety cannot be met within the IBA, or AAB. Prioritization, as described in Subparagraph (b) of Paragraph (3) of Subsection B of 8.314.6.17 NMAC applies. Requests for additional funding are built in the annual budget and are specific to the service that is being requested. If the eligible recipient requests an increase in his or her budget above his or her annual IBA, or AAB, as applicable, the eligible recipient must show at least one of the following four circumstances related to the specific service for which an increase to the additional funding is being requested:

(a) chronic physical condition: the eligible recipient has one or more chronic physical conditions, which are identified during the initial or reevaluation of the LOC, that result in a prolonged dependency on medical services or care, for which daily intervention is medically necessary; and the eligible recipient's needs cannot be met within the assigned IBA or other current resources, including natural supports, medicaid state plan services, medicare or other sources; the eligible recipient must submit a written, dated, and signed evaluation or letter from a medical doctor (MD), doctor of osteopathy (DO), a certified nurse practitioner (CNP) or a physician assistant (PA) that documents the chronic physical condition in the eligible recipient's health status relevant to the criteria; the evaluation or letter must have been completed after the last LOC assessment or less than one year from the date the request is submitted, whichever is most recent; the chronic physical conditions are characterized by at least one of the following:

(i) a life-threatening condition with frequent or constant periods of acute exacerbation that places the eligible recipient at risk for institutionalization; that could result in the eligible recipient's inability to remember to self-administer medications accurately even with the use of assistive technology devices; or that requires a frequency and intensity of assistance, supervision, or consultation to ensure the eligible recipient's health and safety in the home or in the community; or which, in

the absence of such skilled intervention, assistance, medical supervision or consultation, would require hospitalization or admission to a NF or ICF-IID;

(ii) the need for administration of specialized medications, enteral feeding or treatments that are ordered by a medical doctor, doctor of osteopathy, certified nurse practitioner or physician's assistant; which require frequent and ongoing management or monitoring or oversight of medical technology;

(b) change in physical status: the eligible recipient has experienced a deterioration or permanent change in his or her health status such that the eligible recipient's needs for services and supports can no longer be met within the IBA, current AAB or other current resources, including natural supports, medicaid state plan services, medicare or other sources; the eligible recipient must submit a written, dated, and signed evaluation or letter from a MD, OD, CNP, or PA that documents the change in the eligible recipient's health status relevant to the criteria; the evaluation or letter must have been completed after the last LOC assessment or less than one year from the date the request is submitted, whichever is most recent; the eligible recipient may submit additional supportive documentation by others involved in the eligible recipient's care, such as a current individual service plan (ISP) if the eligible recipient is transferring from another waiver, a recent evaluation from a specialist or therapist, a recent discharge plan, relevant medical records or other documentation or recent statements from family members, friends or other support individuals; types of physical health status changes that may necessitate an increase in the IBA or current AAB are as follows:

(i) the eligible recipient now requires the administration of medications via

intravenous or injections on a daily or weekly basis;

(ii) the eligible recipient has experienced recent onset or increase in aspiration of saliva, foods or liquids;

(iii) the eligible recipient now requires external feedings, e.g. naso-gastric, percutaneous endoscopic gastrostomy, gastric-tube or jejunostomy-tube;

(iv) the eligible recipient is newly dependent on a ventilator;

(v) the eligible recipient now requires suctioning every two hours, or more frequently, as needed;

(vi) the eligible recipient now has seizure activity that requires continuous monitoring for injury and aspiration, despite anti-convulsant therapy; or

(vii) the eligible recipient now requires increased assistance with activities of daily living as a result of a deterioration or permanent changes in his or her physical health status;

(c) chronic or intermittent behavioral conditions or cognitive difficulties: the eligible recipient has chronic or intermittent behavioral conditions or cognitive difficulties, which are identified during the initial or reevaluation LOC assessment, or the eligible recipient has experienced a change in his or her behavioral health status, for which the eligible recipient requires additional services, supports, assistance, or supervision to address the behaviors or cognitive difficulties in order to keep the eligible recipient safe; these behaviors or cognitive difficulties are so severe and intense that they result in considerable risk to the eligible recipient, caregivers or the community; and require a frequency and intensity of assistance, supervision or consultation to ensure the eligible recipient's health and safety in the home or the community; in addition, these behaviors are likely to lead to incarceration or admission to a hospital, nursing facility or ICF-IID; require intensive intervention or medication management by a doctor or behavioral health practitioner or care practitioner which cannot be effectively addressed within the IBA, current AAB or other resources, including natural supports, the medicaid state plan services, medicare or other sources;

(i) examples of chronic or intermittent behaviors or cognitive difficulties are such that the eligible recipient injures him or herself frequently or seriously; has uncontrolled physical aggression toward others; disrupts most activities to the extent that his or her SSP cannot be implemented or routine activities of daily living cannot be carried out; withdraws personally from contact with most others; or leaves or wanders away from the home, work or service delivery environment in a way that puts him or herself or others at risk;

(ii) the eligible recipient must submit a written, dated, and signed evaluation or letter from a licensed MD, doctor of osteopathy (DO), CNP, physician assistant (PA), psychiatrist, or RLD licensed psychologist that documents the change in the eligible recipient's behavioral health status relevant to the criteria; the evaluation or letter must have been completed after the last LOC assessment or less than one year from the date the request is submitted, whichever is most recent; the eligible recipient may submit additional supportive documentation including a current ISP if the eligible recipient is transferring from another waiver, a positive behavioral support plan or assessment, recent notes, a summary or letter from a behavioral health practitioner or professional with expertise in intellectual or developmental disabilities, recent discharge plan, recent recommendations from a rehabilitation facility, any other relevant documentation or recent statements from family members, friends or other support individuals involved with the eligible recipient.

(d) change in natural supports: the eligible recipient has experienced a loss, as a result of situations such as death, illness, or disabling condition, of his or her natural supports, such as family members or other community resources that were providing direct care or services, whether paid or not. This absence of natural supports

or other resources is expected to continue throughout the period for which supplemental funds are requested. The type, intensity or amount of care or services previously provided by natural supports or other resources cannot be acquired within the IBA and are not available through the medicaid state plan services, medicare, other programs or sources in order for the eligible recipient to live in a home and community-based setting.

(4) The eligible recipient is responsible for tracking all budget expenditures and assuring that all expenditures are within the AAB. The eligible recipient must not exceed the AAB within any SSP year. The eligible recipient's failure to properly allocate the expenditures within the SSP year resulting in the depletion of the AAB, due to mismanagement of or failure to track the funds, prior to the calendared expiration date does not substantiate a claim for a budget increase (i.e., if all of the AAB is expended within the first three months of the SSP year, it is not justification for an increase in the annual budget for that SSP year). Amendments to the AAB may occur within the SSP year and the eligible recipient is responsible for assuring that all expenditures are in compliance with the most current AAB in effect. Amendments to the AAB must be preceded by an amendment to the SSP.

(5) The AAB may be revised once the original annual budget request has been submitted and approved. Only one annual budget revision request may be submitted at a time, e.g., an annual budget revision request may not be submitted if a prior annual budget revision request is under initial review by the TPA. The same requirement also applies to any reconsideration of the same revision request.

G. SSP and annual budget supports: As specified in 8.314.6 NMAC and its service standards, the eligible recipient is assisted by his or her consultant in development and implementation of the SSP and AAB. The FMA assists the eligible recipient with implementation of the AAB.

H. Submission for approval: The TPA must approve the SSP and associated annual budget request (resulting in an AAB). The TPA must approve certain changes in the SSP and annual budget request, as specified in 8.314.6 NMAC and mi via service standards and in accordance with 8.302.5 NMAC.

(1) At any point during the SSP and associated annual budget utilization review process, the TPA may request additional documentation from the eligible recipient. This request must be in writing and submitted to both the eligible recipient and the consultant provider. The eligible recipient has seven working days from the date of the initial request to respond with additional documentation. The TPA will issue a second request for information on the seventh day if information was not received and issue a final request for information 14 working days after the initial request. The eligible recipient has a total of 21 working days to respond with additional documentation. Failure by the eligible recipient to submit the requested information may subject the SSP and annual budget request to denial.

(2) Services cannot begin and goods may not be purchased before the start date of the approved SSP and AAB or approved revised SSP and revised AAB.

(3) Any revisions requested for other than critical health or safety reasons within 60 calendar days of expiration of the SSP and AAB are subject to denial for that reason.

[8.314.6.17 NMAC - Rp, 8.314.6.17 NMAC, 3/1/2016; A, 11/1/2018]

8.314.6.18 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All MAD services, including services covered under the mi via program, are subject to utilization review for medical necessity and program requirements. Reviews by MAD or its designees may be performed before services are furnished, after services are furnished, before payment is made, or after payment is made in accordance with 8.310.2 NMAC.

A. Prior authorization: Services, supports, and goods specified in the SSP and AAB require prior authorization from HSD/MAD or its designee. The SSP must specify the type, amount and duration of services. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: To be eligible for mi via program services, eligible recipients must require the LOC of services provided in an ICF-IID. Prior authorization of services does not guarantee that applicants or eligible recipients are eligible for MAP or mi via services.

C. Reconsideration: If there is a disagreement with a prior authorization denial or other review decision, the consultant provider on behalf of the eligible recipient, can request reconsideration from the TPA that performed the initial review and issued the initial decision. Reconsideration must be requested within 30-calendar days of the date on the denial notice, must be in writing and provide additional documentation or clarifying information regarding the eligible recipient’s request for the denied services or goods.

D. Denial of payment: If a service, support, or good is not covered under the mi via program, the claim for payment may be denied by MAD or its designee. If it is determined that a service is not covered before the claim is paid, the claim is denied. If this determination is made after payment, the payment amount is subject to recoupment or repayment.

[8.314.6.18 NMAC - Rp, 8.314.6.18 NMAC, 3/1/2016]

8.314.6.19 REIMBURSEMENT:

A. Mi via eligible recipients must follow all billing instructions provided by the FMA to ensure payment of service providers, employees, and vendors.

B. Claims must be billed to the FMA per the billing instructions. Reimbursement to a service provider and a vendor in the mi via program is made, as follows:

(1) mi via service provider and vendor must enroll with the FMA;

(2) the eligible recipient receives instructions and documentation forms necessary for a service provider's and a vendor's claims processing;

(3) an eligible recipient must submit claims for payment of his or her mi via service provider and vendor to the FMA for processing; claims must be filed per the billing instructions provided by the FMA;

(4) the eligible recipient and his or her mi via service provider and vendor must follow all FMA billing instructions; and

(5) reimbursement of a mi via service provider and vendor is made at a predetermined reimbursement rate negotiated by the eligible recipient with the mi via service provider or vendor, approved by the TPA contractor, and documented in the SSP and in the mi via provider or vendor agreement; at no time can the total expenditure for services exceed the eligible recipient's AAB.

C. The FMA must submit claims that have been paid by the FMA on behalf of eligible recipient to the MAD fiscal contractor for processing.

D. Reimbursement may not be made directly to the eligible recipient, either to reimburse him or her for expenses incurred or to enable the eligible recipient to pay a service provider directly.

[8.314.6.19 NMAC - Rp, 8.314.6.19 NMAC, 3/1/2016]

8.314.6.20 RIGHT TO A HSD ADMINISTRATIVE HEARING:

A. MAD must grant an opportunity for a HSD administrative hearing as described in 8.314.6.20 NMAC in the following circumstances and pursuant to 42 CFR Section 431.220(a)(1) and (2), Section 27-3-3 NMSA 1978 and 8.352.2 NMAC:

(1) when an applicant has been determined not to meet the LOC requirement for mi via program services;

(2) when an applicant has not been given the choice of HCBS as an alternative to institutional care;

(3) when an applicant is denied the services of his or her choice or the provider of his or her choice;

(4) when an eligible recipient's services are denied, suspended, reduced or terminated;

(5) when an eligible recipient has been involuntarily terminated from the program;

(6) when an eligible recipient's request for a budget adjustment has been denied; and

(7) when any other adverse action is taken by MAD against the eligible recipient, see 8.352.2 NMAC.

B. DOH and its counsel, if necessary, shall participate in any relevant HSD administrative hearing involving an eligible recipient. HSD's office of general counsel may elect to participate in the administrative hearing. See 8.352.2 NMAC for a complete description, instructions, and hearing process of a HSD administrative hearing for an eligible recipient.

[8.314.6.20 NMAC - Rp, 8.314.6.20 NMAC, 3/1/2016]

8.314.6.21 CONTINUATION OF BENEFITS PURSUANT TO TIMELY APPEAL:

A. Continuation of benefits may be provided to an eligible recipient who requests a HSD administrative hearing within the timeframe defined in 3.352.2 NMAC. The notice will include information on the right to continue the eligible recipient's benefits and on his or her responsibility for repayment if the HSD administrative final hearing decision is not in the eligible recipient's favor. See 8.352.2 NMAC for a complete description of the continuation of benefits process of a HSD administrative hearing for an eligible recipient.

B. The continuation of a benefit is only available to an eligible recipient that is currently receiving the appealed benefit. The continuation of the benefit will be the same as the eligible recipient's current allocation, budget or LOC. The continuation budget may not be revised until the conclusion of the HSD administrative hearing process unless one of the criteria to modify the budget in 8.314.6.17 NMAC is met. See 8.352.2 NMAC for a complete description, instructions and process of a HSD administrative hearing and continuation of benefits process of a MAP eligible recipient.

[8.314.6.21 NMAC - Rp, 8.314.6.21 NMAC, 3/1/2016]

8.314.6.22 GRIEVANCE/COMPLAINT SYSTEM:

An eligible recipient has the opportunity to register a grievance or complaint concerning the mi via program. An eligible recipient may register complaints with DOH via e-mail, mail or phone. Complaints will be referred to the appropriate DOH division or as appropriate referred to MAD for resolution. The filing of a complaint or grievance does not preclude an eligible recipient from pursuing a HSD administrative hearing. The eligible recipient is informed that filing a grievance or complaint is not a prerequisite or substitute for requesting a HSD administrative hearing.

[8.314.6.22 NMAC - Rp, 8.314.6.22 NMAC, 3/1/2016]

PART 7: SUPPORTS WAIVER

8.314.7.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.314.7.1 NMAC - N, 4/1/2021; A, 7/1/2024]

8.314.7.2 SCOPE:

The rule applies to the general public.

[8.314.7.2 NMAC - N, 4/1/2021]

8.314.7.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Titles XI, XIX, and XXI of the Social Security Act as amended or by state statute. See Section 27-2-12 et seq. NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.314.7.3 NMAC - N, 4/1/2021; A, 7/1/2024]

8.314.7.4 DURATION:

Permanent.

[8.314.7.4 NMAC - N, 4/1/2021]

8.314.7.5 EFFECTIVE DATE:

April 1, 2021, unless a later date is cited at the end of a section.

[8.314.7.5 NMAC - N, 4/1/2021]

8.314.7.6 OBJECTIVE:

The objective of this rule is to provide instructions for the service portion of the New Mexico medical assistance programs (MAP).

[8.314.7.6 NMAC - N, 4/1/2021]

8.314.7.7 DEFINITIONS:

A. Activities of daily living (ADLs): Basic personal everyday activities that include bathing, dressing, transferring (e.g., from bed to chair), toileting, mobility and eating.

B. **Adult:** An individual who is 18 years of age or older.

C. **Agency-based:** Supports waiver service delivery model offered to an eligible recipient who does not want to direct their supports waiver services. Agency-based services are provided by an agency with an approved agreement with department of health (DOH) to provide supports waiver services.

D. Authorized annual budget (AAB): The total approved annual amount of the community support services and goods which includes the frequency, the amount, and the duration of the waiver services and the cost of waiver goods approved by the third-party assessor (TPA).

E. Authorized representative: The individual designated to represent and act on the recipient's behalf. The authorized representative does not have budget or employer authority. The eligible recipient or authorized representative must provide legal documentation authorizing the named individual or individuals for a specified purpose and time frame. An authorized representative may be an attorney representing a person or household, a person acting under the authority of a valid power of attorney, a guardian, or other legal designation. The eligible recipient's authorized representative may not be a service provider. The authorized representative may not approve their own timesheets. The authorized representative cannot serve as the eligible recipient's community supports coordinator.

F. Category of eligibility (COE): To qualify for a medical assistance program (MAP), an applicant must meet financial criteria and belong to one of the groups that the New Mexico medical assistance division (MAD) has defined as eligible. An eligible recipient in the supports waiver program must belong to the MAP categories of eligibility (COE) described in 8.314.7.9 NMAC.

G. Centers for medicare and medicaid services (CMS): Federal agency within the United States department of health and human services that works in partnership with New Mexico to administer medicaid and MAP services under HSD.

H. **Child:** An individual under the age of 18. For purpose of early periodic screening, diagnosis, and treatment (EPSDT) services eligibility"child" is defined as an individual under the age of 21.

I. Community supports coordinator (CSC): An agency or an individual that provides case management services to the eligible recipient that assist the eligible recipient in arranging for, directing and managing supports waiver program services and supports, as well as developing, implementing and monitoring the individual service plan (ISP) and AAB.

J. Electronic visit verification (EVV): A telephone and computer-based system that electronically verifies the occurrence of HSD selected service visits and documents the precise time the service begins and ends.

K. Eligible recipient: An applicant meeting the financial and medical level of care (LOC) criteria who is approved to receive MAD services through the supports waiver.

L. Employer of record (EOR): The employer of record (EOR) is the individual responsible for directing the work of the support's waiver employees, including recruiting, hiring, managing and terminating employees. The EOR is responsible for directing the work of any vendors contracted to perform services. The EOR tracks expenditures for employee payroll, goods, and services. EORs authorize the payment of timesheets and vendor payment requests by the financial management agency (FMA). An eligible recipient may be their own EOR unless the eligible recipient is a minor or has a plenary or limited guardianship or conservatorship over financial matters in place. An EOR must be the waiver participant or an EOR must be a legal representative of the recipient.

M. Financial management agency (FMA): HSD contractor that helps implement the AAB by paying the eligible recipient's service providers and tracking expenses.

N. Individual budgetary allotment (IBA): The maximum budget allotment available to an eligible recipient. The maximum IBA under the supports waiver is $10,000 dollars. Based on this maximum amount, the eligible recipient will develop a plan to meet his or her assessed functional, medical, and habilitative needs to enable the recipient to remain in the community.

O. Individual service plan (ISP): The ISP is the name of the person-centered plan for the supports waiver. The ISP includes waiver services that meet the eligible recipient's needs including: the projected amount, the frequency and the duration of the waiver services; the type of provider who will furnish each waiver service; other services the eligible recipient will access; and the eligible recipient's available supports that will complement waiver services in meeting their needs.

P. Intermediate care facilities for individuals with intellectual disabilities (ICF/IID): Facilities that are licensed and certified by the New Mexico department of

health to provide room and board,
continuous active treatment and other services for eligible MAD recipients with a primar y diagnosis of intellectually disabled.

Q. Legal representative: A person that is a legal guardian, conservator, power of attorney or otherwise has a court established legal relationship with the eligible recipient. The eligible recipient must provide certified documentation to the community support coordinator provider and FMA of the legal status of the representative and such documentation will become part of the eligible recipient's file.

R. Level of care (LOC): The level of care an eligible recipient must meet to be eligible for the supports waiver program.

S. Participant directed: Supports waiver service delivery model wherein the eligible recipient identifies, accesses and manages the employees and vendors of services (among the state-determined waiver services and goods) that meet their assessed therapeutic, rehabilitative, habilitative, health or safety needs to support the eligible recipient to remain in their community.

T. Person-centered planning (PCP): Person-centered planning is a process that places a person at the center of planning their life and supports. It is an ongoing process that is the foundation for all aspects of the supports waiver and provider's work with individuals with intellectual/developmental disabilities (I/DD). The process is designed to identify the strengths, capacities, preferences, needs, and desired outcomes of the eligible recipient. The process may include other persons, freely chosen by the eligible recipient who are able to serve as important contributors to the process. It involves person-centered thinking, person-centered service planning and person-centered practice. The PCP enables and assists the recipients' strengths, capacities, preferences, needs, and desired outcomes of the eligible recipient.

U. Reconsideration: A written request by an eligible recipient who disagrees with a clinical/medical utilization review decision or action submitted to the third-party assessor for reconsideration of the decision. The eligible recipient or his or her authorized representative may submit the request for a reconsideration through the community support coordinator or the community support coordinator agency may submit the request directly to MAD.

V. Third-party assessor (TPA): The MAD contractor who determines and re-determines LOC and medical eligibility for the supports waiver program. The TPA also reviews the eligible recipient's ISP and approves the AAB for the eligible recipient. The TPA performs utilization management duties for all supports waiver services.

W. Waiver: A program in which the federal government has waived certain statutory requirements of the Social Security Act to allow states to provide an array of home and community-based service options through MAD as an alternative to providing long-term care services in an institutional setting.

[8.314.7 NMAC - N, 4/1/2021]

8.314.7.8 MISSION STATEMENT:

To transform lives. Working with our partners, we design and deliver innovative, high quality health and human services that improve the security and promote independence for New Mexicans in their communities.

[8.314.7.8 NMAC - N, 4/1/2021]

8.314.7.9 SUPPORTS WAIVER HOME AND COMMUNITY-BASED SERVICES:

A. New Mexico's supports waiver is designed to provide temporary assistance to those on the developmental disabilities (DD) waiver wait list. It is intended to provide support services to eligible recipients to enable work toward self-determination, independence, productivity, integration, and inclusion in all facets of community life across the lifespan. The services provided are intended to build on each eligible recipient's current support structures through person-centered planning to work toward individually defined life outcomes, focusing on developing the eligible recipient's abilities for self-determination, community living and participation, and economic self-sufficiency. An eligible recipient has a choice of receiving services through the agency-based service delivery model or the participant directed service delivery model.

B. The program is operated by the New Mexico department of health developmental disabilities supports division (DOH/DDSD), at the direction of the New Mexico human services department medical assistance division (HSD/MAD).

[8.314.7.9 NMAC - N, 4/1/2021]

8.314.7.10 ELIGIBLITY REQUIREMENTS FOR RECIPIENT ENROLLMENT:

Enrollment in the supports waiver is contingent upon the applicant meeting the eligibility requirements, the availability of funding as appropriated by the New Mexico legislature, and the number of federally authorized unduplicated eligible recipients. When sufficient funding is available, DOH will offer the supports waiver to eligible recipients on the DD wait list. Once an offer has been given to the applicant, they must meet certain medical and financial criteria in order to qualify for enrollment. Eligible recipients must meet the following eligibility criteria: financial eligibility
criteria determined in accordance with 8.290.400 NMAC; the eligible recipient must mee t the level of care (LOC) required for admittance to an intermediate care facility for individuals with intellectual disabilities (ICF/IID); and additional specific criteria as specified in the categories below.

[8.314.7.10 NMAC - N, 4/1/2021]

8.314.7.11 ELIGIBLE RECIPIENT RESPONSIBILITIES:

Supports waiver eligible recipients have responsibilities to participate in the program. Failure to comply with these responsibilities or other program rules and service standards can result in termination from the program. The eligible recipient has the following responsibilities:

A. To maintain eligibility the recipient must complete required documentation demonstrating medical and financial eligibility both upon application and annually at recertification, and seek assistance with the application and the recertification process as needed from a community supports coordinator (CSC).

B. To participate in the supports waiver program, the eligible recipient must:

(1) comply with applicable NMAC rules to include this rule and supports waiver service standards and requirements that govern the program;

(2) collaborate with the CSC to choose between the agency-based or participant directed service delivery models, and determine support needs related to planning and self direction as applicable;

(3) collaborate with the CSC to develop an ISP and budget using the IBA in accordance with applicable NMAC rules to include this rule and supports waiver service standards;

(4) use supports waiver program funds appropriately by only requesting and purchasing goods and services covered by the supports waiver program in accordance with program rules which are identified in the eligible recipient's approved ISP and budget;

(5) comply with the approved ISP and not exceed the AAB;

(a) if the eligible recipient, due to mismanangement or failure to properly track expenditures, prematurely depletes the AAB amount during an ISP year, the failure to properly manage the AAB does not substantiate a claim for a budget increase (e.g. if all of the AAB is expended within the first three months of the ISP year, it is not justification for an increase in the budget for the ISP year);

(b) revisions to the AAB may occur within the ISP year, and the eligible recipient is responsible for ensuring that all expenditures are in compliance with the most current AAB in effect;

(i) the ISP must be amended to reflect a change in the eligible recipient's needs or circumstances before any revisions to the AAB can be requested;

(ii) other than for critical health and safety reasons, budget revisions may not be submitted to the TPA for review within the last 60 calendar days of the budget year;

(c) no supports waiver program funds can be used to purchase goods or services prior to TPA approval of the ISP and annual budget request;

(d) any funds not utilized within the ISP and AAB year cannot be carried over into the following year;

(6) access CSC services based upon identified need(s) in order to carry out the approved ISP;

(7) collaborate with the CSC to appropriately document service delivery and maintain documents for evidence of services received;

(8) report concerns or problems with any part of the supports waiver program to the community supports coordinator or if the concern or problem is with the CSC, to DOH;

(9) work with the TPA by providing documentation and information as requested;

(10) respond to requests for additional documentation and information from the CSC provider, FMA, and the TPA within the required deadlines;

(11) report to the local HSD income support division (ISD) office within 10 calendar days any change in circumstances, including a change in address, which might affect eligibility for the program; changes in address or other contact information must also be reported to the CSC provider and the financial management agency (FMA) within 10 calendar days;

(12) report to the TPA and CSC provider if hospitalized for more than three consecutive nights so that an appropriate LOC can be obtained;

(13) have monthly contact and meet face-to-face quarterly with the CSC, as required by the DOH; and

(14) comply with all electronic visit verification (EVV) requirements.

C. Specific responsbilities for eligible recipient in participant directed service delivery model: In addition to the requirements in Subsection A and B of 8.314.7.11 NMAC, the eligible recipient must have an employer of record (EOR) to participate in the participant directed service delivery model. The EOR may be the eligible recipient unless the eligible recipient is a minor or has a plenary or limited guardianship or conservatorship over financial matters in place. An EOR must be the waiver participant or an EOR must be a legal representative of the recipient. The eligible recipient as their own EOR or the designated EOR must:

(1) direct the work of supports waiver employees, including recruiting, hiring, managing and terminating all employees;

(2) direct the work of any vendors contracted to perform services;

(3) track expenditures for employee payroll, goods, and services;

(4) authorize the payment of timesheets and vendor payment requests by the FMA;

(5) keep track of all budget expenditures and ensure that all expenditures are within the AAB;

(6) submit all required documents to the FMA to meet employer-related responsibilities. This includes, but is not limited to, documents for payment to employees and vendors and payment of taxes and other financial obligations within required timelines;

(7) complete all trainings within the required timeframes by the DOH or medical assistance division (MAD);

(8) ensure that all employees have registered and completed required trainings within the timeframes required by the DOH or MAD, identified in the ISP or identified by the EOR;

(9) report any incidents of abuse, neglect or exploitation to the appropriate state agency;

(10) arrange for the delivery of services, supports and goods;

(11) maintain records and documentation for at least six years from first date of service and ongoing; and

(12) comply with all electronic visit verification (EVV) requirements.

D. Voluntary termination: The supports waiver eligibile recipient may voluntarily terminate services through the supports waiver and will not lose their place on DD waiver wait list.

E. Involuntary termination: A supports waiver eligible recipient may be terminated involuntarily by MAD and DOH for the following:

(1) the eligible recipient refuses to comply with 8.314.7 NMAC and the supports waiver service standards, after receiving focused technical assistance from DOH and MAD program staff, CSC, or FMA, which is supported by documentation of the efforts to assist the eligible recipient;

(2) the eligible recipient is an immediate risk to their health or safety, imminent risk of death or serious bodily injury, by continued participant direction of services. Examples include but are not limited to the following:

(a) the eligible recipient refuses to include and maintain services in their ISP and AAB that would address health and safety issues identified in their ISP or challenges the ISP after repeated and focused technical assistance and support from program staff, CSC, or FMA;

(b) the eligible recipient is experiencing significant health or safety needs, and either refuses to incorporate a plan to address health and safety needs or document applicable choices in ISP;

(c) the eligible recipient exhibits behaviors which endanger themselves or others after repeated and focused technical assistance and support from program staff, CSC, or FMA.

(3) the eligible recipient misuses suppports waiver funds following repeated and focused technical assistance and support from the CSC or FMA, which is supported by documentation;

(4) the eligible recipient commits medicaid fraud;

(5) when the DOH is notified that the eligible recipient continues to utilize either an employee or a vendor, or both, who have consistently been substantiated against for abuse, neglect or exploitation while providing supports waiver services after notification of this by DOH;

(6) the eligible recipient who is involuntarily terminated from the supports waiver will remain on the DD waiver wait list, and will continue to have access to other medicaid benefits based on eligibility.

[8.314.7.11 NMAC - N, 4/1/2021]

8.314.7.12 SUPPORTS WAIVER CONTRACTED ENTITIES AND PROVIDERS:

Services are to be provided in the least restrictive manner. The HSD does not allow for the use of any restraints, restrictive interventions, or seclusions to an eligible supports waiver recipient. The following resources and services have been established to assist eligible recipients to access supports waiver services through the agency-based service delivery model or the participant directed service delivery model. These include the following:

A. Community supports coordinator (CSC) services: CSC services are direct services intended to assist the eligible recipient in attaining and maintaining medical and financial eligibility; educating, guiding and assisting the eligible recipient to make

informed planning decisions about service and supports; developing an ISP through a person-centered planning process; implementing and monitoring the ISP and AAB; and under the agency-based service delivery model, arranging for, directing, and managing supports waiver services and supports.

B. Financial management agency (FMA): For eligible recipients selecting the participant directed service delivery model, the FMA acts as the intermediary between the eligible recipient and the MAD payment system and assists the eligible recipient or the EOR with employer-related responsibilities. The FMA pays employees and vendors based upon an approved AAB. The FMA assures there is eligible recipient and program compliance with state and federal employment requirements and monitors and makes available to the eligible recipient the reports related to utilization of services and budget expenditures. Based on the eligible recipient's approved ISP and AAB, the FMA must:

(1) verify that the recipient is eligible for MAD services prior to making payment;

(2) receive and verify all required employee and vendor documentation;

(3) establish an accounting for each eligible recipient's AAB;

(4) process and pay invoices for goods, services and supports approved in the ISP and the AAB and supported by required documentation;

(5) process all payroll functions on behalf of the eligible recipient and EORs including:

(a) collect and process timesheets of employees;

(b) process payroll, withholding, filing, and payment of applicable federal, state and local employment-related taxes and insurance; and

(c) track and report disbursements and balances of the eligible recipient's AAB and provide a monthly report of expenditures and budget status to the eligible recipient and their CSC, and quarterly and annual documentation of expenditures to the MAD;

(6) receive and verify employee and vendor agreements, including collecting required provider qualifications;

(7) monitor hours, the total amounts billed for all goods and services during the month;

(8) process and report on employee background checks;

(9) answer inquiries from the eligible recipient and solve problems related to the FMA responsibilities; and

(10) report to the CSC provider, MAD and DOH any concerns related to the health and safety of an eligible recipient, or if the eligible recipient is not following the approved ISP and AAB.

C. Third-party assessor (TPA): The TPA or MAD's designee is responsible for determining medical eligibility through a LOC assessment, approving the ISP, and authorizing an eligible recipient's annual budget in accordance with 8.314.7 NMAC and the supports waiver service standards. The TPA:

(1) determines medical eligibility using the LOC criteria in 8.314.7.9 NMAC; determinations are completed initially for an eligible recipient who is newly enrolled in the supports waiver and thereafter at least annually for currently enrolled supports waiver eligible recipients. The TPA may re-evaluate LOC more often than annually if there is an indication that the eligible recipient's medical condition or LOC has changed; and

(2) approves the ISP and the annual budget request resulting in an AAB, at least annually or more often if there is a change in the eligible recipient's circumstances, in accordance with this NMAC and supports waiver service standards.

D. Conflict of interest: An eligible recipient's CSC may not serve as the eligible recipient's EOR, authorized representative or personal representative for whom they are the CSC. A CSC may not be paid for any other services utilized by the eligible recipient for whom they are the CSC, whether as an employee of the eligible recipient, a vendor, an employee or subcontractor of an agency. A CSC may not provide any other paid supports waiver services to an eligible recipient unless the recipient is receiving CSC services from another agency. The CSC agency may not provide any other direct services for an eligible recipient that has an approved ISP, an approved budget, and is actively receiving services in the supports waiver program. The CSC agency may not employ as a CSC any immediate family member or guardian for an eligible recipient of the supports waiver program that is served by the CSC agency. A CSC agency may not provide guardianship services to an eligible recipient receiving CSC services from that same agency. The CSC agency may not provide any direct support services through any other type of 1915 (c) developmental disabilities waiver program. A CSC agency shall not engage in any activities in their capacity as a provider of services to an eligible recipient that may be a conflict of interest. As such a CSC agency shall not hold a business or financial interest in an affiliated agency that is paid to provide direct care for any eligible recipients receiving supports waiver services. An affiliated agency is defined as a direct service agency providing supports waiver services that has a marital, domestic partner, blood, business interest or holds financial interest in providing direct care for eligible recipients receiving supports waiver services. Affiliated agencies must not hold a business or financial interest in any entity that is paid to provide direct care for any eligible recipients receiving home and community-based services (HCBS). Any

direct service agency or CSC agency that has been referred to the DOH internal review committee (IRC) or is on a moratorium will not be approved to provide supports waiver services.

[8.314.7.12 NMAC - N, 4/1/2021]

8.314.7.13 QUALIFICATIONS FOR ELIGIBLE INDIVIDUAL EMPLOYEES, INDEPENDENT PROVIDERS, PROVIDER AGENCIES, AND VENDORS:

A. Agency-based service delivery model requirements for individual employees, independent providers, provider agencies and vendors: All supports waiver eligible providers under the agency-based model of service delivery must be approved by the DOH or its designee and have an approved MAD and DOH provider agreement. MAD through its designee, DOH/DDSD, must ensure that its subcontractors or employees meet all required qualifications. The provider agency must provide oversight of subcontractors and supervision of employees to ensure that all required MAD and DOH/DDSD qualifications; compliance with EVV requirements; all requirements outlined in the supports waiver services standards, applicable New Mexico administrative code (NMAC) rules, MAD supplements, and as applicable, the provider's New Mexico licensing board's scope of practice and licensure are met.

B. Participant directed service delivery model requirements for individual employees, independent providers, and vendors: In order to be approved to provide services under the participant directed service delivery model, provider agency, employees, vendors, or an independent provider, including non-licensed personal care or direct support worker, must meet the general and service specific qualifications set forth in this rule initially and continually meet licensure requirements as applicable, and submit an employee or vendor enrollment packet, specific to the provider or vendor type, for approval to the FMA. In addition, to be an authorized provider for the supports waiver and receive payment for delivered services, the provider must complete a vendor or employee provider agreement and all required tax documents. The provider must have credentials verified by the eligible recipient or the employee of record (EOR) and the FMA. The provider agency is responsible to ensure that all agency employees meet the required qualifications. Individual employees may not provide more than 40 hours of services in a consecutive seven-day work week.

(1) prior to rendering services to an eligible supports waiver recipient as a personal care or direct support worker, respite worker, customized community supports worker, or employment worker, an individual seeking to provide these services must complete and submit a nature of services questionnaire to the FMA. The FMA will determine, based on the nature of services questionnaire if the relationship is that of an employee or an independent contractor;

(2) an authorized CSC provider must have a MAD approved provider participation agreement (PPA) and the appropriate approved DOH/DDSD agreement.

C. General Qualifications agency-based and participant directed service delivery model providers:

(1) individual employees, independent providers, provider agencies, excluding CSC provider agencies, who are employed by a community supports waiver recipient to provide direct services shall:

(a) be at least 18 years of age;

(b) be qualified to perform the service and demonstrate capacity to perform required tasks;

(c) be able to communicate successfully with the eligible recipient;

(d) pass a nationwide caregiver criminal history screening pursuant to NMSA 1978, Section 29-17-2 et seq. and 7.1.9 NMAC and an abuse registry screen pursuant to NMSA 1978, Section 27-7a-1 et seq. and 8.11.6 NMAC;

(e) complete all trainings as required by DOH/DDSD and complete training specific to the eligible recipient's needs as identified in the approved ISP;

(f) for participant directed, training needs on items identified in the individual service plan (ISP), and the training plan is determined by the eligible recipient or their legal representative for any training specific to the employee in addition to trainings required by DOH/DDSD; the eligible recipient is also responsible for providing and arranging for employee training and supervising employee performance; training expenses for paid employees cannot be paid for with the eligible recipient's AAB; and

(g) meet any other service specific qualifications, as specified in 8.314.7 NMAC and service standards.

(2) vendors, including those providing professional services:

(a) shall be qualified to provide the service;

(b) shall possess a valid business license, if applicable; and

(c) are required to follow the applicable licensing regulations set forth by the profession; refer to the appropriate New Mexico board of licensure for information re garding applicable licenses;

(3) qualified and approved relatives and legal guardians may be hired as employees and paid for the provision, of supports waiver services except for CSC services, customized community supports group services, non-medical transportation services for a minor, environmental modifications services, vehicle modifications services, behavior support consultation services, assistive technology and employment

supports. A spouse may not provide transportation for adult participants. A relative or legal guardian may not provide services that the legal responsible individual would ordinarily perform in the household for individuals of the same age who did not have a disability or chronic illness. A relative or legal guardian may not provide services that the legally responsible individual would ordinarily perform in the household for individuals of the same age who did not have a disability or chronic illness;

(4) once enrolled, providers, vendors and contractors receive a packet of information from the eligible recipient or FMA including billing instructions, and other pertinent materials. MAD makes available on the HSD/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. When enrolled, an eligible recipient or legal representative, or provider, vendor or contractor receives instruction on how to access these documents. It is the responsibility of the eligible recipient or legal representative, or provider, vendor, or contractor to access these instructions or ask for paper copies to be provided, to understand the information provided and to comply with the requirements. The eligible recipient or legal representative, or provider, vendor, or contractor must contact HSD or its authorized agents to request hard copies of any program rules manuals, billing and utilization review instructions, and other pertinent materials and to obtain answers to questions on or not covered by these materials;

(a) no provider of any type may be paid in excess of 40 hours within the established work week for any one eligible recipient or EOR when applicable;

(b) no provider agency is permitted to perform both LOC assessments and provide any services for the eligible recipients;

(c) providers may market their services
but are prohibited from soliciting eligible recipients under any circumstances.

(5) Employer of record: The EOR is the individual responsible for directing the work of the eligible recipient's employees under the participant directed service delivery model. The EOR may be the eligible recipient or a legal representative of the recipient. A recipient through the use of the support's waiver EOR questionnaire will determine if an individual meets the requirements to serve as an EOR. The recipient's CSC will provide him or her with the questionnaire. The questionnaire shall be completed by the recipient with assistance from the CSC upon request. The CSC shall maintain a copy of the completed questionnaire in the recipient's file. The EOR does not have budget authority. When utilizing both vendors and employees, an EOR is required for oversight of employees and to sign payment request forms for vendors. The EOR must be documented with the FMA whether the EOR is the eligible recipient or a designated qualified individual.

(a) an eligible recipient that is the subject of a plenary or limited guardianship or conservatorship may not be their own EOR;

(b) a power of attorney or other legal instrument may not be used to assign EOR responsibilities, in part or in full, to another individual and may not be used to circumvent the requirements of the EOR as designated in 8.316.7 NMAC;

(c) a person under the age of 18 years may not be an EOR;

(d) an EOR who lives outside New Mexico shall reside within 100 miles of the New Mexico state border. If the eligible recipient wants to have an EOR who resides beyond this radius, the eligible recipient must obtain written approval from the DOH prior to the EOR performing any duties. This written approval must be documented in the ISP;

(e) the eligible recipient's provider may not also be their EOR;

(f) an EOR whose performance compromises the health, safety or welfare of the eligible recipient, may have their status as an EOR terminated;

(g) an EOR must be a legal representative if not the recipient; and

(h) an EOR may not be paid for any other services utilized by the eligible recipient for whom they are EOR, whether as an employee of the eligible recipient, a vendor, or an employee or contractor of an agency. An EOR makes important determinations about what is in the best interest of the eligible recipient and should not have any conflict of interest. An EOR assists in the management of the eligible recipient's budget and should have no personal benefit connected to the services requested or approved in the budget.

D. Qualifications of assistive technology providers and vendors: Must hold a current business license issued by the state, county or city government.

E. Qualifications of behavior support consultation providers: Behavior supports consultation provider agencies shall have a current business license issued by the state, county or city government, if required. Behavior supports consultation provider agencies shall comply with all applicable federal, state, and waiver rules and procedures regarding behavior support consultation, and must ensure that provider training is in accordance with the DOH/DDSD training policy. Providers of behavior support consultation must maintain a current New Mexico license with the appropriate professional field licensing body and have a minimum of one year of experience working with individuals with intellectual or developmental disabilities. Providers of behavior support consultation services must possess qualifications in at least one of the following areas:

(1) licensed clinical psychologist, licensed psychologist associate, (masters or Ph.D. level);

(2) licensed independent social worker (LISW) or a licensed clinical social worker (LCSW);

(3) licensed master social worker (LMSW);

(4) licensed mental health counselor LMHC);

(5) licensed professional clinical counselor (LPCC);

(6) licensed marriage and family therapist (LMFT); or

(7) licensed practicing art therapist (LPAT).

F. Qualifications of the community support coordinator providers: In addition to general
requirements, a CSC provider shall ensure that all individuals hired, or contracted for C SC services meet the criteria specified in this section in addition to all applicable rules and service standards. Community supports coordinators shall:

(1) be at least 21 years of age;

(2) possess a bachelor's degree in social work, psychology, human services, counseling, nursing, special education or related field; or have a minimum of six-years direct experience related to the delivery of social services to people with disabilities;

(3) have at least one year of experience working with people with disabilities or I/DD;

(4) complete all trainings as required by DOH/DDSD;

(5) verification of provider qualifications; and

(6) pass a national care giver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27a-4 et seq. NMSA 1978 and 8.11.6 NMAC.

G. Qualifications for customized community supports individual providers: For individual community supports providers the worker must meet the following requirements:

(1) be 18 years of age or older;

(2) demonstrate the capacity to perform required tasks;

(3) be able to communicate successfully with the eligible recipient;

(4) complete all training requirements as required by DOH/DDSD; and

(5) pass a national care giver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27a-4 et seq. NMSA 1978 and 8.11.6 NMAC; and

(6) meet any other service qualifications, as specified in the regulations.

H. Qualifications for customized community supports group providers: Provider agencies must meet requirements including a business license, accreditation with the commission on accreditation of rehabilitation facilities (CARF) international, employment and community services or the council on quality and leadership, quality assurances, financial solvency, training requirements, records management, quality assurance policy and processes. The agency staff must meet the following requirements:

(1) be at least 18 years of age;

(2) have at least one year of experience working with people with disabilities;

(3) be qualified to perform the service and demonstrate capacity to perform required tasks;

(4) be able to communicate successfully with the eligible recipient;

(5) pass a national care giver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27a-4 et seq. NMSA 1978 and 8.11.6 NMAC.

(6) complete specific training based on needs identified in the ISP and by the recipient; and

(7) meet any other service qualifications, as specified in the regulations.

I. Qualifications of personal care service providers: In addition to general MAD requirements, the direct support providers must meet additional qualifications specific to the type of services provided. Provider agencies must be homemaker/personal care agencies certified by the MAD or its designee or a homemaker/personal care agency holding a New Mexico homemaker/personal care agency license. A homemaker/personal care agency must hold a current business license when applicable, and meet financial solvency, training, records management, and quality assurance rules and requirements. Personal care direct support workers must:

(1) be at least 18 years of age;

(2) demonstrate capacity to perform required tasks;

(3) be able to communicate successfully with the eligible recipient;

(4) complete all trainings as required by DOH/DDSD; and

(5) pass a national care giver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27a-4 et seq. NMSA 1978 and 8.11.6 NMAC.

J. Qualifications of employment supports providers:

(1) A job developer, whether an agency or individual provider, must:

(a) be at least 21 years of age;

(b) complete all training requirements by DOH/DDSD;

(c) have a high school diploma or GED;

(d) pass a national care giver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27a-4 et seq. NMSA 1978 and 8.11.6 NMAC;

(e) have experience in developing and using job and task analysis;

(f) have knowledge of the Americans with Disabilities Act (ADA);

(g) have knowledge and experience working with the department of vocational rehabilitation (DVR) office; and

(h) have experience with or knowledge of the purposes, functions, and general practices of entities such as department of labor navigators one-stop career centers, business leadership network, chamber of commerce job accommodation network, small business development centers, retired executives, local business community agencies, and DDSD resources.

(2) Job coaches whether agency or individual provider, must:

(a) be at least 18 years of age;

(b) complete all training requirements by DOH/DDSD;

(c) have a high school diploma or GED; and

(d) pass a national care giver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27a-4 et seq. NMSA 1978 and 8.11.6 NMAC.

K. Qualifications of environmental modifications providers: Environmental modification providers must possess an appropriate plumbing, electrician, contractor license; appropriate technical certification to perform the modification; and, hold a current business license issued by the state, county or city government.

L. Qualifications of non-medical transportation providers: Individual transportation providers must possess a valid New Mexico driver's license with the appropriate classification, be free of physical or mental impairment that would adversely affect driving performance, have no driving while intoxicated (DWI) con victions or chargeable (at fault) accidents within the previous two years, have a current insurance policy and vehicle registration. Transportation vendors must hold a current business license and tax identification number. Each agency will ensure drivers meet the following qualifications:

(1) be at least 18 years old;

(2) possess a valid, appropriate New Mexico driver's license;

(3) have a current insurance policy and vehicle registration; and

(4) must complete all training requirements as required by DOH/DDSD.

M. Qualifications of respite providers: Respite services may be provided by eligible individual respite providers. Respite provider agencies must hold a current business license, and meet financial solvency, training, records management and quality assurance rules and requirements. In addition, for participant-directed services, the eligible recipient or their representative evaluates training needs based on the needs identified in the ISP and by the recipient, provides or arranges for training, as needed, and supervises the worker. Respite worker must:

(1) be 18 years of age or older;

(2) demonstrate capacity to perform required tasks;

(3) be able to communicate successfully with the eligible recipient;

(4) pass a nationwide caregiver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27-7a-1 et seq. NMSA 1978 and 8.11.6 NMAC; and

(5) complete all training requirements as required by DOH/DDSD.

N. Qualifications of vehicle modification providers: Vehicle modification providers must possess an appropriate mechanic or body work license; appropriate technical certification to perform the modification; and, hold a current business license issued by the state, county or city government.

[8.314.7.13 NMAC - N, 4/1/2021]

8.314.7.14 SERVICE DESCRIPTIONS AND COVERAGE CRITERIA:

The services covered by the supports waiver are intended to provide a community-based alternative to institutional care for an eligible recipient that allow greater choice, direction and control over services and supports in an agency-based service delivery model or participant directed service delivery model. These services must specifically address a therapeutic, rehabilitative, habilitative, health or safety need that results from the eligible recipient's qualifying condition. The supports waiver is the payor of last resort. The coverage of the services must be in accordance with the supports waiver rules and service standards. Supports waiver services must be provided in an integrated setting and facilitate full access to the community; ensure the eligible recipient receives services in the community to the same degree of access as those individuals not receiving HCBS services; maximize independence in making life choices; be chosen by the eligible recipient in consultation with the guardian as applicable; ensure the right to privacy, dignity, respect, and freedom from coercion and restraint; optimize recipient employment; and facilitate choice of services and who provides them.

A. General requirements regarding supports waiver covered services: To be considered a covered service under the supports waiver, the following criteria must be met. Services, supports and goods must:

(1) directly address the eligible recipient's qualifying condition or disability;

(2) meet the eligible recipient's clinical, functional, medical or habilitative needs;

(3) be designed and delivered to advance the desired outcomes in the eligible recipient's service and support plan; and

(4) support the eligible recipient to remain in the community and reduce the risk of institutionalization.

B. Assistive technology: Assistive technology (AT) is an item, piece of equipment, or product system used to increase, maintain, or improve functional capabilities. AT services allow for the evaluation and purchase of the AT based on the needs of the eligible recipient and, not covered through the eligible recipient's state plan benefits. Evaluation of the assistive technology needs of the participant include a functional evaluation of the impact of the provision of the appropriate assistive

technology to the participant. Services consist of selecting, designing, fitting, customization, adapting, applying, maintaining, and repair or repairing assistive technology devices. AT services also include training or technical assistance for the participant, or where appropriate, the family members, guardians, advocates, or authorized representatives of the participant, or professionals or direct service providers involved in the major life functions of the participant. AT includes remote personal support technology. Remote personal support technology is an electronic device or monitoring system that supports eligible recipients to be independent in their home or community. This service may provide up to 24-hour alert, monitoring or personal emergency response capability, prompting or in-home reminders, or monitoring for environmental controls for independence through the use of technologies. Remote monitoring is prohibited in eligible recipient's bedrooms and bathrooms. This service is not intended to provide for paid, in-person on-site response. On-site response must be planned through back up plans that are developed using natural or other paid supports. Assistive technology services are limited to five thousand dollars ($5,000) every five years.

C. Behavior support consultation: Behavior support consultation services consist of functional support assessments, treatment plan development, and training and support coordination for the eligible recipient related to behaviors that compromise the eligible recipient's quality of life.

D. Community supports coordinator: Community support coordination services are intended to educate, guide and assist the eligible recipient to make informed planning decisions about services and supports, and monitor those services and supports. Specific waiver function(s) that CSC providers have are:

(1) monitor service delivery and conduct face-to-face visits including home visits at least quarterly;

(2) complete process to evaluate/re-evaluate level of care (medical eligibility);

(3) educate, train and assist eligible recipient (and guardian, employer of record) about participant direction or agency-based service delivery models (includes adherence to standards, review of rights, recognizing and reporting critical incidents);

(4) provide support and assistance during the medical and financial eligibility process;

(5) develop the person-centered plan with the eligible recipient; to include revising the plan as needed;

(6) serve as an advocate for the eligible recipient to enhance their opportunity to be successful with participant-direction or agency-based program; and

(7) supports the recipient with identifying resources outside of the supports waiver that may assist with meeting the recipient's needs.

E. Customized community supports individual: Customized community supports consist of individualized services and support that enable an individual to acquire, maintain, and improve opportunities for independence, community membership, and inclusion. The provider may be a skilled independent contractor or a hired employee depending on the level of support needed by the eligible recipient to access the community. Customized community supports services are designed around the preferences and choices of each individual and offers skill training and supports to include: adaptive skill development, adult educational supports, citizenship skills, communication, social skills, socially appropriate behaviors, self-advocacy, informed choice, community inclusion, arrangement of transportation, and relationship building. Customized community support services provide help to the individual to schedule, organize and meet expectations related to chosen community activities. All services are provided in a community setting with the focus on community exploration and true community inclusion.

F. Customized community supports group: Customized community supports can include participation in congregate community day programs and centers that offer functional meaningful activities that assist with acquisition, retention, or improvement in self-help, socialization and adaptive skills for an eligible recipient. Customized community supports may include adult day habilitation, adult day health and other day support models. Customized community supports are provided in community day program facilities and centers and can take place in non-institutional and non-residential settings.

G. Employment support: Individual community integrated employment offers one-to-one support to an eligible recipient placed in inclusive jobs or self-employment in the community and support is provided at the worksite as needed for the eligible recipient to learn and perform the tasks associated with the job in the workplace. The provider agency is encouraged to develop natural supports in the workplace to decrease the reliance of paid supports.

H. Environmental modifications: Services include the purchase and installation of equipment or making physical adaptations to an eligible recipient's residence that are necessary to ensure the health, welfare and safety of the eligible recipient or enhance the eligible recipient's level of independence.

(1) adaptations include: installation of ramps; widening of doorways and hallways; installation of specialized electric and plumbing systems to accommodate medical equipment and supplies; installation of lifts or elevators; modification of bathroom facilities such as roll-in showers, sink, bathtub, and toilet modifications, water faucet controls, floor urinals and bidet adaptations and plumbing; turnaround space adaptations; specialized accessibility and safety adaptations or additions; trapeze and mobility tracks for home ceilings; automatic door openers or doorbells; voice-activated,

light-activated, motion-activated and electronic devices; fire safety adaptations; air filtering devices; heating or cooling adaptations; glass substitute for windows and doors; modified switches, outlets or environmental controls for home devices; and alarm and alert systems or signaling devices;

(2) environmental modifications are limited to five thousand dollars ($5000) every five years;

(3) all services shall be provided in accordance with federal, state, and local building codes;

(4) excluded are those adaptations or improvements to the home that are of general utility and are not of direct medical or remedial benefit to the eligible recipient, such as fences, storage sheds, or other outbuildings. Adaptations that add to the square footage of the home are excluded for this benefit except when necessary to complete an adaptation.

I. Personal care services: Personal care services are provided on an intermittent basis to assist an eligible recipient 21 years and older with a range of activities of daily living, performance of incidental homemaker and chore service tasks if they do not comprise of the entirety of the service, and enable the eligible recipient to accomplish tasks he or she would normally do for themselves if they did not have a disability. Personal care direct support services are provided in the eligible recipient's own home and in the community, depending on the eligible recipient's needs. The eligible recipient identifies the personal care direct support worker's training needs through the ISP in addition to required training, and, if the eligible recipient or EOR for the participant directed service delivery model or agency is unable to do the training for themselves, the eligible recipient or EOR for the participant directed service delivery model or agency arranges for the needed training. Supports shall not replace natural supports available such as the eligible recipient's family, friends, and individuals in the community, clubs, and organizations that are able and consistently available to provide support and service to the eligible recipient. Personal care services are covered under the medicaid state plan as enhanced early and periodic screening, diagnostic and treatment (EPSDT) benefits for supports waiver eligible recipients under 21 years of age and are not to be included in an eligible recipient's AAB.

J. Non-medical transportation: Transportation services are offered to enable eligible recipients to gain access to services, activities, and resources, as specified by the ISP. Transportation services under the waiver are offered in accordance with the eligible recipient's ISP. Transportation services provided under the waiver are non-medical in nature whereas transportation services provided under the medicaid state plan are to transport eligible recipients to medically necessary physical and behavioral health services. Payment for supports waiver transportation services is made to the eligible recipient's individual transportation provider or employee or to a public or private transportation service vendor. Payment cannot be made to the eligible recipient. Non-medical transportation services for minors is not a covered service as these are

services that a legally responsible individual (LRI) would ordinarily provide for household members of the same age who do not have a disability or chronic illness. Payment cannot be made to the eligible recipient. Whenever possible, family, neighbors, friends, or community agencies that can provide this service without charge shall be identified in the ISP and utilized.

K. Vehicle modifications: Vehicle adaptations or alterations to an automobile or van that is the eligible recipient's primary means of transportation in order to accommodate the special needs of the eligible recipient. Vehicle adaptations are specified by the service plan as necessary to enable the eligible recipient to integrate more fully into the community and to ensure the health, welfare and safety of the eligible recipient. The vehicle that is adapted may be owned by the eligible recipient, a family member with whom the eligible recipient lives or has consistent and on-going contact, or a non-relative who provides primary long-term support to the eligible recipient and is not a paid provider of services. Vehicle modifications are limited to five thousand dollars ($5000) every five years. Payment may not be made to adapt the vehicles that are owned or leased by paid providers of waiver services. Vehicle accessibility adaptations consist of installation, repair, maintenance, training on use of the modifications and extended warranties for the modifications. The following are specifically excluded:

(1) adaptations or improvements to the vehicle that are of general utility, and are not of direct medical or remedial benefit to the eligible recipient;

(2) purchase or lease of a vehicle; and

(3) regularly scheduled upkeep and maintenance of a vehicle except upkeep and maintenance of the modifications.

L. Respite: Respite is a family support service, the primary purpose of which is to give the primary, unpaid caregiver time away from their duties on a short-term basis. Respite services include assisting the eligible recipient with routine activities of daily living (e.g., bathing, toileting, preparing or assisting with meal preparation and eating), enhancing self-help skills, and providing opportunities for leisure, play and other recreational activities; assisting the eligible recipient to enhance self-help skills, leisure time skills and community and social awareness; providing opportunities for community and neighborhood integration and involvement; and providing opportunities for the eligible recipient to make their own choices with regard to daily activities. Respite services are furnished on a short-term basis and can be provided in the eligible recipient's home, the provider's home, or in a community setting of the family's choice (e.g., community center, swimming pool and park).

[8.314.7.14 NMAC - N, 4/1/2021]

8.314.7.15 NON-COVERED SERVICES:

The waiver does not pay for the purchase of goods or services that a household without a person with a disability would be expected to pay for as a routine household or personal expense. If the eligible recipient requests a specific good or service, the CSC and the state can work with the eligible recipient to find other, including less costly, alternatives. Non-covered services include, but are not limited to the following:

A. Services covered by the medicaid state plan (including EPSDT), MAD school-based services, medicare and other third parties.

B.
Any service or good, the provision of which would violate federal or state statutes , regulations or guidance.

C. Formal academic degrees or certification-seeking education, educational services covered by IDEA or vocational training provided by the public education department (PED), division of vocational rehabilitation (DVR.

D. Food and shelter expenses, including property-related costs, such as rental or purchase of real estate and furnishing, maintenance, utilities and utility deposits, and related administrative expenses; utilities include gas, electricity, propane, firewood, wood pellets, water, sewer, and waste management.

E. Experimental or investigational services, procedures or goods, as defined in 8.325.6 NMAC.

F. Any goods or services that are to be used for recreational or diversional purposes.

G. Personal goods or items not related to the disability.

H. Animals and costs of maintaining animals including the purchase of food, veterinary visits, grooming and boarding except for training and certification for service dogs.

I. Gas cards and gift cards.

J. Purchase of insurance, such as car, health, life, burial, renters, homeowners, service warranties or other such policies.

K. Purchase of a vehicle, and long-term lease or rental of a vehicle.

L. Purchase of recreational vehicles, such as motorcycles, campers, boats or other similar items.

M. Firearms, ammunition or other weapons.

N. Vacation expenses, including airline tickets, cruise ship or other means of transport, guided.

O. Meals, hotel, lodging or similar recreational expenses.

P. Purchase of usual and customary furniture and home furnishings, *unless* adapted to the eligible recipient's disability or use, or of specialized benefit to the eligible recipient's condition; requests for adapted or specialized furniture or furnishings must include a recommendation from the eligible recipient's health care provider and, when appropriate, a denial of payment from any other source.

Q. Regularly scheduled upkeep, maintenance and repairs of a home and addition of fences, storage
sheds or other outbuildings, *except* upkeep and maintenance of modifications or alterati ons to a home which are an accommodation directly related to the eligible recipient's qualifying condition or disability.

R. Regularly scheduled upkeep, maintenance and repairs of a vehicle, or tire purchase or replacement, except upkeep and maintenance of modifications or alterations to a vehicle or van, which is an accommodation directly related to the eligible recipient's qualifying condition or disability; requests must include documentation that the adapted vehicle is the eligible recipient's primary means of transportation.

S. Clothing and accessories, except specialized clothing based on the eligible recipient's disability or condition.

T. Training expenses for paid employees.

U. Costs associated with such conferences or class cannot be covered, including airfare, lodging or meals;
consumer electronics such as computers, printers and fax machines, or other electronic equipment that does not meet the criteria specified in Subsection A of 8.314.6.14 NMAC; no more than one of each type of item may be purchased at one time; and consumer electronics may not be replaced more frequently than once every three years.

V. Cell phone services that include fees for data unless data is for an app specifically approved through supports waiver
funds; or more than one cell phone line per eligible recipient.

[8.314.7.15 NMAC - N, 4/1/2021]

8.314.7.16 INDIVIDUAL SERVICE PLAN (ISP) AND AUTHORIZED ANNUAL BUDGET(AAB):

An ISP and an AAB request are developed at least annually by the eligible recipient in collaboration with the eligible recipient's CSC and others that the eligible recipient

invites to be part of the process. The CSC serves in a supporting role to the eligible recipient, assisting the eligible recipient to understand the supports waiver program, and with developing and implementing the ISP and the AAB. The ISP and annual budget request are developed and implemented as specified in 8.314.7. NMAC and supports waiver service standards and submitted to the TPA or MAD's designee for final approval. Upon final approval the annual budget request becomes an AAB.

A. ISP development process: For development of the person-centered service plan, the planning meetings are scheduled at times and locations convenient to the eligible recipient. This process obtains information about eligible recipient strengths, capacities, preferences, desired outcomes and risk factors through the LOC assessment process and the planning process that is undertaken between the CSC and eligible recipient to develop their ISP.

(1) Assessments:

(a) assessment activities that occur prior to the ISP meeting assist in the development of an accurate and functional plan. The functional assessments conducted during the LOC determination process address the following needs of a person: medical, behavioral health, adaptive behavior skills, nutritional, functional, community/social and employment;

(b) assessments occur on an annual basis or during significant changes in circumstance or at the time of the LOC determination. After the assessments are completed, the results are made available to the eligible recipient and their CSC for use in planning;

(c) the eligible recipient and the CSC will assure that the ISP addresses the information and concerns, if any, identified through the assessment process.

(2) Pre-planning:

(a) the CSC contacts the eligible recipient upon their choosing enrollment in the supports waiver program to provide information regarding this program, including the range and scope of choices and options, as well as the rights, risks, and responsibilities associated with participation in the supports waiver;

(b) the CSC discusses areas of need to address on the eligible recipient's ISP. The CSC provides support during the annual re-determination process to assist with completing medical and financial eligibility in a timely manner;

(3) ISP components: The ISP contains:

(a) the supports waiver services that are furnished to the eligible recipient, the projected amount, frequency and duration, and the type of provider who furnishes each service;

(i) the ISP must describe in detail how the services or goods relate to the eligible recipient's qualifying condition or disability;

(ii) the ISP must describe how the services and goods support the eligible recipient to remain in the community and reduce their risk of institutionalization; and

(iii) the ISP must specify the hours of services to be provided and payment arrangements.

(b) other services needed by the supports waiver eligible recipient regardless of funding source, including state plan services;

(c) informal supports that complement supports waiver services in meeting the needs of the eligible recipient;

(d) methods for coordination with the medicaid state plan services and other public programs;

(e) methods for addressing the eligible recipient's health care needs when relevant;

(f) quality assurance criteria to be used to determine if the services and goods meet the eligible recipient's needs as related to their qualifying condition or disability;

(g) information, resources or training needed by the eligible recipient and service providers;

(h) methods to address the eligible recipient's health and safety, such as emergency and back-up services.

(4) Individual service plan meeting:

(a) the eligible recipient receives a LOC assessment and local resource manual and person-centered planning documents prior to the ISP meeting;

(b) the eligible recipient may begin planning and drafting the ISP utilizing those tools prior to the ISP meeting;

(c) during the ISP meeting, CSC assists the eligible recipient to ensure that the ISP addresses the eligible recipient's goals, health, safety and risks. The eligible recipient and their CSC will assure that the ISP addresses the information, goals and concerns identified in the person-centered planning process. The ISP must address the eligible recipient's health and safety needs before addressing other issues. The CSC ensures that:

(i) the planning process addresses the eligible recipient's needs and goals in the following areas: health and wellness and accommodations or supports needed at home and in the community;

(ii) services selected address the eligible recipient's needs as identified during the assessment process; needs not addressed in the ISP will be addressed outside the supports waiver program;

(iii) the outcome of the assessment process for assuring health and safety is considered in the plan;

(iv) services do not duplicate or replace those available to the eligible recipient through the medicaid state plan or other programs;

(v) services are not duplicated in more than one service code;

(vi) job descriptions are complete for each provider and employee in the plan; a job description will include frequency, intensity and expected outcomes for the service;

(vii) the quality assurance section of the ISP is complete and specifies the roles of the eligible recipient, community supports coordinator and any others listed in this section;

(viii) the responsibilities are assigned for implementing the plan;

(ix) the emergency and back-up plans are complete; and

(x) the ISP is submitted to the TPA after the ISP meeting, in compliance with supports waiver rules and service standards.

B. ISP review criteria: Services and related goods identified in the eligible recipient's requested ISP may be considered for approval if the following requirements are met:

(1) the services or goods must be responsive to the eligible recipient's qualifying condition or disability and must address the eligible recipient's clinical, functional, medical or habilitative needs; and

(2) the services or goods must accommodate the eligible recipient in managing their household; or

(3) the services or goods must facilitate activities of daily living;

(4) the services or goods must promote the eligible recipient's personal health and safety; and

(5) the services or goods must afford the eligible recipient an accommodation for greater independence; and

(6) the services or goods must support the eligible recipient to remain in the community and reduce his/her risk for institutionalization; and

(7) the services or goods must be documented in the ISP and advance the desired outcomes in the eligible recipient's ISP; and

(8) the ISP contains the quality assurance criteria to be used to determine if the service or goods meet the eligible recipient's need as related to the qualifying condition or disability; and

(9) the services or goods must decrease the need for other MAD services; and

(10) the eligible recipient receiving the services or goods does not have the funds to purchase the services or goods; or

(11) the services or goods are not available through another source; the eligible recipient must submit documentation that the services or goods are not available through another source, such as the medicaid state plan or medicare; and

(12) the service or good is not prohibited by federal regulations, NMAC rules, billing instructions, standards, and manuals; and

(13) each service or good must be listed as an individual line item whenever possible; however, when a service or a good are 'bundled' the ISP must document why bundling is necessary and appropriate.

C. Budget review criteria: The eligible recipient's proposed annual budget request may be considered for approval, if all the following requirements are met:

(1) the proposed annual budget request is within the supports waiver IBA;

(2) the rate for each service is included;

(3) the proposed cost for each good is reasonable, appropriate and reflects the lowest available cost for that chosen good;

(4) the estimated cost of the service or good is specifically documented in the eligible recipient's budget worksheets; and

(5) no employee exceeds 40 hours paid work in a consecutive seven-day work week.

D. Modification of the ISP:

(1) The ISP may be modified based upon a change in the eligible recipient's needs or circumstances, such as a change in the eligible recipient's health status or condition or a change in the eligible recipient's support system, such as the death or disabling condition of a family member or other individual who was providing services.

(2) If the modification is to provide new or additional services than originally included in the ISP, these services must not be able to be acquired through other programs or sources. The eligible recipient must document the fact that the services are not available through another source. The new or additional services are subject to utilization review for medical necessity and program requirements as per 8.314.7.17 NMAC.

(3) The CSC initiates the process to modify the ISP by forwarding the request for modification to the TPA for review.

(4) The ISP must be modified before there is any change in the AAB.

(5) The ISP may be modified once the original ISP has been submitted and approved. Only one ISP revision may be submitted at a time, e.g.; an ISP revision may not be submitted if an initial ISP request or prior ISP revision request is under initial review by the TPA. This requirement also applies to any re-consideration of the same revision request. Other than for critical health and safety reasons, neither the ISP nor the AAB may be modified within 60 calendar days of the expiration of the current ISP.

[8.314.7.16 NMAC - N, 4/1/2021]

8.314.7.17 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All MAD services, including services covered under the supports waiver program, are subject to utilization review for medical necessity and program requirements. Reviews by MAD or its designees may be performed before services are furnished, after services are furnished, before payment is made, or after payment is made in accordance with 8.310.2 NMAC.

A. Prior authorization: Services, supports, and goods specified in the ISP and AAB require prior authorization from HSD/MAD or its designee. The ISP must specify the type, amount and duration of services. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: To be eligible for supports waiver program services, eligible recipients must require the LOC of services provided in an ICF-IID. Prior authorization of services does not guarantee that applicants or eligible recipients are eligible for medical assistance program (MAP) or supports waiver services.

C. Reconsideration: If there is a disagreement with a prior authorization denial or other review decision, the community supports coordinator provider on behalf of the eligible recipient, can request reconsideration from the TPA that performed the initial review and issued the initial decision. Reconsideration must be requested within 30-calendar days of the date on the denial notice, must be in writing and provide additional documentation or clarifying information regarding the eligible recipient's request for the denied services or goods.

D. Denial of payment: If a service, support, or good is not covered under the supports waiver program, the claim for payment may be denied by MAD or its designee. If it is determined that a service is not covered before the claim is paid, the claim is denied. If this determination is made after payment, the payment amount is subject to recoupment or repayment.

[8.314.7.17 NMAC - N, 4/1/2021]

8.314.7.18 RECORDKEEPING AND DOCUMENTATION RESPONSIBILITIES:

Service providers and vendors who furnish goods and services to supports waiver eligible recipients are reimbursed by the financial management agency (FMA) and must comply with all applicable New Mexico administrative code (NMAC), medical assistance division (MAD) rules and service standards. The FMA, community supports coordinators (CSC) and service providers must maintain records, which are sufficient to fully disclose the extent and nature of the goods and services provided to the eligible recipients, as detailed in applicable NMAC, MAD provider rules and comply with random and targeted audits conducted by MAD and department of health (DOH) or their audit agents. MAD or its designee will seek recoupment of funds from service providers when audits show inappropriate billing for services. Supports waiver vendors who furnish goods and services to supports waiver eligible recipients and bill the FMA must comply with all MAD provider participation agreement (PPA) requirements and NMAC, MAD rules and requirements, including but not limited to 8.310.2 NMAC and 8.321.2 NMAC and 8.302.1 NMAC.

[8.314.7.18 NMAC - N, 4/1/2021]

8.314.7.19 REIMBURSEMENT:

Health care to MAP eligible recipients is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by MAD.

A. Agency-based service delivery model provider reimbursement: Upon approval of a New Mexico MAD provider participation agreement (PPA) by MAD or its designee, licensed practitioners, facilities, and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to MAP eligible recipients. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the

human service department/medical assistance division (HSD/MAD) website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including New Mexico administrative code (NMAC) rules, billing instructions, utilization review instructions, service definitions and service standards and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HSD or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD PPA and all applicable statutes, regulations, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only.

B. Participant directed service delivery model provider and vendor reimbursement: Supports waiver eligible recipients must follow all billing instructions provided by the FMA to ensure payment of service providers, employees, and vendors. Claims must be billed to the FMA per the billing instructions. Reimbursement to a service provider and a vendor in the supports waiver program is made, as follows:

(1) supports waiver service provider and vendor must enroll with the FMA;

(2) the eligible recipient receives instructions and documentation forms necessary for a service provider's and a vendor's claims processing;

(3) an eligible recipient must submit claims for payment of their supports waiver service provider and vendor to the FMA for processing; claims must be filed per the billing instructions provided by the FMA;

(4) the eligible recipient and their supports waiver service provider and vendor must follow all FMA billing instructions; and

(5) reimbursement of a supports waiver service provider and vendor is made at a predetermined reimbursement rate by the eligible recipient with the supports waiver service provider or vendor, approved by the TPA contractor, and documented in the ISP and in the supports waiver provider or vendor agreement; at no time can the total expenditure for services exceed the eligible recipient's AAB;

(6) the FMA must submit claims that have been paid by the FMA on behalf of the eligible recipient to the MAD fiscal contractor for processing; and

(7) reimbursement may not be made directly to the eligible recipient, either to reimburse them for expenses incurred or to enable the eligible recipient to pay a service provider directly.

[8.314.7.19 NMAC - N, 4/1/2021]

8.314.7.20 RIGHT TO AN HSD ADMINISTRATIVE HEARING:

A. The human services department/medical assistance division (HSD/MAD) must grant an opportunity for an administrative hearing as described in this section in the following circumstances and pursuant to 42 CFR Section 431.220(a)(1), Section 27-3-3 NMSA 1978 and 8.352.2 NMAC *Recipient Hearings*:

(1) when a supports waiver applicant has been determined not to meet the LOC requirement for waiver services;

(2) when a supports waiver applicant has not been given the choice of HCBS as alternative to institutional care;

(3) when a supports waiver applicant is denied the services of their choice or the provider of their choice;

(4) when a supports waiver recipient's services are denied, suspended, reduced or terminated;

(5) when a supports waiver recipient has been involuntarily terminated from the program; or

(6) when a supports waiver recipient's request for a budget adjustment has been denied.

B. DOH and its counsel, if necessary, shall participate in any fair hearing involving an eligible recipient. HSD/MAD, and its counsel, if necessary, may participate in fair hearings.

[8.314.7.20 NMAC - N, 4/1/2021]

8.314.7.21 CONTINUATION OF BENEFITS PURSUANT TO TIMELY APPEAL:

A. Continuation of benefits may be provided to eligible recipients who request an HSD administrative hearing within the timeframe defined in 8.352.2 NMAC. The notice will include information on the right to continued benefits and on the eligible recipient's responsibility for repayment if the hearing decision is not in the eligible recipient's favor. See 8.352.2 New Mexico administrative code (NMAC) for a complete description of the continuation of benefits process of an HSD administrative hearing for an eligible recipient.

B. The continuation of benefit is only available to an eligible recipient that is currently receiving the appealed benefit. The eligible recipient's current AAB and ISP at the time of the request is termed a 'continuation' of benefits. The continuation budget may not be revised until the conclusion of the fair hearing process.

[8.314.7.21 NMAC - N, 4/1/2021]

8.314.7.22 GRIEVANCE/COMPLAINT SYSTEM:

An eligible recipient has the opportunity to register grievances or complaints concerning the provision of services under the supports waiver program. Eligible recipients may register complaints with either HSD/MAD or DOH/DDSD via e-mail, mail or phone. Complaints will be referred to the appropriate department for resolution. The eligible recipient is informed that filing a grievance or complaint is not a prerequisite or substitute for a fair hearing.

[8.314.7.21 NMAC - N, 4/1/2021]

CHAPTER 315: OTHER LONG TERM CARE SERVICES

PART 1: GENERAL PROVISIONS [RESERVED]

PART 2: PROGRAM OF ALL-INCLUSIVE CARE FOR THE ELDERLY (PACE)

8.315.2.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.315.2.1 NMAC - Rp 8.315.2.1 NMAC, 7/1/2024]

8.315.2.2 SCOPE:

The rule applies to the general public.

[8.315.2.2 NMAC - Rp 8.315.2.2 NMAC, 7/1/2024]

8.315.2.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended, and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.315.2.3 NMAC - Rp 8.315.2.3 NMAC, 7/1/2024]

8.315.2.4 DURATION:

Permanent.

[8.315.2.4 NMAC - Rp 8.315.2.4 NMAC, 7/1/2024]

8.315.2.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.315.2.5 NMAC - Rp 8.315.2.5 NMAC, 7/1/2024]

8.315.2.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service

portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[8.315.2.6 NMAC - Rp 8.315.2.6 NMAC, 7/1/2024]

8.315.2.7 DEFINITIONS:

[RESERVED]

8.315.2.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.315.2.8 NMAC - Rp 8.315.2.8 NMAC, 7/1/2024]

8.315.2.9 PACE PROGRAM SERVICES:

The New Mexico medicaid program (medicaid) pays for medically necessary health services furnished to eligible recipients, including services furnished in nursing facilities. To help New Mexico recipients receive necessary services, the New Mexico medical assistance division (MAD) pays for capitated and community-based services through the PACE program. This project provides a complete package of acute, long term care, personal care and social services to a frail population that meets nursing facility clinical criteria. See Section 9412(b) of the federal Omnibus Budget Reconciliation Act of 1986 and Section 1915(a) of the Social Security Act. This part describes the following: eligible providers, services for recipients who are nursing home eligible, covered services, service limitations, and reimbursement methodology.

[8.315.2.9 NMAC - Rp 8.315.2.9 NMAC, 7/1/2024]

8.315.2.10 ELIGIBLE PROVIDERS:

A. The eligible provider will have a professional services agreement (PSA) with the HCA. The provider will also meet the following conditions:

(1) be licensed and certified by the licensing and certification bureau of the department of health (DOH) to meet conditions as a diagnostic and treatment center;

(2) participate in the MAD utilization review process and agree to operate in accordance with all policies and procedures of that system; and

(3) meet and comply with the centers for medicare and medicaid services (CMS) requirements for full provider status for PACE organizations.

B. Once enrolled, the provider will receive a packet of information, including medicaid program policies, utilization review instructions, and other pertinent material from MAD. The provider is responsible for ensuring receipt of these materials and for updating as new materials are received from MAD.

[8.315.2.10 NMAC - Rp 8.315.2.10 NMAC, 7/1/2024]

8.315.2.11 PROVIDER RESPONSIBILITIES:

A. The provider who furnishes services to medicaid recipients will comply with all specified medicaid participation requirements. See 8.302.1 NMAC, General Provider Policies. The provider will verify that individuals are eligible for medicaid, medicare, or other health insurance at the time services are furnished. The provider will verify whether or not an individual is self-pay at the time services are provided. The provider will maintain records which are sufficient to fully disclose the extent and nature of the services provided to recipients. See 8.302.1 NMAC, General Provider Policies. The provider will provide the coordination which will enable the client to utilize PACE as the single source for primary care. This will assist the enrollee in the coordination of care by specialists.

B. Outreach and marketing: The provider will have a written plan which accomplishes the following outreach and marketing objectives.

(1) Strategies of how prospective participants are provided adequate program descriptions.

(a) The program descriptions shall be written in a culturally competent format at a language level understandable by the participant (sixth grade). The format should be sensitive to the culture and language common to the service area.

(b) Program descriptions should include the services available through the program. The services include, but are not limited to, the following: enrollment and

disenrollment, procedures to access services, after hours call-in system, provisions for emergency treatment, restrictions against using medical providers or services not authorized by the interdisciplinary team, and any other information necessary for prospective participants to make informed decisions about enrollment. Prior to enrollment, each participant will be informed of what individualized initial assessment and treatment plan has been developed by the interdisciplinary team.

(2) Development of outreach and enrollment materials (including marketing brochures, enrollment agreements, website and disenrollment forms). These materials should be submitted in draft form to MAD for approval prior to publication. Distribution prior to approval is prohibited.

(3) Submit an active and ongoing marketing plan, with measurable enrollment objectives and a system for tracking its effectiveness. The plan shall also include, but not be limited to, the sequence and timing of promotional and enrollment activities and the resources needed for implementation.

(4) Ensure that prohibited marketing activities are not conducted by its employees or its agents. Prohibited practices are:

(a) discrimination of any kind while maintaining the PACE program requirements;

(b) statements or activities that could mislead or confuse potential participants, or misrepresent the contractor, CMS, or the state medicaid agency;

(c) inducing enrollment through gifts or payments; the Procurement Code, Sections 13-1-28 through 13-1-199 NMSA 1978, imposes civil and misdemeanor criminal penalties for its violation; in addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks; and

(d) subcontracting outreach efforts to individuals or organizations whose sole responsibility involves direct contact with elderly to solicit enrollment.

[8.315.2.11 NMAC - Rp 8.315.2.11 NMAC, 7/1/2024]

8.315.2.12 ELIGIBLE RECIPIENTS:

Medicaid recipients who meet the eligibility requirements as stated in the medical assistance division eligibility manual may be eligible to participate in the PACE program.

[8.315.2.12 NMAC - Rp 8.315.2.12 NMAC, 7/1/2024]

8.315.2.13 COVERED SERVICES:

The PACE program is a partially capitated, community- based service program. The PACE program will ensure access to a comprehensive benefit package of services to a frail population that meets nursing facility clinical criteria. The provider will provide all medicaid services that are included in a capitated rate. Medicare covered services will be reimbursed through a medicare capitated rate. The provider will provide medicare-eligible PACE participants with all medicare services that are included in the medicare capitated rate. Effective Janaury 1, 2006, upon the implementation of medicare part D prescription drug coverage, pharmacy costs for PACE medicare beneficiaries are covered by the medicare capitated rate. Pharmacy costs for medicaid only recipients would be covered by the medicaid only capitated rate.

A. Adult day health center: The focal point for coordination and provision of the majority of the PACE program services is the adult day health center. The adult day health center will include a primary care clinic and areas for therapeutic recreation, restorative therapies, socialization, personal care and dining. The center shall include the following areas:

(1) examination room(s);

(2) treatment room(s);

(3) therapy room(s);

(4) dining room(s);

(5) activity room(s);

(6) kitchen;

(7) bathroom(s);

(8) personal care room(s);

(9) administrative office(s);

(10) counseling office(s);

(11) pharmacy/ medication room; and

(12) laboratory;

B. Interdisciplinary team: The interdisciplinary team is a critical element of the PACE program. The ongoing process of service delivery in this model requires the team to identify participant problems, determine appropriate treatment objectives, select interventions and evaluate efficiencies of care on an individual participant basis. The interdisciplinary team is composed of, but not limited to, the following members: Primary

care physician, nurse, dietician, social worker, physical therapist, occupational therapist, speech therapist, recreational therapist or coordinator, day health center supervisor, home care liaison, health workers/aides, and drivers. Some of the interdisciplinary team members may be project staff and some may be contracted positions. All members must meet applicable state licensing and certification requirements and provide direct care and services appropriate to participant need.

C. Benefit package: The benefit package includes the following:

(1) a service delivery system that ensures prompt access to all covered services, including referral protocols, approved by the interdisciplinary team;

(2) access to medical care and other services, as applicable, 24 hours per day, seven days a week, 365 days per year; all care and services shall be available and shall be provided at such times and places, including the participants home or elsewhere, as are necessary and practical;

(3) access to an acute and comprehensive benefit package of services, including, but not limited to:

(a) interdisciplinary assessment and treatment planning;

(b) social work services;

(c) nutritional counseling;

(d) recreational therapy;

(e) meals;

(f) restorative therapies, including physical therapy, occupational therapy and speech therapy;

(g) home care (personal care, nursing care and disposable medical supplies), see 8.325.9 NMAC, Home Health Services;

(h) transportation, see 8.324.7 NMAC, *Transportation Services and Lodging*;

(i) drugs and biologicals; effective January 1, 2006, pharmacy costs are reimbursed by medicare for medicare beneficiaries; pharmacy costs for medicaid-only recipients are reimbursed by medicaid through the medicaid-only capitated rate; see 8.324.4 NMAC, *Pharmacy Services*, and Subsection D of 8.310.2.12 NMAC, *Medical Services Providers*;

(j) prosthetics, medical supplies and durable medical equipment, corrective vision devices such as eyeglasses and lenses, hearing aids, dentures and repairs and

maintenance for these items; see 8.324.8 NMAC, *Prosthetics and Orthotics*; 8.310.6 NMAC, *Vision Care Services*; 8.324.6 NMAC, *Hearing Aids and Related Evaluations*; 8.310.7 NMAC, *Dental Services*; 8.324.5 NMAC, *Durable Medical Equipment and Medical Supplies*;

(k) behavioral health services, 8.310.8 NMAC, *Mental Health Professional Services* and 8.315.3 NMAC, *Psychosocial Rehabilitation Services*;

(l) nursing facility services which include, but are not limited to, the following: semi-private room and board, physician and skilled nursing services, custodial care, personal care and assistance, biologicals and drugs, physical, speech, occupational and recreational therapies, if necessary, social services, and medical supplies and appliances, see 8.312.2 NMAC, *Nursing Facilities*; 8.311.4 NMAC, *Outpatient Psychiatric Services and Partial Hospitalization*; 8.325.8 NMAC, *Rehabilitation Service Providers*; 8.324.4 NMAC, *Pharmacy Services*; Subsection D of 8.310.2.12 NMAC, *Medical Services Providers*; 8.324.5 NMAC, *Durable Medical Equipment and Medical Supplies*; and

(m)urgent care services.

(4) coordinating access for the following services:

(a) primary care services including physician and nursing services;

(b) medical specialty services, including but not limited to: anesthesiology, audiology, cardiology, dentistry, dermatology, gastroenterology, gynecology, internal medicine, nephrology, neurosurgery, oncology, ophthalmology, oral surgery, orthopedic surgery, otorhino- laryngology, plastic surgery, pharmacy consulting services, podiatry, psychiatry, pulmonary disease, radiology, rheumatology, surgery, thoracic and vascular surgery, urology; see 8.301.2 NMAC, *General Benefit Description*; 8.310.2 NMAC, *Medical Services Providers*; 8.311.2 NMAC, *Hospital Services*; 8.310.5 NMAC, *Anesthesia Services*; 8.324.6 NMAC, *Hearing Aids and Related Evaluations*; 8.310.7 NMAC, *Dental Services*; and 8.310.6 NMAC, *Vision Care Services*;

(c) laboratory and x-rays and other diagnostic procedures; see 8.324.2 NMAC, *Laboratory Services*;

(d) acute inpatient services, including but not limited to, the following: ambulance, emergency room care and treatment room services, semi-private room and board, general medical and nursing services, medical surgical/ intensive care/coronary care unit as necessary, laboratory tests, x-rays and other diagnostic procedures, drugs and biologicals, blood and blood derivatives, surgical care, including the use of anesthesia, use of oxygen, physical, speech, occupational, and respiratory therapies, and social services; see 8.301.2 NMAC, *General Benefit Description*; 8.324.8 NMAC, *Prosthetics and Orthotics*; 8.324.10 NMAC, *Ambulatory Surgical Center Services*; and 8.310.5 NMAC, *Anesthesia Services*; 8.324.2 NMAC, *Laboratory Services*; 8.324.4

NMAC, *Pharmacy Services*; Subsection D of 8.310.2.12 NMAC, *Medical Services Providers*; 8.325.8 NMAC, *Rehabilitation Service Providers*; and

(e) hospital emergency room services.

(5) in-area emergency care; all medicaid reimbursable emergency services included in the capitated rate will be reimbursed by the PACE program to a non-affiliated provider when these services are rendered within the PACE program geographic service area; these emergency services will be reimbursed by the PACE program only until such time as the participant's condition permits travel to the nearest PACE program-affiliated facility;

(6) out-of-area emergency care that is provided in, or en route to, a hospital or hospital emergency room, in a clinic, or physician's office, or any other site outside of the PACE program service area; covered services included in the capitation rate will be paid by the PACE program when rendered in and out-of-area medical emergency, but only until such time as the participants condition permits travel to the nearest PACE program-affiliated facility.

[8.315.2.13 NMAC - Rp 8.315.2.13 NMAC, 7/1/2024]

8.315.2.14 NONCOVERED SERVICES:

A. The following services are not the responsibility of the provider or medicaid:

(1) any medicaid capitated or fee-for-service benefit which has not been authorized by the multidisciplinary team;

(2) in inpatient facilities, private room and private duty nursing, unless medically necessary, and non-medical items for personal convenience, such as telephone charges, radio, or television rental;

(3) cosmetic surgery unless required for improved functioning of a malformed part of the body resulting from an accidental injury or for reconstruction following mastectomy;

(4) experimental medical, surgical or other health procedures or procedures not generally available;

(5) care in a government hospital (veterans administration, federal/state hospital) unless authorized;

(6) service in any hospital for the treatment of chronic, medically uncomplicated drug dependency or alcoholism; and

(7) any services rendered outside of the United States.

B. The participant will be financially responsible for any of the above-mentioned services.

[8.315.2.14 NMAC - Rp 8.315.2.14 NMAC, 7/1/2024]

8.315.2.15 TREATMENT PLANS:

A. Prior to enrollment, an initial assessment and treatment plan for each participant is developed by the interdisciplinary team.

B. Each participant will be reassessed by the interdisciplinary team on a semi-annual basis and informed about a new treatment plan.

C. The enrollee, enrollees family, or representative shall be included in the initial assessment, treatment plan and semi- annual reassessment of the treatment plan.

[8.315.2.15 NMAC - Rp 8.315.2.15 NMAC, 7/1/2024]

8.315.2.16 ENROLLMENT OF PARTICIPANTS:

A. The effective date for the recipient's enrollment in the program is the first day of the calendar month following the signing of the enrollment agreement, if an approved level of care (LOC) and all financial and non-financial eligibility criteria have been approved by the income support division (ISD).

B. The potential participant signs an enrollment agreement which includes, but is not limited to, the following information:

(1) enrollment and disenrollment data that will be collected and submitted to the HCA, including, but not limited to, the following:

(a) social security number;

(b) health insurance claim number (HIC);

(c) last name, first name, middle initial;

(d) date of birth;

(e) address of current residence;

(f) assigned ISD office address;

(g) medicare number (part A and part B) for medicare beneficiaries;

(h) medicaid number; and

(i) effective date of enrollment in the PACE program;

(2) benefits available, including all medicare and medicaid covered services, and how services are allocated or can be obtained from the PACE program provider, including, but not limited to:

(a) appropriate use of the referral system;

(b) after hours call-in system;

(c) provisions for emergency treatment;

(d) hospitals to be used; and

(e) the restriction that enrollees may not seek services or items from medicaid and medicare providers without authorization from the interdisciplinary team;

(3) participant premiums and procedures for payment, if any; this includes the medical care credit if the participant enters a nursing home;

(4) participant rights, grievance procedures, conditions for enrollment and disenrollment and medicare and medicaid appeal processes;

(5) participants obligation to notify the PACE program provider of a move or absence from the providers service area;

(6) procedures to assure that applicants understand that all medicaid services must be received through the PACE program provider (the "lock-in" provision);

(7) procedures for obtaining emergency services and urgent care;

(8) statements that the PACE program provider has a program agreement with CMS and the state medicaid agency that may be subject to periodic renewal, and that termination of that agreement may result in termination of enrollment in the PACE program; statement that the PACE program provider and the state medicaid agency enter into a contract, which must be periodically renewed, and that failure to renew the contract may result in termination of enrollment in the PACE program;

(9) participants authorization for the disclosure and exchange of information between CMS, its agent, the state medicaid agency and the PACE program provider; and

(10) participant’s signature and date.

C. Once the participant signs the enrollment agreement, the participant receives the following:

(1) a copy of the enrollment agreement;

(2) participant/ provider contract or evidence of coverage, if this is different from the enrollment agreement;

(3) a PACE program membership card; and

(4) an emergency sticker to be posted in the participants home in case of emergency.

D. The provider will inform the participant and the ISD office when enrollment is completed.

E. Enrollment and services continue unless eligibility of recipient changes or until the participant either voluntarily disenrolls or involuntary disenrollment occurs as described below.

[8.315.2.16 NMAC - Rp 8.315.2.16 NMAC, 7/1/2024]

8.315.2.17 DISENROLLMENT OF PARTICIPANTS:

All voluntary and involuntary disenrollments will be documented and available for review by the state medicaid agency. The provider will inform the ISD office when a participant is being disenrolled either voluntarily or involuntarily. Disenrollment is effective by the first day of the second calendar month following the date in which enrollment has changed.

A. Voluntary disenrollment: A participant may begin the process of voluntary disenrollment at any time during the month. The provider shall use the most expedient process allowed by medicaid and medicare procedures while ensuring a coordinated disenrollment date. Until enrollment is terminated, the participants are required to continue using the PACE program services and remain liable for any premiums. The provider shall continue to provide all needed services until the date of termination.

B. Involuntary disenrollment: A participant may be involuntarily disenrolled if the participant:

(1) moves out of the PACE program service area;

(2) is a person with decision-making capacity who consistently does not comply with the individual plan of care and poses a significant risk to self or others;

(3) experiences a breakdown in the physician or team participant relationship such that the PACE program provider’s ability to furnish services to either the participant or other participant(s) is seriously impaired;

(4) refuses services or is unwilling to meet conditions of participation as they appear in the enrollment agreement;

(5) refuses to provide accurate financial information, provides false information or illegally transfers assets;

(6) is out of the PACE program provider service area for more than 30 days (unless arrangements have been made with the PACE program provider);

(7) is enrolled in a PACE program that loses its contracts or licenses which enable it to offer health care services;

(8) ceases to meet the financial or non-financial criteria; and

(9) ceases to meet the level of care (LOC) at any time.

[8.315.2.17 NMAC - Rp 8.315.2.17 NMAC, 7/1/2024]

8.315.2.18 APPROPRIATE REFERRAL FOR OTHER SERVICES:

A. The provider will assist a participant who either voluntarily or involuntarily disenrolls from the PACE program to apply for other possible services, including medicare or private-pay services; and,

B. The provider will work with the state medicaid agency to ascertain the individual's potential eligibility for other medicaid categories.

[8.315.2.18 NMAC - Rp 8.315.2.18 NMAC, 7/1/2024]

8.315.2.19 PROVISIONS FOR REINSTATEMENT OF PARTICIPANTS TO THE PACE PROGRAM:

There are no restrictions placed on a former participant's reinstatement into the PACE program, if the former participant continues to meet financial, non-financial and medical eligibility criteria.

[8.315.2.19 NMAC - Rp 8.315.2.19 NMAC, 7/1/2024]

8.315.2.20 REDETERMINATION:

The ISD office will conduct a redetermination at least annually of all financial and non-financial criteria, per the standards of the medicaid eligibility requirements. See Subsection A of 8.280.600.12 NMAC, *Ongoing Benefits, Regular Reviews*. LOC is determined by the HCA's utilization review contractor.

[8.315.2.20 NMAC - Rp 8.315.2.20 NMAC, 7/1/2024]

8.315.2.21 PARTICIPANT RIGHTS:

The provider will have written policies and procedures for ensuring the rights of participants as well as educating the participants to the PACE program. These policies and procedures should be presented in a culturally competent format at a language level understandable by the participant or their families (sixth grade level) covering, at a minimum, the following:

A. the enrollment/ disenrollment process;

B. services available through the program;

C. procedures to access services;

D. after hours call-in system;

E. provisions for emergency treatment; and

F. restrictions against using medical providers or services not authorized by the interdisciplinary team.

[8.315.2.21 NMAC - Rp 8.315.2.21 NMAC, 7/1/2024]

8.315.2.22 GRIEVANCE PROCEDURES:

The provider will have participant grievance procedures which provide the participants and their family members with a process for expressing dissatisfaction with the program services, whether medical or nonmedical in nature. The procedures will explain and permit an orderly resolution of informal and formal grievances. These procedures should be presented in a culturally competent format at a language level understandable by the participant or their families (sixth grade level). The procedures will:

A. ensure that all provider grievance procedures and any subsequent changes are prior- approved by MAD in writing and included in the enrollment agreement;

B. ensure that a staff member is designated as having primary responsibility for the maintenance of the grievance procedures, review of their operation, and revision of related policies and procedures whenever necessary;

C. ensure that the grievance procedures clearly explain to participants which staff members are assigned to receive formal and informal complaints, the expected procedure, and the time frames for doing so;

D. ensure that a copy of the participant grievance procedures and complaint forms are available to participants;

E. ensure that procedures are in place for tracking, investigating, recording, resolving and appealing decisions concerning grievances made by participants or others; and

F. ensure there is no discrimination against a participant solely on the grounds the participant filed a grievance.

[8.315.2.22 NMAC - Rp 8.315.2.22 NMAC, 7/1/2024]

8.315.2.23 QUALITY ASSURANCE SYSTEM:

A. The provider will have a written plan of quality assurance and improvement which provides for a system of ongoing assessment, implementation, evaluation, and revision of activities related to overall program administration and services. The plan will:

(1) ensure that standards are incorporated into the provider policy and procedure manual; the provider standards will be based on the PACE protocol, applicable PACE standards and applicable licensing and certification criteria;

(2) ensure that goals and objectives provide a framework for quality improvement activities, evaluation and corrective action;

(3) ensure that quality indicators are objective and measurable variables related to the entire range of services provided by the PACE program provider; the methodology should assure that all demographic groups, all care settings, e.g., inpatient, the PACE program center and in-home, will be included in the scope of the quality assurance review;

(4) ensure that quality indicators are selected for review on the basis of high volume, high risk diagnosis or procedure, adverse outcomes, or some other problem-focused method consistent with the state of the art;

(5) ensure that the evaluation process or procedures review the effectiveness of the interdisciplinary team in its ability to assess participants care needs, identify the participant’s treatment goals, assess effectiveness of interventions, evaluate adequacy and appropriateness of service utilization and reorganize treatment plan as necessary;

(6) establish the composition and responsibilities of a quality assurance committee and an ethics committee;

(7) ensure participant involvement in the quality assurance plan and evaluation of satisfaction with services; and

(8) designate an individual to coordinate and oversee implementation of quality assurance activities.

B. The quality assurance committee will hold quarterly meetings with the provider staff, including, but not limited to, the: 1) medical director; 2) interdisciplinary team; and, 3) administrative director. The provider will prepare quarterly written status reports for review at the quality assurance committee meetings. Written status reports will include, at a minimum, a discussion of project progress, problems encountered and recommended solutions, identification of policy or management questions, and requested project plan adjustments.

[8.315.2.23 NMAC - Rp 8.315.2.23 NMAC, 7/1/2024]

8.315.2.24 DATA GATHERING/REPORTING SYSTEM:

A. Standardized data: The provider will ensure the quality of the data according to MAD medium and frequency of reporting.

B. Software: The provider shall make no use of computer software developed pursuant to the contract, except as provided in the contract or as specifically granted in writing by the HCA.

[8.315.2.24 NMAC - Rp 8.315.2.24 NMAC, 7/1/2024]

8.315.2.25 FINANCIAL REPORTING:

The provider is required to submit certain financial reports as follows.

A. A budgeted versus actual financial report for the current and year-to-date periods on a monthly basis 45 days after the end of each month. During the first year of operation, the financial report will be submitted on a monthly basis, 45 days after the end of each month. Thereafter, this report will be submitted on a quarterly basis, 45 days after the end of each quarter. The state medicaid agency reserves the right to extend the submission of this report on a monthly basis should provider performance indicate a need for more frequent monitoring.

B. Fiscal data based on cost center accounting structure provided by the state medicaid agency. At the twelfth month, the year-to-date summary will provide the necessary annual data.

C. Submit a cumulative report to the state medicaid agency in the form and detail described by On Lok senior health services/national PACE association. The interim cost report is due 45 days after the end of each providers fiscal quarter and covers the period from the beginning of the fiscal year through the respective quarter.

D. Submit to the state medicaid agency a cost report in the form and detail prescribed by the state medicaid program no later than 180 days after the end of the providers fiscal year.

E. Submit to the state medicaid agency a quarterly balance sheet for those PACE program providers that are separate corporate entities.

[8.315.2.25 NMAC - Rp 8.315.2.25 NMAC, 7/1/2024]

8.315.2.26 UTILIZATION REVIEW:

All medicaid services, including services covered under the PACE program, are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior authorization and claims processing.

A. Prior authorization: To be eligible for the PACE program, a medicaid recipient must require a nursing facility level of care (LOC). Level of care determinations are made by MAD or its designee. The plan of care (POC) developed by the recipients interdisciplinary team must specify the type, amount and duration of service. Some services specified in the POC may require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior authorization of service does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are financially and medically eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior authorization request denials or other review decisions may request a re-review and a reconsideration. See MAD-953, *Reconsideration of Utilization Review Decisions* [8.350.2 NMAC].

[8.315.2.26 NMAC - Rp 8.315.2.26 NMAC, 7/1/2024]

8.315.2.27 REIMBURSEMENT:

PACE program providers must submit claims for reimbursement on the UB 92 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing.

[8.315.2.27 NMAC - Rp 8.315.2.27 NMAC, 7/1/2024]

[8.320.2.5 NMAC - Rp, 8.320.2.5 NMAC, 1/1/2014]

8.320.2.6 OBJECTIVE:

The objective of this rule is to provide instructions for the service portion of the New Mexico medical assistance programs (MAP).

[8.320.2.6 NMAC - Rp, 8.320.2.6 NMAC, 1/1/2014]

8.320.2.7 DEFINITIONS:

Electronic Visit Verification (EVV): A telephone and computer-based system that electronically verifies the occurrence of HSD selected services visits and documents the precise time the service begins and ends.

[8.320.2.7 NMAC – Rp, 8.320.7 NMAC, 1/1/2014; A, 2/1/2020]

8.320.2.8 MISSION STATEMENT:

To transform lives. Working with our partners, we design and deliver innovative, high quality health and human services that improve the security and promote independence for New Mexicans in their communities.

[8.320.2.8 NMAC - Rp, 8.320.2.8 NMAC, 1/1/2014; A, 2/1/2020; A, 1/1/2021]

8.320.2.9 EARLY AND PERIODIC SCREENING, DIAGNOSTIC AND TREATMENT SERVICES:

The medical assistance division (MAD) pays for medically necessary health services including preventive, treatment and ameliorative services for a medical assistance program (MAP) eligible recipient under 21 years of age through the early and periodic screening, diagnostic and treatment (ESPDT) services program. See 42 CFR 441.50 Subpart B.

A. EPSDT description:

(1) early: assessing health care early in life so that potential disease and disabilities can be prevented or detected in their preliminary stages, when they are most effectively treated;

(2) periodic: assessing a child's health at regular recommended intervals in the child's life to assure continued healthy development;

(3) screening: the use of tests and procedures to determine if children being examined have conditions warranting closer medical or dental attention;

(4) diagnostic: the determination of the nature or cause of conditions identified by the screening; and

(5) treatment: the provision of services needed to control, correct or lessen health problems.

B. Services provided under EPSDT are accessed following an initial health screening service called the tot to teen healthcheck or health check referral or through other diagnostic evaluations or assessments.

[8.320.2.9 NMAC - Rp, 8.320.2.9 NMAC, 1/1/2014]

8.320.2.10 GENERAL EPSDT SCREENINGS AND REFERRALS:

EPSDT includes a screening component called the"tot to teen healthcheck". EPSDT also includes diagnostic, treatment, and other necessary health care measures needed to correct or ameliorate physical and behavioral health disorders or conditions discovered during the tot to teen healthcheck or through other diagnostic evaluations or assessments.

[8.320.2.10 NMAC - Rp, 8.320.2.10 NMAC, 1/1/2014]

8.320.2.11 INFORMATION GIVEN TO MAP ELIGIBLE RECIPIENTS:

A. A MAP eligible recipient under 21 years of age, or his or her family, is provided with the following information:

(1) benefits of preventive health care;

(2) services available under EPSDT and where and how to access those services;

(3) services provided under EPSDT are furnished at no cost to a MAP eligible recipient;

(4) transportation and scheduling assistance is available upon request; and

(5) the right to request a HSD administrative hearing.

B. Within 30 calendar days of the initial medical assistance application, and annually at each eligibility redetermination period thereafter, a MAP eligible recipient is furnished with information about the tot to teen healthcheck screen and EPSDT services.

[8.320.2.11 NMAC - Rp, 8.320.2.11 NMAC, 1/1/2014]

8.320.2.12 EPSDT ELIGIBLE PROVIDERS:

Upon MAD's approval of a PPA, a licensed practitioner, agency or facility that meets applicable requirements is eligible to be reimbursed for furnishing covered services to a MAP eligible recipient. A provider must be enrolled before submitting a claim for payment to the appropriate MAD claims processing contractor. MAD makes available on the HSD/MAD websites, on other program-specific or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including MAD New Mexico administrative code (NMAC) rules, billing instructions, utilization review (UR) instructions and other pertinent materials. Once enrolled, a provider receives instructions on how to access these documents. MAD makes available on the MAD website, on other program specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including program rules, billing instructions, UR instructions, and other pertinent material. To be eligible for reimbursement, a provider is bound by the provisions of the MAD PPA.

[8.320.2.12 NMAC - Rp, 8.320.3.10 NMAC, 8.320.4.10 NMAC & 8.320.5.10 NMAC, 1/1/2014]

8.320.2.13 PROVIDER RESPONSIBILITIES AND REQUIREMENTS:

A. A provider who furnishes services to a MAP eligible recipient must comply with all federal, state, local laws, rules, regulations, executive orders and the provisions of the provider participation agreement (PPA). A provider must adhere to MAD program rules as specified in NMAC rules and program policies that include but are not limited to supplements, billing instructions, and UR directions, as updated. The provider is responsible for following coding manual guidelines and centers for medicare and medicaid services (CMS) correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify an individual is eligible for a specific MAD service and verify the recipient's enrollment status at time of service as well as determine if a copayment is applicable or if services require prior authorization. A provider must determine if a MAP eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to a MAP eligible recipient.

C. Services furnished to a MAP eligible recipient must be within the scope of practice defined by the provider's licensing board, scope of practice act, or regulatory authority.

[8.320.2.13 NMAC - Rp, 8.320.3.11 NMAC, 8.320.4.11 NMAC & 8.320.5.11 NMAC, 1/1/2014]

8.320.2.14 GENERAL PROVIDER INSTRUCTION:

A. Health care to New Mexico MAP eligible recipients is furnished by a variety of providers and provider groups. The reimbursement for these services is administered by MAD. Upon approval of a PPA or an electronic health record (EHR) incentive payment agreement by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing MAD covered services to MAP eligible recipients. A provider must be approved before submitting a claim for payment to the MAD claims processing contractors. When approved, a provider receives instruction on how to access these documents, it is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HSD or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD PPA and all applicable statutes, regulations, rules, and executive orders. MAD or its selected claims processing contractor issues payment to a provider using the electronic funds transfer (EFT) only. Providers must supply necessary information in order for payment to be made.

B. Services must be provided within the scope of the practice and licensure for each agency, each rendering provider within that agency or each individual provider. Services must be in compliance with the statutes, rules and regulations of his or her practitioner's applicable practice board and act. Providers must be eligible for reimbursement as described in 8.310.3 NMAC.

C. A specific EPSDT service may have additional service restrictions listed in the service's non-covered section. Generally the following are considered to be noncovered by MAD:

(1) services furnished to an individual who is not eligible for MAD EPSDT services;

(2) services furnished without the prior authorization of the MAP eligible recipient's primary care provider (PCP) or HSD or its designee;

(3) services provided by a practitioner who is not in compliance with the statutes, regulations, rules or who renders services outside of the scope of practice as defined by his or her practice board;

(4) services that are not considered medically necessary by MAD or its designee for the condition of the MAP eligible recipient;

(5) services that are primarily educational or vocational in nature; and

(6) services related to activities for the general good and welfare of a MAP eligible recipient, such as general exercises to promote overall fitness and flexibility and activities to provide general motivation, are not considered physical or occupational therapy for MAD reimbursement purposes.

D. Certain EPSDT procedures or services identified in the UR instructions may require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to UR at any point in the payment process. All EPSDT services are subject to UR for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. When services are billed to and paid by a coordinated services contractor authorized by HSD, the provider must follow that contractor's instructions for authorization of services. A specific EPSDT service may have additional prior authorization requirements listed in the service's prior authorization section. The prior authorization of a service does not guarantee that an individual is eligible for a MAD service. A provider must verify that an individual is eligible for a specific MAD service at the time the service is furnished and must determine if the MAP eligible recipient has other health insurance. A provider who disagrees with the denial of a prior authorization request or other review decision can request a reconsideration.

E. All EPSDT services are reimbursed as follows, except when otherwise instructed. MAD does not pay a professional component amount to a physical, occupational or speech and language pathologist (SLP) if the therapy is performed in a hospital setting. MAD reimburses the institutional provider for all components of the service.

(1) Once enrolled, a provider receives instructions on how to access documentation, billing, and claims processing. Reimbursement is made to a provider for covered services at the lesser of the following:

(a) the provider's billed charge; or

(b) the MAD fee schedule for the specific service or procedure for the provider:

(i) the provider's billed charge must be its usual and customary charge for services;

(ii) "usual and customary charge" refers to the amount that the individual provider charges the general public in the majority of cases for a specific procedure or service.

(2) Services not paid according to a fee schedule are reimbursed using the methodology and rate in effect at the time of service.

(3) Reimbursement to the local education agency (LEA), regional educational cooperative (REC), and another state-funded educational agency (SFEA) is not contingent upon billing a third party payer first when the MAP eligible recipient has other insurance. MAD is generally the payer of last resort. However, if medical services are included in the MAP eligible recipient's individual education plan (IEP), and an exception is created under 42 USE 1396b(c), 20 USC 1412(a)(12) and 34 CFR 300.142. and the services are covered by MAD, then MAD is permitted to pay for such services.

[8.320.2.14 NMAC - N, 1/1/2014]

8.320.2.15 TOT TO TEEN HEALTHCHECK:

MAD developed the tot to teen healthcheck, the screening segment of EPSDT services. The tot to teen healthcheck includes periodic screening and regularly scheduled assessments of the MAP eligible recipient's general physical growth and development as well as behavioral health and social emotional development.

A. Primary care providers (PCP), dentists, psychologists, IHS public health clinics, federally qualified health center (FQHC), rural health clinic (RHC), community mental health centers (CMHC), hospitals, school-based clinics, independent certified or licensed nurse practitioners and other health care providers may perform tot to teen healthcheck screens or partial health screenings. A provider must meet the participation requirements specified in applicable sections of NMAC rules. Tot to teen healthcheck screens must be furnished within the scope of the provider's practice, as defined by law.

B. Screening services are furnished to a MAP eligible recipient under 21 years of age. Referrals or treatment for conditions detected during a complete or a partial screen which require further treatment are then covered as part of MAD's EPSDT services. A tot to teen healthcheck can be performed during an office visit for an acute illness as long as the illness does not affect the results or the screening process.

(1) Screening schedule for medical components:

(a) The MAD tot to teen healthcheck periodicity schedule allows for a total of 25 screens. Screenings are encouraged at the following intervals:

(i) under age one: six screenings (birth, one, two, four, six and nine months)

(ii) ages one-two: four screenings (12, 15, 18 and 24 months)

(iii) ages three-five: three screenings (three, four and five years)

(iv) ages six-nine: two screenings (six and eight years)

(v) ages 10-14: four screenings (10, 12, 13 and 14 years)

(vi) ages 15-18: four screenings (15, 16, 17 and 18 years)

(vii) ages 19-20: two screenings (19 and 20 years).

(b) Screenings may be performed at intervals other than as described on the periodicity schedule or in addition to those on the periodicity schedule if a MAP eligible recipient receives care at a time not listed on the periodicity schedule or if any components of the screen were not completed at the scheduled ages. Additional screenings **can help bring the MAP eligible recipient up to date with the periodicity schedule.**

(c) The established schedule must be followed unless the MAP eligible recipient's medical condition is such that a brief deviation is warranted.

(2) Complete medical screens include the following components:

(a) a comprehensive health and developmental history, including an assessment of both physical and behavioral health or social emotional development;

(b) a comprehensive unclothed physical exam;

(c) appropriate immunizations, according to age and health history, unless medically contraindicated at the time;

(d) laboratory tests, including an appropriate blood lead level assessment;

(e) health education, including the MAD anticipatory guidance; and

(f) vision and hearing screenings at the ages indicated in the MAD EPSDT preventative health guidelines.

(3) MAD pays for partial medical screens to a MAP eligible recipient. Partial medical screens are defined as screens where all the required components of a complete medical screen are not completed for medical reasons.

(4) MAD covers additional medical screens as listed below.

(a) Behavioral health screenings are performed at intervals which meet reasonable standards or at other intervals as medically necessary for the diagnosis or treatment of a behavioral health disorders or conditions.

(b) Dental examinations are performed at intervals which meet reasonable dental standards. Usually these examinations are furnished every six months. However, examinations can be furnished at other intervals as medically necessary.

(c) Hearing testing is performed at intervals which meet reasonable standards or at other intervals as medically necessary for the diagnosis or treatment of defects in hearing. A hearing test using an audiogram should be given to a MAP eligible recipient at five years of age or prior to him or her to entering school. Annual examinations should be furnished if abnormalities are identified.

(d) Interperiodic screens can be performed at intervals beyond those specified in the periodicity schedule. Reimbursement for the performance of interperiodic screens is made only to a MAD provider. Interperiodic screens are screening encounters with health care, developmental, or educational professionals to determine the existence of suspected physical or behavioral health disorders or conditions.

(e) Vision examinations are performed at intervals which meet reasonable vision standards or at other intervals as medically necessary. A vision examination should be furnished before the MAP eligible recipient reaches three years of age and again prior to five years of age or prior to entering school. If no abnormalities are found, screenings should be furnished every two years with a complete examination furnished if indicated.

(f) Other necessary health care or diagnostic services are performed when medically necessary.

C. MAD covers services considered medically necessary for the treatment or amelioration of conditions identified as a result of a complete tot to teen healthcheck screen, partial medical screen, or interperiodic screen. Diagnostic or evaluation services furnished during the screening cannot be duplicated as part of the follow-up treatment. If appropriate, treatment is furnished by the screening provider at the time of the tot to teen healthcheck.

(1) A MAP eligible recipient can be referred for treatment as a result of a tot to teen healthcheck, regardless of whether the provider making the referral is a participating MAD provider. If it is inappropriate for a screening provider to furnish treatment needed by the MAP eligible recipient, referrals must be made only to a qualified MAD provider.

(2) A MAP eligible recipient may be identified through a tot to teen healthcheck, self referral, or referral from an agency (such as a public school, child care provider, Part B or Part C provider) when he or she is experiencing behavioral health concerns. For a MAP eligible recipient requiring extensive or long term treatment, he or she must be referred to a MAD behavioral health professional for further evaluation, and if medically necessary, treatment.

(a) The receiving provider of a MAP eligible recipient must develop an individualized treatment plan.

(b) The plan must consider the total behavioral health needs of the MAP eligible recipient, including any medical conditions that may impact his or her behavioral health services.

(c) The plan must be developed in cooperation with the MAP eligible recipient, his or her parents, or guardians, and other health care professionals, as appropriate. In the case of a MAP eligible recipient under 21 years of age who is placed in the custody of the children, youth and families department (CYFD), its assigned social worker, and those appropriate from CYFD's juvenile justice system (JJS) are to be included in the development of the plan.

(d) See to 8.321.2 NMAC for additional information regarding specialized behavioral health services for an ESPDT MAP eligible recipient.

(3) A MAP eligible recipient, when allowed under state law, has the right to refuse proposed medical and behavioral health treatment. He or she has the freedom to select among enrolled MAD providers. Information in this section does not restrict or limit a MAP eligible recipient's rights or choice.

[8.320.2.15 NMAC - Rp, 8.320.3 NMAC, 1/1/2014]

8.320.2.16 EPSDT SPECIAL REHABILITATION (FAMILY INFANT TODDLER EARLY INTERVENTION) SERVICES:

MAD special rehabilitation services are furnished through the New Mexico early childhood education and care department (ECECD) family infant toddler (FIT) program. FIT provides early intervention services for a MAP eligible that has or is at risk of having a developmental delay from birth to his or her third birth year. Developmental delay or at risk of is defined by ECECD. A MAP eligible recipient with a developmental delay or who is at risk of having a developmental delay is not considered to have a diagnosis of an intellectual or developmental disability. FIT services include evaluation, diagnostics and treatment necessary to correct or treat any defects or conditions or to teach compensatory skills for deficits that directly result from a medical or behavioral health condition. The appropriate information from evaluation and diagnostics is interpreted and integrated in the individual family service plan (IFSP). If the need for special rehabilitation is identified outside of the tot to teen healthcheck process, the MAP eligible recipient's PCP must be notified of the results and be included in the treatment plan development, if the PCP so elects.

A. MAD EPSDT special rehabilitation eligible providers: An enrolled MAD agency certified by ECECD as a special rehabilitation services provider is eligible to be reimbursed for furnishing special rehabilitation services to a MAP eligible recipient. Individual providers rendering special rehabilitation services that are

employed by or contracted by a MAD special rehabilitation provider agency must meet applicable ECECD standards. A provider shall:

(1) render special rehabilitation services under the direction of a professional acting within his or her scope of practice as defined by state law;

(2) render special rehabilitation services in the most appropriate least restrictive environment;

(3) assure that claiming for special rehabilitation services does not duplicate claiming for EPSDT administrative outreach services or services funded under the state general fund ECECD contract.

B. EPSDT special rehabilitation MAP eligible recipients: An individual who has been determined through a multidisciplinary developmental evaluation to have, or be at risk for, a developmental delay and to be in need of special rehabilitative services as defined by ECECD is eligible to receive special rehabilitation services. Any individual that has been diagnosed with an intellectual or developmental disability is not eligible for FIT services.

C. EPSDT special rehabilitation treatment plan for a MAP eligible recipient: The need for special rehabilitation services must be documented in the MAP eligible recipient's treatment plan or in his or her IFSP. The treatment plan must be developed in accordance with applicable ECECD policies and procedures and federal regulations governing Part C of the Individuals with Disabilities Education Act. The treatment plan or IFSP must be developed within 45 calendar days of the initiation of services and reviewed every six months or more often as indicated. The following must be contained in the treatment plan or IFSP documents and must be available for review in the MAP eligible recipient's agency file:

(1) a statement of the MAP eligible recipient's present levels of physical development including vision, hearing, and health status;

(2) an assessment of his or her communications development;

(3) an assessment of his or her behavioral health status, to include his or her social or emotional development;

(4) an assessment of his or her cognitive development;

(5) an assessment of his or her adaptive development;

(6) his or her family history and other relevant family information;

(7) a description of his or her intermediate and long-range goals, with a projected timetable for their attainment and dates, and the duration and scope of services;

(8) the procedures and timelines to determine the progress made toward achieving the outcomes and whether modifications to or revisions of the outcomes or services are needed; and

(9) statement of the specific special rehabilitation services needed to meet the MAP eligible recipient's unique needs and also achieve the outcomes specified, including the frequency, intensity and method of delivering each service, the environment in which each service will be provided, and the location of each service.

D. EPSDT special rehabilitation covered services:

(1) MAD only covers special rehabilitation services necessary to enhance development in one or more of the following developmental domains:

(a) physical and motor;

(b) communication;

(c) adaptive;

(d) cognitive;

(e) behavioral health to include social or emotional; or

(f) sensory.

(2) Special rehabilitation services generally involve the MAP eligible recipient's family and are designed to support and enhance the MAP eligible recipient's developmental services and are provided through FIT. The following are a list of covered services:

(a) Developmental evaluation and rehabilitation services are the assessments performed to determine if motor, speech, language and psychological problems exist with the MAP eligible recipient or to detect the presence of his or her developmental lags. Services include diagnostic, evaluative and consultative services for the purposes of identifying or determining the nature and extent of, and rehabilitating a MAP eligible recipient's medical or other health-related condition. Services also include consultation with the family and other professional staff. These services are provided as a result of a referral from the MAP eligible recipient's PCP.

(b) Nursing services are performed by a MAD enrolled certified nurse practitioner (CNP), registered nurse (RN) or licensed practical nurse (LPN) within the

scope of his or her practice relevant to the medical and rehabilitative needs of the MAP eligible recipient. These services are provided as the result of a referral from the MAP eligible recipient's PCP. Services include the administration and monitoring of medication, catheterization, tube feeding, suctioning, and the screening and referral for other health needs. Nursing services also include explanations to the MAP eligible recipient's family or other professional staff concerning the treatments, therapies, and physical or social emotional health conditions.

(c) Physical therapy services are provided by or under the direction of a qualified MAD enrolled physical therapist (PT) as a result of a referral from the MAP eligible recipient's PCP. Physical therapy services are the evaluations required to determine the MAP eligible recipient's need for physical therapy and the provision of therapies that are rehabilitative, active or restorative, and designed to correct or compensate for a medical problem interfering with age appropriate functional performance. Services also include consultation with the family and other professional staff.

(d) Occupational therapy services are provided by or under the direction of a qualified MAD enrolled occupational therapist (OT) as the result of a referral from the MAP eligible recipient's PCP. Occupational therapy services include the evaluation of the MAP eligible recipient to determine if he or she is experiencing problems that interfere with his or her functional performance and the provision of therapies that are rehabilitative, active or restorative, and designed to correct or compensate for a medical problem interfering with age appropriate functional performance. Services also include consultation with the MAP eligible recipient's family and other professional staff.

(e) Behavioral health services are diagnostic or active treatments with the intent to reasonably improve the MAP eligible recipient's condition; see 8.321.2 NMAC for a detailed description of behavioral health services.

(f) Speech, language and hearing services provided by or under the direction of a MAD enrolled SLP or audiologist, as the result of a referral by the MAP eligible recipient's PCP. Speech, language and hearing services are the evaluations required to determine the MAP eligible recipient's need for these services and recommendations for a course of treatment. Treatment is provided to a MAP eligible recipient with a diagnosed speech, language or hearing disorder which adversely affects his or her functioning. Services also include consultations with the MAP eligible recipient's family and other professional staff.

E. EPSDT special rehabilitation noncovered services: Special rehabilitation services are subject to the limitations and coverage restrictions which exist for other MAD services. See Section 14 of this rule for general non-covered MAD EPSDT services or activities.

F. EPSDT special rehabilitation prior approval and utilization: All MAD EPSDT services are subject to UR for medical necessity and program compliance. Reviews

can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. Specifically, for special rehabilitation services, a maximum of 14 hours per month of services to a MAP eligible recipient can be furnished by a provider before prior approval is required from ECECD.

[8.320.2.16 NMAC - Rp, 8.320.4 NMAC, 1/1/2014; A, 1/1/2021]

8.320.2.17 EPSDT CASE MANAGEMENT SERVICES:

MAD pays for case management services furnished to a medically at risk MAP eligible recipient under 21 years of age as an EPSDT service. The need for case management services must be identified in the tot to teen healthcheck screen or through other diagnostic evaluations or assessments.

A. EPSDT case management eligible providers: A qualified MAD enrolled case management agency is eligible to be reimbursed for furnishing services to a MAP eligible recipient. An agency must demonstrate direct experience in successfully serving medically at risk individuals under the age of 21 years and demonstrate knowledge of available community services and methods for gaining access to those services.

(1) The following agencies can furnish case management services:

(a) a governmental agency;

(b) a native Indian tribal government;

(c) the IHS;

(d) a FQHC; and

(e) a community case management agency.

(2) Case manager qualifications: A case manager employed by a MAD enrolled case management agency must possess the education, skills, abilities, and experience to perform case management services. Case managers must have at least one year of experience serving medically at risk individuals under the age of 21 years. Case managers must have the necessary skills to meet the needs of a particular MAP eligible recipient. In some instances, it is important that the case manager have language skills, cultural sensitivity and acquired knowledge unique to a geographic area. In addition, a case manager must meet at least one of the following requirements:

(a) hold a bachelor’s degree in social work, counseling, psychology, sociology, education, special education, cultural anthropology or a related health or social service field from an accredited institution; a case manager with a bachelor’s degree in another field can substitute two years of direct experience in serving the medically at risk population for the required field of study; or

(b) be licensed as a RN or LPN;

(c) case management services for medically fragile MAP eligible recipients must be provided by a licensed RN; and

(d) if there are no suitable case managers with the previously described qualifications, an agency can employ a case manager with the following education and experience rendering services under the direct supervision of an experienced case manager who meets the qualifications specified above:

(i) hold an associate's degree and has a minimum of three years of experience in community health or social services; or

(ii) hold a high school diploma or a graduate equivalence diploma (GED) and has a minimum of four years of experience in community health or social services.

(3) Agency restrictions: MAD restricts the type of agency that can provide case management services to a MAP eligible recipient with developmental disabilities. See 42 U.S.C. Section 1396n(g)(1)(2). A case management provider for a MAP eligible recipient with developmental disability or severe emotional disturbance must be certified by DOH or CYFD.

(4) MAP eligible recipients: When a MAD enrolled recipient is determined to be medically at risk, he or she is eligible for case management services."Medically at risk" is defined as an individual who has a diagnosed physical or social emotional condition which has a high probability of impairing his or her cognitive, emotional, neurological, social or physical development.

B. EPSDT case management treatment plan (CMTP) or individualized service plan (ISP): The CMTP or ISP is developed by the case manager in cooperation with the MAP eligible recipient, his or her family or legal guardian, his or her PCP, as appropriate, and others involved with the MAP eligible recipient's care. The CMTP is developed within 30 calendar days of the initiation of services. The MAP eligible recipient is reassessed and the CMTP is updated annually, or more often as indicated. For a MAP eligible recipient who is medically fragile, the ISP is written and approved within 60 calendar days of the initiation of services which are to start immediately. The ISP is reviewed regularly during the monthly visits; however, the MAP eligible recipient is reassessed annually with a new ISP developed with the MAP eligible recipient, his or her family and the interdisciplinary team. A social worker may be involved in the development of the treatment plan in the case of a MAP eligible recipient who is in the custody of CYFD or another state agency.

(1) The following, as appropriate, must be contained in the CMTP and ISP or documents used in the development of each. The CMTP, the ISP, and all supporting documentation must be available for review in the MAP eligible recipient's file:

(a) statement of the nature of the specific problem and the specific needs of the MAP eligible recipient;

(b) description of the functional level of the MAP eligible recipient, including the following:

(i) social emotional or behavioral health status assessment;

(ii) intellectual function assessment;

(iii) psychological assessment;

(iv) educational assessment;

(v) vocational assessment;

(vi) social assessment;

(vii) medical assessment; and

(viii) physical assessment;

(c) statement of the least restrictive conditions necessary to achieve the purposes of treatment;

(d) description of the intermediate and long-range goals, with the projected timetable for their attainment and duration and scope of services; and

(e) statement and rationale of the CMTP or ISP for achieving these intermediate and long-range goals, including provisions of review and modification of the plan and plans for discontinuation of services, criteria for discontinuation of services and projected date service will be discontinued for the MAP eligible recipient.

(2) Assessments must be performed face-to-face with the MAP eligible recipient, his or her family or legal guardian.

(3) The agency must have a statement of the specific case management services needed to meet the MAP eligible recipient's unique needs and to achieve the outcomes specified in the CMTP or ISP, including the frequency, intensity and method of delivering each service, the environment in which each service will be provided, and the location of each service.

C. EPSDT case management covered services:

(1) MAD covers the following case management services:

(a) face-to-face assessment of the MAP eligible recipient's medical, behavioral health, social needs and functional limitations; the MAP eligible recipient is reassessed and the CMTP is updated annually, or more often as indicated;

(b) the development and implementation of plans of care designed to help the MAP eligible recipient retain or achieve the maximum degree of independence; certain EPSDT enhanced services can be furnished only if included in the CMTP or ISP, including private duty nursing;

(c) the mobilization of the use of natural helping networks such as family members, church members, community organizations, support groups and friends; and

(d) the coordination and monitoring of the delivery of services, the evaluation of the effectiveness and quality of the services, and the revision of the MAP eligible recipient's CMTP or ISP, when appropriate.

(2) When a MAP eligible recipient is in an out-of-home placement, MAD covers comprehensive coordinated support services (CCSS) detailed in 8.321.2 NMAC during the last 30 calendar days of his or her placement.

D. EPSDT case management noncovered services: Case management services are subject to the limitations and coverage restrictions which exist for other MAD services. Case management services may not be billed in conjunction with:

(1) services to an individual who is not eligible or who does not meet the MAD definition of medically at risk;

(2) services furnished by other practitioners such as: therapists, transportation providers, homemakers or personal care service providers;

(3) formal educational or vocation services related to traditional academic subjects or vocational training;

(4) client outreach activities in which a provider attempts to contact potential recipients;

(5) administrative activities, such as MAD eligibility determinations and agency intake processing;

(6) institutional discharge planning which is a required condition for payment of hospital, nursing home, treatment foster care or other residential treatment center services; discharge planning must not be billed separately as a targeted case management service;

(7) services which are not documented by the case manager in the MAP eligible recipient's agency file; or

(8) services to a recipient who receives case management services through a home and community-based services waiver program.

[8.320.2.17 NMAC - Rp, 8.320.5 NMAC, 1/1/2014]

8.320.2.18 EPSDT PERSONAL CARE SERVICES:

MAD pays for medically necessary personal care services (PCS) furnished to a MAP eligible recipient under 21 years of age as part of the EPSDT program when the services are part of his or her ISP for the treatment of correction, amelioration, or prevention of deterioration of a MAD identified medical or behavioral health condition, see 42 CFR Section 440.167. PCS provides a range of services to a MAP eligible recipient who is unable to perform some or all activities of daily living (ADLs) or instrumental activities of daily living (IADLs) because of a disability or a functional limitation. A prescribed course of regular PCS services and daily living assistance supports the MAP eligible recipient to live in his or her home rather than an institution and allows him or her to achieve the highest possible level of independence. These services include, but are not limited to, activities such as bathing, dressing, grooming, eating, toileting, shopping, transporting, caring for assistance animals, cognitive assistance, and communicating. A MAP eligible recipient may be physically capable of performing ADLs or IADLs but may have limitations in performing these activities because of a cognitive impairment. PCS services may be required because a cognitive impairment prevents a MAP eligible recipient from knowing when or how to carry out the task. In such cases, PCS services may include cuing along with supervision to ensure that the MAP eligible recipient performs the task properly.

A. EPSDT PCS eligible providers:

(1) agencies that meet the following conditions are eligible to enroll as providers and be reimbursed for providing EPSDT PCS services:

(a) a licensed nursing or home health agency that is a public agency, a private for-profit agency, or private non-profit agency; and

(b) the PCS attendant to the MAP eligible recipient must be supervised by a MAD enrolled RN;

(2) certification for participation as a medicare home health agency is not required; a MAP eligible recipient’s family member may not furnish PCS services to him or her; in this instance, a family member is defined as a legally responsible relative, such as parents of minor child or stepparent who is legally responsible for minor child; for a MAP eligible recipient 18 to 21 years of age, parents or other relatives may provide PCS services if they are not legally responsible for the MAP eligible recipient; the parent or another relative must be employed by a MAD approved PCS agency eligible to bill for PCS services and must meet all MAD required training and supervision standards.

B. EPSDT PCS attendant training:

(1) The PCS agency is responsible for ensuring that the PCS attendant has completed a training program and is competent to provide assigned tasks as a PCS attendant specific to the MAP eligible recipient's needs.

(2) The PCS attendant training program must consist of no less than 40 hours of training to be completed by the PCS attendant in the first year of employment. Ten hours of training must be completed prior to placing the employee in a MAP eligible recipient's home. Two of the 10 hours may include agency orientation. Eight of the 10 hours of training must be specific to the MAP eligible recipient.

(3) The training curriculum must include, at a minimum, the following areas:

(a) communication;

(b) MAP eligible recipient's rights;

(c) recording of information in MAP eligible recipient's records;

(d) nutrition and meal preparation;

(e) care of ill and disabled children and adolescents;

(f) emergency response (first aid, CPR, 911, etc.);

(g) basic infection control;

(h) housekeeping skills;

(i) home safety and fire protection; and

(j) electronic visit verification (EVV).

C. EPSDT PCS criteria: PCS services are defined as medically necessary tasks pertaining to a MAP eligible recipient's physical or cognitive functional ability. The goal of the provision of care is to avoid institutionalization and maintain the MAP eligible recipient's functional level. Services are covered under specific criteria.

(1) The MAP eligible recipient must have a need for assistance with at least two or more ADL's or both such as eating, bathing, dressing and toileting activities, appropriate to his or her age.

(2) PCS services must be medically necessary, prescribed by the MAP eligible recipient's PCP and included in the MAP eligible recipient's individual treatment plan (ITP).

(3) The need for PCS services is evaluated based on the availability of the MAP eligible recipient's family members or natural supports, such as other community resources or friends that can aid in providing such care.

(4) PCS services must be provided with the consent of the MAP eligible recipient's parent or guardian if the MAP eligible recipient is under the age of 18 years. If a MAP eligible recipient is emancipated or is at least 18 years old and is able to provide consent, his or her consent is required.

(5) PCS services are furnished in the MAP eligible recipient's place of residence and outside his or her home when medically necessary and when not available through other existing benefits and programs such as home health, early intervention or school programs. PCS services are services furnished to a MAP eligible recipient who is not an inpatient or a resident of a hospital, nursing facility, intermediate care facility for individuals with intellectual disabilities (ICF-IID), or an institution for mental illness.

(6) Medically necessary PCS services to support a MAP eligible recipient attend school are furnished in partnership with the MAP eligible recipient's school as an alternative to his or her participation in a homebound program. PCS services should foster the MAP eligible recipient's independence. PCS services are furnished only to a MAP eligible recipient based on MAD or its designee's UR contractor's approval. PCS services may not be furnished to a non-MAP eligible recipient in the school setting.

(7) Only a trained PCS attendant who has successfully demonstrated service competency such as bathing, dressing, eating and toileting may provide PCS services to a MAP eligible recipient. The PCS attendant must be employed by a MAD approved PCS agency and work under the direct supervision of a MAD approved RN.

(8) The supervisory RN must be employed or contracted by the PCS agency and have one year direct patient care experience. The supervisory RN is responsible for conducting and documenting visits at the MAP eligible recipient's residence for the purpose of assessing his or her progress and the PCS attendant's performance. The ITP should be updated as indicated and in cooperation with the MAP eligible recipient's case manager. These visits will be conducted and documented every 62 calendar days or more often if the MAP eligible recipient's condition warrants it.

D. EPSDT PCS covered services: MAD covers the following personal care services:

(1) basic personal care services consist of bathing, care of the teeth, hair and nails, assistance with dressing, and assistance with toileting activities;

(2) assistance with eating and other nutritional activities, when medically necessary, i.e., due to documented weight loss or another physical effect; and

(3) cognitive assistance such as prompting or cuing.

E. EPSDT PCS noncovered services: PCS services are subject to the limitations and coverage restrictions which exist for other MAD services. See Section 14 of this rule for general non-covered MAD EPSDT services or activities. Specifically, PCS services may not be billed in conjunction with the following services:

(1) any task that must be provided by a person with professional or technical training, such as but not limited to: insertion and irrigation of catheters, nebulizer treatments, irrigation of body cavities, performance of bowel stimulation, application of sterile dressings involving prescription medications and aseptic techniques, tube feedings, and administration of medications;

(2) services that are not in the MAP eligible recipient's approved ITP and for which prior approval has not been received;

(3) services not considered medically necessary by MAD or its designee for the condition of the MAP eligible recipient.

F. EPSDT PCS treatment plan: The MAP eligible recipient's ITP is approved by MAD or its designated UR contractor prior to the initiation of PCS services. The PCS ITP is developed as a result of a face-to-face assessment of the MAP eligible recipient and must include the following:

(1) statement of the nature of the specific problem and the specific needs of the MAP eligible recipient for PCS services;

(2) description of the physical or cognitive functional level of the recipient as evidenced by the PCP's clinical evaluation, including social emotional or behavioral health status, intellectual functioning and the documented medical necessity for PCS services;

(3) description of intermediate and long-range service goals that includes the scope and duration of service, how goals will be attained and the projected timetable for their attainment;

(4) specification of the PCS attendant's responsibilities, including tasks to be performed by the attendant and any special instructions for the health and safety of the MAP eligible recipient;

(5) a statement of the least restrictive conditions necessary to achieve the goals identified in the plan; and

(6) the ITP must be reviewed and revised in cooperation with the MAP eligible recipient's case manager according to his or her clinical needs at least every six months.

G. Use of the electronic visit verification (EVV) system is required for payment of PCS services including EPSDT eligible members. The managed care organizations shall collaborate to offer a single EVV vendor for PCS and monitor compliance with the federal 21st Century Cures Act. The MCO shall maintain an EVV system capable of leveraging up-to-date technology as it emerges to improve functionality in all areas of the state, including rural areas.

[8.320.2.18 NMAC - Rp, 8.323.2 NMAC, 1/1/2014; A, 2/1/2020]

8.320.2.19 EPSDT PRIVATE DUTY NURSING SERVICES:

MAD pays for private duty nursing (PDN) services as part of the EPSDT program, see 42 CFR Section 441.57. Services must be accessed through the tot to teen healthcheck screen. A MAP eligible recipient is under 21 years, who has been referred for PDN services shift care (not intermittent care), must meet the established medically fragile criteria and parameters that have been approved by MAD.

A. EPSDT PDN eligible providers**:** A nurse working for a MAD approved PDN agency must have a RN or LPN on staff that meets MAD requirements. Services must be furnished under the direction of the MAP eligible recipient's PCP. Certification for participation as a medicare home health agency is not required. The following agencies are eligible to be reimbursed for providing EPSDT PDN services:

(1) a licensed nursing agency; or

(2) a FQHC.

B. EPSDT PDN coverage criteria: PDN services must be furnished by a RN or a LPN in the MAP eligible recipient's home or in his or her school setting if it is medically necessary for school attendance. The goal of the provision of care is to avoid institutionalization and maintain the MAP eligible recipient's function level in a home setting.

(1) EPSDT PDN services are for a MAP eligible recipient under 21 years of age who requires more individual and continuous care than can be received through the MAD home health program.

(2) EPSDT PDN services must be ordered by the MAP eligible recipient's PCP and must be included in his or her approved treatment plan. Services furnished must be medically necessary and be within the scope of the nursing profession. A MAP eligible recipient must have an approved ISP before nursing services can begin. Prior authorization for these services is required.

C. EPSDT PDN treatment plan: The need for skilled nursing services must be included in the MAP eligible recipient's ITP or ISP. The ISP meeting must have been

held and the ISP written by the RN or case manager must be approved before nursing services can start. The plan must contain the following:

(1) statement of the nature of the specific problem and the specific needs of the MAP eligible recipient;

(2) description of the functional level of the MAP eligible recipient as documented by the PCP's clinical evaluation, including social, emotional or behavioral health status, intellectual functioning and medical necessity which identify and document the need for a PDN;

(3) specific clinical problems relating to:

(a) physical assessment needs including the identification of durable medical equipment or medical supplies needed by the MAP eligible recipient;

(b) psychosocial evaluation including level of support from family in reaching projected clinical goals; and

(c) medication history including status of compliance of the MAP eligible recipient;

(4) applicable clinical interventions related to the identified clinical problem including measurable goals;

(5) statement of the least restrictive conditions necessary to achieve the goals identified in the plan;

(6) description of intermediate and long-range goals with the projected timetable for their attainment and duration and scope of services, and strengths and priorities of the family and MAP eligible recipient;

(7) statement and rationale of the nursing care plan for achieving these intermediate and long-range goals including provisions for the review and modification of the plan;

(8) specification of nursing responsibilities, description of the proposed nursing care, orders for medication, treatments, restorative and rehabilitative services, activities, therapies, social services, diet and special procedures recommended for the health and safety of the MAP eligible recipient; and

(9) a transition plan that identifies what the plan will be after discharge from PDN services.

D. EPSDT PDN covered services: MAD covers the following PDN services:

(1) skilled nursing services furnished to the MAP eligible recipient's at his or her home; and

(2) skilled nursing services which are medically necessary for attending school and furnished to the MAP eligible recipient in the school setting. These services are an alternative to his or her participation in a homebound program. Nursing services are furnished only to a MAP eligible recipient and not to others in the school setting.

E. EPSDT PDN noncovered services: PDN services are subject to the limitations and coverage restrictions which exist for other MAD services. See Section 14 of this rule for general non-covered MAD EPSDT services or activities.

[8.320.2.19 NMAC - Rp, 8.323.4 NMAC, 1/1/2014]

8.320.2.20 EPSDT REHABILITATION SERVICES:

MAD pays for medically necessary services, including outpatient services furnished to a MAP eligible recipient under 21 years of age by or under the supervision of licensed PT; OT; and master's level SLP. A MAP eligible recipient under 21 years of age who is eligible for a home and community based waiver program receives medically necessary rehabilitation services through the EPSDT rehabilitation services, the home and community based waiver program provides rehabilitation services only for the purpose of community integration.

A. EPSDT rehabilitation eligible providers: A PT, OT and master's level SLP is eligible to be reimbursed for furnishing services to a MAP eligible recipient under 21 years of age in need of EPSDT rehabilitation services. The following providers are eligible to be reimbursed for furnishing outpatient rehabilitation services to a MAP eligible recipient:

(1) a master's level SLP licensed by the regulation and licensing department (RLD) board of speech-language pathology and audiology;

(2) a PT licensed as physical therapists by the RLD physical therapy board;

(3) an OT licensed as occupational therapists by the RLD board of examiners for occupational therapy;

(4) certified outpatient rehabilitation centers with a primary emphasis on physical therapy, occupational therapy or speech therapy, licensed by DOH;

(5) home health agencies licensed and certified by DOH; and

(6) general hospitals eligible to provide outpatient rehabilitation services licensed and certified by the DOH;

(7) a PT assistant licensed by the RLD physical therapy board and working under the supervision of a licensed PT;

(8) an OT assistant licensed by the RLD occupational therapy board and working under the supervision of a licensed OT;

(9) a SLP licensed by the RLD board of speech-language pathology and audiology; and

(10) SLP apprentices and clinical fellows licensed by the RLD board of speech-language pathology and working under the supervision of a licensed SLP.

B. EPSDT rehabilitation covered services: MAD covers speech therapy, physical therapy and occupational therapy services provided to a MAP eligible recipient under 21 years of age. MAD covers evaluations, individual therapy and group therapy in an outpatient setting. Services must be medically necessary and provided for the purpose of diagnostic study or treatment. Even though a MAP eligible recipient is receiving therapy services or can access therapy services at his or her school, he or she may require additional medically necessary services in addition to those provided at a school. Services must be designed to improve, restore or maintain the MAP eligible recipient's condition including controlling symptoms and maintaining the functional level to avoid further deterioration as indicated his or her ITP. The provider, following the MAP eligible recipient's PCP orders, will develop the treatment plan.

(1) Physical, occupational, and speech therapy services must be specifically related to the active written treatment plan developed by qualified a PT, OT, SLP therapist with authorization from the MAP eligible recipient's PCP.

(2) Services must be performed within the scope and practice of the RLD practice board and as defined by state statute and rule.

(3) All services provided by or under the supervision of a SLP, OT, PT must be prescribed or ordered by the MAP eligible recipient's PCP. The PCP must be a physician or doctor of osteopathy, certified nurse practitioner, or physician assistant licensed to practice in New Mexico.

C. EPSDT rehabilitation noncovered services:

(1) Services furnished by or under the supervision of a SLP, OT, PT are subject to the limitations and coverage restrictions that exist for other MAD services.

(2) MAD does not cover these specific services related to activities for the general good and welfare of a MAP eligible recipient, such as general exercises to promote overall fitness and flexibility and activities to provide general motivation, are not considered physical or occupational therapy for MAD reimbursement purposes.

D. Prior Authorization: All therapy services with the exception of the initial evaluation require prior authorization from MAD or its designee.

8.320.6.9 SCHOOL-BASED SERVICES FOR RECIPIENTS UNDER TWENTY-ONE YEARS OF AGE:

MAD pays for medically necessary services for a MAP eligible recipient under twenty-one years of age when the services are part of the MAP eligible recipient's (eligible recipient's) individualized education program (IEP) or an individualized family service plan (IFSP), a section 504 accommodation plan pursuant to 34 CFR 104 Subpart D (504 plan), an individual health care plan (IHCP), or are otherwise medically necessary as appropriate for each covered service for treatment (correction, amelioration, or prevention of deterioration) of an identified medical condition.

[8.320.6.9 NMAC - Rp, 8.320.6.9 NMAC, 7/1/2015; A, 7/1/2022]

8.320.6.10 GENERAL PROVIDER INSTRUCTIONS:

Health care to New Mexico MAP eligible recipients is furnished by a variety of providers and provider groups. The reimbursement for these services is administered by MAD.

Upon approval of a provider participation agreement (PPA) by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing MAD covered services to MAP eligible recipients. A provider must be approved before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HSD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD/MAD or its authorized agents, including program rules, billing instructions, utilization review (UR) instructions, and other pertinent materials. When approved, a provider receives instruction on how to access these documents, it is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HSD or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD PPA and all applicable statutes, regulations, rules, and executive orders. MAD or its selected claims processing contractor issues payment to a provider using the electronic funds transfer (EFT) only. Providers must supply necessary information in order for payment to be made. Services must be provided within the scope of the practice and licensure for each agency, each rendering provider within that agency and each individual provider. Services must be in compliance with the statutes, rules and regulations of his or her practitioner's applicable practice board and act. Providers must be eligible for reimbursement as described in 8.310.3 NMAC.

[8.320.6.10 NMAC - Rp, 8.320.6.10 NMAC, 7/1/2015]

8.320.6.11 ELIGIBLE PROVIDERS:

A. Upon approval of a New Mexico MAD PPA by MAD or its designee, local education agencies (LEAs), regional educational cooperatives (RECs), and other state-funded educational agencies (SFEAs) that meet specified requirements are eligible to be reimbursed for furnishing services to an eligible recipient. The LEA, REC, or other SFEA must enter into a governmental services agreement (GSA) with HSD and abide by the terms and conditions of it.

B. The following individual service providers must be employed by, or under contract to, the LEA, REC, or other SFEA when furnishing treatment and meet other specified qualification criteria:

(1) physical therapists (PT);

(2) physical therapy assistants working under the supervision of a MAD enrolled PT;

(3) occupational therapists (OT);

(4) occupational therapy assistants working under the supervision of a MAD enrolled licensed occupational therapist;

(5) speech and language pathologists (SLP) and clinical fellows;

(6) apprentices in speech-language (ASL) working under the supervision of a MAD enrolled licensed speech therapist; supervision for those providers listed in Paragraphs (1)-(6) above must adhere to the requirements of the practitioner's applicable licensing board;

(7) audiologists;

(8) licensed nutritionists or registered dieticians;

(9) case managers meeting one of the following requirements:

(a) bachelor's degree in social work, counseling, psychology, nursing or a related health or social services field from an accredited institution;

(b) one year experience serving medically-at-risk children or adolescents; or

(c) a licensed registered (RN).

(10) psychologists meeting one of the following requirements:

(a) psychologists (Ph.D., Psy.D., or Ed.D.); or

(b) master's level practitioners licensed by the New Mexico psychologist examiners board as psychologist associates or licensed by PED as school psychologists and working under the supervision of a MAD enrolled licensed psychiatrist or a licensed psychologist (Ph.D., Psy.D., or Ed.D.) or a PED level 3 independent school psychologist, as applicable;

(c) supervision of psychologist associates and school psychologists must adhere to the requirements of the practitioner's applicable licensing board.

(11) social work practitioners meeting one of the following requirements:

(a) licensed independent social worker (LISW); or

(b) licensed master social worker (LMSW) or licensed baccalaureate social worker (LBSW) and working under the supervision of a MAD enrolled licensed independent social worker (LISW) or licensed psychologist (Ph.D., Psy.D., Ed.D.) or other supervisor approved by the New Mexico board of social work examiners;

(i) services provided by licensed master social workers (LMSW) and licensed baccalaureate social workers (LBSW) must be within the scope of their practice respectively and supervised and periodically evaluated;

(ii) an eligible recipient receiving services from an LMSW or LBSW must be diagnosed by the practitioner's supervisor; the diagnosis must be documented in the MAP eligible recipient's record with the signature of the supervisor.

(12) licensed counselors or therapists meeting one of the following requirements:

(a) licensed professional clinical mental health counselor (LPCC); or

(b) licensed marriage and family therapist (LMFT); or

(c) licensed mental health counselor (LMHC) or licensed professional mental health counselor (LPC) and working under the supervision of a MAD enrolled licensed psychiatrist, a licensed psychologist (Ph.D., Psy.D., or Ed.D.), licensed professional clinical mental health counselor (LPCC), licensed marriage and family therapist (LMFT), or licensed independent social worker (LISW);

(i) supervision of licensed mental health counselors (LMHC) and licensed professional mental health counselors (LPC) must adhere to the requirements of the practitioner's applicable licensing board;

(ii) an eligible recipient receiving services from a LMHC or LPC must be diagnosed by the practitioner's supervisor; the diagnosis must be documented in the eligible recipient's record with the signature of the supervisor.

(d) licensed associate marriage and family therapist (LAMFT); supervision of LAMFTs must adhere to the requirements of the practitioner's applicable licensing board;

(13) licensed psychiatric clinical nurse specialist (CNS);

(14) physicians and psychiatrists licensed by the board of medical examiners; or

(15) registered nurse (RN), licensed practical nurse (LPN) or unlicensed school personnel providing delegated nursing services in accordance with the New Mexico board of nursing under the supervision of a RN. Delegated nursing services must be delivered in accordance with Subsection B of 16.12.2.12 NMAC.

C. For a LEA, REC, or other SFEA that employs a RN or a licensed practical nurse (LPN) not as a case worker, each is under the oversight of the department of health's

(DOH) district health officer, as provided by state statue (Section 24-1-4 NMSA 1978). A LPN must work under the supervision of a RN who is a PED licensed school nurse.

D. As applicable, each provider must be licensed by the public education department (PED) when such licensure exists.

E. As applicable, each provider must be licensed by its specific regulation and licensing division (RLD)'s board of practice or by PED.

[8.320.6.11 NMAC - Rp, 8.320.6.11 NMAC, 7/1/2015; A, 2/1/2020; A, 7/1/2022]

8.320.6.12 PROVIDER RESPONSIBILITIES:

A. General responsibilities:

(1) A provider who furnishes services to an eligible recipient must comply with all terms and conditions of his or her MAD PPA and the MAD New Mexico administrative code (NMAC) rules.

(2) A provider must verify that an individual is an eligible recipient at the time services are billed.

(3) A provider must appoint a program liaison and backup alternate for each LEA, REC or other SFEA, who will be responsible for receiving and disbursing all communication, information and guidelines from HSD regarding the MAD school-based services program, including information on, but not limited to, direct services and administrative claiming.

B. Documentation requirements:

(1) A provider must maintain all records necessary to fully disclose the nature, quality, amount and medical necessity of services billed to a MAP eligible recipient who is currently receiving MAD services or has received MAD school-based services in the past that are or were part of the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan. Payment for services billed to MAD that are not substantiated in the eligible recipient's records are subject to recoupment. Documentation must be retained for at least six years from the date of payment or until ongoing audit issues are resolved, whichever is longer; see 8.302.2 NMAC.

(2) For services covered under this rule, complete copies of the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan with the individualized treatment plan (ITP) portions of the IEP, IFSP, 504 plan, IHCP or other care plan must be maintained as part of the required records. Those records must clearly indicate that the MAD school-based service is a part of the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan.

(3) Documents in the MAP eligible recipient's file must include:

(a) the IEP, IFSP, 504 plan, IHCP or other care plan with the ITP;

(b) evaluation performed by the provider or the annual and current present level of performance or other determination of medical necessity;

(c) annual PCP notification or documentation of a good faith effort for services provided through an IEP/IFSP;

(d) treatment notes that relate directly to the IEP, [or] IFSP, 504 plan, IHCP or other care plan goals and objectives specific to each MAP eligible recipient; and

(e) billing information recorded in units of time; see 8.302.2 NMAC.

C. Record availability: The provider must upon request promptly furnish to HSD, the secretary of the federal department of health and human services, or the state medicaid fraud control unit any information required in this rule, including the eligible recipient and employee records, and any information regarding payments claimed by the provider furnishing services. Failure to provide records on request may result in a denial of claims.

[8.320.6.12 NMAC - Rp, 8.320.6.12 NMAC, 7/1/2015; A, 7/1/2022]

8.320.6.13 COVERED SERVICES:

MAD covers the following services when medically necessary and rendered as part of an eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan by specified providers in school settings.

A. For services in Subsections A - E of 8.320.6.13 NMAC, a provider must first develop and then update the eligible recipient's present level of performance for each of his or her IEP or IFSP cycles. 504 plans, IHCPs or other care plans should be reviewed annually to establish ongoing medical necessity for services. MAD requires the following elements be included in the provider's treatment notes:

(1) the specific activity provided to the MAP eligible recipient for each date of service billed;

(2) a description of the level of engagement and the ability of the eligible recipient for each date of service billed; and

(3) the outcomes of session on the impact on the eligible recipient's exceptionality for each date of service billed.

B. To be reimbursed for a MAD school-based service, all of the requirements in this subsection must be met.

(1) Services must be medically necessary and must meet the needs specified in his or her IEP, IFSP, 504 plan, IHCP or other care plan. The services must be necessary for the treatment of the eligible recipient's specific identified condition.

(2) The ITP portion of the IEP, IFSP, 504 plan, IHCP or other care plan must be developed in conjunction with the appropriate qualified PT, OT, SLP, audiologist, RN, or behavioral health provider listed in 8.320.6.11 NMAC.

(3) The LEA, REC or other SFEA must complete a MAD specified good faith effort to notify the eligible recipient's PCP of the services to be provided under an IEP or IFSP.

(4) Frequency and duration of services billed may not exceed those specified in the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan.

(5) Reimbursement is made directly to the LEA, REC, or other SFEA when therapy, licensed nutritionists or registered dieticians, transportation, case manager, or nurse providers furnish services under contract to the LEA, REC, or other SFEA.

C. Therapy services: MAD covers physical, occupational, audiological and speech evaluations, and therapy required for treatment of an identified medical condition that is part of an eligible recipient's ITP.

D. Nutritional assessment and counseling: MAD covers nutritional assessment and counseling when rendered by a licensed nutritionist or dietician for an eligible recipient who has been referred for a nutritional need when part of his or her ITP. A nutritional assessment consists of an evaluation of the nutritional needs of the eligible recipient based upon appropriate biochemical, anthropometric, physical, and dietary data, including a recommendation for appropriate nutritional intake.

E. Transportation services: MAD covers transportation services for an eligible recipient who must travel from his or her school to receive a covered service from a MAD provider when the service is unavailable in the school setting and when the service is medically necessary and are part of the eligible recipient's IEP or IFSP; see 8.324.7 NMAC. MAD covers transportation to and from the school on the date a medically necessary MAD school-based service is rendered in the school setting for an eligible recipient who has a disability.

(1) MAD school-based services are billed on the specific day on which transportation is rendered and are part of the ITP portion of his or her IEP or IFSP.

(2) The eligible recipient requires transportation in a vehicle adapted to serve his or her needs that are part of the ITP portion of his or her IEP or IFSP.

(3) Transportation occurs in a modified school bus for disabled students.

F. Case management: MAD covers school-based case management services rendered in school settings to an eligible recipient who is medically at risk when these services are part of the eligible recipient's ITP. Medically at risk refers to an eligible recipient who has a diagnosed physical condition which has high probability of impairing cognitive, emotional, neurological, social, or physical development.

(1) The service is developed in conjunction with a qualified case manager.

(2) MAD covers the following school-based case management services.

(a) The assessment of the eligible recipient's medical, social and functional abilities at least every six months, unless more frequent reassessment is indicated by the eligible recipient's condition.

(b) The development and implementation of a comprehensive case management plan of care that helps the eligible recipient retain or achieve the maximum degree of independence.

(c) The mobilization of the use of natural helping networks, such as family members, church members, community organizations, support groups, friends, and the school, if the eligible recipient is able to attend.

(d) Coordination and monitoring of the delivery of services, evaluation of the effectiveness and quality of the services, and revision of the case management plan of care as necessary.

(e) All services must be delivered to be eligible for MAD reimbursement.

(3) An eligible recipient has the freedom to choose a case management service provider. MAD will pay for only *one* case management provider to furnish services to an eligible recipient at any given time period. If an eligible recipient has a case manager or chooses to use a case manager who is not employed or under contract to the LEA, REC or other SFEA, the LEA, REC or other SFEA must coordinate with the case manager in the development of the eligible recipient's ITP.

G. Nursing: MAD covers certain nursing services required for treatment of a diagnosed medical condition that qualifies an eligible recipient for an IEP, IFSP or IHCP when provided by a licensed RN or LPN. Nursing services require professional nursing expertise and are provided by a licensed RN or a LPN and must be provided in accordance with the New Mexico Nursing Practice Act and must be a covered MAD service. Delegated nursing services which are tasks in accordance with the New Mexico board of nursing that may be delegated by the RN to unlicensed school personnel. Delegated staff may include, but is not limited to, school or contracted staff,

such as health assistants, teachers, teacher assistants, therapists, school administrators, administrative staff, cafeteria staff, or personal care aides.

(1) The IHCP should be written by the RN in accordance with the NM DOH school health manual.

(2) Delegated nursing services must be delivered in accordance with Subsection B of 16.12.2.12 NMAC.

H. Behavioral health services: MAD covers counseling, evaluation and therapy required for treatment of an identified behavioral health condition that is part of an eligible recipient's ITP.

I. Telemedicine services: MAD covers school-based services provided via telemedicine; see 8.310.2 NMAC.

J. Administrative activities: MAD covers the cost of certain administrative activities that directly support efforts to provide health-related services to a MAP eligible recipient with special education or health care needs. These administrative activities include, but are not limited to, providing information about MAD services and how to access them; facilitating the eligibility determination process; assisting in obtaining transportation and translation services when necessary to receive health care services; making referrals for MAD reimbursable services; and coordinating and monitoring MAD covered medical services.

(1) Payment for an allowable administrative activity is contingent upon the following:

(a) the LEA, REC or other SFEA must complete a MAD PPA to become an approved school-based health services provider;

(b) the LEA, REC or other SFEA must enter into a GSA with HSD and agree to abide by the terms and conditions of the GSA;

(c) the LEA, REC or other SFEA must submit claims for allowable administrative activities in accordance with federal and state regulations, rules and guidelines.

(2) A provider or contractor coordination with the school or contractor or in consultation with principals, school counselors, or teachers are not billable as a service by the provider. The provider must consult with the school to determine if the school will include such activities in its contract with the provider or contractor. The school may not bill MAD separately for these services but can include the costs as administrative costs.

(3) Administrative claiming is subject to compliance reviews and audits conducted by HSD, the state medicaid fraud control unit and the Centers for Medicare

and Medicaid Services (CMS). By signing the MAD PPA, the LEA, REC or other SFEA agrees to cooperate fully with HSD, the state medicaid fraud control unit and CMS in the performance of all reviews and audits and further agrees to comply with all review and audit requirements.

[8.320.6.13 NMAC - Rp, 8.320.6.13 NMAC, 7/1/2015; A, 2/1/2020; A, 7/1/2022]

8.320.6.14 INDIVIDUALIZED TREATMENT PLAN:

A. The ITP must specify:

(1) the eligible recipient's objectives and goals; and

(2) the duration, the frequency of the service for the eligible recipient.

B. The plan is developed by the LEA, REC or other SFEA in conjunction with the eligible recipient, his or her family, and applicable service providers.

C. The ITP is a plan of care agreed upon by the eligible recipient, his or her parents or legal guardians, the evaluating therapists, the IEP or IFSP committee, and the eligible recipient's teacher, all of whom are included in the IEP or IFSP. The ITP utilizes the eligible recipient's health history, medical and educational evaluations and recommendations by the PCP and other medical providers, as applicable. If medical needs are identified in the IEP or IFSP, the medical portion of the IEP or IFSP is the eligible recipient's ITP. The ITP must be incorporated into the IEP or IFSP.

D. For purposes of non-IEP/IFSP school-based services, the ITP may also be listed in a section 504 accommodation plan pursuant to 34 CFR 104 Subpart D, an individual health care plan, or other plan of care services that are otherwise determined to be medically necessary as appropriate for each covered service.

[8.320.6.14 NMAC - Rp, 8.320.6.14 NMAC, 7/1/2015; A, 7/1/2022]

8.320.6.15 NON-COVERED SERVICES:

MAD school-based services billed in school settings are subject to the limitations and coverage restrictions that exist for other MAD services; see 8.301.3 NMAC. MAD does not cover the following services.

A. Services classified as educational.

B. Services to non-MAP eligible individuals.

C. Services billed by a practitioner outside his or her area of expertise.

D. Vocational training that is related solely to specific employment opportunities, work skills or work settings.

E. Services that duplicate services billed outside the school setting unless determined to be medically necessary and MAD or its designee gave prior authorization for the service.

F. Services not identified in the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan.

G. Transportation services listed below:

(1) transportation that a MAP eligible recipient would otherwise receive in the course of attending school;

(2) transportation for the eligible recipient with special education needs under the Individuals with Disabilities Education Act (IDEA) who rides the regular school bus to and from school with non-disabled children; and

(3) transportation of a minor aged child, such as a sibling of the eligible recipient who is simply accompanying the eligible recipient to a MAD service.

[8.320.6.15 NMAC - Rp, 8.320.6.16 NMAC, 7/1/2015; A, 7/1/2022]

8.320.6.16 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

Certain procedures or services identified in the UR instructions may require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to UR at any point in the payment process. All services are subject to UR for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. When services are billed to and paid by a coordinated services contractor authorized by HSD, the provider must follow that contractor's instructions for authorization of services. A specific service may have additional prior authorization requirements listed in the service's prior authorization section. The prior authorization of a service does not guarantee that an individual is eligible for a MAD service. A provider must verify that an individual is eligible for a specific MAD service at the time the service is furnished and must determine if the eligible recipient has other health insurance. A provider who disagrees with the denial of a prior authorization request or other review decision can request a reconsideration.

[8.320.6.16 NMAC - Rp, 8.320.6.17 NMAC, 7/1/2015]

8.320.6.17 REIMBURSEMENT:

Reimbursement to the LEA, REC, or SFEA is not contingent upon billing a third party payer first when the eligible recipient has other insurance. MAD is generally the payer of last resort. However, if medical services are included in the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan, and an exception is created under 42 USE 1396b(c), 20 USC 1412(a)(12) and 34 CFR 300.142., and the services are otherwise covered by MAD, then MAD is authorized to pay for such services. The LEA, REC, or other SFEA must submit claims for reimbursement on the 837P electronic format or its successor unless it received written permission from MAD to bill on paper.

A. Interim payment to the LEA, REC or other SFEA for covered services are made at the MAD fee schedule for the specific service.

B. The LEA, REC or other SFEA will complete an annual cost report utilized to reconcile interim payments with actual costs in accordance with CMS approved methodology. The LEA, REC or other SFEA must participate in the CMS approved quarterly random moment time study (RMTS).

C. A MAD school-based service that is in the eligible recipient's IEP, IFSP, 504 plan, IHCP or other care plan must only be billed by the school. When the school utilizes a contractor to render the service, the school must submit the claim, not the contractor. It is the responsibility of the school to reimburse the contractor.

[8.320.6.17 NMAC - Rp, 8.320.6.18 NMAC, 7/1/2015; A, 7/1/2022]

CHAPTER 321: SPECIALIZED BEHAVIORAL HEALTH SERVICES

PART 1: GENERAL PROVISIONS [RESERVED]

PART 2: SPECIALIZED BEHAVIORAL HEALTH PROVIDER ENROLLMENT AND REIMBURSEMENT

8.321.2.1 ISSUING AGENCY:

New Mexico Health Care Authority (HCA).

[8.321.2.1 NMAC - Rp, 8.321.2.1 NMAC, 12/10/2024]

8.321.2.2 SCOPE:

The rule applies to the general public.

[8.321.2.2 NMAC - Rp, 8.321.2.2 NMAC, 12/10/2024]

8.321.2.3 STATUTORY AUTHORITY:

The New Mexico Medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See Section 27-2-12 et seq., NMSA 1978.

[8.321.2.3 NMAC - Rp, 8.321.2.3 NMAC, 12/10/2024]

8.321.2.4 DURATION:

Permanent.

[8.321.2.4 NMAC - Rp, 8.321.2.4 NMAC, 12/10/2024]

8.321.2.5 EFFECTIVE DATE:

December 10, 2024, unless a later date is cited at the end of a section.

[8.321.2.5 NMAC - Rp, 8.321.2.5 NMAC, 12/10/2024]

8.321.2.6 OBJECTIVE:

The objective of these rules is to provide instruction for the service portion of the New Mexico medical assistance programs (MAP).

[8.321.2.6 NMAC - Rp, 8.321.2.6 NMAC, 12/10/2024]

8.321.2.7 DEFINITIONS:

[**RESERVED**]

8.321.2.8 MISSION STATEMENT:

We ensure New Mexicans attain their highest level of health by providing whole-person, cost-effective, accessible, and high-quality health care and safety-net services.

[8.321.2.8 NMAC - Rp, 8.321.2.8 NMAC, 12/10/2024]

8.321.2.9 GENERAL PROVIDER INSTRUCTION:

A. Health care to New Mexico (NM) eligible recipients is furnished by a variety of providers and provider groups. The reimbursement for these services is administered by the HCA medical assistance division (MAD). Upon approval of a NM MAD provider participation agreement (PPA) a licensed practitioner, a facility or other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing MAD covered services to an eligible recipient. A provider must be approved before submitting a claim for payment to the MAD claims processing contractors. Information

necessary to participate in health care programs administered by HCA or its authorized agents, including NM administrative code (NMAC) program rules, program policy manuals, billing instructions, supplements, utilization review (UR) instructions, and other pertinent materials is available on the HCA website, on other program specific websites or in hard copy format. When approved, a provider receives instructions on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HCA or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, providers and practitioners must adhere to the provisions of their MAD PPA and all applicable statutes, regulations, rules, and executive orders. MAD or its selected claims processing contractor issues payment to a provider using the electronic funds transfer (EFT) only. Providers must supply necessary information as outlined in the PPA for payment to be made.

B. Services must be provided within the licensure for each facility and scope of practice for each provider and supervising or rendering practitioner. Services must be in compliance with the statutes, rules and regulations of the applicable practice act. Providers must be eligible for reimbursement as described in 8.310.2 NMAC and 8.310.3 NMAC.

C. The following independent providers with active licenses are eligible to be reimbursed directly for providing MAD covered behavioral health professional services unless otherwise restricted or limited by NMAC rules:

(1) a physician licensed by the board of medical examiners or board of osteopathy who is board eligible, or board certified in psychiatry, to include the groups they form;

(2) a psychologist (Ph.D., Psy.D. or Ed.D.) licensed as a clinical psychologist by the NM regulation and licensing department's (RLD) board of psychologist examiners, to include the groups they form;

(3) a licensed independent social worker (LISW) or a licensed clinical social worker (LCSW) licensed by RLD's board of social work examiners, to include the groups they form;

(4) a licensed professional clinical counselor (LPCC) licensed by RLD's counseling and therapy practice board, to include the groups they form;

(5) a licensed marriage and family therapist (LMFT) licensed by RLD's counseling and therapy practice board, to include the groups they form;

(6) a licensed alcohol and drug abuse counselor (LADAC) licensed by RLD's counseling and therapy practice board or a certified alcohol and drug abuse counselor (CADC) certified by the NM credentialing board for behavioral health professionals

(CBBHP). Independent practice is for alcohol and substance use diagnoses only. The LADAC or CADC may provide therapeutic services that may include treatment of clients with co-occurring disorders or dual diagnoses in an integrated behavioral health setting in which an interdisciplinary team has developed an interdisciplinary treatment plan that is co-authorized by an independently licensed counselor or therapist. The treatment of a mental health disorder must be supervised by an independently licensed counselor or therapist; or

(7) a clinical nurse specialist (CNS) or a certified nurse practitioner (CNP) licensed by the NM board of nursing and certified in psychiatric nursing by a national nursing organization, to include the groups they form, who can furnish services to adults or children as their certification permits; or

(8) a licensed professional art therapist (LPAT) licensed by RLD's counseling and therapy practice board, and certified for independent practice by the art therapy credentials board (ATCB);

(9) an occupational therapist licensed by the RLD board of examiners for occupational therapy; who is facilitating occupational performance and managing an individual's mental health functioning and performance in accordance with the NM occupational therapy act; or

(10) an out-of-state provider rendering a service from out-of-state must meet their state's licensing and certification requirements which are acceptable when deemed by MAD to be substantially equivalent to the license.

D. The following agencies are eligible to be reimbursed for providing behavioral health professional services when all conditions for providing services are met:

(1) a community mental health center (CMHC);

(2) a federally qualified health center (FQHC);

(3) an Indian health service (IHS) hospital, clinic or FQHC;

(4) a PL 93-638 tribally operated hospital, clinic or FQHC;

(5) to the extent not covered by Paragraphs (3) and (4) of Subsection D of 8.321.2.9 NMAC above, an "Indian health care provider (IHCP)" defined in 42 code of federal regulations §438.14(a);

(6) a children, youth and families department (CYFD) facility;

(7) a hospital and its outpatient facility;

(8) a core service agency (CSA);

(9) a CareLink NM health home (CLNM HH);

(10) a crisis triage center licensed by the department of health (DOH);

(11) a behavioral health agency (BHA);

(12) an opioid treatment program in a methadone clinic;

(13) a political subdivision of the state of NM;

(14) a crisis services community provider as a BHA; and

(15) a school based health center.

E. A behavioral health service rendered by a licensed practitioner listed in Paragraph (2) of Subsection E of 8.321.2.9 NMAC whose scope of licensure does not allow them to practice independently or a non-licensed practitioner listed in Paragraph (3) of Subsection E of 8.321.2.9 NMAC is covered to the same extent as if rendered by a practitioner licensed for independent practice, when the supervisory requirements are met consistent with the practitioner's licensing board within their scope of practice and the service is provided through and billed by one of the provider agencies listed in numbers Paragraphs (1) through (15) of Subsection D of 8.321.2.9 NMAC. All services must be delivered according to the medicaid regulation and current version of the BH policy and billing manual. If the service is an evaluation, assessment, or therapy service rendere d by the practitioner and supervised by an independently licensed practitioner, the independently licensed practitioner's practice board must specifically allow them to supervise the non-independent practitioner.

(1) Specialized behavioral health services, other than evaluation, assessment, or therapy services, may have specific rendering practitioner requirements which are detailed in each behavioral health services section of 8.321.2.9 NMAC.

(2) The non-independently licensed rendering practitioner with an active license must be one of the following:

(a) a licensed master of social work (LMSW) licensed by RLD's board of social work examiners;

(b) a licensed mental health counselor (LMHC) licensed by RLD's counseling and therapy practice board;

(c) a licensed professional mental health counselor (LPC) licensed by RLD's examiner board;

(d) a licensed associate marriage and family therapist (LAMFT) licensed by RLD's examiner board;

(e) a psychologist associate licensed by the RLD's psychologist examiners board;

(f) a licensed substance abuse associate (LSAA) licensed by RLD's counseling and therapy practice board will be eligible for reimbursement aligned with each tier level of designated scope of practice determined by the board;

(g) a registered nurse (RN) licensed by the NM board of nursing under the supervision of a certified nurse practitioner, clinical nurse specialist or physician; or

(h) a licensed physician assistant certified by the state of NM if supervised by a behavioral health physician or DO licensed by RLD's examiner board.

(3) Non-licensed practitioners working under RLD board approved supervisor, must be one of the following:

(a) a master's level behavioral health intern;

(b) a psychology intern including psychology practicum students, pre-doctoral internship;

(c) a pre-licensure psychology post doctorate student;

(d) a certified peer support worker;

(e) a certified family peer support worker;

(f) a certified youth peer support specialist;

(g) a community support worker (CSW);

(h) a community health worker (CHW);

(i) a tribal community health representative (TCHR); or

(j) a provisional or temporarily licensed master's level behavioral health professional.

(4) The rendering practitioner must be enrolled as a MAD provider.

F. An eligible recipient under 21 years of age may be identified through a tot to teen health check, self-referral, referral from an agency (such as a public school, childcare provider, or other practitioner) when they are experiencing behavioral health concerns.

G. Either as a separate service or a component of a treatment plan or a bundled service, the following services are not MAD covered benefits:

(1) hypnotherapy;

(2) biofeedback;

(3) conditions that do not meet the standard of medical necessity as defined in 8.302.1 NMAC;

(4) educational or vocational services related to traditional academic subjects or vocational training;

(5) experimental or investigational procedures, technologies or non-drug therapies and related services;

(6) activity therapy, group activities and other services which are primarily recreational or diversional in nature;

(7) electroconvulsive therapy;

(8) services provided by a behavioral health practitioner who is not in compliance with the statutes, regulations, rules or renders services outside their scope of practice;

(9) treatment of intellectual disabilities alone;

(10) services not considered medically necessary for the condition of the eligible recipient;

(11) services for which prior authorization is required but was not obtained; and

(12) milieu therapy.

H. All behavioral health services must meet the definition of medical necessity found in 8.302.1 NMAC. Performance of a MAD covered behavioral health service cannot be delegated to a provider or practitioner not licensed for independent practice except as specified within this rule, within their practice board's scope and practice and in accordance with applicable federal, state, and local statutes, laws, and rules. When a service is performed by a supervised practitioner, the supervision of the service cannot be billed separately or additionally. Other than agencies as allowed in Subsections D and E of 8.321.2.9 NMAC, a behavioral health provider cannot, themselves, as a rendering provider, bill for a service for which they were providing supervision, and the service was in part or wholly performed by a different individual. Behavioral health services are reimbursed as follows, except when otherwise described within a particular specialized service's reimbursement section.

(1) Once enrolled, a provider receives instructions on how to access documentation, billing, and claims processing information. Reimbursement is made to a provider for covered services at the lesser of the following:

(a) the MAD fee schedule for the specific service or procedure; or

(b) the provider's billed charge. The provider's billed charge must be its usual and customary charge for services ("usual and customary charge" refers to the amount that the individual provider charges the general public in the majority of cases for a specific procedure or service).

(2) Reimbursement is made for an Indian health service (IHS) agency, a PL 93-638 tribal health facility, a federally qualified health center (FQHC), any other "Indian health care provider (IHCP)" as defined in 42 Code of Federal Regulations §438.14(a), rural health clinic, or hospital-based rural health clinic by following its federal guidelines and special provisions as detailed in 8.310.4 and 8.310.12 NMAC.

I. All behavioral health services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after service is furnished but before a payment is made, or after the payment is made; see 8.310.2 NMAC. The provider must contact HCA or its authorized agents to request UR instructions. It is the provider's and practitioner's responsibility to access these instructions or ask for paper copies to be provided, to understand the information provided, to comply with the requirements, and to obtain answers to questions not covered by these materials. When services are billed to and paid by a coordinated services contractor authorized by HCA, the provider must follow that contractor's instructions for authorization of services. A specialized behavioral health service may have additional prior authorization requirements listed in that service's prior authorization subsection. All prior authorization procedures must follow federal parity law.

J. For an eligible recipient to access behavioral health services, a practitioner must complete a diagnostic evaluation, progress and treatment notes and teaming notes, if indicated. Exceptions to this whereby a treatment or set of treatments may be performed before a diagnostic evaluation has been done, utilizing a provisional diagnosis based on screening results are outlined in 8.321.2.15, 8.321.2.19 and 8.321.2.35 NMAC and in the BH policy and billing manual. For a limited set of treatments, (i.e. four or less), no treatment plan is required. All documentation must be signed, dated and placed in the eligible recipient's file. All documentation must be made available for review by HCA or its designees in the eligible recipient's file (see the BH policy and billing manual for specific instructions).

K. For recipients meeting the NM state definition of serious mental illness (SMI) for adults or severe emotional disturbances (SED) for recipients under 18 years of age or a substance use disorder (SUD) for any age, a comprehensive assessment or diagnostic

evaluation and treatment plan must be completed (see the BH policy and billing manual for specific instructions).

(1) A comprehensive assessment and treatment plan can only be billed by the agencies listed in Subsection D of 8.321.2.9 NMAC.

(2) Behavioral health treatment plans can be developed by individuals employed by the agency who have Health Insurance Portability and Accountability Act (HIPAA) training, are working within their scope of practice, and are working under the supervision of the rendering provider who must be a RLD board approved supervisor.

(3) A comprehensive assessment and treatment plan cannot be billed if care coordination is being billed through bundled service packages such as case rates, value-based purchasing agreements, high fidelity wraparound or CareLink NM (CLNM) health homes.

L. MAD covers treatment plans, and updates, created with interdisciplinary teams for out-patient recipients meeting the NM state definition for SMI, SED, or SUD in which multiple provider disciplines are engaged to address co-occurring conditions, or other social determinants of health.

(1) Coverage, purpose and frequency of interdisciplinary team meetings:

(a) provides the central learning, decision-making, and service integrating elements that weave practice functions together into a coherent effort for helping a recipient meet needs and achieve life goals; and

(b) covered team meetings resulting in treatment plan changes or updates are limited to an annual review, when recipient conditions change, or at critical decision points in the recipient's progress to recovery.

(2) The team consists of:

(a) a lead agency, which must be one of the agencies listed in Subsection D of 8.321.2.9 NMAC. This agency has a designated and qualified team lead who prepares team members, convenes and organizes meetings, facilitates the team decision-making process, and follows up on commitments made;

(b) a participating provider that is a MAD enrolled provider that is either already treating the recipient or is new to the case and has the expertise pertinent to the needs of the individual. This provider may practice within the same agency but in a differing discipline, or outside of the lead agency;

(c) other participating providers not enrolled with MAD, other subject matter experts, and relevant family and natural supports may be part of the team, but are not reimbursed through MAD; and

(d) the recipient, who is the subject of this treatment plan update, must be a participating member of every teaming meeting.

(3) Reimbursement:

(a) only the team lead and two other MAD enrolled participating providers or agencies may bill for the interdisciplinary team update. When more than three MAD enrolled providers are engaged within the session, the team decides who will bill based on the level of effort or change within their own discipline;

(b) when the team lead and only one other provider meet to update the treatment plan, the definition of teaming is not met and the treatment plan update may not be billed using the interdisciplinary teaming codes;

(c) the six elements of teaming may be performed by using a variety of media (with the person's knowledge and consent) e.g., texting members to update them on an emergent event; using email communications to ask or answer questions; sharing assessments, plans and reports; conducting conference calls via telephone; using telehealth platforms conferences; and, conducting face-to-face meetings with the person present when key decisions are made. Only conducting the final face-to-face meeting with the recipient present when key decisions are made that result in the updates to the treatment plan, is a billable event;

(d) when updates to the treatment plan, that was developed within the comprehensive assessment, are developed using the interdisciplinary teaming model described in the BH policy and billing manual, service codes specific for interdisciplinary teaming may be billed. If the teaming model is not used, only the standard codes for updating the treatment plan can be billed. An update to the treatment plan using a teaming method approach and an update to the treatment plan not using the teaming method approach, cannot both be billed;

(e) billing instructions are found in the BH policy and billing manual.

M. For recipients with behavioral health diagnoses and other co-occurring conditions, or other social determinants of health meeting medical necessity, and for whom multiple provider disciplines are engaged, MAD covers treatment plan development and one subsequent update per year for an interdisciplinary team.

(1) The team consists of:

(a) a lead MAD enrolled provider that has primary responsibility for coordinating the interdisciplinary team, convenes and organizes meetings, facilitates the team decision-making process, and follows up on commitments made;

(b) a participating MAD enrolled provider from a different discipline;

(c) other participating providers not enrolled with MAD, other subject matter experts, and relevant family and natural supports may be part of the team, but are not reimbursed through MAD; and

(d) the recipient, who is the subject of this treatment plan development and update, must be a participating member of each team meeting.

(2) Reimbursement:

(a) only the team lead and one other MAD enrolled participating provider may bill for a single session. When more than two MAD enrolled providers are engaged with the session, the team decides who will bill based on the level of effort or change within their own discipline;

(b) this treatment plan development and subsequent update to the original plan can only be billed twice within one year; and

(c) billing instructions are found in the BH policy and billing manual.

N. All specialized behavioral health services should be delivered in the least restrictive setting. Least restrictive settings will differ between services and facilities and are generally defined as a physical setting which places the least restraint on the client's freedom of movement and opportunity for independence and enables an individual to function with as much choice and self-direction as safely appropriate. In addition, access to or receipt of one service may not be contingent on requiring an individual to obtain or utilize any other service; for example, a housing service may not require a treatment component, nor may an outpatient treatment service require participation in housing. Multiple services may be encouraged, under appropriate circumstances, but may not be required.

O. Site visits must be conducted for specialized behavioral health services. Site visit requirements are outlined in the BH policy and billing manual.

[8.321.2.9 NMAC - Rp, 8.321.2.9 NMAC, 12/10/2024]

8.321.2.10 ADULT ACCREDITED RESIDENTIAL TREATMENT CENTER (AARTC) FOR ADULTS WITH SUBSTANCE USE DISORDERS:

To help an eligible recipient 18 years of age and older, who has been diagnosed as having a SUD, and the need for AARTC has been identified in the eligible recipient's diagnostic evaluation as meeting criteria of the American society of addiction medicine (ASAM) level of care three for whom a less restrictive setting is not appropriate, MAD pays for services furnished to them by an AARTC accredited by the joint commission (JC), the commission on accreditation of rehabilitation facilities (CARF) or the council on accreditation (COA).

A. Eligible facilities:

(1) To be eligible to be reimbursed for providing AARTC services to an eligible recipient, an AARTC facility:

(a) must be accredited by JC, COA, or CARF as an adult (18 and older) residential treatment facility;

(b) must be certified through an application process with the behavioral health services division (BHSD) which includes site visits. Site visit requirements are outlined in the BH policy and billing manual;

(c) must have written policies and procedures specifying ASAM level of care three criteria as the basis for accepting eligible recipients into the sub-level treatment program;

(d) must meet ASAM treatment service requirements for the ASAM level of care three recipients it admits into each sub-level of care;

(e) must provide medication assisted treatment (MAT) for opioid use disorder (OUD), as indicated. See 8.321.2.28 NMAC for MAT requirements. An AARTC may coordinate with another agency for provision of MAT services when they are not provided by the AARTC; an AARTC may not exclude recipients from receiving AARTC services on the basis of receiving MAT services;

(f) all licensed practitioners shall be trained in ASAM principles and levels of care. The ASAM training must comprehensively cover the expected treatment expectations of the ASAM level 3 sub-level treatment programs;

(g) prior to the initial hire and every three years thereafter employees must pass a nationwide caregiver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to Section 27-7a-1 et seq. NMSA 1978 and 8.11.6 NMAC; additionally employees must pass the employee abuse registry (EAR) pursuant to 7.1.12 NMAC, certified nurse aide registry pursuant to 16- 12.20 NMAC, office of inspector exclusion list pursuant to section 1128B(f) of the Social Security Act; and the national sex offender registry pursuant to 6201 as federal authority for active programs;

(h) must maintain appropriate drug permit required, issued by the state board of pharmacy, as applicable;

(i) must maintain appropriate food service permit required, issued by the New Mexico environmental department (NMED), as applicable; and

(j) must allow individuals the opportunity to notify their family that they have been admitted to the facility and shall not admit an individual for residential treatment

without obtaining or providing evidence that the facility has attempted to obtain contact information for a family member of the patient.

(2) An out-of-state or MAD enrolled border AARTC must have JC, CARF or COA accreditation, use ASAM level three criteria for accepting recipients, and be licensed in its own state as an AARTC residential treatment facility.

B. Coverage criteria:

(1) Treatment must be provided under the direction of an independently licensed clinician or practitioner as defined by ASAM criteria level three for the sub-level of treatment being rendered.

(2) Treatment shall be based on the eligible recipient's individualized treatment plan rendered by the AARTC facility's practitioners, within the scope and practice of their professions as defined by state law, rule or regulation. See Subsection B of 8.321.2.9 NMAC for general behavioral health professional requirements.

(3) The following services shall be performed by the AARTC agency to receive reimbursement from MAD:

(a) diagnostic evaluation, necessary psychological testing, and development of the eligible recipient's treatment plan, while ensuring that evaluations already performed are not repeated;

(b) provision of regularly scheduled counseling and therapy sessions in an individual, family or group setting following the eligible recipient's treatment plan, and according to ASAM guidelines for level three, residential care, and the specific sub-level of care for which that client meets admission criteria;

(c) facilitation of age-appropriate life skills development;

(d) assistance to the eligible recipient in their self-administration of medication in compliance with state statute, regulation and rules;

(e) maintain appropriate staff available on a 24-hour basis to respond to crisis situations, determine the severity of the situation, stabilize the eligible recipient, make referrals as necessary, and provide follow-up to the eligible recipient; and

(f) consultation with other professionals or allied caregivers regarding the needs of the eligible recipient, as applicable.

(4) Admission and treatment criteria based on the sub-levels of ASAM level three criteria must be met. Length of stay is determined by medical necessity. The differing sub-levels of ASAM level three are based on the intensity of clinical services, particularly as demonstrated by the degree of involvement of medical and nursing

professionals. The defining characteristic of level three ASAM criteria is that they serve recipients who need safe and stable living environments to develop their recovery skills. They are transferred to lower levels of care when they have established sufficient skills to safely continue treatment without the immediate risk of relapse, continued use, or other continued problems, and are no longer in imminent danger of harm to themselves or others.

(5) **Levels of care without withdrawal management:**

(a) clinically managed low-intensity residential services as specified in ASAM level of care 3.1 are covered for recipients whose condition meets the criteria for ASAM 3.1:

(i) is often a step down from a higher level of care and prepares the recipient for transition to the community and outpatient services; and

(ii) requires a minimum of five hours per week of recovery skills development.

(b) clinically managed population-specific high-intensity residential services as specified in ASAM levels of care 3.3 and 3.5 are covered for recipients whose condition meets the criteria of ASAM level 3.3 or 3.5.

(i) level 3.3 meets the needs of recipients with cognitive difficulties needing more specialized individualized services. Cognitive impairments can be due to aging, traumatic brain injury, acute but lasting injury, or illness;

(ii) level 3.5 offers a higher intensity of service not requiring medical monitoring.

(c) medically monitored intensive inpatient services as specified in ASAM level of care 3.7 are covered for recipients whose condition meets the criteria for ASAM level 3.7:

(i) 3.7 level is an organized service delivered by medical and nursing professionals which provides 24-hour evaluation and monitoring services under the direction of a physician or clinical nurse practitioner who is available by phone 24-hours a day;

(ii) nursing staff is on-site 24-hours a day;

(iii) other interdisciplinary staff of trained clinicians may include counselors, social workers, emergency medical technicians with documentation of three hours of annual training in SUD, and psychologists available to assess and treat the recipient and to obtain and interpret information regarding recipient needs.

(6) **Withdrawal management (WM) levels of care:**

(a) clinically managed residential withdrawal management services as specified in ASAM level of care 3.2WM for recipients whose condition meets the criteria for ASAM 3.2WM:

(i) managed by behavioral health professionals, with protocols in place should a patient's condition deteriorate and appear to need medical or nursing interventions;

(ii) ability to arrange for appropriate laboratory and toxicology tests;

(iii) a range of cognitive, behavioral, medical, mental health and other therapies administered on an individual or group basis to enhance the recipient's understanding of SUD, the completion of the withdrawal management process, and referral to an appropriate level of care for continuing treatment;

(iv) the recipient remains in a level 3.2WM program until withdrawal signs and symptoms are sufficiently resolved that the recipient can be safely managed at a less intensive level of care; or the recipient's signs and symptoms of withdrawal have failed to respond to treatment and have intensified such that transfer to a more intensive level of withdrawal management services is indicated; and

(v) 3.2WM's length of stay is typically 3 - 5 days, after which transfer to another level of care is indicated.

(b) medically monitored residential withdrawal management services as specified in ASAM level of care 3.7WM for recipients whose condition meets the criteria for ASAM 3.7WM:

(i) services are provided by an interdisciplinary staff of nurses, counselors, social workers, addiction specialists, peer support workers, emergency medical technicians with documentation of three hours of annual training in SUD, or other health and technical personnel under the direction of a licensed physician;

(ii) monitored by medical or nursing professionals, with 24-hour nursing care and physician visits as needed, with protocols in place should a patient's condition deteriorate and appear to need intensive inpatient withdrawal management interventions;

(iii) ability to arrange for appropriate laboratory and toxicology tests;

(iv) a range of cognitive, behavioral, medical, mental health and other therapies administered on an individual or group basis to enhance the recipient's understanding of SUD, the completion of the withdrawal management process, and referral to an appropriate level of care for continuing treatment; and

(v) the recipient remains in a level 3.7WM program until withdrawal signs and symptoms are sufficiently resolved that they can be safely managed at a less intensive level of care; or the recipient's signs and symptoms of withdrawal have failed to respond to treatment and have intensified such that transfer to a more intensive level of withdrawal management service is indicated;

(vi) 3.7WM typically last for no more than seven days.

C. Covered services: AARTCs treating all recipients meeting ASAM level three criteria. MAD covers residential treatment services which are medically necessary for the diagnosis and treatment of an eligible recipient's condition. A clinically managed facility must provide 24-hour care with trained staff.

D. Non-covered services: AARTC services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general MAD behavioral health non-covered services or activities. MAD does not cover the following specific services billed in conjunction with AARTC services to an eligible recipient:

(1) comprehensive community support services (CCSS), except when provided by a CCSS agency in discharge planning for the eligible recipient from the facility;

(2) services for which prior approval was not requested and approved;

(3) services furnished to ineligible individuals;

(4) formal educational and vocational services which relate to traditional academic subjects or vocational training; and

(5) activity therapy, group activities, and other services primarily recreational or diversional in nature.

E. Treatment plan: The treatment plan must be developed by a team of professionals in consultation with the eligible recipient and in accordance with ASAM and accreditation standards. The interdisciplinary team must review the treatment plan at least every 15 days.

F. Prior authorization: Prior authorization is not required for up to five days for eligible recipients meeting ASAM level three criteria to facilitate immediate admission and treatment to the appropriate level of care. Within that five day period, the provider must furnish notification of the admission and if the provider believes that continued care beyond the initial five days is medically necessary, prior authorization must be obtained from MAD or its designee. For out-of-state AARTCs prior authorization is required prior to admission. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process. All MAD services are

subject to utilization review for medical necessity, inspection of care, and program compliance. Follow up auditing is done by the accrediting agency per their standards.

G. Reimbursement: An AARTC agency must submit claims for reimbursement on the UB-04 form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and see 8.302.2 NMAC. Once enrolled, the agency receives instructions on how to access documentation, billing, and claims processing information.

(1) MAD reimbursement covers services considered routine in the residential setting. Routine services include, but are not limited to, counseling, therapy, activities of daily living, medical management, crisis intervention, professional consultation, transportation, rehabilitative services and administration.

(2) Services which are not covered in routine services include other MAD services that an eligible recipient might require that are not furnished by the facility, such as pharmacy services, primary care visits, laboratory or radiology services. These services are billed directly by the applicable providers and are governed by the applicable sections of NMAC rules.

(3) MAD does not cover room and board.

(4) Detailed billing instructions can be accessed in the BH policy and billing manual.

[8.321.2.10 NMAC - Rp, 8.321.2.10 NMAC, 12/10/2024]

8.321.2.11 ADULT ACCREDITED RESIDENTIAL TREATMENT CENTER (AARTC) FOR ADULTS WITH SERIOUS MENTAL HEALTH CONDITIONS:

To help an eligible recipient 18 years of age and older, who has been diagnosed as having a serious mental health condition, and the need for AARTC has been identified in the eligible recipient's diagnostic evaluation as meeting criteria of the level of care utilization system (LOCUS) for psychiatric and SUD services level of care five for whom a less restrictive setting is not appropriate. MAD pays for services furnished to them by an AARTC accredited by the joint commission (JC), the commission on accreditation of rehabilitation facilities (CARF) or the council on accreditation (COA).

A. Eligible facilities:

(1) To be eligible to receive reimbursement for providing AARTC services to an eligible recipient, an AARTC facility:

(a) must be accredited by JC, COA, or CARF as an adult (18 and older) residential treatment facility;

(b) must be certified through an application process with BHSD which includes site visits. Site visit requirements are outlined in the BH policy and billing manual;

(c) must have written policies and procedures specifying utilization of the LOCUS evaluation parameters for assessment of service needs and ensuring that based on the dimensional rating scale, clients meet LOCUS level 5 criteria as the basis for accepting eligible recipients into the treatment program;

(d) must meet LOCUS level five service definitions for the care environment, clinical services, support services, and crisis stabilization and prevention services;

(e) must assess for and treat co-occurring SUDs;

(f) must provide or refer eligible recipients for MAT for SUD, if appropriate; to include access to buprenorphine and methadone, if appropriate and desired by the recipient. Programs may not exclude recipients from receiving AARTC services on the basis of receiving or desiring to receive MAT services;

(g) must train all clinicians or practitioners in the LOCUS for psychiatric and SUD services. The LOCUS training must be conducted by a LOCUS approved trainer and must be comprehensive in covering the evaluation parameters for assessment of service needs and level of care definitions for LOCUS level 5 services;

(h) prior to the initial hire and every three years thereafter employees must pass a nationwide caregiver criminal history screening pursuant to Section 29-17-2 et seq. NMSA 1978 and 7.1.9 NMAC and an abuse registry screen pursuant to section 27-7a-1 et seq. NMSA 1978 and 8.11.6 NMAC; additionally employees must pass the employee abuse registry (EAR) pursuant to 7.1.12 NMAC, certified nurse aide registry pursuant to 16- 12.20 NMAC, office of inspector exclusion list pursuant to section 1128B(f) of the Social Security Act; and the national sex offender registry pursuant to 6201 as federal authority for active programs;

(i) must maintain appropriate drug permit required, issued by the state board of pharmacy, as applicable;

(j) must maintain appropriate food service permit required, issued by the NMED, as applicable; and

(k) must allow individuals the opportunity to notify their family that they have been admitted to the facility and shall not admit an individual for residential treatment without obtaining or providing evidence that the facility has attempted to obtain contact information for a family member of the patient.

(2) An out-of-state or MAD enrolled border AARTC must have JC, CARF or COA accreditation, use LOCUS level five criteria for accepting recipients, and be licensed in its own state as an AARTC residential treatment facility.

B. Coverage criteria:

(1) Treatment must be provided under the direction of an independently licensed clinician/practitioner and the program must have sufficient staffing to meet the LOCUS level five clinical capabilities description.

(2) Treatment shall be based on the eligible recipient's individualized treatment plan rendered by the AARTC facility's practitioners, within the scope and practice of their professions as defined by state law, rule or regulation. See Subsection B of 8.321.2.9 NMAC for general behavioral health professional requirements.

(3) The following services shall be performed by the AARTC agency to receive reimbursement from MAD:

(a) diagnostic evaluation, necessary psychological testing, and development of the eligible recipient's treatment plan, while ensuring that evaluations already performed are not repeated;

(b) provision of regularly scheduled counseling and therapy sessions in an individual, family or group setting following the eligible recipient's treatment plan, and according to LOCUS level five service descriptions the care environment, clinical services, support services, and crisis stabilization and prevention services;

(c) facilitation of age-appropriate life skills development;

(d) assistance to the eligible recipient in their self-administration of medication in compliance with state statute, regulation and rules;

(e) maintain appropriate staff available on a 24-hour basis to respond to crisis situations, determine the severity of the situation, stabilize the eligible recipient, make referrals as necessary, and provide follow-up to the eligible recipient; and

(f) consultation with other professionals or allied caregivers regarding the needs of the eligible recipient, as applicable.

(4) Admission and treatment criteria based on the LOCUS level five criteria based on the dimensional evaluation of service needs. Length of stay duration is determined by medical necessity and ongoing LOCUS level five criteria and symptomology. The LOCUS levels of care are based on the intensity of clinical services, particularly as demonstrated by the degree of involvement of psychiatric, medical, and nursing professionals. The defining characteristic of LOCUS level five is that it serves recipients who need a medically monitored residential setting for stabilization and

treatment. Recipients are transferred to lower levels of care when they have established sufficient skills to safely continue treatment at a lower level of care.

(5) **Sub-levels of level five level of care:**

(a) moderate intensity long term residential treatment services as specified in LOCUS level of care 5c are covered for recipients whose condition meets the criteria for LOCUS Level 5c and who are experiencing long term and persistent disabilities that require extended rehabilitation and skill building to develop capacity for community living:

(b) moderate intensity intermediate stay residential treatment programs as specified in LOCUS levels of care 5b are covered for recipients whose condition meets the criteria of LOCUS level 5c and who need rehabilitation and skill building following stabilization of a crisis or to prevent precipitous deterioration in functioning.

(c) intensive short term residential services as specified in LOCUS level of care 5a are covered for recipients whose condition meets the criteria for LOCUS level 5a and who are stepping down from acute inpatient care or people who are in crisis but who do not require the security of a locked facility.

C. Covered services: AARTCs treating all recipients meeting LOCUS level five criteria. MAD covers residential treatment services which are medically necessary for the diagnosis and treatment of an eligible recipient's condition. A LOCUS level five AARTC facility must provide 24-hour care with trained staff.

D. Non-covered services: AARTC services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general MAD behavioral health non-covered services or activities. MAD does not cover the following specific services billed in conjunction with AARTC services to an eligible recipient:

(1) Comprehensive community support services (CCSS), except when provided by a CCSS agency in discharge planning for the eligible recipient from the facility;

(2) Services for which prior approval was not requested and approved;

(3) Services furnished to ineligible individuals;

(4) Formal educational and vocational services which relate to traditional academic subjects or vocational training; and

(5) Activity therapy, group activities, and other services primarily recreational or diversional in nature.

E. Treatment plan: The treatment plan must be developed by a team of professionals in consultation with the eligible recipient and in accordance with LOCUS and accreditation standards. The interdisciplinary team must review the treatment plan at least every 15 days.

F. Prior authorization: Prior authorization is not required for up to five days for eligible recipients meeting LOCUS level 5 criteria to facilitate immediate admission and treatment to the appropriate level of care. Within that five day period, the provider must furnish notification of the admission and if the provider believes that continued care beyond the initial five days is medically necessary, prior authorization must be obtained from MAD or its designee. For out-of-state AARTCs prior authorization is required prior to admission. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process. All MAD services are subject to utilization review for medical necessity, inspection of care, and program compliance. Follow-up auditing is done by the accrediting agency per their standards.

G. Reimbursement: An AARTC agency must submit claims for reimbursement on the UB-04 form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and see 8.302.2 NMAC. Once enrolled, the agency receives instructions on how to access documentation, billing, and claims processing information.

(1) MAD reimbursement covers services considered routine in the residential setting. Routine services include, but are not limited to, counseling, therapy, activities of daily living, medical management, crisis intervention, professional consultation, transportation, rehabilitative services and administration.

(2) Services which are not covered in routine services include other MAD services that an eligible recipient might require that are not furnished by the facility, such as pharmacy services, primary care visits, laboratory or radiology services. These services are billed directly by the applicable providers and are governed by the applicable sections of NMAC rules.

(3) MAD does not cover room and board.

(4) Detailed billing instructions can be accessed in the BH policy and billing manual.

[8.321.2.11 NMAC - N, 8.321.2.11 NMAC, 12/10/2024]

8.321.2.12 ACCREDITED RESIDENTIAL TREATMENT CENTER FOR YOUTH (ARTC):

To help an eligible recipient under 21 years of age when the need for ARTC has been identified in the eligible recipient’s tot to teen health check screen (EPSDT) program (42 CFR section 441.57) or other diagnostic evaluation, and for whom a less restrictive

setting is not appropriate, MAD pays for services furnished to them by an ARTC accredited by the joint commission (JC), the commission on accreditation of rehabilitation facilities (CARF) or the council on accreditation (COA). A determination must be made that the eligible recipient needs the level of care (LOC) for services furnished in an ARTC. This determination must have considered all environments which are least restrictive, including but not limited to outpatient therapy, intensive outpatient, day treatment services, group home services.

A. Eligible facilities:

(1) In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing ARTC services to an eligible recipient, an ARTC facility:

(a) must provide a copy of its JC, COA, or CARF accreditation as a children's residential treatment facility;

(b) must provide a copy of its CYFD ARTC facility license per 7.20.12 NMAC and certification per 7.20.11 NMAC;

(c) must have written utilization review (UR) plans in effect which provide for review of the eligible recipient's need for the ARTC that meet federal requirements; see 42 CFR Section 456.201 through 456.245; and

(d) must allow individuals the opportunity to notify their family that they have been admitted to the facility and shall not admit an individual for residential treatment without obtaining or providing evidence that the facility has attempted to obtain contact information for a family member of the patient.

(2) If the ARTC is operated by IHS or by a federally recognized tribal government, the youth based facility must meet CYFD ARTC licensing and certification requirements, but is not required to be licensed or certified by CYFD. In lieu of receiving a license and certification, CYFD will provide MAD copies of its facility findings and recommendations. MAD will work with the facility to address recommendations. Details related to findings and recommendations for an IHS or federally recognized tribal government's ARTC are detailed in the BH policy and billing manual; and

(3) In lieu of NM CYFD licensure, an out-of-state or MAD enrolled border ARTC facility must have JC, COA or CARF accreditation and be licensed in its own state as an ARTC residential treatment facility.

B. Covered services: MAD covers accommodation and residential treatment services which are medically necessary for the diagnosis and treatment of an eligible recipient's condition. An ARTC facility must provide an interdisciplinary psychotherapeutic treatment program on a 24-hour basis to the eligible recipient. The ARTC will coordinate with the educational program of the recipient, if applicable.

(1) Treatment must be furnished under the direction of a MAD enrolled board eligible or certified psychiatrist.

(2) Treatment must be based on the eligible recipient's individualized treatment plans rendered by the ARTC facility's practitioners, within the scope and practice of their professions as defined by state law, rule or regulation. See Subsection B of 8.321.2.9 NMAC for general behavioral health professional requirements.

(3) Treatment must be reasonably expected to improve the eligible recipient's condition. The treatment must be designed to reduce or control symptoms or maintain levels of functioning. Avoiding acute psychiatric hospitalization or further deterioration are also reasonable expectations of treatment.

(4) The following services must be performed by the ARTC agency to receive reimbursement from MAD:

(a) performance of necessary evaluations, psychological testing and development of the eligible recipient's treatment plan, while ensuring that evaluations already performed are not repeated;

(b) provide regularly scheduled counseling and therapy sessions in an individual, family or group setting following the eligible recipient's treatment plan;

(c) facilitation of age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school attendance and money management to the eligible recipient;

(d) assistance to the eligible recipient in their self-administration of medication in compliance with state statute, regulation and rules;

(e) maintain appropriate staff available on a 24-hour basis to respond to crisis situations, determine the severity of the situation, stabilize the eligible recipient, make referrals, as necessary, and provide follow-up to the eligible recipient;

(f) consultation with other professionals or allied caregivers regarding the needs of the eligible recipient, as applicable;

(g) non-medical transportation services needed to accomplish the eligible recipient's treatment objective; and

(h) therapeutic services to meet the physical, social, cultural, recreational, health maintenance and rehabilitation needs of the eligible recipients.

C. Non-covered services: ARTC services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See subsection G of 8.321.2.9 NMAC for general MAD behavioral health non-covered services or activities.

MAD does not cover the following specific services billed in conjunction with ARTC services to an eligible recipient:

(1) CCSS, except when provided by a CCSS agency in discharge planning for the eligible recipient from the facility;

(2) services for which prior approval was not requested and approved;

(3) services furnished to ineligible individuals; ARTC and group services are covered only for eligible recipients under 21 years of age;

(4) formal educational and vocational services which relate to traditional academic subjects or vocation training; and

(5) activity therapy, group activities, and other services primarily recreational or diversional in nature.

D. Treatment plan: The treatment plan must be developed by a team of professionals in consultation with the eligible recipient, their parent, legal guardian and others in whose care they will be released after discharge. The plan must be developed within 14 calendar days of the eligible recipient's admission to an ARTC facility. The interdisciplinary team must review the treatment plan at least every 30 calendar days. In addition to the requirements of Subsection K of 8.321.2.9 NMAC, all supporting documentation must be available for review in the eligible recipient's file. The treatment plan must also include a statement of the eligible recipient's cultural needs and provision for access to cultural practices.

E. Prior authorization: Before any ARTC services are furnished to an eligible recipient, prior authorization is required from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

F. Reimbursement: An ARTC agency must submit claims for reimbursement on the UB-04 form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and see 8.302.2 NMAC. Once enrolled, the agency receives instructions on how to access documentation, billing, and claims processing information.

(1) The MAD fee schedule is based on actual cost data submitted by the ARTC agency. Cost data is grouped into various cost categories for purposes of analysis and rate setting. These include direct service, direct service supervision, therapy, admission and discharge planning, clinical support, non-personnel operating, administration and consultation.

(a) the MAD reimbursement covers those services considered routine in the residential setting. Routine services include, but are not limited to: counseling, therapy,

activities of daily living, medical management, crisis intervention, professional consultation, transportation, rehabilitative services and administration;

(b) services which are not covered in routine services include other MAD services that an eligible recipient might require that are not furnished by the facility, such as pharmacy services, primary care visits, laboratory or radiology services, are billed directly by the applicable providers and are governed by applicable sections of NMAC rules;

(c) services which are not covered in the routine rate and are not a MAD covered service include services not related to medical necessity, clinical treatment, and patient care.

(2) A vacancy factor of 24 days annually for each eligible recipient is built in for therapeutic leave and trial community placement. Since the vacancy factor is built into the rate, an ARTC agency cannot bill nor be reimbursed for days when the eligible recipient is absent from the facility.

(3) An ARTC agency must submit annual cost reports in a form prescribed by MAD. Cost reports are due 90 calendar days after the close of the agency's fiscal year end.

(a) if an agency cannot meet this due date, it can request a 30 calendar day extension for submission. This request must be made in writing and received by MAD prior to the original due date;

(b) failure to submit a cost report by the due date or the extended due date, when applicable, will result in suspension of all MAD payments until the cost report is received.

(4) Reimbursement rates for an ARTC out-of-state provider located more than 100 miles from the NM border (Mexico excluded) are at the fee schedule unless a separate rate is negotiated.

[8.321.2.12 NMAC - Rp, 8.321.2.11 NMAC, 12/10/2024]

8.321.2.13 APPLIED BEHAVIOR ANALYSIS (ABA):

MAD pays for medically necessary, empirically supported, applied behavior analysis (ABA) services for eligible recipients who have a well-documented medical diagnosis of autism spectrum disorder (ASD), and for eligible recipients who have well-documented risk for the development of ASD. As part of a three-stage comprehensive approach consisting of evaluation, assessment, and treatment, ABA services may be provided in coordination with other medically necessary services including but not limited to family infant toddler program (FIT) services, occupational therapy, speech language therapy, medication management, and developmental disability waiver services. ABA services

are part of the early periodic screening, diagnosis and treatment (EPSDT) program (CFR 42 section 441.57) for recipients under the age of 21. There is no age requirement to receive ABA services and ABA is a covered benefit for medicaid enrolled adults.

A. Coverage Criteria:

(1) Confirmation of the presence or risk of ASD must occur through an approved autism evaluation provider (AEP) through a comprehensive diagnostic evaluation (CDE) used to determine the presence of and a diagnosis of ASD. A targeted evaluation is used when the eligible recipient who has a full diagnosis of ASD presents with behaviors that are changed from the last CDE. An ASD risk evaluation is used when an eligible recipient meets the at-risk criteria found in Subsection C of 8.321.2.13 NMAC.

(2) An integrated service plan (ISP) must be developed by the AEP together with a referral to an approved ABA provider agency (stage one).

(3) The ABA provider agency completes a behavior or functional analytic assessment. The assessment results determine if a focused or comprehensive model is selected and a treatment plan is completed (stage two).

(4) ABA stage two and three services are rendered by a behavior analyst certification board (BACB) approved behavior analyst (BA), a board certified assistant behavior analyst (BCaBA) or a behavior technician (BT), in accordance with the treatment plan (stage three). A BCaBA is referred to 8.321.2 NMAC as a behavior analyst assistant (BAA).

B. Eligible providers: ABA services are rendered by providers and practitioners who meet the qualification requirements: an AEP; a behavior analyst (BA) and a behavior technician (BT) through an ABA provider agency; and an ABA specialty care provider. Each ABA provider and practitioner has corresponding enrollment requirements and renders services according to their provider type and specialty. All providers must successfully complete a criminal background registry check. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

(1) **Stage 1: Autism evaluation provider (AEP):** Completes the CDE, ASD risk evaluation or targeted evaluation and develops the ISP for an eligible recipient.

(2) **Behavior analyst (BA):** a BA who is a board certified behavior analyst (BCBA® or BCBA-D®) by the behavior analyst certification board (BACB®) or a psychologist who is certified by the American board of professional psychology in behavior and cognitive psychology and who was tested in the ABA part of their certification, may render ABA stage two-behavior analytic assessment, service model determination and treatment plan development and stage three services-implementation of an ABA treatment plan.

(3) **Stage two and three BAA:** A BAA who is a board certified assistant behavior analyst (BCaBA®) by the BACB® may assist their supervising BA in rendering a ABA stage two-behavior or functional analytic assessment, service model determination and ABA treatment plans development and stage three services implementation of the ABA treatment plans, when the BAA's supervising BA determines they have the skills and knowledge to render such services. This is determined in the contract the BAA has agreed to with their supervising BA.

(4) **Stage three behavioral technician (BT):** A BT, under supervision of a BA, may assist stage two and implement stage three ABA treatment plan interventions and services.

(5) **Stage three ABA specialty care provider eligibility requirements:** practitioners who are enrolled as BAs must provide additional documentation that demonstrates the practitioner has the skills, training and clinical experience to oversee and render ABA services to highly complex eligible recipients who require specialized ABA services.

(6) **Additional provider types:** To avoid a delay in receiving stage two services and three services, a recipient may be referred for ABA services with a presumptive diagnosis of ASD by a licensed practitioner whose scope of practice allows them to render a diagnosis of ASD. This diagnosis must have been received within three years of referral to stage two or three services.

C. Identified population: The admission criteria are separated into two types: at-risk for ASD and diagnosed with ASD.

(1) **At-risk for ASD:** an eligible recipient may be considered at risk for ASD if they do not meet full criteria for ASD per the latest version of the diagnostic statistical manual (DSM) or international classification of diseases (ICD). To be qualified for the ABA criteria of at-risk, the eligible recipient must meet all the following requirements:

(a) is between 12 and 36 months of age;

(b) presents with developmental differences and delays as measured by standardized assessments;

(c) demonstrates some characteristics of the disorder including but not limited to impairment in social communication and early indicators for the development of restricted and repetitive behavior; and

(d) presents with at least one genetic risk factor such as having an older sibling with a well-documented ASD diagnosis or eligible recipient has a diagnosis of Fragile X syndrome.

(2) **Diagnosed with ASD:** an eligible recipient who has a documented medical diagnosis of ASD according to the latest version of the DSM or the ICD is eligible for ABA services if they present with a CDE or targeted evaluation.

D. Covered services:

(1) **Stage one:** An eligible recipient is referred to an AEP after screening positive for ASD. The AEP conducts a diagnostic evaluation (CDE or targeted evaluation), develops the ISP, and recommends ABA stage two services. For an eligible recipient who has an existing ASD diagnosis, diagnostic re-evaluation is not necessary, but the development of an ISP and the determination of the medical necessity for ABA services are required.

(2) **Stage two BA:** For all eligible recipients, stage two services include a behavior or functional analytic assessment, ABA service model determination, and treatment plan development. The family, eligible recipient (as appropriate for age and developmental level), and the ABA provider's supervising BA work collaboratively to make a final determination regarding the clinically appropriate ABA service model, with consultative input from the AEP as needed. A behavior or functional analytic assessment addressing needs associated with both skill acquisition and behavior reduction is conducted, and an individualized ABA treatment plan, as appropriate for the ABA service model, is developed by the supervising BA. The BA is responsible for completing all of the following services:

(a) the recipient's assessment;

(b) selection and measurement of goals; and

(c) treatment plan formulation and documentation.

(3) **Stage three - treatment:** Most ABA stage three services require prior authorization and may vary in terms of intensity, frequency and duration, the complexity and range of treatment goals, and the extent of direct treatment provided.

(4) **Stage three - clinical management and case supervision:** All stage three services require clinical management. If a BAA or a BT is implementing the treatment plan, the BAA or BT requires case supervision from their BA or supervising BAA. The BH policy and billing manual provides a detailed description of the requirements for rendering clinical management and case supervision.

(5) **Stage three - ABA specialty care services:** Specialty care services require prior authorization. In cases where the needs of the eligible recipient exceed the expertise of the ABA provider and the logistical or practical ability of the ABA provider to fully support the eligible recipient MAD covers the eligible recipient for a referral to a MAD enrolled ABA specialty care practitioner (SCP).

(6) If the eligible recipient is in a residential facility or institutional setting that either specializes in or has as part of its treatment modalities ABA services, and the residential facility is not an ABA provider for ABA stage two and three services, and the eligible recipient has a CDE or targeted evaluation which recommends ABA stage two services, the residential facility is responsible to locate a MAD enrolled ABA stage two and three ABA provider and develop an agreement allowing the ABA provider to render stage two and three services at the residential facility. Reimbursement for ABA stage two and three services is made to the MAD enrolled ABA provider, not the residential facility.

(7) For an eligible recipient who meets the criteria for ABA services and who is in a treatment foster care (TFC) placement, they are not considered to be in a residential facility and may receive ABA services outside of the TFC agency. An eligible recipient who meets the criteria for ABA services who is in a residential treatment center, accredited residential treatment center, or a group home may receive ABA services to the extent that the residential provider is able to provide the services.

(8) See the BH policy and billing manual for specific instructions concerning stages one through three services.

E. Prior authorization - general information stage three services:

(1) Prior authorization to continue ABA stage three services must be secured every six months. At each six month authorization, a UR contractor will assess, with input from the family and ABA provider's BA, whether changes are needed in the eligible recipient's ISP or treatment plan. Additionally, the family or ABA provider may request ISP modifications prior to the UR contractor's six month authorization if immediate changes are warranted to preserve the health and wellbeing of the eligible recipient.

(2) To secure the initial and ongoing prior authorization for stage three services, the ABA provider must submit the prior authorization request, specifically noting:

(a) the CDE or targeted evaluation and the ISP from the AEP along with the ABA treatment plan;

(b) the requested treatment model (focused or comprehensive), maximum hours of service requested per week;

(c) the number of hours of case supervision requested per week, if more than two hours of supervision per 10 hours of intervention is requested; the BH policy and billing manual provides detailed requirements for case supervision;

(d) the number of hours of clinical management requested per week, if more than two hours of clinical management per 10 hours of intervention is requested; and

(e) the need for collaboration with an ABA specialty care provider, if such a need has been identified through initial assessment and treatment planning; after services have begun, the ABA provider agency may refer the eligible recipient to a SCP for a focused behavior or functional analytic assessment focusing on the specific care needs of the eligible recipient. The SCP will then request a prior authorization for specialty care services from the UR contractor.

(3) The request must document hours allocated to other services including but not limited to early intervention through FIT, physical therapy, speech and language therapy that are in the eligible recipient's ISP in order for the UR contractor to determine if the requested intensity is feasible and appropriate.

(4) When an eligible recipient's behavior exceeds the expertise of the ABA provider and logistical or practical ability of the ABA provider to fully support them, MAD allows the ABA provider to request prior authorization for ABA specialty care services.

(5) Services may continue until the eligible recipient no longer meets service criteria for ABA services as described in the BH policy and billing manual.

(6) See the BH policy and billing manual for specific instructions on prior authorizations.

F. Non-covered services:

(1) The eligible recipient's comprehensive or targeted diagnostic evaluation or the ISP and treatment plan updates recommend placement in a higher, more intensive, or more restrictive level of care (LOC) and no longer recommends ABA services.

(2) Activities that are not designed to accomplish the objectives delineated in covered services and that are not included in the ABA treatment plan.

(3) Activities that are not based on the principles and application of applied behavior analysis.

(4) Activities that take place in school settings and have the potential to supplant educational services.

(5) Activities that are better described as another therapeutic service (e.g., speech language therapy, occupational therapy, physical therapy, counseling, etc.), even if the practitioner has expertise in the provision of ABA.

(6) Activities which are better characterized as staff training certification or licensure or certification supervision requirements, rather than ABA case supervision.

G. Reimbursement: Billing instructions for ABA services are detailed in the BH policy and billing manual.

[8.321.2.13 NMAC - Rp, 8.321.2.12 NMAC, 12/10/2024]

8.321.2.14 ASSERTIVE COMMUNITY TREATMENT SERVICES:

To help an eligible recipient with medically necessary services MAD pays for covered assertive community treatment services (ACT). See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible providers:

(1) An ACT agency must demonstrate compliance with administrative, financial, clinical, quality improvement and information services infrastructure standards established by MAD or its designee, including compliance and outcomes consistent with the ACT fidelity model. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

(2) An ACT agency providing coordinated specialty care for an individual with first episode psychosis must provide services consistent with the coordinated specialty care (CSC) model.

(3) ACT services must be provided by an agency designated team of 10 to 12 members; see Paragraph (5) of Subsection A of 8.321.2.14 NMAC for the required composition. A lower number of team member compositions may be considered by BHSD. The waiver request is dependent on the nature of the clinical severity and rural vs. urban environment pending BHSD approval. Each team must have a designated team leader. Practitioners on this team shall have sufficient individual competence, professional qualifications and experience to provide service coordination; crisis assessment and intervention; symptom assessment and management; individual counseling and psychotherapy; prescription, administration, monitoring and documentation of medications; substance use disorder treatment; work-related services; activities of daily living services; support services or direct assistance to ensure that the eligible recipient obtains the basic necessities of daily life; and coordination, support and consultation to the eligible recipient’s family and other major supports. The agency must coordinate its ACT services with local hospitals, local crisis units, local law enforcement agencies, local behavioral health agencies, and consider referrals from social service agencies.

(4) Each ACT team staff member must be successfully and currently certified or trained according to ACT fidelity model standards. The training standards focus on developing staff competencies for delivering ACT services according to the most recent ACT evidenced-based practices and ACT fidelity model. Each ACT team shall have a sufficient number of qualified staff to provide treatment, rehabilitation, crisis and support services 24-hours a day, seven days a week.

(5) Each ACT team shall have a staff-to eligible recipient ratio dependent on the nature of the team based on clinical severity and rural vs. urban environment pending BHSD approval to ensure fidelity with current model.

(6) Each ACT team must comply with 8.321.2.9 NMAC for specific licensing requirements for ACT staff team members as appropriate, and must include:

(a) one team leader who is an independently licensed behavioral health practitioner (LPCC, LMFT, LISW, LCSW, LPAT, psychologist);

(b) medical director/prescriber:

(i) board certified or board eligible psychiatrist; or

(ii) NM licensed psychiatric certified nurse practitioner; or

(iii) NM licensed psychiatric clinical nurse specialist; or

(iv) prescribing psychologist under the supervision or consultation of an MD; or

(c) two licensed nurses, one of whom shall be a RN, or other allied medical professionals may be used in place of one nurse;

(d) at least one other MAD recognized licensed behavioral health professional;

(e) at least one MAD enrolled licensed behavioral health practitioner with expertise in substance use disorders;

(f) at least one employment specialist;

(g) at least one NM certified peer support worker (CPSW) through the approved state of NM certification program; or certified family peer support worker (CFPSW);

(h) one administrative staff person; and

(i) the eligible recipient shall be considered a part of the team for decisions impacting their ACT services.

(7) The agency must have a HCA ACT approval letter to render ACT services to an eligible recipient. The approval letter will authorize an agency also delivering CSC model.

(8) Any adaptations to the model require an approved variance from BHSD.

B. Coverage criteria:

(1) MAD covers medically necessary ACT services required by the condition of the eligible recipient.

(2) The ACT program provides four levels of interaction with the participating individuals:

(a) face-to-face encounters;

(b) collateral encounters designated as members of the recipient's family or household, or significant others who regularly interact with the recipient and are directly affected by or have the capability of affecting their condition and are identified in the treatment plan as having a role in treatment;

(c) assertive outreach defined as the ACT team having knowledge of what is happening with an individual. This occurs in either locating the individual or acting quickly and decisively when action is called for, while increasing client independence. This is done on behalf of the client and can comprise only five percent per individual of total service time per month;

(d) Group encounters defined by the following types:

(i) basic living skills development;

(ii) psychosocial skills training;

(iii) peer groups; or

(iv) wellness and recovery groups.

(3) The ACT therapy model is based on empirical data and evidence-based interventions that target specific behaviors with an individualized treatment plan for the eligible recipient. Specialized therapeutic and rehabilitative interventions falling within the fidelity of the ACT model are used to address specific areas of need, such as experiences of repeated hospitalization or incarcerations, severe problems completing activities of daily living and individuals who have a significant history of involvement in behavioral health services.

C. Identified population:

(1) ACT services are provided to an eligible recipient aged 18 and older whose diagnosis or diagnoses meet the criteria of SMI with a special emphasis on psychiatric disorders, including schizophrenia, schizoaffective disorder, bipolar disorder or psychotic depression for individuals who have severe problems completing activities of daily living, who have a significant history of involvement in behavioral health services

and who have experienced repeated hospitalizations or incarcerations due to mental illness.

(2) ACT services can also be provided to eligible individuals 15 to 30 years of age who are within the first two years of their first episode of psychosis.

(3) A co-occurring diagnosis of SUD shall not exclude an eligible recipient from ACT services.

D. Covered services: ACT is a voluntary medical, comprehensive case management and psychosocial intervention program. See the BH policy and billing manual for a complete service description.

E. Non-covered services: ACT services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for MAD general non-covered behavioral health services. MAD does not cover other psychiatric, mental health nursing, therapeutic, non-intensive outpatient substance use disorder treatment or crisis services when billed in conjunction with ACT services to an eligible recipient, except for medically necessary medications and hospitalizations. Psychosocial rehabilitation and intensive outpatient services can be billed concurrently if indicated in treatment plan but must be identified as a component of the treatment plan.

F. Reimbursement: ACT agencies must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection H of 8.321.2.9 for MAD general reimbursement requirements.

[8.321.2.14 NMAC - Rp, 8.321.2.13 NMAC, 12/10/2024]

8.321.2.15 BEHAVIORAL HEALTH PROFESSIONAL SERVICES FOR SCREENINGS, EVALUATIONS, ASSESSMENTS AND THERAPY:

MAD covers validated screenings for high-risk conditions in order to provide prevention or early intervention. Brief interventions or the use of the treat first clinical model may be billed with a provisional diagnosis for up to four encounters. After four encounters, if continuing treatment is required, a diagnostic evaluation must be performed, and subsequent reimbursement is based on the diagnosis and resulting treatment plan. See the BH policy and billing manual for a description of the treat first clinical model.

A. Psychological, counseling, and social work: These services are diagnostic or active treatments with the intent to reasonably improve an eligible recipient’s physical, social, emotional, and behavioral health, or substance use condition. Services are provided to an eligible recipient whose condition or functioning can be expected to improve with these interventions. Psychological, counseling, and social work services are performed by licensed psychological, counseling, and social work practitioners acting within their scope of practice and licensure (see Subsections B through E of 8.321.2.9 NMAC). These services include, but are not limited to assessments that

appraise cognitive, emotional, and social functioning and self-concept. Therapy includes planning, managing, and providing a program of psychological services to the eligible recipient meeting a current DSM, ICD, or DC:0-5 behavioral health diagnosis and may include therapy with their family, parent or caretaker, and consultation with their family and other professional staff.

B. An assessment as described in the BH policy and billing manual, must be signed by the practitioner operating within their scope of licensure (see Subsection B of 8.321.2.9 NMAC). A non-independently licensed behavioral health practitioner must have an independently licensed RLD board approved supervisor review and sign the assessment with a diagnosis. Based on the eligible recipient's current assessment, their treatment file must document the extent to which their treatment goals are being met and whether changes in direction or emphasis of the treatment are needed. See Subsection K of 8.321.2.9 NMAC for detailed description of the required eligible recipient file documentation.

C. Outpatient therapy services (individual, family, and group) includes planning, managing, and providing a program of psychological services to the eligible recipient with a diagnosed behavioral health disorder, and may include consultation with their family and other professional staff with or without the eligible recipient present when the service is on behalf of the recipient. See the BH policy and billing manual for detailed requirements of treatment plans.

[8.321.2.15 NMAC - Rp, 8.321.2.14 NMAC, 12/10/2024]

8.321.2.16 BEHAVIORAL HEALTH RESPITE CARE (Managed Care Organization (MCO)):

As part of the managed care comprehensive service system, behavioral health respite service is for short-term direct care and supervision of the eligible recipient in order to afford the parent(s) or caregiver a respite for their care of the recipient and takes place in the recipient's home or another setting. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible practitioners:

(1) Supervisor:

(a) bachelor's degree and three years' experience working with the target population;

(b) supervision activities include a minimum of two hours per month individual supervision covering administrative and case specific issues, and two additional hours per month of continuing education in behavioral health respite care issues, or annualized respite provider training;

(c) access to on call crisis support available 24-hours a day; and

(d) supervision by RLD board approved clinical supervisors must be in accordance with their respective licensing board regulations.

(2) Respite care staff:

(a) minimum three years' experience working with the target population;

(b) pass all criminal records and background checks for all persons residing in the home over 18;

(c) possess a valid driver's license, vehicle registration and insurance, if transporting member;

(d) CPR and first aid; and

(e) documentation of behavioral health orientation, training and supervision as defined in the BH policy and billing manual.

B. Coverage criteria: The provider agency will assess the situation and, with the caregiver, recommend the appropriate setting for respite. BH respite services may include a range of activities to meet the social, emotional and physical needs identified through the treatment plan and documented in the treatment record. These services may be provided for a few hours during the day or for longer periods of time involving overnight stays. BH respite, while usually planned, can also be provided in an emergency or unplanned basis.

C. Identified population:

(1) Members up to 21 years of age diagnosed with a severe emotional disturbance (SED), as defined by the state of NM who reside with the same primary caregivers on a daily basis; or

(2) Youth in protective services custody whose placement may be at risk whether or not they are diagnosed with SED.

D. Non-covered services:

(1) 30 days or 720 hours per year at which time prior authorization must be acquired for additional respite care;

(2) May not be billed in conjunction with the following medicaid services:

(a) treatment foster care;

(b) group home;

(c) residential services;

(d) inpatient treatment.

(3) Non-enrolled siblings of a child receiving BH respite services are not eligible for BH respite benefits; and

(4) Cost of room and board are not included as part of respite care.

[8.321.2.16 NMAC - Rp, 8.321.2.15 NMAC, 12/10/2024]

8.321.2.17 BEHAVIOR MANAGEMENT SKILLS DEVELOPMENT SERVICES:

To help an eligible recipient under 21 years of age who is in need of behavior management intervention receive services, MAD pays for behavior management services (BMS) as part of the EPSDT program and when the need for BMS is identified in a tot to teen health check screen or other diagnostic evaluation (see 42 CFR Section 441.57). BMS services are designed to provide highly supportive and structured therapeutic behavioral interventions to maintain the eligible recipient in their home or community. BMS assists in reducing or preventing inpatient hospitalizations or out-of-home residential placement of the eligible recipient through use of teaching, training and coaching activities designed to assist them in acquiring, enhancing, and maintaining the life, social and behavioral skills needed to function successfully within their home and community settings. BMS is provided as part of a comprehensive approach to treatment and in conjunction with other services as indicated in the eligible recipient's comprehensive behavioral health treatment plan. BMS is not provided as a stand-alone service but delivered as part of an integrated plan of services to maintain eligible recipients in their communities as an alternative to out-of-home services.

A. Eligible providers: An agency must be certified by CYFD to provide BMS services per 7.20.11 NMAC. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

B. Coverage criteria: MAD reimburses for behavior management services specified in the eligible recipient's individualized treatment plan which are designed to improve their performance in targeted behaviors, reduce emotional and behavioral episodic events, increase social skills, and enhance behavioral skills through a regimen of positive intervention and reinforcement.

(1) Implementation of the eligible recipient's BMS treatment plan, which includes crisis planning, must be based on a clinical assessment that includes identification of skills deficits that will benefit from an integrated program of therapeutic services. A detailed description of required elements of the assessment and treatment plan are found in the BH policy and billing manual.

(2) 24-hour availability of appropriate staff or implementation of crisis plan, which may include referral, to respond to the eligible recipient's crisis situations.

(3) Supervision of behavioral management staff by an independent level practitioner is required for this service (8.321.2.9 NMAC). Policies governing supervisory responsibilities are detailed in the BH policy and billing manual. The supervisor must ensure that:

(a) a clinical assessment of the eligible recipient is completed upon admission into BMS. The clinical assessment identifies the need for BMS as medically necessary to prevent inpatient hospitalizations or out-of-home residential placement of the eligible recipient;

(b) the assessment is signed by the recipient or their parent or legal guardian; and

(c) the BMS worker receives documented supervision for a minimum of two hours per month dependent on the complexity of the needs presented by recipients and the supervisory needs of the BMS worker.

(4) An eligible recipient's treatment plan must be reviewed at least every 30 calendar days after implementation of the comprehensive treatment plan. The BMS, in partnership with the client and family as well as all other relevant treatment team members such as school personnel, juvenile probation officer (JPO), and guardian ad litem (GAL), shall discuss progress made over time relating to the BMS service goals. If the BMS treatment team assesses the recipient's lack of progress over the last 30 days, the treatment plan will be amended as agreed upon during the treatment team meeting. Revised BMS treatment plans will be reviewed and approved by the BMS supervisor, which must be documented in the recipient's file.

C. Identified population: In order to receive BMS services, an eligible recipient must be under the age of 21 years, be diagnosed with a behavioral health condition and:

(1) be at-risk for out-of-home residential placement due to unmanageable behavior at home or within the community;

(2) need behavior management intervention to avoid inpatient hospitalizations or residential treatment; or

(3) require behavior management support following an institutional or other out-of-home placement as a transition to maintain the eligible recipient in their home and community.

(4) either the need for BMS is not listed on an individualized education plan (IEP), or it is listed in the supplementary aid and service section of the IEP.

D. Non-covered services: BMS services are subject to the limitations and coverage restrictions which exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general non-covered MAD behavioral health services or activities. MAD does not cover the following specific services billed in conjunction with BMS services:

(1) activities which are not designed to accomplish the objectives in the BMS treatment plan;

(2) services provided in residential treatment facilities; and

(3) services provided in lieu of services that should be provided as part of the eligible recipient's individual educational plan (IEP) or individual family treatment plan (IFTP);

(4) BMS is not a reimbursable service through the medicaid school-based service program.

E. Reimbursement: A BMS agency must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and 8.302.2 NMAC.

[8.321.2.17 NMAC - Rp, 8.321.2.16 NMAC, 12/10/2024]

8.321.2.18 COGNITIVE ENHANCEMENT THERAPY (CET):

CET services provide treatment service for an eligible recipient 18 years of age or older with cognitive impairment associated with the following serious mental illnesses: schizophrenia, bipolar disorder, major depression, recurrent schizoaffective disorder, or autism spectrum disorder. CET uses an evidence-based model to help eligible recipients with these conditions improve their processing speed, cognition, and social cognition. Any CET program must be approved by the BHSD and ensure that treatment is delivered with fidelity to the evidence-based model.

A. Eligible providers: Services may only be delivered through a MAD enrolled provider after demonstrating that the agency meets all the requirements of CET program services and supervision. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

(1) CET services are provided through an integrated interdisciplinary approach by staff with expertise in the mental health condition being addressed and have received training from a state approved trainer. Staff can include independently licensed behavioral health practitioners, non-independently licensed behavioral health practitioners, RNs, or CSWs. For every CET cohort of eligible recipients, there must be two practitioners who have been certified in the evidence-based practice by a state approved trainer or training center. The agency shall retain documentation of the staff

that has been trained. The size of each cohort who receives CET must conform to the evidence-based practice (EBP) model in use.

(2) The agency must hold an approval letter issued by BHSD certifying that the staff have participated in an approved training or have arranged to participate in training and have supervision by an approved trainer prior to commencing services.

(3) Weekly required participation in hourly fidelity monitoring sessions with a certified CET trainer for all providers delivering CET who have not yet received certification.

B. Covered services:

(1) CET services include:

(a) weekly social cognition groups with enrollment according to model fidelity;

(b) weekly computer skills groups with enrollment according to model fidelity;

(c) weekly individual face-to-face coaching sessions to clarify questions and to work on homework assignments;

(d) initial and final standardized assessments to quantify social-cognitive impairment, processing speed, cognitive style; and

(e) individual treatment planning.

(2) The duration of an eligible recipient's CET intervention is based on model fidelity. Each individual participating in CET receives up to three hours of group treatment and up to one hour of individual face-to-face coaching.

C. Identified population: CET services are provided to an eligible adult recipient 18 years of age and older with cognitive impairment associated with the following serious mental illnesses:

(1) schizophrenia;

(2) bipolar disorder;

(3) major depression, recurrent;

(4) schizoaffective disorder; or

(5) autism spectrum disorder.

D. Non-covered services:

(1) CET services are subject to the limitation and coverage restrictions which exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general non-covered MAD behavioral health services and 8.310.2 NMAC for MAD general non-covered services.

(2) MAD does not cover the CET during an acute inpatient stay.

E. Reimbursement: See Subsection H of 8.321.2.9 NMAC for MAD behavioral health general reimbursement.

(1) For CET services, the agency must submit claims for reimbursement on the CMS-1500 claim form or its successor.

(2) Core CET services are reimbursed through a bundled rate. Medications and other mental health therapies are billed and reimbursed separately from the bundled rate.

(3) CET services furnished by a CET team member are billed by and reimbursed to a MAD enrolled CET agency whether the team member is under contract with or employed by the CET agency.

(4) CET services not provided in accordance with the conditions for coverage as specified in 8.321.2.9 NMAC are not a MAD covered service and are subject to recoupments.

(5) Billing instructions for CET services are detailed in the BH policy and billing manual.

[8.321.2.18 NMAC - Rp, 8.321.2.17 NMAC, 12/10/2024]

8.321.2.19 COMPREHENSIVE COMMUNITY SUPPORT SERVICES (CCSS):

To help a NM eligible recipient receive medically necessary services, MAD pays for covered CCSS. This culturally sensitive service coordinates and provides services and resources to an eligible recipient and their family necessary to promote recovery, rehabilitation, and resiliency. CCSS identifies and addresses the barriers that impede the development of skills necessary for independent functioning in the eligible recipient’s community, as well as strengths that may aid the eligible recipient and family in the recovery or resiliency process.

A. Eligible providers and practitioners:

(1) See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements. To provide CCSS services, a provider must receive CCSS training through the state or state approved trainer. The children, youth and families department

(CYFD) will provide background checks for CCSS direct service and clinical staff for child/youth CCSS programs.

(2) Clinical services and supervision by licensed behavioral health practitioners must be in accord with their respective licensing board regulations:

(a) minimum staff qualifications for the community support worker (CSW):

(i) must be at least 18 years of age; and

(ii) hold a bachelor's degree in a human services field from an accredited university and have one year of relevant experience with the target population; or

(iii) hold an associate's degree and a minimum of two years of experience working with the target population; or

(iv) hold an associate's degree in approved curriculum in behavioral health coaching; no experience necessary; or

(v) have a high school diploma or equivalent and a minimum of three years of experience working with the target population; or

(vi) hold a valid certification in good standing from the NM credentialing board as a certified peer support worker (CPSW), a certified family peer support worker (CFPSW) or a certified youth peer support specialist (CYPSS); and

(b) minimum staff qualifications for certified peer support workers:

(i) must hold a valid certification in good standing from the NM credentialing board for behavioral health professionals; and

(ii) meet all qualifications defined in 8.321.2.42 NMAC.

(b) minimum staff qualifications for the CCSS program supervisor:

(i) must hold a bachelor's degree in a human services field from an accredited university; and

(ii) have four years relevant experience in the delivery of case management or CCSS with the target population; and

(iii) have one year demonstrated supervisory experience.

(c) minimum staff qualifications for the clinical supervisor:

(i) must be RLD board approved clinical supervisor;

(ii) provide documented clinical supervision on a regular basis to the CSW, CPSW, CFPSW, and CYPSS; and

(iii) obtain a continuing education unit (CEU) training certificate related to providing clinical supervision of non-clinical staff.

(3) The clinical supervisor and the CCSS program supervisor may be the same individual.

(4) Documentation requirements: In addition to the standard client record documentation requirements for all services, the following is required for CCSS:

(a) case notes identifying all activities and location of services;

(b) duration of service span; and

(c) description of the service provided with reference to the CCSS treatment plan and related goals.

B. Coverage criteria:

(1) CCSS must be identified in the treatment plan for an individual. When identifying a need for this service, if the provider agency is using the “treat frst” clinical model, they may be placed in this service for up to four encounters without having had a psychiatric diagnostic evaluation with the utilization of a provisional diagnosis for billing purposes. After four encounters, an individual must have a comprehensive needs assessment, a diagnostic evaluation, and a CCSS treatment plan. Further details related to the CCSS treatment plan can be accessed in the BH policy and billing manual.

(2) A maximum of 16 units per each admission or discharge may be billed concurrently with:

(a) accredited residential treatment center (ARTC);

(b) adult accredited residential treatment center (AARTC);

(c) residential treatment center (RTC);

(d) group home service;

(e) inpatient hospitalization; or

(f) treatment foster care (TFC).

C. Covered services: The purpose of CCSS is to provide an eligible recipient and their family with the services and resources necessary to promote recovery, rehabilitation, and resiliency. Community support services address goals specifically in the following areas of the eligible recipient's activities: independent living; learning; working; socializing and recreation. CCSS consists of a variety of interventions, based on coaching and addressing barriers that impeded the development of skills necessary for independent functioning in the community. Community support services also include assistance with identifying and coordinating services and supports identified in an individual's treatment plan; supporting an individual and family in crisis situations; and providing individual interventions to develop or enhance an individual's ability to make informed and independent choices.

D. Identified population:

(1) CCSS is provided to an eligible recipient under 21 years who meets the NM state criteria for SED/neurobiological/behavioral disorders; and

(2) CCSS is provided to an eligible recipient 21 years and older whose diagnosis or diagnoses meet the NM state criteria of SMI and for an eligible recipient with a diagnosis that does not meet the criteria for SMI, but for whom time limited CCSS would support their recovery and resiliency process; and

(3) Recipients with a moderate to severe SUD according to the current DSMV or its successor; and

(4) Recipients with a co-occurring disorder or dually diagnosed with a primary diagnosis of mental illness.

E. Non-covered services: CCSS is subject to the limitations and coverage restrictions which exist for other MAD covered services. See 8.310.2 NMAC for a detailed description of MAD general non-covered services and subsection G of 8.321.2.9 NMAC for all non-covered MAD behavioral health services or activities. Specifically, CCSS may not be billed in conjunction with multi-systemic therapy (MST) or ACT services, or resource development by New Mexico corrections department (NMCD).

F. Reimbursement: CCSS agencies must submit claims for reimbursement on the CMS-1500 claim form or its successor; see 8.302.2 NMAC. Once enrolled, a provider receives instructions on how to access documentation, billing, and claims processing information. General reimbursement instructions are found in this rule under Subsection H of 8.321.2.9 NMAC. Billing instructions for CCSS are found in the BH policy and billing manual.

[8.321.2.19 NMAC - Rp, 8.321.2.18 NMAC, 12/10/2024]

8.321.2.20 CRISIS INTERVENTION SERVICES:

MAD pays for a continuum of community-based crisis intervention services which are immediate, and designed to ameliorate, prevent, or minimize a crisis episode or to prevent inpatient psychiatric hospitalization, medical detoxification, emergency department use, multiple system involvement or incarceration. Services are provided to eligible recipients who are unable to use their current coping strategies and need immediate support. Crisis intervention services include telephone crisis services; face-to-face crisis triage and intervention; mobile crisis services; and crisis stabilization services.

A. Coverage criteria:

(1) **Telephone crisis services:**

(a) agencies providing telephone crisis services must develop policy and procedures regarding telephone crisis services which must be made available to MAD or is designee upon request;

(b) assurance that a backup crisis telephone system is available if the toll-free number is not accessible;

(c) assurance that calls are answered by a person trained in crisis response as described in the BH policy and billing manual;

(d) processes to screen calls, evaluate crisis situation, provide referral to mobile crisis team (MCT) or mobile response and stabilization services (MRSS) when appropriate, and provide counseling and consultation to crisis callers are documented and implemented;

(e) assurance that face-to-face intervention services are available immediately if clinically indicated either by the telephone service or through memorandums of understanding with referral sources;

(f) provision of a toll-free number, such as 988, and the agency's number to active clients and their support; and

(g) documentation of each phone call must be maintained and include:

(i) date, time and duration of call;

(ii) name of individual calling;

(iii) responder handling call;

(iv) description of crisis; and

(v) intervention provided, (e.g. counseling, consultation, referral, etc.).

(2) **Face-to-face clinic crisis services:**

(a) the provider shall make an immediate assessment for purposes of developing a system of triage to determine urgent or emergent needs of the person in crisis. This may include a referral to MCT or MRSS when appropriate. (Note: The immediate assessment may have already been completed as part of a telephone crisis response.)

(b) within the first two hours of the crisis event, the provider will initiate the following activities:

(i) immediately conduct the crisis assessment;

(ii) protect the individual (possibly others) and de-escalate the situation;

(iii) determine if a higher level of service or other supports are required and arrange, if applicable; and

(iv) develop or update the crisis and safety plans.

(c) follow-up: initiate telephone call or face-to-face follow up contact with individual within 24 hours of initial crisis.

(3) **Mobile crisis intervention services:**

(a) mobile crisis services provide rapid response, individual assessment, and evaluation and treatment of mental health crisis to individuals experiencing a mental health crisis or SUD crisis. A crisis is defined as a turning point in the course of anything decisive or critical in an individual's life, in which the outcome may decide whether possible negative consequences will follow mobile crisis services:

(i) are provided in two models: MCT and MRSS. MRSS is a child, youth and family specific crisis intervention and prevention service. In order to be eligible to provide services MCT and MRSS teams must be approved though the application process outlined in the BH policy and billing manual;

(ii) must be provided by a multidisciplinary team of at least two behavioral health professionals or paraprofessionals, as defined in 8.321.2.9 NMAC, that includes at minimum a RLD board approved clinical supervisor who must be available to provide real-time clinical assessment and clinical support in-person or via telehealth at any time during the initial response;

(iii) must be available where the individual is experiencing a mental health, or SUD, crisis and may not be restricted to a specific location and in the least restrictive environment available;

(iv) must be available 24 hours a day, seven days a week and 365 days per year and may not be restricted to select days or times;

(v) must be person and family centered as well as culturally, linguistically, and developmentally appropriate;

(vi) may be provided prior to an intake evaluation for mental health services; and

(vii) may not be provided in a hospital or other facility setting.

(b) at a minimum, mobile crisis services including initial response of conducting immediate crisis screening an assessment, mobile crisis stabilization and de-escalation, and coordination with and referral to health social and other services as needed to effect symptom reduction, harm reduction or to safely transition an individual in acute crisis to the appropriate environment for continued stabilization. MCT and MRSS teams must:

(i) be trained in trauma-informed care, de-escalation strategies, and harm reduction;

(ii) be able to respond in a timely manner;

(iii) have the ability to provide screening and assessment, stabilization and de-escalation, and coordination and referral to services as appropriate;

(iv) ensure language access for individuals with limited-English proficiency, those who are deaf or hard of hearing, and comply with all applicable requirements under the Americans with Disabilities Act, Rehabilitation Act, and Civil Rights Act;

(v) maintain relationships with relevant community partners, including medical and behavioral health providers, primary care providers, community health centers, crisis respite centers, and managed care organizations for the purpose of coordination and referral to services; and

(vi) be able to administer naloxone.

(c) MCTs and MRSS may connect individuals to facility-based care as needed, through warm hand-offs and coordinating transportation only in situations that warrant transition to other locations or higher levels of care. Services may also include telephone follow-up or intervention services for up to 72 hours after the initial mobile response. Follow-up may include additional intervention and de-escalation services as well as referral to care as appropriate.

(4) **Mobile response and stabilization services (MRSS):**

(a) MRSS must comply with requirements outlined in Paragraph (3) of Subsection A of 8.321.2.19 NMAC as well as the meet the following criteria:

(i) provider response and stabilization services to individuals 0-21 years of age;

(ii) provide immediate, in-person, response to de-escalate crisis or safety and stability event that is defined by the family. A safety and stability event is defined as the perception of an event or situation as an intolerable difficulty that exceeds the resources and coping mechanisms of the caregiver; an unexpected or out of control event that causes pain, suffering, or instability for the family; an event occurs that could result in movement to a higher level of care or a restrictive setting; or the caregiver does not know what to do about a child's behavior; and

(iii) provide up to 56 days of stabilization service support, follow-up and navigation to reduce the likelihood of future crisis or out of home placement.

(b) MRSS aligns with the children's system of care (SOC) approach in NM. MRSS supports teams to effectively coordinate within the state's children's behavioral health service array including access to community support and resources.

(5) **Crisis stabilization services:** Outpatient, clinic-based, stabilization services for substance use and co-occurring disorder crises which includes ASAM level two withdrawal management. Crisis stabilization services include assessment, safety planning and coordination with appropriate resources for up to 24 hours. This service is available across the lifespan.

B. Eligible practitioners:

(1) **Telephone crisis services:**

(a) individual crisis workers who are covering the crisis telephone must meet the following criteria:

(i) CPSW with one year work experience with individuals with behavioral health condition;

(ii) bachelor level community support worker employed by the agency with one year work experience with individuals with a behavioral health condition;

(iii) RN with one year work experience with individuals with behavioral health condition;

(iv) LMHC with one year work experience with individuals with behavioral health condition;

(v) LMSW with one year work experience with individuals with behavioral health condition; or

(vi) psychiatric physician assistant;

(vii) LADAC; or

(viii) LSAA with one year of work experience with individuals with behavioral health conditions.

(b) Supervision by a:

(i) psychiatrist; or

(ii) RLD board approved clinical supervisor.

(c) training:

(i) 20 hours of crisis intervention training that addresses the developmental needs of the full age span of the target population by a licensed independent mental health professional with two years crisis work experience; and

(ii) 10 hours of crisis related continuing education annually.

(2) **Mobile crisis intervention services for MCT and MRSS:**

(a) services must be delivered by an agency designated as an MCT or MRSS through the approval process defined in the BH policy and billing manual and must be an enrolled medicaid provider. Allowable agency types are identified in Subsection D of 8.321.2.9 NMAC;

(b) services must be delivered by a minimum of a two-person team that includes at minimum a RLD board approved clinical supervisor who must be available to provide real-time clinical assessment and clinical support in-person or via telehealth;

(c) additional team members may include:

(i) a licensed mental health therapist;

(ii) certified peer support worker;

(iii) certified family peer support worker;

(iv) certified youth peer support specialist;

(v) community support worker;

(vi) community health worker;

(vii) community health representative;

(viii) certified prevention specialist;

(ix) registered nurse;

(x) emergency medical service provider;

(xi) licensed alcohol and drug abuse counselor (LADAC);

(xii) non-independently licensed behavioral health professionals as defined in 8.321.2.9 NMAC;

(xiii) emergency medical technicians;

(xiv) licensed practical nurses;

(xv) other certified or credentialed individuals;

(xvi) tribal 638 or IHS facilities may request a waiver to the staffing requirements outlined above for MRSS by submitting a staffing plan to the department as defined in the BH billing and policy manual.

(3) Crisis stabilization services: staffing must include RLD board approved clinical supervisor and:

(a) one registered nurse (RN) licensed by the NM board of nursing with experience or training in crisis triage and managing intoxication and withdrawal management when providing ASAM level two detoxification services;

(b) one regulation and licensing department (RLD) master's level licensed mental health professional on-site during all hours of operation;

(c) certified peer support worker, certified family per support worker, or certified youth peer support worker, on-site or available for on-call response during all hours of operation; and

(d) board certified physician or certified nurse practitioner licensed by the NM board of nursing either on-site or on call.

C. Covered services:

(1) **Telephone crisis services:**

(a) the screening of calls, evaluation of the crisis situation and provision of counseling and consultation to the crisis callers;

(b) referrals to appropriate mental health professions, where applicable;

(c) maintenance of telephone crisis communication until a face-to-face response occurs, as applicable.

(2) **Face-to-face clinic crisis services:**

(a) crisis assessment;

(b) other screening, as indicated by assessment;

(c) brief intervention or counseling; and

(d) referral to needed resource.

(3) **Mobile crisis intervention services:**

(a) immediate crisis screening and assessment;

(b) other screening, as indicated by assessment;

(c) mobile crisis stabilization and de-escalation and crisis prevention activities specific to the needs of the individual;

(d) coordination with and referral to health, social, and other service as needed to effect symptom reduction harm reduction or to safely transition person in acute crisis to the appropriate environment for continued stabilization;

(e) warm hand off and coordination of transportation in situations that warrant transition to other locations; and

(f) telephonic follow-up interventions for up to 72 hours after the initial mobile response. Follow-up may include additional intervention and de-escalation services as well as referral to care as appropriate.

(4) **Mobile crisis intervention services for MRSS:** includes all mobile crisis intervention defined in Paragraph (3) of Subsection C of 8.321.2.19 and up to 56 days of stabilization services.

(5) **Crisis stabilization services:**

(a) ambulatory withdrawal management includes:

(i) evaluation, withdrawal management and referral services under a defined set of physician approved policies and clinical protocols. The physician does not have to be on-site, but available during all hours of operation;

(ii) clinical consultation and supervision for bio-medical, emotional, behavioral, and cognitive problems;

(iii) comprehensive medical history and physical examination of recipient at admission;

(iv) psychological and psychiatric consultation;

(v) conducting or arranging for appropriate laboratory and toxicology test;

(vi) assistance in accessing transportation services for recipients who lack safe transportation.

(b) crisis stabilization includes but is not limited to:

(i) crisis triage that involves making crucial determinations within several minutes about an individual’s course of treatment;

(ii) screening and assessment;

(iii) de-escalation and stabilization;

(iv) brief intervention or psychological counseling;

(v) peer support; and

(vi) prescribing and administering medication, if applicable.

(c) navigational services to support individuals in the community include assistance with:

(i) prescription and medication assistance;

(ii) arranging for temporary or permanent housing;

(iii) family or caregiver and natural support group planning;

(iv) outpatient behavioral health referrals and appointments; and

(v) other services determined through the assessment process.

D. Reimbursement: See Subsection H of 8.321.9 NMAC for MAD behavioral health general reimbursement requirements. See the BH policy and billing manual for reimbursement specific to crisis intervention services.

[8.321.2.20 NMAC - Rp, 8.321.2.19 NMAC, 12/10/2024]

8.321.2.21 CRISIS TRIAGE CENTER:

MAD pays for a set of services, either outpatient or residential, to eligible adults and youth 14 years of age and older, to provide voluntary and involuntary stabilization of behavioral health crises including emergency mental health evaluation and care. Crisis triage centers (CTC) shall provide emergency screening and evaluation services 24-hours a day, seven days a week. Involuntary admissions are for individuals who have been determined to be a danger themselves or others and are governed by the requirements of the New Mexico mental health and developmental disabilities code, 43-1-1 through 43-1-21 NMSA 1978.

A. Coverage criteria for CTCs which include residential care:

(1) The CTC shall provide emergency screening, and evaluation services 24-hours a day, seven days a week and shall admit 24-hours a day seven days a week and discharge seven days a week;

(2) Readiness for discharge shall be reviewed in collaboration with the recipient every day;

(3) An independently licensed mental health practitioner or non-independent mental health practitioner under the supervision of RLD board-approved clinical supervisor must assess each individual with the assessment focusing on the stabilization needs of the client;

(4) The assessment must include medical and mental health history and status, the onset of the illness, the presenting circumstances, risk assessment, cognitive abilities, communication abilities, social history and history of trauma;

(5) A licensed mental health professional must document a crisis stabilization plan to address needs identified in the assessment which must also include criteria describing evidence of stabilization and either transfer or discharge criteria;

(6) The CTC identifies recipients at high risk of suicide or intentional self-harm, and subsequently engages these recipients through solution-focused and harm-reducing methods;

(7) Education and program offerings are designed to meet the stabilization and transfer of recipients to a different level of care;

(8) The charge nurse, in collaboration with a behavioral health practitioner, shall make the determination as to the time and manner of transfer to ensure no further deterioration of the recipient during the transfer between facilities, and shall specify the benefits expected from the transfer in the recipient's record;

(9) The facility shall develop policies and procedures addressing risk assessment and mitigation including, but not limited to: assessments, crisis intervention plans, treatment, approaches to supporting, engaging and problem solving, staffing, levels of observation and documentation. The policies and procedures must prohibit seclusion and address physical restraint, if used, and the facility's response to clients that present with imminent risk to self or others, assaultive and other high-risk behaviors;

(10) Use of seclusion is prohibited;

(11) The use of physical restraint must be consistent with federal and state laws and regulation;

(12) Physical restraint, as defined in the BH policy and billing manual, shall be used only as an emergency safety intervention of last resort to ensure the physical safety of the client and others, and shall be used only after less intrusive or restrictive interventions have been determined to be ineffective;

(13) If serving both youth and adult populations, the service areas must be separate; and

(14) If an on-site laboratory is part of services, the appropriate clinical laboratory improvement amendments (CLIA) license must be obtained.

B. Coverage criteria for CTCs which are outpatient only: Paragraph (3) through (14) of Subsection A of 8.321.2.21 NMAC are conditions of coverage for outpatient only services.

C. Eligible providers and practitioners:

(1) A provider agency licensed through the department of health as a crisis triage center offering one of the following types of service:

(a) a CTC structured for less than 24-hour stays providing only outpatient withdrawal management or other stabilization services;

(b) a CTC providing outpatient and residential crisis stabilization services; or

(c) a CTC providing residential crisis stabilization services.

(2) Practitioners must be contracted or employed by the provider agency as part of its crisis triage center service delivery.

(3) All providers must be licensed in NM for services performed in NM. For services performed by providers licensed outside of NM, a provider's out-of-state license may be accepted in lieu of licensure in NM if the out-of-state licensure requirements are similar to those of the state of NM.

(4) For services provided under the public health service including IHS, providers must meet the requirements of the public health service corps.

(5) The facility shall maintain sufficient staff including supervision and direct care and mental health professionals to provide for the care of residential and non-residential clients served by the facility, based on the acuity of client needs.

(6) The following individuals and practitioners, working within the scope of their licensure, must be contracted or employed by the provider agency as part of its crisis triage center service delivery:

(a) an on-site administrator which can be the same person as the clinical director. The administrator is specifically assigned to crisis triage center service oversight and administrative responsibilities and:

(i) is experienced in acute mental health; and

(ii) is at least 21 years of age; and

(iii) holds a minimum of a bachelor's degree in the human services field; or

(iv) is a registered nurse (RN) licensed by the NM board of nursing with experience or training in acute mental health treatment.

(b) a full time clinical director that is:

(i) at least 21 years of age; and

(ii) is a licensed independent mental health practitioner or certified nurse practitioner or clinical nurse specialist with experience and training in acute mental health treatment and withdrawal management services if withdrawal management services are provided.

(c) a charge nurse on duty during all hours of operation under whom all services are directed, with the exception of services provided by the physician and the licensed independent mental health practitioner, and who is:

(i) at least 18 years of age; and

(ii) a RN licensed by the NM board of nursing with experience in acute mental health treatment and withdrawal management services, if withdrawal management services are provided. This requirement may be met through access to a supervising nurse who is available via telehealth.

(d) a regulation and licensing department (RLD) master's level licensed mental health practitioner;

(e) certified peer support workers (CPSW) holding a certification by the NM credentialing board for behavioral health professionals as a certified peer support worker staffed appropriate to meet the client needs 24 hours a day seven days a week;

(f) an on-call physician during all hours of operation who is a physician licensed to practice medicine (MD) or osteopathy (DO), or a licensed certified nurse practitioner (CNP), or a licensed clinical nurse specialist (CNS) with behavioral health experience as described in 8.310.3 NMAC;

(g) a part time psychiatric consultant or prescribing psychologist, hours determined by size of center, who is a physician (MD or DO) licensed by the board of medical examiners or board of osteopathy and is board eligible or board certified in psychiatry as described in 8.321.2 NMAC, or a prescribing psychologist licensed by the board of psychologist examiners or psychiatric certified nurse practitioner as licensed by the board of nursing. These services may be provided through telehealth;

(h) at least one staff trained in basic cardiac life support (BCLS), the use of the automated external defibrillator (AED) equipment, and first aid shall be on duty at all times.

(7) Additional staff may include an emergency medical technician (EMT) with documentation of three hours of annual training in suicide risk assessment.

D. Identified population:

(1) An eligible recipient is 18 years of age and older who meets the crisis triage center admission criteria if the CTC is an adult only agency.

(2) If serving youth, an eligible recipient is 14 years through 17 years.

(3) Recipients may also have other co-occurring diagnoses.

(4) The CTC shall not refuse service to any recipient who meets the agency’s criteria for services, or solely based on the recipient being on a law enforcement hold or living in the community on a court ordered conditional release.

E. Covered services:

(1) Comprehensive medical history and physical examination of recipient at admission;

(2) Development and update of the assessment and plan as described in the BH policy and billing manual;

(3) Crisis stabilization including, but not limited to:

(a) crisis triage that involves making crucial determinations within several minutes about an individual's course of treatment;

(b) screening and assessment as described in the BH policy and billing manual;

(c) de-escalation and stabilization;

(d) brief intervention and psychological counseling;

(e) peer support.

(4) Ambulatory withdrawal management (non-residential) based on American society of addiction medicine (ASAM) 2.1 level of care includes:

(a) evaluation, withdrawal management and referral services under a defined set of physician approved policies and clinical protocols;

(b) clinical consultation and supervision for bio-medical, emotional, behavioral, and cognitive problems;

(c) psychological and psychiatric consultation; and

(d) other services determined through the assessment process.

(5) Clinically or medically monitored withdrawal management in residential setting, if included, not to exceed services described in level 3.7 of the current ASAM patient placement criteria.

(6) Prescribing and administering medication, if applicable.

(7) Conducting or arranging for appropriate laboratory and toxicology testing.

(8) Navigational services for individuals transitioning to the community when available include:

(a) prescription and medication assistance;

(b) arranging for temporary or permanent housing;

(c) family and natural support group planning;

(d) outpatient behavioral health referrals and appointments; and

(e) other services determined through the assessment process.

(9) Assistance in accessing transportation services for recipients who lack safe transportation.

F. Non-covered services: Services furnished by a CTC are subject to the limitations and coverage restrictions that exist for other MAD covered services. See 8.310.2 and 8.321.2 NMAC for general non-covered services. Specific to crisis triage services, the following apply:

(1) Acute medical alcohol detoxification that requires hospitalization as diagnosed by the agency physician or certified nurse practitioner.

(2) Medical care not related to crisis triage intervention services beyond basic medical care of first aid and CPR.

G. Prior authorization and utilization review: All MAD services are subject to utilization review (UR) for medical necessity and program compliance. The provider agency must contact HCA or its authorized agents to request UR instructions. It is the provider agency's responsibility to access these instructions or ask for hard copies to be provided, to understand the information provided, to comply with the requirements, and to obtain answers to questions not covered by these materials.

(1) **Prior authorization:** Crisis triage services do not require prior authorization and are provided as approved by the CTC provider agency. Other procedures or services may require prior authorization from MAD or its designee when such services require prior authorization for other MAD eligible recipients, such as inpatient admission. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process, including after payment has been made. It is the provider agency's responsibility to contact MAD or its designee and review documents and instructions available from MAD or its designee to determine when prior authorization is necessary.

(2) **Timing of UR:** A UR may be performed at any time during the service, payment, or post payment processes. In signing the MAD PPA, a provider agency agrees to cooperate fully with MAD or its designee in their performance of any review and agree to comply with all review requirements.

H. Reimbursement: Crisis triage center services are reimbursed through an agency specific cost based bundled rate relative to type of services rendered. Billing details are provided in the BH policy and billing manual.

[8.321.2.21 NMAC - Rp, 8.321.2.20 NMAC, 12/10/2024]

8.321.2.22 DAY TREATMENT:

MAD pays for services provided by a day treatment provider as part of the EPSDT program for eligible recipients under 21 years of age (42 CFR section 441.57). The need for day treatment services (DTS) must be identified through an EPSDT tot to teen health check or other diagnostic evaluation. Day treatment services include eligible recipient and parent education, skill and socialization training that focus on the amelioration of functional and behavioral deficits. Intensive coordination and linkage with the eligible recipient's school or other child serving agencies is included. The goals of the service must be clearly documented utilizing a clinical model for service delivery and support.

A. Eligible providers: An agency must be certified by CYFD to provide day treatment services per 7.20.11 NMAC in addition to meeting the general provider enrollment requirements in Subsections A and B of 8.321.2.9 NMAC.

B. Coverage criteria:

(1) Day treatment services must be provided in a school setting or other community setting; however, there must be a distinct separation between these services in staffing, program description and physical space from other behavioral health services offered.

(2) A family who is unable to attend the regularly scheduled sessions at the day treatment facility due to transportation difficulties or other reasons may receive individual family sessions scheduled in the family's home by the day treatment agency.

(3) Services must be based upon the eligible recipient's individualized treatment plan goals and should include interventions with a significant member of the family which are designed to enhance the eligible recipients' adaptive functioning in their home and community.

(4) The certified DTS provider delivers adequate care and continuous supervision of the client at all times during the course of the client's DTS program participation.

(5) 24-hour availability of appropriate staff or implementation of crisis plan (which may include referral) to respond to the eligible recipient's crisis situation.

(6) Only those activities of daily living and basic life skills that are assessed as a clinical problem should be addressed in the treatment plans and deemed appropriate to be included in the eligible recipient's individualized program.

(7) Day treatment services are provided at a minimum of four hours of structured programming per day, two to five days per week based on acuity and clinical needs of the eligible recipient and their family as identified in the treatment plan.

C. Identified population: MAD covers day treatment services for an eligible recipient under age 21 who:

(1) is diagnosed with an emotional, behavioral, and neurobiological or SUD;

(2) may be at high risk of out-of-home placement;

(3) requires structured therapeutic services in order to attain or maintain functioning in major life domains of home, work or school; and

(4) through an assessment process, has been determined to meet the criteria established by MAD or its designee for admission to day treatment services.

D. Covered services:

(1) Day treatment services are non-residential specialized services and training provided during or after school, weekends or when school is not in session. Services include parent and eligible recipient education, and skills and socialization training that focus on the amelioration of functional and behavioral deficits. Intensive coordination and linkage with the eligible recipient's school or other child serving agencies are included. Other behavioral health services (e.g. outpatient counseling, ABA) may be provided in addition to the day treatment services when the goals of the service are clearly documented, utilizing a clinical model for service delivery and support.

(2) The goal of day treatment is to maintain the eligible recipient in their home or community environment.

(3) The service is designed to complement and coordinate with the eligible recipient's educational system.

(4) Services must be identified in the treatment plan, including crisis planning, which is formulated on an ongoing basis by the treatment team. The treatment plan guides and records for each client: individualized therapeutic goals and objectives; individualized therapeutic services provided; and individualized discharge and aftercare plans. Treatment plan requirements are detailed in the BH policy and billing manual.

(5) The following services must be furnished by a day treatment service agency to receive reimbursement from MAD:

(a) the assessment and diagnosis of the social, emotional, physical and psychological needs of the eligible recipient and their family for treatment planning ensuring that evaluations already performed are not unnecessarily repeated;

(b) development of individualized treatment and discharge plans and ongoing reevaluation of these plans;

(c) regularly scheduled individual, family, multifamily, group or specialized group sessions focusing on the attainment of skills, such as managing anger, communicating and problem-solving, impulse control, coping and mood management, chemical dependency and relapse prevention, as defined in the DTS treatment plan;

(d) family training and family outreach to assist the eligible recipient in gaining functional and behavioral skills;

(e) supervision of self-administered medication, as clinically indicated;

(f) therapeutic recreational activities that are supportive of the clinical objectives and identified in each eligible recipient's individualized treatment plan;

(g) 24-hour availability of appropriate staff or implementation of crisis plan, which may include referral, to respond to the eligible recipient's crisis situations;

(h) advance schedules are posted for structured and supervised activities which include individual, group and family therapy, and other planned activities appropriate to the age, behavioral and emotional needs of the client pursuant to the treatment plan.

E. Non-covered services: Day treatment services are subject to the limitations and coverage restrictions which exist for other MAD covered services. See subsection G of 8.321.2.9 NMAC for non-covered MAD behavioral health services or activities. MAD does not cover the following specific services billed in conjunction with day treatment services:

(1) educational programs;

(2) pre-vocational training;

(3) vocational training which is related to specific employment opportunities, work skills or work settings;

(4) any service not identified in the treatment plan;

(5) recreation activities not related to the treatment plan;

(6) leisure time activities such as watching television, movies or playing computer or video games;

(7) transportation reimbursement for the therapist who delivers services in the family's home; or

(8) a partial hospitalization program and residential programs cannot be offered at the same time as day treatment services.

F. Prior authorization: See Subsection J of 8.321.2.9 NMAC for general behavioral health services prior authorization requirements. This service does not require prior authorization.

G. Reimbursement:

(1) All services described in Subsection D of 8.321.2.22 NMAC are covered in the bundled day treatment rate;

(2) Day treatment providers must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements, see 8.302.2 NMAC. Once enrolled, a provider receives instructions on how to access documentation, billing, and claims processing information.

[8.321.2.22 NMAC - Rp, 8.321.2.21 NMAC, 12/10/2024]

8.321.2.23 FAMILY SUPPORT SERVICES (FSS) (MCO reimbursed only):

Family support services are community-based, face-to-face interactions with children, youth or adults and their family, available to managed care members only. Family support services enhance the member family's strengths, capacities, and resources to promote the member's ability to reach the recovery and resiliency behavioral health goals they consider most important. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible providers:

(1) Family support service providers and staff shall meet standards established by the state of NM and documented in the BH policy and billing manual.

(2) Family support service staff and supervision by licensed behavioral health practitioners must be in accordance with their respective licensing board regulations or credentialing standards for peer support workers or family peer support workers.

(3) Minimum staff qualifications for peer support workers or family peer support workers includes maintenance of credentials as a peer support worker or family peer support worker in NM.

(4) Minimum staff qualifications for the clinical supervisor:

(a) must be a licensed RLD board approved clinical supervisor (i.e., psychiatrist, psychologist, LISW, LPCC, LMFT, or psychiatrically certified nurse practitioner) practicing under the scope of their NM licensure;

(b) have four years' relevant experience in the delivery of case management or comprehensive community support services or family support services with the target population;

(c) have one year demonstrated supervisory experience; and

(d) have completed both basic and supervisory training regarding family support services.

B. Identified population:

(1) Members with parents, family members, legal guardians, and other primary caregivers who are living with or closely linked to the member and engaged in the plan of care for the member.

(2) Members are young persons diagnosed with a severe emotional disturbance or adults diagnosed with serious mental illness as defined by the state of NM.

C. Covered services:

(1) Minimum required family support services activities:

(a) review of the existing social history and other relevant information with the member and family;

(b) review of the existing treatment plans;

(c) identification of the member and family functional strengths and any barriers to recovery;

(d) participation in treatment planning and delivery with the member and family; and

(e) adherence to the applicable code of ethics.

(2) The specific services provided are tailored to the individual needs of the member and family according to the individual's treatment or treatment plan and include but are not limited to support needed to:

(a) prevent members from being placed into more restrictive setting; or

(b) quickly reintegrate the member to their home and local community; or

(c) direct the member and family towards recovery, resiliency, restoration, enhancement, and maintenance of the member's functioning; or

(d) increase the family's ability to effectively interact with the member.

(3) Family support services focus on psychoeducation, problem solving, and skills building for the family to support the member and may involve support activities such as:

(a) working with teams engaged with the member;

(b) engaging in treatment planning and service delivery for the member;

(c) identifying family strengths and resiliencies in order to effectively articulate those strengths and prioritize their needs;

(d) navigating the community-based systems and services that impact the member's life;

(e) identifying natural and community supports;

(f) assisting the member and family to understand, adjust to, and manage behavioral health crises and other challenges;

(g) facilitating an understanding of the options for treatment of behavioral health issues;

(h) facilitating an understanding of the principles and practices of recovery and resiliency; and

(i) facilitating effective access and use of the behavioral health service system to achieve recovery and resiliency.

(4) Documentation requirements:

(a) notes related to all family support service interventions to include how and to what extent the activity promoted family support in relationship to the member's recovery and resilience goals and outcomes;

(b) any supporting collateral documentation.

D. Non-covered services: This service may be billed only during the transition phases from these services:

(a) accredited residential treatment center (ARTC);

(b) adult accredited residential treatment center (AARTC);

(c) residential treatment center services;

(d) group home services;

(e) inpatient hospitalization;

(f) partial hospitalization;

(g) treatment foster care; or

(h) crisis triage centers.

[8.321.2.23 NMAC - Rp, 8.321.2.22 NMAC, 12/10/2024]

8.321.2.24 INPATIENT PSYCHIATRIC CARE IN FREESTANDING PSYCHIATRIC HOSPITALS AND PSYCHIATRIC UNITS OF ACUTE CARE HOSPITALS:

To assist the eligible recipient in receiving necessary mental health services, MAD pays for inpatient psychiatric care furnished in freestanding psychiatric hospitals as part of the EPSDT program (42 CFR 441.57). A freestanding psychiatric hospital (an inpatient facility that is not a unit in a general acute care hospital), with more than 16 beds is an institution for mental disease (IMD) subject to the federal medicaid IMD exclusion that prohibits medicaid payment for inpatient stays for eligible recipients aged 22 through 64 years. Coverage of stays in a freestanding psychiatric hospital that is considered an IMD are covered only for eligible recipients up to age 21 and over age 64. A managed care organization making payment to an IMD as an in lieu of service may pay for stays that do not exceed 15 days. For stays in an IMD that include a SUD refer to 8.321.2.25 NMAC. For freestanding psychiatric hospitals, if the eligible recipient who is receiving inpatient services reaches the age of 21 years, services may continue until one of the following conditions is reached: until the date the eligible recipient no longer requires the services, or until the date the eligible recipient reaches the age of 22 years, whichever occurs first. The need for inpatient psychiatric care in a freestanding psychiatric hospital must be identified in the eligible recipient’s tot to teen health check screen or another diagnostic evaluation furnished through a health check referral. Inpatient stays for eligible recipients in an inpatient psychiatric unit of a general acute care hospital are also covered. As these institutions are not considered to be IMDs, there are no age exclusions for their services.

A. Eligible providers: A MAD eligible provider must be licensed and certified by the NM DOH (or the comparable agency if in another state), comply with 42 CFR 456.201 through 456.245; and be accredited by at least one of the following:

(1) the joint commission (JC);

(2) the council on accreditation of services for families and children (COA);

(3) the commission on accreditation of rehabilitation facilities (CARF); or

(4) another accrediting organization recognized by MAD as having comparable standards; and

(5) be an enrolled MAD provider before it furnishes services, see 42 CFR sections 456.201 through 456.245.

B. Covered services: MAD covers inpatient psychiatric hospital services which are medically necessary for the diagnosis or treatment of mental illness as required by the condition of the eligible recipient.

(1) These services must be furnished by eligible providers within the scope and practice of their profession (see 8.321.2.9 NMAC) and in accordance with federal regulations; see (42 CFR 441.156);

(2) Services must be furnished under the direction of a physician;

(3) In the case of an eligible recipient under 21 years of age these services:

(a) must be furnished under the direction of a board prepared, board eligible, board-certified psychiatrist or a licensed psychologist working in collaboration with a similarly qualified psychiatrist; and

(b) the psychiatrist must conduct an evaluation of the eligible recipient, in person within 24 hours of admission.

(4) In the case of an eligible recipient under 12 years of age, the psychiatrist must be board prepared, board eligible, or board certified in child or adolescent psychiatry. The requirement for the specified psychiatrist for an eligible recipient under age 12 and an eligible recipient under 21 years of age can be waived when all of the following conditions are met:

(a) the need for admission is urgent or emergent and transfer or referral to another provider poses an unacceptable risk for adverse patient outcomes;

(b) at the time of admission, a psychiatrist who is board prepared, board eligible, or board certified in child or adolescent psychiatry, is not accessible in the community in which the facility is located;

(c) there is another facility which has a psychiatrist who is board prepared, board eligible, board certified in child or adolescent psychiatry, but the facility, is not available or is inaccessible to the community in which the facility is located; and

(d) the admission is for stabilization only and a transfer arrangement to the care of a psychiatrist who is board prepared, board eligible, board certified in child or adolescent psychiatry, is made as soon as possible with the understanding that if the eligible recipient needs transfer to another facility, the actual transfer will occur as soon as the eligible recipient is stable for transfer in accordance with professional standards.

(5) A freestanding hospital must provide the following components to an eligible recipient to receive reimbursement:

(a) performance of necessary evaluations and psychological testing for the development of the treatment plan, while ensuring that evaluations already performed are not repeated;

(b) a treatment plan and all supporting documentation must be available for review in the eligible recipient's file;

(c) regularly scheduled structured behavioral health therapy sessions for the eligible recipient, group, family, or a multifamily group based on individualized needs, as specified in the eligible recipient's treatment plan;

(d) facilitation of age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school, attendance and money management;

(e) assistance to an eligible recipient in their self administration of medication in compliance with state regulations, policies and procedures;

(f) appropriate staff available on a 24-hour basis to respond to crisis situations; determine the severity of the situation; stabilize the eligible recipient by providing support; make referrals, as necessary; and provide follow-up;

(g) a consultation with other professionals or allied caregivers regarding a specific eligible recipient;

(h) non-medical transportation services needed to accomplish treatment objectives;

(i) therapeutic services to meet the physical, social, cultural, recreational, health maintenance, and rehabilitation needs of the eligible recipient; and

(j) plans for discharge must begin upon admittance to the facility and be included in the eligible recipient's treatment plan. If the eligible recipient will receive services in the community or in the custody of CYFD, the discharge must be coordinated with those individuals or agencies responsible for post-hospital placement and services. The discharge plan must consider related community services to ensure continuity of care with the eligible recipient, their family, and school and community.

(6) MAD covers "awaiting placement days" when the MAD UR contractor determines that an eligible recipient under 21 years of age no longer meets this acute care criteria and determines that the eligible recipient requires a residential placement which cannot be immediately located. Those days during which the eligible recipient is awaiting placement to the step-down placement are termed awaiting placement days. Payment to the hospital for awaiting placement days is made at the average payment for accredited residential treatment centers plus five percent. A separate claim form must be submitted for awaiting placement days.

(7) A treatment plan must be developed by a team of professionals in consultation with an eligible recipient, their parent, legal guardian, or others in whose care the eligible recipient will be released after discharge. The plan must be developed within 72 hours of admission of the eligible recipient's admission to freestanding psychiatric hospitals. The interdisciplinary team must review the treatment plan at least every five calendar days. See the BH policy and billing manual for a description of the treatment team and plan.

C. Non-covered services: Services furnished in a freestanding psychiatric hospital are subject to the limitations and coverage restrictions which exist for other MAD covered services; see Subsection G of 8.321.2.9 NMAC for MAD general non-covered services. MAD does not cover the following specific services for an eligible recipient in a freestanding psychiatric hospital in the following situations:

(1) conditions defined only by Z codes in the current version of the international classification of diseases (ICD) or the current version of DSM;

(2) services in freestanding psychiatric hospital for an eligible recipient 22 years of age through 64, except as allowed in 8.321.2 NMAC;

(3) services furnished after the determination by MAD or its designee has been made that the eligible recipient no longer needs hospital care;

(4) formal educational or vocational services, other than those covered in Subsection B of 8.321.2.9 NMAC, related to traditional academic subjects or vocational training; MAD only covers non-formal education services if they are part of an active

treatment plan for an eligible recipient under the age of 21 receiving inpatient psychiatric services; see 42 CFR Section 441.13(b); or

(5) drugs classified as "ineffective" by the food and drug administration (FDA) drug evaluation.

D. Prior authorization and utilization review: All MAD services are subject to utilization review for medical necessity, inspection of care, and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made; see 8.310.2 and 8.310.3 NMAC.

(1) All inpatient services for an eligible recipient under 21 years of age in a freestanding psychiatric hospital require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

(2) Prior authorization of services does not guarantee that individuals are eligible for MAD services. Providers must verify that an individual is eligible for MAD services at the time services are furnished and through their inpatient stay and determine if the eligible recipient has other health insurance.

(3) A provider who disagrees with prior authorization request denials or other review decisions can request a re-review and a reconsideration; see 8.350.2 NMAC.

E. Reimbursement: A freestanding psychiatric hospital service provider must submit claims for reimbursement on the UB-04 claim form or its successor; see 8.302.2 NMAC. Once enrolled, providers receive instructions on how to access documentation, billing, and claims processing information.

(1) Reimbursement rates for NM freestanding psychiatric hospital are based on the tax equity and fiscal responsibility act (TEFRA) provisions and principles of reimbursement; see 8.311.3 NMAC. Covered inpatient services provided in a freestanding psychiatric hospital will be reimbursed at an interim rate established by HCA to equal or closely approximate the final payment rates that apply under the cost settlement TEFRA principles.

(2) If a provider is not cost settled, the reimbursement rate will be at the provider’s cost-to-charge ratio reported in the provider’s most recently filed cost report prior to February 1, 2012. Otherwise, rates are established after considering available cost-to-charge ratios, payment levels made by other payers, and MAD payment levels for services of similar cost, complexity, and duration.

(3) Reimbursement rates for services furnished by a psychiatrist and licensed Ph.D. psychologist in a freestanding psychiatric hospital are contained in 8.311.3

NMAC. Services furnished by a psychiatrist and psychologist in a freestanding psychiatric hospital cannot be included as inpatient psychiatric hospital charges.

(4) When services are billed to and paid by a MAD coordinated services contractor, the provider must also enroll as a provider with the MAD coordinated services contractor and follow that contractor's instructions for billing and for authorization of services.

(5) The provider agrees to be paid by a MCO at any amount mutually-agreed upon between the provider and MCO when the provider enters into contracts with MCO contracting with HCA for the provision of managed care services to an eligible recipient.

(a) if the provider and the HCA contracted MCO are unable to agree to terms or fail to execute an agreement for any reason, the MCO shall be obligated to pay, and the provider shall accept, one hundred percent of the "applicable reimbursement rate" based on the provider type for services rendered under both emergency and non-emergency situations.

(b) the "applicable reimbursement rate" is defined as the rate paid by HCA to the provider participating in the medical assistance programs administered by MAD and excludes disproportionate share hospital and medical education payments.

[8.321.2.24 NMAC - Rp, 8.321.2.23 NMAC, 12/10/2024]

8.321.2.25 INSTITUTION FOR MENTAL DISEASES (IMD) FOR SUBSTANCE USE DISORDER (SUD):

IMD is defined as any facility with more than 16 beds that is primarily engaged in the delivery of psychiatric care or treating substance use disorders (SUD) that is not part of a certified general acute care hospital. The federal medicaid IMD exclusion generally prohibits payment to these providers for recipients aged 22 through 64. MAD covers inpatient hospitalization in an IMD for SUD diagnoses only with criteria for medical necessity and based on ASAM admission criteria. The coverage may also include co-occurring behavioral health disorders with the primary SUD. For other approved IMD stays for eligible recipients under age 21 or over age 64, the number of days is determined by medical necessity as the age restriction for IMDs does not apply to ages under 21 or over 65. Also refer to 8.321.2.24 NMAC.

A. Eligible recipients: Adolescents and adults with a mental health or SUD or co-occurring mental health and SUD.

B. Covered services: Withdrawal management (detoxification) and rehabilitation.

C. Prior authorization is required. Utilize the substance abuse and mental health services administration (SAMHSA) admission criteria for medical necessity.

D. Reimbursement: An IMD is reimbursed according to the provisions in Subsection E of 8.321.2.23 NMAC.

[8.321.2.25 NMAC - Rp, 8.321.2.24 NMAC, 12/10/2024]

8.321.2.26 INTENSIVE OUTPATIENT PROGRAM (IOP) FOR SUBSTANCE USE DISORDERS (SUD):

MAD pays for time limited IOP services utilizing a multi-faceted approach to treatment for an eligible recipient who requires structure and support to achieve and sustain recovery. IOP must utilize a research and evidence-based model approved through the process described in the BH policy and billing manual and target specific behaviors with individualized behavioral interventions.

A. Eligible providers: Services must be delivered through an agency approved through the application process described in the BH policy and billing manual. Prior to medicaid enrollment the agency must demonstrate that the agency meets all the requirements of IOP program services and supervision. See Subsection A and B of 8.321.2.9 NMAC for MAD general provider requirements.

(1) IOP services are provided through an integrated interdisciplinary approach including staff expertise in both SUD and mental health treatment. This team may have services rendered by non-independently licensed and non-licensed practitioners within their scope of practice and under the direction of the IOP RLD board approved clinical supervisor. See Subsection E of 8.321.2.9 NMAC for non-independent and non-licensed practitioners and Subsection C of 8.321.2.9 NMAC for independently licensed professionals eligible to conduct IOP clinical supervision.

(2) Each IOP program must have an independently licensed RLD board approved clinical supervisor. Both clinical services and supervision by independently licensed practitioners must be conducted in accordance with respective licensing board regulations. An IOP clinical supervisor must meet all the following requirements:

(a) have two or more years of relevant experience with an IOP program or approved exception by submitting a request through the process described in the BH policy and billing manual; and

(b) have expertise in both mental health and substance use disorder treatment.

(3) The IOP agency is required to develop and implement a program outcome evaluation system which may include consumer satisfaction surveys, retention into service rates, drop-out rates, re-admittance or relapse and lapse rates, incarceration or hospitalization data, or readily identifiable information and data specific to the IOP.

(4) The agency must maintain the appropriate state facility licensure and abide by all applicable state and federal regulations if offering medication for opioid use disorder.

(5) The agency must hold an IOP approval letter as described in the BH policy and billing manual and be enrolled by MAD to render IOP services to an eligible recipient. In the application process each IOP must identify if it is a youth program, an adult program, a transitional age program, or multiple programs. Transitional age programs must specify the age range of the target population. As described in the BH policy and billing manual an IOP will receive provisional approval to begin rendering IOP services prior to receiving full approval.

B. Coverage criteria:

(1) An IOP is based on research and evidence-based practice (EBP) models that target specific behaviors with individualized behavioral interventions. All EBP services must be culturally sensitive and incorporate recovery and resiliency values into all service interventions. EBPs must be approved through the process described in the BH policy and billing manual. A list of pre-approved EBPs is available through the council, as are the criteria for having another model approved.

(2) Treatment services must address co-occurring substance used and mental health disorders. Care coordination should be available to ensure integrated care for medical conditions either by referral or internally.

C. Covered services:

(1) IOP core services must include:

(a) individual SUD related therapy;

(b) group therapy (group membership may not exceed 15 in number); and

(c) psychoeducation for the eligible recipient and their family or significant other.

(2) Co-occurring mental health and SUD: The IOP agency must accommodate the needs of an eligible recipient with co-occurring substance use and mental health disorders. Treatment services are provided through an integrated interdisciplinary team and through coordinated, concurrent services with behavioral health providers.

(3) Medication management services must accessible either in the IOP agency or by referral to oversee the use of psychotropic medications and medication assisted treatment of SUD.

(4) The amount and intensity of an eligible recipient's IOP intervention is typically three to six months and between 9-19 hours for adults or 6-19 hours for adolescents per week. The amount of weekly services per eligible recipient is directly related to the goals specified in their IOP treatment plan and the IOP EBP in use. Recipients must meet ASAM 2.1 level of care placement criteria and have been diagnosed with a moderate or severe SUD to be eligible to receive SUD IOP services.

(5) Other mental health therapies: Outpatient therapies may be rendered in addition to the IOP therapies of individual and group when the eligible recipient's co-occurring disorder requires treatment services which are outside the scope of the IOP therapeutic services. The eligible recipient's file must document the medical necessity of receiving outpatient therapy services in addition to IOP therapies. Such documentation includes, but is not limited to current assessment, a co-occurring diagnosis, and inclusion in the treatment plan for outpatient therapy services. An IOP agency may:

(a) render these services when it is enrolled as a provider covered under Subsection D of 8.321.2.9 NMAC with practitioners listed in Subsections C and E of 8.321.2.9 NMAC whose scope of practice specifically allows for mental health therapy services; or

(b) refer the eligible recipient to another provider if the IOP agency does not have such practitioners available; the IOP agency may continue the eligible recipient's IOP services coordinating with the new provider.

D. Identified population:

(1) IOP services are provided to an eligible recipient 11 through 17 years of age diagnosed with a substance use disorder or with co-occurring disorders (mental illness and SUD) and that meet the American society of addiction medicine (ASAM) patient placement criteria for level 2.1 - intensive outpatient treatment; or have been mandated by the local judicial system as an option of least restrictive level of care. Adolescents who turn 18 years old while in an IOP program may remain until appropriate discharge. Services are not covered if the recipient is in detention or incarceration. See eligibility rules 8.200.410.17 NMAC.

(2) IOP services are provided to an eligible recipient of a transitional age program of which the age range has been determined by the agency, and that have been diagnosed with substance use disorder or with co-occurring disorders (mental illness and substance use) or that meet the American society of addiction medicine's (ASAM) patient placement criteria for level 2.1 - intensive outpatient treatment, or have been mandated by the local judicial system as an option of least restrictive level of care.

(3) IOP services are provided to an eligible adult recipient 18 years of age and older diagnosed with substance use disorders or co-occurring disorders (mental illness and substance use) that meet the American society of addiction medicine's

(ASAM) patient placement criteria for level 2.1 - intensive outpatient treatment of have been mandated by the local judicial system as an option of least restrictive level of care.

(4) Prior to engaging in an IOP program, the eligible recipient must have a treatment file containing:

(a) a diagnostic evaluation with a diagnosis of a moderate or severe SUD;

(b) an individualized IOP treatment plan that includes IOP and the EBP as the intervention; and

(c) both a crisis and safety plan developed with the recipient. The treatment, crisis, and safety plans must be regularly updated in collaboration with the recipient.

E. Non-covered services: IOP services are subject to the limitations and coverage restrictions which exist for other MAD covered services see Subsection G of 8.321.2.9 NMAC for general non-covered MAD behavioral health services and 8.310.2 NMAC for MAD general non-covered services. MAD does not cover the following specific services billed in conjunction with IOP services.

(1) acute inpatient;

(2) residential treatment services (i.e., ARTC, RTC, group home, and transitional living services);

(3) partial hospitalization;

(4) outpatient therapies which do not meet Subsection C of 8.321.2.9 NMAC; or

(5) activity therapy.

F. Reimbursement: See Subsection H of 8.321.2.9 NMAC for MAD behavioral health general reimbursement requirements.

(1) For IOP services, the agency must submit claims for reimbursement on the CMS-1500 claim form or its successor.

(2) Core IOP services are reimbursed through a daily rate. Medication assisted treatment and other mental health therapies are billed and reimbursed separately from the daily rate.

(3) IOP services furnished by an IOP team member are billed by and reimbursed to a MAD IOP agency whether the team member is under contract with or employed by the IOP agency.

(4) IOP services not provided in accordance with the conditions for coverage as specified in 8.321.2 NMAC are not MAD covered services and are subject to recoupment.

[8.321.2.26 NMAC - Rp, 8.321.2.25 NMAC, 12/10/2024]

8.321.2.27 INTENSIVE OUTPATIENT PROGRAM (IOP) FOR MENTAL HEALTH CONDITIONS:

MAD pays for IOP services which provide a time limited, multi-faceted approach to treatment for an eligible recipient with a SMI or SED including an eating disorder or borderline personality disorder who requires structure and support to achieve and sustain recovery. IOP must utilize a research and evidence-based model approved through the process described in the BH policy and billing manual and target specific behaviors with individualized behavioral interventions.

A. Eligible providers: Services must be delivered through a MAD enrolled agency. IOP agencies must complete the application process as outlined in the BH policy and billing manual. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

(1) IOP services are provided through an integrated interdisciplinary approach by staff with expertise in the mental health condition being addressed. This team may have services rendered by non-independently licensed and non-licensed practitioners under the direction of a RLD board approved clinical supervisor. See Subsection E of 8.321.2.9 NMAC for non-independent and non-licensed practitioners and Subsection C of 8.321.2.9 NMAC for independently licensed professionals eligible to conduct IOP clinical supervision.

(2) Each IOP program must have an independently licensed board approved clinical supervisor. Both clinical services and supervision by licensed practitioners must be conducted in accordance with respective licensing board regulations. An IOP clinical supervisor must meet all the following requirements:

(a) have two years or more relevant experience; and

(b) have one or more years demonstrated clinical supervisory experience.

(3) The IOP agency is required to develop and implement a program outcome evaluation system.

(4) The agency must maintain the appropriate state facility licensure if offering medication treatment.

(5) The agency must hold an IOP approval letter and be enrolled by MAD to render IOP services to an eligible recipient. In the application process each IOP must

identify if it is a youth program, an adult program, a transitional age program, or multiple programs. Transitional age programs must specify the age range of the target population. As described in the BH policy and billing manual an IOP will receive provisional approval to begin rendering IOP services prior to receiving full approval.

B. Coverage criteria:

(1) An IOP is based on research and applies EBP models that target specific behaviors with individualized behavioral interventions. All EBP services must be culturally sensitive and incorporate recovery and resiliency values into all service interventions. EBPs must be approved through the process described in the BH policy and billing manual. A list of pre-approved EBPs is available through the council, as are the criteria for having another model approved.

(2) Treatment services must address a primary SMI or SED and co-occurring SUD when indicated. Care coordination should be available to ensure integrated care for medical conditions either by referral or internally.

C. Covered services:

(1) IOP core services must include:

(a) individual therapy;

(b) group therapy (group membership may not exceed 15 in number; and

(c) psychoeducation for the eligible recipient and their family or significant other.

(2) Co-occurring mental health and SUD. The IOP agency must accommodate the needs of an eligible recipient with co-occurring substance use and mental health disorders. Treatment services are provided through an integrated interdisciplinary team and through coordinated, concurrent services with behavioral health providers.

(3) Medication management services must be accessible either in the IOP agency or by referral to oversee the use of psychotropic medications and medication assisted treatment of SUD.

(4) The duration and intensity of an eligible recipient's IOP intervention is typically three to six months and between 9-19 hours for adults or 6-19 hours for adolescents per week. The amount of weekly services per eligible recipient is directly related to the goals specified in their IOP treatment plan and the IOP EBP in use. Recipients must meet SMI/SED criteria and have a diagnosis to be eligible to receive MH IOP services.

(5) Other mental health therapies: outpatient therapies may be rendered in addition to the IP therapies of individual and group when the eligible recipient's co-occurring disorder requires treatment services which are outside the scope of IOP therapeutic services. The eligible recipient's file must document the medical necessity of receiving outpatient therapy services. Such documentation includes, but is not limited to current assessment, a co-occurring diagnosis, and the inclusion of a service plan for outpatient therapy services. An IOP agency may:

(a) render these services when it is enrolled as a provider covered under Subsection D of 8.321.2.9 NMAC with practitioners listed in Subsection C and E of 8.321.2.9 NMAC whose scope of practice specifically allows for mental health therapy services; or

(b) refer the eligible recipient to another provider if the IOP agency does not have such practitioners available. The IOP agency must coordinate the recipients transfer to the new provider.

D. Identified population:

(1) IOP services are provided to an eligible recipient, 11 through 17 years of age diagnosed with a SED or have been mandated by the local judicial system as an option of least restrictive level of care. Adolescents who turn 18 years old while in an IOP program may remain until appropriate discharge.

(2) IOP services are provided to an eligible recipient of a transitional age program of which the age range has been determined by the agency, and is diagnosed with substance use disorder or with co-occurring disorders (mental illness and substance use) or that meet the ASAM patient placement criteria for level 2.1 - intensive outpatient treatment, or have been mandated by the local judicial system as an option or least restrictive level of care.

(3) IOP services are provided to an eligible adult recipient 18 years of age and older diagnosed with a SMI; or have been mandated by local judicial system as an option of least restrictive level of care.

(4) Prior to engaging in an IOP program, the eligible recipient must have a treatment file containing:

(a) a diagnostic evaluation with a diagnosis of serious mental illness or severe emotional disturbance; or diagnosis for which the IOP is approved;

(b) an individualized IOP treatment plan that includes IOP and the EBP as the intervention; and

(c) both a crisis and safety plan developed with the recipient. The treatment, crisis, and safety plans must be regularly updated in collaboration with the recipient.

E. Non-covered services: IOP services are subject to the limitations and coverage restrictions which exist for other MAD covered services see Subsection G. of 8.321.2.9 NMAC for general non-covered MAD behavioral health services and 8.310.2 NMAC for MAD general non-covered services. MAD does not cover the following specific services billed in conjunction with IOP services:

(1) acute inpatient;

(2) residential treatment services (i.e., ARTC, RTC, group home, transitional living services);

(3) partial hospitalization;

(4) outpatient therapies which do not meet Subsection C of 8.321.2.9 NMAC; or

(5) activity therapy.

F. Reimbursement: See Subsection H of 8.321.2.9 NMAC for MAD behavioral health general reimbursement.

(1) For IOP services, the agency must submit claims for reimbursement on the CMS-1500 claim form or its successor.

(2) Core IOP services are reimbursed through a daily rate. Medications and other mental health therapies are billed and reimbursed separately from the daily rate.

(3) IOP services furnished by an IOP team member are billed by and reimbursed to a MAD IOP agency whether the team member is under contract with or employed by the IOP agency.

(4) IOP services not provided in accordance with the conditions for coverage as specified in the rule are not a MAD covered service and are subject to recoupment.

[8.321.2.27 NMAC - Rp, 8.321.2.26 NMAC, 12/10/2024]

8.321.2.28 MEDICATION ASSISTED TREATMENT (MAT): BUPRENORPHINE TREATMENT FOR OPIOID USE DISORDER:

MAD pays for coverage for medication assisted treatment (MAT) for opioid use disorder to an eligible recipient as defined in the Drug Addiction Treatment Act of 2000 (DATA 2000), the Comprehensive Addiction and Recovery Act of 2016 (CARA), and the Substance Use Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities Act of 2018 (SUPPORT Act). Services include, but are not limited to, medication for opioid use disorder (excluding methadone) to an eligible recipient for medically managed withdrawal form opioids or medication for opioid use

disorder. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible providers and practitioners:

(1) Any clinic, office, or hospital staffed by required practitioners.

(2) Practitioners for diagnosing, assessing, and prescribing include:

(a) a physician or DO licensed in the state of NM and has completed drug enforcement agency (DEA) approved training and has the federal waiver to prescribe buprenorphine;

(b) an advanced practice registered nurse that has completed DEA approved training; or

(c) a physician assistant licensed in the state of NM and has the federal DATA 2000 waiver to prescribe buprenorphine.

(3) Practitioners for administration and education:

(a) a registered nurse licensed in the state of NM; or

(b) a physician assistant licensed in the state of NM.

(4) Practitioners for counseling and education may include behavioral health practitioners licensed for counseling or therapy.

(5) Practitioners for skills and education include certified peer support workers or certified family peer support workers to provide skill-building, recovery, and resiliency support.

B. Coverage criteria:

(1) an assessment and diagnosis, which may be conducted either in person or via telehealth, by the prescribing practitioner to determine whether the recipient has an opioid use diagnosis and their readiness for change must be conducted prior to starting treatment;

(2) an assessment for concurrent medical or behavioral health illnesses;

(3) an assessment for co-occurring substance use disorders;

(4) providing psychoeducation related to all available treatment options, prior to starting treatment; and

(5) a treatment plan that prescribes either in house counseling or therapy, or referral to outside services, as indicated.

C. Eligible recipients: Individuals with an opioid use disorder diagnosis defined by DSM 5 or ICD 10.

D. Covered services:

(1) history and physical;

(2) comprehensive assessment and treatment plan;

(3) induction phase of opioid treatment;

(4) administration of medication and concurrent education;

(5) subsequent evaluation and management visits;

(6) development and maintenance of medical record log of opioid replacement medication prescriptions;

(7) development and maintenance of required records regarding inventory, storage and destruction of controlled medications if dispensing from office;

(8) initiation and tracking of controlled substance agreements with eligible recipients;

(9) regular monitoring and documentation of NM prescription monitoring program results;

(10) urine drug screens;

(11) recovery services (MCO members only);

(12) family support services (MCO members only).

E. Reimbursement: See Subsection H of 8.321.9 NMAC for MAD behavioral health general reimbursement requirements. See the BH policy and billing manual for reimbursement specific to MAT.

[8.321.2.28 NMAC - Rp, 8.321.2.27 NMAC, 12/10/2024]

8.321.2.29 MULTI-SYSTEMIC THERAPY (MST) and MST PROBLEM SEXUAL BEHAVIOR (MST-PSB):

To help an eligible recipient 10 up to 18 years of age receive behavioral health services to either remain in or re-enter their home and community, MAD pays for MST and MST-PSB services as part of EPSDT program (42 CFR 441.57). MAD covers medically necessary MST services required by the condition of the eligible recipient. MST provides intensive home, family and community-based treatment for an eligible recipient 10 to 18 years of age who is at risk of out-of-home placement or is returning home from an out-of-home placement. The need for MST services must be identified in the eligible recipient's tot to teen health check screen or another diagnostic evaluation. MST is an intensive family and community, evidence-based treatment for youth who are at risk of out-of-home placement or are returning home from out-of-home placement. MST addresses the multiple causes of serious antisocial behavior across key systems within which youth are embedded. MST-PSB focuses on aspects of a youth's ecology that are functionally related to the problem sexual behavior. Unless otherwise described below the acronym MST may be interpreted to include both MST and MST-PSB. When services are provided to family or other supports the service must be for the direct benefit of the medicaid recipient. The acronym MST used throughout this section includes both MST and MST-PSB unless otherwise specified.

A. Eligible providers: In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing MST services, an agency must hold a copy of MST Inc licensure, or any of its approved subsidiaries and meet the state licensure and provider enrollment requirements for each MST team. Additionally, the agency must complete the application process as described in the behavioral health billing and policy manual. All clinical staff are required to complete a prescribed five-day MST introductory training and subsequent quarterly trainings. Any staff person providing MST-PSB must have completed the MST-PSB specific training and be on a specially trained team with national certification from MST Services, LLC for MST-PSB.

(1) The MST program includes an assigned MST team for each eligible recipient. The MST team must include at minimum:

(a) master's level independently licensed behavioral health professional clinical supervision; see Subsection H of 8.321.2.9 NMAC;

(b) licensed master's and bachelor's level behavioral health staff able to provide 24-hour coverage, seven days a week; see Subsection E of 8.321.2.9 NMAC;

(c) a licensed master's level behavioral health practitioner that is required to perform all MST interventions; a bachelor's level behavioral health practitioner is limited to performing functions defined within the scope of their RLD practice board licensure or practice (see Subsection E of 8.321.2.9 NMAC);

(d) bachelor's level staff that has a degree in social work, counseling, psychology, or a related human services field and must have at least three years' experience working with the identified population of children, adolescents, and their

families. Bachelor's level staff may provide the non-clinical components of treatment including treatment planning, skill-building, and family psychoeducation but not family therapy; and

(e) staffing for MST services is comprised of no more than one-third bachelor's level staff and, at minimum, two-thirds licensed master's level staff unless an exception is granted by MST Services, LLC.

(2) Clinical supervision must include at a minimum:

(a) weekly supervision provided by an independently licensed master's level behavioral health practitioner (see Subsection C of 8.321.2.9 NMAC) who is MST trained; this supervision, following the MST supervisory protocol, is provided to team members on topics directly related to the needs of the eligible recipient and their family on an ongoing basis; and

(b) one hour of local group supervision per week and one hour of telephone consultation per week with the MST systems supervisor, provided to team members on topics directly related to the needs of the eligible recipient and their family on an ongoing basis.

(3) All clinical staff is required to participate in and complete a prescribed five-day MST introductory training and subsequent quarterly trainings.

B. Identified population:

(1) MST is provided to an eligible recipient 10 to 18 years of age who meets the criteria of SED, involved in or at serious risk of involvement with the juvenile justice system; has antisocial, aggressive, violent, and substance-using behaviors; is at risk for an out-of-home placement; or is returning from an out-of-home placement where the above behaviors were the focus of their treatment and their family's involvement. MST for youth with problem sexual behaviors (MST-PSB) is a clinician adaptation of MST that has been specifically designed and developed to treat youth for problematic sexual behavior.

(2) A co-occurring diagnosis of SUD shall not exclude an eligible recipient from the program.

C. Covered services and service limitations: MST is a culturally sensitive service, rendered by a MST team, to provide intensive home, family, and community-based treatment for the family of an eligible recipient who is at risk of an out-of-home placement or is returning home from an out-of-home placement. MST services are provided in the community. Specialized therapeutic and rehabilitative interventions are used to address specific areas of need, such as substance use, delinquency, and violent behavior. MST service components include treatment planning; restoration of

social skills which is available 24-hours a day, seven days a week; and family therapy and psychoeducation.

(1) The following services must be furnished as part of the MST service to be eligible for reimbursement:

(a) an initial assessment to identify the focus of the MST intervention;

(b) therapeutic interventions with the eligible recipient and their family;

(c) case management; and

(d) crisis stabilization.

(2) MST services are conducted by practitioners using the MST team approach. The MST team must have the ability to deliver services in various environments, such as homes, schools, homeless shelters, or street locations. MST services:

(a) promote the recipient's family's capacity to monitor and manage their behavior;

(b) involve the eligible recipient's family and other systems, such as the school, probation officers, extended families and community connections;

(c) provide access to a variety of interventions 24-hours a day, seven days a week, by staff that maintain contact and intervene as one organizational unit;

(d) include structured face-to-face therapeutic interventions to provide support and guidance in all areas of the recipient's functional domains, such as adaptive, communication, psychosocial, problem solving, and behavior management; and

(e) services provided to family members or other supports must be for the direct benefit of the medicaid recipient.

(3) The duration of MST intervention is typically three to six months. Weekly interventions may range from three to 20 hours a week; less as an eligible recipient nears discharge.

D. Non-covered services: MST services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general non-covered specialized behavioral health services.

E. Reimbursement: MST agencies must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection E of 8.321.2.9 NMAC for MAD general reimbursement requirements and 8.302.2 NMAC. Once enrolled, the MST

agency receives instructions on how to access documentation, billing, and claims processing information.

[8.321.2.29 NMAC - Rp, 8.321.2.28 NMAC, 12/10/2024]

8.321.2.30 NON-ACCREDITED RESIDENTIAL TREATMENT CENTERS (RTC) AND GROUP HOMES:

MAD pays for medically necessary services for an eligible recipient under 21 years of age which are designed to develop skills necessary for successful reintegration into their family or transition into their community. A determination must be made that the eligible recipient needs the level of care (LOC) for services furnished in a RTC or group home. This determination must have considered all environments which are least restrictive, meaning a supervised community placement, preferably a placement with the juvenile's parent, guardian or relative. A facility or conditions of treatment that is a residential or institutional placement should only be utilized as a last resort based on the best interest of the juvenile or for reasons of public safety. Residential services must be rehabilitative and provide access to necessary treatment services in a therapeutic environment. MAD pays for services furnished in a RTC or group home as part of EPSDT program (42 CFR 441.57). The need for RTC and group home services must be identified in the eligible recipient's tot to teen health check screen or other diagnostic evaluation furnished through a health check referral.

A. Eligible providers: In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing RTC or group home services to an eligible recipient, an agency must meet the following requirements:

(1) a RTC must be certified by the children, youth and families department (CYFD) see 7.20.11 NMAC;

(2) a group home must be certified per 7.20.11 NMAC and licensed per 7.20.12 NMAC by CYFD;

(3) if the RTC is operated by IHS or by a federally recognized tribal government, the facility must meet CYFD RTC licensing and certification requirements but is not required to be licensed or certified by CYFD. In lieu of receiving a license and certification, CYFD provides MAD copies of its facility findings and recommendations. MAD will work with the facility to address recommendations. The BH policy and billing manual provides guidance for addressing the facility findings and recommendations;

(4) RTCs and group homes must allow individuals the opportunity to notify their family that they have been admitted to the facility and shall not admit an individual for residential treatment without obtaining or providing evidence that the facility has attempted to obtain contact information for a family member of the patient.

B. Covered services: Residential treatment services are provided through a treatment team approach and the roles, responsibilities and leadership of the team are clearly defined. MAD covers accommodation and residential treatment services which are medically necessary for the diagnosis and treatment of an eligible recipient's condition. A RTC or group home must provide an interdisciplinary psychotherapeutic treatment program on a 24-hour basis to the eligible recipient through the provision of a 24-hour therapeutic group living environment to meet their developmental, psychological, social, and emotional needs. The following are covered services:

(1) performance of necessary evaluations, assessments and psychological testing of the eligible recipient for the development of their treatment plan for each service, while ensuring that assessments already performed are not repeated;

(2) provide regularly scheduled counseling and therapy sessions in an individual, family or group setting following the eligible recipient's individualized treatment plan;

(3) facilitation of age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school attendance and money management to the eligible recipient;

(4) assistance to the eligible recipient in their self-administration of medication in compliance with state statute, regulation and rules;

(5) provision of appropriate on-site staff based upon the acuity of recipient needs on a 24-hour basis to ensure adequate supervision of the recipients, and response in a proactive and timely manner. Response to crisis situations, determining the severity of the situation, stabilizing the eligible recipient by providing individualized treatment plan/safety plan interventions and support, and making referrals for emergency services or to other non-agency services, as necessary, and providing follow-up;

(6) development of an interdisciplinary treatment plan; see the BH policy and billing manual;

(7) non-medical transportation services needed to accomplish the treatment objective;

(8) therapeutic services to meet the physical, social, cultural, recreational, health maintenance and rehabilitation needs of the eligible recipient;

(9) for planning of discharge and aftercare services to facilitate timely and appropriate post discharge care regular assessments are conducted. These assessments support discharge planning and effect successful discharge with clinically appropriate after care services. This discharge planning begins when the recipient is

admitted to residential treatment services and is updated and documented in the recipient record at every treatment plan review, or more frequently as needed; and

(10) the RTC and group homes provide services, care, and supervision at all times, including:

(a) the provision of, or access to, medical services on a 24-hour basis; and

(b) maintenance of a staff-to-recipient ratio appropriate to the level of care and needs of the recipients.

C. Non-covered services: RTC and group home services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general MAD behavioral health non-covered services or activities. MAD does not cover the following specific services billed in conjunction with RTC and group home services to an eligible recipient:

(1) comprehensive community support services (CCSS) except by a CCSS agency when discharge planning with the eligible recipient from the RTC or group home facility;

(2) services not considered medically necessary for the condition of the eligible recipient, as determined by MAD or its UR contractor;

(3) room and board;

(4) services for which prior approval was not obtained; or

(5) services furnished after a MAD or UR contractor determination that the recipient no longer meets the LOC for RTC or group home care.

D. Treatment plan: A treatment plan is required, see Subsection K of 8.321.2.9 NMAC and the BH policy and billing manual.

E. Prior authorization: Before a RTC or group home service is furnished to an eligible recipient, prior authorization is required from MAD or its UR contractor or the respective MCO. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

F. Reimbursement: A RTC or group home agency must submit claims for reimbursement on the UB-04 form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and see 8.302.2 NMAC. Once enrolled, the agency receives instructions on how to access documentation, billing, and claims processing information. For IHS and a tribal 638 facility and any other “Indian Health Care Provider (IHCP)” defined in 42 Code of Federal Regulations Section 438.14(a), MAD considers RTC services to be outside the IHS all-inclusive rate and

RTC is therefore reimbursed at the MAD fee schedule utilizing the appropriate claim form designated

(1) The fee schedule is established after considering cost data submitted by the RTC or group home agency. Cost data is grouped into various cost categories for purposes of analysis and rate setting. These include direct service, direct service supervision, therapy, admission and discharge planning, clinical support, non-personnel operating, administration, and consultation.

(a) The MAD reimbursement covers those services considered routine in the residential setting. Routine services include, but are not limited to counseling, therapy, activities of daily living, medical management, crisis intervention, professional consultation, transportation, rehabilitative services and administration.

(b) Services which are not included in the RTC or group home rate include:

(i) direct services furnished by a psychiatrist or licensed Ph.D. psychologist; these services can be billed directly by the provider; see 8.310.3 NMAC; and

(ii) other MAD services that an eligible recipient might require that are not furnished by the facility, such as pharmacy services, primary care visits, laboratory, or radiology services, are billed directly by the applicable providers and are governed by the applicable sections of NMAC rules.

(c) Services which are not covered in the routine rate and are not a MAD covered service include:

(i) room and board; and

(ii) services not related to medical necessity, clinical treatment, and patient care.

(2) A vacancy factor of 24 days annually for each eligible recipient is built into the rate to allow for therapeutic leave and trial community placement. Since the vacancy factor is built into the rate, a RTC and group home agency cannot bill or be reimbursed for days when the eligible recipient is absent from the facility.

[8.321.2.30 NMAC - Rp, 8.321.2.29 NMAC, 12/10/2024]

8.321.2.31 OPIOID TREATMENT PROGRAM (OTP):

MAD pays for coverage for medication assisted treatment for opioid use disorder to an eligible recipient through an opioid treatment center as defined in (42 CFR Part 8), certification of opioid treatment programs (OTP). Services include, but are not limited to, the administration of methadone to an individual for medically managed withdrawal from

opioids and maintenance treatment. The administration/supervision must be delivered in conjunction with the overall treatment based upon a treatment plan that reflects shared decision making between the patient and health care practitioner or counselor, to include availability of counseling as well as, case review, drug testing, and medication monitoring. Availability of counseling is a required OTP service however access to medication for an enrolled recipient is not contingent upon receipt of counseling services. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible providers and practitioners:

(1) Provider requirements:

(a) Accreditation with a substance use and mental health services administration (SAMHSA)/CSAT approved nationally recognized accreditation body, (e.g., commission on accreditation of rehabilitation facilities (CARF), joint commission (JC) or council on accreditation of services for families and children (COA).

(b) Behavioral health services division (BHSD) approval. As a condition of approval to operate an OTP, the OTP must maintain above accreditation. In the event that such accreditation lapses, or approval of an application for accreditation becomes doubtful, or continued accreditation is subject to any formal or alleged finding of need for improvement, the OTP program will notify the BHSD within two business days of such event. The OTP program will furnish the BHSD with all information related to its accreditation status, or the status of its application for accreditation, upon request.

(c) The BHSD shall grant approval or provisional approval to operate pending accreditation, provided that all other requirements of these regulations are met.

(2) Staffing requirements:

(a) Both clinical services and supervision by licensed practitioners must be in accord with their respective licensing board regulations. Provider staff members must be culturally competent.

(b) Programs must be staffed by:

(i) medical director (MD licensed to practice in the state of NM or a DO licensed to practice in the State of NM);

(ii) clinical supervisor (must be one of the following: licensed psychologist, or licensed independent social worker; or certified nurse practitioner in psychiatric nursing; or licensed professional clinical mental health counselor; or licensed marriage and family therapist;

(iii) licensed behavioral health practitioner; registered nurse; or licensed practical nurse; and

(iv) full time or part time pharmacist.

(c) Programs may also be staffed by:

(i) licensed substance abuse associate (LSAA); and

(ii) certified peer support worker (CPSW).

B. Coverage criteria:

(1) A physician licensed to practice in NM is designated to serve as medical director and to have authority over all medical aspects of opioid treatment.

(2) The OTP shall formally designate a program sponsor who shall agree on behalf of the OTP to adhere to all federal and state requirements and regulations regarding the use of opioid agonist treatment medications in the treatment of opioid use disorder which may be promulgated in the future.

(3) The OTP shall be open for patients every day of the week with an option for closure for federal and state holidays, and Sundays, and be closed only as allowed in advance in writing by CSAT and the state opioid treatment authority. Clinic hours should be conducive to the number of patients served and the comprehensive range of services needed.

(4) Written policies and procedures outlined in the BH policy and billing manual are developed, implemented, compiled, and maintained at the OTP.

(5) OTP programs will not deny a reasonable request for transfer.

(6) The OTP will maintain criteria for determining the amount and frequency of counseling that is provided to a patient.

(7) Referral or transfer of recipients to a suitable alternative treatment program. Because of the risks of relapse following medically managed withdrawal from medication or other opioids, patients must be offered a relapse prevention program that includes, but is not limited to, counseling, naloxone, and medication for opioid use disorder.

(8) Provision of unscheduled treatment or counseling to patients.

(9) Established counselor caseloads based on the intensity and duration of counseling required by each patient. Counseling can be provided in person or via telehealth. Counselor to patient ratios should be sufficient to ensure that patients have

reasonable and prompt access to counselors and receive counseling services at the required levels of frequency and intensity.

(10) Preparedness planning: the program has a list of all patients and the patients' dosage requirements available and accessible to program on call staff members.

(11) Patient records: The OTP program shall establish and maintain a recordkeeping system that is adequate to document and monitor patient care. The system shall comply with all federal and state requirements relevant to OTPs and to confidentiality of patient records.

(12) Diversion control: a written plan is developed, implemented, and complied with to prevent diversion of opioid treatment medication from its intended purpose to illicit purposes. This plan shall assign specific responsibility to licensed and administrative staff for carrying out the diversion control measures and functions described in the plan. The program shall develop and implement a policy and procedure providing for the reporting of theft or division of medication to the relevant regulatory agencies, and law enforcement authorities.

(13) Prescription monitoring program (PMP): a written plan is developed, implemented, and complied with to ensure that all OTP physicians and other health care providers, as permitted, are registered to use the NM PMP. The PMP should be checked quarterly through the course of each patient's treatment.

(14) HIV/AIDS, hepatitis, and other sexually transmitted infection (STI) testing and education are available to patients either at the provider or through referral, including treatment, peer group or support group and to social services either at the provider or through referral to a community group.

(15) Requirements for health care practitioners who prescribe, distribute or dispense opioid analgesics:

(a) A health care practitioner who prescribes, distributes or dispenses an opioid analgesic for the first time to a patient shall advise the patient on the risks of overdose and inform the patient of the availability of an opioid antagonist.

(b) For a patient to whom an opioid analgesic has previously been prescribed, distributed or dispensed by the health care practitioner, the health care practitioner shall advise the patient on the risks of overdose and inform the patient of the availability of an opioid antagonist on the first occasion that the health care practitioner prescribes, distributes or dispenses an opioid analgesic each calendar year.

(c) A health care practitioner who prescribes an opioid analgesic for a patient shall co-prescribe an opioid antagonist if the amount of opioid analgesic being prescribed is at least a five-day supply. The prescription for the opioid antagonist shall

be accompanied by written information regarding the temporary effects of the opioid antagonist and techniques for administering the opioid antagonist. That written information shall contain a warning that a person administering the opioid antagonist should call 911 immediately after administering the opioid antagonist.

C. Identified population:

(1) An eligible recipient is treated for opioid dependency only after the agency's medical director or licensed practitioner determines and documents that:

(a) the recipient meets the definition of opioid use disorder using generally accepted medical criteria, such as those contained in the current version of the DSM;

(b) the recipient has received an initial medical examination as required by 7.32.8.19 NMAC which may be conducted either in-person or via telehealth; and

(c) informed consent for treatment must be provided by a parent, guardian, custodian or responsible adult designated by the relevant state authority if the recipient is under the age of 18. Consent may be provided electronically.

(2) OTPs must maintain current policies and procedures that reflect the special needs and priority for treatment of recipients with opioid use disorder who are pregnant. Evidence-based treatment protocols for pregnant patients, such as a split dosing regimen, may be instituted after assessment by an OTP practitioner. Prenatal care and other sex-specific services, including reproductive health services for pregnant and postpartum patients must be provided, and documented, by either the OTP or by referral to an appropriate healthcare practitioner.

D. Covered services:

(1) Withdrawal treatment and medically supervised dose reduction.

(2) A biopsychosocial assessment will be conducted by a licensed behavioral health professional or a LADAC under the supervision of an independently licensed clinician, as defined by the NM RLD within 14 days of admission.

(3) A comprehensive, patient centered, individualized treatment plan, reflecting shared decision making between the patient and the licensed practitioner, shall be conducted within 30 days of admission and be documented in the patient record.

(4) Each OTP will ensure that adequate medical, psychosocial counseling, mental health, vocational, educational, and other services identified in the initial and ongoing treatment plans are fully and reasonably available to patients, either by the program directly, or through formal, documented referral agreements with other providers.

(5) Drug screening: A recipient in comprehensive maintenance treatment receives one random urine drug detection test per month; short-term opioid treatment withdrawal procedure patients receive at least one initial drug use test; long-term opioid treatment withdrawal procedure patients receive an initial and monthly random tests; and other toxicological tests are performed according to written orders from the program medical director or medical practitioner designee. Samples that are sent out for confirmatory testing (by internal or external laboratories) are billed separately by the laboratory.

(6) Initiation of the following mandatory laboratory tests:

(a) a mantoux skin test;

(b) a test for syphilis;

(c) hepatitis screening in accordance with the most current CDC guidelines; and

(d) a laboratory drug detection test for at least opioids, methadone, amphetamines, cocaine, barbiturates, benzodiazepines, and other substances as may be appropriate, based upon patient history and prevailing patterns of availability.

(7) Medication units:

(a) interested applicants shall submit to the BHSD for approval to add a medication unit to their existing registration:

(i) a written letter of intent that demonstrates how this service will increase access to methadone in rural communities and avoid duplication with other OTP services;

(ii) standard operating procedure;

(iii) approval from the drug enforcement administration;

(iv) approval from the NM board of pharmacy; and

(v) application to SAMHSA/CSAT following BHSD approval.

(b) BHSD shall approve or deny the application within 30 working days of submission, unless the BHSD and applicant mutually agree to extend the application review period.

(c) BHSD may require the applicant to provide additional written or verbal information in order to reach its decision. Such further information shall be considered an integral part of the application and may extend the application review period.

(d) the following services may be provided where space allows for quality patient care in mobile medication units, assuming compliance with all applicable federal, state, and local law:

(i) administering and dispensing medications for opioid use disorder treatment;

(ii) collecting samples for drug testing or analysis;

(iii) dispensing of take-home medications;

(iv) in units that provide appropriate privacy and adequate space, intake/initial psychosocial and appropriate medical assessments (with a full physical examination to be completed or provided within 14-days of admission);

(v) initiating methadone or buprenorphine after an appropriate medical assessment has been performed;

(vi) in units that provide appropriate privacy and have adequate space, other OTP services, such as counseling, may be provided directly or when permissible through use of telehealth services.

(e) any required services not provided in mobile and non-mobile medication units must be conducted at the OTP, including medical, counseling, vocational, educational, and other assessment, and treatment services (42 CFR 8.12(f)(1)).

(8) Take home medication: active OTP recipients, regardless of the length of time in treatment, may receive take home doses for days during which the clinic is closed including one weekend day as well as state and federal holidays. Beyond the standing approval to allow take home doses when the clinic is closed OTP decisions on dispensing medication for opioid use disorder (MOUD) to recipients for unsupervised use shall be determined by an appropriately licensed OTP medical practitioner or the medical director.

(a) the OTP medical practitioner or medical director shall consider, among other pertinent factors that indicate that the therapeutic benefits of unsupervised doses outweigh the risks, the following criteria:

(i) absence of active substance use disorders, other physical or behavioral health conditions that increase the risk of patient harm as it relates to the potential for overdose, or the ability to function safely;

(ii) regularity of attendance for supervised medication administration;

(iii) absence of serious behavioral problems that endanger the patient, the public or others;

(iv) absence of known recent diversion activity;

(v) whether take-home medication can be safely transported and stored; and

(vi) any other criteria that the medical director or medical practitioner considers relevant to the patient's safety and the public's health.

(b) the program sponsor shall ensure that policies and procedures are developed, implemented, and complied with for the use of take-home medication and include:

(i) criteria for determining when a patient is ready to receive take-home medication;

(ii) criteria for when a patient’s take-home medication is increased or decreased;

(iii) a requirement that take-home medication be dispensed according to federal and state law;

(iv) a requirement that the program medical director review a patient’s take-home medication regimen at intervals of no less than 90 days and adjust the patient’s dosage, as needed;

(v) procedures for safe handling and secure storage of take-home medication in a patient’s home; and

(vi) criteria and duration of allowing a physician to prescribe a split medication regimen.

(c) during the first 14 days of treatment, the take-home supply is limited to seven days. It remains within the OTP practitioner's discretion to determine the number of take-home doses up to seven days, but decisions must be based on the criteria listed in Subparagraph (a) of Paragraph (8) of Subsection D of 8.321.2.31 NMAC.

(d) from 15 days of treatment, the take-home supply is limited to 14 days. It remains within the OTP practitioner's discretion to determine the number of take-home doses up to 14 days, but this determination must be based on the criteria listed in Subparagraph (a) of Paragraph (8) of Subsection D of 8.321.2.31 NMAC.

(e) from 31 days of treatment, the take-home supply to a patient is not to exceed 28 days. It remains within the OTP practitioner's discretion to determine the number of take-home doses up to 28 days, but this determination must be based on the criteria listed in Subparagraph (a) of Paragraph (8) of Subsection D of 8.321.2.31 NMAC.

(f) a program sponsor shall ensure that a patient receiving take-home medication receives:

(i) take home medication in a child-proof container; and

(ii) written and verbal information regarding the recipient's responsibility in the protection and security of take-home mediation.

(g) the rationale underlying the decision to provide or withdraw unsupervised doses of methadone must be documented in the patient's clinical record.

E. Non-covered services: Blood samples collected and sent to an outside laboratory.

F. Reimbursement:

(1) The bundled reimbursement rate for administration and dispensing includes the cost of methadone, administering and dispensing methadone, and urine dipstick testing conducted within the agency.

(2) Other services performed by the agency as listed below are reimbursed separately and are required by (42 CFR Part 8.12 (f)), or its successor.

(a) a narcotic replacement or agonist drug item other than methadone that is administered or dispensed;

(b) behavioral health prevention and education services to affect knowledge, attitude, or behavior can be rendered by a licensed substance use disorder associate or certified peer support worker in addition to independently licensed practitioners;

(c) outpatient therapy other than substance use disorder and HIV counseling required by (42 CFR Part 8.12 (f)) is reimbursable when rendered by a MAD approved independently licensed provider that meets Subsection H of 8.321.2.9 NMAC;

(d) an eligible recipient's initial medical examination, which may be conducted in person or via telehealth when rendered by a MAD enrolled licensed practitioner who meets 8.310.2 and 8.310.3 NMAC requirements;

(e) full medical examination, prenatal care and gender specific services for a pregnant recipient; if they are referred to a provider outside the agency, payment is made to the provider of the service;

(f) medically necessary services provided beyond those required by (42 CFR Part 8.12 (f)), to address the medical issues of the eligible recipient; see 8.310.2 and 8.310.3 NMAC;

(g) the quantity of service billed in a single day can include, in addition to the drug items administered that day, the number of take-home medications dispensed that day; and

(h) guest dosing can be reimbursed at medicaid-enrolled agencies per 7.32.8 NMAC. Arrangements must be confirmed prior to sending the patient to the receiving clinic.

(3) For an IHS, tribal 638 facility or any other “Indian Health Care Provider (IHCP)” defined in 42 Code of Federal Regulations Section.

(4) For a FQHC, MAD considers the bundled OTP services to be outside the FQHC all-inclusive rate and is therefore reimbursed at the MAD fee schedule utilizing the appropriate claim form designated by MAD; see 8.310.12 NMAC. Non-bundled services may be billed at the FQHC rate.

[8.321.2.31 NMAC - Rp, 8.321.2.30 NMAC, 12/10/2024]

8.321.2.32 PARTIAL HOSPITALIZATION SERVICES:

To help an eligible recipient receive the level of services needed, MAD pays for partial hospitalization services furnished by an acute care or freestanding psychiatric hospital. Partial hospitalization programs (PHP) are structured to provide intensive psychiatric care through active treatment that utilizes a combination of clinical services. They are designed to stabilize deteriorating conditions or avert inpatient admissions or can be a step-down strategy for individuals with SMI, SUD or SED who have required inpatient admission. The environment is highly structured, is time-limited and outcome oriented for recipients experiencing acute symptoms or exacerbating clinical conditions that impede their ability to function on a day-to-day basis. Program objectives focus on ensuring important community ties and closely resemble the real-life experiences of the recipients served.

A. Eligible providers and practitioners: In addition to the requirements found in Subsections A and B of 8.321.2.9 NMAC, an eligible provider includes a facility joint commission accredited, and licensed and certified by DOH or the comparable agency in another state.

(1) The program team must include:

(a) registered nurse;

(b) RLD board approved clinical supervisor that is an independently licensed behavioral health practitioner or psychiatric nurse practitioner or psychiatric nurse clinician; and

(c) licensed behavioral health practitioners.

(2) The team may also include:

(a) physician assistants;

(b) certified peer support workers;

(c) certified family peer support workers;

(d) licensed practical nurses;

(e) mental health technicians.

B. Coverage criteria: MAD covers only those services which meet the following criteria:

(1) Services that are ordered by a psychiatrist or licensed Ph.D.

(2) Partial hospitalization is a voluntary, intensive, structured and medically staffed, psychiatrically supervised treatment program with an interdisciplinary team intended for stabilization of acute psychiatric or substance use symptoms and adjustment to community settings. The services are essentially of the same nature and intensity, including medical and nursing services, as would be provided in an inpatient setting, except that the recipient is in the program less than 24-hours a day, and it is a time-limited program.

(3) A history and physical (H&P) must be conducted within 24 hours of admission. If the eligible recipient is a direct admission from an acute or psychiatric hospital setting, the program may elect to obtain the H&P in lieu of completing a new H&P. In this instance, the program physician's signature indicates the review and acceptance of the document. The H&P may be conducted by a clinical nurse specialist, a clinical nurse practitioner, a physician assistant, or a physician.

(4) An interdisciplinary biopsychosocial assessment within seven days of admission including alcohol and drug screening. A full substance use assessment is required if alcohol and drug screening indicate the need. If the individual is a direct admission from an acute psychiatric hospital setting, the program may elect to obtain and review this assessment in lieu of completing a new assessment.

(5) Services are furnished under an individualized treatment plan established within seven days of initiation of service by the psychiatrist, together with the program's team of professionals, and in consultation with recipients, parents, legal guardian(s) or others who participate in the recipient's care. The plan must state the type, amount, frequency and projected duration of the services to be furnished and indicate the diagnosis and anticipated goals. The treatment plan must be reviewed and updated by the interdisciplinary team every 15 days.

(6) Documentation must be sufficient to demonstrate that coverage criteria are met, including:

(a) Daily documentation of treatment interventions which are outcome focused and based on the comprehensive assessment or psychiatric diagnostic evaluation, treatment goals, culture, expectations, and needs as identified by the recipient, family, or other caregivers.

(b) Supervision and periodic evaluation of the recipient, either individually or in a group, by the psychiatrist or psychologist to assess the course of treatment. At a minimum, this periodic evaluation of services at intervals indicated by the condition of the recipient must be documented in the recipient's record.

(c) Medical justification for any activity therapies, recipient education programs and psychosocial programs.

(7) Treatment must be reasonably expected to improve the eligible recipient's condition or designed to reduce or control the eligible recipient's psychiatric symptoms to prevent relapse or hospitalization and to improve or maintain the eligible recipient's level of functions. Control of symptoms and maintenance of a functional level to avoid further deterioration or hospitalization are acceptable expectations of improvement.

(8) For recipients in elementary and secondary school, educational services must be coordinated with the recipient's school system.

C. Identified population:

(1) Recipients admitted to a PHP shall be under the care of a psychiatrist who certifies the need for partial hospitalization. The recipient requires comprehensive, structured, multimodal treatment requiring medical supervision and coordination, provided under an individualized plan of care, because of a SMI, SED or moderate to severe SUD which severely interferes with multiple areas of daily life, including social, vocational, or educational functioning. Such dysfunction generally is of an acute nature;

(2) Recipients must have an adequate support system to sustain/maintain themselves outside the PHP;

(3) Recipients 19 and over with a serious mental illness including substance use who can be safely managed in the community with high intensity therapeutic intervention more intensive than outpatient services but are at risk of inpatient care without this treatment; or

(4) Recipients five to 18 with severe emotional disturbances including substance use disorders who can be safely managed in the community with high intensity therapeutic intervention more intensive than outpatient services but are at risk of inpatient care without this treatment.

D. Covered services and service limitations: A program of services must be furnished by a MAD enrolled provider delivering partial hospitalization to receive reimbursement from MAD. Payment for performance of these services is included in the facility's reimbursement rate:

(1) regularly scheduled structured counseling and therapy sessions for an eligible recipient, their family, group or multifamily group based on individualized needs furnished by licensed behavioral health professionals, and, as specified in the treatment plan;

(2) educational and skills building groups furnished by the program team to promote recovery;

(3) age-appropriate skills development in the areas of household management, nutrition, personal care, physical and emotional health, basic life skills, time management, school attendance and money management;

(4) drugs and biologicals that cannot be self-administered and are furnished for therapeutic management;

(5) assistance to the recipient in self-administration of medication in compliance with state policies and procedures;

(6) appropriate staff available on a 24-hour basis to respond to crisis situations, evaluate the severity of the situation, stabilize the recipient make referrals as necessary, and provide follow-up;

(7) consultation with other professionals or allied caregivers regarding a specific recipient;

(8) coordination of all non-medical services, including transportation needed to accomplish a treatment objective;

(9) therapeutic services to meet the physical, social, cultural, recreational, health maintenance, and rehabilitation needs of recipients; and

(10) discharge planning and referrals as necessary to community resources, supports, and providers in order to promote a recipient's return to a higher level of functioning in the least restrictive environment.

E. Non-covered services: Partial hospitalization services are subject to the limitations and coverage restrictions which exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for all general non-covered MAD behavioral health services or activities. MAD does not cover the following specific services with partial hospitalization:

(1) meals;

(2) transportation by the partial hospitalization provider;

(3) group activities or other services which are primarily recreational or diversional in nature;

(4) a program that only monitors the management of medication for recipients whose psychiatric condition is otherwise stable, is not the combination, structure, and intensity of services which make up active treatment in a partial hospitalization program;

(5) actively homicidal or suicidal ideation that would not be safely managed in a PHP;

(6) formal educational and vocational services related to traditional academic subjects or vocational training; non-formal education services can be covered if they are part of an active treatment plan for the eligible recipient; see 42 CFR Section 441.13(b); or

(7) services to treat social maladjustments without manifest psychiatric disorders, including occupational maladjustment, marital maladjustment, and sexual dysfunction.

F. Prior authorization: Prior authorization is not required for this service unless the length of stay exceeds 45 days, at which time continued stay must be prior authorized (PA) from MAD or its UR contractor; or applicable MCO. Request for authorization for continued stay must state evidence of the need for the acute, intense, structured combination of services provided by a PHP, and must address the continuing serious nature of the recipient's psychiatric condition requiring active treatment in a PHP and include expectations for imminent improvement. Control of symptoms and maintenance of a functional level to avoid further deterioration or hospitalization are acceptable expectations of improvement. The request for authorization must also specify that a lower level of outpatient services would not be advised, and why, and that the recipient may otherwise require inpatient psychiatric care in the absence of continued stay in the PHP. The request describes:

(1) the recipient's response to the therapeutic interventions provided by the PHP;

(2) the recipient's psychiatric symptoms that continue to place the recipient at risk of hospitalization; and

(3) treatment goals for coordination of services to facilitate discharge from the PHP. See Subsection F of 8.321.2.9 NMAC for MAD general prior authorization requirements.

G. Reimbursement: A provider of partial hospitalization services must submit claims for reimbursement on the UB claim form or its successor. See 8.302.2 NMAC and Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements. Specific to partial hospitalization services:

(1) Freestanding psychiatric hospitals are reimbursed at an interim percentage rate established by HCA to equal or closely approximate the final payment rates that apply under the cost settlement TEFRA principles using the Title XVIII (medicare) principles cost methodology, MAD reduces the medicare allowable costs by three percent. For partial hospitalization services that are not cost settled, such as general acute care hospitals, payments are made at the outpatient hospital prospective levels, when applicable, on the procedure codes (see Subsection E of 8.311.2.15 NMAC).

(2) The payment rate is at a per diem representing eight hours, which is billed fractions of .25, .5, or .75 units to represent two, four, or six hours when applicable.

(3) Any professional services are billed and reimbursed to the provider under a separate professional component number, all costs for these services must be removed from the hospital cost report prior to cost settlement or rebasing.

(4) Services performed by a physician or Ph.D. psychologist are billed separately as a professional service. Other services performed by employees or contractors to the facility are included in the per diem rate which may be billed separately are:

(a) performance of necessary evaluations and psychological testing for the development of the treatment plan, while ensuring that evaluations already performed are not repeated;

(b) physical examination and any resultant medical treatments, while ensuring that a physical examination already performed is not repeated;

(c) any medically necessary occupational or physical therapy; and

(d) other professional services not rendered as part of the program.

[8.321.2.32 NMAC - Rp, 8.321.2.31 NMAC, 12/10/2024]

8.321.2.33 PSYCHOSOCIAL REHABILITATION SERVICES:

To help an adult eligible recipient 18 years and older who met the criteria of SMI, MAD pays for psychosocial rehabilitation services (PSR). PSR is an array of services offered in a group setting through a clubhouse or a classroom and is designed to help an individual to capitalize on personal strengths, to develop coping strategies and skills to deal with deficits, and to develop a supportive environment in which to function as

independently as possible. Psychosocial rehabilitation intervention is intended to be a transitional level of care based on the individual's recovery and resiliency goals. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible providers and practitioners:

(1) Agency staff must possess the education, skills, abilities, and experience to perform the activities that comprise the full spectrum of PSR services. See Subsection A of 8.321.2.9 NMAC for MAD general provider requirements. PSR agencies must:

(a) have provided a minimum of three years of CCSS services; and

(b) be approved through the application process described in the BH policy and billing manual.

(2) Staffing requirements:

(a) both clinical services and supervision by licensed practitioners must be in accord with their respective licensing board regulations;

(b) PSR services must meet a staff ratio sufficient to ensure that patients have reasonable and prompt access to services;

(c) in both clubhouse and classroom settings, the entire staff works as a team;

(d) the team must include a clinical supervisor/team lead and can include the following:

(i) certified peer support workers;

(ii) certified family support workers;

(iii) community support workers; and

(iv) other HIPAA trained individuals working under the direct supervision of the clinical supervisor.

(e) minimum qualifications for the clinical supervisor/team lead:

(i) independently licensed behavioral health professional (i.e. psychiatrist, psychologist, LISW, LPCC, LMFT, psychiatrically certified (CNS) practicing under the scope of their NM license;

(ii) have one year of demonstrated supervisory experience;

(iii) demonstrated knowledge and competence in the field of psychosocial; rehabilitation; and

(iv) an attestation of training related to providing clinical supervision of non-clinical staff.

B. Coverage criteria:

(1) MAD covers only those PSR services are medically necessary to meet the individual needs of the eligible recipient, as delineated in their treatment plan. Medical necessity is based upon the eligible recipient's level of functioning as affected by their SMI. The PSR services are limited to goals which are individually designed to accommodate the level of the eligible recipient's functioning, and which reduce the disability and restore the recipient to their best possible level of functioning.

(2) These services must be provided in a facility-based setting, either in a clubhouse model or a structured classroom.

(3) PSR services must be identified and justified in the individual's treatment plan. Recipients shall participate in PSR services for those activities that are identified in the treatment plan and are tied directly to the recipient's recovery and resiliency plan/goals.

(4) Specific service needs (e.g., household management, nutrition, hygiene, money management, parenting skills, etc.) must be identified in the individual's treatment plan.

C. Identified population:

(1) An eligible recipient 18 years or older meeting the criteria for SMI and for whom the medical necessity for PSR services was determined.

(2) Adults diagnosed with co-occurring SMI and SUD and for whom the medical necessity for PSR services was determined.

(3) A resident in an institution for mental illness is not eligible for this service.

D. Covered services: The psychosocial intervention (PSI) program must include the following major components: basic living skills development; psychosocial skills training; therapeutic socialization; and individual empowerment.

(1) Basic living skills development activities address the following areas, including but not limited to:

(a) basic household management;

(b) basic nutrition, health, and personal care including hygiene;

(c) personal safety;

(d) time management skills;

(e) money management skills;

(f) how to access and utilize transportation;

(g) awareness of community resources and support in their use;

(h) child care/parenting skills;

(i) work or employment skill-building; and

(j) how to access housing resources.

(2) Psychosocial skills training activities address the following areas:

(a) self-management;

(b) cognitive functioning;

(c) social/communication; and

(d) problem-solving skills.

(3) Therapeutic socialization activities address the following areas:

(a) understanding the importance of healthy leisure time;

(b) accessing community recreational facilities and resources;

(c) physical health and fitness needs;

(d) social and recreational skills and opportunities; and

(e) harm reduction and relapse prevention strategies (for individuals with co-occurring disorders).

(4) Individual empowerment activities address the following areas:

(a) choice;

(b) self-advocacy;

(c) self-management; and

(d) community integration.

E. Non-covered services: PSR services are subject to the limitations and coverage restrictions which exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for all general non-covered MAD behavioral health services or activities. Specifically, PSR cannot be billed concurrently when the recipient is a resident of an institution for the mentally ill.

F. Prior authorization: No prior authorization is required. To determine retrospectively if the medical necessity for the service has been met, the following factors are considered:

(1) recipient assessment;

(2) recipient diagnostic formation;

(3) recipient treatment plans; and

(4) compliance with 8.321.2 NMAC.

G. Reimbursement: Claims for reimbursement are submitted on the CMS-1500 claim form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and see 8.302.2 NMAC.

[8.321.2.33 NMAC - Rp, 8.321.2.32 NMAC, 12/10/2024]

8.321.2.34 RECOVERY SERVICES (MCOs only):

Recovery services are peer-to-peer support for managed care members to develop and enhance wellness and health care practices. Recovery services promote self-responsibility through recipients learning new health care practices from a peer who has had similar life challenges and who has developed self-efficacy in using needed skills. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Staffing requirements:

(1) all staff must possess a current and valid NM driver’s license;

(2) clinical supervisor:

(a) licensed as a RLD board approved clinical supervisor independent practitioner (i.e., psychiatrist, psychologist, LISW, LPCC, LMFT, CNP, CNS); and

(b) two years relevant experience with the target population; and

(c) one year demonstrated supervisory experience; and

(d) expertise in both mental health and SUD treatment services; and

(e) supervision must be conducted in accord with respective licensing board regulations.

(3) certified peer support workers; and

(4) certified family specialists.

(5) group ratios should be sufficient to ensure that patients have reasonable and prompt access to services at the required levels of frequency and intensity within the practitioner's scope of practices.

B. Coverage criteria: Services occur individually or with consumers who support each other to optimize learning new skills. This skill enhancement then augments the effectiveness of other treatment and recovery support initiatives.

(1) Admissions criteria: Consumer has been unable to achieve functional use of natural and community support systems to effectively self-manage recovery and wellness.

(2) Continuation of services criteria: Consumer has made progress in achieving use of natural and community support systems to effectively self-manage recovery and wellness but continues to need support in developing those competencies.

(3) Discharge criteria: Consumer has achieved maximum use of natural and community support systems to effectively self-manage recovery and wellness.

C. Identified population:

(1) Children experiencing serious emotional/neurobiological/behavioral disorders;

(2) Adults with SMI; and

(3) Individuals with chronic SUD; or individuals with a co-occurring disorder (mental illness and SUD) or dually diagnosed with a primary diagnosis of mental illness.

D. Covered services:

(1) This service will particularly focus on the individual's wellness, ongoing recovery and resiliency, relapse prevention, and chronic disease management.

(2) Recovery services support specific recovery goals through:

(a) use of strategies for maintaining the eight dimensions of wellness;

(b) creation of relapse prevention plans;

(c) learning chronic disease management methods; and

(d) identification of linkages to ongoing community supports.

(3) Activities must support the individual's recovery goals. There must be documented evidence of the individual identifying desired recovery goals and outcomes and incorporating them into a recovery services treatment plan.

(4) Recovery services activities include, but are not limited to:

(a) screening, engaging, coaching, and educating;

(b) emotional support that demonstrates empathy, caring, or concern to bolster the person's self-esteem and confidence;

(c) sharing knowledge and information or providing life skills training;

(d) provision of concrete assistance to help others accomplish tasks;

(e) facilitation of contacts with other people to promote learning of social and recreational skills, create community and acquire a sense of belonging.

(5) Recovery services can be delivered in an individual or group setting.

E. Non-covered services: This service may not be billed in conjunction with:

(1) multi-systemic therapy (MST);

(2) assertive community treatment (ACT);

(3) partial hospitalization;

(4) transitional living services (TLS); or

(5) treatment foster care (TFC).

[8.321.2.34 NMAC - Rp, 8.321.2.33 NMAC, 12/10/2024]

8.321.2.35 SCREENING, BRIEF INTERVENTION & REFERRAL TO TREATMENT (SBIRT):

SBIRT is a community-based practice designed to identify, reduce and prevent problematic substance use or misuse and co-occurring mental health disorders as an early intervention. Through early identification in a medical setting, SBIRT services expand and enhance the continuum of care and reduce costly health care utilization. The primary objective is the integration of behavioral health with medical care. SBIRT is delivered through a process consisting of universal screening, scoring the screening tool and a warm hand-off to a SBIRT trained professional who conducts a face-to-face brief intervention for positive screening results. If the need is identified for additional treatment, the staff member will refer to behavioral health services. See Subsections A and B of 8.321.2.9 NMAC for MAD general provider requirements.

A. Eligible providers and practitioners:

(1) Providers may include the following agency types that have completed the state approved SBIRT training:

(a) primary care offices including FQHCs, IHS 638 tribal facilities and any other “Indian Health Care Provider (IHCP)” defined in 42 Code of Federal Regulations Section;

(b) patient centered medical homes;

(c) urgent care centers;

(d) hospital outpatient facilities;

(e) emergency departments;

(f) rural health clinics;

(g) specialty physical health clinics;

(h) school based health centers; and

(i) nursing facilities.

(2) Rendering practitioners must work in the approved agencies defined in Paragraph (1) of Subsection A of 8.321.2.36 NMAC and may include:

(a) licensed nurse trained in SBIRT;

(b) advance practice registered nurse trained in SBIRT;

(c) behavioral health practitioner at all educational levels trained in SBIRT;

(d) behavioral health interns under the supervision of a board approved clinical supervisor;

(e) certified peer support worker, certified family peer support worker, or certified youth peer support specialist trained in SBIRT;

(f) community health worker trained in SBIRT;

(g) licensed physician assistant trained in SBIRT;

(h) physician trained in SBIRT;

(i) home health agency trained in SBIRT

(j) nurse home visit EPSDT;

(k) medical assistant trained in SBIRT; and

(l) community health representative in tribal clinics trained in SBIRT.

B. Coverage criteria:

(1) screening shall be universal for recipients being seen in a medical setting;

(2) referral relationships with mental health agencies and practices are in place;

(3) utilization of approved screening tool specific to age described in the BH policy and billing manual;

(4) all participating providers and practitioners are trained in SBIRT through a state approved SBIRT training. See details in the BH policy and billing manual.

C. Identified population:

(1) MAD recipients 11 to 17 years of age, in accordance with state laws related to adolescent consent and confidentiality;

(2) MAD recipient adolescents 18 years and older.

D. Covered services:

(1) SBIRT screening with negative results eligible for only screening component;

(2) SBIRT screening with positive results for alcohol, or other drugs, with or without co-occurring depression, or anxiety, or trauma are eligible for:

(a) screening; and

(b) brief intervention and referral to behavioral health treatment, if needed.

E. Reimbursement:

(1) screening services do not require a diagnosis; brief interventions can be billed with a provisional diagnosis;

(2) see BH policy and billing manual for coding and billing instruction.

[8.321.2.35 NMAC - Rp, 8.321.2.34 NMAC, 12/10/2024]

8.321.2.36 SMOKING CESSATION COUNSELING:

See 8.310.2 NMAC for a detailed description of tobacco cessation services and approved behavioral health providers.

[8.321.2.36 NMAC - Rp, 8.321.2.35 NMAC, 12/10/2024]

8.321.2.37 SUPPORTIVE HOUSING PRE-TENANCY AND TENANCY SERVICES (PSH-TSS) (MCO only):

MAD pays for coverage for permanent supportive housing pre-tenancy and tenancy support services (PSH-TSS) to an eligible recipient enrolled in a managed care organization to facilitate community integration and contribute to a holistic focus on improved health outcomes, to reduce the negative health impact of precarious housing and homelessness, and to reduce costly inpatient health care utilization. Services include, but are not limited to, pre-tenancy services including individual housing support and crisis planning, tenancy orientation and landlord relationship services as well as tenancy support services to identify issues that undermine housing stability and coaching, education and assistance in resolving tenancy issues for an eligible recipient who has a serious mental illness and is enrolled in a medicaid managed care.

A. Eligible providers and practitioners:

(1) Any clinic, office or agency providing permanent supportive housing under the HCA linkages program administered by BHSD.

(2) Behavioral health practitioners employed or contracted with such facilities including:

(a) behavioral health professional licensed in the state of NM; and

(b) certified peer support workers or certified family peer support workers.

B. Coverage criteria:

(1) Enrollment in the linkages permanent supportive housing program.

(2) An assessment documenting serious mental illness.

C. Eligible recipients: Individuals with serious mental illness.

D. Covered services:

(1) Pre-tenancy services, including:

(a) screening and identifying preferences and barriers related to successful tenancy;

(b) developing an individual housing support plan and housing crisis plan;

(c) ensuring that the living environment is safe and ready for move-in;

(d) tenancy orientation and move-in assistance;

(e) assistance in securing necessary household supplies; and

(f) landlord relationship building and communication.

(2) Tenancy support services, including:

(a) early identification of issues undermining housing stability, including member behaviors;

(b) coaching the member about relationships with neighbors, landlords and tenancy conditions;

(c) education about tenant responsibilities and rights;

(d) assistance and advocacy in resolving tenancy issues;

(e) regular review and updates to housing support plan and housing crisis plan; and

(f) linkages to other community resources for maintaining housing.

E. Duration: The PSH-TSS benefit is available to an eligible member for the duration of the member's enrollment in a linkages program, ceasing when the client leaves the program.

F. Reimbursement: See Subsection H of 8.321.9 NMAC for MAD behavioral health general reimbursement requirements. See the BH policy and billing manual for reimbursement specific to PSH-TSS. These services do not include tenancy assistance in the form of rent or subsidized housing.

[8.321.2.37 NMAC - Rp, 8.321.2.36 NMAC, 12/10/2024]

8.321.2.38 TREATMENT FOSTER CARE I and II:

MAD pays for medically necessary services furnished to an eligible recipient under 21 years of age who has an identified need for treatment foster care (TFC) and meets the TFC I or TFC II level of care (LOC) as part of the EPSDT program. MAD covers those services included in the eligible recipient's individualized treatment plan which is designed to help them develop skills necessary for successful reintegration into their family or transition back into the community. TFC I agency provides therapeutic services to an eligible recipient who is experiencing emotional or psychological trauma and who would optimally benefit from the services and supervision provided in a TFC I setting. The TFC II agency provides therapeutic family living experiences as the core treatment service to which other individualized services can be added. The need for TFC I and II services must be identified in the tot to teen health check or other diagnostic evaluation furnished through the eligible recipient's health check referral.

A. Eligible agencies: In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing TFC services to an eligible recipient, the agency must be a CYFD certified TFC agency per 7.20.11 NMAC and be licensed per 8.26.4 and 8.26.5 NMAC as a child placement agency by CYFD protective services. In lieu of NM CYFD licensure and certification, an out-of-state TFC agency must have equivalent accreditation and be licensed in its own state as a TFC agency.

B. Coverage criteria:

(1) The treatment foster care agency provides intensive support, technical assistance, and supervision of all treatment foster parents.

(2) A TFC I and II parent is either employed or contracted by the TFC agency and receives appropriate training and supervision by the TFC agency.

(3) Placement does not occur until after a comprehensive assessment of how the prospective treatment foster family can meet the recipient's needs and preferences, and a documented determination by the agency that the prospective placement is a reasonable match for the recipient, which includes clinical rationale.

(4) An initial treatment plan must be developed within 72 hours of admission and a comprehensive treatment plan must be developed within 14 calendar days of the eligible recipient's admission to a TFC I or II program. See the BH policy and billing manual for the specific requirements of a TFC treatment plan.

(5) The treatment team must review the treatment plan every 30 calendar days.

(6) TFC families must have one parent readily accessible at all times, cannot schedule work when the eligible recipient is normally at home, and is able to be physically present to meet the eligible recipient's emotional and behavioral needs.

(7) In the event the treatment foster parents request a treatment foster recipient be removed from their home, a treatment team meeting must be held and an agreement made that a move is in the best interest of the involved recipient. Any treatment foster parent(s) who demands removal of a treatment foster recipient from their home without first discussing with and obtaining consensus of the treatment team, may have their license revoked.

(8) A recipient eligible for treatment foster care services, level I or II, may change treatment foster homes only under the following circumstances:

(a) an effort is being made to reunite siblings; or

(b) a change of treatment foster home is clinically indicated, as documented in the client's record by the treatment team.

C. Identified population:

(1) TFC I services are for an eligible recipient who meets the following criteria:

(a) is at risk for placement in a higher level of care or is returning from a higher level of care and is appropriate for a lower level of care; or

(b) has complex and difficult psychiatric, psychological, neurobiological, behavioral, psychosocial problems; and

(c) requires and would optimally benefit from the behavioral health services and supervision provided in a treatment foster home setting.

(2) TFC II services are for an eligible recipient who meets the following criteria:

(a) has successfully completed treatment foster care services level I (TFC I), as indicated by the treatment team; or

(b) requires the initiation or continuity of treatment and support of the treatment foster family to secure or maintain therapeutic gains; or

(c) requires this treatment modality as an appropriate entry level service from which the client will optimally benefit.

(3) An eligible recipient has the right to receive services from any MAD TFC enrolled agency of their choice.

D. Covered services: The family living experience is the core treatment service to which other individualized services can be added, as appropriate to meet the eligible recipient's needs.

(1) The TFC parental responsibilities include, but are not limited to:

(a) meeting the recipient's base needs, and providing daily care and supervision;

(b) participating in the development of treatment plans for the eligible recipient by providing input based on their observations;

(c) assuming the primary responsibility for implementing the in-home treatment strategies specified in the eligible recipient's treatment plan;

(d) recording the eligible recipient's information and documentation of activities, as required by the TFC agency and the standards under which it operates;

(e) assisting the eligible recipient with maintaining contact with their family and enhancing that relationship;

(f) supporting efforts specified by the treatment plan to meet the eligible recipient's permanency planning goals;

(g) reunification with the recipient's family. The treatment foster parents work in conjunction with the treatment team toward the accomplishment of the reunification objectives outlined in the treatment plan;

(h) assisting the eligible recipient obtain medical, educational, vocational and other services to reach goals identified in treatment plan;

(i) ensuring proper and adequate supervision is provided at all times. Treatment teams determine that all out-of-home activities are appropriate for the recipient's level of need, including the need for supervision; and

(j) working with all appropriate and available community-based resources to secure services for and to advocate for the eligible recipient.

(2) The treatment foster care agency provides intensive support, technical assistance, and supervision of all treatment foster parents. The following services must be furnished by both TFC I and II agencies unless specified for either I or II. Payment for performance of these services is included in the TFC agency's reimbursement rate:

(a) facilitation, monitoring and documenting of treatment of TFC parents initial and ongoing training;

(b) providing support, assistance and training to the TFC parents;

(c) providing assessments for pre-placement and placement to determine the eligible recipient's placement is therapeutically appropriate;

(d) ongoing review of the eligible recipient's progress in TFC and assessment of family interactions and stress;

(e) ongoing treatment planning as defined in Subsection G of 8.321.2.9 NMAC and treatment team meetings;

(f) provision of individual, family or group psychotherapy to recipients as described in the treatment plan. The TFC therapist is an active treatment team member and participates fully in the treatment planning process;

(g) family therapy is required when client reunification with their family is the goal;

(h) ensuring facilitation of age-appropriate skill development in the areas of household management, nutrition, physical and emotional health, basic life skills, time management, school attendance, money management, independent living, relaxation techniques and self-care techniques for the eligible recipient;

(i) providing crisis intervention on call to treatment foster parents, recipients and their families on a 24-hour, seven days a week basis including 24-hour availability of appropriate staff to respond to the home in crisis situations;

(j) assessing the family's strengths, needs and developing a family treatment plan when an eligible recipient's return to their family is planned;

(k) conducting a private face-to-face visit with the eligible recipient within the first two weeks of TFC I placement and at least twice monthly thereafter by the treatment coordinator;

(l) conducting a face-to-face interview with the eligible recipient's TFC parents within the first two weeks of TFC I placement and at least twice monthly thereafter by the treatment coordinator;

(m)conducting at a minimum one phone contact with the TFC I parents weekly; phone contact is not necessary in the same week as the face-to-face contact by the treatment coordinator;

(n) conducting a private face-to face interview with the eligible recipient's TFC II parent within the first two weeks of TFC II placement and at least once monthly thereafter by the treatment coordinator;

(o) conducting a face-to-face interview with the eligible recipient's TFC II parent within the first two weeks of TFC II placement and at least once monthly thereafter by the treatment coordinator; and

(p) conducting at a minimum one phone contact with the TFC II parents weekly; phone contact is not necessary in the same week as the face-to-face contact by the treatment coordinator.

E. Non-covered service: TFC I and II services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for all non-covered MAD behavioral health services or activities. Specific to TFC I and II services MAD does not cover:

(1) room and board;

(2) formal educational or vocational services related to traditional academic subjects or vocational training;

(3) respite care; and

(4) CCSS except as part of the discharge planning from either the eligible recipient's TFC I or II placement.

F. Prior authorization: Before any TFC service is furnished to an eligible recipient, prior authorization is required from MAD or its UR contractor. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

G. A TFC agency must submit claims for reimbursement on the CMS-1500 form or its successor. See Subsection H of 8.321.2.9 NMAC for MAD general reimbursement requirements and see 8.302.2 NMAC.

[8.321.2.38 NMAC - Rp, 8.321.2.37 NMAC, 12/10/2024]

8.321.2.39 THERAPEUTIC INTERVENTIONS:

MAD provides coverage for therapeutic intervention services rendered to individuals with mental health disorders. The mental health services rendered shall be necessary to

reduce the disability resulting from mental illness and to restore the individual to their best possible functioning level in the community. Therapeutic interventions are the following evidence-based practices delivered by qualified licensed mental health practitioners: trauma-focused cognitive behavioral therapy (TF-CBT); eye movement desensitization and reprocessing (EMDR); and dialectical behavior therapy (DBT).

A. Eligible providers: In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing TF-CBT, EMDR, or DBT services, an agency must be approved through the application process described in the BH policy and billing manual and hold an acceptable certification or licensure for the specific EBP identified above. The following mental health practitioners who are licensed in the state of NM to diagnose and treat behavioral health, acting within the scope of all applicable state laws and their professional license, may provide the above evidence-based practices if certification is obtained from the listed source:

(1) licensed psychologists;

(2) licensed clinical social workers (LCSWs);

(3) licensed professional clinical counselors (LPCCs);

(4) licensed marriage and family therapists (LMFTs);

(5) licensed alcohol and drug abuse counselors (LADAC); and

(6) advanced practice registered nurses (APRN) (must be a nurse practitioner specialist in adult psychiatric & mental health, and family psychiatric & mental health or a certified nurse specialist in psychosocial, gerontological psychiatric mental health, adult psychiatric and mental health, and child-adolescent mental health and may practice to the extent that services are within the APRN's scope of practice).

B. Additional provider requirements for DBT: DBT agencies must be able to provide 24-hours a day, seven days a week availability for skills coaching. Therapists must be independently licensed but may work with master’s or bachelor’s level staff with a degree in social work, counseling, psychology or a related human services field and must have at least three years of experience working with the target population that is, children or adolescents and their families. Unlicensed staff may not provide DBT therapy. Unlicensed staff may only provide service coordination and group therapy in conjunction with a trained licensed therapist. An active DBT team requires DBT certification of at least two certified treatment providers working collaboratively with one another using the DBT services as defined by the DBT services program selected by the state. DBT trainees and DBT care managers may be the second professional in a group setting where a DBT therapist is the group lead. In addition, while the DBT trainees and DBT care managers may bill for service coordination, they may not bill for DBT therapy. Only a licensed and trained DBT therapist may bill for DBT therapy.

C. Identified population: Individuals with mental health disorders. There is no age restriction for EMDR, or DBT. TF-CBT is limited to children under the age of 18 and their families. Services provided to family members or other supports are for the direct benefit of the medicaid recipient.

D. Covered services: Therapeutic interventions are services rendered to reduce disability resulting from mental illness and to restore the individual to their best possible functioning level in the community. Therapeutic interventions include:

(1) **Trauma-focused cognitive behavioral therapy (TF-CBT):** Is a combination of cognitive behavioral therapy, family therapy, and psychosocial education to address the effects of trauma using conjoint child and parent psychotherapy model for children who are experiencing significant emotional and behavioral difficulties related to traumatic life events. It is a components-based hybrid treatment model that incorporates trauma-sensitive interventions with cognitive behavioral, family, and humanistic principles. Trauma focus cognitive behavioral therapy certification program (tfcbt.org) is an acceptable certification. Any interventions involving parents and caregivers are for the direct benefit of the beneficiary.

(2) **Eye movement desensitization and reprocessing (EMDR):** An evidence-based psychotherapy that treats trauma-related symptoms. EMDR therapy is designed to resolve unprocessed traumatic memories in the brain. The therapist guides the client to process the trauma by attending to emotionally disturbing material in brief, sequential doses, while at the same time focusing on an external stimulus. The most commonly used external stimulus in EMDR therapy is alternating eye movements; however, sounds or taps may be used as well. EMDRIA (EMDR International Association) sets the standards and requirements for EMDR therapy training. EMDRIA certifies individual clinical practitioners in the practice of EMDR therapy by ensuring all basic requirements, initial training, and ongoing certification are met (see www.emdria.org). EMDRIA establishes two levels of training for practitioners in EMDR therapy. For the purposes of providing EMDR therapy under NM medicaid, either level (EMDRIA approved basic training, or EMDR certification) are acceptable qualifications. The standard level of training, which allows a practitioner to provide EMDR therapy, is referred to as “EMDRIA approved basic training”.

(3) **Dialectical behavior therapy (DBT):** A cognitive behavioral approach to treatment to teach individuals better management of powerful emotions, urges, and thoughts that can disrupt daily living if not addressed in a structured treatment approach. DBT-linehan board of certification is an acceptable qualification. This evidence-based practice includes service coordination, individual, group, and family therapy. A DBT provider must include in their program individual DBT therapy, DBT skills groups, 24-hour coverage seven days per week availability for skills coaching, and a clinical consultation team.

E. Service exclusions and limitations: Therapeutic intervention services are subject to the limitations and coverage restrictions that exist for other MAD covered

services. See subsection G of 8.321.2.9 NMAC for general non-covered specialized behavioral health services. All services provided while a person is a resident of an institution for mental disease (IMD) are considered content of the institutional service and are not otherwise reimbursable by medicaid. Services provided by licensed behavioral health practitioners via telehealth technologies are covered subject to the limitations as set forth in state regulations. The following activities services shall be excluded from medicaid coverage and reimbursement of these evidence-based practices:

(1) Components that are not provided to, or directed exclusively toward, the treatment of the medicaid eligible individual.

(2) Services provided at a work site, which are job-oriented and not directly related to the treatment of the member's needs.

(3) These rehabilitation services shall not duplicate any other medicaid state plan service or service otherwise available to the member at no cost.

(4) Any services or components in which the basic nature of which are to supplant housekeeping, homemaking, or basic services for the convenience of an individual receiving services.

F. Additional DBT service exclusions and limitations: DBT shall not be billed in conjunction with BH services by licensed and unlicensed individuals, other than medication management and psychological evaluation or assessment; and residential services, including therapeutic foster care and RTC services.

G. Reimbursement: Therapeutic intervention agencies must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection E of 8.321.2.9 NMAC for MAD general reimbursement requirements and 8.302.2 NMAC. Once enrolled, the agency receives instructions on how to access documentation, billing, and claims processing information.

[8.321.2.39 NMAC - N, 12/10/2024]

8.321.2.40 FUNCTIONAL FAMILY THERAPY (FFT):

To help eligible recipients receive behavioral health services to MAD pays for FFT services. FFT is an evidence-based, short term and intensive family-based and manual driven treatment program that has been successful in treating a wide range of problems affecting families in a wide range of multi-ethnic, multicultural, and geographic contexts.

A. Eligible providers: In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing FFT services, an agency must hold a copy of FFT, LLC or FFT partners certification, or any of its approved subsidiaries and meet the state licensure and provider enrollment

requirements for each FFT team. Additionally, the agency must complete the application process as described in the BH policy and billing manual. An active FFT team requires FFT certification of a clinical supervisor and at least two FFT certified treatment providers working collaboratively with one another using the FFT services as defined by the State. Providers must be engaged in training, consultation, and oversight by either of the following training entities: FFT LLC or FFT partners.

(1) The FFT program includes an assigned FFT team for each eligible recipient. The FFT team must include at minimum:

(a) master's level independently licensed behavioral health professional clinical supervision; see Subsection H of 8.321.2.9 NMAC;

(b) a licensed master's level behavioral health practitioner that is required to perform all FFT interventions; a bachelor's level behavioral health practitioner is limited to performing functions defined within the scope of their RLD practice board licensure or practice (see Subsection E of 8.321.2.9 NMAC);

(c) bachelor's level staff that has a degree in social work, counseling, psychology, or a related human services field and must have at least three years' experience working with the identified population of children, adolescents and their families. Bachelor's level staff may provide the non-clinical components of treatment including treatment planning, skill-building, and family psychoeducation but not family therapy; and

(d) staffing for FFT services is comprised of no more than one-third bachelor's level staff and, at minimum, two-thirds licensed master's level staff unless an exception is granted by FFT, LLC or FFT partners.

(2) Clinical supervision must include at a minimum:

(a) weekly supervision provided by an independently licensed master's level behavioral health practitioner (see Subsection C of 8.321.2.9 NMAC) who is FFT trained; this supervision, following the FFT supervisory protocol, is provided to team members on topics directly related to the needs of the eligible recipient and their family on an ongoing basis; and

(b) one hour of local group supervision per week and one hour of telephone consultation per week with the FFT systems supervisor, provided to team members on topics directly related to the needs of the eligible recipient and their family on an ongoing basis.

(3) All clinical staff are required to participate in and complete a prescribed five-day FFT introductory training and subsequent quarterly trainings.

B. Identified population:

(1) FFT is provided to an eligible youth meeting medical necessity with serious behavior problems such as conduct disorder, violent acting-out, mental health concerns, truancy, and substance use. FFT is an evidence-based, short term and intensive family-based treatment. FFT program's goals are to: integrate families' voices in all phases of treatment; develop and grow in innovative, collaborative, dynamic and evidence-based practices; practice evidence-based programs in evidence-based ways to maintain model fidelity; evolve the model in a way that is responsive to the needs of families, communities, and agencies; and provide innovative, real-time cloud-based technology and training for predictability and outcomes.

(2) A co-occurring diagnosis of SUD shall not exclude an eligible recipient from the program.

C. Covered services and service limitations: FFT enrolls families with youth meeting medical necessity with serious behavior problems such as conduct disorder, violent acting-out, mental health concerns, truancy, and substance use. FFT services may be provided in both clinic-based and community-based settings. FFT service components include treatment planning; restoration of social skills which is available 24-hours a day, seven days a week; and family therapy and psychoeducation. When services are provided to family or other supports the service must be for the direct benefit of the medicaid recipient.

(1) The following services must be furnished as part of the FFT service to be eligible for reimbursement:

(a) an initial assessment to identify the focus of the FFT intervention;

(b) therapeutic interventions with the eligible recipient and their family; and

(c) case management.

(2) FFT services are conducted by practitioners using the FFT team approach. The FFT team must have the ability to deliver services in various environments both clinic-based and community based.

(3) FFT interventions occur in three primary phases: engagement/motivation, behavior change, and generalization; each with measurable process goals and family skills that are the targets of intervention with the length of treatment covered based on medical necessity. Each phase has specific goals and practitioner skills associated with it. The specificity of the model allows for monitoring of treatment, training, and practitioner model adherence in ways that are not possible with other less specific treatment interventions.

D. Non-covered services: FFT services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general non-covered specialized behavioral health services.

E. Reimbursement: FFT agencies must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection E of 8.321.2.9 NMAC for MAD general reimbursement requirements and 8.302.2 NMAC. Once enrolled, the FFT agency receives instructions on how to access documentation, billing, and claims processing information.

[8.321.2.40 NMAC - N, 12/10/2024]

8.321.2.41 HIGH FIDELITY WRAPAROUND (HFW):

An intensive care coordination service designed as a comprehensive, holistic, youth and family-driven way of responding when children or youth experience serious mental health or behavioral challenges. HFW aligns with the children's system of care (SOC) approach in NM. HFW supports teams to effectively coordinate within the state's children's behavioral health service array including access to community supports and resources. When services are provided to family or other supports the service must be for the direct benefit of the medicaid recipient.

A. Eligible providers: In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing HFW an agency must complete the application process as described in the behavioral health billing and policy manual. HFW agencies must maintain a clinical director and program director or administrator.

(1) The HFW program includes an assigned HFW team for each eligible recipient. The HFW team includes:

(a) wraparound facilitator who has completed the requirements of the facilitator in training (FIT) track, obtained wraparound certification from the NM credentialing board for behavioral health professionals (NMCBBHP), and meets the educational requirements identified in the BH policy and billing manual;

(b) wraparound supervisor-coach who has completed the requirements of the facilitator in training (FIT) track, obtained wraparound certification from the NM credentialing board for behavioral health professionals (NMCBBHP), completed the requirements of the coach in training (CIT) track, and meets the educational requirements identified in the BH policy and billing manual; and

(c) a family peer support worker.

B. Identified population: individuals are eligible to receive HFW intensive care coordination if they meet the following criteria:

(1) children or youth with an SED diagnosis;

(2) functional impairment in two or more domains identified by the child and adolescent needs and strengths (CANS) tool;

(3) involved in two or more systems such as special education, behavioral health, protective services or juvenile justice, or (for children aged 0-5) are at risk of such involvement; and

(4) are at risk or in an out of home placement.

C. Covered services include:

(1) Intensive care coordination through dedicated full-time care coordinators working with small numbers of children and families. The care coordinator is required to follow state guidelines described in the BH policy and billing manual for care of children with SED who are eligible for HFW. Care coordinators work in partnership with representatives of key stakeholder groups, including families, agencies, providers, and community representatives to plan, implement and oversee HFW coordination plans. Intensive care coordination includes, but is not limited to:

(a) functional, needs and strengths assessment and service planning;

(b) accessing and arranging for services, resources and supports;

(c) coordinating multiple services, levels of care, resources, supports and teams;

(d) conducting safety and stability planning and response;

(e) assisting children and families in meeting basic needs;

(f) advocating for children and families;

(g) monitoring progress; and

(h) conducting a team and strengths-based approach.

(2) Treatment planning: the individualized care coordination plans are developed by engaging with the beneficiary's family or caretakers and other members of the beneficiary's community. Such plans must be family and youth-driven, team-based, collaborative, individualized, and outcomes-based. The plan of care must address youth and family needs across domains of physical and behavioral health and social services.

D. Non-covered services: HFW services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general non-covered specialized behavioral health services.

E. Reimbursement: HFW agencies must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection E of 8.321.2.9 NMAC for MAD general reimbursement requirements and 8.302.2 NMAC. Once enrolled, the HFW agency receives instructions on how to access documentation, billing, and claims processing information.

[8.321.2.41 NMAC - N, 12/10/2024]

8.321.2.42 PEER SUPPORT SERVICES:

Peer support services are an evidence-based mental health model of care which consists of a qualified peer support provider who assists individuals with their recovery from mental illness and substance use disorders.

A. Eligible practitioners: Must be self-identified consumers who are in recovery from mental illness or substance use disorder. In addition to the requirements of Subsections A and B of 8.321.2.9 NMAC, in order to be eligible to be reimbursed for providing peer support services practitioners meet the following qualifications:

(1) Certified peer support workers (CPSW) must:

(a) complete the certification program offered through BHSD;

(b) be certified by the NM credentialing board for behavioral health professionals;

(c) complete 20 hours of initial training and 20 hours of education every subsequent year;

(d) be supervised by an independent practitioner or someone trained and certified to supervise peers; and

(e) services must be coordinated within the context of a comprehensive, individualized plan of care that includes specific individualized goals.

(2) Certified family peer support workers (CFPSW) must:

(a) complete the certification program offered through CYFD;

(b) be certified by the NM credentialing board for behavioral health professionals;

(c) complete 20 hours of initial training and 20 hours of education every subsequent year;

(d) be supervised by an independent practitioner or someone trained and certified to supervise peers; and

(e) services must be coordinated within the context of a comprehensive, individualized plan of care that includes specific individualized goals.

(3) Certified youth peer support specialists (CYPSS) must:

(a) complete the certification program offered through CYFD;

(b) be certified by the NM credentialing board for behavioral health professionals;

(c) complete 20 hours of initial training and 20 hours of education every subsequent year;

(d) be supervised by an independent practitioner or someone trained and certified to supervise peers; and

(e) services must be coordinated within the context of a comprehensive, individualized plan of care that includes specific individualized goals.

B. Non-covered services: Peer support services are subject to the limitations and coverage restrictions that exist for other MAD covered services. See Subsection G of 8.321.2.9 NMAC for general non-covered specialized behavioral health services.

C. Reimbursement: peer support providers must submit claims for reimbursement on the CMS-1500 claim form or its successor. See Subsection E of 8.321.2.9 NMAC for MAD general reimbursement requirements and 8.302.2 NMAC. Once enrolled, the peer support provider receives instructions on how to access documentation, billing, and claims processing information.

[8.321.2.42 NMAC - N, 12/10/2024]

PART 3: ACCREDITED RESIDENTIAL TREATMENT CENTER SERVICES [REPEALED]

[This part was repealed on January 1, 2014.]

PART 4 : NON-ACCREDITED RESIDENTIAL TREATMENT CENTERS AND GROUP HOMES [REPEALED]

[This part was repealed on January 1, 2014.]

PART 5: OUTPATIENT AND PARTIAL HOSPITALIZATION SERVICES IN FREESTANDING PSYCHIATRIC HOSPITALS [REPEALED]

[This part was repealed on January 1, 2014.]

PART 6: REQUIREMENTS FOR COMMUNITY MENTAL HEALTH CENTERS

8.321.6.1 ISSUING AGENCY:

New Mexico Health Care Authority - Division of Health Improvement.

[8.321.6.1 NMAC - N, 7/1/2024]

8.321.6.2 SCOPE:

A. These regulations apply to the following:

(1) outpatient facilities which are certified by the behavioral health services division of the New Mexico health care authority (authority) to provide psychosocial rehabilitation services to adults with priority given to individuals with severe disabling mental illness (SDMI); and

(2) any facility providing services as outlined by these regulations which by federal regulation must be certified by the behavioral health services division of the authority to obtain or maintain full or partial, permanent or temporary federal funding.

B. These regulations do not apply to offices and treatment facilities of licensed private practitioners.

[8.321.6.2 NMAC - N, 7/1/2024]

8.321.6.3 STATUTORY AUTHORITY:

The regulations set forth herein are promulgated pursuant to the general authority granted under Subsection E of Section 9-8-6 NMSA 1978; and the authority granted under Subsection D of Section 24-1-2, Subsection I of Section 24-1-3, and Section 24-1-5 of the Public Health Act, NMSA 1978, as amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.321.6.3 NMAC - N, 7/1/2024]

8.321.6.4 DURATION:

Permanent.

[8.321.4 NMAC - N, 7/1/2024]

8.321.6.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.321.6.5 NMAC - N, 7/1/2024]

8.321.6.6 OBJECTIVE:

A. to establish minimum standards for licensing of community mental health centers;

B. to monitor community mental health centers through surveys to identify any areas which could be dangerous or harmful to the clients or staff; and

C. to ensure the provision of quality services which maintain or improve the health and quality of life to the clients.

[8.321.6.6 NMAC - N, 7/1/2024]

8.321.6.7 DEFINITIONS:

A. "Applicant" means the organization that applies for a license. The individual signing the application on behalf of the organization must have authority from the organization.

B. "Branch" means a part of the certified community mental health center, which is part of the corporation or campus that is certified by HCA, where client care takes place. Branches of facilities must meet the intent of these regulations. The parent facility is responsible for their branches' compliance. A separate state license is required for separate geographic locations under each certified facility.

C. "Client" means any individual who is requesting or receiving mental health services from a community mental health center as defined in this regulation.

D. "Community- based crisis intervention" means, at a minimum, 24 hour telephone crisis services, initial face-to-face crisis intervention and follow-up crisis support services.

E. "Community mental health center" means a facility certified by the health care authority to provide and manage a comprehensive array of mental health services with priority given to serving adults with severe disabling mental illness (SDMI) in a community-based setting. At a minimum, the following core services must be available and accessible:

(1) professional consultation;

(2) community-based crisis intervention;

(3) therapeutic interventions;

(4) medication services; and

(5) psychosocial interventions.

F. "Deficiency" means a violation of or failure to comply with a provision(s) of these regulations.

G. "Facility" means a building or buildings, including all branches, in which outpatient mental health services are provided to the public and which is licensed pursuant to these regulations.

H. "Governing body" means the governing authority of a facility, which has the ultimate responsibility for all planning, direction, control, and management of the activities and functions of a facility licensed pursuant to these regulations.

I. "License" means the document issued by the licensing authority pursuant to these regulations granting the legal right to operate for a specified period of time, not to exceed one year.

J. "Licensee" means the organization which has an ownership, leasehold, or similar interest in the facility and in whose name a license for a facility has been issued and who is legally responsible for compliance with these regulations.

K. "Licensing authority" means the agency within the New Mexico health care authority vested with the authority by HCA to regulate and enforce these regulations.

L. "Medication services" means assessing the need for psychoactive medications and management of pharmacological treatments.

M. "NMSA" means the New Mexico statutes annotated, 1978 compilation, and all the revisions and compilations thereof.

N. "Plan of correction" means the plan submitted by the licensee or representative of the licensee addressing how and when deficiencies identified at the time of a survey will be corrected.

O. "Policy" means a statement of principle that guides and determines present and future decisions and actions.

P. "Premises" means buildings, grounds, and equipment of a facility.

Q. "Procedure" means the action(s) that must be taken in order to implement a policy.

R. "Professional consultation" means the initial assessment of the client's needs and resources, the development of the patient's treatment plan, its monitoring and review and the access of specialized expertise to provide tests.

S. "Psychosocial interventions" means an array of services designed to help an individual capitalize on their personal strengths, develop coping strategies, and to develop a supportive environment in which to function as independently as possible. This array must include, at a minimum:

(1) basic living skills;

(2) psychosocial skills training; and

(3) therapeutic socialization.

T. "Psychosocial rehabilitation services" means a set of treatment strategies which help persons with mental disorders, including those with co-occurring substance abuse issues, achieve optimum functioning in the personal and social dimensions of their lives. The treatment strategies must be rehabilitative in nature and create, sustain, and encourage empowerment through a recovery process.

U. "Therapeutic interventions" means interactive therapies which, when used in conjunction with other treatment strategies, assist persons with severe disabling mental illness to achieve optimum functioning in the personal and social dimensions of their lives.

V. "U/L approved" means approved for safety by the national underwriters laboratory.

W. "Variance" means to refrain from pressing or enforcing compliance with a portion or portions of these regulations for an unspecified period of time where the granting of a variance will not create a danger to the health, safety, or welfare of clients or staff of a facility, and is issued at the sole discretion of the licensing authority.

X. "Waive/waiver" means to refrain from pressing or enforcing compliance with a portion or portions of these regulations for a limited period of time provided the health, safety, or welfare of the clients and staff are not in danger. Waivers are issued at the sole discretion of the licensing authority.

[8.321.6.7 NMAC - N, 7/1/2024]

8.321.6.8 STATUTORY AUTHORITY:

The degree of compliance required throughout these regulations is designated by the use of the words"shall" or"must" or"may.""Shall" or"must" means mandatory."May" means permissive. The use of the words"adequate,""proper," and other similar words means the degree of compliance that is generally accepted throughout the professional field by those who provide outpatient mental health services to the public in facilities governed by these regulations.

[8.321.6.8 NMAC - N, 7/1/2024]

8.321.6.9 PROHIBITION ON UNLICENSED OPERATION:

These regulations apply to all community mental health centers operating within New Mexico as set out in 8.321.2 NMAC, above. No community mental health center, or branch thereof, may operate in New Mexico without being duly licensed according to these regulations.

[8.321.6.9 NMAC - N, 7/1/2024]

8.321.6.10 INITIAL LICENSURE PROCEDURES:

To obtain an initial license for a facility pursuant to these regulations the following procedures must be followed by the applicant.

A. Application phase: These regulations apply to the design of a new building or renovation or addition to an existing building for licensure as a facility pursuant to these regulations. Prior to starting construction, renovations or additions to an existing building the applicant of the proposed facility shall:

(1) advise the licensing authority in writing of intention to open a facility pursuant to these regulations.

(2) submit a set of floor plans for the building which must be of professional quality, be on substantial paper of at least 18 inches by 24 inches, and be drawn to an accurate scale of one-quarter inch to one foot. These plans must include:

(a) proposed use of each room e.g., waiting room, counseling/therapy room, office, et cetera;

(b) interior dimensions of all rooms;

(c) one building or wall section showing exterior and interior wall construction. Section must include floor, wall, ceiling, and the finishes, e.g., carpet, tile, gyp board with paint, wood paneling;

(d) door types, swing, and sizes of all doors, e.g. solid core, hollow core, three feet by six feet, eight inches, one and three-quarters inches thick;

(e) if the building is air-conditioned;

(f) all sinks;

(g) furnaces and hot water heaters, and if gas or electric;

(h) windows including size and type;

(i) any level changes within the building, e.g., steps or ramps;

(j) fire extinguishers, heat and smoke detectors and alarm systems;

(k) location of the building on a site/ plot plan to determine surrounding conditions, include all steps, ramps, parking areas, walks, and any permanent structures; and

(l) plans if the building is new construction, remodeled or alteration, or an addition. If remodeled or an addition, indicate existing and new construction on the plans.

(3) Blueprints or floor plans must be reviewed by the licensing authority for compliance with current licensing regulations, building and fire codes.

(4) If blueprints or plans are approved, the licensing authority will advise the applicant that construction may begin.

B. Construction phase: During the construction of a new building or renovations or additions to an existing building, the applicant must coordinate with the licensing authority and submit any changes to the blueprints or plans for approval before making such changes.

C. Licensing phase: Prior to completion of construction, renovation or addition to an existing building, the applicant will submit to the licensing authority the following:

(1) Application forms: appropriately completed and notarized.

(2) Fees:

(a) Current fee schedules must be provided by the licensing authority.

(b) Fees must be in the form of a certified check, money order, personal, or business check made payable to the state of New Mexico.

(c) Fees are non-refundable.

(3) Zoning and building approval:

(a) All initial applications must be accompanied with written zoning approval from the appropriate authority (city, county or municipality).

(b) Prior to licensure, initial applicants must submit written building approval (certificate of occupancy) from the appropriate authority (city, county, or municipality).

(4) Fire authority approval: Prior to licensure, initial applicants must submit written approval of the fire authority having jurisdiction.

(5) New Mexico environment department approval: Prior to licensure, initial applicants are responsible for submission of the written approval of the New Mexico environment department for the following:

(a) private water supply, if applicable;

(b) private waste or sewage disposal, if applicable; and

(c) kitchen, if meals are prepared on site.

(6) Copy of appropriate drug permit issued by the state board of pharmacy, if applicable.

D. Initial survey: Upon receipt of a properly completed application with all supporting documentation as outlined above, an initial life safety code on-site survey and an on-site health survey of the proposed facility will be scheduled by the licensing authority.

E. Issuance of license: Upon completion of the initial survey and determination that the facility is in compliance with these regulations, the licensing authority will issue a license.

[8.321.6.10 NMAC - N, 7/1/2024]

8.321.6.11 LICENSES:

A. Annual license: An annual license is issued for a one year period to a facility which has met all requirements of these regulations.

B. Temporary license: The licensing authority may, at its sole discretion, issue a temporary license prior to the initial survey or when it finds partial compliance with these regulations.

(1) A temporary license shall cover a period of time not to exceed 120 days, during which the facility must correct all specified deficiencies.

(2) In accordance with Subsection D of Section 24-1-5 NMSA 1978, no more than two consecutive temporary licenses shall be issued.

C. Amended license: A licensee must apply to the licensing authority for an amended license when there is a change of administrator/director or when there is a change of name for the facility.

(1) Application must be on a form provided by the licensing authority.

(2) Application must be accompanied by the required fee for amended license.

(3) Application must be submitted within 10 working days of the change.

[8.321.6.11 NMAC - N, 7/1/2024]

8.321.6.12 LICENSE RENEWAL:

A. Licensee must submit a renewal application on forms provided by the licensing authority, along with the required fee at least 30 days prior to expiration of the current license.

B. Upon receipt of renewal application and required fee prior to expiration of their current license, the licensing authority will issue a new license effective the day following the date of expiration of the current license if the facility is in compliance with these regulations.

C. If a licensee fails to submit a renewal application with the required fee and the current license expires, the facility shall cease operations until it obtains a new license through the initial licensure procedures. Subsection A of Section 24-1-5 NMSA 1978, as amended, provides that no health facility shall be operated without a license.

[8.321.6.12 NMAC - N, 7/1/2024]

8.321.6.13 POSTING OF LICENSE:

The facility's license must be posted on the licensed premises in an area visible to the public.

[8.321.6.13 NMAC - N, 7/1/2024]

8.321.6.14 NON-TRANSFERABLE RESTRICTION OF LICENSE:

A license shall not be transferred by assignment, or otherwise, to other persons or locations. The license shall be void and must be returned to the licensing authority when any one of the following situations occur:

A. ownership of the facility changes;

B. the facility changes location;

C. licensee of the facility changes;

D. the facility discontinues operation; or

E. a facility wishing to continue operation as a licensed facility under circumstances in Subsections A - D of 8.321.14 NMAC, above must submit an application for initial licensure in accordance with 8.321.10 NMAC of these regulations at least 30 days prior to the anticipated change.

[8.321.6.14 NMAC - N, 7/1/2024]

8.321.6.15 AUTOMATIC EXPIRATION OF LICENSE:

A license will automatically expire at midnight on the day indicated on the license as the expiration date, unless renewed, suspended, or revoked, or

A. on the day a facility discontinues operation;

B. on the day a facility is sold, leased, or otherwise changes ownership or licensee; or

C. on the day a facility changes location.

[8.321.6.15 NMAC - N, 7/1/2024]

8.321.6.16 SUSPENSION OF LICENSE WITHOUT PRIOR HEARING:

In accordance with Subsection H of Section 24-1-5 NMSA 1978, if immediate action is required to protect human health and safety, the licensing authority may suspend a license pending a hearing, provided such hearing is held within five working days of the suspension, unless waived by the licensee.

[8.321.6.16 NMAC - N, 7/1/2024]

8.321.6.17 GROUNDS FOR REVOCATION OR SUSPENSION OF LICENSE, DENIAL OF INITIAL OR RENEWAL APPLICATION FOR LICENSE, OR IMPOSITION OF INTERMEDIATE ACTIONS OR CIVIL MONETARY PENALTIES:

A license may be revoked or suspended, an initial or renewal application for license may be denied, or intermediate sanctions or civil monetary penalties may be imposed after notice and opportunity for a hearing, for any of the following:

A. failure to comply with any provision of these regulations;

B. failure to allow survey by authorized representatives of the licensing authority;

C. allowing any person active in the operation of a facility licensed pursuant to these regulations to be under the influence of, or impaired by, alcohol or other behavior altering substances;

D. misrepresentation or falsification of any information on application forms or other documents provided to the licensing authority;

E. repeated violations of these regulations; or

F. failure to provide the required care and services as outlined by these regulations for the clients receiving care at the facility.

[8.321.6.17 NMAC - N, 7/1/2024]

8.321.6.18 HEARING PROCEDURES:

A. Hearing procedures for an administrative appeal of an adverse action taken by the licensing authority against a facility's license as outlined in Section 16 and 17 above will be held in accordance with adjudicatory hearings, New Mexico health care authority, 8.370.2 NMAC.

B. A copy of the above regulations will be furnished to a facility at the time an adverse action is taken against its license by the licensing authority. A copy may be requested at any time by contacting the licensing authority.

[8.321.6.18 NMAC - N, 7/1/2024]

8.321.6.19 LICENSED FACILITIES:

A. Any community mental health center, currently licensed as a limited diagnostic and treatment center on the date these regulations are promulgated and which provides the services prescribed under these regulations, may continue to be licensed as such until that license expires and renewal is required. At that time, the facility must seek licensure as a community mental health center.

B. Any community mental health center, not currently licensed on the date these regulations are promulgated and which provides the services prescribed under these regulations, must seek licensure as a community mental health center.

(1) Community mental health centers may seek variances for those building requirements the facility cannot meet under the criteria outlined in these regulations if not in conflict with existing building and fire codes.

(2) Variances or waivers may be considered for circumstances where the facility demonstrates an extreme financial hardship to comply with requirements outlined in these regulations.

[8.321.6.19 NMAC - N, 7/1/2024]

8.321.6.20 NEW FACILITY:

A new facility may be opened in an existing building or a newly constructed building.

A. If opened in an existing building, a variance may be granted for those building requirements the facility cannot meet under the criteria outlined in these regulations if not in conflict with existing building and fire codes. This is at the sole discretion of the licensing authority.

B. A new facility opened in a newly constructed building must meet all requirements of these regulations.

[8.321.6.20 NMAC - N, 7/1/2024]

8.321.6.21 FACILITY SURVEYS:

A. Application for licensure, whether initial or renewal, shall constitute permission for entry into, and survey of, a facility by authorized licensing authority representatives at reasonable times during the status of the application and, if licensed, during the licensure period.

B. Surveys may be announced or unannounced at the sole discretion of the licensing authority.

C. Upon receipt of a written notice of deficiency from the licensing authority, the licensee, or their representative, will be required to submit a plan of correction to the licensing authority within 10 working days stating how the facility intends to correct each violation noted and the expected date of correction.

D. The licensing authority may at its sole discretion accept the plan of correction as written or require modifications of the plan by the licensee.

[8.321.6.21 NMAC - N, 7/1/2024]

8.321.6.22 REPORTING OF INCIDENTS:

All facilities licensed pursuant to these regulations must report incidents in accordance with the policies established by the division of health improvement of the authority.

[8.321.6.22 NMAC - N, 7/1/2024]

8.321.6.23 QUALITY ASSURANCE:

All facilities licensed pursuant to these regulations must be in compliance with the quality assurance standards established by the division of health improvement of the authority.

[8.321.6.23 NMAC - N, 7/1/2024]

8.321.6.24 CLIENT RECORDS:

Each facility licensed pursuant to these regulations must maintain a record for each client in accordance with the client record standards set forth by the division of health improvement of the authority.

[8.321.6.24 NMAC - N, 7/1/2024]

8.321.6.25 REPORTS AND RECORDS REQUIRED TO BE ON FILE IN THE FACILITY:

Each facility licensed pursuant to these regulations must keep the following reports and records on file and make them available for review upon request of the licensing authority:

A. a copy of the latest fire inspection report by the fire authority having jurisdiction;

B. a copy of the last survey conducted by the licensing authority and any variances granted;

C. record of fire and emergency evacuation drills conducted by the facility;

D. licensing regulations: A copy of these regulations;

E. a copy of the current license, registration or certificate, of each staff member for which a license, registration, or certification is required by the state of New Mexico; facilities with satellite or branch locations that maintain personnel records in a central location may make arrangements with licensing authority inspectors for viewing such records.

F. valid drug permit as required by the state board of pharmacy; and

G. New Mexico environment department approval of private water system and private waste or sewage disposal, if applicable.

[8.321.6.25 NMAC - N, 7/1/2024]

8.321.6.26 CLIENT RIGHTS:

All facilities licensed pursuant to these regulations shall support, protect and enhance the rights of clients in accordance with the standards set forth by the division of health improvement of the authority.

[8.321.6.26 NMAC - N, 7/1/2024]

8.321.6.27 STAFF RECORDS:

Each facility licensed pursuant to these regulations must maintain a complete record on file for each staff member or volunteer working more than half-time. Staff records will be made available for review upon request of the licensing authority.

A. Staff records will contain at least the following:

(1) name;

(2) address and telephone number;

(3) position for which employed;

(4) date of employment; and

(5) health certificate stating that the employee is free from tuberculosis in a transmissible form as required by New Mexico health care authority regulations, control of communicable disease in health facility personnel, 7.4.4 NMAC.

B. A daily attendance record of all staff must be kept in the facility.

C. The facility must keep weekly or monthly schedules of all staff. These schedules must be kept on file for at least six months.

[8.321.6.27 NMAC - N, 7/1/2024]

8.321.6.28 POLICIES AND PROCEDURES:

All community mental health centers licensed pursuant to these regulations must have written policies and procedures in accordance with the standards set forth by the division of health improvement of the authority.

[8.321.6.28 NMAC - N, 7/1/2024]

8.321.6.29 GENERAL BUILDING REQUIREMENTS:

A. New construction, additions and alterations: When construction of new buildings, additions, or alterations to existing buildings are contemplated, plans and specifications covering all portions of the work must be submitted to the licensing

authority for plan review and approval prior to beginning actual construction. When an addition or alteration is contemplated, plans for the entire facility must be submitted.

B. Access to the disabled: Community mental health centers licensed pursuant to these regulations must be accessible to and useable by disabled employees, staff, visitors, and clients.

C. Extent of a facility: All buildings of the premises providing client care and services will be considered part of the facility and must meet all requirements of these regulations. Where a part of the facility services are contained in another facility, separation and access shall be maintained as described in current building and fire codes.

D. Additional requirements: A facility applying for licensure pursuant to these regulations may have additional requirements not contained herein. The complexity of building and fire codes and requirements of city, county, or municipal governments may stipulate these additional requirements. Any additional requirements will be outlined by the appropriate building and fire authorities, and by the licensing authority through plan review, consultation and on-site surveys during the licensing process.

[8.321.6.29 NMAC - N, 7/1/2024]

8.321.6.30 MAINTENANCE OF BUILDING AND GROUNDS:

Facilities must maintain the building(s) in good repair at all times. Such maintenance shall include, but is not limited to, the following:

A. all electrical, mechanical, water supply, heating, fire protection, and sewage disposal systems must be maintained in a safe and functioning condition, including regular inspections of these systems;

B. all equipment and materials used for client care shall be maintained clean and in good repair;

C. all furniture and furnishings must be kept clean and in good repair; and

D. the grounds of the facility must be maintained in a safe and sanitary condition at all times.

[8.321.6.30 NMAC - N, 7/1/2024]

8.321.6.31 HOUSEKEEPING:

A. The facility must be kept free from offensive odors and accumulations of dirt, rubbish, dust, and safety hazards.

B. Counseling/therapy rooms, waiting areas and other areas of daily usage must be cleaned as needed to maintain a clean and safe environment for the clients.

C. Floors and walls must be constructed of a finish that can be easily cleaned. Floor polishes shall provide a slip resistant finish.

D. Deodorizers must not be used to mask odors caused by unsanitary conditions or poor housekeeping practices.

E. Storage areas must be kept free from accumulation of refuse, discarded equipment, furniture, paper, et cetera.

[8.321.6.31 NMAC - N, 7/1/2024]

8.321.6.32 WATER:

A. A facility licensed pursuant to these regulations must be provided with an adequate supply of water that is of a safe and sanitary quality suitable for domestic use.

B. If the water supply is not obtained from an approved public system, the private water system must be inspected, tested, and approved by the New Mexico environment department prior to licensure. It is the facility's responsibility to insure that subsequent periodic testing or inspection of such private water systems be made at intervals prescribed by the New Mexico environment department or recognized authority.

C. Hot and cold running water under pressure must be distributed at sufficient pressure to operate all fixtures and equipment during maximum demand periods.

D. Back flow preventers (vacuum breakers) must be installed on hose bibbs, laboratory sinks, janitor's sinks, and on all other water fixtures to which hoses or tubing can be attached.

E. Water distribution systems are arranged to provide hot water at each hot water outlet at all times. Hot water to hand washing facilities must not exceed 120 degrees F.

[8.321.6.32 NMAC - N, 7/1/2024]

8.321.6.33 SEWAGE AND WASTE DISPOSAL:

A. All sewage and liquid wastes must be disposed of into a municipal sewage system where such facilities are available.

B. Where a municipal sewage system is not available, the system used must be inspected and approved by the New Mexico environment department or recognized local authority.

C. Where municipal or community garbage collection and disposal service are not available, the method of collection and disposal of solid wastes generated by the facility must be inspected and approved by the New Mexico environment department or recognized local authority.

D. All garbage and refuse receptacles must be durable, have tight fitting lids, must be insect and rodent proof, washable, leak proof and constructed of materials which will not absorb liquids. Receptacles must be kept clean.

[8.321.6.33 NMAC - N, 7/1/2024]

8.321.6.34 FIRE SAFETY COMPLIANCE:

All current applicable requirement of state and local codes for fire prevention and safety must be met by the facility.

[8.321.6.34 NMAC - N, 7/1/2024]

8.321.6.35 FIRE CLEARANCE AND INSPECTIONS:

Each facility must request from the fire authority having jurisdiction an annual fire inspection. If the policy of the fire authority having jurisdiction does not provide for annual inspection of the facility, the facility must document the date the request was made and to whom. If the fire authorities do make annual inspections, a copy of the latest inspection must be kept on file in the facility.

[8.321.35 NMAC - N, 7/1/2024]

8.321.6.36 STAFF FIRE AND SAFETY TRAINING:

A. All staff of the facility must know the location of, and be instructed in, proper use of fire extinguishers and other procedures to be observed in case of fire or other emergencies. The facility should request the fire authority having jurisdiction to give periodic instruction in fire prevention and techniques of evacuation.

B. Facility staff must be instructed as part of their duties to constantly strive to detect and eliminate potential safety hazards such as frayed electrical cords, faulty equipment, blocked exits or exit pathways and any other condition which could cause burns, falls, or other personal injury to the clients or staff.

[8.321.6.36 NMAC - N, 7/1/2024]

8.321.6.37 EVACUATION PLAN:

Each facility must have a fire evacuation plan posted in each separate area of the building showing routes of evacuation in case of fire or other emergency.

[8.321.6.37 NMAC - N, 7/1/2024]

8.321.6.38 PROVISIONS FOR EMERGENCY CALLS:

An easily accessible telephone for summoning help, in case of emergency, must be available in the facility.

[8.321.6.38 NMAC - N, 7/1/2024]

8.321.6.39 FIRE EXTINGUISHERS:

A. Fire extinguishers as approved by the state fire marshal or fire prevention authority having jurisdiction must be located in the facility.

B. Fire extinguishers must be properly maintained as recommended by the manufacturer, state fire marshal or fire authority having jurisdiction.

C. All fire extinguishers must be inspected yearly and recharged as specified by the manufacturer, state fire marshal, or fire authority having jurisdiction. All fire extinguishers must be tagged, noting the date of inspection.

[8.321.6.39 NMAC - N, 7/1/2024]

8.321.6.40 ALARM SYSTEM:

A manually operated, electrically supervised fire alarm system shall be installed in each facility only as required by national fire protection association (NFPA) 101 (Life Safety Code). Multiple story facilities do require manual alarm systems.

[8.321.6.40 NMAC - N, 7/1/2024]

8.321.6.41 FIRE DETECTION SYSTEM:

The facility must be equipped with smoke detectors as required by the NFPA 101 (Life Safety Code) and approved in writing by the fire authority having jurisdiction as to number, type and placement.

[8.321.6.41 NMAC - N, 7/1/2024]

8.321.6.42 JANITOR'S CLOSET(S):

A. Each facility shall have at least one janitor's closet.

B. Each janitor's closet shall contain:

(1) a service sink; and

(2) storage for housekeeping supplies and equipment.

C. Each janitor's closet must be vented.

D. Janitor closets are hazardous areas and must be provided with one hour fire separation and one and three-quarters inches solid core doors which are rated at a 20 minute fire protection rating.

[8.321.6.42 NMAC - N, 7/1/2024]

8.321.6.43 EMERGENCY LIGHTING:

A. A facility must be provided with emergency lighting that will activate automatically upon disruption of electrical service.

B. The emergency lighting must be sufficient to illuminate paths of egress and exits of the facility.

[8.321.6.43 NMAC - N, 7/1/2024]

8.321.6.44 ELECTRICAL STANDARDS:

A. All electrical installation and equipment must comply with all current state and local codes.

B. Circuit breakers or fused switches that provide electrical disconnection and over current protection shall be:

(1) enclosed or guarded to provide a dead front assembly;

(2) readily accessible for use and maintenance;

(3) set apart from traffic lanes;

(4) located in a dry, ventilated space, free of corrosive fumes or gases;

(5) able to operate properly in all temperature conditions.

(6) Panel boards servicing lighting and appliance circuits shall be on the same floor and in the same facility area as the circuits they serve.

(7) each panel board will be marked showing the services; and

(8) the use of jumpers or devices to bypass circuit breakers or fused switches is prohibited.

[8.321.6.44 NMAC - N, 7/1/2024]

8.321.6.45 LIGHTING:

A. All spaces occupied by people, machinery, or equipment within buildings, approaches to buildings, and parking lots shall have lighting.

B. Lighting will be sufficient to make all parts of the area clearly visible.

C. All lighting fixtures must be shielded.

D. Lighting fixtures must be selected and located with the comfort and convenience of the staff and clients in mind.

[8.321.6.45 NMAC - N, 7/1/2024]

8.321.6.46 ELECTRICAL CORDS AND RECEPTACLES:

A. Electrical cords and extension cords:

(1) Electrical cords and extension cords must be U/L approved.

(2) Electrical cords and extension cords must be replaced as soon as they show wear.

(3) Under no circumstances shall extension cords be used as a general wiring method.

(4) Extension cords must be plugged into an electrical receptacle within the room where used and must not be connected in one room and extended to some other room.

(5) Extension cords must not be used in series.

B. Electrical receptacles:

(1) Duplex- grounded type electrical receptacles (convenience outlets) must be installed in all areas in sufficient quantities for tasks to be performed as needed. Each examination must have access to a minimum of two duplex receptacles.

(2) The use of multiple sockets (gang plugs) in electrical receptacles is strictly prohibited.

[8.321.6.46 NMAC - N, 7/1/2024]

8.321.6.47 HEATING, VENTILATION, AND AIR- CONDITIONING:

A. Heating, air- conditioning, piping, boilers, and ventilation equipment must be furnished, installed and maintained to meet all requirements of current state and local mechanical, electrical, and construction codes.

B. The heating method used by the facility must have a minimum indoor-winter-design-capacity of 75 degrees F. with controls provided for adjusting temperature as appropriate for client and staff comfort.

C. The use of non- vented heaters, open flame heaters or portable heaters is prohibited.

D. An ample supply of outside air must be provided in all spaces where fuel fired boilers, furnaces, or heaters are located to assure proper combustion.

E. All fuel fired boilers, furnaces, or heaters must be connected to an approved venting system to take the products of combustion directly to the outside air.

F. A facility must be adequately ventilated at all times to provide fresh air and the control of unpleasant odors.

G. All gas-fired heating equipment must be provided with a one hundred percent automatic cutoff control valve in event of pilot failure.

H. The facility must be provided with a system for maintaining clients and staff's comfort during periods of hot weather.

I. All boiler, furnace or heater rooms shall be protected from other parts of the building by construction having a fire resistance rating of not less than one hour. Door must be self-closing with three- quarters of an hour fire resistance.

[8.321.6.47 NMAC - N, 7/1/2024]

8.321.6.48 WATER HEATERS:

A. Must be able to supply hot water to all hot water taps within the facility at full pressure during peak demand periods and maintain a maximum temperature of 120 degrees F.

B. Fuel fired hot water heaters must be enclosed and separated from other parts of the building by construction as required by current state and local building codes.

C. All water heaters must be equipped with a pressure relief valve (pop-off valve).

[8.321.6.48 NMAC - N, 7/1/2024]

8.321.6.49 TOILETS AND LAVATORIES:

A. All fixtures and plumbing must be installed in accordance with current state and local plumbing codes.

B. All toilets must be enclosed and vented.

C. All toilet rooms must be provided with a lavatory for hand washing.

D. All toilets must be kept supplied with toilet paper.

E. All lavatories for hand washing must be kept supplied with disposable towels for hand drying or provided with mechanical blower

F. The number of and location of toilets and lavatories will be mandated by requirements for each type facility. Such factors as extent of services provided and size of facility will also dictate requirements.

[8.321.6.49 NMAC - N, 7/1/2024]

8.321.6.50 EXITS:

A. Each facility and each floor of a facility shall have exits as required by national fire protection association 101 (Life Safety Code).

B. Each exit must be marked by illuminated signs having letters at least six inches high whose principle strokes are at least three- quarters of an inch wide.

C. Illuminated exit signs must be maintained in operable condition at all times.

D. Exit ways must be kept free from obstructions at all times.

E. Exit doors to exit or exit access doors must be at least 36 inches wide.

[8.321.6.50 NMAC - N, 7/1/2024]

8.321.51 CORRIDORS:

A. Minimum corridor width shall be five feet except work corridors less than six feet in length may be four feet in width.

B. Facilities will often be contained within existing commercial or residential buildings and less stringent corridor widths may be allowed other than those contained in Subsection A of 8.321.51 NMAC, above if not in conflict with building or fire codes and approved by the licensing authority prior to occupying the licensed part of the building.

[8.321.6.51 NMAC - N, 7/1/2024]

8.321.6.52 DOORS:

A. The minimum door width for client's use shall be 34 inches in width.

B. Rooms where client treatment takes place shall have a minimum door width of 36 inches.

[8.321.6.52 NMAC - N, 7/1/2024]

8.321.6.53 COMMON ELEMENTS FOR FACILITIES:

A. Entrance shall be able to accommodate wheelchairs.

B. Public services shall include:

(1) conveniently accessible wheelchair storage;

(2) a reception and information counter or desk;

(3) waiting areas;

(4) conveniently accessible public toilets; and

(5) drinking fountain(s) easily accessible to clients or other visitors.

C. Interview space(s) for private interviews related to mental health, medical information, etc., shall be provided.

D. General or individual office(s) for business transactions, records, administrative, and professional staff shall be provided. These areas shall be separated from public areas for confidentiality.

E. Special storage for staff personal effects with locking drawers or cabinets shall be provided.

F. General storage facilities for supplies and equipment shall be provided.

G. Drug distribution stations shall be in accordance with standards set forth by the New Mexico board of pharmacy.

[8.321.6.53 NMAC - N, 7/1/2024]

8.321.6.54 FLOORS AND WALLS:

A. Floor and wall areas penetrated by pipes, ducts, and conduits shall be tightly sealed to minimize entry of rodents and insects. Joints of structural elements shall be similarly sealed.

B. Threshold and expansion joint covers shall be flush with the floor surface to facilitate use of wheelchairs and carts.

[8.321.6.54 NMAC - N, 7/1/2024]

8.321.6.55 GOVERNING BODY:

All facilities licensed pursuant to these regulations must have a governing body that assumes full legal responsibility for determining, implementing, and monitoring policies governing the total operation of the facility. The governing body must ensure that these policies are administered so as to provide quality health care in a safe environment. When services are provided through a contract with an outside resource, the governing body is responsible for assuring that these services are provided in a safe and effective manner.

[8.321.6.55 NMAC - N, 7/1/2024]

8.321.6.56 ADMINISTRATOR/ DIRECTOR/MANAGER:

Each facility must have an administrator, director or manager hired or appointed by the governing body to whom authority has been delegated to manage the daily operation of the facility and implement the policies and procedures adopted by the governing body.

[8.321.56 NMAC - N, 7/1/2024]

8.321.6.57 STAFF EVALUATION AND DEVELOPMENT:

A facility licensed pursuant to these regulations must be in compliance with staff evaluation and development standards set forth by the division of health improvement of the authority.

[8.321.6.57 NMAC - N, 7/1/2024]

8.321.6.58 DIRECT SERVICE STAFF:

A facility licensed pursuant to these regulations must be in compliance with direct service staff standards set forth by the division of health improvement of the authority.

[8.321.6.58 NMAC - N, 7/1/2024]

8.321.6.59 EMERGENCY MEDICAL SERVICES:

Each facility licensed pursuant to these regulations must maintain a list of emergency phone numbers co-located with telephones in the facility. This list must include fire and police departments, ambulance or EMS crew numbers, the New Mexico poison control center and the nearest hospital.

[8.321.6.59 NMAC - N, 7/1/2024]

8.321.6.60 HOURS OF OPERATION:

Each facility licensed pursuant to these regulations must post its hours of operation where it can clearly be seen by clients and visitors.

[8.321.6.60 NMAC - N, 7/1/2024]

8.321.6.61 PHARMACEUTICAL SERVICES:

A. Drugs must be stored, prepared and administered in accordance to acceptable standards of practice and in compliance with the New Mexico state board of pharmacy.

B. Outdated drugs and biologicals must be disposed of in accordance with methods outlined by the New Mexico state board of pharmacy.

C. One individual shall be designated responsibility for pharmaceutical services to include accountability and safeguarding.

D. Keys to the drug room or pharmacy must be made available only to personnel authorized by the individual having responsibility for pharmaceutical services.

E. Adverse reactions to medications must be reported to the physician responsible for the client and must be documented in the client's record.

[8.321.6.61 NMAC - N, 7/1/2024]

8.321.6.62 LABORATORY SERVICES:

A. All lab test results performed either at the facility or by contract or arrangement with another entity must be entered into the client's record.

B. All laboratory procedures including specimen collection will be conducted in accordance with acceptable standards of practice. A CLIA certificate will be appropriately maintained if so required by federal CLIA standards.

[8.321.6.62 NMAC - N, 7/1/2024]

8.321.6.63 RELATED REGULATIONS AND CODES:

Facilities or agencies subject to these regulations are also subject to other regulations, codes and standards as the same may from time to time be amended as follows.

A. Health facility licensure fees and procedures, New Mexico health care authority, 8.370.3 NMAC;

B. Health facility sanctions and civil monetary penalties, 8.370.4 NMAC; and

C. Adjudicatory hearings, New Mexico health care authority, 8.370.2 NMAC.

[8.321.6.63 NMAC - N, 7/1/2024]

PART 7: BEHAVIORAL HEALTH CAPITAL FUND PROGRAM

8.321.7.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.321.7.1 NMAC - N, 7/1/2024]

8.321.7.2 SCOPE:

The behavioral health capital fund program rule shall apply to the use of funds by eligible entities available pursuant to the Behavioral Health Capital Funding Act, Sections 6-26- 1., et seq., NMSA 1978.

[8.321.7.2 NMAC - N, 7/1/2024]

8.321.7.3 STATUTORY AUTHORITY:

This rule is promulgated pursuant to:

(1) Subsection E of Section 9-8-6 NMSA 1978; and

(2) the Behavioral Health Capital Funding Act, Sections 6-26-1., et seq., NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.321.7.3 NMAC - N, 7/1/2024]

8.321.7.4 DURATION:

Permanent.

[8.321.7.4 NMAC - N, 7/1/2024]

8.321.7.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.321.7.5 NMAC - N, 7/1/2024]

8.321.7.6 OBJECTIVE:

The objective is to establish standards and procedures for regulating programs under the Behavioral Health Capital Funding Act.

[8.321.7.6 NMAC - N, 7/1/2024]

8.321.7.7 DEFINITIONS:

A. "Act" means the Behavioral Health Capital Funding Act (Sections 6-26-1 to 6-26-8 NMSA 1978).

B. "Agreement" means the document or documents signed by the board and the eligible entity receiving a loan that specifies the terms and conditions of obtaining the loan under the program.

C. "Applicant" means an eligible entity that has filed a request for a loan with the department and the authority.

D. "Application" means a written document filed with the department and the authority by an applicant for the purpose of obtaining a loan. An application may include a form prescribed by the department and the authority, written responses to requests for information by the department and the authority, or other format as determined by the department and the authority.

E. "Application committee" means a six-member body, three members appointed by the chief executive officer of the authority from the authority staff and three members appointed by the department from the department staff.

F. "Authority" means the New Mexico finance authority.

G. "Authorized representative" means one or more individuals authorized by the governing body of an eligible entity to act on behalf of the eligible entity in connection with its application. An authorized representative may act on behalf of the eligible entity to the extent provided by law.

H. "Behavioral health care" means a comprehensive array of professional and ancillary services for the treatment of mental illnesses, substance abuse disorders or trauma spectrum disorders.

I. "Behavioral health service provider" means an individual or an agency licensed or certified by or receiving funds under contract with the New Mexico health care authority for the provision of behavioral health services.

J. "Behavioral health care facility" means a facility operated by a behavioral health service provider.

K. "Board" means the New Mexico finance authority board, as created by and set forth in the bylaws of the authority.

L. "Department" means the New Mexico health care authority.

M. "Eligible entity" means a provider that meets the statutory definition of"eligible entity" provided for in the act.

N. "Loan" means a loan made by the authority to an applicant under the program for the funding of a project.

O. "Fund" means the behavioral health capital fund.

P. "Program" means the behavioral health capital fund program authorized by the act.

Q. "Project" means repair, renovation or construction of a behavioral health care facility, purchase of land, or the acquisition of capital equipment of a long-term nature. The following items shall be eligible or ineligible for purposes of funding through a loan:

(1) eligible for funding:

(a) building, construction, renovation;

(b) land;

(c) project planning and design;

(d) purchase of capital equipment;

(2) ineligible for funding:

(a) purchase of office supplies;

(b) general operating expenses.

R. "Sick and medically indigent" means both those individuals below the federal poverty level not covered by private third party health care insurance and those individuals between one hundred percent and two hundred percent of federal poverty

levels who are not covered by any private third party health insurance. Medically indigent individuals are usually expected to pay for some portion of the cost of their health care based upon the level of their income.

[8.321.7.7 NMAC - N, 7/1/2024]

8.321.7.8 LOAN APPLICATION PROCEDURES:

A. Contingent upon a sufficient balance in the fund, the authority may accept applications at any point during the state fiscal year.

B. The authority will provide forms and guidelines for a loan application and applications must be submitted on that form. The application shall be signed by the authorized representative and submitted to the department. Only applications that are complete will be considered for a loan. The application shall include the following.

(1) The amount of the loan requested and an itemization of the proposed use or uses of the loan.

(2) A detailed description of the circumstances that demonstrate the need for the project, including:

(a) the eligibility of the applicant;

(b) the programmatic appropriateness;

(c) the facility's need;

(d) the needs of community.

(3) A detailed description of the project, including:

(a) a description of the scope of work of the project;

(b) the estimated cost of the project;

(c) the target date for the initiation of the project and the estimated time to completion;

(d) the estimated useful life of the project and selected components (furnishings, equipment, etc.), as detailed on the application form;

(e) proof of applicable licenses and certifications; and

(f) other data as requested by the department or the authority.

(4) A copy of the applicant's articles of incorporation and by-laws and a certificate of good standing from the New Mexico public regulation commission.

(5) A copy of the applicant's internal revenue service tax exempt determination letter.

(6) A letter certifying that the project was duly authorized and approved by the applicant's governing body.

(7) The identification of the source of funds for repayment of the loan and the source of funds to operate and maintain the project over its useful life.

(8) The applicant's audited financial reports for the most recent five years, or term of existence, along with its projected cash flows for five years.

(9) The requested loan payback period.

(10) Any existing title insurance policies, title abstracts or searches of the real property owned by the applicant.

(11) Information on the current and proposed services of the applicant to the sick and medically indigent.

(12) Additional information as requested by the department or the authority that is requested at any point in the application process.

[8.321.7.8 NMAC - N, 7/1/2024]

8.321.7.9 EVALUATION OF APPLICANT AND PROJECT BY DEPARTMENT AND THE APPLICATION COMMITTEE:

A. The department will determine whether an application is complete. Once the application is complete, the department will evaluate the application for eligibility and will determine the programmatic priority of the project.

B. To be eligible for a loan, an eligible entity must:

(1) be a provider or facility that meets the statutory definition of "eligible entity" provided for in the act;

(2) have policies and procedures that assure that no person will be denied services because of inability to pay; these policies and procedures must address the medically indigent persons below poverty not covered by third party payors and those between one hundred percent and two hundred percent of poverty without third party coverage; the eligible entity must be able to demonstrate either the successful impact of these policies and procedures, or have a practical plan for their implementation;

(3) have billing policies and procedures that maximize patient collections except where federal rules or contractual obligations prohibit the use of such measures; the eligible entity must be able to demonstrate either the successful impact of these policies and procedures, or have a practical plan for their implementation;

(4) provide evidence satisfactory to the authority that it has proper title, easements, leases, and right of ways to the property upon which any facility proposed for funding is constructed or improved;

(5) comply with all applicable federal, state, and local laws and rules;

(6) meet other requirements as determined by the department.

C. The department shall determine the priority for loans from the fund. Priority shall be based on:

(1) community need and support, including but not limited to the identification of other financing;

(2) facility or equipment need;

(3) the appropriateness of the project;

(4) the ability of an applicant to maintain behavioral health care services;

(5) whether making the loan would help achieve the goal of a fair geographic distribution of loans; and,

(6) other factors, as determined by the department.

D. Upon completion of its evaluation of eligibility and its determination of programmatic priority, the department will refer the applications to the application committee. The application committee will evaluate the project. The application committee may confer with outside parties as necessary to obtain more information on the feasibility of the project, the applicant's administrative capacity, and the applicant's readiness to proceed. The application committee will make a written recommendation to the authority. The recommendation will include approval or disapproval of specific projects and the estimated costs of the projects. The recommendation may include recommendations for loan covenants needed for programmatic reasons and adjustments to the department's programmatic prioritization of loans.

E. Although the department and the authority will analyze each project to determine whether the project is feasible, a loan by the authority does not constitute a warranty or other guarantee as to the feasibility of the project and the authority shall not have any responsibility or liability with respect to any project.

[8.321.7.9 NMAC - N, 7/1/2024]

8.321.7.10 FINANCING APPROVAL BY THE AUTHORITY:

A. The authority will perform an independent financial analysis of each application. In evaluating an application, the authority will consider.

(1) The applicant's demonstration that the excess of public support and revenues over expenses for the most recent fiscal year or the projected amount for the fiscal year after the project's completion (after adding back annual depreciation and interest) will provide sufficient coverage of the previous year's annual debt service and sufficient coverage of projected maximum annual debt service after accounting for the loan.

(2) The ability of the applicant to secure financing from other sources and the costs of the loan.

(3) The recommendations of the application committee.

B. The evaluation must include a finding that the useful life of the project will meet or exceed the final maturity of the loan and must meet standards for reasonable costs set by the board.

C. The evaluation must include a finding by the authority that there is adequate protection, including loan guarantees, real property liens, title insurance, security interests in or pledges of accounts and other assets, loan covenants and warranties or restrictions or other encumbrances and pledges for the state funds extended for the loan.

D. The applicant must agree, and such agreement may be included in the agreement at the request of the board:

(1) to maintain separate project accounts in accordance with generally accepted accounting principles and to conduct an annual audit of the project's financial records during the term of the loan; and

(2) to satisfy any other requirements as may be determined by the authority.

E. Once a recommendation has been made on the application by the authority staff, the board will act on the application and any associated loan documents or agreements no later than the next regular board meeting at which such item may be properly considered. The board may approve all or part of the application as recommended by the authority staff. Board approval may specify, at the board's discretion, terms and conditions of the loan as necessary to ensure repayment, including but not limited to, maximum loan term and maximum annual payments.

F. The authority will notify the applicant of the approval or disapproval of its application by telephone and will mail written notification by certified mail within seven working days of board action.

G. All communications regarding an eligible entity's original application shall be directed to the department.

[8.321.7.10 NMAC - N, 7/1/2024]

8.321.7.11 RECONSIDERATION:

A. Decision by department as to eligibility. An applicant may request reconsideration of a contrary decision by the department as to whether it is an eligible entity as defined by the act and under these rules. Notice must be given to the department in writing within 10 working days of receipt of the department's decision as to eligibility. A request for reconsideration not timely or properly made will be barred. The department's secretary will promptly review each timely request for reconsideration. The decision of the department secretary is final. If the decision of the department secretary differs from the decision of the department as to an applicant's eligibility, evaluation of the application shall be resumed by the department based on the decision of the department secretary.

B. Decision by board as to funding. An applicant may request reconsideration of a decision by the board denying funding to an eligible entity by notifying the authority in writing within forty- five days of the date on which the authority gives notice of an adverse decision to an applicant. Notice of an adverse decision is deemed to be given on the fifth business day following the date on which written notice of the adverse decision is mailed to the applicant by the authority by certified United States mail. A request for reconsideration is deemed to have been given on the fifth business day following the date on which the request is mailed to the authority. A request for reconsideration not timely or properly made will be barred. The authority's chief executive officer will promptly review each timely request for reconsideration and will recommend, at the next regular meeting of the board, action to be taken by the board. The board will review and take action on the request for reconsideration and will notify the applicant of the board's decision, in writing, within five working days of the board's decision. The decision of the board is final.

[8.321.7.11 NMAC - N, 7/1/2024]

8.321.7.12 LOAN DOCUMENTS AND AGREEMENT:

A. The authority and the eligible entity will enter into an agreement and any other applicable documentation to establish the terms and conditions of the loan. The agreement will include the terms of repayment and remedies and sanctions available to the authority in the event of a default. The authority will monitor and enforce the terms and conditions of the agreement, including prompt notice and collection. In consultation

with the department, the authority will take actions as necessary to ensure loan repayment and the integrity of the fund. The authority will not monitor the performance of an eligible entity under department credentialing or licensure requirements nor for programmatic requirements and will not make site visits. The department will monitor the performance of an eligible entity under department credentialing or licensure requirements and for programmatic requirements and will make the necessary site visits. The authority will not be responsible for any act or omission of the applicant upon which any claim, by or on behalf of any person, firm, corporation or other legal entity, may be made, arising from the loan or any establishment or modification of the project or otherwise.

B. The board will establish the interest rate for loans. The board will set the rate at the lowest legally permissible interest rate. The interest rate shall not change during the term of the loan unless refinanced.

C. The agreement will contain provisions that require that.

(1) The applicant complies with all applicable federal, state and local laws and rules.

(2) Any contract or subcontract executed for the completion of any project shall contain a provision that there shall be no discrimination against any employee or applicant for employment because of race, color, creed, sex, religion, sexual preference, ancestry or national origin.

(3) The applicant shall require any contractor of a project to post a performance and payment bond in accordance with the requirements of Section 13- 4-18 NMSA 1978 and its subsequent amendments and successor provisions.

D. The authority shall ensure the state's interest in any project by filing a lien equal to the total of the authority's financial participation in the project.

E. If land is to be purchased with a loan from the fund, the applicant shall provide evidence satisfactory to the authority that the title is merchantable and free and clear from liens or encumbrances. The authority shall also require that a title insurance policy insuring the authority's interest as a first lien be obtained as a condition of making the loan. The eligible entity shall not encumber the land purchased by granting or creating any additional security interest in the land while any amount of the loan is unpaid. The eligible entity shall pay immediately any encumbrance or lien against the land that attaches while any amount of the loan is unpaid.

F. If any repayment of a loan is more than 30 days past due, or if the eligible entity is in default on any other conditions as defined under the loan agreement, the authority and the department will report to each other and to the application committee as to the borrower's then current status as it relates to the loan, including credentialing or licensure status and any reported or known violations of applicable laws or rules to

which the facility is subject and any known change in financial status. The department may develop workout plans in conjunction with the application committee for any borrower who maintains eligibility as defined in Subsection D of Section 6-26-3 NMSA 1978, but is more than 60 days past due in loan repayment. The authority may develop workout plans in conjunction with the application committee for any borrower who ceases to maintain eligibility as defined in Subsection D of Section 6-26-3 NMSA 1978 and is more than 60 days past due in loan repayments. Any such workout plan and its implementation is in addition to and not instead of the courses of actions, remedies and sanctions available separately to the department or the authority under the act, these rules or the agreement or in any other manner available by law.

G. If an eligible entity that has received a loan for a project ceases to maintain its nonprofit status or ceases to deliver behavioral health services at the site of the project for twelve consecutive months, the authority may pursue the remedies provided in the loan agreement or as provided by law.

H. If an eligible entity has received a loan for a project, the loan may be renegotiated if the entity is still eligible but has had a change in financial status.

I. In the event of default by the borrower, the authority may enforce its rights by suit or mandamus and may utilize all other available remedies under state and applicable federal law.

[8.321.7.12 NMAC - N, 7/1/2024]

8.321.7.13 ADMINISTRATION OF THE BEHAVIORAL HEALTH CAPITAL FUND:

A. The fund shall be administered by the authority as a separate account, but may consist of such sub accounts as the authority deems necessary to carry out the purposes of the fund.

B. Money from repayments of loans or payments on securities held by the authority for projects authorized specifically by law shall be deposited in the fund. The fund shall also consist of any other money appropriated, distributed or otherwise allocated to the fund for the purpose of financing projects authorized specifically by law.

C. The authority shall adopt a uniform accounting system for the fund and related accounts and sub-accounts established by the authority, based on generally accepted accounting principles.

[8.321.7.13 NMAC - N, 7/1/2024]

PART 8: ADMISSION CRITERIA FOR ALCOHOL AND SUBSTANCE SERVICES

8.321.8.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.321.8.1 NMAC - N, 7/1/2024]

8.321.8.2 SCOPE:

Agencies which receive state or federal funding from the division for the purpose of providing one or more of those substance abuse services authorized by the Alcoholism and Alcohol Abuse Prevention, Screening and Treatment Act (Sections 43-3-8 NMSA 1978, et seq.) or the Drug Abuse Act (Sections 26-2-1 NMSA 1978, et seq.).

[8.321.8.2 NMAC - N, 7/1/2024]

8.321.8.3 STATUTORY AUTHORITY:

Subsection E of Section 9-7-6 NMSA 1978 and Section 43-2-5 NMSA 1978. Section 9-8-1 NMSA 1978, et seq. establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.321.8.3 NMAC - N, 7/1/2024]

8.321.8.4 DURATION:

Permanent.

[8.321.8.4 NMAC - N, 7/1/2024]

8.321.8.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.321.8.5 NMAC - N, 7/1/2024]

8.321.8.6 OBJECTIVE:

To establish minimum standards for admission criteria, policies and procedures for agencies providing substance abuse services. These standards are designed to ensure that each agency that receives funding from the division to provide substance abuse services has in place policies and procedures regarding admissions that ensure nondiscrimination, confidentiality, open accessibility to those policies, proper screening and assessment to match the client to the appropriate service(s), maintenance of a waiting list, a consistent intake procedure, provision of an orientation, development and maintenance of a treatment plan, and appropriate referrals. These standards also establish the basic procedure which must be followed once it has been determined that it is appropriate to admit a client under one of the following circumstances: admission to a substance abuse treatment facility of an adult found able to consent; admission to a

substance abuse treatment facility of an adult found not able to consent; admission to a substance abuse treatment facility of a minor; and necessity for the provision of emergency services.

[8.321.8.6 NMAC - N, 7/1/2024]

8.321.8.7 DEFINITIONS:

A. "Admission" means the agency's acceptance of a client for the purpose of providing services on a scheduled basis in accordance with a client treatment plan.

B. "Adult" means an individual who has attained the age of eighteen years.

C. "Advocate" means any individual, group or organization who pleads another's cause.

D. "Agency" means a provider of substance abuse treatment, screening or assessment services receiving funds under contract with the New Mexico health care authority.

E. "Assessment" means the initial and on-going process of appraising the client's strengths, deficits and areas of need for purposes of developing a comprehensive client treatment plan.

F. "Client" means an individual or family requesting or receiving services.

G. "Intake" means the gathering of administrative and clinical data which is used for the screening, admitting and initial treatment of a client.

H. "Medical detoxification" means medically supervised 24 hour care for patients who require hospitalization for treatment of acute intoxication or withdrawal, or a combination of substance abuse/addiction, and other medical conditions which together warrant treatment in this type of setting. Length of stay varies depending on the severity of the disease and withdrawal symptoms.

I. "Minor" means an individual under the age of 18 years.

J. "Outpatient services" means diagnostic and treatment services to clients who will be served ,in accordance with a client treatment plan, intermittently or on a scheduled basis in a non-residential setting. Intervention strategies are aimed at reducing the harm to individuals, families and communities due to the use of alcohol and other substances.

K. "Policy" means a statement of principles that guide and determine present and future decisions.

L. "Procedure" means a series of activities designed to implement program goals or policy.

M. "Residential long-term rehabilitation" means a 24 hour residential treatment program for the chronic alcohol or drug dependent client who lacks an adequate social support system. This program provides multi disciplinary treatment designed to achieve a substance-free lifestyle, explore effective ways of functioning in a work setting within the family, and in the community in accordance with the treatment plan.

N. "Residential short-term rehabilitation" means a 24 hour intensive residential program for clients who require treatment services in a highly structured setting. An organized counseling and education curriculum ordinarily involving a residential stay of 30 day or less. This type of program is appropriate for clients who need concentrated, therapeutic services prior to community residence, and who do not require monitoring of physical withdrawal from alcohol or other drugs.

O. "Residential social detoxification" means a medically supported 24 hour, social rehabilitation residential program which provides physical care, education and counseling as appropriate for the client's health and safety during their process of physical withdrawal from alcohol dependency. Social detoxification provides access into care and treatment of alcoholism through monitored withdrawal, evaluation of present or potential alcohol dependency and other physical ailments, and intervention into the progression of the disease through timely utilization of resources. Length of stay in a social detoxification program varies from three to seven days depending on the severity of the disease and withdrawal symptoms.

P. "Screening" means the method by which the agency selects appropriate clients for admission or referral to other appropriate services.

Q. "Substance abuse" means the use of one or more drugs or other potentially harmful substances, including alcohol, which significantly and negatively impacts one or more major areas of life functioning.

R. "Substance related disorder" means any disorder related to the taking of a drug of abuse (including alcohol), to the side effects of a medication, or to toxin exposure. (American Psychiatric Association: Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition. Washington, DC, American Psychiatric Association, 1994, p.175).

S. "Treatment" means the broad range of emergency, outpatient, intermediate and inpatient services and care, including diagnostic evaluation, medical, psychiatric, psychological and social service care, vocational rehabilitation and career counseling, which may be extended to any client.

T. "Treatment plan" means that written strategy which is derived from the client screening/ intake/assessment and contains the written goals and objectives of the services to be provided and a schedule of service delivery.

U. "Treatment staff" means any person employed by an agency which is directly involved in treatment and client care.

[8.321.8.7 NMAC - N, 7/1/2024]

8.321.8.8 NONDISCRIMINATION POLICY:

Each agency shall have and utilize a written policy on nondiscriminatory practices as described below:

A. No agency shall discriminate or permit discrimination against any person or group of persons in any treatment service on the basis of race, color, religious creed, age, marital status, national origin, sex, sexual preference or physical disability.

B. No person shall be denied admission into a treatment program solely or jointly because of:

(1) the inability to pay all or part of the cost of services, directly or through third party reimbursement;

(2) the number of prior admissions to treatment;

(3) the length of time since the last treatment;

(4) the location of last treatment; or

(5) a refusal to undergo previous treatment.

[8.321.8.8 NMAC - N, 7/1/2024]

8.321.8.9 CONFIDENTIALITY:

Each agency shall have and utilize a written policy and procedure for ensuring the confidentiality and security of all clients' case records and identifying information which conform to the requirements of state and federal confidentiality laws and regulations. The procedure must include, but is not limited to:

A. a description of the process and requirements for disclosure of confidential information;

B. copies of forms for documenting the disclosure of confidential information and for obtaining the written consent of the client receiving services when such consent is required; and

C. staff training requirements on the content of state and federal laws related to confidentiality of client records.

[8.321.8.9 NMAC - N, 7/1/2024]

8.321.8.10 APPLICATION FOR SERVICES:

A. Any individual who believes that they may have a substance related disorder may present themselves to any agency for the purpose of being screened, admitted or referred to an appropriate treatment program.

B. Any parent, guardian, spouse, or any interested individual may present an individual who may have a substance related disorder to an agency for the purpose of being screened, admitted or referred to the appropriate treatment program.

[8.321.8.10 NMAC - N, 7/1/2024]

8.321.8.11 ADMISSION CRITERIA:

A. Each agency shall have and utilize written admission criteria which shall be available to clients, staff, the division and community.

B. Agency admission criteria shall delineate guidelines which permit the clear identification of who is and is not eligible for admission.

C. No person shall be admitted into a program unless they meet the agency's admission criteria, and any person who is ineligible because they do not meet the admission criteria shall be re-referred to the original agency or to another appropriate agency. All referrals will be processed in accordance with Section 18 of these regulations.

D. The written admission criteria shall include, but not be limited to, consideration of the following factors:

(1) age;

(2) sex;

(3) physical health;

(4) mental status;

(5) previous treatment history;

(6) history of substance abuse; and

(7) current use of substance(s).

[8.321.8.11 NMAC - N, 7/1/2024]

8.321.8.12 SCREENING:

A. The agency shall screen the individual to determine:

(1) if the individual meets the programs criteria for admission;

(2) that the individual's needs are matched with the appropriate agency and treatment services;

(3) the least restrictive means of treatment is being provided; and

(4) whether the individual should be referred to a more appropriate agency for alternate services.

B. The agency shall make a diligent effort to involve, in the screening procedure, any reasonable number of people requested by either the individual or their guardian.

C. When the agency has completed the screening, it shall present, whenever possible, its findings orally and in writing to the individual screened, their guardian, and such other person as the individual may request.

(1) If, at the conclusion of the screening process, it is determined that an individual does not meet the program's admission criteria for the provision of services, and the individual objects, that individual may contest the determination of the screening and request a review by the agency's supervisory staff.

(2) If the individual screened is found not to meet the programs admission criteria, but is in need of other types of services, the agency will refer the individual to an agency which provides the appropriate services needed. All referrals will be made in accordance with Section 18 of these regulations.

D. If the individual screened is found to meet the agency admission criteria, the following will be explained:

(1) the procedure for admission into the treatment facility and other services;

(2) the possibility of being put on a waiting list;

(3) the intake and assessment process; and

(4) the individuals right to have his preferences considered during the process from admission through discharge and referral.

E. If the individual screened is found to meet the agencys admission criteria, the agency shall retain all information obtained through the screening process and open a case record.

F. Information obtained from the screening process should include, but is not limited to the following:

(1) name;

(2) date of birth;

(3) presenting problem(s);

(4) history of substance abuse and related problems;

(5) identification of the types of alcohol or other drugs being used;

(6) frequency and duration of substance(s) used;

(7) method of administration;

(8) treatment history;

(9) legal history;

(10) referral source (if any);

(11) general physical and mental conditions;

(12) types of medication (if any);

(13) next of kin in case of an emergency;

(14) allergies;

(15) handicap or other restrictions; and

(16) other pertinent information.

G. The information gathered from the screening process shall be consolidated, forwarded and utilized with all other segments of the service delivery process.

[8.321.8.12 NMAC - N, 7/1/2024]

8.321.8.13 WAITING LIST:

The agency shall maintain an up-to- date and centrally located waiting list. This waiting list is comprised of individuals who, though the screening process, have met the agency's admission criteria and are waiting for placement into the identified treatment program. Individuals on the waiting list shall be rank ordered based on a prioritized need basis.

[8.321.8.13 NMAC - N, 7/1/2024]

8.321.8.14 INTAKE:

A. The acceptance of a client for treatment shall be based on an intake procedure and assessment of the client.

B. The agency shall have written policies and procedures governing the intake process including the following:

(1) the types of information to be obtained on all applicants prior to admission;

(2) the procedures to be followed when accepting referrals from outside agencies;

(3) the procedures to be followed for referrals when an applicant is found ineligible for admission. The reason for non- admission shall be documented.

[8.321.8.14 NMAC - N, 7/1/2024]

8.321.8.15 ASSESSMENT:

A. Assessment shall be done by members of the treatment staff and shall be clearly explained to the client, family, spouse, guardian or other interested person as appropriate.

B. During the assessment process, the designated staff member shall collect the following information for each person:

(1) presenting problems;

(2) history of substance abuse and problems;

(3) identification of the alcohol or other drugs used;

(4) frequency and duration of use;

(5) method of administration;

(6) personal and family history;

(7) education and employment history;

(8) physical and medical history;

(9) legal history;

(10) previous treatment history;

(11) communicative and cognitive history;

(12) social and emotional history; and

(13) rehabilitative and vocational history.

C. The assessment shall be used as a guide to the formulation of the client's treatment plan.

[8.321.8.15 NMAC - N, 7/1/2024]

8.321.8.16 ORIENTATION:

A. Each client to be admitted shall receive an orientation in accordance with a written orientation policy and procedure.

B. Unless an emergency situation is documented during the intake/assessment process, each client to be admitted shall sign acknowledgment that they understands the following:

(1) the agency's policies, goals and objectives;

(2) the services offered by the agency and through referral to other service providers;

(3) the agency's hours of operation;

(4) the fee policy and fee schedule;

(5) the client's rights;

(6) the agency's expectations of the client;

(7) the protection and restrictions which derive from state and federal confidentiality law and regulations;

(8) the agency's rules and procedures and the consequences to the client of infractions of such rules, and the process for review and appeal; and

(9) the agency's termination and discharge procedures.

[8.321.8.16 NMAC - N, 7/1/2024]

8.321.8.17 TREATMENT PLAN:

Based on the screening/ intake/assessment made of the client's needs, a written treatment plan shall be developed and recorded in the client's case record.

A. A preliminary treatment plan shall be developed as soon as possible.

B. The treatment may begin before completion of the plan.

C. The plan shall be development with the client, and the client's participation in the development of treatment goals shall be documented.

D. The treatment plan shall specify the services needed to meet the client's needs and attain the agreed-upon goals.

E. The treatment goals shall be developed with both short and long range expectations and written in measurable terms.

F. A designated treatment staff member shall have primary responsibility for treatment plan development and review.

G. The client's progress and current status in meeting the goals set in the treatment plan shall be reviewed by the client's treatment staff at regularly scheduled case conferences and shall include:

(1) the date and results of the review and any changes in the treatment plan shall be written into the client's case record;

(2) the participants in the case conference shall be recorded in the clients case record; and

(3) the designated treatment staff member shall discuss the review results with the client and document the client's acknowledgment of any changes in the plan.

[8.321.8.17 NMAC - N, 7/1/2024]

8.321.8.18 REFERRAL:

There shall be written referral policies and procedures that facilitate client referral between the agency and other community service providers which include:

A. a description of the methods by which continuity of care is assured for the client;

B. a listing of resources that provide services to clients shall contain the following information:

(1) the name and location of the resource;

(2) the types of services the resource is able to provide;

(3) the individual to be contacted when making a referral to a resource;

(4) the resource's criteria for determining an individual's eligibility for its services; and

(5) the types of follow-up information that can be expected from the resource and how this information is to be communicated.

C. a procedure for referral and monitoring of person on a waiting list for admission to the referred agency;

D. current information shall be maintained on self-help groups, as well as procedures for referral to those groups;

E. all relationships with outside resources shall be approved by the director of the agency;

F. an agreement between the agency and outside resources on the degree of shared responsibility, if any, for client care; and

G. documentation of annual review and approval of the referral policies and procedures by the director of the agency.

[8.321.8.18 NMAC - N, 7/1/2024]

8.321.8.19 ADMISSION TO ALCOHOL/DRUG TREATMENT FACILITY OF ADULTS FOUND ABLE TO CONSENT:

A. If the individual meets the agencys admission criteria and the screening/intake/assessment shows that:

(1) the person would benefit from services provided in a treatment facility (outpatient services, residential social detoxification, medical detoxification, residential long-term rehabilitation, residential short-term rehabilitation, etc.);

(2) the treatment facility is consistent with the least drastic means principle; and

(3) that the person was able to consent to admission to an agency, then the person shall have the option of accepting or rejecting the recommendation. The person's decision to accept treatment shall be recorded by signature and shall become part of the case record. If an agency agrees to provide treatment services to the person, the person, and only that person, shall determine whether he enters the treatment facility, unless the provisions of Subsection B of 8.321.8.19 NMAC of these regulations are invoked.

B. If a screening/ assessment shows that the person would benefit from services offered, and results of the screening/ assessment showed that the person was able to consent to admission to a treatment facility, and the person objects to placement in such an agency, then the individual may enter a treatment facility, only upon involuntary commitment under Section 43-2-8 NMSA 1978.

[8.321.8.19 NMAC - N, 7/1/2024]

8.321.8.20 ADMISSION TO ALCOHOL/DRUG TREATMENT FACILITY OF ADULTS FOUND NOT ABLE TO CONSENT:

If a screening/intake/assessment shows that a person is found not able to consent to, admission to an agency, and the screening/intake/assessment shows that treatment services would be in the persons best interest and will be consistent with the least drastic means principle, then the agency may not admit the person without the consent of his guardian, except that the person may be admitted pursuant to 8.321.8.22 NMAC as an emergency admission while the person obtains a guardian or for a period not to exceed five days.

[8.321.8.20 NMAC - N, 7/1/2024]

8.321.8.21 ADMISSIONS OF MINORS TO ALCOHOL/DRUG TREATMENT FACILITY:

A. If the screening/ intake/assessment determines that a person who is also a minor needs services in an agency, and parents or guardian of the minor agree, then the minor may be admitted to an agency which agrees to serve the minor.

B. If a minor voluntarily seeks admission to a treatment facility, or if any interest person seeks to have a minor admitted, and no parent or guardian for the child can be located, then a guardian shall be appointed for the child under the provisions of the New

Mexico Probate Code, and the admission procedure (except for emergency services) will not proceed until the guardian has been appointed.

[8.321.8.21 NMAC - N, 7/1/2024]

8.321.8.22 EMERGENCY SERVICES:

A. Services in an agency may be provided on an emergency basis to any individual believed to be diagnosed as having a substance related disorder when the agency determines that:

(1) there is imminent danger that the physical health or safety of the individual will be seriously impaired if the services are not provided, and that the normal admissions procedure, including screening, cannot be accomplished in time to avoid danger; or

(2) there is imminent danger that the physical health or safety of the individual will be seriously impaired if the services are not provided, and the person has been evaluated and found unable to consent to admission, but does not have a guardian.

B. When emergency services are provided, the agency shall document the nature of the emergency and the reason for failing to comply with any section or paragraph of these regulations, and copies of the document shall be placed in the individuals case record and shall be sent to the individual, his parents, spouse, guardian or advocate, if applicable.

C. When an individual is receiving emergency services, the agency shall determine if the individual has been evaluated, and if the individual has not, shall make diligent efforts to evaluate the individual as soon as possible. Once completed, the results of the evaluation shall determine if the individual will continue to receive services, unless a court or the New Mexico health care authority (authority) orders the agency to continue to provide services while an issue is resolved in a judicial hearing or within the authority. Emergency services shall not be provided of more than seven days before an evaluation is begun, or for more than 14 days in total, unless a court or the authority orders otherwise, or unless the individual would have been admitted under Section 19 had he had a guardian.

D. The provisions of the section apply to both minors and adults.

[8.321.8.22 NMAC - N, 7/1/2024]

PART 9: PROCUREMENT OF PROFESSIONAL SERVICES FOR ALCOHOL AND SUBSTANCE ABUSE SERVICES

8.321.9.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.321.9.1 NMAC - N, 7/1/2024]

8.321.9.2 SCOPE:

Each entity (offeror/contractor) which submits a proposal(s) for or receives division funding for the purpose of establishing, expanding or continuing one or more of those substance abuse services authorized by the Alcoholism and Alcohol Abuse Prevention, Screening and Treatment Act (Sections 43-3-8 NMSA 1978, et seq.) or the Drug Abuse Act (Sections 26-2-1 NMSA 1978, et seq.) except where the content of a regulation or any portion thereof is expressly applicable only to a specific group of offerors/ contractors.

[8.321.9.2 NMAC - N, 7/1/2024]

8.321.9.3 STATUTORY AUTHORITY:

Subsection E of Section 9-8-6 NMSA 1978, Subsection A of Section 43-3-11 NMSA 1978 of the Alcoholism and Alcohol Abuse Prevention, Screening and Treatment Act (Sections 43-3-8 NMSA 1978, et seq.), or Subsection D of Section 26-2-4 of the Drug Abuse Act (Sections 26-2-1 NMSA 1978, et seq.). Section 9-8-1 NMSA 1978, et seq. establishes the health care authority (authority) as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.321.9.3 NMAC - N, 7/1/2024]

8.321.9.4 DURATION:

Permanent.

[8.321.9.4 NMAC - N, 7/1/2024]

8.321.9.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.321.9.5 NMAC - N, 7/1/2024]

8.321.9.6 OBJECTIVE:

To establish procedures for procurement of professional services by competitive sealed proposals for substance abuse treatment and/or prevention services; and to establish minimum standards of eligibility for division funding.

[8.321.9.6 NMAC - N, 7/1/2024]

8.321.9.7 DEFINITIONS:

A. "Client" means an individual or family requesting or receiving services.

B. "Contractor" means an entity under contract with the authority to provide substance abuse prevention, treatment, screening or assessment services.

C. "Director" means the director of the behavioral health services division/substance abuse of the New Mexico health care authority.

D. "Division" means the behavioral health services division of the New Mexico health care authority.

E. "Division funding" means funding from state and/ or federal sources that is available through the behavioral health services division of the New Mexico health care authority for the provision of substance abuse services.

F. "Governing body" means the group of individuals vested with an organization's policy-making authority for the management of that organization.

G. "Offeror" means an entity who submits a response to a request for proposals solicited by the division.

H. "Secretary" means the secretary of the New Mexico health care authority.

I. "Standards" means those policies and procedures stipulated in such regulations as may be amended or adopted by the authority.

J. "Substance abuse" means the use of one or more drugs, including alcohol, which significantly and negatively impacts one or more major areas of life functioning.

[8.321.9.7 NMAC - N, 7/1/2024]

8.321.9.8 MINIMUM STANDARDS:

A. These regulations comprise the minimum standards of eligibility for division funding. Meeting the minimum standards of eligibility does not guarantee that a contractor/offeror will receive division funding, nor that funding will be awarded in subsequent fiscal years.

B. The division may impose additional requirements beyond those contained in these regulations on any contractor/offeror through terms in a contract between the contractor and the division. Additional requirements may be imposed when a contractor/offeror has limited financial management or service delivery experience, or has an inadequate performance record, or in order to correct specific weakness identified by the division.

[8.321.9.8 NMAC - N, 7/1/2024]

8.321.9.9 REQUIREMENTS OF OTHER AGENCIES:

A contractor/offeror who is required to be licensed by the licensing and certification bureau of the public health division of the department of health must obtain and retain such license.

[8.321.9.9 NMAC - N, 7/1/2024]

8.321.9.10 WAIVER:

A. At the request of a contractor/offeror and with the director's authorization, the division may issue a written waiver of any of the requirements of these regulations which are not otherwise required by law.

B. The request for waiver must be in writing and must be signed by the authorized signatory of the contractor/offeror. The waiver may be granted only if accompanied by documentation which demonstrates that the waiver is in the best interest of the contractor's/offeror's clients.

[8.321.9.10 NMAC - N, 7/1/2024]

8.321.9.11 REVIEW AND EVALUATION:

A. A contractor's performance shall be evaluated by review of:

(1) its compliance with all applicable federal and state rules and regulations, including such regulations as may be amended or adopted by the authority, and the terms and conditions of its individual contract;

(2) the degree of achievement of its own self-described objectives as negotiated between the contractor and the division as described in the contractor's approved funding proposal;

(3) its financial and client status reports to the division and annual audit; and

(4) the fiscal solvency of the contractor.

B. During any site visit, division staff shall be given access to:

(1) any person employed at the site who is present at the site at the time of the visit, or any individual member of the contractors governing body whom the division staff wish to interview (interviews with members of the governing body shall be scheduled at the convenience of the members of the governing body);

(2) all physical facilities which are utilized for division funded activities; and

(3) clients to whom the contractor is providing substance abuse related services funded by the division and who agree to be interviewed (no client identifying information shall be removed from the program premises as a result of such interviews).

[8.321.9.11 NMAC - N, 7/1/2024]

8.321.9.12 REQUEST FOR PROPOSAL PROCESS:

A. A public notice of the request for proposals (RFP) shall be given by publishing a notice not less than ten (10) calendar days prior to the date set for receipt of the proposal. The notice shall be published at least once in a newspaper of a general circulation in New Mexico or the community where services are proposed. For all expenditures over $20,000, copies of the notice shall also be sent to interested persons and business who have signified in writing an interest in submitting proposals for particular categories of services.

B. The division will initiate the process for procurement of services through a request for proposals. The RFP shall be issued soliciting competitive proposals, and shall include (but not be limited to) the following:

(1) the type of service(s) to be procured (i.e., residential, outpatient, prevention, etc.) and the anticipated amount of funding available;

(2) all contractual terms and conditions applicable to the procurement;

(3) the location where proposals are to be received;

(4) the date, time and place where proposals are to be received and reviewed;

(5) a statement of relative weights to be given to the factors when evaluating proposals;

(6) a statement that offerors submitting proposals may be afforded an opportunity for discussion and revision of proposals (revisions may be permitted after submission of proposals and prior to award for the purpose of obtaining best and final offers);

(7) a statement that the contents of any proposal shall not be disclosed so as to be available to competing offerors during the negotiation process; and

(8) a statement which reads as follows:"The Procurement Code, Sections 13-1-28 through 13-1-199, NMSA 1978, imposes civil and criminal penalties for its

violation. In addition, the New Mexico Criminal Statutes impose felony penalties for illegal bribes, gratuities and kickbacks."

[8.321.9.12 NMAC - N, 7/1/2024]

8.321.9.13 PROPOSAL PROCESS/PROCEDURE:

A. All offerors submitting proposals for division funding shall utilize the format and forms designated by the division and shall submit all information and copies consistent with instructions stipulated in the RFP packet.

B. The proposal by a non-profit corporation shall be signed by the signatory authorized by the organizations board of directors. The proposal of a municipality or other public body shall be signed by a signatory authorized by the municipality or the local public body.

C. The services for which an offeror seeks division funding must be consistent with the service needs for which the RFP is intended.

D. The division may, at its discretion, request proposals to meet service needs or establish research or demonstration projects. Offerors responding to such division requests for proposals shall submit their proposals in the form, time, and manner indicated in the division's request for such proposal.

[8.321.9.13 NMAC - N, 7/1/2024]

8.321.9.14 RECEIPT OF PROPOSALS:

A. Completed proposals shall be submitted to the division or the organizational unit designated within the division as specified in the notice of the RFP.

B. The organizational unit of the division receiving the completed proposal(s) shall establish a log of all proposals received, which shall include the date and time each proposal was received, the name of the offeror, and a description of the proposal sufficient to identify the service(s) offered.

[8.321.9.14 NMAC - N, 7/1/2024]

8.321.9.15 PROPOSAL REVIEW/RECOMMENDATIONS:

A. Division staff shall, immediately upon receipt of proposals or soon after the deadline for submission, evaluate every responsive proposal submitted.

B. All responsive proposals will be evaluated and ranked in order, taking into consideration the evaluation factors and relative weights set forth in the request for proposals.

C. The list of proposals (in rank order) and the final recommendations from division staff will be provided to the director.

D. The director will recommend to the secretary of the authority those proposals selected for award of contracts for proposed services.

[8.321.9.15 NMAC - N, 7/1/2024]

8.321.9.16 CONTRACT NEGOTIATION/AWARD/ NOTICE/ACCEPTANCE:

A. The secretary of the authority will award a contract(s) to the offeror(s) which is (are) most advantageous to the authority.

B. The division's award is contingent upon the offerors acceptance of any additional or special terms and conditions listed in the contract and any changes in the funding proposal. The offeror shall indicate acceptance of the award and any special or additional conditions it contains during the negotiation process and by signing and returning the contract to the division's offices. The contract shall become legally binding upon approval by the department of finance and administration of the written document.

C. The division will notify in writing each offeror of the outcome of the award process and will soon thereafter begin negotiations with the offeror(s) accepted.

D. All contracts for services with the authority shall be reviewed:

(1) as to form and legal sufficiency by the office of general counsel of the authority;

(2) for budget sufficiency by the administrative services division of the authority; and

(3) by the department of finance and administration for form, legal sufficiency and budget requirements pursuant to Section 13-1-118 NMSA 1978.

E. The division will negotiate a contract for the services at a fair and reasonable price which will conform to those previously accepted price ranges for specific units of service as determined by the division.

F. The dollar amount and the length of the term of each contract offered lies within the sole discretion of the authority. All awards are subject to the availability of appropriated funds.

[8.321.9.16 NMAC - N, 7/1/2024]

8.321.9.17 PROTEST PROCEDURES:

All protests filed with the authority will be governed by 7.1.6 NMAC, "Protest Procedure Under the Procurement Code", or such regulations as may be amended or adopted by the authority.

[8.321.9.17 NMAC - N, 7/1/2024]

PART 10: OPIOID TREATMENT PROGRAMS

8.321.10.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.321.10.1 NMAC - N, 7/1/2024]

8.321.10.2 SCOPE:

This rule is applicable to opioid treatment programs. These regulations are not intended to preempt county or municipal ordinances that supplement and do not conflict with these regulations. County and municipal ordinances are preempted when they conflict with these regulations.

[8.321.10.2 NMAC - N, 7/1/2024]

8.321.10.3 STATUTORY AUTHORITY:

Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (authority) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.321.10.3 NMAC - N, 7/1/2024]

8.321.10.4 DURATION:

Permanent.

[8.321.10.4 NMAC - N, 7/1/2024]

8.321.10.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.321.10.5 NMAC - N, 7/1/2024]

8.321.10.6 OBJECTIVE:

This rule establishes standards for opioid treatment programs to be consistent with the SAMHSA/CSAT regulations and the OTP accreditation requirements of nationally

recognized accreditation bodies approved by SAMSA/CSAT, such as CARF and JCAHO. The intent is to:

A. be consistent with, and complimentary to, the substance abuse and mental health services administration/center for substance abuse treatment (SAMHSA/CSAT) regulations, and the OTP accreditation requirements of nationally recognized accreditation bodies approved by SAMHSA/CSAT, such as commission on accreditation of rehabilitation facilities (CARF) and the joint commission on accreditation of healthcare organizations (JCAHO);

B. reduce the stigma sometimes associated with opioid dependency treatment and ensure access to it comparable to treatment availability for other chronic medical conditions;

C. consider the possible adverse impact on communities in which OTP providers are located in making application approval decisions, and to provide measures to promote mutually satisfactory relationships between OTP providers and their communities.

[8.321.10.6 NMAC - N, 7/1/2024]

8.321.10.7 DEFINITIONS:

A. "Accrediting bodies" means nationally recognized organizations, such as the joint commission on accreditation of healthcare organizations (JCAHO) and the commission on accreditation of rehabilitation facilities (CARF), which promulgate standards for OTPs that are approved by the substance abuse and mental health services administration/center for substance abuse treatment (SAMHSA/CSAT), and offer accreditation to programs that meet these standards.

B. "Administrative withdrawal" means the procedure for withdrawal of a patient's opioid treatment medication coinciding with the patient's involuntary discharge from opioid treatment, typically resulting from non-payment of fees, violent or disruptive behavior or incarceration or other confinement.

C. "Application form" means the form created by the health care authority, which must be completed by a program sponsor who wishes to obtain approval to operate an opioid treatment program.

D. "Approval" and **"approval to operate"** means the written permission given by the health care authority to a program sponsor to operate an opioid treatment program.

E. "Behavioral health services division" (BHSD) is the division of the New Mexico health care authority that is the single state authority for mental health and substance use treatment and prevention programs and methadone authority.

F. "Comprehensive initial assessment" means the collection and analysis of a patient's social, medical, psychological and treatment history.

G. "Comprehensive maintenance treatment" means a program designed with the intention of lasting longer than six months, for the purpose of maintaining the patient such that they will be free of opioid withdrawal and cravings; such programs are typified by:

(1) dispensing or administering an opioid treatment medication at stable dosage levels for a period in excess of 21 days to an individual for opioid addiction; and

(2) providing medical, therapeutic and supportive services to the individual with opioid dependence.

H. "Dispense" has the same meaning as in Subsection I of Section 61-11-2 NMSA 1978 as amended or renumbered.

I. "Diversion" means the unauthorized transfer of an opioid agonist treatment medication, such as a street sale.

J. "Dosage" means the amount, frequency and number of doses of medication for an individual.

K. "Dose" means a single unit of opioid treatment medication.

L. "Illicit opioid drug" means an illegally obtained opioid drug, such as heroin, that causes dependence and reduces or destroys an individual's physical, social, occupational, or educational functioning, or misuse of legally prescribed medication.

M. "Intake screening" means determining whether an individual meets the initial criteria for receiving opioid treatment.

N. "Long-term opioid treatment withdrawal procedure" means a treatment program designed to dispense opioid treatment medication to a patient in decreasing doses, after first possibly achieving a stable dose, for a period of more than 30 days but less than 180 days as a method of bringing the individual to a drug-free state.

O. "Medical practitioner" means an individual who:

(1) has been accredited through appropriate national procedures as a health professional;

(2) fulfills the national requirements on training and experience for prescribing procedures;

(3) is a registrant or a licensee, or a worker who has been designated by a registered or licensed employer for the purpose of prescribing procedures;

(4) may be a physician, physician's assistant, registered nurse, nurse practitioner, or licensed practical nurse.

P. "Opioid treatment" means:

(1) opioid treatment withdrawal procedure/ treatment; and

(2) comprehensive maintenance treatment.

Q. "Opioid treatment medication" means a prescription medication that is approved by the U.S. food and drug administration under 21 U.S.C. section 355 and by the code of federal regulations title 42, part 8.12 for use in the treatment of opiate addiction.

R. "Opioid treatment program" (OTP) means a single location at which opioid dependence treatment medication, such as methadone and rehabilitative services, are provided to patients as a substantial part of the activity conducted on the premises.

S. "Opioid treatment withdrawal procedure" is dispensing or administering an opioid dependence treatment medication in decreasing medication levels to an individual to alleviate adverse physical or psychological effects of withdrawal from the continuous or sustained use of an opioid drug and as a method of bringing the individual to a drug-free state.

T. "Physiologically dependent" means physically addicted to an opioid drug, as manifested by the symptoms of withdrawal in the absence of the opioid drug.

U. "Program clinician" means a behavioral health clinician practicing at an opioid treatment program who is licensed to practice substance abuse treatment in New Mexico

V. "Program medical director" means a physician licensed to practice medicine in New Mexico, who assumes responsibility for administering all medical services, either by performing them directly or by delegating specific responsibility to authorized program medical practitioners functioning under the medical director's direct supervision.

W. "Program sponsor" means the person named in the application as responsible for the operation of the opioid treatment program and who assumes responsibility directly, by personal oversight, or through policy and procedure, or a combination of both, for the acts and omissions of staff members or employees of the opioid treatment program.

X. "Short-term opioid treatment withdrawal procedure" means a treatment program designed to dispense opioid treatment medication to a patient in decreasing doses, over a continuous period of 30 days or less, as a method of bringing the individual to a drug-free state.

Y. "State methadone authority" (SMA) means the single state agency for substance abuse designated by the governor or another appropriate official designated by the governor to exercise authority within the state for governing treatment of opiate addiction with an opioid drug. In New Mexico it is the health care authority, behavioral health services division.

Z. "Take-home medication" means one or more doses of an opioid treatment medication dispensed to a patient for use off the premises.

[8.321.10.7 NMAC - N, 7/1/2024]

8.321.10.8 APPROVAL TO OPERATE AN OPIOID TREATMENT PROGRAM REQUIRED:

Providers who receive written approval by the health care authority, shall be permitted to provide opioid dependency treatment services.

[8.321.10.8 NMAC - N, 7/1/2024]

8.321.10.9 ELIGIBILITY FOR APPROVAL TO OPERATE AN OPIOID TREATMENT PROGRAM:

Only applicants who possess all of the following shall be eligible to receive approval to operate from the New Mexico health care authority (HCA):

A. drug enforcement agency (DEA) approval to operate an OTP;

B. SAMHSA/CSAT approval to operate an OTP;

C. accreditation by a SAMHSA/CSAT-approved nationally recognized accreditation body, such as JCAHO or CARF, to operate an OTP:

(1) if the applicant is a start-up program unable to obtain such accreditation prior to beginning operation because the accreditation body requires a period of program operation, typically six months, before it will grant accreditation:

(a) the HCA shall grant provisional approval to operate pending accreditation, provided that all other requirements of these regulations are met; and

(b) the program demonstrates in its application to the HCA that it is taking the steps necessary to become accredited as quickly as possible, and provides a timeline for the anticipated accreditation;

(2) during this interim period, the provisional approval to operate is contingent on the ongoing progress of the program, as determined by the HCA, to obtain accreditation within the timeline contained in the application; the program shall immediately inform the HCA of anything that will delay or prevent accreditation according to that timeline;

(3) the HCA shall withdraw its provisional approval if it concludes that accreditation will not be forthcoming; in any event, the program shall obtain accreditation within 12 months of beginning operation, or the provisional approval shall be withdrawn, unless the HCA elects to extend the provisional approval period after consultation with the appropriate federal and accrediting entities.

D. a license from the New Mexico state board of pharmacy to operate an OTP;

E. other permits and licenses such as a business license from the applicant's local governmental entity, as required by local ordinances;

F. evidence of appropriate liability insurance coverage for the program and its employees.

[8.321.10.9 NMAC - N, 7/1/2024]

8.321.10.10 APPLICATION FOR APPROVAL TO OPERATE AN OPIOID TREATMENT PROGRAM:

A. Each OTP sponsor applicant shall submit to the HCA an application for approval to operate an opioid treatment program application using the form provided by the HCA. This application shall be in addition to the application to drug enforcement agency, SAMHSA/CSAT, the NM board of pharmacy, local government, etc.

B. The HCA shall approve or deny the application within 45 working days of submission, unless the HCA and applicant mutually agree to extend the application review period.

C. The HCA may require the applicant to provide additional written or verbal information in order to reach its decision to grant or deny approval. Such further information shall be considered an integral part of the application.

D. Approval shall be for a duration of three years, except as otherwise provided below for initial grandfathered approvals.

E. The HCA shall not grant approval to operate an OTP to any program sponsor who has been convicted of any crime related to controlled substances laws or any felony within the last five years. No person who has been convicted of any felony in the last five years shall be employed by the OTP in any capacity that gives that person access to controlled medications.

F. The HCA shall not grant approval to any entity that poses a risk to the health and safety of the public based on a history of noncompliance with state and federal regulations as verified by the DEA, New Mexico state board of pharmacy, FDA, SAMSHA approved accreditation bodies, or the state licensure agency in any state in which the program sponsor currently operates.

G. The HCA may deny approval if there is a documented history of repeated and serious negative neighborhood impact with respect to other OTP programs currently operated by the program sponsor or by any corporation, LLC or partnership with whom the program sponsor has been associated in the past five years.

H. As a condition of approval to operate an OTP, the OTP must maintain or obtain accreditation with a SAMHSA/CSAT-approved nationally recognized accreditation body, (e.g., CARF or JCAHO.) In the event that such accreditation lapses, or approval of an application for accreditation becomes doubtful, or continued accreditation is subject to any formal or informal finding of need for improvement, the OTP program will notify the HCA within two business days of such event. The OTP program will furnish the HCA with all information related to its accreditation status, or the status of its application for accreditation, upon request.

I. The application for approval shall be accompanied by a needs assessment, specifying the proposed geographical area to be served, estimated number of patients anticipated, and such other information as may assist the HCA in review of the application. The HCA shall take into consideration in making its decision the need for an OTP in a given geographic area and the impact on the community.

J. The HCA shall perform on-site inspection of the proposed OTP facility as part of the review and approval process.

K. In the event of change of ownership of an approved opioid treatment program, the HCA approval is not transferable; the new ownership must institute an application for approval as a new program, in accordance with these regulations.

[8.321.10.10 NMAC - N, 7/1/2024]

8.321.10.11 DENIAL OF HCA APPROVAL TO OPERATE; APPEAL OF DENIAL:

A. The HCA shall not deny approval to operate until the applicant has been notified in writing of the deficiency in the application resulting in the contemplated denial, and given opportunity to remedy the application deficiency within a specified time period.

B. The HCA shall provide a written explanation for any denied application. Denial may be appealed to the secretary of the HCA, whose decision shall be final.

C. An applicant who is denied approval may re-apply by submitting a new application 90 days or more after notification of denial.

D. Failure to complete the application form in its entirety, including requests for additional information as specified above, shall be grounds for denial of approval.

[8.321.10.11 NMAC - N, 7/1/2024]

8.321.10.12 RENEWAL OF HCA APPROVAL TO OPERATE:

A. OTP providers who wish to renew their approval shall submit an application form and requested documentation no less than 90 calendar days, and no more than 180 calendar days, before its expiration date.

B. The HCA shall consider the operating history of the OTP provider in making its determination to grant or deny an application to a previously approved provider.

[8.321.10.12 NMAC - N, 7/1/2024]

8.321.10.13 APPROVAL FOR OTPS IN EXISTENCE PRIOR TO THESE REGULATIONS:

Opioid treatment programs operating in New Mexico prior to the effective date of these regulations shall be granted approval on the effective date of these regulations ("grandfathered in").

A. The term of these initial grandfathered approvals shall be not less than 24 months nor more than 36 months, and may have staggered expiration dates to avoid simultaneous expiration.

B. "Grandfathered" opioid treatment programs shall provide the HCA with all written policies, procedures and other documentation required of new opioid treatment programs under these regulations within 45 days of the effective date of these regulations.

[8.321.10.13 NMAC - N, 7/1/2024]

8.321.10.14 RENEWAL OF GRANDFATHERED OPERATING PERMITS:

Renewal of grandfathered approvals shall follow the ordinary renewal process. Such approvals shall have a term of 36 months.

[8.321.10.14 NMAC - N, 7/1/2024]

8.321.10.15 INSPECTION AUTHORITY:

The HCA shall have the authority to conduct inspections of the records, policies, procedures, physical plant or any other aspect of an OTP for the purpose of determining its compliance with these regulations or the presence of any factor posing a danger to the health or welfare of its patients or the public. Failure of an OTP to cooperate with such inspection shall be grounds for immediate suspension of the approval.

[8.321.10.15 NMAC - N, 7/1/2024]

8.321.10.16 NONCOMPLIANCE WITH REGULATIONS:

A. If an inspection conducted by the HCA shows that an OTP is not in compliance with these regulations, the HCA shall deliver to the program a written notice of the deficiencies identified.

B. The program shall respond to the notification of deficiencies within 30 days of the notification. The program response shall include a corrective action plan together with timeline for implementation, or an explanation, satisfactory to the HCA, of the reason for any deviations from the requirements of these regulations.

C. Failure of the OTP to respond within 30 days of receipt of the notification of deficiencies shall be grounds for immediate suspension of the approval.

[8.321.10.16 NMAC - N, 7/1/2024]

8.321.10.17 IMMEDIATE SUSPENSION OF OTP OPERATING APPROVAL:

A. The HCA, at its discretion, may immediately suspend the approval of any OTP found to be in a substantial violation of this regulation that results in danger to the health and welfare of any patient or of the public, until such time as the violation(s) are corrected to the satisfaction of the HCA.

B. In the event of such suspension, the OPT shall immediately:

(1) cease accepting new patients; and

(2) consult with the HCA regarding the orderly transfer of patients to other OTPs and implementation of the program closure action plan required under the "preparedness planning" section of these regulations in order to minimize adverse impact on its patients; notwithstanding the suspension of the approval, the HCA may allow the OTP to conduct limited operations of its program as the HCA finds necessary to minimize adverse impact on patients.

[8.321.10.17 NMAC - N, 7/1/2024]

8.321.10.18 ADMINISTRATION:

The program sponsor shall ensure that:

A. a physician licensed to practice in New Mexico is designated to serve as medical director and to have authority over all medical aspects of opioid treatment;

B. the medical director is responsible for ensuring that the OTP is in compliance with all applicable federal, state and local laws and regulations;

C. the OTP shall be open for patients every day of the week except for federal and state holidays, and Sundays, and be closed only as allowed in advance in writing by CSAT and the state methadone authority;

D. written policies and procedures are developed, implemented, complied with and maintained at the OTP and include:

(1) procedures to prevent a patient from receiving opioid dependency treatment from more than one agency or physician concurrently;

(2) procedures to meet the unique needs of diverse populations, such as pregnant women, children, individuals with communicable diseases, (e.g. hepatitis C, tuberculosis, HIV or AIDS), or individuals involved in the criminal justice system;

(3) procedures for conducting a physical examination, assessment and laboratory tests;

(4) procedures for establishing substance abuse counselor caseloads, based on the intensity and duration of counseling required by each patient;

(5) criteria for when the patient's blood serum levels should be tested and procedures for having the test performed;

(6) procedures for performing laboratory tests, such as urine drug screens or toxicological tests, including procedures for collecting specimens for testing;

(7) procedures for addressing and managing a patient's concurrent use of alcohol or other drugs;

(8) procedures for providing take home medication to patients;

(9) procedures for conducting opioid treatment withdrawal;

(10) procedures for conducting an administrative withdrawal;

(11) procedures for voluntary discharge, including a requirement that a patient discharged voluntarily be provided or offered follow-up services, such as counseling or a referral for medical treatment;

(12) procedures for making temporary or permanent transfer of a patient from the OTP to another OTP;

(13) procedures for receiving the temporary or permanent transfer of a patient from another OTP to the OTP;

(14) procedures to minimize the following adverse events:

(a) a patient's loss of ability to function;

(b) a medication error;

(c) harm to a patient's family member or another individual resulting from ingesting a patient's medication;

(d) sales of illegal drugs on the premises;

(e) diversion of a patient's medication;

(f) harassment or abuse of a patient by a staff member or another patient; and

(g) violence on the premises;

(15) procedures to respond to an adverse event, including:

(a) a requirement that the program sponsor immediately investigate the adverse event and the surrounding circumstances;

(b) a requirement that the program sponsor develop and implement a plan of action to prevent a similar adverse event from occurring in the future; monitor the action taken; and take additional action, as necessary, to prevent a similar adverse event;

(c) a requirement that action taken under the plan of action be documented; and

(d) a requirement that the documentation be maintained at the agency for at least two years after the date of the adverse event;

(16) procedures for infection control;

(17) criteria for determining the amount and frequency of counseling that is provided to a patient; procedures to ensure that the facility's physical appearance is clean and orderly;

(18) a process for resolution of patient complaints, including a provision that complaints which cannot be resolved through the clinic's process may be referred by either party to the HCA:

(a) the complaint process shall be explained to the patient at admission;

(b) the patient complaint process shall be posted prominently in its waiting area or other location where it will be easily seen by patients, and include the HCA contact information for use in the event that the complaint cannot be resolved through the clinic's process.

E. a written quality assurance plan is developed and implemented;

F. all information and instructions for the patient are provided in the patient's primary language, and, when provided in writing, are clear and easily understandable by the patient.

[8.321.10.18 NMAC - N, 7/1/2024]

8.321.10.19 ADMISSION:

A. The program sponsor shall ensure through policy and procedure that an individual is only admitted for opioid dependency treatment after the program medical director determines and documents that:

(1) the individual meets the definition of opioid dependence using generally accepted medical criteria such as those contained in the diagnostic and statistical manual for mental disorders (DSM-IV or subsequent editions);

(2) the individual has received a physical examination as required by Subsection D of 8.321.10.19 NMAC below; and

(3) if the individual is requesting maintenance treatment, the individual has been addicted for at least 12 months before the admission, unless the individual receives a waiver of this requirement from the program medical director because the individual:

(a) was released from a penal institution within the last six months;

(b) is pregnant, as confirmed by the agency physician;

(c) was treated for opioid dependence within the last 24 months; or

(d) is under the age of 18, has had two documented unsuccessful attempts at short term opioid treatment withdrawal procedures or drug- free treatment within a 12-month period, and has informed consent for treatment provided by a parent, guardian, custodian or responsible adult designated by the relevant state authority.

B. A program sponsor shall ensure that an individual requesting long-term or short-term opioid treatment withdrawal treatment who has had two or more unsuccessful opioid treatment withdrawal treatment episodes within a 12-month period is assessed by the program medical director for other forms of treatment.

C. The OTP shall ensure that each patient at the time of admission:

(1) provides written, voluntary, program-specific informed consent to treatment;

(2) is informed of all services that are available to the patient through the program and of all policies and procedures that impact the patient's treatment; and

(3) is informed of the following:

(a) the progression of opioid dependency and the patient's apparent stage of opioid dependence;

(b) the goal and benefits of opioid dependency treatment;

(c) the signs and symptoms of overdose and when to seek emergency assistance;

(d) the characteristics of opioid dependency treatment medication, such as its effects and common side effects, the dangers of exceeding the prescribed dose, and potential interaction effects with other drugs, such as other non-opioid agonist treatment medications, prescription medications, and illicit drugs;

(e) the requirement for a staff member to report suspected or alleged abuse or neglect of a child or an incapacitated or vulnerable adult according to state law;

(f) the requirement for a staff member to comply with the confidentiality requirements of title 42 CFR part 2 of the code of federal regulations, incorporated by reference;

(g) drug screening and toxicological testing procedures;

(h) requirements to receive take-home medication;

(i) testing and treatment available for HIV and other communicable diseases, the availability of immunization for hepatitis A and B, and the availability of harm reduction services;

(j) availability of counseling on preventing exposure to and transmission of human immunodeficiency virus (HIV), sexually transmitted diseases, and blood-born pathogens;

(k) the patient's right to file a complaint with the program for any reason, including involuntary discharge, and to have the patient's complaint handled in a fair and timely manner.

D. A program sponsor shall ensure that the program medical director or medical practitioner designee conducts a complete, fully documented physical examination of an individual who requests admission to the program before the individual receives a dose of opioid dependency treatment medication, and that the physical examination includes:

(1) reviewing the individual's bodily systems;

(2) obtaining a medical and family history and documentation of current information to determine chronic or acute medical conditions such as diabetes, renal diseases, hepatitis, HIV infection, tuberculosis, sexually transmitted disease, pregnancy or cardiovascular disease;

(3) obtaining a history of behavioral health issues and treatment, including any diagnoses and medications;

(4) initiating the following laboratory tests:

(a) a mantoux skin test;

(b) a test for syphilis;

(c) a laboratory drug detection test for at least opioids, methadone, amphetamines, cocaine, barbiturates, benzodiazepines and other substances as may be appropriate, based upon patient history and prevailing patterns of availability and use in the local area;

(5) recommending additional tests based upon the individual's history and physical condition, such as:

(a) complete blood count;

(b) EKG, chest X-ray, pap smear or screening for sickle cell disease;

(c) a test for hepatitis B and C; or

(d) HIV testing.

(6) the full medical examination including test results must be completed within 14 days of admission to the program;

(7) a patient re-admitted within three months after discharge does not require a repeat physical examination unless requested by the program medical director.

E. A program sponsor shall ensure that the results of a patient's physical examination are documented in the patient record.

F. A patient may not be enrolled in more than one OTP program except under exceptional circumstances, such as residence in one city and employment that requires extended absences from that city, which must be documented in the patient chart by the medical directors of both programs:

(1) an OTP shall make and document good faith efforts to determine that a patient seeking admission is not receiving opioid dependency treatment medication from any other source, within the bounds of all applicable patient confidentiality laws and regulations;

(2) the OTP shall confirm that the patient is not receiving treatment from any other OTP, except as provided in Subsection F of 8.321.10.19 NMAC, within a 50 mile radius of its location, by contacting any such other program, or by using the central registry described in Subsection G of 8.321.10.19 NMAC, when established.

G. The HCA may establish an internet-based central registry of all persons in New Mexico who are current patients of a New Mexico OTP program, for the purpose of creating a system that prevents patients from surreptitiously receiving medication from more than one OTP. Each OTP as a condition of approval to operate shall participate in the central registry as directed by the HCA.

[8.321.10.19 NMAC - N, 7/1/2024]

8.321.10.20 ASSESSMENT AND TREATMENT PLANS:

The program sponsor shall ensure that:

A. each patient receives a comprehensive intake assessment upon admission, conducted by a qualified professional, to determine the most appropriate combination of services and treatment, which results in an intake treatment plan based on the patient's goals; the results of the comprehensive intake assessment and the intake treatment plan are documented in the patient record within 24 hours of admission;

B. an individualized treatment plan shall replace the intake treatment plan within 30 days of admission or the third face-to- face contact with the client, and be documented in the patient record;

C. all updates or revisions to any treatment plan or assessment shall be documented in the patient record within seven working days;

D. all assessments and treatment plans shall include, but not necessarily be limited to:

(1) a description of the patient's presenting issue, identification of the patient's behavioral health symptoms and the behavioral health issue or issues that require treatment;

(2) a list of the medical services, including medication, needed by the patient, as identified in the physical examination; (3) recommendations for further assessment or examination of the patient's needs if indicated;

(4) recommendations for treatment needed by the patient, such as psychosocial counseling or mental health treatment, if indicated;

(5) recommendations for ancillary services or other services needed by the patient, if indicated;

(6) the signature, professional credential, printed name, and date signed of the staff member conducting and developing the assessment, treatment plan, update or revision;

(7) in the case of updated or revised treatment plans, a summary of the patient's progress or lack of progress toward each goal on the previous plan and the program's response; and any new goals;

(8) the signature and date signed, or documentation of the refusal to sign, of the patient or the patient's guardian or agent or, if the patient is a child, the patient's parent, guardian, or custodian;

E. treatment plans shall be reviewed at least every 90 days for the first two years of continuous treatment, and at least every 6 months thereafter, in accordance with the program's established policy and procedure, and the treatment plan modified accordingly, except initial treatment plans must be replaced with individualized plans as provided for in Subsection B of 8.321.10.20 NMAC above;

F. adequate medical, psychosocial counseling, mental health, vocational, educational and other assessment and treatment services are fully and reasonably available to patients, either by the program directly, or through formal, documented referral agreements with other providers.

[8.321.10.20 NMAC - N, 7/1/2024]

8.321.10.21 DOSAGE:

The program sponsor shall ensure that:

A. a dose of opioid dependency treatment medication is administered only after an order from the program medical director;

B. a patient's dosage of opioid dependency treatment medication is individually determined;

C. a dose of opioid dependency treatment medication is sufficient to produce the desired response in a patient for the desired duration of time and with consideration for patient safety;

D. a dose of opioid dependency medication is prescribed to meet a patient's treatment needs by:

(1) preventing the onset of subjective or objective signs of withdrawal for 24 hours or more;

(2) reducing or eliminating the drug craving that is experienced by opioid dependent individuals who are not in opioid treatment;

(3) a patient receiving comprehensive maintenance treatment receives an initial dose of opioid dependency treatment medication based upon the program medical director or medical practitioner designee's physical examination and with consideration for local issues, such as the relative purity of available illicit opioid drugs;

(4) a patient receiving methadone in comprehensive maintenance treatment receives an initial dose of methadone that does not exceed 30 milligrams; and

(a) if the patient's withdrawal symptoms are not suppressed after the initial dose of 30 milligrams, a patient receives an additional dose that does not exceed 10 milligrams only if a program clinician documents in the patient record that 30 milligrams did not suppress the patient's withdrawal symptoms; and

(b) if the patient's withdrawal symptoms are not suppressed by a total dose of 40 milligrams, a patient receives an additional dose only if the program medical director or medical practitioner designee documents in the patient record that 40 milligrams did not suppress the patient's withdrawal symptoms;

(5) a patient receiving buprenorphine in opioid treatment withdrawal procedure or comprehensive maintenance treatment receive an initial dose according to the instructions on the opioid dependency treatment medication package insert, and any

deviation from the instructions is documented by the program clinician in the patient record;

(6) a patient receives subsequent doses of opioid dependency treatment medication:

(a) based on the patient's individual needs and the results of the physical examination and assessment;

(b) sufficient to achieve the desired response for at least 24 hours, with consideration for day-to-day fluctuations and elimination patterns;

(c) that are not used to reinforce positive behavior or punish negative behavior;

(d) as long as the patient benefits from and desires comprehensive maintenance treatment; and

(e) that are adjusted if a provider changes from one type of opioid dependency treatment medication to another.

[8.321.10.21 NMAC - N, 7/1/2024]

8.321.10.22 DRUG SCREENING:

The program sponsor shall ensure that:

A. staff members have knowledge of the benefits and limitations of laboratory drug detection tests and other toxicological testing procedures;

B. a patient in comprehensive maintenance treatment receives at least eight random laboratory drug detection tests per year; short-term opioid treatment withdrawal procedure patients receive at least one initial drug abuse test; long-term opioid treatment withdrawal procedure patients receive an initial and monthly random tests; and other toxicological tests are performed according to written orders from the program medical director or medical practitioner designee;

C. laboratory drug detection tests and other toxicological testing specimens are collected in a manner that minimizes falsification;

D. laboratory drug detection tests for:

(1) opioids;

(2) methadone;

(3) amphetamines;

(4) cocaine;

(5) barbiturates;

(6) benzodiazepines; and

(7) other substances as may be appropriate, based upon patient history and prevailing patterns of drug availability and use in the local area;

E. the results of a patient's laboratory drug detection tests or other toxicological test and any action taken relating to the results are documented in the patient record.

[8.321.10.22 NMAC - N, 7/1/2024]

8.321.10.23 TAKE-HOME MEDICATIONS:

A. The program sponsor shall ensure that policies and procedures are developed, implemented, and complied with for the use of take-home medication and include:

(1) criteria for determining when a patient is ready to receive take-home medication;

(2) criteria for when a patient's take-home medication is increased or decreased;

(3) a requirement that take-home medication be dispensed according to federal and state law;

(4) arequirement that the program medical director review a patient's take-home medication regimen at intervals of no less than 90 days and adjust the patient's dosage, as needed;

(5) procedures for safe handling and secure storage of take-home medication in a patient's home; and

(6) criteria and duration of allowing a physician to prescribe a split medication regimen.

B. Treatment program decisions on dispensing OTP medications to patients for unsupervised use, beyond that set forth in Subsection C of 8.321.10.23 NMAC below, shall be made by the program medical director, based on the following criteria:

(1) absence of recent abuse of drugs, including alcohol;

(2) regularity of program attendance;

(3) length of time in comprehensive maintenance treatment;

(4) absence of known criminal activity;

(5) absence of serious behavioral problems at the program;

(6) special needs of the patient such as physical health needs;

(7) assurance that take-home medication can be safely stored in the patient's home;

(8) stability of the patient's home environment and social relationships;

(9) the patient's work, school, or other daily activity schedule;

(10) hardship experienced by the patient in traveling to and from the program; and

(11) whether the benefit the patient would receive by decreasing the frequency of program attendance outweighs the potential risk of diversion.

C. A patient in comprehensive maintenance treatment may receive a single dose of take- home medication for each day that a provider is closed for business, including Sundays and state and federal holidays.

D. A program sponsor shall ensure that take-home medication is only issued to a patient in compliance with the following restrictions:

(1) during the first 90 days of comprehensive maintenance treatment, take-home medication is limited to a single dose each week, in addition to any doses received as described in Subsection C of 8.321.10.23 NMAC above;

(2) during the second 90 days of comprehensive maintenance treatment, a patient may receive a maximum of two doses of take-home medication each week in addition to any doses received as described in Subsection C of 8.321.10.23 NMAC above;

(3) during the third 90 days of comprehensive maintenance treatment, a patient may receive a maximum of three doses of take-home medication each week in addition to any doses received as described in Subsection C of 8.321.10.23 NMAC above;

(4) in the remaining months of the patient's first year, a patient may receive a maximum of six days of take-home medication each week;

(5) after one year of continuous treatment, a patient may receive a maximum two week supply of take-home medication;

(6) after two years of continuous treatment, a patient may receive a maximum of one month's supply of take-home medication but must make monthly visits;

(7) exceptions to the above take-home medication restrictions shall be made only as provided for in center for substance abuse treatment (CSAT) regulations and as approved by the state methadone authority.

E. A program sponsor shall ensure that a patient receiving take-home medication receives:

(1) take-home medication in a child-proof container; and

(2) written and verbal information on the patient's responsibilities in protecting the security of take-home medication.

F. The program sponsor shall ensure that the program medical director's determination made under Subsection B of 8.321.10.23 NMAC and the reasons for the determination are documented in the patient record.

G. In accordance with DEA regulations, the program shall not use U. S. mail or express services such as fedex or united parcel service to transport, furnish or transfer opioid treatment medication to any patient, agency, facility or person.

H. The program shall establish policy and procedure to provide for the safe and secure transportation of opioid treatment medication from its facility to another agency where the program's patient temporarily resides, (e.g., from the university of New Mexico's addiction and substance abuse program (ASAP) to the turquoise lodge treatment program.).

[8.321.10.23 NMAC - N, 7/1/2024]

8.321.10.24 WITHDRAWAL TREATMENT AND MEDICALLY SUPERVISED DOSE REDUCTION:

The program sponsor shall ensure that:

A. policies and procedures are developed, implemented, and complied with for withdrawal treatment and:

(1) are designed to promote successful withdrawal treatment;

(2) require that dose reduction occur at a rate deemed medically appropriate by the program medical director;

(3) require that a variety of ancillary services, such as self-help groups, be available to the patient through the program or through referral;

(4) require that the amount of counseling available to the patient be increased before discharge; and

(5) require that a patient be re-admitted to the program or referred to another program if relapse occurs;

B. a patient's withdrawal treatment:

(1) for a patient involved in comprehensive maintenance treatment, is only initiated as administrative withdrawal, or when voluntarily requested by the patient and approved by a program medical director; and

(2) is planned and supervised by the program medical director;

C. before a patient begins withdrawal treatment, whether with or against the advice of the program medical director, the patient:

(1) is informed by the program medical director or a medical practitioner designee:

(a) that the patient has the right to leave opioid treatment at any time; and

(b) of the risks of withdrawal treatment; and

(2) upon request, receives a schedule for withdrawal treatment that is developed by the program medical director with input from the patient;

(3) receives a copy of the program policy regarding withdrawal of opioid medication against medical advice and a verbal explanation of that policy;

D. if a patient who is receiving withdrawal treatment, other than a patient experiencing administrative withdrawal, appears to a staff member to relapse, the patient is permitted to begin comprehensive maintenance treatment, if otherwise eligible;

E. if a patient who has completed withdrawal treatment within the past 30 days appears to a staff member to relapse, the patient may be re-admitted without a physical examination or assessment with the consent of the program medical director;

F. a patient experiencing administrative withdrawal is referred or transferred to any program that is capable of or more suitable for meeting the patient's needs, and the referral or transfer is documented in the patient record;

G. the following information is documented in the patient record:

(1) the reason that the patient sought withdrawal treatment or was placed on administrative withdrawal; and

(2) the information and assistance provided to the patient in medical withdrawal or administrative withdrawal.

[8.321.10.24 NMAC - N, 7/1/2024]

8.321.10.25 COUNSELING AND MEDICAL SERVICES:

The program sponsor shall ensure that:

A. substance abuse counseling and behavioral health treatment planning is provided by a practitioner licensed in the state of New Mexico to provide behavioral health treatment services to each patient based upon the patient's individual needs, treatment plan and stage of readiness to change behavior;

B. the program has substance abuse counselors in a number sufficient:

(1) to ensure that patients have access to counselors;

(2) to provide the treatment in patients' treatment plans; and

(3) to provide unscheduled treatment or counseling to patients;

C. each patient seeking opioid treatment is screened for the presence of a co-occurring mental health disorder by means approved by the HCA, and if indicated, referred for assessment and possible treatment if the program is not able to provide mental health services; an OTP referring a patient to another provider for mental health assessment shall make and document its good faith efforts to follow up with that provider on the results of the referral, and to co-ordinate its treatment with any subsequent treatment by other providers, within the limits of all applicable laws and regulations pertaining to release of patient information and confidentiality;

D. a program sponsor shall ensure that a patient is offered medical, psychiatric and psychological services, if needed, either at its program or through referral:

(1) if a patient receives medical, psychiatric or psychological services, from provider(s) not affiliated with the program, program staff members shall make a good faith effort to communicate and coordinate its treatment services with such provider, including monitoring and evaluating interactions between the patient's opioid treatment medication and medications used to treat the patient's mental disorder, if any;

(2) the OTP shall have a procedure to ensure that such good faith coordination efforts are made, in accordance with all state and federal laws and regulations for the release of patient records or information;

E. a program sponsor shall make good faith efforts to establish effective working relationships with the relevant behavioral health treatment providers in its patient catchment area in order to facilitate patient access to the services available through those providers;

F. a program sponsor shall ensure that a patient has access to a self-help group or support group, such as narcotics anonymous, either at the agency or through referral to a community group;

G. treatment services are provided by appropriately licensed staff.

[8.321.10.25 NMAC - N, 7/1/2024]

8.321.10.26 DIVERSE POPULATIONS:

A. The program sponsor shall ensure that:

(1) opioid treatment is provided regardless of race, ethnicity, gender, age, or sexual orientation;

(2) the program facility is compliant with the Americans with Disabilities Act (ADA);

(3) opioid treatment is provided with consideration for a patient's individual needs, cultural background, and values;

(4) provider staff members are culturally competent;

(5) unbiased language is used in the provider's print materials, electronic media, and other training or educational materials;

(6) HIV testing and education are available to patients either at the provider or through referral;

(7) a patient who is HIV-positive and who requests treatment for HIV or AIDS:

(a) is offered treatment for HIV or AIDS either at the provider or through referral; and

(b) has access to an HIV- or AIDS-related peer group or support group and to social services either at the provider or through referral to a community group; and

(8) for patients with a communicable disease such as HIV, AIDS, or hepatitis C, the provider has a procedure for transferring a patient's opioid treatment to a non-program medical practitioner treating the patient for the communicable disease when it becomes the patient's primary health concern;

(9) an individual who requires administration of opioid treatment medication only for relief of chronic pain is:

(a) identified during the physical examination or assessment;

(b) not admitted for opioid medication treatment; and

(c) referred for medical services; and

(d) for a patient with a chronic pain disorder who is also physically dependent the OTP makes a good faith effort to coordinate treatment and services with the medical practitioner treating the patient for pain management.

B. A program sponsor shall ensure that a policy and procedure is developed, implemented, and complied with for the treatment of female patients, to include requirements that:

(1) pregnancy tests shall be administered and reviewed for all women of childbearing age prior to initiating a opioid treatment withdrawal procedure or medically supervised withdrawal;

(2) appropriate staff members be educated in the unique needs of female patients; and

(3) each female patient be informed about or referred to an appropriate support group, at the provider or in the community.

C. The program sponsor shall ensure that a policy and procedure is developed, implemented, and complied with for the treatment of pregnant patients, to include:

(1) a requirement that priority be given to pregnant individuals seeking opioid treatment;

(2) a requirement that the reasons for a pregnant individual's denial of admission to a provider be documented;

(3) a requirement that a pregnant patient be offered prenatal care to include fetal assessment either at the program or through referral to a non-program medical practitioner;

(4) a requirement that the program communicate with any non-program medical practitioners who are providing prenatal care to a pregnant patient, to coordinate opioid treatment and prenatal care, in accordance with all state and federal laws and regulations for the release of patient records or information; and document all such communications in the patient records;

(5) a requirement that a staff member make a good faith effort to educate a pregnant patient who refuses prenatal care services on the importance of prenatal care;

(6) a requirement that a staff member obtain a written refusal of prenatal care services that are offered either directly by the program or by referral, from a pregnant patient who refuses such services or referral to such services;

(7) a requirement that a pregnant patient receiving comprehensive maintenance treatment before pregnancy be maintained at the pre-pregnancy dose of opioid medication, if effective;

(8) a requirement that a pregnant patient be monitored by the program medical director to determine if pregnancy- induced changes in the elimination or metabolization of opioid treatment medication may necessitate an increased or split dose;

(9) a requirement that withdrawal treatment:

(a) is strongly advised against before 14 weeks or after 32 weeks of gestation;

(b) the program medical director reviews the case before initiating withdrawal and monitor it until withdrawal is complete;

(10) a requirement that a pregnant patient discharged from the program be referred to a non-program medical practitioner and that a staff member document the name, address, and telephone number of the medical practitioner in the patient record.

D. A program sponsor who is officially notified by a correctional facility that a patient is in their custody shall ensure that the program:

(1) makes efforts to obtain approval from the criminal justice system for the continued treatment of the patient by the program while the patient is incarcerated; and

(2) if approval is obtained the program continues to treat the patient while the patient is incarcerated , within the limits of the program's ability to provide such treatment to the incarcerated patient; and

(3) if approval is not obtained, the program's attempts to obtain approval are documented in the patient's record.

[8.321.10.26 NMAC - N, 7/1/2024]

8.321.10.27 PREPAREDNESS PLANNING:

A. The program sponsor shall ensure that the program has:

(1) a written plan to ensure uninterrupted dispensing of medication in the event of dispensing staff turnover; and

(2) a written agreement with at least one other provider for the provision of opioid treatment medication to program patients in the event that the program is unable to provide services;

(3) 24-hour telephone answering service or other method to reach the program at all times; and

(4) a list of all patients and the patients' dosage requirements available and accessible to program on-call staff members.

B. A program sponsor shall ensure that a written plan is developed and implemented for continuity of patient services if the program is voluntarily or involuntarily closed. Such planning shall include a disaster plan that addresses unforeseeable circumstances such as natural disaster or involuntary closure from any cause, and:

(1) includes steps for the orderly transfer of patients to other programs, individuals, or entities that provide opioid treatment;

(2) includes procedures for securing, maintaining, and transferring patient records according to federal and state law; and

(3) the plan is reviewed and updated, as appropriate, at least once every 12 months.

[8.321.10.27 NMAC - N, 7/1/2024]

8.321.10.28 PATIENT RECORDS:

A. The OTP program shall establish and maintain a recordkeeping system that is adequate to document and monitor patient care. The system shall comply with all federal and state requirements relevant to OTPs and to confidentiality of patient records.

B. Each patient record shall include:

(1) the results of the physical examination;

(2) the results of all assessments;

(3) the treatment plan and all updates or revisions;

(4) the results of laboratory tests and a description of any action taken based upon the results;

(5) documentation of the patient's current dose and dosage history;

(6) documentation of counseling provided to the patient;

(7) dates and results of meetings or conferences regarding the patient's treatment;

(8) documentation of the process used and factors considered in making decisions that impact a patient's treatment, such as whether to allow take-home medication and the frequency of laboratory drug detection tests; and

(9) documentation of the agency's efforts to learn of multiple opioid treatment program enrollment;

(10) documentation that the patient has received and understood information regarding the harmful effects of diversion of opioid treatment medication.

[8.321.10.28 NMAC - N, 7/1/2024]

8.321.10.29 COMMUNITY RELATIONS:

A. A program sponsor shall ensure that policies and procedures are developed, implemented, and complied with to educate and promote understanding in the community about opioid treatment and include:

(1) a mechanism for eliciting input from the community about the provider's impact on the community;

(2) a requirement that the program sponsor or designee interface with community leaders to foster positive relations;

(3) a requirement that the program sponsor or designee establish a liaison with community representatives to share information about the program;

(4) a requirement that the agency have information on substance abuse and related health and social issues available to the public;

(5) a mechanism for addressing and resolving community concerns about opioid treatment or the program's presence in the community; and

(6) a mechanism that addresses getting approval for continued treatment in treatment or care facilities and correctional facilities.

B. A program sponsor shall ensure that community relations efforts are documented and are evaluated at least once every six months.

C. A program sponsor shall comply with all valid county and municipal ordinances regarding community relations, and the HCA may consult with local governmental entities when enforcing this section.

[8.321.10.29 NMAC - N, 7/1/2024]

8.321.10.30 DIVERSION CONTROL:

The program sponsor shall ensure that a written plan is developed, implemented, and complied with to prevent diversion of opioid treatment medication from its intended purpose to illicit purposes. This plan shall assign specific responsibility to licensed and administrative staff for carrying out the diversion control measures and functions described in the plan. The program shall develop and implement a policy and procedure providing for the reporting of theft or diversion of medication to the relevant regulatory agencies, and law enforcement authorities.

[8.321.10.30 NMAC - N, 7/1/2024]

PART 11 CRISIS TRIAGE CENTERS

8.321.11.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.321.11.1 NMAC - N, 7/1/2024]

8.321.11.2 SCOPE:

These regulations apply to public, profit and not for profit crisis triage centers providing the services specified in these regulations. Any crisis triage center providing services specified in these regulations must be licensed under these regulations.

[8.321.11.2 NMAC - N, 7/1/2024]

8.321.11.3 STATUTORY AUTHORITY:

The regulations set forth herein are promulgated pursuant to the general authority granted under Subsection E of Section 9-8-6, NMSA 1978; and the authority granted under Subsection D of Section 24-1-2, Subsection I of Section 24-1-3 and Section 24-1-5 NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority

(authority) as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.321.11.3 NMAC - N, 7/1/2024]

8.321.11.4 DURATION:

Permanent.

[8.321.11.4 NMAC - N, 7/1/2024]

8.321.11.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.321.11.5 NMAC - N, 7/1/2024]

8.321.11.6 OBJECTIVE:

A. To establish minimum standards for licensing crisis triage centers that provide quality crisis stabilization services outside of a hospital setting.

B. To ensure the provision of quality services which maintain or improve the health and quality of life to the clients.

C. To monitor compliance under these regulations through surveys and to identify any facility areas which could be dangerous or harmful.

[8.321.11.6 NMAC - N, 7/1/2024]

8.321.11.7 DEFINITIONS:

A. Definitions beginning with "A":

(1) **"Administrator"** means the person who is delegated the administrative responsibility for interpreting, implementing, and applying policies and procedures at the crisis triage center. The administrator is responsible for establishing and maintaining safe and effective management, control and operation of the CTC and all of the services provided at the CTC including fiscal management. The administrator must meet the minimum administrator qualifications in these regulations.

(2) **"Advanced practice registered nurse"** means a registered nurse that includes a certified nurse practitioner, or a clinical nurse specialist as defined and licensed under the Nursing Practice Act, as amended, and related regulations, and is currently in good standing.

(3) **"Applicant"** means the individual or legal entity that applies for a CTC license to provide services in a particular facility. If the applicant is a legal entity, the individual signing the license application on behalf of the legal entity must have written legal authority from the legal entity to act on its behalf and execute the application. The license applicant must be the legal owner of the entity providing services, but not necessarily the facility.

B. Definitions beginning with "B": "Basic life support" (BLS) means training and current certification in adult cardiopulmonary resuscitation equivalent to American heart association class C basic life support and in emergency treatment of a victim of cardiac or respiratory arrest through cardiopulmonary resuscitation and emergency cardiac care.

C. Definitions beginning with "C":

(1) **"Caregivers criminal history screen"** means pursuant to the criminal history screening for Caregivers Act, Section 29-17-1 through Section 29-17-5 NMSA 1978, the process for health facilities and medicaid home and community-based waiver providers to complete a caregiver criminal history screening for all caregivers no later than 20 calendar days after the employment hire date. The screening or background check includes the submission of fingerprints required for obtaining state and federal criminal history used to conduct the fitness determination. The caregiver's criminal history screening program receives and processes background check applications for criminal history screenings from care providers in the state of New Mexico. Caregivers may be prohibited from employment if the caregiver has a disqualifying condition.

(2) **"Chemical restraint"** means a drug or medication when it is used as a restriction to manage a client's behavior or restrict a client's freedom of movement and is not a standard treatment or dosage for a client's condition. If a drug or medication is used as a standard treatment to address the assessed current symptoms and needs of a client with a particular medical or psychiatric condition, its use is not considered a chemical restraint.

(3) **"CLIA"** means clinical laboratory improvement amendments of 1988 as amended.

(4) **"Client"** means any person who receives care at a crisis triage center.

(5) **"Compliance"** means the CTC's adherence to these regulations, as well as all other applicable state and federal statutes and regulations. Compliance violations may result in sanctions, civil monetary penalties and revocation or suspension of the CTC license.

(6) **"Crisis stabilization services"** means behavioral health services that are provided to help the client return his baseline level of functioning before the crisis.

(7) **"Crisis triage center"** means a health facility that:

(a) is licensed by the health care authority; and

(b) provides stabilization of behavioral health crises and may include residential and nonresidential stabilization.

(8) **"CYFD"** means the New Mexico children youth and families department.

(9) **"CYFD criminal records and background checks"** means pursuant to the Criminal Offender Employment Act, Section 28-2-1 to Section 28- 2-6 NMSA 1978, the New Mexico Children's and Juvenile Facility Criminal Records Screening Act, Section 32A-15-1 to Section 32A- 15-4 NMSA 1978, amended, and 8.8.3 NMAC, the process of conducting a nationwide criminal history records check, background check and employment history verification on all operators, staff and employees and prospective operators, staff and employees of treatment facilities and programs with the objective of protecting children/ youth and promoting the children's/ youth's safety and welfare while receiving service from the facilities and programs. The process shall include submission of electronic fingerprints for those individuals to the department of public safety and the federal bureau of investigation for the purpose of conducting a criminal history and background check; identification of information in applicants' background bearing on whether they are eligible to provide services; a screening of CYFD's information databases in New Mexico and in each state where the applicant resided during the preceding five years; and any other reasonably reliable information about an applicant in order to identify those persons who pose a continuing threat of abuse or neglect to care recipients in settings to which these regulations apply.

D. Definitions beginning with "D":

(1) **"Deficiency"** means a violation of or failure to comply with any provision(s) of these regulations.

E. Definitions beginning with "E": "Employee" means any person who works at the CTC and is a direct hire of the owner entity or management company, if applicable.

F. Definitions beginning with "F": "Facility" means the physical premises, building(s) and equipment where the crisis triage center services are provided, whether owned or leased and which is licensed pursuant to these regulations.

G. Definitions beginning with "G": [RESERVED]

H. Definitions beginning with "H":

(1) **"HCA"** means the New Mexico health care authority.

(2) **"High risk behavior"** means behaviors that place clients, staff or visitors' physical and mental health and safety at risk.

I. Definitions beginning with "I":

(1) **"Incident"** means any known, alleged or suspected event of abuse, neglect, exploitation, injuries of unknown origin or other reportable incidents.

(2) **"Incident management system"** means the written policies and procedures adopted or developed by the CTC for reporting abuse, neglect, exploitation, injuries of unknown origin or other reportable incidents.

(3) **"Incident report form"** means the reporting format issued by the authority for the reporting of incidents or complaints.

J. Definitions beginning with "J": [RESERVED]

K. Definitions beginning with "K": [RESERVED]

L. Definitions beginning with "L":

(1) **"Level III.7-D: Medically monitored inpatient detoxification"** means the types of detoxification services described by American Society of Addiction Medicine (ASAM) in its Patient Placement Criteria, Second Edition, Revised (PPC-2R) Level III &-D includes 24-hour medically supervised detoxification services requiring 24-hour nursing care and physician visits as necessary, unlikely to complete detox, without medical, nursing monitoring and more intensive detoxification services.

(2) **"Licensee"** means the person(s) or legal entity that operates the CTC and in whose name the CTC license has been issued and who is legally responsible for compliance with these regulations.

(3) **"Licensing authority"** means the New Mexico health care authority.

(4) **"Licensed mental health professional"** means a psychologist, social worker, physician, psychiatrist, physician assistant, registered nurse, practical nurse, advanced practice registered nurse, each shall have behavioral health training and shall be licensed in the state of New Mexico.

M. Definitions beginning with "M": "Management company" means the legal entity that manages the CTC program, if different from the legal owner of the facility.

N. Definitions beginning with "N":

(1) **"NFPA"** means the national fire protection association which sets codes and standards for fire and life safety. NFPA 11 and related standards, current edition as required by the authority.

(2) **"NMSA"** means the New Mexico Statutes Annotated 1978 compilation and all subsequent amendments, revisions and compilations.

O. Definitions beginning with "O":

(1) **"Onsite medical professional"** means in this regulation a registered nurse, emergency medical service provider, emergency medical technician, licensed practical nurse, medical assistant, mental health technician, and certified nurse assistant.

(2) **"Outpatient services"** means immediate crisis stabilization services provided to clients who are not admitted to the residential setting. Outpatient crisis stabilization services are not ongoing behavioral health treatment services.

P. Definitions beginning with "P":

(1) **"Physical restraint"** means the use of physical force, consistent with state and federal laws and regulations, without the use of any device or material that restricts the free movement of all or a portion of a body, but does not include: briefly holding a client in order to calm or comfort the client; holding a client's hand or arm to escort the client safely from one area to another; or intervening in a physical fight.

(2) **"Physician"** means a licensed individual, currently in good standing, authorized to practice medicine as defined and licensed under the New Mexico Medical Practice Act, Section 61-6-1 to Section 61-6-34 NMSA 1978, as amended, and related regulations or osteopathic medicine as defined and licensed under Section 61-10-1 to Section 61-10-22 NMSA 1978, as amended, and related regulations.

(3) **"Physician's assistant"** means an individual, currently in good standing, who is licensed and authorized to provide services to patients under the supervision and direction of a licensed physician under the Physician Assistant Act, Section 61- 6-7 to Section 61-6-10 NMSA 1978, as amended and related regulations, or is authorized and licensed to provide services to patients under the supervision and direction of a licensed osteopathic physician under the Osteopathic Physicians' Assistants Act, Section 61-10A-1 to Section 61- 10-7 NMSA 1978 as amended, and related regulations.

(4) **"Plan of correction"** (POC) means the plan submitted by the licensee or its representative(s) addressing how and when deficiencies identified through a survey or investigation will be corrected. A plan of correction is a public record once it has been approved by the regulatory authority and is admissible for all purposes in any adjudicatory hearing and all subsequent appeals relating to a CTC license, including to prove licensee compliance violations or failures.

(5) **"Policy"** means a written statement that guides and determines present and future CTC decisions and actions.

(6) **"Premises"** means all of the CTC including buildings, grounds and equipment.

(7) **"Primary source verification"** means the act of obtaining credentials directly from the original or primary source(s).

(8) **"Procedure"** means the action(s) that must be taken in order to implement a written policy.

Q. Definitions beginning with "Q":

(1) **"Quality assurance"** means the CTC's on- going comprehensive self-assessment of compliance with these regulations and other applicable statutes and regulations.

(2) **"Quality committee"** means a committee comprised at a minimum of the administrator, clinical director, director of nursing, licensed mental health professional, and psychiatrist. Other committee members may be specified by rules governing payor requirements. The committee shall establish and implement quality assurance and quality improvement systems that monitor and promote quality care to clients.

(3) **"Quality improvement system"** means systematic and continuous actions that lead to measurable improvement in services and focus on reduction and stabilization of crises for clients.

R. Definitions beginning with "R":

(1) **"Registered nurse"** means an individual, currently in good standing, who is licensed and authorized to provide nursing services under the Nursing Practice Act, Section 61-3-1 to Section 61-3-30 NMSA 1978, as amended, and related regulations.

(2) **"Residential services"** means any crisis stabilization services provided to a client admitted to the residential setting.

(3) **"Restraint clinician"** means a New Mexico licensed medical doctor, doctor of osteopathy, advanced practice registered nurse, clinical nurse specialist, physician assistant or doctoral level psychologist (Psy.D., Ph.D., or E.D.), who is trained in the use of emergency safety interventions.

S. Definitions beginning with "S":

(1) **"Sanitize clothes"** means the use of water at a temperature of 212 degrees or use of a disinfectant agent to wash clothes.

(2) **"Scope of practice"** means the procedures, actions, and processes that a healthcare practitioner is permitted to undertake under the terms of their professional license. The scope of practice is limited to that which the applicable law allows for specific education, training, experience and demonstrated competency.

(3) **"Seclusion"** means the involuntary confinement of a client alone in a room where the client is physically prevented from leaving.

(4) **"Short- term residential stay"** means the limit of a client's stay is eight days for the residential setting.

(5) **"Staff"** means any person who works at the CTC, and includes employees, contracted persons, independent contractors and volunteers who perform work or provide goods and services at the CTC.

T. Definitions beginning with "T": [RESERVED]

U. Definitions beginning with "U": "U/L approved" means approved for safety by the national underwriter's laboratory.

V. Definitions beginning with "V":

(1) **"Variance"** means a written decision, made at the licensing authority's sole discretion, to allow a CTC to deviate from a portion(s) or a provision(s) of these regulations for a period that expires upon remodel of the CTC or change of ownership, providing the variance does not jeopardize the health, safety or welfare of the CTC's clients, visitors and staff and is not in violation of other applicable state and federal statutes and regulations. A variance can be renewed upon approval of the licensing authority. A variance may be revoked at the discretion of the licensing authority due to changes in state or federal regulations and statutes, or change of circumstances that may jeopardy the health, safety or welfare of clients.

(2) **"Violation"** means all actions or procedures by the CTC or licensee that are not in compliance with these regulations and all other applicable state and federal statutes and regulations.

W. Definitions beginning with "W":

(1) **"Waiver"** means a written decision, made at the licensing authority's sole discretion, to allow a CTC to deviate from a portion(s) or a provision(s) of these regulations for a limited and specified time period not to exceed the duration of the license, providing the waiver does not jeopardize the health, safety or welfare of the CTC's clients, visitors and staff and is not in violation of other applicable state and federal statutes and regulations. A waiver can be renewed on an annual basis upon approval of the licensing authority. A waiver may be revoked at the discretion of the

licensing authority due to changes in state or federal regulations, or change of circumstances that may jeopardy the health, safety or welfare of clients.

(2) **"Withdrawal management"** means the immediate psychological stabilization, diagnosis and treatment of a client who is intoxicated, incapacitated, or experiencing withdrawal of alcohol or drugs.

Y. Definitions beginning with "Y":

(1) **"Youth"** means residents 14 years of age and older up to age 18.

(2) **"Youth staff"** means a person who has contact with youth in a licensed facility and includes the owner, operator or director of a program, volunteers, full-time, part-time, and contract employees.

Z. Definitions beginning with"Z": [RESERVED]

[8.321.11.7 NMAC - N, 7/1/2024]

8.321.11.8 STANDARD OF COMPLIANCE:

The degree of compliance required throughout these regulations is designated by the use of the words "shall" or "must" or "may". "Shall" or "must" means mandatory compliance. "May" means permissive compliance. The words "adequate", "proper", and other similar words mean the degree of compliance that is generally accepted throughout the professional field by those who provide services to the public in facilities.

[8.321.11.8 NMAC - N, 7/1/2024]

8.321.11.9 SCOPE OF SERVICES:

A. General scope of services: These regulations apply to crisis triage centers (CTC) which are health facilities offering youth and adult outpatient and residential care services. A CTC provides stabilization of behavioral health crises as outpatient stabilization or short-term residential stabilization in a residential rather than institutional setting, which may provide an alternative to hospitalization or incarceration. The CTC services may vary in array of services offered to meet the specific needs of different communities in New Mexico. A CTC may provide limited detoxification services but is differentiated from a detoxification center in that it does treat individuals who require treatment beyond Level III.7-D: Medically Monitored Inpatient Detoxification. The CTC provides emergency behavioral health triage and evaluation. The CTC may serve individuals 14 years of age or older who meet admission criteria. The CTC shall offer services to manage individuals at high risk of suicide or intentional self-harm. The CTC shall not refuse service to any individual who meets criteria for services.

B. Type of services:

(1) a CTC structured for less than 24-hour stays providing only outpatient withdrawal management or other stabilization services;

(2) a CTC providing outpatient and residential crisis stabilization services; and

(3) a CTC providing residential crisis stabilization services.

C. Limitations on scope of services:

(1) the CTC may accept voluntary admissions, individuals who are voluntarily seeking treatment, involuntary admissions and individuals who are not voluntarily seeking treatment;

(2) the CTC shall not provide detoxification services beyond Level III.7-D: Medically Monitored Inpatient Detoxification services;

(3) the CTC shall not provide medical care not related to crisis triage intervention services beyond basic medical care of first aid and CPR;

(4) the CTC shall not provide residential services in excess of 14 calendar days, unless an involuntary admission is accepted and the CTC shall comply with all hearing and treatment provisions of Section 43-1-1 et al. NMSA;

(5) the CTC shall not provide ongoing outpatient behavioral health treatment;

(6) the CTC shall not exceed the capacity for which the CTC is licensed;

(7) a CTC with both adult and youth occupants must locate youth rooms and restrooms in a unit or wing that is physically separated from the adult facilities;

(8) A CTC shall not administer emergency psychotropic medications as described in Subsection M of Section 43-1-15 NMSA 1978 if admitting only voluntary admissions. Any use of emergency psychotropic medications for involuntary admissions shall only be done in accordance with Subsection M of Section 43-1-15 NMSA 1978.

D. License required:

(1) a CTC shall not be operated without a license issued by the authority;

(2) any facility providing the services described in these regulations on the effective date of these regulations, shall apply for a CTC license within 180 days;

(3) a CTC licensed under these regulations shall not assert, represent, offer, provide or imply that the CTC is or may render care or services other than the services

it is permitted to render under these regulations and within the scope of all applicable professional license(s);

(4) if an unlicensed CTC is found to be providing services for which a license is required under these regulations, the secretary may issue a cease-and- desist order, to protect human health or safety or welfare. The unlicensed facility may request a hearing that shall be held in the manner provided under these regulations and all other applicable regulations.

[8.321.11.9 NMAC - N, 7/1/2024]

8.321.11.10 INITIAL LICENSE PROCEDURES:

These regulations should be thoroughly understood and used by the applicant, when applying for the initial CTC license. The applicant for an initial CTC license under these regulations must follow these procedures when applying for a license.

A. Notification and letter of intent: The owner shall advise the licensing authority of its intent to open a crisis triage center pursuant to these regulations by submitting a letter of intent. The letter of intent must be on the applicant's letterhead and signed by a person with authority to make legal decisions for the owner and the CTC and at a minimum, include the following:

(1) the name of CTC;

(2) the name of the legal owner and licensee and the type of legal entity under which the CTC shall be owned;

(3) the name of the management company, if any;

(4) the type of facility license requested;

(5) the name and resume of the proposed administrator;

(6) the anticipated number of residential and non-residential clients to be served;

(7) the intended population and age range of the clients to be served;

(8) the number of residential beds in the proposed CTC;

(9) the physical address of CTC including building name or suite number;

(10) the mailing address, if different from physical address;

(11) the applicant's contact name(s), address, e-mail address, and telephone number(s);

(12) the anticipated payers and sources of reimbursement; and

(13) a list of all services to be provided at the CTC location which is requesting the license.

B. License application and fees: After review by the authority of the letter of intent for general compliance with these regulations and verification that an application is appropriate under these regulations, the owner shall be required to complete a license application on a form provided by the authority. Prior to any construction, renovation or addition to an existing building and after review and approval of the letter of intent by the authority, the applicant must submit to the licensing authority an application form provided by the authority, fully completed, printed or typed, dated, signed, and notarized accompanied by the required fee. If electronic filing of license applications is available at the time of application, the applicant will be required to follow all electronic filing requirements, and may forgo any notary requirements, if specifically allowed under the applicable electronic filing statutes, regulations and requirements. The licensing authority will provide current fee schedules. The authority reserves the right to require additional documentation to verify the identity of the applicant in order to verify whether any federal or state exclusions may apply to the applicant. Fees must be paid in the form of a certified check, money order, personal, or business check, or electronic transfer (if available), made payable to the state of New Mexico, and are non-refundable. The applicant must also attach to the application and submit to the authority, a set of building plans which includes all of the information required by these rules, accompanied by proof of zoning approvals by the applicable building authority.

C. Building plans: The CTC building plans must be of professional quality, prepared and stamped by an Architect licensed by the state of New Mexico pursuant to Subsection B of Section 61-15-9 NMSA 1978. One copy of the building plans must be submitted, printed on substantial paper measuring at least 24 inches by 36 inches and drawn to an accurate scale of at least one-eighth inch to 1 foot. The building plans for renovated or building additions to an existing building must include sufficient information to clearly distinguish between new and existing construction, for the authority to make a compliance determination. The following plans are the minimum required for all facilities in new and / or renovated construction:

(1) Site plan: showing the location of the building on a site/plot plan to determine surrounding conditions, driveways, all walks and steps, ramps, parking areas, handicapped and emergency vehicle spaces, accessible route to the main entrance, secure yard for clients, any permanent structures, including notes on construction materials used.

(2) Life safety and code compliance plan: noting applicable code requirements and compliance data, locations of rated fire walls, smoke partitions (if any), exit paths & distances, fire extinguishers locations.

(3) Floor plans: showing location use of each room, (e.g., waiting room, examination room, office, client (resident) rooms, kitchen, common elements, door locations (swings), window locations, restrooms, locations of all restrooms, plumbing fixtures (sinks, toilets, tubs-showers; location a of all level changes within and outside the building (e.g. steps or ramps, etc.); and all other pertinent explanatory information addressing the requirements in applicable regulations.

(4) Dimensioned floor plan: showing all exterior and interior dimensions of all rooms, spaces, and corridors, etc.

(5) Exterior building elevations: noting all building heights, locations of exterior doors, and any operable and fixed windows (sill heights).

(6) Building and wall sections: showing at least one building or wall section showing an exterior and interior wall construction section including the material composition of the floor, walls, and ceiling/roof construction.

(7) Schedule sheets: room finish: noting all room finishes, (e.g., carpet, tile, gypsum board with paint, etc); door schedule; noting door sizes/thickness, door types & ratings; window schedule, noting sizes, type and operation; skylight schedule, noting size, type.

(8) Special systems plan: location of fire extinguishers, heat and smoke detectors, nurse call systems, and operational elements of alarm system.

(9) Mechanical plans: noting location of heating units, furnaces, hot water heaters, and fuel type and source; all heating, ventilating and air conditioning/cooling systems including locations of fire dampers.

(10) Plumbing plan: noting all plumbing fixture locations, fixture types.

(11) Electrical plan: noting power and lighting layouts, exit lighting, emergency lighting fixtures, emergency power systems (if any), electrical panel information.

(12) Other plans: As necessary (ie; phasing plan) to describe compliance with the other requirements in applicable regulations.

D. New construction: Building plans must be submitted, and will be reviewed by the authority for compliance with these licensing regulations, and applicable building and fire safety codes. If the authority approves the CTC's building plans and local building officials have issued a construction permit, construction may begin. This provision is an ongoing requirement and applies to, and includes all construction at the

CTC, which occurs before and after issuance of the initial license. This provision does not generally apply to maintenance and repair. However, if the maintenance or repair impacts or alters any of the CTC requirements under these regulations, the applicant or licensee must notify the authority and verify ongoing compliance with these regulations. The authority shall not be liable for any costs or damages incurred by the applicant relating to construction in the event the applicant incurs costs or damages in order to comply with these regulations or to obtain a license under these regulations. For all new and proposed construction, the applicant or licensee must submit for building plan approval by the authority before construction begins.

E. Existing or renovated construction: If the proposed CTC includes any remodeling, renovations or additions or new construction of any type, the building plans and specifications covering all portions of the proposed work delineating all existing construction and all new or proposed construction shall be and submitted to the authority for review and approval. Submit phasing plan if project construction will be phased. New facilities proposed for licensure in existing buildings must comply with all requirements building requirements as if it were completely new construction. If the CTC is located within another licensed facility such as a hospital, the life safety inspection will still be required for compliance with 8.321.11 NMAC requirements. For residential CTC programs, the bed count must be separate from the licensed bed count of the original licensed facility. If a CTC is a separate building associated with an existing license, requirements of this regulation apply to that building.

F. Completed construction: All new or renovated construction completed shall comply with the plans and specifications approved by the authority in the plan review process and prior to construction, these rules, and all other applicable rules and codes; and any of the authority's approval(s) shall not waive any other rules or other applicable building and code requirements enforceable by other authorities having jurisdiction. Applicant must receive initial life safety code approval and a temporary license from this authority prior to accepting or admitting any clients into the CTC.

G. Additional documents required for license application: The authority reserves the right to require an applicant to provide all additional documents, as part of its license application, in order for the authority to determine whether the applicant and the CTC are in full compliance with these regulations, as well as all other applicable statutes and regulations. At minimum, additional documents required to be provided as part of the initial licensure process prior to the issuance of a temporary license, include, but are not limited to:

(1) Building approvals: The applicant must submit all building approvals required for the CTC to operate in the jurisdiction in which it is located, including but not limited to:

(a) written zoning approval, building permit final approval, or certificates of occupancy from the appropriate authority (state, city, county, or municipality) for business occupancy; and

(b) written fire marshal approvals from the fire safety authority having jurisdiction.

(2) Environment department approvals: If applicable or required, the applicant must provide written approval from the New Mexico environment department for the following:

(a) private water supply;

(b) private waste or sewage disposal;

(c) kitchen/food service

(d) x-ray equipment (if any).

(3) Board of pharmacy approvals: A copy of CTC's drug permit issued by the state board of pharmacy must be provided.

(4) Program description: The applicant must submit with its license application a program outlines consistent with these regulations which includes at a minimum, the following information:

(a) a list and description of all services and the scope of those services to be provided by the proposed CTC;

(b) projected number of clients to be served monthly, both residential and non-residential;

(c) a list of staffing and personnel requirements and duties to be performed;

(d) proposed staffing plans for both residential and non-residential programs;

(e) photocopies of written operating agreements with the following: treatment facilities for behavioral health and physical health care needs that are beyond the scope of the CTC;

(f) admission and discharge criteria; and

(g) an organizational structure diagram or chart including the administrator, governing body, clinical director, director of nursing, direct care staff, and other staff.

(5) Policies and procedures: The applicant must submit with its license application a copy of the CTC's policies and procedures with a crosswalk to these regulations to show compliance.

[8.321.11.10 NMAC - N, 7/1/2024]

8.321.11.11 LICENSE TYPES, VARIANCES & WAIVERS:

A. Temporary license:

(1) The licensing authority may, at its sole discretion, issue a temporary license prior to the initial survey, or when the licensing authority finds partial compliance with these regulations.

(2) The licensing authority may, at its sole discretion, issue a temporary license before clients are admitted, provided that the CTC has:

(a) submitted a license application, with required supporting documents;

(b) has met all of the applicable life safety code requirements; and

(c) its program, policies, and procedures have been reviewed and approved for compliance with these regulations.

(3) a temporary license is not guaranteed under these regulations and shall be limited and restricted to:

(a) a period, not to exceed 120 days, during which the CTC must correct all specified deficiencies;

(b) no more than two consecutive temporary licenses shall be issued in accordance with applicable statutes and regulations;

(c) a finding that the applicant is qualified and in full compliance with life safety code requirements;

(d) the CTC being allowed to accept clients and provide care services, subject to any requirements and restrictions attached to the temporary license;

(e) a statement from the applicant that they are qualified and in full compliance with these regulations and the owner has requested an initial health survey from the licensing authority.

B. Annual license: An annual license is issued for a one- year period to a CTC which has met all requirements of these regulations. If a temporary license is issued, once the authority has issued a written determination of full compliance with these regulations, an annual license will be issued with the renewal date of the annual license based upon the initial date of the first temporary license.

C. Amended license: A licensee must apply to the licensing authority for an amended license when there is a change of administrator or when there is a change of name for the CTC, but an amended license shall only be issued if the administrator is

not an owner. If the administrator is also the owner, a new license application must be submitted as provided in this regulation. The amended license application must:

(1) be on a form, or filed electronically if available, as required by the licensing authority;

(2) be accompanied by the required fee for the amended license; and

(3) be submitted within 10 working days of the change.

D. Variances and waivers: At the licensing authority's sole discretion, an applicant or licensee may be granted variances and waivers of these regulations, provided the granting of such variance or waiver shall not jeopardize the health, safety or welfare of the CTC's clients, patients and staff and is not in violation of other applicable state and federal statutes and regulations. Variances and waivers are non- transferrable. Waivers and variances may be revoked at the discretion of the licensing authority due to changes in state or federal regulations, or change of circumstances that may jeopardy the health, safety or welfare of clients.

(1) all variances shall be in writing, attached to the license and shall expire upon remodel of the CTC or change of ownership;

(2) all waivers shall be in writing, attached to the license and shall be limited to the term of the license. Upon renewal of a license, waivers shall only be extended or continued at the sole discretion of the licensing authority.

[8.321.11.11 NMAC - N, 7/1/2024]

8.321.11.12 LICENSE RENEWAL:

A. Licensee must submit a renewal application, electronically, if available, or on forms authorized by the licensing authority, along with the required license fee at least 30 days prior to expiration of the current license. The applicant shall certify that the CTC complies with all applicable state and federal regulations in force at the time of renewal and that there has been no new construction or remodeling or additions, which differ from the plans provided and reviewed with the prior license application. If there has been any construction, remodeling, or additions to the CTC since issuance of the last license, and the construction has not been previously approved by the authority, the license renewal applicant shall be required to comply with all construction documentation requirements under these regulations when applying for the license renewal. The authority reserves the right to require that a renewal applicant provide all additional documents, including any necessary proof of current compliance, as part of its license renewal application for the authority to determine whether the applicant and the CTC are in full compliance with these regulations.

B. Upon receipt of the renewal application and the required fee, the licensing authority will issue a new license effective the day following the date of expiration of the current license, if the CTC is in substantial compliance with these regulations and all other applicable state and federal regulations.

C. If the existing license expires and the licensee has failed to submit a renewal application, the authority may charge the applicant a civil monetary penalty of $100 for each day, in accordance with Section 24-1-5 NMSA 1978, as amended, that the CTC continues to operate without a license providing that during such time the CTC remains in full compliance with these regulations. If the CTC does not renew its license and continues to operate without paying civil monetary penalties and without being in full compliance with these regulations, the CTC shall cease operations until it obtains a new license through the initial licensure procedures, and shall still be required to pay civil monetary penalties. Under Section 24-1-5 NMSA 1978, as amended, no crisis triage center shall be operated without a license and any such failure may subject the operators to various sanctions and legal remedies, including at a minimum the imposition of civil monetary penalties.

D. It shall be the sole responsibility and liability of the licensee to be aware of the status, term and renewal date of its license. The licensing authority shall not be responsible to notify the CTC of the renewal date or the expiration date of the CTC's license.

E. After issuance of the initial license, if there has been no construction, remodeling or additions to the CTC and the CTC is in substantially the same condition as the plans on file with the authority, and the CTC is in substantial compliance with these regulations and provides an application and fee the CTC may be issued a license renewal. The authority, at its sole discretion, reserves the right to require additional documentation of compliance with these regulations and all applicable state and federal statutes and regulations by the licensee at the time of license renewal.

[8.321.11.12 NMAC - N, 7/1/2024]

8.321.11.13 POSTING OF LICENSE:

The CTC's official license must be posted in a conspicuous place on the licensed premises in an area visible to the public.

[8.321.11.13 NMAC - N, 7/1/2024]

8.321.11.14 NON-TRANSFERABLE RESTRICTION:

ON LICENSE: A license granted under these regulations is not transferable to any other owner, whether an individual or legal entity, or to another location. The authority shall not guarantee or be liable for or responsible for guaranteeing the transfer of the license

to any other owner or other location. The existing license shall be void and must be returned to the licensing authority when any one of the following situations occurs:

A. any ownership interest in the CTC changes;

B. the CTC changes location;

C. the licensee of the CTC changes; or

D. the CTC discontinues operation.

[8.321.11.14 NMAC - N, 7/1/2024]

8.321.11.15 CHANGE OF OWNERSHIP:

When a change of ownership occurs, an initial license application must be submitted by the new owner per the requirements in this section. The new owner must demonstrate compliance with these regulations the instant it takes responsibility of the CTC. The licensing authority may, at its sole discretion, approve a change of ownership. In addition to the requirements in Section 8.321.11.10 NMAC - application for licensure, the new owner must submit the following at least 60 days prior to completion of the change of ownership:

A. An explanation of terms of the change of ownership and the date the ownership will change.

B. Documents evidencing the change of ownership such as proof of sale or donation, lease of any portion of the CTC or other relevant documents.

C. Building plans of the current structure with any modifications known to the current or new owner.

D. A continuity of care transition plan that describes how the new owner will maintain the provision of services and continuity of care, keep residential clients safe and meet the requirements of these regulations at the instant it takes responsibility of the CTC. The plan must state the actions that will occur, the party responsible for taking each action, and the expected date of completion for each action. The plan must include the following:

(1) list of all residential clients at the time of notice to the licensing authority;

(2) review and update of all residential client assessments. All assessments must be current and accurate;

(3) review and update of all crisis intervention plans for clients receiving service at the time of transition and for all residential clients. All plans must be current and accurate;

(4) staffing as required in Section 8.321.11.29 NMAC of these rules and the number and positions of current staff that will be hired by the new owner;

(5) staff training as required in Section 8.321.11.32 NMAC;

(6) identification of all waivers or variances held by the current owner, and submission of any necessary waivers or variances. All waivers or variances held by the current owner are void upon the change of ownership;

(7) signed transfer agreements as required in Section 8.321.11.22 NMAC of these rules.

(8) Failure by any individual or entity to apply for and obtain a new license while continuing to operate under these regulations, shall be considered in violation of these regulations and the secretary may issue a cease-and- desist order, to protect human health or safety or welfare. The unlicensed CTC may request a hearing that shall be held in the manner provided under these regulations and all other applicable regulations.

[8.321.11.15 NMAC - N, 7/1/2024]

8.321.11.16 AUTOMATIC EXPIRATION OR TERMINATION OF LICENSE:

An existing license shall automatically expire at midnight on the day indicated on the license, unless it is renewed sooner, or it has been suspended or revoked.

A. If a CTC discontinues operation, is sold, leased or otherwise changes any ownership interest or changes location, the existing license shall automatically expire at midnight on the date of such action.

B. Failure by any owner or new owner to apply for a renewal or new license, while continuing to operate under these regulations, shall be considered a violation and subject to the imposition of civil monetary penalties, sanctions or other actions for operating without a license, allowed under these regulations and all other applicable statutes and regulations.

[8.321.11.16 NMAC - N, 7/1/2024]

8.321.11.17 ENFORCEMENT:

A. Suspension of license without prior hearing: If immediate action is required to protect human health and safety, the licensing authority may act in accordance with

Section 24-1- 5 NMSA 1978, as amended, and suspend a license pending a hearing, provided such hearing is held within five working days of the suspension, unless waived by the licensee.

B. An initial license application or a renewal license application may be denied, or an existing license may be revoked or suspended, or intermediate sanctions or civil monetary penalties may be imposed, after notice and opportunity for a hearing, for any of the following:

(1) failure to comply with any provision of these regulations;

(2) failure to allow access to the CTC and survey(s) by authorized representatives of the licensing authority;

(3) allowing any person to work at the CTC while impaired physically or mentally or under the influence of alcohol or drugs in a manner which harms the health, safety or welfare of the clients, staff or visitors;

(4) allowing any person, subject to all applicable statutes and regulations, to work at the CTC if that person is listed on the employee abuse registry, nurse aid registry, or considered an unemployable caregiver or has a disqualifying conviction under the caregiver's criminal history screen act, as amended, and related regulations, as amended.

(5) the list above shall not limit the authority from imposing sanctions and civil monetary penalties under all applicable statutes, regulations and codes.

[8.321.11.17 NMAC - N, 7/1/2024]

8.321.11.18 HEARING PROCEDURES:

Hearing procedures for an administrative appeal of an adverse action taken by the authority against a CTC's license will be held in accordance with applicable rules relating to adjudicatory hearings, including but not limited to, Section 8.370.2 NMAC. A copy of the above regulations will be furnished at the time an adverse action is taken against a CTC's license by the licensing authority, if the regulations cannot be obtained from a public website.

[8.321.11.18 NMAC - N, 7/1/2024]

8.321.11.19 FACILITY SURVEYS:

A. Application for licensure, whether initial or renewal, shall constitute permission for unrestricted entry into and survey of a CTC by authorized licensing authority representatives at times of operation during the pendency of the license application, and if licensed, during the licensure period.

B. Surveys may be announced or unannounced at the sole discretion of the licensing authority.

C. Upon receipt of a report of deficiency from the licensing authority, the licensee or their representative shall be required to submit a plan of correction to the licensing authority within 10 working days stating how the CTC intends to correct each violation noted and the expected date of completion. All plans of correction for deficiencies, if any, shall be disclosed in compliance with applicable statutes and regulations. A plan of correction is not confidential once it has been approved and is admissible for all purposes in any adjudicatory hearing and all subsequent appeals relating to a CTC license, including to prove licensee compliance violations. The plan of correction must contain the following:

(1) what measures will be put into place or what systematic changes will be made to ensure the deficient practice does not recur;

(2) the anticipated implementation date (a reasonable time-frame is allowed);

(3) how the corrective action will be monitored to ensure compliance;

(4) what quality assurance indicators will be put into place;

(5) who will be responsible to oversee their monitoring; and

(6) plan of correction shall be signed and dated by the administrator or authorized representative.

D. The licensing authority may at its sole discretion accept the plan of correction as written or require modifications of the plan by the licensee.

[8.321.11.19 NMAC - N, 7/1/2024]

8.321.11.20 REPORTING OF INCIDENTS:

All CTC's licensed under these regulations must comply with all incident intake, processing, training and reporting requirements under these regulations, as well as with all other applicable statutes and regulations. All facilities shall report to the licensing authority any serious incidents or unusual occurrences which have threatened, or could have threatened the health, safety and welfare of the clients, including but not limited to:

A. fire, flood or other man-made or natural disasters including any damage to the CTC caused by such disasters and any incident which poses or creates any life safety or health hazards;

B. any outbreak of contagious diseases and diseases dangerous to the public health;

C. any human errors by staff and employees which may or has resulted in the death, serious illness, hospitalization, or physical impairment of a client or staff; and

D. abuse, neglect, exploitation, and injuries of unknown origin and other reportable incidents in accordance with 8.370.9 NMAC.

[8.321.11.20 NMAC - N, 7/1/2024]

8.321.11.21 GOVERNING BODY:

All CTC's licensed under these regulations must have a formally constituted governing body or operate under the governing body of the legal entity, which has ultimate authority over the CTC.

A. The governing body shall:

(1) establish and adopt bylaws that govern its operation;

(2) approve policies and procedures;

(3) appoint an on-site administrator or chief executive officer/administrator for the CTC; and

(4) review the performance of the administrator/ chief executive officer at least annually.

B. The governing body may appoint committees consistent with the size and scope of the CTC.

[8.321.11.21 NMAC - N, 7/1/2024]

8.321.11.22 POLICIES AND PROCEDURES:

The CTC shall establish written policies and procedures that are reviewed annually and approved by the governing body, which govern the CTC's operation. The administrator shall ensure that these policies and procedures are adopted, administered and enforced to provide quality services in a safe environment. At a minimum, the CTC's written policies and procedures shall include how the CTC intends to comply with all requirements of these regulations and address:

A. the establishment, composition, and responsibilities of the governing body;

B. administration including the minimum qualifications of the administrator, the process to hire an administrator, and define the administrator's authority, responsibility, and accountability including plans for the administrator's absence;

C. quality assurance and improvement systems;

D. incident management system;

E. the maintenance of the CTC, equipment and supplies; inspection and maintenance of emergency equipment; maintenance of emergency supplies; maintenance, upkeep and cleaning of the building(s) and equipment; fire and emergency evacuation procedures; and proper disposal of waste liquids used for cleaning contaminated areas;

F. quality of care and services including appropriate and inappropriate admission and discharge criteria; and client risk assessment;

G. referral of clients for services; transfer of clients to a hospital or other CTC or program; ambulance transfer services; and emergency procedures and resuscitative techniques;

H. infectious waste and biohazard disposal in accordance with all applicable statutes and regulations;

I. infection control and prevention;

J. staffing plan, personnel records, and personnel including written job descriptions for all staff with necessary qualifications consistent with these rules; minimum staffing; and staff development;

K. maintenance of the client health record including protection of client confidentiality and privacy as required by law; secure release of medical information and records; and safe handling and storage of client records including appropriate document destruction procedures;

L. the retention, maintenance, security and destruction of client, personnel and CTC records;

M. research procedures for any research being conducted at the CTC in compliance with these regulations;

N. dietary services including: meal service; staff in- service training; dietary records; clean and sanitary conditions; and food management;

O. housekeeping services to keep the CTC safe, clean, and free of hazards and clutter;

P. laundry services for the CTC's laundry and resident's laundry including handling, process and storage of clean and dirty laundry;

Q. pharmacy practices including the storage, administration, and disposal of medications; medication management; and documentation;

R. laboratory services;

S. client's personal belongings including locked storage and contraband;

T. client rights;

U. safety management plan including, but not limited to, risk assessment, control of potentially injurious items, crisis prevention and intervention, physical restraint, and mitigation of high risk behaviors including suicide and assault. The safety plan shall follow a least to most restrictive sequence;

V. authorized entry to or exit from the CTC including the residential and outpatient components;

W. withdrawal management services; and

X. primary source verification of licenses, credentials, experience and competence of staff.

[8.321.11.22 NMAC - N, 7/1/2024]

8.321.11.23 QUALITY IMPROVEMENT SYSTEMS:

Each CTC shall establish and maintain quality improvement systems including policies and procedures for quality assurance and quality improvement and have a quality committee.

A. The CTC shall establish a quality committee comprised at a minimum of the administrator, clinical director, director of nursing, licensed mental health professional, certified peer support worker, and psychiatrist. Other committee members may be specified by rules governing payor requirements. Members may participate on the quality committee by teleconference. The committee shall establish and implement quality assurance and quality improvement systems that monitor and promote quality care to clients. The systems are approved by the governing body and updated annually.

(1) the quality improvement systems must include:

(a) chart reviews;

(b) annual review of policies and procedures;

(c) data collection, and other program monitoring processes;

(d) data analyses;

(e) identification of events, trends and patterns that may affect client health, safety or treatment efficacy;

(f) identification of areas for improvement;

(g) intervention plans, including action steps, responsible parties, and completion time; and,

(h) evaluation of the effectiveness of interventions.

(2) when areas of concern or potential problems are identified by the committee, the CTC shall act as soon as possible to avoid and prevent risks to clients.

(3) the quality committee shall take and maintain meeting minutes.

B. The quality committee shall review at a minimum, the following:

(1) high-risk situations and critical incidents (such as suicide, death, serious injury, violence and abuse, neglect and exploitation) within 24 hours;

(2) medical emergencies;

(3) medication variance;

(4) infection control;

(5) emergency safety interventions including any instances physical restraints; and

(6) environmental safety and maintenance.

C. The quality committee is responsible for the implementation of quality improvement processes.

D. The quality committee shall submit a quarterly report to the governing body for review and approval.

E. The governing body shall evaluate the CTC's effectiveness in improving performance.

[8.321.11.23 NMAC - N, 7/1/2024]

8.321.11.24 RISK ASSESSMENT:

A. The CTC shall develop policies and procedures addressing risk assessment and mitigation including, but not limited to: assessments, crisis intervention plans, treatment, approaches to supporting, engaging, and problem solving, staffing, levels of observation and documentation. The policies and procedures must prohibit seclusion and address physical restraint, if used, and the CTC's response to clients that present with imminent risk to self or others, assaultive and other high-risk behaviors.

B. Use of seclusion is prohibited unless the facility is joint commission accredited, and unless the facility has obtained a prior waiver from the authority authorizing the facility to use seclusion. The use of physical restraint or seclusion must be consistent with federal and state laws and regulation (e.g., Section 32A-6A- 10 NMSA 1978, concerning physical restraint and seclusion of minors).

C. Physical restraint, as defined in these regulations, shall be used only as an emergency safety intervention of last resort to ensure the physical safety of the client and others, and shall be used only after less intrusive or restrictive interventions have been determined to be ineffective.

D. Physical restraint shall not be used as punishment or for the convenience of staff.

E. Physical restraint is implemented only by staff who have been trained and certified by a CYFD or HCA recognized program in the prevention and use of physical restraint. This training emphasizes de-escalation techniques and alternatives to physical contact with clients as a means of managing behavior and allows only the use of reasonable force necessary to protect the client or other person from imminent and serious physical harm. Clients and youth do not participate in the physical restraint of other clients and youth.

F. Crisis intervention plans must document the use of physical restraints and address: the client's medical condition(s); the role of the client's history of trauma in their behavioral patterns; specific suggestions from the client regarding prevention of future physical interventions.

G. All clients physically restrained shall be afforded full privacy away from other clients receiving services.

H. A chemical restraint shall not be utilized under any circumstance. A chemical restraint is a drug or medication when it is used as a restriction to manage the client's behavior or restrict the client's freedom of movement, and is not a standard treatment or dosage for the client's condition. If a drug or medication is used as a standard treatment to address the assessed current symptoms and needs of a client with a particular medical or psychiatric condition, its use is not considered a chemical restraint.

I. Mechanical restraint shall not be utilized under any circumstances unless the facility is joint commission accredited, and unless the facility has obtained a prior waiver from the authority authorizing it to utilize mechanical restraint. Mechanical restraint is

the use of a mechanical device(s) to physically restrict a client's freedom of moment, performance of physical activity or normal access to their body and is distinct from physical restraint. The use of mechanical restraint must be consistent with federal and state laws and regulation (e.g., Section 32A-6A-10 NMSA 1978, concerning mechanical restraint of minors).

J. The staff implementing the physical restraint shall conduct a debriefing, with the client present if possible, immediately following the incident to include the identification of the precipitating event, unsafe behavior and preventive measures with the intent of reducing or eliminating the need for future physical restraint. The debriefing shall be documented in the client's record.

K. The client's crisis intervention plan shall be updated: within 24 hours of admission or prior to discharge, whichever comes first; and following physical restraint use to incorporate the debriefing and changes needed to lessen the chance of the situation reoccurring.

L. Each incident of physical restraint shall be documented in the client's record including:

(1) the less intrusive interventions that were attempted or determined to be inappropriate prior to the incident;

(2) the precipitating event immediately preceding the behavior that prompted the use of physical restraint;

(3) the behavior that prompted the use of a physical restraint;

(4) the names of the mental health professional who observed the behavior that prompted the use of the physical restraint;

(5) the names of the staff members implementing and monitoring the use of physical restraint; and

(6) a description of the of the physical restraint incident, including the type and length of the use of physical restraint, the client's behavior during and reaction to the physical restraint and the name of the supervisor informed of the use of physical restraint.

M. Physical restraints orders are issued by a restraint/ clinician within one hour of initiation of physical restraint and include documented clinical justification for the use of physical restraint.

(1) if the client has a treatment team physician or advanced practice registered nurse and he or she is available, only he or she may order physical restraint;

(2) if physical restraint is ordered by a restraint clinician, not the client's treatment team physician or advanced practice registered nurse, the restraint clinician will contact the client's treatment team physician or advanced practice registered nurse as soon as possible to inform him or her of the situation requiring the physical restraint, and document in the client's record the date and time the treatment team physician or advanced practice registered nurse was consulted and the information imparted;

(3) if the order for physical restraint is verbal, the verbal order must be received by a restraint/clinician or a New Mexico licensed registered nurse (RN) or practical nurse (LPN). The restraint/ clinician must verify the verbal order in a signed, written form placed in the client's record within 24 hours after the order is issued;

(4) each order for physical restraint must be documented in the client's record and must include:

(a) the name of the restraint/clinician ordering the physical restraint;

(b) the date and time the order was obtained;

(c) the emergency safety intervention ordered, including the length of time;

(d) the time the emergency safety intervention began and ended;

(e) the time and results of one-hour assessment(s), if ordered;

(f) the emergency safety situation that required the client to be physically restrained; and

(g) the name, title, and credentials of staff involved in the emergency safety intervention.

N. Suicide risk interventions must include the following:

(1) a registered nurse or other licensed mental health professional may initiate suicide precautions and must obtain physician or advanced practice registered nurse order within one hour of initiating the precautions;

(2) modifications or removal of suicide precautions shall require clinical justification determined by an assessment and shall be ordered by a physician or advanced practice registered nurse and documented in the clinical record;

(3) staff and client shall be debriefed immediately following an episode of a suicide attempt or gesture, identifying the circumstances leading up to the suicide attempt or gesture;

(4) an evaluation of the client by a medical, psychiatric or independently licensed mental health provider must be done immediately, or the client must be transferred to a higher level of care immediately.

[8.321.11.24 NMAC - N, 7/1/2024]

8.321.11.25 CLIENT ACCEPTANCE, ADMISSION AND DISCHARGE CRITERIA:

A. The CTC shall develop admission and discharge criteria related to stabilization of behavioral health crises including out-patient and short-term residential stabilization.

B. The CTC shall post operating and admission hours in a location visible from the exterior of the facility.

C. If a client is not admitted to the CTC, the CTC shall maintain documentation of the rationale for the denial of services to the individual and any referrals made.

D. Admission criteria for adults and youth must be available in writing to all clients and visitors to the CTC.

E. Materials describing services offered, eligibility requirements and client rights and responsibilities must be provided in a form understandable to the client with consideration of the client's primary language, and the mode of communication best understood by persons with visual or hearing impairments, as applicable.

F. The CTC shall not refuse to admit a client solely on the basis of the individual living in the community on a court ordered conditional release.

G. The CTC shall conduct an assessment for each client presenting for admission. The admission assessment shall contain an assessment of past trauma or abuse, how the individual served would prefer to be approached should he become dangerous to himself or to others and the findings from this initial assessment shall guide the process for determining interventions.

H. All residential admissions of youth 14 years of age and older must comply with applicable state and federal laws.

I. Staff shall inspect clients, their clothing, and all personal effects for contraband and weapons before admission to the residential component to ensure the safety of the patient and staff.

J. Discharge planning shall begin upon admission.

K. Prior to a client returning to a less restrictive environment, staff, with the consent of the client, shall work with the client's support system, as appropriate, to prepare the client for discharge.

L. Discharge plan and summary information shall be provided to the client at the time of discharge that includes:

(1) significant findings relevant to the client's recovery;

(2) client crisis stabilization plan and progress;

(3) recommendations and documentation for continued care, including appointment times, locations and contact information for providers;

(4) recommendations for community services if indicated with contact information for the services;

(5) documentation of notification to the client's primary care practitioner, if applicable;

(6) evidence of involvement by the client as documented by his signature or refusal to sign; and

(7) signatures of all staff participating in the development of plan.

M. A copy of the discharge plan shall be provided to post discharge service provider(s).

[8.321.11.25 NMAC - N, 7/1/2024]

8.321.11.26 PROGRAM SERVICES:

A licensed mental health professional must assess each individual with the assessment focusing on the stabilization needs of the client. It must be done in a timely manner congruent with the urgency of the presenting crisis, and consistent with the policies and procedures. The assessment must include: medical and mental health history and status, the onset of illness, the presenting circumstances, risk assessment, cognitive abilities, communication abilities, social history and history as a victim of physical abuse, sexual abuse, neglect, or other trauma as well as history as a perpetrator of physical or sexual abuse.

A. The CTC shall provide education and clinical programing designed to meet the stabilization needs of each client and implement crisis stabilization plans.

B. Crisis stabilization plan - A licensed mental health professional must document a crisis stabilization plan to address needs identified in the assessment.

(1) the crisis stabilization plan shall include at a minimum:

(a) diagnosis, a problem statement or statement of needs to be addressed;

(b) identification of behavioral health crisis leading to intake;

(c) goals that address the presenting crisis, and are consistent with the client's needs, realistic, measurable, linked to symptom reduction, and attainable by the client during the client's projected length of stay;

(d) specific treatment(s) provided, method(s) and frequency of treatment, and staff responsible for delivering treatment;

(e) criteria describing evidence of stabilization;

(f) discharge planning;

(g) evidence of involvement by the client and legal guardian as documented by his signature or refusal to sign; and

(h) signatures of all staff participating in the development of plan.

(2) A copy of the individual crisis stabilization plan shall be provided to the client, and guardian if applicable.

(3) When program services are offered in a group setting, groups for adults and groups for youth must be separate.

[8.321.11.26 NMAC - N, 7/1/2024]

8.321.11.27 CLIENT RIGHTS:

A. All licensed facilities shall understand, protect and respect the rights of all residents. Prior to admission to a CTC, a client, parent, shall be given the applicable written description of the adult's or youth's legal rights, translated into client's preferred language, if necessary, to meet the client's understanding.

B. A written copy of the adult client's legal rights shall be provided to the adult client, or agent, if applicable, or to the most significant responsible party in the following order:

(1) the client's spouse;

(2) significant other;

(3) any of the client's adult children;

(4) the client's parents;

(5) the client's advocate.

C. The client rights shall be posted in a conspicuous public place in the facility and shall include the telephone numbers to contact the authority to file a complaint.

D. To protect client rights, the CTC shall:

(1) treat all clients with courtesy, respect, dignity and compassion;

(2) not discriminate in admission or services based on gender, gender identity, sex, sexual orientation, client's age, race, color, religion, physical or mental disability, or national origin;

(3) provide clients written information about all services provided by the CTC and their costs and give advance written notice of any changes;

(4) provide clients with a clean, safe and sanitary living environment;

(5) provide a humane psychological and physical environment of care for all clients;

(6) provide the right to privacy, including privacy during assessments, examinations, consultations and treatment;

(7) protect the confidentiality of the client's clinical record;

(8) protect the right to personal privacy, including privacy in personal hygiene; privacy during visits with a spouse, family member or other visitor; and reasonable privacy in the client's own room;

(9) protect the client's right to receive visitors during designated visiting hours except when restricted for good cause pursuant to a physician's order;

(10) protect the client's right to receive visits from his attorney, physician, psychologist, clergyman, or social worker in private irrespective of visiting hours;

(11) provide clients the ability to send and receive private correspondence, as well as reasonable private access to telephone calls and, in cases of personal emergencies, reasonable use of long- distance calls;

(12) ensure that clients:

(a) are free from physical and emotional abuse, neglect, and exploitation;

(b) are free to participate or abstain from the practice of religion and shall be afforded reasonable accommodations to worship;

(c) have the right to reasonable daily opportunities for physical exercise and outdoor exercise and shall have reasonable access to recreational areas and equipment;

(d) have the right to voice grievances to the CTC staff, public officials, any state agency, or any other person, without fear of reprisal or retaliation;

(e) have the right to prompt and adequate medical attention for physical ailments;

(f) have the right to have their grievance addressed within five days;

(g) have the right to participate in the development of their crisis stabilization plan;

(h) have the right to participate in treatment decisions and formulate advance directives such as living wills and powers of attorney;

(i) have the right to refuse treatment and to be free from unnecessary or excessive medication; and

(j) have the right to manage and control their personal finances.

[8.321.11.27 NMAC - N, 7/1/2024]

8.321.11.28 CLIENT CLINICAL RECORD:

The client clinical records maintained by a crisis triage center in a paper-based or electronic system shall document the degree and intensity of the treatment provided to clients who are furnished services by the CTC. A client's clinical record shall contain at a minimum:

A. the client's name and address;

B. name, address, and telephone number of agent, or representatives;

C. the source of referral and relevant referral information;

D. all reports from client assessment (see program services assessment);

E. the signed and dated informed consent for treatment including all medications and transfers;

F. all additional medical and clinical documentation;

G. the original crisis stabilization plan and all revisions;

H. documentation of all treatment;

I. laboratory and radiology results, if applicable;

J. documentation of physical restraint observations, if utilized;

K. a record of all contacts with medical and other services;

L. a record of medical treatment and administration of medication, if administered;

M. an original or original copy of all physician medication and treatment orders signed by the physician;

N. signed consent for the release of information, if information is released;

O. discharge plan.

[8.321.11.28 NMAC - N, 7/1/2024]

8.321.11.29 STAFFING REQUIREMENTS:

A. Minimum staffing requirements:

(1) The CTC shall have an on-site administrator, which can be the same person as the clinical director.

(2) The CTC shall have a full time clinical director appropriately licensed to provide clinical oversight.

(3) The CTC shall have an RN present on-site 24 hours a day, seven days a week or as long as clients are present in programs that do not offer residential services, to provide direct nursing services. This requirement does not apply to CTCs offering 23 hours or less non-residential services; instead these CTCs may have onsite medical professionals who have access to immediate support and supervision by an RN or a higher-level provider in accordance with Section 24-25-1 et al. NMSA 1978 New Mexico Telehealth Act.

(4) An on- call physician or advanced practice registered nurse shall be available 24 hours a day by phone, and available on-site as needed or through telehealth.

(5) Consultation by a psychiatrist or prescribing psychologist may be provided through telehealth.

(6) The CTC shall maintain sufficient staff including direct care and mental health professionals to provide for supervision and the care of residential and non-residential clients served by the CTC, based on the acuity of client needs.

(7) At least one staff trained in basic cardiac life support (BCLS) and first aid shall be on duty at all times. In addition, one staff trained in the use of the automated external defibrillator (AED) equipment shall also be on duty.

B. Other staff requirements:

(1) The CTC shall ensure that the type and number of professional staff are:

(a) licensed, certified or credentialed in the professional field as required, and practice within the scope of the license;

(b) present in numbers to provide services, supports, care, treatment and supervision to clients as required; and

(c) experienced and competent in the profession they are licensed or practice.

(2) The CTC shall comply with all applicable laws, rules and regulations governing caregivers' criminal history screen requirements and employee abuse registry requirements.

(3) The CTC shall ensure that, within the first 60 days of providing direct care to individuals, all staff, volunteers and contractors having direct contact with clients shall receive required training.

(4) The CTC shall be staffed to ensure the safety of clients when staff are accused of abuse, neglect or exploitation.

(5) In instances of involuntary admission as allowed under amendments to Section 43-1-1 NMSA, Mental Health and Developmental Disabilities Code, adequate staffing must be provided to ensure patient and staff safety, and the CTC must meet medical records requirements for licensure of psychiatric hospitals as set forth, in 8.370.12 NMAC.

[8.321.11.29 NMAC - N, 7/1/2024]

8.321.11.30 MINIMUM STAFF QUALIFICATIONS:

A. Administrator:

(1) Must be at least 21 years of age.

(2) The administrator shall possess experience in acute mental health and hold at least a bachelor's degree in the human services field or be a registered nurse with experience or training in acute mental health treatment.

B. Clinical director:

(1) Be at least 21 years of age.

(2) Be a licensed independent mental health professional or certified nurse practitioner or certified nurse specialist with experience and training in acute mental health treatment and withdrawal management services, if withdrawal management services are provided.

C. Registered nurse:

(1) Must be at least 18 years of age.

(2) Must have a current NM Registered Nurse license.

(3) Must possess experience and training in acute mental health treatment, and withdrawal management services if withdrawal management services are provided.

D. Direct service staff must be at least 18 years of age.

[8.321.11.30 NMAC - N, 7/1/2024]

8.321.11.31 PERSONNEL RECORDS:

A. The CTC shall have policies and procedures for managing personnel information and records.

B. Staff scheduling records shall be maintained for at least three years.

C. Employee records shall be kept at the CTC and include:

(1) employment application;

(2) training records;

(3) licenses and certifications;

(4) caregiver criminal history screening documentation pursuant to Section 8.370.5 NMAC; and

(5) employee abuse registry documentation pursuant to Section 8.370.8. NMAC.

[8.321.11.31 NMAC - N, 7/1/2024]

8.321.11.32 STAFF TRAINING:

A. Training for each new employee and volunteer who provides direct care shall include a minimum of 16 hours of training and be completed prior to providing unsupervised care to clients.

B. At least 12 hours of on-going training shall be provided to staff that provides direct care at least annually; the training and proof of competency shall include at a minimum:

(1) behavioral health interventions;

(2) crisis interventions;

(3) substance use disorders and co-occurring disorders;

(4) withdrawal management protocols and procedures, if withdrawal management is provided;

(5) clinical and psychosocial needs of the population served;

(6) psychotropic medications and possible side effects;

(7) ethnic and cultural considerations of the geographic area served;

(8) community resources and services including pertinent referral criteria;

(9) treatment and discharge planning with an emphasis on crisis stabilization;

(10) fire safety and evacuation training;

(11) safe food handling practices (for persons involved in food preparation), to include:

(a) instructions in proper storage;

(b) preparation and serving of food;

(c) safety in food handling;

(d) appropriate personal hygiene; and

(e) infectious and communicable disease control.

(12) confidentiality of records and client information;

(13) infection control;

(14) client rights;

(15) reporting requirements for abuse, neglect or exploitation in accordance with Section 8.370.9 NMAC;

(16) smoking policy for staff, clients and visitors;

(17) methods to provide quality client care;

(18) emergency procedures; and

(19) adverse medication reactions;

(20) the proper way to implement a crisis intervention plans.

C. Documentation of orientation and subsequent trainings shall be kept in the personnel records at the facility.

[8.321.11.32 NMAC - N, 7/1/2024]

8.321.11.33 MINIMUM SAFETY REQUIREMENTS:

A. The CTC shall have policies and procedures regarding authorized entry to or exit from the CTC including the residential component.

B. Control of potentially injurious items shall be clearly defined in policy to include:

(1) prohibition of flammables, toxins, ropes, wire clothes hangers, sharp pointed scissors, luggage straps, belts, knives, shoestrings, or other potentially injurious items;

(2) management of housekeeping supplies and chemicals, including procedures to avoid access by individuals during use or storage. Whenever practical, supplies and chemicals shall be non-toxic or non- caustic;

(3) safeguarding use and disposal of nursing and medical supplies including drugs, needles and other"sharps" and breakable items;

(4) the use of durable materials for furniture not capable of breakage into pieces that could be used as weapons or present a hanging risk.

C. To the fullest extent permitted by law, weapons shall be prohibited at the CTC.

D. All law enforcement officers or other individuals authorized by law to carry firearms shall be asked to leave their firearms locked in their vehicles or placed in a secure lockbox in an area in the CTC which is not accessible to clients.

E. The CTC shall develop and implement policies and procedures that describe interventions that prevent crises, minimize incidents when they occur, and are organized in a least to most restrictive sequence. The written policies and procedures shall:

(1) emphasize positive approaches to interventions;

(2) protect the health and safety of the individual served at all times; and

(3) specify the methods for documenting the use of the interventions.

[8.321.11.33 NMAC - N, 7/1/2024]

8.321.11.34 NUTRITION:

The CTC shall provide planned and nutritionally balanced meals to its residential clients and any client treated at the CTC for eight hours or longer from the basic food groups in accordance with the "recommended daily dietary allowance" of the American dietetic association, the food and nutrition board of the national research council, or the national academy of sciences. Meals shall meet the nutritional needs of the residents in accordance with the current USDA dietary guidelines for Americans, vending machines shall not be considered a source of snacks. Dietary services: The CTC will develop and implement written policies and procedures that are maintained on the premises. All CTC food service operations for residents shall comply with current federal and state laws and rules concerning food service and shall include:

A. at least three nutritious meals per day shall be served;

B. no more than 14 hours may elapse between the end of an evening meal and the beginning of a morning meal;

C. therapeutic diets shall be provided when ordered by the physician;

D. under no circumstances may food be withheld for disciplinary reasons;

E. each CTC shall have seating capacity to reflect the licensed capacity, although clients may eat or be served in shifts during daily operations;

F. nutritional snacks shall be available to each client; and

G. weekly menus shall be posted in the dining area.

[8.321.11.34 NMAC - N, 7/1/2024]

8.321.11.35 PHARMACEUTICAL SERVICES:

A. Pharmacological services shall be provided only on order by a prescribing professional and in accordance with the terms and conditions of such professional's license. These services may be administered or monitored, if self- administered, by nursing staff.

B. The CTC shall establish and implement policies, procedures and practices that guide the safe and effective use of medications and shall, at a minimum, address the following:

(1) Medications shall be administered upon direct order from a licensed prescriber, and the orders for medications and care shall be written and signed by the licensed prescriber;

(2) Medications shall be used solely for the purposes of providing effective treatment.

C. There shall be no standing orders for psychotropic medication.

(1) Every order given by telephone shall be received by an RN or LPN and shall be recorded immediately and read back to the ordering physician. The order shall include the ordering physician's name and shall be signed by a physician within 24 hours. Such telephone orders shall include a note on the order that an order was made by telephone, and the content of, justification for, and the time and date of the order.

(2) Medication management policies and procedures shall follow federal and state laws, rules and regulations, and shall direct the management of medication ordering, procurement, prescribing, transcribing, dispensing, administration, documentation, wasting or disposal and security, to include the management of controlled substances, floor stock, and physician sample medications.

(3) The CTC shall develop a policy on informed consent on medication, including the right to refuse medication and the CTC's plan for transfer of patients who lack capacity to consent to medications.

(4) The CTC shall develop and implement policies and procedures that describe actions to follow when adverse drug reactions and other emergencies related to the use of medications occur, and emergency medical care that may be initiated by a registered nurse in order to mitigate a life-threatening situation.

D. Medication distribution stations shall be in accordance with standards set forth by the New Mexico board of pharmacy.

E. Drugs and biologicals must be stored, prepared and administered in accordance to acceptable standards of practice and in compliance with the New Mexico state board of pharmacy.

F. Outdated drugs and biologicals must be disposed of in accordance with methods outlined by the New Mexico state board of pharmacy.

G. One individual shall be designated responsible for pharmaceutical services to include accountability and safeguarding.

H. Keys to the drug room or pharmacy must be made available only to personnel authorized by the individual having responsibility for pharmaceutical services.

I. Adverse reactions to medications must be reported to the physician responsible for the patient and must be documented in the patient's record.

[8.321.11.35 NMAC - N, 7/1/2024]

8.321.11.36 LABORATORY SERVICES:

A. Laboratory work and other diagnostic procedures deemed necessary shall be performed as ordered by the physician.

B. The CTC shall comply with clinical laboratory improvement amendments of 1988 (CLIA) requirements.

C. All lab test results performed either at the CTC or by contract or arrangement with another entity must be entered into the patient's record.

[8.321.11.36 NMAC - N, 7/1/2024]

8.321.11.37 INFECTION CONTROL:

A. The CTC shall develop and implement policies and procedures for infection control and prevention. Policies shall include: educational course requirements; decontamination; disinfection and storage of sterile supplies; cleaning; and laundry requirements, and address the following:

(1) universal precautions when handling blood, body substances, excretions, secretions;

(2) proper disposal of biohazards;

(3) proper hand washing techniques;

(4) prevention and treatment of needle stick or sharp injuries; and

(5) the management of common illness likely to be emergent in the CTC service setting and specific procedures to manage infectious diseases.

B. The CTC's infection control risk assessment and plan is reviewed annually for effectiveness and revision, if necessary.

C. Staff shall be trained in and shall adhere to infection control practices, the release of confidential information and reporting requirements related to infectious diseases.

D. Where cleaning and decontamination of equipment and supplies are performed in the same room where clean or sterile supplies and equipment are stored, there shall be a physical separation of the clean or sterile supplies and equipment.

E. All special waste including blood, body fluids, sharps and biological indicators shall be disposed of in accordance with OSHA and the New Mexico environment department standards for biohazardous waste.

F. Each CTC shall have policies and procedures for the handling, processing, storing and transporting of clean and dirty laundry.

[8.321.11.37 NMAC - N, 7/1/2024]

8.321.11.38 RESEARCH:

A. If a CTC is conducting research activities, the CTC must have written policies and procedures for conducting research, documentation that the study has received institutional review board (IRB) approval, and a consent form for each client involved in the research in the client's record.

B. When research is conducted by the CTC or by the employees or by affiliates of the CTC or when the CTC is used as a research site, such that the CTC's clients and staff are involved in or the subjects of research; the research must be conducted:

(1) by qualified researchers, having evidence in formal training and experience in the conduct of clinical, epidemiologic or sociologic research;

(2) in accordance with the written, approved research policies and procedures;

(3) by staff trained to conduct such research; and

(4) in a manner that protects the client's health, safety and right to privacy and the CTC and its clients from unsafe practices.

[8.321.11.38 NMAC - N, 7/1/2024]

8.321.11.39 CLIENT TRANSFERS:

A. The CTC shall have policies and procedures to stabilize and transfer clients in need of a higher level of care.

B. The CTC shall:

(1) discuss recommendations for transfer with the client or client's legal guardian or agent and upon transfer, notify the client's legal guardian or agent;

(2) make the determination as to the time and manner of transfer to ensure no further deterioration of the client during the transfer between facilities;

(3) specify the benefits expected from the transfer in the client's record;

(4) coordinate care with receiving facility prior to transfer; and

(5) send a copy of the client's record with the client upon transfer.

[8.321.11.39 NMAC - N, 7/1/2024]

8.321.11.40 BUSINESS HOURS:

The CTC shall post hours of operation and admissions on signage exterior to the building.

[8.321.11.40 NMAC - N, 7/1/2024]

8.321.11.41 PHYSICAL ENVIRONMENT AND GENERAL BUILDING REQUIREMENTS:

A. When construction of new buildings, additions, or alterations to existing buildings are contemplated, plans and specifications covering all portions of the work must be submitted to the licensing authority for plan review and approval prior to beginning actual construction. When an addition or alteration is contemplated, plans for the entire CTC must be submitted.

B. CTCs licensed pursuant to these regulations must be accessible to and useable by disabled employees, staff, visitors, and clients and in compliance with the American's with Disabilities Act (ADA), current edition.

C. All buildings of the premises providing client care and services will be considered part of the CTC and must meet all requirements of these regulations. Where a part of the CTC services is contained in another facility, separation and access shall be maintained as described in current building and fire codes.

D. A CTC applying for licensure pursuant to these regulations may have additional requirements not contained herein. The complexity of building and fire codes and requirements of city, county, or municipal governments may stipulate these additional requirements. Any additional requirements will be outlined by the appropriate building and fire authorities, and by the licensing authority through plan review, consultation and on-site surveys during the licensing process.

[8.321.11.41 NMAC - N, 7/1/2024]

8.321.11.42 COMMON ELEMENTS FOR FACILITIES:

A. Public services shall include:

(1) conveniently accessible wheelchair storage;

(2) an ADA compliant reception and information counter or desk;

(3) waiting areas;

(4) conveniently accessible public toilets; and

(5) drinking fountain (s) or water dispensers easily accessible to clients or other visitors.

B. Interview space(s) for private interviews related to mental health, medical information, etc., shall be provided.

C. General or individual office(s) for business transactions, records, administrative, and professional staff shall be provided. These areas shall be separated from public areas for confidentiality.

D. Special storage for staff personal effects with locking drawers or cabinets shall be provided.

E. General storage facilities for supplies and equipment shall be provided.

[8.321.11.42 NMAC - N, 7/1/2024]

8.321.11.43 PROVISIONS FOR EMERGENCY CALLS:

A. An easily accessible hard-wired telephone for summoning help, in case of emergency, must be available in the CTC.

B. A list of emergency numbers including, but not limited to, fire department, police department, ambulance services, local hospital, poison control center, and the

authority's division of health improvement's complaint hotline must be prominently posted by the telephone(s).

[8.321.11.43 NMAC - N, 7/1/2024]

8.321.11.44 PARKING:

Sufficient space for off-street parking for staff, clients and visitors shall be provided. A designated parking space(s) for one emergency, and one police vehicle shall be provided. Parking should be compliant with local zoning requirements and the 2009 New Mexico commercial building code, or current version.

[8.321.11.44 NMAC - N, 7/1/2024]

8.321.11.45 MAINTENANCE OF BUILDING AND GROUNDS:

Facilities must maintain the building(s) in good repair at all times. Such maintenance shall include, but is not limited to, the following:

A. all electrical, mechanical, water supply, heating, fire protection, and sewage disposal systems must be maintained in a safe and functioning condition, including regular inspections of these systems;

B. all equipment and materials used for client care shall be maintained clean and in good repair;

C. all furniture and furnishings must be kept clean and in good repair; and

D. the grounds of the CTC must be maintained in a safe and sanitary condition at all times.

[8.321.11.45 NMAC - N, 7/1/2024]

8.321.11.46 HOUSEKEEPING:

A. The CTC must be kept free from offensive odors and accumulations of dirt, rubbish, dust, and safety hazards.

B. Treatment rooms, waiting areas and other areas of daily usage must be cleaned as needed to maintain a clean and safe environment for the clients.

C. Floors and walls must be constructed of a finish that can be easily cleaned. Floor polishes shall provide a slip resistant finish.

D. Deodorizers must not be used to mask odors caused by unsanitary conditions or poor housekeeping practices.

E. Storage areas must be kept free from accumulation of refuse, discarded equipment, furniture, paper, et cetera.

[8.321.11.46 NMAC - N, 7/1/2024]

8.321.11.47 CUSTODIAL CLOSET(S):

A. Each CTC shall have at least one custodial closet which must be locked and restricted from client access.

B. Each custodial closet shall contain:

(1) a service sink; and

(2) storage for housekeeping supplies and equipment.

C. Each custodial closet must be mechanically vented to the exterior.

D. Custodial closets are hazardous areas and must be provided with one hour fire separation and one and three-quarter inches solid core doors which are rated at a 20-minute fire protection rating.

[8.321.11.47 NMAC - N, 7/1/2024]

8.321.11.48 HAZARDOUS AREAS:

A. Hazardous areas include the following:

(1) fuel fired equipment rooms;

(2) bulk laundries or laundry rooms with more than 100 sq. ft.;

(3) storage rooms with more than 50 sq. ft. but less than 100 sq. ft. not storing combustibles;

(4) storage rooms with more than 100 sq. ft. storing combustibles;

(5) chemical storage rooms with more than 50 sq. ft.; and

(6) garages, maintenance shops, or maintenance rooms.

B. Hazardous areas on the same floor or abutting a primary means of escape or a sleeping room shall be protected by either:

(1) an enclosure of at least one-hour fire rating with self-closing or automatic closing on smoke detection fire doors having a three-quarter hour rating; or

(2) an automatic fire protection (sprinkler) and separation of hazardous area with self-closing doors or doors with automatic-closing on smoke detection; or

(3) any other hazardous areas shall be enclosed with walls with at least a 20-minute fire rating and doors equivalent to one and three-quarter inches solid bonded wood core, operated by self-closures or automatic closing on smoke detection.

C. All boiler, furnace or fuel fired water heater rooms shall be protected from other parts of the building by construction having a fire resistance rating of not less than one hour. Doors to these rooms shall be one and three-quarter inches solid core.

[8.321.11.48 NMAC - N, 7/1/2024]

8.321.11.49 FLOORS AND WALLS:

A. Floor and wall areas penetrated by pipes, ducts, and conduits shall be tightly sealed to minimize entry of rodents and insects. Joints of structural elements shall be similarly sealed.

B. Threshold and expansion joint covers shall be flush with the floor surface to facilitate use of wheelchairs and carts.

[8.321.11.49 NMAC - N, 7/1/2024]

8.321.11.50 EXITS:

A. Each floor of a CTC shall have exits as required by the New Mexico commercial building code and applicable version of the National fire protection association 11.

B. Each exit must be marked by illuminated exit signs having letters at least six inches high whose principle strokes are at least three quarters of an inch wide.

C. Illuminated exit signs must be maintained in operable condition at all times.

D. Exit ways must be kept free from obstructions at all times.

[8.321.11.50 NMAC - N, 7/1/2024]

8.321.11.51 CORRIDORS:

A. Minimum corridor width shall be five feet except work corridors less than six feet in length may be four feet in width.

B. For facilities contained within existing commercial or residential buildings, less stringent corridor widths may be allowed if not in conflict with building or fire codes. A

waiver or variance may be requested but must be approved by the licensing authority prior to occupying the licensed part of the building.

[8.321.11.51 NMAC - N, 7/1/2024]

8.321.11.52 STAFF STATION:

A. Each client care area in the residential unit shall have a staff station located to provide visual or virtual monitoring of all resident room corridors and access to secured access to outdoor area, equipped with access to residential clients' records, a desk or work counter, a cleaning area with a sink with hot and cold running water, operational telephone, and emergency call system.

B. Locked storage area for drugs or pharmacy grade, locked medication cart.

C. Access to a biohazard disposal unit for needles, and other"sharps," and breakable items.

D. A reliable monitored emergency call system shall be provided for staff use in the event of an emergency.

E. If a kitchen is not open at all times to residents, a nourishment station with sink, hot and cold running water, refrigerator, and storage for serving residents between meal nourishment shall be provided.

F. View of fire alarm control panel, generator panel (if any), and any other life safety code components.

[8.321.11.52 NMAC - N, 7/1/2024]

8.321.11.53 SECURED ENVIRONMENT/OUTDOOR AREA:

A. The CTC shall provide a secure environment for client safety. A secured environment is a CTC and grounds that have secured or monitored exits. A secured environment for facilities that offer residential services may include but is not limited to: double alarm systems; gates connected to the fire alarm; or tab alarms for residents at risk for elopement. Locked areas shall have an access code or key which CTC employees shall have on their person or available at all times in accordance with the Life Safety Code, NPFA 11, 212 or subsequent updates. For a CTC located within an existing licensed facility, a request for waiver may be submitted to the licensing authority containing an alternate plan for providing security for clients, provided that health, safety or welfare of the clients or staff would not be adversely affected.

B. In addition to the interior common areas required by this rule, a CTC providing residential services shall provide an outdoor secured environment independently accessible to residents for their year- round use.

(1) Fencing or other enclosures, not less than six feet high, shall protect the safety, security and privacy of the residents and have emergency egress gates that are connected to the emergency call system.

(2) Outdoor area shall not provide access to contact with the public.

[8.321.11.53 NMAC - N, 7/1/2024]

8.321.11.54 ASSESSMENT ROOMS:

A. general purpose assessment rooms shall meet the following requirements:

B. minimum floor area of 80 square feet, excluding vestibules, toilets, and closets;

C. room arrangement shall permit at least two feet - eight inch clearance around furniture items used for exam or assessment;

D. a lavatory or sink for hand washing.

[8.321.11.54 NMAC - N, 7/1/2024]

8.321.11.55 THERAPY/TREATMENT ROOMS:

A. Shall have a minimum floor area of 120 square feet, excluding vestibule, toilet, and closets.

B. All walls shall be constructed to a minimum length of 10 feet.

[8.321.11.55 NMAC - N, 7/1/2024]

8.321.11.56 ACTIVITY OR MULTIPURPOSE ROOM:

The CTC shall provide a minimum of 250 square feet for common living area, dining and social spaces, or 40 square feet per resident, whichever is greater.

A. The CTC shall have a living or multipurpose room for the use of the residents. The furnishings shall be well constructed, comfortable and in good repair.

B. The activity or multi-purpose room may be used as a dining area.

C. The activity room or multipurpose rooms shall be provided with supplies to reasonably meet the interests and needs of the residents.

D. Each activity room shall have a window area of at least one tenth of the floor area with a minimum of at least 10 square feet.

E. A dining area shall be provided for meals. Facilities shall have tables and chairs in the dining area to accommodate the total number of residents in one sitting. All seating arrangements during meals shall allow clear access to the exits. Lunch times for adults and youth must be separate if there is only one lunch room.

[8.321.11.56 NMAC - N, 7/1/2024]

8.321.11.57 MEETING ROOMS:

The CTC shall have adequate meeting rooms and office space for use by staff, the interdisciplinary care team and client and family visits. Other rooms may serve as meeting rooms, provided resident confidentiality is maintained. Meeting and treatment rooms must not hold both adults and youth at the same time.

[8.321.11.57 NMAC - N, 7/1/2024]

8.321.11.58 RESIDENT ROOMS:

The regulations in Section 8.321.11.58 NMAC apply to those facilities providing a residential treatment program.

A. A CTC providing residential treatment shall not exceed the bed capacity approved by the licensing authority.

B. Resident rooms may be private or semi-private or dormitory style depending on assessed, resident acuity and need Resident rooms must be separated by gender.

C. Facilities serving youth and adults must locate youth resident rooms and restrooms in a unit or wing that is physically separated from the adult facilities.

(1) Private rooms shall have a minimum of 100 square feet of floor area. The closet and locker area shall not be counted as part of the available floor space.

(2) Semi- private rooms shall have a minimum of 80 square feet of floor area for each resident and shall be furnished in such a manner that the room is not crowded and passage out of the room is not obstructed.

(3) A separate closet, bed (at least 36 inch wide), chair, towel bar, and non-metal trash receptacle, for each resident shall be provided.

(4) The beds shall be spaced at least three feet apart. Bunk beds, roll away beds, stacked beds, hide-a-beds, or beds with springs, cranks, rails or wheels, are not allowed.

D. Each resident room shall have a window to the outside. The area of the outdoor window shall be at least one tenth of the floor area of the room and allow for emergency

egress. Windows may be textured or obscured glass to provide privacy without the use of any window coverings.

E. Resident rooms shall not be less than seven feet in any horizontal direction.

F. There must be no through traffic in resident rooms. Resident rooms must connect directly to hallway or other internal common areas of the facility.

[8.321.11.58 NMAC - N, 7/1/2024]

8.321.11.59 TOILETS, LAVATORIES AND BATHING FACILITIES:

A. General requirements:

(1) All fixtures and plumbing must be installed in accordance with current state and local plumbing codes.

(2) All toilets must be enclosed and vented.

(3) All toilet rooms must be provided with a lavatory for hand washing.

(4) All toilets must be kept supplied with toilet paper.

(5) All lavatories for hand washing must be kept supplied with disposable towels for hand drying or provided with mechanical blower.

(6) The number of and location of toilets, lavatories and bathing facilities shall be in accordance with International Building Code (IBC) requirements. Toilets for public use shall be located adjacent to the waiting area. Such factors as extent of services provided and size of CTC will also dictate requirements.

(7) Facilities serving youth must provide separate toilet and shower facilities for adults and youth.

B. Residential component: Separate facilities shall be provided for male and female patients. Toilet and bathing facilities shall be located appropriately to meet the needs of residents.

(1) Facilities serving youth and adults must locate youth resident rooms and restrooms in a unit or wing that is physically separated from the adult facilities.

(2) A minimum of one toilet, one lavatory and one bathing unit (tub, shower, or combo unit) shall be provided for every eight residents or fraction thereof.

(3) Toilets to be flush meter type (no tank).

(4) Mirrors cannot be glass or polished metal. A polycarbonate mirror, fully secured and flat mounted to the wall is required.

(5) Individual shower stalls and dressing areas shall be provided. The shower head shall be recessed or have as smooth curve from which items cannot be hung.

(6) There shall not be any overhead rods, fixtures or privacy stall supports or protrusions capable of carrying more than a 30-pound load.

C. Staff restroom: The CTC shall provide a separate staff toilet including, lavatory and shower, near staff station.

[8.321.11.59 NMAC - N, 7/1/2024]

8.321.11.60 COLLECTION/DRAW/LAB AREA:

Facilities shall be reward to support laboratory procedures, if provided. Minimum facilities provided on-site shall include space for the following:

A. A urine collection room equipped with a toilet and hand washing sink.

B. Blood collection facilities with space for a chair, work counter, and lavatory.

C. Each CTC shall have accommodations for storage and refrigeration of blood, urine and other specimens in a dedicated specimen refrigerator.

[8.321.11.60 NMAC - N, 7/1/2024]

8.321.11.61 NUTRITION:

A CTC offering a residential treatment program shall provide planned and nutritionally balanced meals from the basic food groups in accordance with the"recommended daily dietary allowance" of the American dietetic association, the food and nutrition board of the national research council, or the national academy of sciences.

A. Menus must be approved by a licensed nutritionist. Meals shall meet the nutritional needs of the residents in accordance with the current USDA dietary guidelines for Americans. Vending machines shall not be considered a source of snacks.

B. Dietary services. The CTC will develop and implement written policies and procedures that are maintained on the premises. All CTC food service operations for residents shall comply with current federal and state laws and rules concerning food service and shall include:

(1) at least three nutritious meals per day shall be served;

(2) no more than 14 hours may elapse between the end of an evening meal and the beginning of a morning meal;

(3) therapeutic diets shall be provided when ordered by the physician;

(4) under no circumstances may food be withheld for disciplinary reasons;

(5) each CTC shall have seating capacity to accommodate the licensed capacity and be able to feed adult and youth clients separately, although clients may eat or be served in shifts during daily operations;

(6) nutritional snacks shall be available to each client; and

(7) weekly menus shall be posted in the dining area.

[8.321.11.61 NMAC - N, 7/1/2024]

8.321.11.62 FOOD SERVICE:

Requirements of Section 8.321.11.62 NMAC apply to facilities providing a residential treatment program.

A. The CTC shall have either contracted food preparation or prepare food on site.

B. A CTC that contracts food preparation shall have a dietary or a kitchen area adequate to meet food service needs and arranged and equipped for the refrigeration, storage, preparation, and serving of food, dish and utensil cleaning and refuse storage and removal.

C. Dietary areas consisting of a food warming and refrigeration area shall comply with the local health or food handling codes. Food preparation space shall be arranged for the separation of functions and shall be located to permit efficient services to residents and shall not be used for non-dietary functions.

D. A CTC that provides onsite food preparation shall comply with the New Mexico environment department food preparation regulations.

E. A CTC with a kitchen area, whether used for on-site food preparation or not, must adhere to the following requirements:

(1) limit traffic incidental to the receiving, preparation and serving of food and drink;

(2) toilet facilities may not open directly into the kitchen;

(3) food day-storage space shall be provided adjacent to the kitchen and shall be ventilated to the outside;

(4) a separate hand washing sink with soap dispenser, single service towel dispenser, or other approved hand drying facility shall be located in the kitchen;

(5) a separate dishwashing area, preferably a separate room, with mechanical ventilation shall be provided;

(6) at least a three compartment sink shall be provided for washing, rinsing and sanitizing utensils, with adequate drain boards, at each end. In addition, a single-compartment sink located adjacent to the soiled utensil drain board shall be available for prewashing and liquid waste disposal. The size of each sink compartment shall be adequate to permit immersion of at least fifty percent of the largest utensil used. In lieu of the additional sink for prewashing, a well-type garbage disposal with overhead spray wash may be provided.

(7) mechanical dishwashers and utensil washers, where provided, shall meet the requirements of the current approved list from the national sanitation foundation or equivalent with approval of the authority;

(8) temperature gauges shall be located in the wash compartment of all mechanical dishwashers and in the rinse water line at the machine of a spray-type mechanical dishwasher or in the rinse water tank of an immersion-type dishwasher. The temperature gauges shall be readily visible, fast-acting and accurate to plus or minus two degrees fahrenheit or one degree celsius;

(9) approved automatic fire extinguishing equipment shall be provided in hoods and attached ducts above all food cooking equipment;

(10) the walls shall be of plaster or equivalent material with smooth, light-colored, nonabsorbent, and washable surface;

(11) the ceiling shall be of plaster or equivalent material with smooth, light-colored, nonabsorbent, washable, and seamless surface;

(12) the floors of all rooms, except the eating areas of dining rooms, in which food or drink is stored, prepared, or served, or in which utensils are washed, shall be of such construction as to be non- absorbent and easily cleaned;

(13) an exterior door from a food preparation area shall be effectively screened. Screen doors shall be self-closing;

(14) all rooms in which food or drink is stored or prepared or in which utensils are washed shall be well lighted;

(15) rooms subject to sewage or wastewater backflow or to condensation or leakage from overhead water or waste lines shall not be used for storage of food preparation unless provided with acceptable protection from such contamination.

[8.321.11.62 NMAC - N, 7/1/2024]

8.321.11.63 LAUNDRY SERVICES:

A. General requirements. The CTC shall provide laundry services, either on the premises or through a commercial laundry and linen service.

(1) On-site laundry facilities shall be located in areas separate from the resident units and shall be provided with necessary washing and drying equipment.

(2) Soiled laundry shall be kept separate from clean laundry, unless the laundry facility is provided for resident use only.

(3) Staff shall handle, store, process and transport linens with care to prevent the spread of infectious and communicable disease.

(4) Soiled laundry shall not be stored in the kitchen or dining areas. The building design and layout shall ensure the separation of laundry room from kitchen and dining areas. An exterior route to the laundry room is not an acceptable alternative, unless it is completely enclosed.

(5) All linens shall be changed as needed and at least weekly or when a new resident is to occupy the bed.

(6) The mattress pad, blankets and bedspread shall be laundered as needed and when a new resident is to occupy the bed.

(7) Bath linens consisting of hand towel, bath towel and washcloth shall be changed as needed and at least weekly.

(8) There shall be a clean, dry, well-ventilated storage area provided for clean linen.

(9) CTC laundry supplies and cleaning supplies shall not be kept in the same storage areas used for the storage of foods and clean storage and shall be kept in a secured room or cabinet.

(10) CTC shall have a small washer and dryer for immediate unit needs and to wash clients' clothes. These washing and drying units shall be equipped to sanitize clothes as a preventive measure of infection control.

(11) Residents may do their own laundry, if it is their preference and they are capable of doing so.

[8.321.11.63 NMAC - N, 7/1/2024]

8.321.11.64 WATER:

A. A CTC licensed pursuant to these regulations must be provided with an adequate supply of water that is of a safe and sanitary quality suitable for domestic use.

B. If the water supply is not obtained from an approved public system, the private water system must be inspected, tested, and approved by the New Mexico environment department prior to licensure. It is the CTC's responsibility to ensure that subsequent periodic testing or inspection of such private water systems be made at intervals prescribed by the New Mexico environment department or recognized authority.

C. Hot and cold running water under pressure must be distributed at sufficient pressure to operate all fixtures and equipment during maximum demand periods.

D. Back flow preventers (vacuum breakers) must be installed on hose bibs, laboratory sinks, service sinks, and on all other water fixtures to which hoses or tubing can be attached.

E. Water distribution systems are arranged to provide hot water at each hot water outlet at all times.

F. Hot water to hand washing facilities must not exceed 120 degrees fahrenheit.

[8.321.11.64 NMAC - N, 7/1/2024]

8.321.11.65 SEWAGE AND WASTE DISPOSAL:

A. All sewage and liquid wastes must be disposed of into a municipal sewage system where such facilities are available.

B. Where a municipal sewage system is not available, the system used must be inspected and approved by the New Mexico environment department or recognized local authority.

C. Where municipal or community garbage collection and disposal service are not available, the method of collection and disposal of solid wastes generated by the CTC must be inspected and approved by the New Mexico environment department or recognized local authority.

D. All garbage and refuse receptacles must be durable, have tight fitting lids, must be insect and rodent proof, washable, leak proof and constructed of materials which will not absorb liquids. Receptacles must be kept closed and clean.

[8.321.11.65 NMAC - N, 7/1/2024]

8.321.11.66 ELECTRICAL STANDARDS:

A. All electrical installation and equipment must comply with all current state and local codes.

B. Circuit breakers or fused switches that provide electrical disconnection and over current protection shall be:

(1) enclosed or guarded to provide a dead front assembly;

(2) readily accessible for use and maintenance;

(3) set apart from traffic lanes;

(4) located in a dry, ventilated space, free of corrosive fumes or gases;

(5) able to operate properly in all temperature conditions;

(6) panel boards servicing lighting and appliance circuits shall be on the same floor and in the same facility area as the circuits they serve; and

(7) each panel board will be marked showing the services.

C. The use of jumpers or devices to bypass circuit breakers or fused switches is prohibited.

D. Light switches and electrical devices in the residential unit shall be secured with tamper resistant screws.

[8.321.11.66 NMAC - N, 7/1/2024]

8.321.11.67 LIGHTING:

A. All spaces occupied by people, machinery, or equipment within buildings, approaches to buildings, and parking lots shall have lighting.

B. Lighting will be sufficient to make all parts of the area clearly visible.

C. All lighting fixtures must be shielded.

D. Lighting fixtures must be selected and located with the comfort and convenience of the staff and clients in mind.

E. Lighting fixtures in the residential unit shall be recessed, tamperproof or protective translucent cover.

[8.321.11.67 NMAC - N, 7/1/2024]

8.321.11.68 ELECTRICAL CORDS AND RECEPTACLES:

A. Electrical cords and extension cords shall:

(1) be U/L approved;

(2) be replaced as soon as they show wear;

(3) be plugged into an electrical receptacle within the room where used;

(4) not be used as a general wiring method; and

(5) not be used in series.

B. Electrical receptacles shall:

(1) Be duplex- grounded type electrical receptacles (convenience outlets) and installed in all areas in sufficient quantities for tasks to be performed as needed.

(2) Be a ground fault circuit interrupter if located within six feet of a water source.

C. The use of multiple sockets (gang plugs) in electrical receptacles is strictly prohibited.

[8.321.11.68 NMAC - N, 7/1/2024]

8.321.11.69 EMERGENCY POWER & LIGHTING:

Emergency electrical service with an independent power source which covers lighting at attendant stations, exit and corridor lights, boiler room, and fire alarm systems shall be provided.

A. The service may be battery operated if effective for at least four hours.

B. Facilities shall have emergency lighting with a minimum of two bulbs to light exit passageways.

C. Independent power source shall be in an exterior area near the exits and activate automatically upon disruption of electrical service.

[8.321.11.69 NMAC - N, 7/1/2024]

8.321.11.70 FIRE SAFETY COMPLIANCE:

All current applicable requirements of state and local codes for fire prevention and safety must be met by the CTC.

[8.321.11.70 NMAC - N, 7/1/2024]

8.321.11.71 FIRE CLEARANCE AND INSPECTIONS:

Each CTC must request from the fire authority having jurisdiction an annual fire inspection. If the policy of the fire authority having jurisdiction does not provide for annual inspection of the CTC, the CTC must document the date the request was made and to whom. If the fire authorities do make annual inspections; a copy of the latest inspection must be kept on file in the CTC.

[8.321.11.71 NMAC - N, 7/1/2024]

8.321.11.72 AUTOMATIC FIRE PROTECTION (SPRINKLER) SYSTEM:

Facilities with residential services shall have an automatic fire protection (sprinkler) system. The system shall be in accordance with NFPA 13 or NFPA 13D or its subsequent replacement as applicable. Sprinkler heads in the residential unit shall be of the protective type, either vandal proof or tamper resistant. Sprinkler systems for facilities without residential services must be incompliance with current state building code requirements regarding a sprinkler system.

[8.321.11.72 NMAC - N, 7/1/2024]

8.321.11.73 FIRE ALARMS, SMOKE DETECTORS AND OTHER EQUIPMENT:

The system shall be in accordance with NFPA 13 or NFPA 13D or its subsequent replacement as applicable.

A. Facilities shall have a manual fire alarm system. The manual fire alarm shall be inspected and approved in writing by the fire authority with jurisdiction.

B. Approved smoke detectors shall be installed on each floor that when activated provides an alarm which is audible in all sleeping areas. Areas of assembly, such as the dining, living or activity room(s) must also be provided with smoke detectors.

(1) Detectors shall be powered by the house electrical service and have battery backup.

(2) Construction of new facilities or facilities remodeling or replacing existing smoke detectors shall provide detectors in common living areas and in each sleeping room.

(3) Smoke detectors shall be installed in corridors at no more than 30 feet spacing.

(4) Heat detectors shall be installed in all kitchens and also powered by the house electrical service.

[8.321.11.73 NMAC - N, 7/1/2024]

8.321.11.74 FIRE EXTINGUISHERS:

Fire extinguisher(s) must be located in the CTC, as approved by the state fire marshal or the fire prevention authority with jurisdiction.

A. Facilities must as a minimum have two 2A10BC fire extinguishers:

(1) one extinguisher located in the kitchen or food preparation area;

(2) one extinguisher centrally located in the CTC;

(3) all fire extinguishers shall be inspected yearly, recharged as needed and tagged noting the date of the inspection;

(4) The maximum distance between fire extinguishers shall be 50 feet.

B. Fire extinguishers, alarm systems, automatic detection equipment and other firefighting equipment shall be properly maintained and inspected as recommended by the manufacturer, state fire marshal, or the local fire authority.

[8.321.11.74 NMAC - N, 7/1/2024]

8.321.11.75 STAFF FIRE AND SAFETY TRAINING:

A. All staff of the CTC must know the location of and instructed in proper use of fire extinguishers and other procedures to be observed in case of fire or other emergencies. The CTC should request the fire authority having jurisdiction to give periodic instruction in fire prevention and techniques of evacuation.

B. CTC staff must be instructed as part of their duties to constantly strive to detect and eliminate potential safety hazards, such as loose handrails, frayed electrical cords, faulty equipment, blocked exits or exit ways, and any other condition which could cause burns, falls, or other personal injury to the patients or staff.

C. Fire and evacuation drills: The CTC must conduct at least one fire and evacuation drill for each work shift for each quarter. When drills are conducted between 9:00 pm and 6:00 am, a coded announcement shall be permitted for use instead of audible alarms. A log must be maintained by the CTC showing the date, time, number of staff participating and outlining any problems noted in the conduct of the drill.

[8.321.11.75 NMAC - N, 7/1/2024]

8.321.11.76 EVACUATION PLAN:

Each CTC must have a fire evacuation plan conspicuously posted in each separate area of the building showing routes of evacuation in case of fire or other emergencies.

[8.321.11.76 NMAC - N, 7/1/2024]

8.321.11.77 HEATING, VENTILATION, AND AIR- CONDITIONING:

A. Heating, air- conditioning, piping, boilers, and ventilation equipment must be furnished, installed and maintained to meet all requirements of current state and local mechanical, electrical, and construction codes.

B. The heating, ventilation and air-conditioning system must be able to maintain interior temperatures in all rooms used by clients, staff or visitors with interior temperatures between 65 degrees fahrenheit and 78 degrees fahrenheit year-round.

C. The use of non- vented heaters, open flame heaters or portable heaters is prohibited.

D. An ample supply of outside air must be provided in all spaces where fuel fired boilers, furnaces, or heaters are located to assure proper combustion.

E. All fuel fired boilers, furnaces, or heaters must be connected to an approved venting system to take the products of combustion directly to the outside air.

F. A CTC must be adequately ventilated at all times to provide fresh air and the control of unpleasant odors.

G. All gas-fired heating equipment must be provided with a one hundred percent automatic cutoff control valve in event of pilot failure.

H. The CTC must be provided with a system for maintaining clients and staff's comfort during periods of hot weather, evaporative cooling is not allowed.

I. All boiler, furnace or heater rooms shall be protected from other parts of the building by construction having a fire resistance rating of not less than one hour. The door must be self-closing with three - quarter hour fire resistance.

J. Fireplace or wood burning stoves are prohibited.

K. The ceiling and air distribution devices (supply & return, etc.) in the residential component shall be a tamper resistant type.

[8.321.11.77 NMAC - N, 7/1/2024]

8.321.11.78 WATER HEATERS:

A. Must be able to supply hot water to all hot water taps within the CTC at full pressure during peak demand periods and maintain a maximum temperature of 120 degrees fahrenheit.

B. Fuel fired hot water heaters must be enclosed and separated from other parts of the building by construction as required by current state and local building codes.

C. All water heaters must be equipped with a pressure relief valve (pop-off valve).

[8.321.11.78 NMAC - N, 7/1/2024]

8.321.11.79 ADDITIONAL REQUIREMENTS FOR FACILITIES SERVING YOUTH:

All requirements in the above rules apply to all facilities. For facilities serving youth, the additional requirements of this section must also be met.

A. Physical environment for general building requirements: Facilities serving adults and youth must locate youth resident rooms and restrooms in a unit or wing that is separated by sight and sound barriers from the adult facilities.

B. Enforcement involving suspension of license without prior hearing: Any CTC that allows any person, subject to all applicable statutes and regulations, to work at the CTC if that person is listed on the CYFD unreasonable risk background check and related regulations, as amended, may be subject to immediate suspension of its license without prior hearing.

C. Reporting of incidents: All facilities licensed under these regulations, must comply with all incident intake, processing, training and reporting requirements under all applicable NM Children's Code, Section 32A-1-1 NMSA 1978, Children's Mental Health and Developmental Disabilities Act, Section 32A-6A-1 NMSA 1978, Section 7.20.11 and Section 7.20.12 NMAC.

D. Policies and procedures: The CTC shall establish written policies and procedures that are reviewed annually and approved by the governing body, which govern the CTC's operation. The administrator shall ensure that these policies and procedures are adopted, administered and enforced to provide quality services in a safe

environment. At a minimum, the CTC's written policies and procedures shall include how the CTC intends to comply with all requirements of these regulations and address:

(1) immediate reporting of suspected child abuse, neglect or exploitation, pursuant to the NM Children's Code and these licensing regulations;

(2) actions to be taken in case of accidents or emergencies involving a youth, including death;

(3) immediate personnel actions to be taken by the CTC if child abuse or neglect allegations are made involving a direct service staff;

(4) confidentiality of youth' records;

(5) management of a youth who is a danger to themselves or others or presents a likelihood of serious harm to themselves or others. The CTC procedures must specify that immediate actions be taken to prevent such harm. At a minimum, the policies and procedures require that the following actions be taken and documented in the youth's file:

(a) all appropriate actions to protect the health and safety of other youth, clients and staff who are endangered;

(b) all appropriate efforts to manage the youth's behavior prior to proposing emergency discharge;

(6) Clinically appropriate and legally permissible methods of youth behavior management and discipline.

(7) The CTC shall prohibit in policy and practice the following:

(a) degrading punishment;

(b) corporal or other physical punishment;

(c) group punishment for one client's behavior;

(d) deprivation of a client's rights and needs (e.g., food, phone contacts, etc.) when not based on documented clinical rationale;

(e) aversive stimuli used in behavior modification;

(f) punitive work assignments;

(g) isolation or seclusion;

(h) harassment; and

(i) chemical or mechanical restraints.

(8) For those CTCs that serve mixed age occupants, the CTC shall establish policies and procedures to ensure the health and safety of all residents.

[8.321.11.79 NMAC - N, 7/1/2024]

8.321.11.80 RISK ASSESSMENT:

Use of physical restraint must be consistent with federal and state laws and regulations and must include the following:

A. Physical restraints of youth are implemented only by staff who have been trained and certified by a state recognized body in the prevention and use of physical restraint. This training emphasizes de-escalation techniques and alternatives to physical contact with clients as a means of managing behavior. Clients and youth do not participate in the physical restraint of other clients and youth.

B. Youth treatment plans document the use of physical restraints and include: consideration of the client's medical condition(s); the role of the client's history of trauma in their behavioral patterns; the treatment team's solicitation and consideration of specific suggestions from the client regarding prevention of future physical interventions.

C. Physical restraints orders for youth are issued by a restraint clinician within one hour of initiation of physical restraint and include documented clinical justification for the use of physical restraint.

D. If the youth has a treatment team physician or advanced practice registered nurse and they are available, only they can order physical restraint.

E. If physical restraint is ordered by someone other than the youth's treatment team physician or advanced practice registered nurse, the restraint clinician will consult with the youth's treatment team physician or advanced practice registered nurse as soon as possible and inform them of the situation requiring the youth to be restrained and document in the youth's record the date and time the treatment team physician or advanced practice registered nurse was consulted and the information imparted.

F. The restraint clinician must order the least restrictive emergency safety intervention that is most likely to be effective in resolving the situation.

G. If the order for physical restraint is verbal, the verbal order must be received by a restraint clinician or a New Mexico licensed registered nurse (RN) or practical nurse

(LPN). The restraint clinician must verify the verbal order in a signed, written form placed in the youth's record within 24 hours after the order is issued.

H. A restraint clinician's order must be obtained by a restraint clinician or New Mexico licensed RN or LPN prior to or while the physical restraint is being initiated by staff, or immediately after the situation ends.

I. Each order for physical restraint must be documented in the youth's record and will include:

(1) the name of the restraint clinician ordering the physical restraint;

(2) the date and time the order was obtained;

(3) the emergency safety intervention ordered, including the length of time;

(4) the time the emergency safety intervention actually began and ended;

(5) the time and results of any one-hour assessment(s) required; and

(6) the emergency safety situation that required the client to be restrained; and

(7) the name, title, and credentials of staff involved in the emergency safety intervention.

J. The CTC will notify the parent(s) or legal guardian(s) that physical restraint has been ordered as soon as possible after the initiation of each emergency safety intervention. This will be documented in the client's record, including the date and time of notification, the name of the staff person providing the notification, and who was notified.

K. After an incident of restraint, the professionals involved in the incident shall conduct a debriefing with the client to discuss the event with the intent of preventing future incidents. Within five days of an incident of restraint, the treatment team must meet to review the incident and revise plan of treatment if appropriate.

[8.321.11.80 NMAC - N, 7/1/2024]

8.321.11.81 CLIENT RIGHTS:

All licensed facilities shall understand, protect and respect the rights of all youth demonstrating substantial compliance with all applicable New Mexico Children's Code, Section 32A-1-1 NMSA 1978, including the NM Children's Mental Health and Developmental Disabilities Act, Section 32A-6A-1 NMSA 1978.

[8.321.11.81 NMAC - N, 7/1/2024]

8.321.11.82 CLIENT CLINICAL RECORD:

The client clinical records maintained by a crisis triage center in a paper- based or electronic system shall document the degree and intensity of the treatment provided to clients who are furnished services by the CTC. A client's clinical record shall contain at a minimum all required NM Children's Code documentation defined in Subsection A through Subsection O of Section 32A-6A-10 NMSA 1978 associated with the use of any emergency interventions such as physical restraint.

[8.321.11.82 NMAC - N, 7/1/2024]

8.321.11.83 STAFFING REQUIREMENTS:

Other staff requirements:

A. All CYFD background check requirements governing criminal records clearances must remain in effect while a program is accredited.

B. When a prospective employee that will work with or have access to youth has not lived in the United States continuously for the five years prior to hire, the CTC must obtain the equivalent of a criminal records and background clearance from any country in which the prospective employee has lived within the last five years, for a period longer than one year.

C. If the CTC receives reliable evidence that indicates that an employee or prospective employee poses an unreasonable risk, as defined or pursuant to Subsection W of Section 8.8.3.7 NMAC, the CTC may not hire the prospective employee or retain the employee.

[8.321.11.83 NMAC - N, 7/1/2024]

8.321.11.84 PERSONNEL RECORDS:

Each CTC licensed pursuant to these regulations intending to work with youth must maintain a complete record on file for each staff member or volunteer including:

A. Completed CYFD criminal records and background check, including the FBI-approved electronic fingerprint for each employee that serves as direct service staff working with youth including licensed and certified staff. (supervisors, physicians, nurses, therapists, client care workers, coordinators, or other agency personnel who work in immediate direct unsupervised contact with youth.) The agency must have received the background clearance from the CYFD background check unit prior to the employee's direct, unsupervised contact with youth.

B. The date the employee was first employed and dates of transfers or changes in position.

C. Documentation that of a minimum of three references were checked.

D. A clearance letter from CYFD stating the applicant's background check has been conducted with negative results or a signed statement by the administrator, director, or operator attesting to direct supervision of an uncleared employee by a cleared employee until official clearance is received.

E. Documentation that each uncleared employee is identified on the staff schedule.

[8.321.11.84 NMAC - N, 7/1/2024]

8.321.11.85 STAFF TRAINING:

At least 12 hours of on-going training shall be provided to staff that provides direct care at least annually; the training and proof of competency shall include at a minimum: NM Children's Mental Health and Developmental Disabilities Act Section 32A-6A-1 et. seq., NMSA 1978.

[8.321.11.85 NMAC - N, 8.321.11.85 7/1/2024]

8.324.4.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.324.4.1 NMAC - Rp, 8.324.4.1 NMAC, 1/1/2014; A, 7/1/2024]

8.324.4.2 SCOPE:

The rule applies to the general public.

[8.324.4.2 NMAC - Rp, 8.324.4.2 NMAC, 1-1-14]

8.324.4.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See NMSA 1978, Section 27-2-12 et seq. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.324.4.3 NMAC - Rp, 8.324.4.3 NMAC, 1/1/2014; A, 7/1/2024]

8.324.4.4 DURATION:

Permanent.

[8.324.4.4 NMAC - Rp, 8.324.4.4 NMAC, 1-1-14]

8.324.4.5 EFFECTIVE DATE:

January 1, 2014, unless a later date is cited at the end of a section.

[8.324.4.5 NMAC - Rp, 8.324.4.5 NMAC, 1-1-14]

8.324.4.6 OBJECTIVE:

The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs.

[8.324.4.6 NMAC - Rp, 8.324.4.6 NMAC, 1-1-14]

8.324.4.7 DEFINITIONS:

[RESERVED]

8.324.4.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.324.4.8 NMAC - Rp, 8.324.4.8 NMAC, 1-1-14]

8.324.4.9 PHARMACY SERVICES:

The New Mexico medical assistance division (MAD) pays for medically necessary health services furnished to MAP eligible recipients, including covered pharmacy services and practitioner administered drugs [42 CFR Section 440.120(a)]. Pharmacy claims must be submitted to the appropriate pharmacy claims processor as designated by MAD.

[8.324.4.9 NMAC - Rp, 8.324.4.9 NMAC, 1-1-14]

8.324.4.10 ELIGIBLE PROVIDERS:

A. Health care to New Mexico MAP eligible recipients is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by MAD. Upon approval of a New Mexico MAD provider participation agreement by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to MAP eligible recipients. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HSD/MAD website, on other program-specific websites, or in

hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HSD or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD provider participation agreement (PPA), an agreement with a HSD contracted managed care organization (MCO) and all applicable statutes, regulations, rules, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only. Providers must supply necessary information in order for payment to be made. Eligible providers include:

(1) pharmacies licensed by the New Mexico pharmacy board;

(2) clinics licensed for outpatient dispensing by the New Mexico pharmacy board;

(3) institutional pharmacies licensed for outpatient dispensing by the New Mexico pharmacy board;

(4) family planning clinics and rural health clinics licensed for outpatient dispensing by the New Mexico pharmacy board;

(5) prescribing practitioners practicing in communities more than 15 miles from a licensed pharmacy;

(6) Indian health service (IHS), Indian Self-Determination and Education Assistance Act ("tribal 638") and IHS contract pharmacies and drug rooms operated consistent with IHS standards of practice for pharmaceutical care; and

(7) mail order pharmacies licensed to dispense in New Mexico.

B. When services are billed to and paid by a MAD coordinated services contractor, the provider must also enroll as a provider with the coordinated services contractor and follow that contractor's instructions for billing and for authorization of services.

C. Properly licensed practitioners and facilities may also be enrolled for the purpose of being reimbursed for practitioner administered drug items that cannot be self-administered by the medical assistance program (MAP) eligible recipient.

[8.324.4.10 NMAC - Rp, 8.324.4.10 NMAC, 1-1-14]

8.324.4.11 PROVIDER RESPONSIBILITIES AND REQUIREMENTS:

A. A provider who furnishes services to an MAP eligible recipient must comply with all federal, state, local laws, rules, regulations, executive orders and the provisions of the provider participation agreement. A provider must adhere to MAD program rules as specified in the New Mexico administrative code (NMAC) and program policies that include but are not limited to supplements, billing instructions, and utilization review directions, as updated. The provider is responsible for following coding manual guidelines and centers for medicare and medicaid services (CMS) correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify an individual is eligible for a specific MAD service and verify the recipient's enrollment status at time of service as well as determining if a copayment is applicable or if services require prior authorization. A provider must determine if an MAP eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to an MAP eligible recipient.

C. Services furnished must be within the scope of practice defined by the provider's licensing board, scope of practice act, or regulatory authority; see 8.310.3 NMAC.

D. Retention and storage of the original prescription, electronic prescription, and records of phone or fax orders must meet all pharmacy board requirements and must be retained for six years. If the prescriber certifies that a specific brand is medically necessary, by handwriting"brand medically necessary" or"brand necessary" on the face of the prescription, the allowed ingredient cost is the estimated acquisition cost (EAC) of the brand drug. The documentation of the provider's handwritten certification must be maintained by the pharmacy provider and furnished upon request. Checked boxes, rubber stamps and requests by telephone do not constitute appropriate documentation, pursuant to 42 CFR 447.512."Brand necessary" prescriptions may be subject to prior authorization. Any claim for which"brand necessary" is claimed must be supported with documentation in the prescriber's medical records. Electronic alternatives approved by the secretary of the federal department of health and human services are acceptable.

E. A pharmacy provider must discuss any matters with the MAP eligible recipient or their personal representative that in the provider's professional judgment are significant. See 42 USC 1396r-8(g)(2)(A)(ii)(I) of the Social Security Act. Pharmacy counseling services are subject to the standards for counseling established under the state Pharmacy Practice Act. Counseling must be furnished unless declined by the MAP eligible recipient or his or her authorized representative.

F. A pharmacy must follow all federal and state laws, regulations and rules regarding management of pain with controlled substances, use of the drug monitoring program database, limiting dispensing of controlled substances, and reporting dispensing of controlled substances to state monitoring programs.

[8.324.4.11 NMAC - Rp, 8.324.4.11 NMAC, 1-1-14]

8.324.4.12 COVERED SERVICES:

MAD covers medically necessary prescription drugs and some over-the-counter drugs, subject to the limitations and restrictions delineated in this section of this rule. Claims for injectable drugs, intravenous (IV) admixtures, IV nutritional products and other expensive medications may be reviewed for medical necessity before or after reimbursement. Providers must consult MAD, or its designated contractor, before supplying items not specifically listed in this policy or billing instructions. Drug restrictions include dosage, day supply, and refill frequency limits necessary to ensure appropriate utilization or to prevent fraud and abuse. In establishing such limits, professional standards are considered.

A. For a MAP eligible recipient 21 years of age and older not in an institution, coverage of over-the-counter items is limited to insulin**,** diabetic test strips, prenatal vitamins, electrolyte replacement system, ophthalmic lubricants, pediculosides and scabicides, sodium chloride for inhalations, topical and vaginal antifungals and topical anti-inflammatories. MAD, or its designee, may expand the list of covered over-the-counter items after making a specific determination that it is overall more economical to cover an over-the-counter item as an alternative to prescription items or when an over the counter item is a preferred therapeutic alternative to prescription drug items. Such coverage is incorporated as part of the generic-first coverage provisions. Otherwise, the MAP eligible recipient 21 years and older, or his or her authorized representative is responsible for purchasing or otherwise obtaining an over-the-counter item. Prior authorization for coverage of other over the counter products may be requested when a specific regimen of over the counter drugs is required to treat chronic disease conditions.

B. When drugs are provided through a preferred drug list, drugs are subject to generic-first coverage provisions. The MAP eligible recipient must first use one or more generic items available on the preferred drug list to treat a condition before MAD covers a brand name drug for the condition. MAD publishes a list of the therapeutic categories of drug items that are exempt from the generic-first coverage provisions. Brand name drug items may be covered upon approval by MAD, or its designee, including HSD contracted managed care organization (MCO), based upon medical justification by the prescriber. Generic-first provisions do not apply to injectable drug items.

[8.324.4.12 NMAC - Rp, 8.324.4.12 NMAC, 1-1-14]

8.324.4.13 COVERAGE REQUIREMENTS:

A. **Legal requirements:** All drug items must be assigned a national drug code by the respective manufacturer, repackager or labeler. A prescription must meet all federal and state laws, regulations and rules. A pharmacy provider and a prescriber must fulfill all the requirements of federal and state laws relating to his or her practice and ethics.

B. **Rebate requirements:** MAD pays only for the drugs of pharmaceutical manufacturers that have entered into and have in effect a rebate agreement with the federal department of health and human services. This limitation does not apply to dispensing a single-source or innovator multiple-source drug if MAD has determined that the availability of the drug is essential to the health of a MAP eligible recipient.

C. **Prescribing:** A prescriber must be enrolled as a MAD provider in order to prescribe drug items for a MAP eligible recipient. A provider who has been terminated or suspended by MAD or is not enrolled as a provider must notify his or her MAP eligible recipients that he or she cannot prescribe drug items for them.

[8.324.4.13 NMAC - Rp, 8.324.4.13 NMAC, 1-1-14]

8.324.4.14 NONCOVERED SERVICES OR SERVICE RESTRICTIONS:

Pharmacy services are subject to the limitations and coverage restrictions that exist for other MAD services.

A. MAD does not cover the following specific pharmacy items:

(1) medication supplied by state mental hospitals to a MAP eligible recipient on convalescent leave from the center;

(2) methadone for use in drug treatment programs except as part of a MAD approved medication assisted treatment program (MAT);

(3) personal care items such as non-prescription shampoos, soaps;

(4) cosmetic items, such as retin-A for aging skin, rogaine for hair loss;

(5) drug items that are not eligible for federal financial participation (FFP), including drugs not approved as effective by the federal food and drug administration (FDA), known as DESI (drug efficacy study implementation) drugs;

(6) fertility drugs;

(7) antitubercular drug items available from the New Mexico department of health (DOH) or the United States public health service;

(8) weight loss/weight control drugs;

(9) barbiturate hypnotic drugs whose primary action is to induce sleep unless the MAP eligible recipient resides in a nursing home;

(10) drug items used to treat sexual dysfunction;

(11) compounded drug items which lack an ingredient approved by the federal food and drug administration (FDA) for the indication for which the drug is intended;

(12) compounded drug items for which the therapeutic ingredient does not have an assigned national drug code and is not approved by the FDA for human use; and

(13) cough and cold preparations for a MAP eligible recipient under the age of four.

B. MAD covers non-prescription drug items without prior authorization when prescribed by a licensed practitioner authorized to prescribe for a MAP eligible recipient who resides in a nursing facility (NF) or an intermediate care facility for individuals with intellectual disabilities (ICF-IID), when such items are not routinely included in the facility's reimbursable cost and a specific prescription for the item is dispensed based on a practitioner's order. The following cannot be charged to the MAP eligible recipient or billed to MAD, or a HSD contracted managed care organization, by a provider:

(1) diabetic testing supplies and equipment;

(2) aspirin and acetaminophen;

(3) routine ointments, lotions and creams, and rubbing alcohol; and

(4) other non-prescription items stocked at nursing stations and distributed for use individually in small quantities.

C. MAD does not cover drug items for a MAP eligible recipient who is eligible for medicare Part D when the drug item or class of drug meets the federal definition of a medicare Part D covered drug. MAD does not cover any copayment due from the MAP eligible recipient towards a claim paid by medicare Part D nor any medicare Part D covered drug or class of drug where the MAP eligible recipient has a gap in medicare Part D coverage due to a medicare coverage limit. Items or drug classes specifically excluded by medicare Part D are covered, non-covered or limited to the same extent that MAD covers the excluded drug items for a MAP eligible recipient who is not dually-eligible.

[8.324.4.14 NMAC - Rp, 8.324.4.14 NMAC, 1-1-14]

8.324.4.15 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All MAD services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and, before payment is made or after payment is made; see 8.302.5 NMAC. Once enrolled, providers receive directions on how to access instructions and documentation forms necessary for prior authorization and claims processing. Review

or prior authorization may be required for items for which a less expensive or therapeutically preferred alternative should be used first. In addition to the generic-first coverage provisions, applicable therapeutic"step" requirements will be based on published clinical practice guidelines, professional standards of health care and economic considerations.

A. **Prior authorization:** MAD or its designee reviews all requests for prior authorizations. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior authorization of services does not guarantee that an individual is eligible for MAD services. Providers must verify that an individual is eligible for MAD services at the time services are furnished and determine if the MAP eligible recipient has other health insurance.

C. **Reconsideration:** Providers who disagree with prior authorization request denials or other review decisions can request reconsideration; see 8.350.2 NMAC.

D. **Drug utilization review:** The MAD drug utilization review (DUR) program is designed to assess the proper utilization, quality, therapy, medical appropriateness and costs of prescribed medication through evaluation of claims data, as required by 42 CFR 456.700-716. The DUR program is done on a retrospective, prospective and concurrent basis. This program shall include, but is not limited to, data gathering and analysis and a mix of educational interventions related to over-utilization, under-utilization, therapeutic duplication, drug-to-disease and drug-to-drug interactions, incorrect drug dosage or duration of treatment and clinical abuse or misuse. Information collected in the DUR program that identifies individuals is confidential and may not be disclosed by the MAD DUR board to any persons other than those identified as the MAP eligible recipient’s service providers or governmental entities legally authorized to receive such information.

(1) **Prospective drug use review:** Prospective DUR (ProDUR) is the screening for potential drug therapy problems (such as, over-utilization, under-utilization, incorrect drug dosage, therapeutic duplication, drug-disease contraindication, adverse interaction, incorrect duration of drug therapy, drug-allergy interactions**,** clinical abuse or misuse) before each prescription is dispensed. The dispensing pharmacist is required to perform prospective drug use review prior to dispensing. Only a licensed pharmacist or intern may perform ProDUR activities. The pharmacist may be required to insert appropriate DUR override codes when the ProDUR system detects drug therapy issues. In retrospective review of paid claims, payment may be recouped for claims in which the pharmacist has not followed accepted standards of professional practice.

(2) **Counseling:** Pursuant to 42 CFR 456.705, each dispensing pharmacist must offer to counsel each MAP eligible recipient or his or her authorized representative receiving services who presents a new prescription, unless the MAP eligible recipient or his or her authorized representative refuses such counsel. Pharmacists must document

these refusals. If no documentation of refusal of counseling is available or readily retrievable, it will be assumed that appropriate counseling and prospective drug use review has taken place. A reasonable effort must be made to record and maintain the pharmacist's comments relevant to said counseling and prospective drug review, particularly when ProDUR overrides are performed. Counseling must be done in person, whenever practicable. If it is not practicable to counsel in person, providers whose primary patient population does not have access to a local measured telephone service must provide a MAP eligible recipient access to a toll-free number.

[8.324.4.15 NMAC - Rp, 8.324.4.15 NMAC, 1-1-14]

8.324.4.16 REIMBURSEMENT:

Pharmacy providers must submit claims for reimbursement on the separate pharmacy claim form or its successor, see 8.302.2 NMAC and Section 17 of this rule.

A. **General reimbursement methodology:** The estimated ingredient cost will not exceed the lowest of the estimated acquisition cost (EAC), the maximum allowable cost (MAC), the actual acquisition cost of a 340B drug, or the federal upper limit (FUL).

(1) **Estimated acquisition cost (EAC).** MAD determines EAC as follows:

(a) MAD establishes EAC, defined as MAD's approximation of the net or actual acquisition costs of such drugs;

(b) the factors MAD considers in setting rates for drugs under this subparagraph include:

(i) product cost, which may vary among purchasing contracts;

(ii) clinical concerns;

(iii) MAD's budget limits;

(iv) the actual package size dispensed; and

(v) payments by other payers in New Mexico and other state MAD and medicare pricing policies;

(c) MAD uses the EAC as its reimbursement for a drug when the EAC, plus a dispensing fee established by MAD, is the lowest of the rates calculated under the methods listed in general reimbursement methodology;

(d) EAC is calculated using the current published average wholesale price (AWP) of a drug less a percentage established by MAD, the average manufacturer price (AMP) plus a percentage established by MAD, or the wholesale acquisition cost (WAC)

plus a percentage established by HSD, and other pricing limits determined by other pricing information sources selected by MAD; and

(e) MAD uses the ingredient cost indicated in the ingredient cost field on the billing transaction as the EAC when that indicated ingredient cost is lower than the MAD EAC.

(2) **Maximum allowable cost (MAC) MAC methodology.** MAD establishes a MAC applicable for certain multiple-source drugs with FDA rated therapeutic equivalents and for certain over-the-counter drugs and non-drug items on the following basis:

(a) at least one A-rated generic (as listed in the FDA orange book) is readily available to New Mexico pharmacies;

(b) the MAC for the brand name drug products and for all A-rated therapeutic equivalents shall be determined by arraying costs for the A-rated therapeutic equivalent drugs regardless of manufacturer, and selecting a reasonable price from the arrayed list in a manner consistent with the state plan or any waiver approved by CMS subjecting that price to cost factors and tests for reasonableness;

(c) when a state MAC price has not been calculated by MAD, a baseline price calculated by a national supplier of drug pricing information is used as the state MAC;

(d) MAC will not be applied if a specific brand has been determined to be medically necessary, in which event the reimbursement rate will be the lower of the EAC of the product dispensed plus the dispensing fee or the provider’s billed usual and customary charge; and

(e) for over-the-counter drugs and non-drug items, MAC may be established using the pricing sources in Subsection B of this section.

(3) **Federal upper limit (FUL) methodology:**

(a) MAD adopts the FUL that is set by CMS or recommended by the federal department of justice.

(b) MAD's maximum payment for multiple-source drugs for which CMS has set FULs will not exceed, in the aggregate, the prescribed upper limits plus the dispensing fees set by MAD under the dispensing fee determination.

(c) MAD will not use the individual drug FUL as MAD’s reimbursement rate when the prescribing practitioner has certified that a specific brand is medically necessary, in which event the reimbursement rate will be the lower of the EAC of the product dispensed plus the dispensing fee or the provider’s usual and customary billed charge.

(4) **340B drug discount actual acquisition cost:**

(a) The actual ingredient cost for drugs purchased under Section 340B of the Public Health Service Act, 42 USC 256b, and dispensed to a MAP eligible recipient must placed in the ingredient cost field and indicated on the billing transaction as a 340B drug item.

(b) Drugs purchased under Section 340B of the Public Health Service Act, 42 USC 256b, and dispensed to a MAP eligible recipient must be billed at the actual acquisition cost of the provider and indicated on the billing transaction as a 340B drug item. If a MAP eligible recipient with a prescription written at a 340B entity requests the item to be dispensed by a 340B pharmacy under contract to the 340B entity then the pharmacist must dispense 340B purchased items when filling the prescription.

(5) **Usual and customary charge:**

(a) The provider's billed charge must be its usual and customary charge for services. Over-the-counter items must be billed with the over-the-counter price as the usual and customary charge, unless it is labeled and dispensed as a prescription.

(b) "Usual and customary charge" refers to the amount that the individual provider charges the general public in the majority of cases for a specific procedure or service.

(c) Usual and customary charges must reflect discounts given to a MAP recipient for certain reasons, such as age or NF resident, when a MAP eligible recipient meets the standards for the discount. MAD must be given the advantage of discounts received by the general public, including promotions or items sold at cost to the general public, if these are the prices usually and customarily charged to non-MAP recipient.

(d) Providers cannot add additional costs for their time, paperwork, or anticipated turnaround time for payment.

(6) **Medicare reimbursement:** Reimbursement may be limited to medicare reimbursement limits where the total of the medicare-allowed amounts plus, if applicable, a dispensing fee, is the lowest of EAC, MAC, FUL, usual and customary charge or 340B drug discount amount as defined in this Section Subsection A of this rule.

(7) Practitioner administered drug items are reimbursed according to the MAD fee schedule.

B. **Pricing information to set EAC and MAC:** MAD selects the sources for pricing information used to set EAC and MAC. These sources may include pharmaceutical wholesalers, manufacturers, federal agencies, drug data information clearinghouses and pharmacy invoices.

C. **Assistance in establishing EAC and MAC:** MAD may solicit assistance from pharmacy providers, pharmacy benefit managers (PBMs), other government agencies, actuaries, or other consultants when establishing EAC or MAC.

D. **Pharmacy price reductions:** If the pharmacy provider offers a discount, rebate, promotion or other incentive that results in a reduction of the price of a prescription to the individual non- MAP recipient, the provider must similarly reduce its charge to MAD for the prescription.

E. **No claims for free products:** If a pharmacy gives a product free to the general public, the pharmacy must not submit a claim to MAD when giving the free product to a MAP eligible recipient.

F. **Solutions:** Solutions, such as saline for nebulizers, intravenous (IV) solutions without additives, electrolyte and irrigation solutions, and diluents are considered medical supply items for reimbursement purposes; see 8.310.2 NMAC.

G. **Non-drug items:** Urine test reagents, electrolyte replacement and nutritional products, equipment and medical supplies, including syringes and alcohol swabs, are subject to restrictions for medical supplies, see 8.310.2 NMAC.

[8.324.4.16 NMAC - Rp, 8.324.4.16 NMAC, 1-1-14]

8.324.4.17 POINT OF SALE:

The point-of-sale system provides relevant drug utilization information that the pharmacist must consider before dispensing a drug. If utilization information indicates that a MAP eligible recipient has an adequate supply of the drug item or that the quantity being dispensed is excessive, the claim will initially be denied. The pharmacist is responsible for resolving the issue and obtaining an authorization to dispense the drug, if necessary.

A. **General requirements:** All MAD in-state and border area pharmacy providers are required to submit claims through the point-of-sale system.

B. **Exceptions to general requirements:** The following are exceptions to this general requirement:

(1) the provider is out-of-state and is not a border area provider;

(2) the provider is a family planning clinic dispensing prescriptions;

(3) the provider submitted on average less than 50 claims per month to MAD for the preceding six-month period;

(4) the claim requires an attachment or explanation; or

(5) a required data element on the claim cannot be entered in the current standard point-of-sale format.

[8.324.4.17 NMAC - Rp, 8.324.4.17 NMAC, 1-1-14]

8.324.4.18 PRESCRIPTIONS AND REFILLS:

A. **Dispensing frequencies:** MAD limits the frequency for which it reimburses the same pharmacy for dispensing the same drug to the same MAP eligible recipient.

(1) The limitation is established individually for each drug.

(2) Maintenance drugs are subject to a maximum of three times in 90 days with a 14-calendar day grace period to allow for necessary early refills.

(3) Certain drugs are given more flexibility due to their specific dosage forms, packaging or clinical concerns.

(4) The excessive dispensing limitation applies regardless of whether the claim is for a new prescription or refill.

(5) Schedule II controlled substances are limited to a maximum 34-day supply. Initial use of controlled substances may also be further limited by state law.

B. **Refill requirements:** Refills must be consistent with the dosage schedule prescribed and with all applicable federal and state laws, regulations and rules. Consistent use of early refills will result in a calculation that the MAP eligible recipient has sufficient stock of the drug item on hand and allowed refill dates will be adjusted accordingly.

C. **Quantities dispensed:** Maintenance drugs are those on the MAD-approved maintenance drug list.

(1) For a MAP eligible recipient with likely continuous eligibility due to age, disability or category of eligibility, prescriptions for maintenance drugs may be dispensed in amounts up to a 90-day supply.

(2) Prescriptions for non-maintenance drugs are limited to 34-day supplies.

(3) Oral contraceptives may be dispensed for up to a one-year supply if the appropriate contraceptive for the MAP eligible recipient has been established.

(4) Controlled substances may not be refilled until 75 percent of the drug has been used based on the days supply of the previous prescription unless the prescriber has been notified and given approval. A pharmacy with access to dispensing information through a chain store or linked database, or that is notified of early refills or

other dispensing of drugs through a point-of-sale system, is responsible for assuring the refill meets the criteria by verifying the dispensing history available, including the drug monitoring program database. Dispensed drug items which do not meet these criteria are subject to recoupment.

(5) Pharmacy providers shall not reduce prescriptions for maintenance drugs that are written for quantities larger than a 34-day supply and may dispense up to a 90-day supply. MAD considers prescription splitting to be fraudulent. Pharmacies that do not have the entire prescribed amount on hand may dispense a partial fill.

(6) Coverage may be limited by the end date of the MAP eligible recipient's span of eligibility at the time of dispensing.

(7) Pharmacists are encouraged to consult with prescribers to achieve optimal drug therapy outcomes, consistent with NMSA 1978, Section 61-11-2(V).

(8) Controlled substances may have specific controls on the quantities dispensed.

D. **Unit dose packaging:** MAD does not pay additional for unit dose packaging.

E. **Prevention of abuse:** Drug items are to be dispensed for legitimate medical needs only. If the pharmacist suspects the MAP eligible recipient of over-utilizing or abusing drug services, the pharmacist must contact the provider and MAD so that the MAP eligible recipient's use of medications can be reviewed. Excessively high doses and overlapping use of multiple drug items with the same therapeutic uses that are potentially abusive or otherwise dangerous may result in subjecting the prescriptions to the prior authorization process or recoupment from the pharmacy if the prescriber is not contacted and the contact documented.

F. **Mail service pharmacy:** MAD may provide a mail service pharmacy for a MAP eligible recipient use.

(1) The mail service pharmacy is available as an option to all MAP eligible recipients.

(2) Retail pharmacies may mail, ship or deliver prescriptions to all MAP eligible recipients consistent with applicable state and federal statutes, rules and regulations.

8.324.5.7 DEFINITIONS:

[RESERVED]

8.324.5.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.324.5.8 NMAC - Rp, 8.324.5.8 NMAC, 1-1-14]

8.324.5.9 VISION APPLIANCES, HEARING APPLIANCES, DURABLE MEDICAL EQUIPMENT, OXYGEN, MEDICAL SUPPLIES, PROSTHETICS AND ORTHOTICS:

The New Mexico medical assistance division (MAD) pays for medically necessary health services furnished to a medical assistance program (MAP) eligible recipient, including covered vision appliances, hearing aids and related services [42 CFR Section 440.60(a) and Section 440.110(c)], durable medical equipment and medical supplies, [42 CFR Section 440.70 (c)] and covered prosthetic and orthotic services [42 CFR Section 440.120(c)].

[8.324.5.9 NMAC - Rp, 8.324.5.9 NMAC, 1-1-14]

8.324.5.10 ELIGIBLE PROVIDERS:

Health care to a MAP eligible recipient is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by MAD. Upon approval of a New Mexico MAD provider participation agreement (PPA), a licensed practitioner of a facility that meets applicable requirements is eligible to be reimbursed for furnishing covered services to a MAP eligible recipient. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HSD/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including program rules, billing instruction, utilization review (UR) instructions, and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided, to comply with the requirements and to update his or her knowledge as new material is provided by MAD. The provider must contact HSD or its authorized agents to request hard copies of any MAD New Mexico administrative code (NMAC) program rules, MAD billing and UR instructions and other pertinent material, and to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of his or her MAD PPA and all applicable statutes, regulations, rules and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only. A provider must supply necessary information in order for payment to be made. Upon approval of his or her MAD PPA, the following practitioners and facilities may be enrolled as MAD providers:

A. **Vision appliance provider:**

(1) an ophthalmologist licensed to practice medicine in New Mexico, who limits his or her practice to ophthalmology (ophthalmologist) and the groups, corporations, and professional associations they form;

(2) an optometrist licensed to practice optometry in New Mexico and the groups, corporations, and professional associations they form;

(3) an optician qualified to provide eyeglasses, contact lenses, supplies, and other vision-related materials; or

(4) Indian health service (IHS) or a tribal facility operating under Public Law 93-638.

B. **Hearing appliances providers:**

(1) an individual licensed to practice medicine or osteopathy; or

(2) a hearing aid dealer registered and licensed by the New Mexico regulations and licensing division (RLD) practice boards for speech language pathology, audiology, and hearing aid dispensing.

C. **Durable medical equipment (DME), oxygen and medical supplies provider:** A DME, oxygen and medical supplies provider must hold a current PPA with MAD.

D. **Prosthetics and orthotics provider:** A prosthetics or orthotics provider must hold a current PPA with MAD.

[8.324.5.10 NMAC - Rp, 8.324.5.10 NMAC, 1-1-14]

8.324.5.11 PROVIDER RESPONSIBILITIES AND REQUIREMENTS:

A. A provider who furnishes services to a MAP eligible recipient must comply with all federal, state, local laws, rules, regulations, executive orders and the provisions of his or her PPA. A provider must adhere to the NMAC program rules and program policies that include but are not limited to supplements, billing instructions, and UR directions, as updated. The provider is responsible for following coding manual guidelines and centers for medicare and medicaid services (CMS) correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify an individual is eligible for a specific MAD service and verify the recipient’s enrollment status at time of service, as well as determining if a copayment is applicable or if services require prior authorization. A provider must determine if a MAP eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to the MAP eligible recipient.

C. Services furnished must be within the scope of practice defined by the provider's licensing board, scope of practice act, or regulatory authority; see 8.302.2 NMAC.

D. **Vision appliances providers:** A provider must ensure that a prescription for eyeglasses or contact lenses is accurate to the extent that the prescription corrects the MAP eligible recipient's vision to the degree of acuity indicated on his or her vision examination record. An eyeglass and contact lens supplier is responsible for verifying that the correct prescription is provided.

(1) If a prescription is inaccurate and the MAP eligible recipient is unable to use his or her eyeglasses or contact lenses, payment for both the eye examination and the eyeglasses or contact lenses is subject to recoupment.

(2) If the eyeglasses or contact lenses are not ground to the correct prescription, payment for the eyeglasses or contact lenses is subject to recoupment.

[8.324.5.11 NMAC - Rp, 8.324.5.11 NMAC, 1-1-14]

8.324.5.12 COVERED SERVICES:

A. **Vision appliances:** MAD covers specific vision care services that are medically necessary for the diagnosis of and treatment of eye diseases. MAD pays a provider for the correction of refractive errors that are required by the condition of the MAP eligible recipient. All services must be furnished within the limits of MAD benefits, within the scope and practice of the medical professional as defined by state law and in accordance with applicable federal, state and local laws and his or her New Mexico regulation and licensing division's (RLD) practice board.

(1) Exam: MAD covers routine eye exams. Coverage for a MAP eligible recipient over 22 years of age is limited to one routine eye exam in a 36-month period. Exam coverage for a MAP eligible recipient under 21 years of age is limited to one routine eye exam in a 12-month period. If a MAP eligible recipient has transitioned from the early, periodic screening, diagnosis and treatment (EPSDT) program at age 21, the date of service for his or her last exam starts the 36-month period. An exam for an existing medical condition, such as cataracts, diabetes, hypertension, and glaucoma will be covered for required follow-up and treatment. The medical condition must be clearly documented on his or her visual examination record and indicated by diagnosis on the claim form.

(2) Corrective lenses: MAD covers one set of corrective lenses for a MAP eligible recipient 21 years of age and older not more frequently than once in a 36-month period. For a MAP eligible recipient under 21 years of age, one set of corrective lenses is covered no more frequently than once every 12 months. If a MAP eligible recipient has transitioned from the EPSDT program at age 21, the date of service for his or her last corrective lenses starts the 36-month period. For either age group, MAD covers corrective lenses more frequently when an ophthalmologist or optometrist recommends

a change in prescription due to a medical condition, including but not limited to cataracts, diabetes, hypertension, glaucoma or treatment with certain systemic medications affecting vision. The vision prescription must be appropriately recorded on the MAP eligible recipient's visual examination record and indicated by a diagnosis on the claim.

(a) For the purchase of eyeglasses, the diopter correction must meet or exceed one of the following diopter correction criteria:

(i) -1.00 myopia (nearsightedness);

(ii) + 1.00 for hyperopia (farsightedness);

(iii) 0.75 astigmatism (distorted vision), the combined refractive error of sphere and cylinder to equal 0.75 will be accepted;

(iv) ±1.00 for presbyopia (farsightedness of aging); or

(v) diplopia (double vision) - prism lenses.

(b) When a MAP eligible recipient's existing prescription is updated and the frequency of replacement lenses meets the requirements in Paragraph (2) above, the lenses may be replaced when there is a minimum 0.75 diopter change in the prescription. The combined refractive error of sphere and cylinder to equal 0.75 will be accepted. An exception is considered for the following:

(i) a MAP eligible recipient over 21 years of age with cataracts;

(ii) an ophthalmologist or optometrist recommends a change due to a medical condition; or

(iii) a MAP eligible recipient is under 21 years of age.

(3) Bifocal lenses: MAD covers bifocal lenses with a correction of 0.25 or more for distance vision and 1 diopter or more for added power (bifocal lens correction).

(4) Tinted lenses: MAD covers tinted lenses with filtered or photochromic lenses if the examiner documents one or more of the following disease entities, injuries, syndromes or anomalies in the comments section of the visual examination record, and the prescription meets the dioptic correction purchase criteria:

(a) aniridia;

(b) albinism, ocular;

(c) traumatic defect in iris;

(d) iris coloboma, congenital;

(e) chronic keratitis;

(f) sjogren's syndrome;

(g) aphakia, U.V. filter only if intraocular lens is not U.V. filtered;

(h) rod monochromaly;

(i) pseudophakia; or

(j) other diagnoses confirmed by ophthalmologist or optometrist that is documented in the MAP eligible recipient's visual examination form.

(5) Polycarbonate lenses: MAD covers polycarbonate lenses for:

(a) a MAP eligible recipient for medical conditions which require prescriptions for high power lenses;

(b) a MAP eligible recipient with monocular vision;

(c) a MAP eligible recipient who works in a high-activity physical job;

(d) a MAP eligible recipient under 21 years of age; or

(e) a MAP eligible recipient 21 years and older that has a developmental or intellectual disability.

(6) Balance lenses: MAD covers balance lenses for a MAP eligible recipient under 21 years of age without a prior authorization in the following situations:

(a) lenses used to balance an aphakic eyeglass lens; or

(b) a MAP eligible recipient under 21years of age is blind in one eye and the visual acuity in the eye requiring correction meets the diopter correction purchase criteria.

(7) Frames: MAD covers frames for corrective lenses. Coverage for a MAP eligible recipient 21 years of age and older is limited to one frame in a 36-month period. If a MAP eligible recipient has transitioned from the EPSDT program at age 21, the date of service of his or her last frames starts the 36-month period. Coverage for a MAP eligible recipient under 21 years of age is limited to one frame in a 12-month period unless:

(a) an ophthalmologist or optometrist has documented a medical condition that requires replacement; or

(b) other situations that will be reviewed on a case-by-case basis.

(8) Contact lenses: MAD covers contact lenses, either the original prescription or replacement, only with a prior authorization. Coverage for an eligible adult recipient 21 years of age and older is limited to one pair of contact lenses in a 24-month period, unless an ophthalmologist or an optometrist recommends a change in prescription due to a medical condition affecting vision. If a MAP eligible recipient is transition from the EPSDT program at age 21, the date of service for his or her last contact lenses starts as the 24-month period. A request for prior authorization will be evaluated on dioptic criteria or visual acuity, the MAP eligible recipient's social or occupational need for contact lenses, and special medical needs. The criteria for authorization of contact lenses are as follows:

(a) the MAP eligible recipient must have a diagnosis of keratoconus or diopter correction of +/- -6.00 or higher in any meridian or at least 3.00 diopters of anisometropia; or

(b) monocular aphakics may be provided with one contact lens and a pair of bifocal glasses.

(9) Replacement: Eyeglasses or contact lenses that are lost, broken or have deteriorated to the point that, in the examiner's opinion, they have become unusable to the MAP eligible recipient, may be replaced. Two items must be documented in the provider's request for the replacement in addition to being found in the MAP eligible recipient's visual examination record: The MAP eligible recipient's eyeglasses or contact lens (or lenses) must meet the diopter correction purchase criterion; and an explanation of the loss, deterioration or breakage is provided. The following are the criteria that an MAP eligible recipient must be meet for the replacement of his or her eyeglasses or contact lenses:

(a) the MAP eligible recipient is under 21 years of age; or

(b) the MAP eligible recipient is 21 years of age and older and has a developmental or intellectual disability.

(10) Prisms: Prisms are covered if medically indicated to prevent diplopia (double vision). Documentation is required on the MAP eligible recipient's visual examination record.

(11) Lens tempering: MAD covers lens tempering only on new glass lenses.

(12) Lens edging: MAD covers lens edging and lens insertion.

(13) Minor repairs: MAD covers minor repairs to eyeglasses.

(14) Dispensing fee: MAD pays a dispensing fee to an ophthalmologist, optometrist, or optician for dispensing a combination of lenses and new frames at the same time. This fee is not paid when contact lenses are dispensed. The prescription and fitting of contact lenses is paid to dispensing ophthalmologists and optometrists. Independent technicians are not approved by MAD to prescribe and fit contact lenses.

(15) Eye prosthesis: MAD covers eye prostheses (artificial eyes); see Subsection D below.

B. **Hearing appliances:**

(1) Within specified limitations, MAD covers the following services when furnished by primary care provider (PCP), licensed audiologists or by licensed hearing aid dealers:

(a) hearing aid purchase, rental repairs, hearing aid repair and handling, replacements, and the loan of equipment while repairs or replacements are made:

(i) binaural hearing aid fitting will be covered for a MAP eligible recipient with bilateral hearing loss who is attending an educational institution, seeking employment, is employed, or for a MAP eligible recipient with a current history of binaural fitting; or

(ii) binaural hearing aid fitting will be considered on a case-by-case basis for a MAP eligible recipient determined to be legally blind;

(b) hearing aid accessories and supplies, including the batteries required after the initial supply furnished at the time the hearing aid is dispensed; and

(c) hearing aid insurance against loss and breakage for up to four years for all purchased hearing aids; hearing aid insurance is required when the aid is dispensed; four years of hearing aid insurance is required for: (i) a MAP eligible recipient under 21 years of age; (ii) a MAP eligible recipient residing in a nursing facility (NF); or (iii) a MAP eligible recipient who has a developmental or intellectual disability;

(d) replacement of hearing aids is limited to the provisions of the MAP eligible recipient's hearing aid insurance; the provider is responsible for obtaining insurance for every hearing aid purchased for a MAP eligible recipient.

C. **DME, oxygen and medical supplies:** MAD covers DME that meets the MAD definition of DME, the medical necessity criteria, and MAD prior authorization requirements. MAD covers the repair, maintenance, delivery of durable medical equipment, and the disposable and non-reusable items essential for the use of the equipment, subject to the limitations specified in this rule. All items purchased or rented

must be ordered by a provider who has an approved MAD PPA. Coverage for DME is limited for a MAP eligible recipient in an institutional setting when the institution is to provide the necessary items. An institutional setting is a hospital, NF, intermediate care facility for individuals with intellectual disabilities (ICF-IID), and a rehabilitation facility. A MAP eligible recipient who is receiving services from a home and community-based waiver is not considered an institutionalized eligible recipient. MAD does not cover duplicates of items, for example, a MAP eligible recipient is limited to one wheelchair, one hospital bed, one oxygen delivery system, or one of any particular type of equipment. A back-up ventilator is covered.

(1) DME is defined by MAD as: (a) equipment that can withstand repeated use; (b) primarily and customarily used to serve a medical purpose; (c) not useful to an eligible recipient in the absence of an illness or injury; and (d) appropriate for use at home.

(2) Equipment used in a MAP eligible recipient's residence must be used exclusively by the MAP eligible recipient for whom it was approved.

(3) To meet the medical necessity criterion, DME must be necessary for the MAP eligible recipient's treatment of an illness, injury, or to improve the functioning of a specific body part.

(4) Replacement of equipment is limited to the same extent as it is limited by medicare regulation. When medicare does not specify a limitation, equipment is limited to one item every three years unless there are changes in the MAP eligible recipient's medical necessity or as otherwise indicated in this rule.

(5) Medical supplies: MAD covers medical supplies that are necessary for an ongoing course of treatment within the limits specified in this section. As distinguished from DME, medical supplies are disposable and non-reusable items.

(a) A provider or medical supplier that routinely supplies an item to a MAP eligible recipient must document that the order for additional supplies was requested by the MAP eligible recipient or his or her authorized representative and the provider or supplier must confirm that the MAP eligible recipient does not have in excess of a 15-calendar day supply of the item before releasing the next supply order. A provider must keep documentation in its files available for auditing that shows compliance with this requirement.

(b) MAD coverage for DME and medical supplies is limited for a MAP eligible recipient in an institutional setting when the institution is to provide the necessary items. An institutional setting is a hospital, NF, ICF-IID, and a rehabilitation facility.

(6) Covered services and items: MAD covers the following items without prior authorization for both an institutionalized and non-institutionalized MAP eligible recipient:

(a) trusses and anatomical supports that do not need to be made to measure;

(b) family planning devices;

(c) repairs to DME and replacement parts if a MAP eligible recipient owns the equipment for which the repair is necessary and the equipment being repaired is a covered MAD benefit; some replacement items used in repairs may require prior authorization; see Section 13 of this rule;

(d) repairs to augmentative and alternative communication devices require prior authorization;

(e) monthly rental includes monthly service and repairs; and

(f) replacement batteries and battery packs for augmentative and alternative communication devices owned by the MAP eligible recipient.

(7) Covered services for a non-institutionalized MAP eligible recipient: MAD covers certain medical supplies, nutritional products and DME provided to a non-institutionalized MAP eligible recipient without prior authorization. Monthly allowed quantities of items are limited to the same extent as limited by medicare regulation. When medicare does not specify a limitation, an item is limited to a reasonable amount as defined by MAD and published in its DME and medical supplies billing instructions which are available on the HSD/MAD website. MAD covers the following for a non-institutionalized MAP eligible recipient:

(a) needles, syringes and intravenous (IV) equipment including pumps for administration of drugs, hyper-alimentation or enteral feedings;

(b) diabetic supplies, chemical reagents, including blood, urine and stool testing reagents;

(c) gauze, bandages, dressings, pads, and tape;

(d) catheters, colostomy, ileostomy and urostomy supplies and urinary drainage supplies;

(e) parenteral nutritional support products prescribed by a PCP on the basis of a specific medical indication for a MAP eligible recipient who has a defined and specific pathophysiologic process for which nutritional support is considered specifically therapeutic and for which regular food, blenderized food, or commercially available retail consumer nutritional supplements would not meet the MAP eligible recipient’s medical needs;

(f) apnea monitors: prior authorization is required if the monitor is needed for six months or longer; and

(g) disposable gloves (sterile or non-sterile) are limited to 200 per month.

(8) Covered oxygen and oxygen administration equipment: MAD covers the following oxygen and oxygen administration systems, within these specified limitations:

(a) oxygen contents, including oxygen gas and liquid oxygen;

(b) oxygen administration equipment purchase with prior authorization; oxygen administration equipment may be supplied on a rental basis for one month without prior authorization; rental beyond the initial month requires a prior authorization;

(c) oxygen concentrators, liquid oxygen systems and compressed gaseous oxygen tank systems. MAD approves the most economical oxygen delivery system available that meets the medical needs of the MAP eligible recipient;

(d) cylinder carts, humidifiers, regulators and flow meters;

(e) purchase of cannulae or masks; and

(f) oxygen tents and croup or pediatric tents.

(g) MAD does not cover oxygen tank rental (demurrage) charges as separate charges when renting gaseous tank oxygen systems. If MAD pays rental charges for a system, tank rental is included in the rental payments. MAD follows the medicare rules for: (i) limiting or capping reimbursement for oxygen rental at 36 months; (ii) requirements for the provider to maintain and repair the equipment; and (iii) to providing ongoing services and disposable supplies after the capped rental;

(h) a NF is administratively responsible for overseeing oxygen supplied to the MAP eligible recipient resident.

(9) Augmentative and alternative communication devices: MAD covers medically necessary electronic or manual augmentative communication devices for a MAP eligible recipient. Medical necessity is determined by MAD or its designee. Communication devices whose purpose is also educational or vocational are covered only when it has been determined the device meets medical criteria. A MAP eligible recipient must have the cognitive ability to use the augmentative communication device, and not be able to functionally communicate verbally or through gestures.

(a) All of the following criteria must be met before an augmentative communication device can be considered for prior authorization. The communication device must be:

(i) a reasonable and necessary part of the MAP eligible recipient’s treatment plan;

(ii) consistent with the MAP eligible recipient's symptoms, diagnosis or medical condition of the illness or injury under treatment;

(iii) not furnished for the convenience of the MAP eligible recipient, the family, the attending practitioner or other practitioner or supplier;

(iv) necessary and consistent with generally accepted professional medical standards of care;

(v) established as safe and effective for the MAP eligible recipient's treatment protocol;

(vi) furnished at the most appropriate level suitable for use in the MAP eligible recipient's home environment;

(vii) augmentative and alternative communication devices are authorized every 60 months for a MAP eligible recipient 21 years of age and older and every 36 months for a MAP eligible recipient under 21 years of age, unless earlier authorization is dictated by medical necessity; and

(viii) repairs to, and replacement parts for augmentative and alternative communication devices owned by the MAP eligible recipient.

(10) Rental of DME: MAD covers the rental of DME.

(a) MAD does not cover routine maintenance and repairs for rental equipment as it is the provider's responsibility to repair or replace the MAP eligible recipient's equipment during the rental period.

(b) Low cost items, defined as those items for which the MAD allowed payment is less than $150, may only be purchased. For these items, the purchased DME becomes the property of the MAP eligible recipient for whom it was approved.

(c) MAD covers the rental and purchase of used equipment. The equipment must be identified and billed as used equipment. The equipment must have a statement of condition or warranty, and a stated policy covering liability.

(11) Delivery of equipment and shipping charges: MAD covers the delivery of a DME item only when the equipment is initially purchased or rented and the round trip delivery is over 75 miles. A provider may bill delivery charges as a separate additional charge when the provider customarily charges a separate amount for delivery to its clients who are not a MAP eligible recipient of the service. MAD does not pay delivery charges for equipment purchased by medicare, for which MAD is responsible only for the coinsurance and deductible. MAD covers the shipping charges for DME and medical supplies when it is more cost effective or practical to ship items to the MAP eligible recipient rather than have him or her travel to pick up items. Shipping charges are

defined as the actual cost of shipping an item from a provider to a MAP eligible recipient by a means other than that of provider delivery. MAD does not pay shipping charges for an item purchased by medicare for which MAD is only responsible for the coinsurance and deductible.

(12) Wheelchairs and seating systems:

(a) MAD covers customized wheelchairs and seating systems made for a specific MAP eligible recipient, including a MAP eligible recipient who is institutionalized. Written prior authorization is required by MAD or its designee. MAD or its designee cannot give verbal authorizations for customized wheelchairs and seating systems. A customized wheelchair and seating system is defined as one that has been uniquely constructed or substantially modified for a specific MAP eligible recipient and is so different from another item used for the same purpose that the two items cannot be grouped together for pricing purposes. There must be a customization of the frame for the wheelchair base or seating system to be considered customized.

(b) Repairs to a wheelchair owned by a MAP eligible recipient residing in an institution are covered.

(c) A customized or motorized wheelchair required by a MAP eligible recipient who is institutionalized to pursue educational or employment activity outside the institution may be covered, but must be reviewed on a case-by-case basis by MAD or its designee.

D. **Prosthetics and orthotics supplies:** MAD covers medically necessary prosthetics and orthotics supplied by a MAD provider to a MAP eligible recipient only when specified requirements or conditions are satisfied. Prosthetic devices are replacements or substitutes for a body part or organ, such as an artificial limb or eye prosthesis. Orthotic devices support or brace the body, such as trusses, compression custom-fabricated stockings and braces. MAD covers prosthetics and orthotics only when all the following conditions are met:

(1) the device has been ordered by the MAP eligible recipient's PCP or other appropriate practitioner and is medically necessary for MAP eligible recipient's mobility, support or physical functioning;

(2) the need for the device is not satisfied by the existing device the MAP eligible recipient currently has;

(3) the device is covered by MAD and all prior approval requirements have been satisfied;

(4) coverage of compression stockings for a MAP eligible recipient 21 years and older is limited to stockings that are custom-fabricated to meet his or her medical needs;

(5) coverage of orthopedic shoes for a MAP eligible recipient 21 years and older is limited to the shoe that is attached to a leg brace;

(6) replacement of items is limited to one item every three years, unless there is a change in the MAP eligible recipient's medical necessity; and

(7) therapeutic shoes furnished to a diabetic is limited to one of the following within one calendar year:

(a) no more than one pair of custom-molded shoes (including inserts provided with such shoes) and two additional pairs of inserts; and

(b) no more than one pair of depth shoes and three pairs of inserts (not including the non-customized removable inserts provided with such shoes).

[8.324.5.12 NMAC - Rp, 8.324.5.12 NMAC, 1-1-14]

8.324.5.13 UTILIZATION REVIEW AND PRIOR AUTHORIZATION:

All MAD services are subject to UR for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished, and before payment is made or after payment is made; see 8.302.5 NMAC. MAD makes available on its website and other websites UR instructions. It is the provider's responsibility to access these instructions or ask for hard copies to be provided, to understand the information provided, to comply with the requirements, and to obtain answers to questions not covered by these materials. Prior authorization does not guarantee that an individual is eligible for a MAD service.

A. **Prior authorization:** Certain procedures or services may require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to UR at any point in the payment process. When services are billed to and paid by a coordinated services contractor authorized by MAD, the provider must follow that contractor's instructions for the authorization of a service. Written requests for items not included in the categories listed or for a quantity greater than that covered by MAD in this rule may be submitted by the MAP eligible recipient's PCP, with a prior authorization request to MAD or its designee for consideration of medical necessity.

B. **Eligibility determination:** The prior authorization of a service does not guarantee that an individual is eligible for a MAD service. A provider must verify that an individual is eligible for a specific MAD service at the time the service is furnished and must determine if the MAP eligible recipient has other health insurance.

C. **Reconsideration:** A provider who disagrees with a prior authorization denial or another review decision may request a reconsideration; see 8.350.2 NMAC.

D. **Prior authorization for specific services:** The following services and procedures require prior authorization from MAD or its designee:

(1) hearing appliances:

(a) hearing aid dispensing, purchase, rental and replacement;

(b) hearing aid repairs for which the provider's billed charge exceeds $100;

(c) services for which prior authorization was obtained remain subject to review at any point in the payment process; and

(d) medical clearance: PCP medical approval is required on any request for prior authorization for hearing aids; the MAP eligible recipient's PCP must certify that her or she is a suitable candidate for hearing aids by signing the hearing aid evaluation and information MAD prior authorization form; documentation must be on the PCP's letterhead or prescription pad; this documentation must be submitted with the prior approval request; a MAP eligible recipient under 16 years of age, must be examined by a physician who is board certified in the diagnosis and treatment of diseases and conditions of the ear for all hearing aid fittings.

(2) DME, oxygen and medical supplies: MAD covers certain medical supplies, nutritional products and DME provided to a MAP eligible recipient with prior authorization. Please refer to criteria in 8.301.3 NMAC for DME or medical supplies that are not covered. MAD covers the following benefits with prior authorization for a non-institutionalized MAP eligible recipient:

(a) enteral nutritional supplements and products for a MAP eligible recipient who must be tube fed oral nutritional supplements;

(b) oral nutritional support products prescribed by the MAP eligible recipient's PCP:

(i) on the basis of a specific medical indication for a MAP eligible recipient who has a defined need for which nutritional support is considered therapeutic, and for which regular food, blenderized food, or commercially available retail consumer nutritional supplements would not meet his or her medical needs;

(ii) when medically necessary due to inborn errors of metabolism;

(iii) medically necessary to correct or ameliorate physical illnesses or conditions in a MAP eligible recipient under 21 years of age; or

(iv) coverage does not include commercially available food alternatives, such as low or sodium-free foods, low or fat-free foods, low or cholesterol-

free foods, low or sugar-free foods, low or high calorie foods for weight loss or weight gain, or alternative foods due to food allergies or intolerance;

(c) either disposable diapers or underpads prescribed for a MAP eligible recipient age three years and older who suffers from neurological or neuromuscular disorders or who has other diseases associated with incontinence is limited to either 200 diapers per month or 150 underpads per month;

(d) supports and positioning devices that are part of a DME system, such as seating inserts or lateral supports for a specialized wheelchair;

(e) protective devices, such as helmets and pads;

(f) bathtub rails and other rails for use in the bathroom;

(g) electronic monitoring devices, such as electronic sphygmomanometers, oxygen saturation, fetal or blood glucose monitors and pacemaker monitors;

(h) passive motion exercise equipment;

(i) decubitus care equipment;

(j) equipment to apply heat or cold;

(k) hospital bed and full length side rails;

(l) compressor air power sources for equipment that is not self-contained or cylinder driven;

(m) home suction pump and lymph edema pump;

(n) hydraulic patient lift;

(o) ultraviolet cabinet;

(p) traction equipment;

(q) prone stander and walker;

(r) trapeze bar or other patient-helpers that are attached to bed or freestanding;

(s) home hemodialysis or peritoneal dialysis system and its replacement supplies or accessories;

(t) wheelchair and functional attachments to a wheelchair; a wheelchair is authorized every 60 months for a MAP eligible recipient 21 years and older; for a MAP eligible recipient under 21 years of age, a wheelchair can be authorized every 36 months; and earlier authorization is possible when dictated by his or her medical necessity;

(u) wheelchair tray;

(v) whirlpool bath designed for home use;

(w) intermittent or continuous positive pressure breathing equipment;

(x) manual or electronic augmentative and alternative communication device;

(y) truss and anatomical supports that require fitting or adjusting by trained individuals, including a JOBST hose;

(z) custom-fitted compression stockings; and

(aa) artificial larynx prosthesis.

(3) Prosthetics and orthotics: All prosthetic devices require prior authorization from MAD or its designee. The only prior authorization requirement exception is for a prosthetic limb attached immediately following a surgery for a traumatic injury while the MAP eligible recipient is a hospital inpatient. Prior authorization is required for orthotic devices for the foot or for shoes. Services for which prior authorization was obtained remain subject to UR at any point in the payment process.

[8.324.5.13 NMAC - Rp, 8.324.5.13 NMAC, 1-1-14]

8.324.5.14 SERVICE LIMITATIONS AND COVERAGE RESTRICTIONS:

A. **Special requirements for the purchase of wheelchairs:** Before billing for a customized wheelchair, the provider who delivers the wheelchair and seating system to a MAP eligible recipient must make a final evaluation to ensure that the wheelchair and seating system meets the medical, social and environmental needs of the MAP eligible recipient for whom it was authorized.

(1) The provider assumes responsibility for correcting defects or deficiencies in the wheelchair and seating systems that make them unsatisfactory for use by the MAP eligible recipient.

(2) The provider is responsible for consulting physical therapists, occupational therapists, special education instructors, teachers, parents or guardians as necessary to ensure that the wheelchair meets the MAP eligible recipient’s needs.

(3) Evaluations by a physical therapist or occupational therapist are required when ordering customized wheelchair and seating system. The therapist should be familiar with the brands and categories of wheelchairs and appropriate seating systems and work with the MAP eligible recipient and those consultants listed in Paragraph (2) above to assure that the selected system matches physical seating needs. The physical or occupational therapist may not be a wheelchair vendor or under the employment of a wheelchair vendor or wheelchair manufacturer.

(4) MAD does not pay for special modifications or replacement of a customized wheelchair after the wheelchair is furnished to the MAP eligible recipient.

(5) When the equipment is delivered to the MAP eligible recipient and the MAP eligible recipient accepts the order, the provider will submit the claim for reimbursement.

B. **Special requirements for purchase of augmentative and alternative communication devices:**

(1) The purchase of augmentative communication devices requires prior authorization. In addition to being prescribed by the MAP eligible recipient's PCP, the communication device must also be recommended by a speech-language pathologist, who has completed a systematic and comprehensive evaluation. The speech pathologist may not be a vendor of augmentative communication systems nor have a financial relationship with a vendor.

(2) A trial rental period of up to 60 calendar days is required for all electronic devices to ensure that the chosen device is the most appropriate device to meet the MAP eligible recipient's medical needs. At the end of the trial rental period, if purchase of the device is recommended, documentation of the MAP eligible recipient's ability to use the communication device must be provided showing that the MAP eligible recipient's ability to use the device is improving and that the MAP eligible recipient is motivated to continue to use this device.

(3) MAD does not pay for supplies for augmentative and alternative communication devices, such as, but not limited to: paper, printer ribbons, and computer discs.

(4) Prior authorization is required for equipment repairs.

(5) A provider or medical supplier that routinely supplies an item to a MAP eligible recipient must document that the order for additional supplies was requested by the MAP eligible recipient or his or her authorized representative and the provider or supplier must confirm that the MAP eligible recipient does not have in excess of a 15 calendar day supply of the item before releasing the next supply order to the MAP eligible recipient. A provider must keep documentation in his or her files available for audit that show compliance with this requirement.

[8.324.5.14 NMAC - Rp, 8.324.5.14 NMAC, 1-1-14]

8.324.5.15 NONCOVERED SERVICES:

The following services are subject to the limitations and coverage restrictions that exist for other MAD services; see 8.302.1 NMAC and 8.310.2 NMAC. The provider must notify the MAP eligible recipient of the coverage limitations prior to providing services.

A. **Vision appliances:** MAD does not cover the following specific vision services:

(1) orthoptic assessment and treatment;

(2) photographic procedures, such as fundus or retinal photography and external ocular photography;

(3) polycarbonate lenses other than those listed in Subsection A of Section 13 of this part;

(4) ultraviolet (UV) lenses;

(5) trifocals;

(6) progressive lenses;

(7) tinted or photochromic lenses, except in cases of documented medical necessity; see Subsection D of Section 12 of this part;

(8) oversize frames and oversize lenses;

(9) low vision aids;

(10) eyeglass cases;

(11) eyeglass or contact lens insurance; and

(12) anti-scratch, anti-reflective, or mirror coating.

B. **Hearing appliances:** Hearing aid selection and fitting is considered included in the hearing aid dispensing fee, and will not be reimbursed separately.

C. **DME, oxygen and medical supplies:** MAD does not cover certain DME and medical supplies. See 8.301.3 NMAC for an overview of which DME or supply item is not covered by MAD.

D. **Prosthetic and orthotics:** The following services are not covered:

(1) orthotic supports for the arch or other supportive devices for the foot, unless they are integral parts of a leg brace or therapeutic shoes furnished to diabetics; and

(2) prosthetic devices or implants that are used primarily for cosmetic purposes.

[8.324.5.15 NMAC - Rp, 8.324.5.15 NMAC, 1-1-14]

8.324.5.16 REIMBURSEMENT:

Once enrolled, a provider receives instructions on how to access documentation, billing, and claims processing. Reimbursement to a provider for covered services is made at the lesser of the following: (1) the provider's billed charge; or (2) the MAD fee schedule for the specific service or procedure.

A. The provider's billed charge must be his or her usual and customary charge for services.

B. "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

C. **Vision appliances:** A vision service provider, except an IHS facility, must submit claims for reimbursement on the CMS 1500 claim form or its successor.

D. **Hearing appliances:** A hearing aid or related service provider must submit claims for reimbursement on the CMS 1500 claim form or its successor. Reimbursement for hearing aids is made at the lesser of the provider's billed charge, at the cost to the billing provider as indicated by the manufacturer's, the distributor's or wholesaler's invoice, which shall not exceed MAD's maximum reimbursement limitation amounts.

(1) Reimbursement for rental of hearing aids includes the following:

(a) rental charge for hearing aid; and

(b) hearing aid mold and batteries.

(2) Rental payments apply to the allowed amount for purchase. When the rental payments equal the amount allowed for purchase, the aid is considered purchased and owned by the MAP eligible recipient.

(3) Reimbursement for repairs to hearing aids is based on the MAD fee schedule. Reimbursement for repairs to hearing aids done by a manufacturer is the lesser of the provider's billed charge or the manufacturer's charge for the repairs plus a predetermined handling fee. If complications in securing the manufacturer's repair

cause the provider to incur handling costs exceeding the predetermined amount established by MAD, the billing provider can be reimbursed for actual handling costs incurred if these actual costs are adequately documented.

(4) Reimbursement is made for additional accessories and supplies, including batteries, when required. Reimbursement is made for an additional mold when a single aid type is used for both ears.

(5) Reimbursement is made for replacement ear molds.

(6) Reimbursement for insurance for hearing aid loss and accidental damage is paid at the lesser of the provider's billed charge or the maximum fee allowed by MAD. If the insurance policy cost exceeds the maximum fee established by MAD, reimbursement can be made at the actual policy rate if the actual cost is documented.

(7) Hearing appliances reimbursement limitations:

(a) Hearing aid purchase: Hearing aid purchase is limited to one monaural or binaural purchase per four year period with the following exceptions:

(i) a MAP eligible recipient under 21 years of age and is subject to prior approval;

(ii) progressive hearing loss, such as otosclerosis;

(iii) changes due to surgical procedures;

(iv) traumatic injury; and

(v) replacement of lost hearing aid in accordance with his or her insurance coverage.

(b) Dispensing fees: The hearing aid dispensing fee includes payment for the services listed below. If a binaural dispensing fee is paid, it includes payment for all services listed below for both hearing aids:

(i) hearing aid selection and the fitting of the aids;

(ii) testing of the hearing aids;

(iii) one ear mold per hearing aid;

(iv) one package of batteries per hearing aid;

(v) any other accessories required to fit the aid;

(vi) all follow-up visits and adjustments necessary for a successful fitting;

(vii) cleaning and adjustments for the life of the aid; and

(viii) shipping and handling.

(c) Hearing aid evaluation: MAD covers the evaluation of a MAP eligible recipient for the hearing aid, subject to the following limitations:

(i) the evaluation for hearing aid is not payable to the same billing provider who bills for the hearing aid dispensing fee incidental to the purchase of a hearing aid;

(ii) the evaluation for hearing aid is not payable to a billing provider under the same corporate ownership as another billing provider who bills for the hearing aid dispensing fee incidental to the purchase of the hearing aid; therefore,

(iii) physicians and audiologists can be reimbursed for audiologic and vestibular function studies in addition to a dispensing fee.

[8.324.5.16 NMAC - Rp, 8.324.5.16 NMAC, 1-1-14]

8.324.5.17 REIMBURSEMENT OF DME, MEDICAL SUPPLIES AND NUTRITIONAL PRODUCTS:

A. **Reimbursement for purchase or rental:** Unless otherwise specified in this section, the provider's billed charges must be the usual and customary charge for the item or service. The term"usual and customary charge" refers to the amount that the individual provider charges the general public in the majority of cases for a specific item or service. Reimbursement for DME, medical supplies and nutritional products is made at the lesser of:

(1) the provider's billed charges or the MAD fee schedule; or

(2) when there is no applicable MAD fee schedule, payment is limited to the provider's acquisition invoice cost plus a percentage, as follows.

(a) DME, medical supplies and nutritional products:

(i) items for which the provider's actual acquisition cost, reflecting all discounts and rebates, is less than $1,000, payment is limited to the provider's actual acquisition cost plus 20 percent;

(ii) items for which the provider's actual acquisition cost, reflecting all discounts and rebates, is $1,000 or greater, payment is limited to the provider's actual acquisition cost plus 10 percent;

(b) for a custom specialized wheelchair and its customized related accessories, payment is limited to the provider's actual acquisition cost plus 15 percent.

B. **Rental payments must be applied towards the purchase with the exception of ventilators:** Unless otherwise specified in this section, the provider's billed charges must be the usual and customary charge for the item or service. Reimbursement for rental of DME is made at the lesser of:

(1) the provider's billed charges; or

(2) the MAD fee schedule, when applicable; payment for the month of rental is limited to the provider's acquisition invoice cost plus a percentage as follows:

(a) the provider must keep a running total of rental payments for each piece of equipment;

(b) the provider must consider the item sold and the item becomes the property of the MAP eligible recipient when 13 rental payments have been made for the item;

(c) the provider must consider the item sold and the item becomes the property of the MAP eligible recipient when the rental payments total the lesser of the provider's usual and customary charge for the purchase of the item or the MAD fee schedule for the purchase of the item;

(d) or for an item for which a fee schedule purchase price has not been established by MAD when the provider has received rental payments equal to one of the following:

(i) items for which the provider's actual acquisition cost, reflecting all discounts and rebates, is less than $1,000, payment is limited to the provider's actual acquisition cost plus 20 percent;

(ii) items for which the provider's actual acquisition cost, reflecting all discounts and rebates, is $1,000 or greater, payment is limited to the provider's actual acquisition cost plus 10 percent;

(3) MAD follows medicare regulations regarding capped rental; for rental months one through three, the full fee schedule rental fee is allowed; for rental months four through 13, the rental fee schedule rental fee is reduced by 25 percent; no additional rental payments are made following the 13th month or to the most current

schedule determined by medicare; the provider may only bill for routine maintenance and for repairs, and oxygen contents to the extent as allowed by medicare;

(4) oxygen is paid using the medicare billing, capped rental period, and payment rules;

(5) the provider must retain a copy of his or her acquisition invoice showing the provider's purchase of an item and make it available to MAD or its designee upon request;

(6) set-up fees are considered to be included in the payment for the equipment or supplies and are not reimbursed as a separate charge.

C. **Reimbursement for home infusion drugs:** Unless otherwise specified in this rule, the provider's billed charges must be the usual and customary charge for the item or service. Home infusion drugs are reimbursed at the lesser of:

(1) the provider's billed charge; or

(2) the MAD fee schedule;

(3) for home infusion drugs for which a fee schedule price has not been established by MAD, or for which the description associated with the appropriate billing code is too broad to establish a reasonable payment level, payment is limited to the provider's acquisition cost plus 20 percent; a provider must retain a copy of his or her acquisition invoice showing the provider's purchase of an item and make it available to MAD or its designee upon request.

D. **Reimbursement for delivery and shipping charges:** Delivery charges are reimbursed at the MAD maximum amount per mile. Shipping charges are reimbursed at actual cost if the method used is the least expensive method. MAD does not pay for charges for shipping items from a supplier to the provider.

E. **Reimbursement limitations:** MAD does not cover DME or medical supplies that do not meet the definition of DME as described in Section 12 of this rule. The following criteria are applied to each request as part of the determination of non-coverage:

(1) items that do not primarily serve a therapeutic purpose or are generally used for comfort or convenience purposes;

(2) environment-control equipment that is not primarily medical in nature;

(3) institutional equipment that is not appropriate for home use;

(4) items that are not generally accepted by the medical profession as being therapeutically effective or are determined by medicare regulations to be ineffective or unnecessary;

(5) items that are hygienic in nature;

(6) hospital or physician diagnostic items;

(7) instruments or devices manufactured for use by PCP;

(8) exercise equipment not primarily medical in nature or for the sole purpose of muscle strengthening or muscle stimulation without a medically necessary purpose;

(9) support exercise equipment primarily for institutional use;

(10) items that are not reasonable or necessary for monitoring the pulse of a homebound MAP eligible recipient with or without a cardiac pacemaker;

(11) items that are used to improve appearance or for comfort purposes;

(12) items that are precautionary in nature except those needed to prevent urgent or emergent events; and

(13) a provider or medical supplier that routinely supplies an item to a MAP eligible recipient must document that the order for additional supplies was requested by the MAP eligible recipient or his or her authorized representative and the provider or supplier must confirm that the MAP eligible recipient does not have an excess of a 15 calendar day supply of the item before releasing the next supply to the MAP eligible recipient.

[8.324.5.17 NMAC - N, 1-1-14]

8.324.5.18 REIMBURSEMENT FOR PROSTHETICS AND ORTHOTICS:

A. A prosthetic and orthotic service provider must submit claims for reimbursement on the CMS-1500 claim form or its successor. Reimbursement for repairs made by the provider is made at the actual repair cost plus 50 percent. Repairs made by the manufacturer are reimbursed to the provider at the actual manufacturer's repair cost plus a handling fee of $20. If complications in securing the manufacturer's repair cause the provider to incur handling costs exceeding the predetermined amount established by MAD, the billing provider can be reimbursed for actual handling costs incurred if these actual costs are adequately documented. Reimbursement for additional accessories and supplies is made at the lower of the actual cost of the supply or accessory or the MAD fee schedule for the particular item.

B. **Reimbursement limitations:** The amount billed for the item includes all minor attachments, adjustments, additions, modifications, fittings and other services necessary to make the device functional. These items cannot be billed separately.

(1) MAD does not cover an additional charge for a hospital visit or home visit if fittings or measurements take place away from the provider's office.

(a) If the place of service is outside the provider's city limits, mileage can be billed for travel to the place of service.

(b) A prosthetic or orthotic device for a MAP eligible recipient hospitalized in a diagnostic related group (DRG) reimbursed hospital is reimbursed by the DRG methods described in 8.311.3 NMAC.

(2) Date of service: The date of service declared on a claim is the date when the device is supplied to the MAP eligible recipient, not the fitting date or measuring date.

(3) No specification of brand or quality: When an ordering provider requests an item and does not specify the brand or quality of the item to be dispensed, the item chosen must be of a quality and minimal cost which adequately serves the purpose for which the device is required.

[8.324.5.18 NMAC - N, 1-1-14]

PART 6: HEARING AIDS AND RELATED EVALUATIONS [REPEALED]

[This part was repealed on January 1, 2014.

PART 7: TRANSPORTATION SERVICES AND LODGING

8.324.7.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.324.7.1 NMAC - Rp, 8.324.7.1 NMAC, 1/1/2014; A, 7/1/2024]

8.324.7.2 SCOPE:

The rule applies to the general public.

[8.324.7.2 NMAC - Rp, 8.324.7.2 NMAC, 1-1-14]

8.324.7.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See NMSA 1978, Section 27-1-12 et seq. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.324.7.3 NMAC – Rp, 8.324.7.3 NMAC, 1/1/2014; A, 7/1/2024]

8.324.7.4 DURATION:

Permanent.

[8.324.7.4 NMAC - Rp, 8.324.7.4 NMAC, 1-1-14]

8.324.7.5 EFFECTIVE DATE:

January 1, 2014, unless a later date is cited at the end of a section.

[8.324.7.5 NMAC - Rp, 8.324.7.5 NMAC, 1-1-14]

8.324.7.6 OBJECTIVE:

The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs (MAP).

[8.324.7.6 NMAC - Rp, 8.324.7.6 NMAC, 1-1-14]

8.324.7.7 DEFINITIONS:

[RESERVED]

8.324.7.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.324.7.8 NMAC - Rp, 8.324.7.8 NMAC, 1-1-14]

8.324.7.9 TRANSPORTATION SERVICES:

The New Mexico medical assistance division (MAD) covers expenses for transportation and other related expenses that MAD or its coordinated services contractor determines are necessary to secure covered medical and behavioral health examinations and treatment for a medical assistance program (MAP) eligible recipient in or out of his or

her home community [42 CFR Section 440.170]. Travel expenses include the cost of transportation by long distance common carriers, taxicab, handivan, and ground or air ambulance, all as appropriate to the situation and location of the MAP eligible recipient. Related travel expenses include the cost of meals and lodging made necessary by receipt of medical or behavioral health care away from the MAP eligible recipient's home community. When medically necessary, MAD covers similar expenses for an attendant who accompanies the MAP eligible recipient to the medical or behavioral health examination or treatment.

[8.324.7.9 NMAC - Rp, 8.324.7.9 NMAC, 1-1-14]

8.324.7.10 ELIGIBLE PROVIDERS:

Health care to a MAP eligible recipient is furnished by a variety of providers and provider groups. Reimbursement and billing for these services are administered by MAD. Upon approval of a New Mexico MAD provider participation agreement (PPA) by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to a MAP eligible recipient. Providers must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HSD/MAD website, on other program specific websites, and in hard copy format, information necessary to participate in health care programs administered by HSD or its authorized agents, including program rules, billing instructions, utilization review (UR) instructions, and other pertinent material. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. Providers must contact HSD, or its authorized agents, for answers to billing questions or any of these materials. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD PPA and applicable statutes, regulations, rules, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only. Providers must supply necessary information in order for payment to be made. The following providers are eligible to be reimbursed for providing transportation or transportation related services to MAP eligible recipients:

A. air ambulances certified by the state of New Mexico department of health (DOH), emergency medical services bureau;

B. ground ambulance services certified by the New Mexico public regulation commission (NMPRC) or by the appropriate state licensing body for out-of-state ground ambulance services, within those geographic regions in the state specifically authorized by the NMPRC;

C. non-emergency transportation vendors (taxicab, vans and other vehicles) and certain bus services certified by the NMPRC, within those geographic regions in the state specifically authorized by the NMPRC;

D. long distance common carriers, that include buses, trains and airplanes;

E. certain carriers exempted or warranted by the NMPRC within those geographic regions in the state specifically authorized by the NMPRC;

F. lodging and meal providers; and

G. when services are billed to and paid by a MAD MAP coordinated services contractor authorized by HSD, under an administrative services contract, the provider must also enroll as a provider with the coordinated services contractor and follow that contractor's instructions for billing and for authorization of services.

[8.324.7.10 NMAC - Rp, 8.324.7.10 NMAC, 1-1-14]

8.324.7.11 PROVIDER RESPONSIBILITIES AND REQUIREMENTS:

A. A provider who furnishes services to a MAP eligible recipient must comply with all federal, state, local laws, rules, regulations, executive orders and the provisions of the provider participation agreement (PPA). A provider must adhere to MAD program rules as specified in the New Mexico MAD administrative code (NMAC) rules, and policies that include but are not limited to supplements, billing instructions, and UR directions, as updated. The provider is responsible for following coding manual guidelines and centers for medicare and medicaid services (CMS) correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify an individual is eligible for a specific MAD service and verify the recipient's enrollment status at time of service as well as determining if a copayment is applicable or if services require prior authorization. A provider must determine if a MAP eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to a MAP eligible recipient.

C. MAD services furnished must be within the scope of practice defined by the provider's licensing board, scope of practice act, or regulatory authority. See 8.302.1 NMAC.

[8.324.7.11 NMAC - Rp, 8.324.7.11 NMAC, 1-1-14]

8.324.7.12 COVERED SERVICES AND SERVICE LIMITATIONS:

MAD reimburses a transportation provider for transportation only when the transport is of a MAP eligible recipient and is subject to the following conditions.

A. **Free alternatives:** Alternative transportation services that can be provided free of charge include volunteers, relatives or transportation services provided by nursing facilities (NF) or other residential centers.

B. **Least costly alternatives:** MAD covers the most appropriate and least costly transportation alternatives suitable for the MAP eligible recipient's medical or behavioral health condition. If a MAP eligible recipient can use a private vehicle or public transportation, those alternatives must be used before a MAP eligible recipient can use more expensive transportation alternatives.

C. **Non-emergency transportation service:** MAD covers non-emergency transportation services for a MAP eligible recipient who has no primary transportation and who is unable to access a less costly form of public transportation except as described under non-covered services. See 8.324.7.13 NMAC.

D. **Long distance common carriers:** MAD covers long distance services furnished by a common carrier if a MAP eligible recipient must leave his or her home community to receive medical or behavioral health services. Authorization forms for direct payment to long distance bus common carriers by MAD are available through local county income support division (ISD) offices.

E. **Ground ambulance services:** MAD covers services provided by ground ambulances when:

(1) an emergency that requires ambulance service is certified by a physician or is documented in the provider's records as meeting emergency medical necessity criteria: terms are defined as follows:

(a) "emergency" is defined as a medical or behavioral health condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in placing the health of the MAP eligible recipient (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, serious impairment to body function or serious dysfunction of any bodily organ or part;

(b) "medical necessity" is established for ambulance services if the MAP eligible recipient's physical, or behavioral health condition is such that the use of any other method of transportation is contraindicated and would endanger the MAP eligible recipient's health.

(2) Scheduled, non-emergency ambulance services are ordered by a primary care provider (PCP) who certifies that the use of any other method of non-emergency transportation is contraindicated by the MAP eligible recipient's physical, or behavioral health condition. MAD covers non-reusable items and oxygen required during transportation, if needed; coverage for these items is included in the base rate reimbursement for ground ambulance.

F. **Air ambulance services:** MAD covers services provided by air ambulances, including private airplanes, if an emergency exists and the PCP certifies the medical necessity for the service.

(1) An emergency that would require air over ground ambulance services is defined as a medical or behavioral health condition, including emergency labor and delivery, manifesting itself by acute symptoms of sufficient severity such that the absence of immediate medical attention could reasonably be expected to result in one of the following:

(a) a MAP eligible recipient's death;

(b) placement of a MAP eligible recipient's health is in serious jeopardy (or with respect to a pregnant woman, the health of the woman or her unborn child);

(c) serious impairment of bodily functions; or

(d) serious dysfunction of any bodily organ or part.

(2) Coverage for the following is included in the base rate reimbursement for air ambulance:

(a) non-reusable items and oxygen required during transportation;

(b) professional attendants required during transportation;

(c) detention time or standby time; and

(d) use of equipment required during transportation.

G. **Lodging services:** MAD covers lodging services if a MAP eligible recipient is required to travel to receive medical services more than four hours one way and an overnight stay is required due to medical necessity or cost considerations. If medically justified and approved, lodging is initially set for up to five continuous days. For a longer stay, the need for lodging must be re-evaluated by the fifth day to authorize up to an additional 15 days. Re-evaluation must be made every 15 days for extended stays, prior to the expiration of the existing authorization. Approval of lodging is based on the medical or behavioral health provider's statement of need. Authorization forms for direct payment by MAD to its lodging providers are available through local county ISD offices.

H. **Meal services:** MAD covers meals if a MAP eligible recipient is required to leave his or her home community for eight hours or more to receive medical or behavioral health services. Authorization forms for direct payment to MAD meal providers by MAD are available through local county ISD offices.

I. **Coverage for attendants:** MAD covers transportation, meals and lodging for one attendant if the medical necessity for the attendant is certified in writing justified by the MAP eligible recipient's medical provider or the MAP eligible recipient who is receiving medical service is under 18 years of age. The attendant for a child under 18 years of age should be the parent or legal guardian. If the medical appointment is for an adult MAP eligible recipient, MAD does not cover transportation services or related expenses of children under 18 years of age traveling with the adult MAP eligible recipient.

J. **Coverage for medicaid home and community-based services waiver recipients:** Transportation of a medicaid waiver recipient to or from a provider of waiver service is only covered when the service is a physical therapy, occupational therapy, speech therapy or a behavioral health service.

[8.324.7.12 NMAC - Rp, 8.324.7.12 NMAC, 1-1-14]

8.324.7.13 NONCOVERED SERVICES:

Transportation services are subject to the same limitations and coverage restrictions that exist for other MAD services. See 8.301.3 NMAC. Payments for transportation for any non-covered service is subject to retroactive recoupment.

A. MAD does not pay to transport a MAP eligible recipient to a medical or behavioral health service or provider that is not covered under the MAD program.

B. A provider will not be eligible to seek reimbursement from a MAP eligible recipient if the provider fails to notify the MAP eligible recipient or his or her authorized representative that the service is not covered by MAD. See 8.302.1 NMAC.

C. Transportation services will not be provided when other alternatives are available, such as mail delivery or free delivery. Retail pharmacies may mail, ship or deliver prescriptions to medicaid recipients consistent with applicable state and federal statutes and regulations.

[8.324.7.13 NMAC - Rp, 8.324.7.13 NMAC, 1-1-14]

8.324.7.14 OUT-OF-STATE TRANSPORTATION AND RELATED EXPENSES:

Out-of-state transportation and related expenses require prior authorization by MAD or its designee. Out-of-state transportation is authorized only if the out-of-state medical or behavioral health service is approved by MAD or its designated contractor. Documentation must be available to the reviewer to justify the out-of-state travel and verify that treatment is not available in New Mexico.

A. Requests for out-of-state transportation must be coordinated through MAD.

B. Authorization for lodging and meal services by an out-of-state provider can be granted for up to 30 days by MAD. Re-evaluation authorizations are completed prior to expiration and every 30 days, thereafter.

C. Transportation to border cities, is defined as those cities within 100 miles of the New Mexico border (Mexico excluded), are treated as an in-state provider service. See 8.302.4 NMAC.

[8.324.7.14 NMAC - Rp, 8.324.7.14 NMAC, 1-1-14]

8.324.7.15 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All MAD services are subject to utilization review (UR) for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished, and before payment is made or after payment is made. See 8.302.5 NMAC. The provider must contact HSD or its authorized agents to request UR instructions. It is the provider's responsibility to access these instructions or request hard copies to be provided, to understand the information, to comply with the requirements, and to obtain answers to questions not covered by these materials. When services are billed to and paid by a MAD fee-for-service coordinated services contractor, the provider must follow that contractor's instructions for authorization of services.

A. **Prior authorization:** Certain procedures or services may require prior authorization from MAD or its designee. Services for which prior authorization is received remain subject to UR at any time during the payment process.

B. **Referrals for travel outside the home community:**

(1) If a MAP eligible recipient must travel over 65 miles from his or her home community to receive medical or behavioral health care, the transportation provider must obtain and retain in its billing records written verification from the referring provider or the service provider containing the following:

(a) the medical, behavioral health or diagnostic service for which the MAP eligible recipient is being referred;

(b) the name of the out of community provider; and

(c) justification that the medical or behavioral health care is not available in the home community.

(2) Referrals and referral information must be obtained from a MAD provider. For continued out-of-community, non-emergency transportation, the required information must be obtained every six months.

C. **Eligibility determination:** Prior authorization does not guarantee that individuals are eligible for MAD services. Providers must verify that an individual is eligible for MAD services at the time services are furnished and determine if the MAP eligible recipient has other health insurance.

[8.324.7.15 NMAC - Rp, 8.324.7.15 NMAC, 1-1-14]

8.324.7.16 REIMBURSEMENT:

A. Transportation providers must submit claims for reimbursement on the CMS-1500 form or its successor. See 8.302.2 NMAC. Reimbursement to transportation, meal or lodging providers for covered services is made at the lesser of the following:

(1) the provider's billed charge:

(a) the billed charge must be the provider's usual and customary charge for services; for a provider with a tariff, the billed charge must be the lesser of the charges allowed by the provider's tariff or the provider's usual and customary charge.

(b) "usual and customary charge" refers to the amount an individual provider charges the general public in the majority of cases for a specific procedure or service; or

(2) the MAD fee schedule for the specific service or procedure; reimbursement by the MAD program to a transportation provider is inclusive of gross-receipts taxes and other applicable taxes; an air ambulance provider is exempt from paying gross receipts tax; therefore, the rates paid for air ambulance service do not include gross receipts tax.

B. **Ground ambulance:** A provider of ground ambulance services is reimbursed at the lesser of their billed charge for the service or the MAD maximum allowed amount.

(1) The MAD maximum allowed amount for transports up to 15 miles is limited to the base rate amount. The allowable base rate for advanced life support (ALS) or basic life support (BLS) includes reimbursement for the ALS or BLS equipped service, oxygen, disposable supplies and medications used in transport. The base rate reimbursement includes mileage reimbursement for the first 15 miles of transport.

(2) The allowable base rate for a scheduled non-emergency transport includes reimbursement for oxygen, disposable supplies and medications used in transport. The base rate includes mileage reimbursement for the first 15 miles of transport.

C. **Air ambulance:** A provider of air ambulance services is reimbursed at the lesser of billed charges or the MAD maximum allowed rate.

D. **Non-emergency transportation services:**

(1) A provider of non-emergency transportation is reimbursed at the lesser of their approved tariff or the MAD rate for one or multiple MAP eligible recipient transports not meeting the"additional passenger" criteria below.

(2) Reimbursement will be limited to the MAD reimbursement limitation per one-way trip for a MAP eligible recipient being transported for medical care. MAD does not provide reimbursement for any portion of the trip for which the MAP eligible recipient is not in the vehicle.

(3) An"additional passenger transport" is a non-emergency transport of two or more MAP eligible recipients who are picked up at the same location and are being transported to the same provider. Additional passenger transport services will not be covered. When more than one MAP eligible recipient is being transported from the same location to the same provider and each MAP eligible recipient has a scheduled MAD-covered medical or behavioral health appointment, MAD will allow coverage for one MAP eligible recipient.

(4) MAD covers transportation for one attendant when the MAP eligible recipient is a child 10 years of age or younger not meeting the additional passenger criteria if the medical necessity for the attendant is justified in writing by the MAP eligible recipient’s medical or behavioral health provider for each transport. In cases where the MAP eligible recipient’s condition is ongoing and the need for a medical attendant will not change, the attestation must be renewed every six months, unless the MAP eligible recipient who is receiving medical or behavioral health service is under 18 years of age. If the medical or behavioral health appointment is for a MAP eligible recipient 21 years of age and older, MAD does not cover transportation services or related expenses of children under 18 years of age traveling with the MAP eligible recipient.

(5) MAD covers transportation to scheduled, structured counseling and therapy sessions for a MAP eligible recipient, family, or multi-family groups, based on individualized needs as specified in the treatment plan. Claims for services are to be filed under the name of the MAP eligible recipient being primarily treated through these sessions.

8.324.10.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.324.10.5 NMAC - Rp 8.324.10.5 NMAC, 7/1/2024]

8.324.10.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[8.324.10.6 NMAC - Rp 8.324.10.6 NMAC, 7/1/2024]

8.324.10.7 DEFINITIONS:

[RESERVED]

8.324.10.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.324.10.8 NMAC - Rp 8.324.10.8 NMAC, 7/1/2024]

8.324.10.9 AMBULATORY SURGICAL CENTER SERVICES:

New Mexico medicaid program (medicaid) pays for medically necessary health services furnished to eligible recipients, including covered services furnished in ambulatory surgical centers 42 CFR Section 440.20(a). This part describes eligible providers, covered services, service limitations and general reimbursement methodology.

[8.324.10.9 NMAC - Rp 8.324.10.9 NMAC, 7/1/2024]

8.324.10.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation application by the New Mexico medical assistance division (MAD), ambulatory surgical centers certified to participate in medicare under Title XVIII of the Social Security Act as free-standing ambulatory surgical centers are eligible to be reimbursed by medicaid for providing services as ambulatory surgical centers.

(1) The centers for medicare and medicaid (CMS) certify ambulatory surgical centers based on surveys and recommendations submitted by the licensing and certification bureau of the New Mexico department of health (DOH).

(2) Ambulatory surgical centers which are not free-standing but are part of an accredited and certified hospital are subject to 8.311.2 NMAC, Hospital Services.

B. Once enrolled, providers receive and are responsible for maintenance of a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. To be eligible for medicaid reimbursement, providers are bound by MAD policies, procedures, billing instructions, reimbursement rates, and all audit, recoupment and withholding provisions unless superceded by federal law, federal regulation or the specific written approval of the MAD director. Providers must be enrolled as medicaid providers before submitting a claim for payment to MAD claims processing contractor.

[8.324.10.10 NMAC - Rp 8.324.10.10 NMAC, 7/1/2024]

8.324.10.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all federal and state laws and regulations relevant to the provision of medical services, including but not limited to, Title XIX of the Social Security Act, the Medicare and Medicaid Anti-Fraud Act, and the state Medicaid Fraud Act. Providers also agree to conform to MAD policies and instructions as specified in this manual and its appendices, as updated. See 8.302.1 NMAC, *General Provider Policies*.

A. Recipient eligibility determination: Providers must verify that services they furnish are provided to eligible recipients.

(1) Providers may verify eligibility through several mechanisms, including the use of an automated voice response system, contacting the medicaid fiscal agent contractor eligibility help desk, contracting with a medicaid eligibility verification system (MEVS) vendor, or contracting with a medicaid magnetic swipe card vendor.

(2) Providers must verify that recipients are eligible for medicaid throughout periods of continued or extended services. By verifying client eligibility, a provider is informed of restrictions that may apply to a recipient's eligibility.

B. Requirements for updating information: Providers must furnish in writing to MAD or MAD claims processing contractor with complete information on changes in their address, license, certification, board specialties, corporate name or corporate ownership, and a statement as to the continuing liability for the provider for any dissolution of other disposition of the health care provider or person. MAD or the MAD claims processing contractor must receive this information at least 60 days before the change. Any payment made by MAD based upon erroneous or outdated information is subject to recoupment.

C. Documentation requirements: Providers must maintain records to fully disclose the nature, quality, amount, and medical necessity of the services furnished to recipients who are currently receiving or who have received medical services in the past 42 CFR 431.107(b). Documentation supporting medical necessity must be legible and available to medicaid upon request. See 8.302.1 NMAC, *General Provider Policies*.

[8.324.10.11 NMAC - Rp 8.324.10.11 NMAC, 7/1/2024]

8.324.10.12 COVERED SERVICES:

A. Medicaid covers ambulatory surgical center facility services, as required by the condition of the recipient and if the following conditions are met:

(1) the surgical procedure and use of the facility are medically necessary and are covered by medicaid; and

(2) all medicaid requirements for the surgery, such as applicable consent forms or prior authorization requirements, are met by the physician.

B. See 8.310.2 NMAC, *Medical Services Providers*.

[8.324.10.12 NMAC - Rp 8.324.10.12 NMAC, 7/1/2024]

8.324.10.13 NONCOVERED SERVICES:

Ambulatory surgical center services are subject to the limitations and coverage restrictions which exist for other medicaid services. If the surgery is non-covered, the anesthesia is non-covered. See 8.301.3 NMAC, *General Noncovered Services*.

A. Direct payment to physician. Ambulatory surgical centers are not reimbursed by medicaid for physician fees. Reimbursement for physician fees is made directly to the provider of the service.

B. Services furnished to dual eligible recipients. By federal regulation, the medicare program pays ambulatory surgical centers only for an approved list of specific surgical procedures. Medicare is the primary payment source for individuals who are eligible for both medicare and medicaid. For these recipients, medicaid will not pay an ambulatory surgical center for a surgical procedure denied by medicare. Ambulatory surgical centers must refer these recipients to facilities which medicare pays for the surgical procedure, such as an outpatient hospital.

[8.324.10.13 NMAC - Rp 8.324.10.13 NMAC, 7/1/2024]

8.324.10.14 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior authorization and claims processing.

A. Prior authorization: Certain procedures or services can require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior authorization request denials or other review decisions can request a re- review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

[8.324.10.14 NMAC - Rp 8.324.10.14 NMAC, 7/1/2024]

8.324.10.15 REIMBURSEMENT:

Ambulatory surgical centers must submit claims for reimbursement on the CMS- 1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing.

A. Inclusion of all services in the facility fee: All services furnished by the facility are considered reimbursed in the facility fee and cannot be billed separately. The amount paid will be the lesser of the facility's usual and customary charge or the maximum allowed by medicaid.

B. Reimbursement methodology: The facility fee maximum is established at a level which considers the surgical procedure and the area in which the facility is located. Each surgical procedure is assigned to one of nine surgical groups, based on the complexity of the procedure. Each of these surgical groups has a separate reimbursement level. The level of reimbursement is determined by medicaid by utilizing the medicare carrier for procedures payable to ambulatory surgical centers by medicare regulations. The list of surgeries payable under medicare regulations also designates the assigned surgical group for payment purposes. The list is available from the medicare carrier.

(1) For those procedures for which medicare has not established a reimbursement level, MAD assigns the procedure to one of the nine surgical groups. The assignment is based upon the complexity of the procedure or its similarity to procedures within the surgical groups developed by medicare.

(2) Reimbursement is made at the level established by medicaid for that surgical group.

C. Reimbursement for multiple procedures: When more than one covered surgical procedure is performed during the same surgical encounter, reimbursement is made at the rate for the most complex procedure plus fifty percent of the applicable rate for any additional procedures.

D. Reimbursement for laboratory services:

(1) The following laboratory services are considered included in the facility fee and are not reimbursed separately:

(a) hematocrit;

(b) hemoglobin (colorimetric); and

(c) routine urinalysis, without microscopy.

(2) For an ambulatory surgical center to be reimbursed for laboratory tests which are not included in the facility fee, the following conditions must be met:

(a) ambulatory surgical center laboratories must be separately certified and enrolled as clinical laboratories with valid CLIA numbers;

(b) laboratory tests billed must fall within the approved laboratory specialties/ subspecialties for which the laboratory has been certified;

(c) laboratories must have separate New Mexico medical assistance program provider participation applications approved by MAD to bill for laboratory tests not included in the facility fee; and

(d) laboratory tests must be performed on the premises of ambulatory surgical centers and not sent out to reference laboratories. See 8.324.2 NMAC, Laboratory Services.

E. Reimbursement for diagnostic imaging and therapeutic radiology services: Diagnostic radiological, diagnostic ultrasound, peripheral vascular flow measurements and nuclear medicine studies furnished by a facility are considered covered services, but payment is considered to be made within the facility fee and are not separately reimbursed services. See 8.324.3 NMAC, *Diagnostic Imaging and Therapeutic Radiology Services*.

8.325.2.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.325.2.8 NMAC - Rp 8.325.2.8 NMAC, 7/1/2024]

8.325.2.9 DIALYSIS SERVICES:

Dialysis services are covered as an optional medical service for New Mexico medicaid program (medicaid) recipients 42 CFR Sections 440.10, 440.20; 440.50. This part

describes eligible dialysis providers, covered services, service limitations, and general reimbursement methodology.

[8.325.2.9 NMAC - Rp 8.325.2.9 NMAC, 7/1/2024]

8.325.2.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation applications licensed practitioners or facilities that meet applicable requirements by the New Mexico medical assistance division (MAD), the following providers are eligible to be reimbursed for furnishing dialysis services to medicaid recipients:

(1) individuals licensed to practice medicine or osteopathy;

(2) facilities certified by the licensing and certification bureau of the department of health to furnish renal dialysis services; and

(3) hospitals eligible to participate in the New Mexico medicaid program. See 8.311.2 NMAC, Hospital Services.

B. Once enrolled, providers receive and are responsible for maintenance of a packet of information, which includes medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they understand these materials. To be eligible for medicaid reimbursement, providers are bound by MAD policies, procedures, billing instructions, reimbursement rates, and all audit, recoupment and withholding provisions unless superseded by federal law, or federal regulation. Providers must be enrolled as medicaid providers before submitting a claim for payment to the MAD claims processing contractor.

[8.325.2.10 NMAC - Rp 8.325.2.10 NMAC, 7/1/2024]

8.325.2.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients agree to comply with all federal and state laws and regulations relevant to the provision of medical services, including but not limited to, Title XIX of the Social Security Act, the Medicare and Medicaid Anti-Fraud Act, and the state Medicaid Fraud Act. Providers also agree to conform to the MAD policies and instructions as specified in this manual and its appendices, as updated.

A. Recipient eligibility verification: Providers must verify that services they furnish are provided to eligible recipients. Providers must verify that recipients are eligible and remain eligible for medicaid through periods of continued and extended services. By verifying eligibility, a provider is informed of restrictions that may apply to recipient’s eligibility. Providers may verify eligibility through several mechanisms, including using

an automated voice response system, contacting the medicaid fiscal agent contractor eligibility help desk, contracting with a medicaid eligibility verification system (MEVS) vendor, or contracting with a medicaid magnetic swipe card vendor.

B. Requirements for updating information: Providers must furnish in writing to MAD or the MAD claims processing contractor with complete information changes in their address, license, certification, board specialties, corporate name or corporate ownership, and a statement as to the continuing liability of the provider for any recoverable obligation to MAD which occurred or may have occurred prior to any sale, merger, consolidation, dissolution or other disposition of the health care provider group or individual.

C. Documentation requirements: Providers must maintain records to fully disclose the nature, quality, amount, and medical necessity of services furnished to recipients who are currently receiving or who have received medical services in the past [42 CFR 43.107(b)].

[8.325.2.11 NMAC - Rp 8.325.2.11 NMAC, 7/1/2024]

8.325.2.12 COVERED SERVICES:

Medicaid covers renal dialysis services for the first three months of dialysis pending the establishment of medicare eligibility. Medicare becomes the primary reimbursement source for individuals who meet the medicare eligibility criteria. Dialysis providers must assist medicaid recipients in applying for and pursuing final medicare eligibility determinations. Medicaid covers medically necessary dialysis supplies furnished to home- dialyzed recipients. Medicaid covers medically necessary renal dialysis services furnished by providers as required by the condition of the recipient. Medicaid covers the following specific renal dialysis services:

A. Supplies, equipment and services included in the renal dialysis services composite rate: The facility reimbursement fee includes all renal-related facility and home dialysis services, including supplies and equipment. The following are some of the drugs, items and supplies included in the facility fee:

(1) hypertonic saline;

(2) dextrose (glucose);

(3) mannitol or similar product used for volume control;

(4) heparin;

(5) protamine;

(6) antiarrhythmics;

(7) antihistamines;

(8) antihypertensives;

(9) pressor drugs;

(10) antibiotics (when used at home by a patient to treat an infection of the catheter site or peritonitis associated with peritoneal dialysis);

(11) oxygen;

(12) filters;

(13) bicarbonate dialysate;

(14) cardiac monitoring;

(15) catheters and catheter changes;

(16) suture removal kits and suture removal;

(17) dressing supplies;

(18) crash cart usage for cardiac arrest;

(19) declotting of shunt performed by facility staff in the dialysis unit;

(20) staff time to administer blood;

(21) staff time to administer separately billable parenteral items; and

(22) staff time used to collect all specimens for laboratory tests.

B. Routine laboratory tests: Routine laboratory tests are included in the facility fee. The following list specifies the covered routine tests and allowed frequencies. Routine tests at greater frequencies are reimbursable in addition to the facility fee but require medical justification by a physician.

(1) For hemodialysis, peritoneal dialysis and continuous cyclic peritoneal dialysis (CCPD):

(a) per dialysis:

(i) hematocrit;

(ii) clotting time;

(iii) hemoglobin.

(b) weekly:

(i) prothrombin time for patients on anticoagulant therapy;

(ii) creatinine; and

(iii) BUN;

(c) monthly:

(i) CBC;

(ii) calcium;

(iii) potassium;

(iv) chloride;

(v) alkaline phosphatase;

(vi) SGOT;

(vii) bicarbonate;

(viii) phosphate;

(ix) total protein;

(x) albumin; or

(xi) LDH.

(2) For continuous abdominal peritoneal dialysis when the facility bills a facility charge (CAPD): Monthly: BUN; magnesium; HCT; calcium; HGB; albumin; creatinine; phosphate; LDH; sodium; potassium; SGOT; CO2; total protein; dialysate protein; alkaline phosphatase.

[8.325.2.12 NMAC - Rp 8.325.2.12 NMAC, 7/1/2024]

8.325.2.13 SERVICE LIMITATIONS:

Tests that are listed as separately billable (not included in the composite rate) and are performed at a frequency greater than specified in the composite rate require medical justification and are covered when furnished at specified frequencies.

A. Tests for hemodialysis, peritoneal dialysis and CCPD: (Not included in the composite rate). These services may be billed separately at the specified frequencies.

(1) Monthly:

(a) alkaline phosphatase;

(b) alkaline phosphatase;

(c) blood urea nitrogen (BUN);

(d) serum bicarbonate (CO2);

(e) dialysis protein;

(f) hematocrit;

(g) hemoglobin;

(h) lactic dehydrogenase (LDH);

(i) magnesium;

(j) serum albumin;

(k) serum creatinine;

(l) serum phosporus;

(m) serum potassium;

(n) SGOT;

(o) sodium;

(p) total protein;

(q) serum calcium;

(r) hepatitis test.

(2) Once every three months:

(a) serum aluminum;

(b) serum ferritin;

(c) nerve conductor velocity test;

(d) EKG.

(3) Once every six months: chest x-ray

(4) Once every year: bone survey

B. Tests for CAPD: (Not included in the composite rate). These services may be billed separately at the specified frequencies.

(1) Once every three months:

(a) white blood count (WBC);

(b) platelet count;

(c) red blood count.

(2) Once every six months:

(a) 24-hour urine volume;

(b) residual renal function;

(c) chest x-ray;

(d) EKG;

(e) MNCV.

C. Training: Medicaid reimburses for hemodialysis, peritoneal dialysis, continuous cycling peritoneal dialysis and continuous abdominal peritoneal dialysis training sessions if furnished by a renal dialysis facility certified to provide these services. Dialysis training must be performed in the dialysis facility. 15 training sessions are allowed without medical justification. To be reimbursed for additional training sessions, a medical justification must be attached to the claim.

[8.325.2.13 NMAC - Rp 8.325.2.13 NMAC, 7/1/2024]

8.325.2.14 NONCOVERED SERVICES:

Dialysis services are subject to the limitations and coverage restrictions of other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*.

[8.325.2.14 NMAC - Rp 8.325.2.14 NMAC, 7/1/2024]

8.325.2.15 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior authorization and claims processing.

A. Prior authorization: Certain procedures or services can require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior authorization request denials or other review decisions can request a re- review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

[8.325.2.15 NMAC - Rp 8.325.2.15 NMAC, 7/1/2024]

8.325.2.16 REIMBURSEMENT:

Dialysis facilities must submit claims for reimbursement on the UB-92 claim form or its successor. Physicians must submit for reimbursement on the CMS-1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. The facility's composite rate reimbursement is a comprehensive payment for all in facility and home dialysis services. Providers cannot bill separately for services inclusive of the composite rate, as defined by medicare, even though payment is made at the medicaid fee schedule. Physicians services are not included in the facilities composite rate. Physicians may bill for their professional services according to the policies and procedures outlined in the 8.310.2 NMAC, *Medical Services Providers*. Laboratory procedures and radiology procedures that are not part of the facilities composite rate, as defined by medicare, may be billed separately.

A. Certified hospital-based dialysis facilities are reimbursed at a rate determined by the medicaid outpatient hospital reimbursement methodology.

B. Hospital providers are reimbursed for inpatient renal dialysis at a rate determined by the medicaid inpatient hospital reimbursement methodology.

C. Renal dialysis facilities acting as suppliers to a home-dialyzed recipient can bill medicaid for the necessary supplies furnished to the recipient only if the facility is not billing a facility fee. Facilities cannot bill for both a facility fee and supplies.

[8.325.4.5 NMAC - Rp 8.325.4.5 NMAC, 7/1/2024]

8.325.4.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[8.325.4.6 NMAC - Rp 8.325.4.6 NMAC, 7/1/2024]

8.325.4.7 DEFINITIONS:

[RESERVED]

8.325.4.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.325.4.8 NMAC - Rp 8.325.4.8 NMAC, 7/1/2024]

8.325.4.9 HOSPICE CARE SERVICES:

Hospice services are covered as an optional medical service for New Mexico medicaid program (medicaid) recipients. Hospice services provide palliative and supportive services to meet the physical, psychological, social, and spiritual needs of terminally ill medicaid recipients and their families. This part describes eligible providers covered services, service limitations, and general reimbursement methodology.

[8.325.4.9 NMAC - Rp 8.325.4.9 NMAC, 7/1/2024]

8.325.4.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation by the New Mexico medical assistance division (MAD), hospice agencies meeting the following conditions are eligible to be reimbursed for providing hospice care services:

(1) meet the conditions for participation: see 42 CFR 418.50 et. seq.;

(2) licensed and certified by the licensing and certification bureau of the New Mexico department of health (DOH); and

(3) are a public or private non-profit or for profit agency or a subdivision of either, primarily engaged in providing care to terminally ill individuals.

B. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[8.325.4.10 NMAC - Rp 8.325.4.10 NMAC, 7/1/2024]

8.325.4.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all federal and state laws and regulations relevant to the provision of medical services, including but not limited to Title XIX of the Social Security Act, the Medicare and Medicaid Anti-Fraud Act, and the state Medicaid Fraud Act. Providers also agree to conform to MAD policies and instructions as specified in this manual and it appendices, as updated. See, 8.302.1 NMAC, General Provider Policies. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records to fully disclose the nature, quality, amount, and medical necessity of the services furnished to recipients who are currently receiving or who have received medical services in the past 42 CFR 431.107(B). Documentation supporting medical necessity must be legible and available to medicaid upon request. See 8.302.1 NMAC, *General Provider Policies*.

[8.325.4.11 NMAC - Rp 8.325.4.11 NMAC, 7/1/2024]

8.325.4.12 ELIGIBLE RECIPIENTS:

To be eligible for hospice care, a physician must provide a written certification that the recipient has a terminal illness. Recipients must elect to receive hospice care for the duration of the election period.

A. Certification of terminal illness: The hospice must obtain a written certification statement signed by the hospice medical director, physician member of the hospice interdisciplinary team or recipient's attending physician that the recipient is terminally ill. The physician must sign the written certification within seven calendar days of the date services are initiated. Certification statements must include information that is based on the recipient's medical prognosis, and the life expectancy is six months or less if the terminal illness runs its typical course.

(1) If a recipient receives hospice benefits beyond 210 days, the hospice must obtain a written recertification statement from the hospice medical director or the physician member of the hospice interdisciplinary group before the 210-day period expires.

(2) Hospice benefits furnished beyond the 210- day period may be subject to medical review.

B. Election of hospice care: Recipients who are eligible for hospice care must elect to receive hospice services. Recipients or their legal representatives elect hospice services by filing an election statement with a particular hospice designee.

(1) For the duration of the election, recipients who elect hospice care, waive their right to medicaid payment for the following services:

(a) services related to treatment of the terminal condition or related condition for which hospice care was elected; and

(b) services equivalent to hospice care, such as home health services, and private duty nursing services under enhanced early and periodic screening, diagnosis and treatment (EPSDT).

(2) Recipients who are receiving home and community based waiver services or other in-home services based on a plan of care must have the plan of care coordinated with the hospice provider and adjusted as necessary to avoid duplicative or unnecessary services.

(3) Hospice coverage continues for 210-day time periods, as long as recipients remain in hospice care and do not cancel the election.

(4) Recipients or their representatives can designate an effective date for the election. The effective date begins with the first or any subsequent day of hospice services.

C. Election statement: The election statement must include the following elements:

(1) designation of the hospice that will provide care;

(2) designation of the recipient's attending physician;

(3) acknowledgement that the recipients or representatives has been given a full understanding of the palliative rather than curative nature of hospice care;

(4) effective date of the election; and

(5) the recipient's or the representative's signature.

D. Revocation of hospice care services:

(1) A recipient or representative can cancel the election of hospice care at any time by filing a statement with MAD or its designee. The statement must include the following information:

(a) recipient is revoking their election for medicaid coverage of hospice care;

(b) effective date of the revocation, which is not earlier than the actual date of the revocation; and

(c) the recipient's or the representative's signature.

(2) Upon revocation of the election of hospice services, recipients are no longer covered for medicaid hospice services.

(3) Recipients can elect to receive hospice care services again at any time. The same process for approval of services must be followed when the second election occurs. A new plan of care, certification statement, and election statement must be submitted to MAD or its designee.

E. Change of designated hospice:

(1) Recipients or their representatives can change designated hospice providers by filing statements with MAD or its designee. A statement must contain the following information:

(a) name of the hospice the recipient is leaving;

(b) name of the hospice the recipient is entering; and

(c) effective date of the change.

(2) A change in ownership or name of a hospice is not considered a change in the recipient's designated hospice.

[8.325.4.12 NMAC - Rp 8.325.4.12 NMAC, 7/1/2024]

8.325.4.13 COVERED SERVICES AND SERVICE LIMITATIONS:

For recipients electing hospice care, medicaid covers hospice core services furnished to eligible recipients that are reasonable and necessary for the palliation or symptom management of a recipient's terminal illness and related conditions. Hospice core services include the medications, durable medical equipment and medical supplies needed to deliver palliative care. Hospice providers are reimbursed for the delivery of core services based on daily rate.

A. The hospice services necessary for a specific recipient must be documented in an individualized treatment plan. The plan must be developed by attending physicians, medical directors and interdisciplinary groups and must meet certain requirements: See 42 CFR 418.50 et. seq.

(1) Hospices must designate a registered nurse to coordinate the implementation of each recipient's plan of care.

(2) The interdisciplinary group, including nursing services, medical social services, physician services and counseling services practitioners are responsible for the following:

(a) developing the plan of care;

(b) providing or supervising hospice care and services;

(c) reviewing and updating the plan of care;

(d) establishing policies for daily provision of hospice care and services; and

(e) coordinating with other medicaid support service providers such that the plan of care is not duplicative of hospice services.

(3) All hospice services must be available 24 hours per day to the extent necessary to meet the needs of the terminally ill recipients.

B. Core services: Medicaid covers the following nursing, medical social service, physician and counseling services as core hospice services:

(1) nursing services furnished by or under the supervision of registered nurses and based on the treatment plan and recognized standards of practice;

(2) medical social services furnished by a qualified social worker under the direction of a physician;

(3) physician services performed by a doctor of medicine or osteopathy, including palliation and management of terminal illness and related conditions and the recipient's general medical needs not met by the recipient's attending physician;

(4) counseling services available to recipients and family members; counseling can be furnished for training families to provide care and preparing recipients and families to adjust to the recipient's approaching death; counseling includes dietary, spiritual and other counseling for recipients and families and bereavement counseling furnished after a recipient's death; the following counseling services must be furnished by hospices:

(a) organized program of bereavement services under the supervision of qualified professionals; the plan of care for these services must reflect family needs and provide a clear outline of the type, frequency and duration of counseling; bereavement counseling is a required but non- reimbursed service;

(b) dietary counseling, when applicable, furnished by qualified professionals;

(c) spiritual counseling, including notice to recipients of the availability of clergy; and

(d) other counseling, furnished by members of the interdisciplinary group or other qualified professionals.

(5) home health aide and homemaker services at frequencies sufficient to meet the needs of recipients; home health aides must meet training and qualification requirements; see 42 CFR 484.36; registered nurses must visit a recipient's residence every two weeks to assess the performance of the aide or homemaker services;

(6) physical therapy, occupational therapy and speech-language therapy must be available if needed to control symptoms or maintain activities of daily living;

(7) durable medical equipment, medical supplies, and pharmacy services related to the palliation and management of the terminal illness and related conditions:

(a) See 8.324.5 NMAC, *Durable Medical Equipment and Medical Supplies*.

(b) Medicaid covers only drugs and biologicals defined in Section 1861 (t) of the Social Security Act and used primarily for pain relief and symptom control related to terminal illness. All drugs and biologicals must be administered in accordance with accepted standards of practice.

(c) Every hospice must have a policy for the disposal of controlled drugs kept in the recipient's home when those drugs are no longer needed.

(d) Drugs and biologicals are to be administered only by the following individuals:

(i) a licensed nurse or physician;

(ii) the recipient with the approval of the attending physician; and

(iii) any other individual in accordance with applicable state and local laws; the individual and each drug and biological they are authorized to administer must be specified in the recipient's plan of care.

(8) short-term inpatient services for pain control and symptom management delivered in a facility which is a medicaid provider; and

(9) short-term inpatient respite services furnished in a facility which is a medicaid provider; medicaid covers five consecutive days of inpatient respite care which can be needed on an infrequent basis to provide respite for the recipient's family or primary caregivers.

(a) The need for and duration of inpatient respite services must be specified in the treatment plan.

(b) Inpatient respite must be furnished by a hospice facility, hospital, or nursing facility that meets the requirements in 42 CFR Section 418.100.

C. Continuous nursing care services: Medicaid covers continuous nursing care required to achieve pain control and symptom management. Continuous care can be covered during a period of crisis if the recipient needs such care to achieve palliation and manage acute medical symptoms at home.

(1) To be considered continuous care, nursing care must be furnished for eight consecutive hours in a 24 hour period. Medicaid covers the homemaker or aide services furnished during the other 16 hours as routine home care.

(2) Medicaid covers continuous nursing services for a maximum of 72 consecutive hours.

[8.325.4.13 NMAC - Rp 8.325.4.13 NMAC, 7/1/2024]

8.325.4.14 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:

Hospice services are subject to utilization review for medical necessity and program compliance. These reviews can be performed before services are furnished, after services are furnished and before payment is made, after payment is made, or at any point in the service or payment process. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive utilization review instructions and documentation forms which assists in the receipt of prior authorization and claims processing.

A. Prior authorization: Hospice services do not require prior authorization. Services remain subject to review at any point in the payment process for medical necessity.

B. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who are dissatisfied with a utilization review decision or action can request a re-review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

[8.325.4.14 NMAC - Rp 8.325.4.14 NMAC, 7/1/2024]

8.325.4.15 NONCOVERED SERVICES:

Hospice services are subject to the limitations and coverage restrictions that exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following hospice services.

A. Core services furnished by nonemployees. Core services when furnished routinely by non-employees or contracted staff are not covered by medicaid. A hospice can bill only for contracted staff necessary to supplement hospice employees in meeting recipient needs during periods of peak patient loads.

B. Bereavement counseling furnished to families after a recipient's death is a required hospice service, however, hospice agencies are not paid an additional amount for furnishing these services.

C. Inpatient respite care for more than five consecutive days. After five days, additional inpatient respite care is reimbursed as routine home care. Respite care cannot be furnished if the recipient lives in a long-term care facility.

D. Hospice services furnished by nondesignated hospices are not a covered benefit.

[8.325.4.15 NMAC - Rp 8.325.4.15 NMAC, 7/1/2024]

8.325.4.16 PATIENT SELF DETERMINATION ACT:

All adult recipients must be informed of their right to make health decisions, including the right to accept or refuse medical treatment, as specified in the Patient Self-Determination Act. See 8.302.1 NMAC, *General Provider Policies*.

[8.325.4.16 NMAC - Rp 8.325.4.16 NMAC, 7/1/2024]

8.325.4.17 REIMBURSEMENT:

Hospice providers must submit claims for reimbursement on the UB- 92 claim form or its successor. Election documentation must be submitted with the initial claim. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing. Medicaid reimbursement for hospice care is made at one of four prospective daily rates, depending on the level of care furnished. The only retroactive adjustment to reimbursement is the year-end application of the limitation on inpatient care payment. Physician services are reimbursed separately from the hospice daily rate.

A. Payment for hospice care:

(1) Payment rates for hospice care services are determined by the centers for medicare and medicaid services (CMS), with local adjustments for wage differences within each category. Reimbursement for hospice services is based on one of four all-inclusive daily rate categories. The daily rate for each category includes all services

necessary for palliative care, such as the purchase of needed medications, durable medical equipment, and medical supplies. The following are basic categories of hospice care:

(a) "routine home care day" defined as a day on which the recipient receives hospice care at home that is not defined as continuous care;

(b) "continuous home care day" defined as a day on which the recipient is not in an inpatient facility and receives nursing services for eight consecutive hours in a 24 hour period; this care is furnished only during brief periods of crisis to maintain the recipient at home; home health aide or homemaker services can also be furnished on a continuous basis, but these services are considered routine care;

(c) "inpatient respite care day" defined as a day on which a recipient receives care in approved facilities on a short-term basis to provider respite for the recipient's family or primary caregiver; and

(d) "general inpatient care day" defined as a day on which a recipient receives care in inpatient facilities for pain control or acute or chronic symptom management that cannot be managed in other settings.

(2) Reimbursement is made to a hospice for each day on which recipients are eligible for hospice care. Reimbursement is based on the appropriate payment amount for each day, regardless of the category of services furnished on any given day.

(3) Reimbursement for a continuous home care day varies, depending on the number of hours of continuous nursing services furnished. The continuous home care rate is divided by 24 to yield an hourly rate. The number of hours of care furnished during the continuous home care day is multiplied by the hourly rate to yield the continuous home care payment for that day. Medicaid reimbursement for continuous home care is limited to a maximum of 72 consecutive hours of service.

(4) The inpatient reimbursement rate for approved facility for short-term inpatient care depends on the category of care furnished, either inpatient respite or general inpatient.

(a) Reimbursement for inpatient respite care is limited to a maximum of five consecutive days at a time. Medicaid pays for the sixth and any subsequent day of respite care at the routine home care rate.

(b) Medicaid pays the inpatient rate for the admission date and all subsequent inpatient days. For the discharge day, the applicable home care rate is reimbursed. Reimbursement for the discharge day when the recipient is discharged deceased is made at the inpatient rate.

(c) Reimbursement for all inpatient care is subject to a limitation that total inpatient care days for medicaid recipients cannot exceed twenty percent of the total days for which these recipients elected hospice care. The calculation and any necessary retroactive adjustment of overall payments per provider is completed during the cap period. See 42 CFR 418.302 (f).

B. Reimbursement for physician services:

(1) Medicaid covers the following services performed by hospice physicians as part of the general reimbursement rate for hospice care services:

(a) general supervisory services of the medical director; and

(b) participation in establishing, reviewing and updating plans of care, supervision of care and services, and establishment of governing policies by the physician member of the interdisciplinary group.

(2) For direct patient care services furnished by a hospice employee or a physician working under arrangement with the hospice, not listed above, medicaid reimburses the hospice for each procedure at the lesser of the medicaid fee schedule or the amount billed.

(3) Medicaid does not pay for physician services furnished on a volunteer basis.

(4) Medicaid does not cover physician services furnished by the recipient's attending physician as a hospice service, if he or she is not an employee of the hospice or providing services under arrangements with the hospice. Only the attending physician can bill for these services.

[8.325.4.17 NMAC - Rp 8.325.4.17 NMAC, 7/1/2024]

8.325.4.18 HOSPICE SERVICES FOR RECIPIENTS IN NURSING FACILITIES:

If a recipient does not have family or friends to provide the necessary care to allow the recipient to remain at home (home does not include an adult foster care setting or a home for the aged), a recipient living in a nursing facility (NF) can elect to receive hospice care. The NF is considered the recipient's place of residence. The NF and the designated hospice must sign a cooperative agreement that the hospice is responsible for the professional management of the recipient's hospice care and the NF provides room and board.

A. Room and board services: The agreement must specify that the NF provides the following room and board services:

(1) perform personal care services;

(2) help with activities of daily living;

(3) provide socializing activities;

(4) administer medication;

(5) maintain room cleanliness; and

(6) supervise the use of durable medical equipment and prescribed therapies.

B. Reimbursement for nursing facility room and board: For medicaid recipients living in a NF who elect hospice care, medicaid pays the hospice an additional per diem amount for routine home care and continuous home care days for the NF room and board services.

(1) The room and board reimbursement is ninety- five percent of the medicaid rate paid to the specific NF for that recipient.

(2) For dual- eligible medicare/medicaid recipients who live in an NF and elect the medicare hospice benefit, medicaid pays the hospice for the NF room and board services if the hospice and NF have a written agreement delineating responsibilities for hospice care and room and board services.

(a) For dual-eligible recipients, medicaid pays any coinsurance amounts for drugs, biological and respite care. See 42 CFR Section 418.400.

(b) For dual-eligible recipients, direct medicaid payment for service to the NF is discontinued.

February 1, 1995.

[2/1/95; 8.325.8.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.325.8.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.325.8.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.325.8.7 DEFINITIONS:

[RESERVED]

8.325.8.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.325.8.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.325.8.9 REHABILITATION SERVICE PROVIDERS:

Rehabilitation services are optional services covered for New Mexico medicaid program (medicaid) recipients [42 CFR Section 440.110]. This part describes eligible providers, covered services, service limitations, and general reimbursement methodology.

[2/1/95; 8.325.8.9 NMAC - Rn, 8 NMAC 4.MAD.767, 3/1/12]

8.325.8.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following providers are eligible to be reimbursed for furnishing outpatient rehabilitation services to recipients:

(1) rehabilitation centers with a primary emphasis on physical therapy, occupational therapy or speech therapy which are licensed and certified by the public health division of the department of health. Alcohol or drug treatment centers are excluded;

(2) physical therapists licensed as physical therapists and certified in independent practice for participation in the medicare program by the public health division of the department of health;

(3) occupational therapists licensed as occupational therapists and certified in independent practice for participation in the medicare program by the public health division of the department of health;

(4) home health agencies licensed and certified by the public health division of the department of health; and

(5) general hospitals eligible to provide outpatient rehabilitation services licensed and certified by the public health division of the department of health.

B. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent

material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[2/1/95; 8.325.8.10 NMAC - Rn, 8 NMAC 4.MAD.767.1, 3/1/12]

8.325.8.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*.

[2/1/95; 8.325.8.11 NMAC - Rn, 8 NMAC 4.MAD.767.2, 3/1/12]

8.325.8.12 COVERED SERVICES AND SERVICE LIMITATIONS:

Medicaid covers physical therapy, occupational therapy, and speech therapy services which are reasonable and necessary for the treatment of the recipient's specific condition.

A. For all services, there must be an expectation that the recipient's condition will improve significantly in a reasonable and generally predictable period of time based on an assessment by physicians of the recipient's restoration potential.

(1) If the recipient's expected restoration potential is insignificant in relation to the extent and duration of therapy required to achieve the potential, the therapy is not considered reasonable and necessary.

(2) If a determination that the expectations for restoration will not materialize is made at any point in the treatment, the services are no longer covered by medicaid.

B. Recipients who require low nursing facility level of care and reside in nursing facilities (NFs) can receive services furnished by home health agencies, certified outpatient rehabilitation centers, certified independent physical therapists, and certified independent occupational therapists. Therapy providers can bill directly for these services. Reimbursement for rehabilitation services for recipients who require high NF level of care is included in the NF's per diem rate and cannot be billed separately by the therapy provider.

C. Physical, occupational and speech therapy services must be ordered by physicians and specifically related to active written treatment plans developed by physicians in consultation with qualified physical, occupational or speech therapists.

D. Medicaid covers speech therapy services furnished by hospitals, home health agencies, outpatient hospitals, rehabilitation hospitals and rehabilitation centers licensed and certified by the department of health.

(1) Speech therapy services can be furnished by employees of the previously described providers or by an outside source such as an agency or clinic, under arrangements with the provider facility. Reimbursement for services is made to the facility.

(2) Speech therapy services must be furnished by individuals who are licensed as speech pathologists by the New Mexico regulation and licensing department.

E. Services furnished in PPS-exempt psychiatric units of general acute care hospitals, PPS-exempt rehabilitation units of general acute care hospitals and free-standing psychiatric hospitals are included in the hospital reimbursement rate and cannot be billed separately by independent providers.

[2/1/95; 8.325.8.12 NMAC - Rn, 8 NMAC 4.MAD.767.3, 3/1/12]

8.325.8.13 NONCOVERED SERVICES:

Rehabilitation services are subject to the limitations and coverage restrictions of other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following rehabilitation services:

A. services furnished by providers who are not licensed and/or certified to furnish services;

B. educational programs or vocational training not part of an active treatment plan for residents in an intermediate care facility for the mentally retarded or for recipients under the age of twenty-one (21) receiving inpatient psychiatric services [42 CFR Section 441.13 (b)];

C. services billed separately by home health agencies, independent physical therapists, independent occupational therapists, or outpatient rehabilitation centers to recipients in high nursing facilities or inpatient hospitals;

D. transportation, for recipients in low level nursing facilities or other medicaid recipients, to travel to outpatient hospital facilities unless there are no home health agencies, independent physical therapists or independent occupational therapists available in the area to provide the therapy at the recipient’s residence; and

E. services solely for maintenance of the recipient’s general condition; these services include repetitive services needed to maintain a recipient’s functional level that do not involve complex and sophisticated therapy procedures requiring the judgement

and skill of a therapist; services related to activities for the general good and welfare of recipients, such as general exercises to promote overall fitness and flexibility and activities to provide general motivation, are not considered physical or occupational therapy for medicaid reimbursement purposes.

[2/1/95; 8.325.8.13 NMAC - Rn, 8 NMAC 4.MAD.767.4, 3/1/12]

8.325.8.14 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** All therapy services with the exception of the initial evaluation for physical or occupational therapy require prior approval for medical necessity from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[2/1/95; 8.325.8.14 NMAC - Rn, 8 NMAC 4.MAD.767.5, 3/1/12]

8.325.8.15 REIMBURSEMENT:

Outpatient rehabilitation providers must submit claims for reimbursement on the HCFA-1500 or UB-92 claim form or their successor, as appropriate for the provider. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing.

A. **Reimbursement for outpatient hospital rehabilitation medical services:** For services reimbursed under the Title XVIII (medicare) allowable cost methodology, medicaid reduces the medicare allowable costs by three percent (3%). The interim rate of payment is seventy-seven percent (77%) of billed charges. Medicaid reimbursement does not exceed reasonable costs as defined by medicare. See 8.311.2 NMAC, *Hospital Services*.

B. **Reimbursement for home health agency rehabilitation:** See Section MAD-768, *Home Health Services.*

C. **Reimbursement for independent physical therapists, independent occupational therapists and rehabilitation centers:**

(1) Reimbursement to providers is made at the lesser of the following:

(a) the provider's billed charge; or

(b) the MAD fee schedule for the specific service or procedure.

(2) The provider's billed charge must be their usual and customary charge for services.

(3) "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

(4) Medicaid does not pay a professional component amount to a physical, occupational, or speech therapist if the therapy is performed in a hospital setting. Medicaid reimburses the institutional provider for all components of the service.

[2/1/95; 8.325.8.15 NMAC - Rn, 8 NMAC 4.MAD.767.6, 3/1/12]

[8.325.9.5 NMAC - 8.325.9.5 NMAC, 7/1/2024]

8.325.9.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[8.325.9.6 NMAC - 8.325.9.6 NMAC, 7/1/2024]

8.325.9.7 DEFINITIONS:

[RESERVED]

8.325.9.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.325.9.8 NMAC - 8.325.9.8 NMAC, 7/1/2024]

8.325.9.9 HOME HEALTH SERVICES:

The New Mexico medicaid program (medicaid) pays for medically necessary health services furnished to eligible recipients, including home health services 42 CFR, Section 484 and 42 CFR, Section 440.70. This part describes eligible providers, covered services, service limitations, and the general reimbursement methodology.

[8.325.9.9 NMAC - 8.325.9.9 NMAC, 7/1/2024]

8.325.9.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), home health agencies that meet the following conditions are eligible to be reimbursed for furnishing services:

(1) meet the conditions of participation. See 42 CFR, Section 484 Subpart B;

(2) are licensed and certified by the licensing and certification bureau of the HCA to meet all standards for participation in a federal program established under Title XVIII (medicare) of the Social Security Act. Any provider participating only in medicaid must be licensed and certified to comply with the standards for medicare participation; and

(3) are public agencies, private for-profit agencies, or private non-profit agencies primarily engaged in furnishing skilled nursing services and at least one other therapeutic service.

B. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[8.325.9.10 NMAC - 8.325.9.10 NMAC, 7/1/2024]

8.325.9.11 PROVIDER RESPONSIBILITIES:

A. Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*.

B. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if Medicaid recipients have other health insurance.

C. Providers shall have written policies concerning the acceptance of recipients and the feasibility of meeting the recipient's needs in the home care setting, which include, but are not limited to:

(1) an evaluation visit in the recipient's residence to consider the physical facilities available, capabilities and attitudes of the recipient, family members or significant others, the availability of care givers, if any, to help in the care of the patient, and the appropriateness of home health care for meeting the recipient's needs in a safe environment;

(2) the recipient's need to receive medical care at home;

(3) orders from the recipient's physician;

(4) documentation in the medical record of (1), (2) and (3). Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*.

[8.325.9.11 NMAC - 8.325.9.11 NMAC, 7/1/2024]

8.325.9.12 ELIGIBLE RECIPIENTS:

A. Recipients must have a medical need to receive care at home to be eligible for home health agency services and must be certified as such by their attending physicians. A medical need to receive care at home means that the recipient has a condition caused by illness or injury which renders him/her unable to leave the home to obtain necessary medical care and treatment (i.e., is essentially homebound) or that the medical need for care at home is more appropriate and cost-effective and will prevent or delay institutionalization. Recipients do not need to be bedridden to be considered as having a medical need to receive care at home. Recipients may be considered eligible to receive care at home if they meet one or more of the following criteria:

(1) recipients who cannot leave their residences without the use of wheelchairs, crutches, walkers or assistance from another individual;

(2) recipients who because of severe physical or mental illness or injury must comply with doctor's orders and avoid all stressful physical activity;

(3) recipients who cannot leave their residences because of danger caused by a mental condition;

(4) recipients who have just returned to their residence after hospital stays for severe illness or surgical procedures and whose activities are restricted by their physicians because of pain, suffering, medical limitation or danger of infection;

(5) recipients who are at high risk during pregnancy, infancy or childhood and for whom home health care is more appropriate to their needs.

(6) recipients are not eligible to receive care at home just because they:

(a) cannot drive,

(b) have multiple medical problems or

(c) live in an isolated area.

B. Infrequent periods away from residence: Recipients can leave their residences occasionally for medical treatment or personal errands and be eligible to receive home health care.

C. Determination of medical need to receive care at home: MAD or its designee reviews information submitted by the provider and determines whether recipients are considered eligible for home health service. Coverage is granted when the home health agency can demonstrate that care at home is appropriate to the medical needs of the recipient, the needed service is not otherwise available, and not receiving care would result in lack of access to health care services, institutionalization of the recipient and greater costs to the medicaid program.

D. Documentation of medical need to receive care at home: The home health agency is responsible for documenting on the written plan of care evidence of the recipient's medical need for home health care.

[8.325.9.12 NMAC - 8.325.9.12 NMAC, 7/1/2024]

8.325.9.13 COVERED SERVICES:

A. Medicaid covers those home health services which are skilled, intermittent and medically necessary. The focus of home health services shall be on the curative, restorative or preventive aspects of care. The goal of these services shall be to assist the recipient to return to an optimum level of functioning and to facilitate the timely discharge of the recipient to self-care or to care by their family, guardian or significant other. Services must be ordered by the recipient's attending physician and included in the plan of care established by the recipient's attending physician in consultation with home health agency staff. The plan of care must be reviewed, signed and dated by the attending physician. The attending physician certifies that the recipient has a medical need to receive care at home at the initial certification, and as part of the plan of care review at recertification. The attending physician certifies that the recipient requires the skilled services of a nurse, physical therapist, occupational therapist or speech therapist. If the recipient requires home health aide services, the physician shall certify the need for these services. The evaluation visit is covered whether or not the recipient is admitted to home health care. Covered services include the following:

(1) skilled nursing services;

(2) home health aide services;

(3) physical and occupational therapy services; and

(4) speech therapy services.

B. Skilled nursing services: Medicaid covers skilled, intermittent and medically necessary skilled nursing services if the following conditions are met:

(1) Services must be ordered by the attending physician and included in the plan of care established by the recipient's attending physician in consultation with the home health agency staff. The plan of care must be reviewed, signed and dated by the attending physician;

(2) Skills of a registered nurse or licensed practical nurse must be required for direct care or supervision of home health aides.

(3) Services must be furnished by or under the supervision of a registered nurse licensed in New Mexico who is responsible for the initial evaluation, care planning and coordination of services.

(4) Services must be reasonable and necessary to the treatment of an illness or injury. To be considered reasonable and necessary, the services furnished shall be:

(a) consistent with the recipient's particular medical needs as determined by the recipient's attending physician.

(b) consistent with accepted standards of medical and nursing practice.

(c) consistent with provision of care in the safest, least restrictive setting for meeting the recipient's needs.

(d) consistent with the New Mexico MAD approved medical necessity criteria for home health.

(5) Skilled nursing care includes, but is not limited to, the following:

(a) observation and evaluation of recipient's health needs

(b) teaching the recipient, family members or significant other caretaker to provide care such as, but not limited to:

(i) giving an injection;

(ii) irrigating a catheter;

(iii) providing wound care, including applying dressings to wounds, positioning, and recognizing signs of infection and other complications;

(iv) using medications properly and safely, and understanding potential side effects;

(v) using special equipment and adaptive devices; and

(vi) home safety.

(c) insertion and sterile irrigation of catheters;

(d) administering injections;

(e) administering intravenous antibiotics and enteral and intravenous total parenteral nutrition;

(f) treating decubitus ulcers and other skin disorders; and

(g) providing other health teaching according to recipient's needs.

C. Therapy services: Medicaid covers the therapy services furnished through the home health agency by licensed physical therapists, occupational therapists or speech language pathologists.

(1) Services must be ordered by the recipient's attending physician and included in the plan of care established by the attending physician in consultation with the home health agency staff.

(2) All therapy services must conform with practice standards and licensing requirements as defined by state law.

(3) Services can be furnished by a public, private for-profit or private non-profit home health agency directly or under arrangement.

D. Home health aide services: Medicaid covers home health aide services if the following conditions are met:

(1) home health aides must complete training or a competency evaluation program that meets certain requirements. See 42 CFR, Section 484.36;

(2) services must be ordered by the attending physician and included in the plan of care established by the recipient's attending physician in consultation with the home health agency staff;

(3) written instructions for patient care are prepared by a registered nurse or therapist;

(4) assignment to a particular recipient is made by a registered nurse;

(5) duties of the home health aide include:

(a) performance of simple procedures as an extension of nursing and therapy services;

(b) personal care;

(c) walking and exercises;

(d) household services essential to health care at home;

(e) help with medications that are normally self-administered;

(f) reporting changes in the recipient's condition; and

(g) completing appropriate records.

(6) registered nurses or other appropriate professional staff members must make a supervisory visit to the recipient's residence at least every two weeks to observe and decide whether goals are being met. The recipient's record must contain documentation that, at least every two weeks or more often if necessary, there has been communication between the home health aide and the supervisory nurse or other appropriate professional staff member regarding the recipient's condition; and

(7) services must be furnished directly through the home health agency staff or by contractual arrangement.

E. Durable medical equipment and medical supplies: Medicaid covers medically necessary durable medical equipment and medical supplies which are specified in the plan of care. See 8.324.5 NMAC, *Durable Medical Equipment and Medical Supplies*.

(1) Reimbursement is made to the home health agency and is limited to medical supplies necessary during the course of the plan of care. The following durable medical equipment and medical supplies are covered as specified:

(a) Medicaid does not cover stock or routine items, such as band-aids, cotton balls, thermometers, lotion, personal care items, tape and alcohol.

(b) Non-routine supplies, such as catheters, ostomy supplies, feeding tubes, intravenous supplies, dressing supplies, ointments, solutions, chux diapers and home testing kits must be ordered as part of the plan of care.

(2) Utilization review, including retrospective review, can be made by MAD or its designee to assess the medical necessity for durable medical equipment and medical supplies and program compliance. If MAD determines that the equipment and supplies that were billed were not medically necessary or a covered service for the care of that recipient, the MAD payments are recouped.

F. Maternal/child services: Medicaid covers perinatal and pediatric home health services if the following conditions are met:

(1) the service is prescribed by the recipient's attending physician and is included in the plan of care established by the recipient's physician in consultation with home health agency staff;

(2) if the recipient has a medical need to receive care at home, in the sense that care in the home is more appropriate to the needs of the recipient, safe, cost-effective and will prevent or delay institutionalization;

(3) the services are reasonable and medically necessary to treat a high risk pregnancy, at-risk infant, illness, injury and to prevent infection. To be considered reasonable and medically necessary, the services furnished shall be:

(a) consistent with the recipient's particular medical needs as determined by the recipient's attending physician;

(b) consistent with accepted standards of medical and nursing practice;

(c) consistent with the New Mexico MAD approved medical necessity criteria for home health.

[8.325.9.13 NMAC - 8.325.9.13 NMAC, 7/1/2024]

8.325.9.14 NONCOVERED SERVICES:

Home health services are subject to the limitations and coverage restrictions of other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following home health agency services:

A. services beyond the initial evaluation which are furnished without prior approval;

B. home health services which are not skilled, intermittent and medically necessary;

C. services furnished to recipients who do not meet the eligibility criteria for home health services;

D. services furnished to recipients in places other than their place of residence;

E. services furnished to recipients who reside in intermediate care facilities for the mentally retarded or nursing facility (NF) residents who require a high NF level of service. Physical, occupational and speech therapy can be furnished to residents of nursing facilities who require a low level of service;

F. skilled nursing services which are not supervised by registered nurses; and

G. services not included in written plans of care established by physicians in consultation with the home health agency staff.

[8.325.9.14 NMAC - 8.325.9.14 NMAC, 7/1/2024]

8.325.9.15 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Approval and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. Prior approval: All home health services beyond initial visits for evaluation purposes, require prior approval from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process. Prior approval does not guarantee payment, if upon utilization review after payment has occurred, recipients are determined to be ineligible or medical necessity is not found.

B. Eligibility determination: Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior approval can request a re-review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

D. Effect of hospitalization: If a recipient is hospitalized during the certification period and a significant change in condition or course of treatment occurs, the home health agency must treat the recipient as a new patient and submit a new prior approval request and new plan of care. If there is no significant change in the recipient's condition or course of treatment, an agency can resume care under the existing plan of care.

[8.325.9.15 NMAC - 8.325.9.15 NMAC, 7/1/2024]

8.325.9.16 [RESERVED]

8.325.9.17 REIMBURSEMENT:

Home health agencies assume responsibility for any and all claims submitted on behalf of the provider and under the provider's number. Home health agencies must submit claims for reimbursement on the UB-92 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing. Reimbursement is made based on the Title XVIII (medicare) cost-finding procedures and reimbursement methodology. Charges are paid at an interim rate basis established under the medicaid guidelines by

the medicare audit agent, subject to retroactive settlement when the cost report is final. Cost reports on appropriate forms must be submitted to the audit agent within 90 days of the close of the provider's fiscal accounting period. Failure to provide timely cost reports results in suspension of payments.

[8.325.9.17 NMAC - 8.325.9.17 NMAC, 7/1/2024]

8.325.9.18 REIMBURSEMENT LIMITATIONS:

The following limitations apply to reimbursement made to home health agencies:

A. allowable costs are determined according to medicare and Title XIX (medicaid) reimbursement regulations;

B. the established percentage relationship of the agency's cost to charges per unity of services includes all services;

C. out-of-state providers are reimbursed at seventy percent of billed charges. Out-of-state home health services are approved only in very unusual circumstances, since home health services are furnished in the recipient's residence and that residence must be in New Mexico; and

D. claims for approved home health services must include the types of visits, dates of visits and number of visits.

[8.325.9.18 NMAC - 8.325.9.18 NMAC, 7/1/2024]

8.325.9.19 PLAN OF CARE:

A. The plan of care, established by the physician in consultation with the home health agency staff, and the request for prior approval must be received or postmarked within five working days of the proposed start of services or recertification period by MAD or its designee. Plans of care must be signed and dated by the physician, and prior approval must be received from MAD or its designee before claims are submitted to the MAD claims processing contractor. The plan of care must include the following:

(1) all principle diagnoses, surgical procedures, and other pertinent diagnoses;

(2) medications and dosages;

(3) types of services, equipment and non-routine supplies required;

(4) frequency of visits;

(5) safety measures to protect against injury;

(6) nutritional/fluid balance requirements;

(7) allergies;

(8) functional limitations, activities permitted and documentation of homebound status;

(9) mental status;

(10) prognosis;

(11) goals and measurable objectives, including rehabilitation potential, long range projection of likely changes in the recipient's condition and plans for timely discharge to self-care or to care by family, guardian or significant other; and

(12) Clinical findings and updates.

B. The plan of care for home health services is certified by MAD or its designee for specific time periods, not to exceed 62 working days.

C. The attending physician and home health agency professional personnel must review the total plan of care prior to a request for recertification and submit the revised plan, including a report on the patient's response to care provided under the previous plan of care and specifying changes in services required.

PART 10: EMERGENCY MEDICAL SERVICES FOR ALIENS

8.325.10.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.325.10.1 NMAC - Rp 8.325.10.1 NMAC, 7/1/2024]

8.325.10.2 SCOPE:

The rule applies to the general public.

[8.325.10.2 NMAC - Rp 8.325.10.2 NMAC, 7/1/2024]

8.325.10.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under the Social Security Act as amended, or by state statute. See Section 27-

2-12 et seq. NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.325.10.3 NMAC - Rp 8.325.10.3 NMAC, 7/1/2024]

8.325.10.4 DURATION:

Permanent.

[8.325.10.4 NMAC - Rp 8.325.10.4 NMAC, 7/1/2024]

8.325.10.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.325.10.5 NMAC - Rp 8.325.10.5 NMAC, 7/1/2024]

8.325.10.6 OBJECTIVE:

The objective of these rules is to provide instructions for the service portion of the New Mexico medical assistance programs.

[8.325.10.6 NMAC - Rp 8.325.10.6 NMAC, 7/1/2024]

8.325.10.7 DEFINITIONS:

[**RESERVED**]

8.325.10.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico and to assure low income and individuals with disabilities in New Mexico equal participation in the life of their communities.

[8.325.10.8 NMAC - Rp 8.325.10.8 NMAC, 7/1/2024]

8.325.10.9 EMERGENCY MEDICAL SERVICES FOR NON-CITIZENS (EMSNC):

The New Mexico MAD is required to pay for necessary emergency medical services furnished to individuals who are non-citizens, reside in New Mexico and meet the requirements for MAD eligibility 42 CFR 440.255(c).

[8.325.10.9 NMAC - Rp 8.325.10.9 NMAC, 7/1/2024]

8.325.10.10 ELIGIBLE PROVIDERS:

Health care to eligible recipients is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by MAD. Upon approval of a New Mexico MAD provider participation agreement by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to eligible recipients. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HCA/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HCA or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HCA or its authorized agents obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD provider participation agreement and all applicable statutes, regulations, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only.

[8.325.10.10 NMAC - Rp 8.325.10.10 NMAC, 7/1/2024]

8.325.10.11 PROVIDER RESPONSIBILITIES:

A. A provider who furnishes services to a medicaid or other health care program eligible recipient must comply with all federal and state laws, regulations, and executive orders relevant to the provision of services as specified in the MAD provider participation agreement. A provider also must conform to MAD program rules and instructions as specified in the provider rules manual and its appendices, and program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and CMS correct coding initiatives, including not improperly unbundling or upcoding services. When services are billed to and paid by a coordinated services contractor authorized by HCA, the provider must follow that contractor's instructions for billing and for authorization of services.

B. A provider may encourage an individual to apply for emergency medical services for non-citizens (EMSA) eligibility at a county office when the provider believes the service may qualify as an EMSA emergency service. A provider must inform the individual if the provider is unwilling to receive medicaid payment for the service when the service meets the EMSA emergency criteria for coverage. A provider must determine if the recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to a non-citizen recipient.

[8.325.10.11 NMAC - Rp 8.325.10.11 NMAC, 7/1/2024]

8.325.10.12 ELIGIBLE INDIVIDUALS:

A. An applicant must be a noncitizen who is undocumented or who does not meet the qualifying immigration criteria specified in 8.200.410 NMAC, General Recipient Requirements, and in 8.285.400 NMAC, *Medicaid Eligibility- Emergency Medical Services for Non- Citizens-Category 085*.

B. Eligibility determinations are made by local county income support division (ISD) offices after the receipt of emergency services. The individual is responsible for completing an application at the local county ISD office and for providing all necessary documentation to prove that they meet the applicable eligibility criteria.

(1) An individual must apply for coverage at the ISD office no later than the last day of the third month following the month in which the alleged emergency services were received.

(2) A non- citizen recipient is responsible for notifying providers of the approval or denial of an application.

(3) If an application is denied or an application for coverage is not filed by the last day of the third month following the month in which the alleged emergency services were received, the non-citizen recipient is responsible for payment of the provider bill.

(4) If reimbursement for services is denied by MAD, the individual is responsible for payment and can be billed directly for payment by the provider.

[8.325.10.12 NMAC - Rp 8.325.10.12 NMAC, 7/1/2024]

8.325.10.13 COVERAGE CRITERIA:

A. "Emergency" as defined for EMSA includes labor and delivery including inductions and cesarean sections, as well as any other medical condition, manifesting itself with acute symptoms of sufficient severity such that the absence of immediate emergency medical attention could reasonably be expected to result in one of the following:

(1) the non- citizen recipient’s death;

(2) placement of the non-citizen recipient’s health in serious jeopardy;

(3) serious impairment of bodily functions; or

(4) serious dysfunction of any bodily organ or part.

B. Services are covered only when necessary to treat or evaluate a condition meeting the definition of emergency and are covered only for the duration of that emergency.

C. After delivery, a child can have legally documented or citizenship status because of its birth in the United States and, therefore, is not eligible for emergency services for non-citizens. The child may be eligible for another MAD category of eligibility on their own.

D. Determination of coverage is made by MAD or its designee.

[8.325.10.13 NMAC - Rp 8.325.10.13 NMAC, 7/1/2024]

8.325.10.14 SERVICE LIMITATIONS:

To meet the categorical eligibility requirements, a recipient who is a non-citizen must be a resident of the state of New Mexico. Proof of residence must be furnished by the non-citizen to the local county ISD office. An individual traveling through New Mexico, entering the United States through New Mexico en route to another destination, visiting in New Mexico or touring New Mexico with a tourist visa does not meet the residence requirement.

[8.325.10.14 NMAC - Rp 8.325.10.14 NMAC, 7/1/2024]

8.325.10.15 NONCOVERED SERVICES:

MAD does not cover any medical service that is not necessary to treat or evaluate a condition for an individual who is a non-citizen that does not meet the definition of emergency. Additionally, MAD does not cover the following specific services:

A. long term care;

B. organ transplants;

C. rehabilitation services;

D. elective surgical procedures;

E. psychiatric or psychological services;

F. durable medical equipment or supplies;

G. eyeglasses;

H. hearing aids;

I. outpatient prescriptions;

J. podiatry services;

K. prenatal and postpartum care;

L. well child care;

M. routine dental care;

N. routine dialysis services;

O. any medical service furnished by an out-of-state provider;

P. non-emergency transportation; and

Q. preventive care.

[8.325.10.15 NMAC - Rp 8.325.10.15 NMAC, 7/1/2024]

8.325.10.16 UTILIZATION REVIEW:

Claims for services to a recipient who is a non-citizen are reviewed by MAD or its designee before payment to determine if the circumstances warrant coverage.

A. Eligibility determination: A non-citizen recipient who requests MAD coverage for services must meet specific categorical eligibility requirements. Eligibility determinations by local county ISD offices must be made before the review for medical necessity.

B. Reconsideration: A provider and the non-citizen are given notice of the denial when the EMSA emergency criteria are not met. A non-citizen recipient can request a re-review and reconsideration of denied coverage of the service. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*. A non-citizen recipient can also request a hearing. See 8.52.2 NMAC, *Recipient Hearings*.

[8.325.10.16 NMAC - Rp 8.325.10.16 NMAC, 7/1/2024]

8.325.10.17 REIMBURSEMENT:

Reimbursement is made according to the rules applicable to the provider rendering the service.

[8.325.10.17 NMAC - Rp 8.325.10.17 NMAC, 7/1/2024]

PART 11: MEDICATION ASSISTED TREATMENT FOR OPIOID ADDICTION [REPEALED]

[This part was repealed on January 1, 2014.]

PART 12 MEDICATION ASSISTED TREATMENT SERVICES IN CORRECTIONAL SETTINGS

8.325.12.1 ISSUING AGENCY:

New Mexico Health Care Authority (HCA).

[8.325.12.1 NMAC - N, 9/1/2024]

8.325.12.2 SCOPE:

This rule governs delivery of medication assisted treatment (MAT) for substance use disorder (SUD) (including medication for opioid use disorder or MOUD) to individuals in correctional facilities.

[8.325.12.2 NMAC - N, 9/1/2024]

8.325.12.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See Section 27-2-12 et seq., NMSA 1978.

[8.325.12.3 NMAC - N, 9/1/2024]

8.325.12.4 DURATION:

Permanent.

[8.325.12.4 NMAC - N, 9/1/2024]

8.325.12.5 EFFECTIVE DATE:

September 1, 2024, unless a later date is cited at the end of a section.

A. By December 31, 2025, the New Mexico corrections department (NMCD) operated correctional facilities shall provide continuation of medication-assisted treatment (MAT) services or medication for opioid use disorder (MOUD) in compliance with these regulations for individuals receiving MAT or MOUD in the community or in a county detention facility prior to booking.

B. By June 30, 2026, NMCD operated correctional facilities shall initiate MAT or MOUD treatment services in compliance with these regulations for qualified individuals diagnosed with substance use disorder.

[8.325.12.5 NMAC - N, 9/1/2024]

8.325.12.6 OBJECTIVE:

The purpose of these regulations is to establish guidance and requirements for delivery of substance use disorder treatment and reentry services for persons diagnosed with substance use disorder in correctional facilities.

[8.325.12.6 NMAC - N, 9/1/2024]

8.325.12.7 DEFINITIONS:

A. Certified peer support worker (CPSW): Peer support workers who have successfully completed training with the behavioral health service division's office of peer recovery and engagement (OPRE) and have obtained certification from the New Mexico credentialing board of behavioral health professionals.

B. Clinical Assessment: A process of collecting clinical information and drawing conclusions using evidence based tools and best practices to help identify and choose pertinent interventions.

C. Community-based provider: An entity that provides substance use disorder (SUD) treatment services in the community in addition to a correctional facility.

D. Correctional facility: A state prison or county detention facility, whether operated by a government or private contractor, that is used for confinement of adult persons.

E. County detention facilities: Detention centers operated by local governments used for the confinement of adult persons.

F. Discharge planning: The process of determining a participant's continued need for treatment services and may include development of a plan to address ongoing post-treatment needs, referral into another level of care or linkage of the individual to other support services.

G. Evidence-based: Best practices based on current scientific evidence.

H. Healthcare practitioner: A person licensed by a professional licensing board or authorized to provide health care in NM and may include physicians, physician assistants, nurse practitioners or clinician pharmacists.

I. Medication for opioid use disorder (MOUD): An approach to clinical treatment that uses federal food and drug administration (FDA) approved medications for persons diagnosed with opioid use disorder (OUD).

J. Medication-assisted treatment (MAT): The use of FDA-approved medications for the treatment of SUD.

K. Naloxone: An opioid antagonist used for the complete or partial reversal of an opioid overdose.

L. Narcotic treatment program (NTP): The drug enforcement agency's term for opioid treatment program (OTP).

M. New Mexico corrections department (NMCD): The state agency overseeing NM prison facilities whether operated by state government or a private contractor.

N. Opioid use disorder (OUD): A pattern of opioid use leading to clinically significant impairment or distress, as manifested by symptoms identified in the most recent publication of the diagnostic and statistical manual of mental disorders of the American psychiatric association or its successor.

O. Opioid treatment program (OTP): A clinic that has been certified and DEA-approved, under both federal (42 CFR Section 8) and state (7.32.8.1 NMAC and 8.321.2.30 NMAC) regulations to provide medication for OUD treatment services with methadone.

P. Peer support workers (PSW): Individuals who have been successful in their own recovery from SUD who help other individuals in their recovery process though shared understanding, respect, and mutual empowerment, reducing the likelihood of relapse.

Q. Program participant: A person who is incarcerated and diagnosed with SUD for whom medication is clinically indicated and who elects to participate in such treatment.

R. Reentry services: Resources offered that help individuals prepare for return to their communities after incarceration. Reentry services aim to reduce recidivism and improve public safety by supporting individuals toward independent living skills. Services may include psychological and financial counseling, education, skill development, employment, housing, transportation and various types of supportive services.

S. Screening: The use of an evidence-based tool and process to identify an individual's characteristics of substance use or dependency through established criteria.

T. Substance use disorder (SUD): A pattern of use of substances leading to clinical or functional impairment, in accordance with the definition in the diagnostic and statistical manual of mental disorders (DSM-5) of the American psychiatric association, or any subsequent editions.

U. Substance use disorder treatment: Treatment services provided by specifically trained, certified or licensed professionals. SUD treatment programs can include inpatient treatment, residential programs, partial hospitalization or day treatment, outpatient and intensive outpatient programs, opioid treatment programs, and primary care-based SUD treatment services.

V. Tapering guidelines: Guidance for the clinical process by which medications are safely reduced or discontinued.

W. Telemedicine: The delivery of health care services through interactive audio, video, or other electronic media used for diagnosis, consultation, or treatment.

X. Transitional services: Resources offered to provide a continuum of support to help ensure individuals engaged in SUD treatment services have seamless access to medication, treatment and other services as needed. For this rule, transitional services also applies to program participants moving between treatment programs within facilities.

Y. Withdrawal management: The medical and psychological care of patients who are experiencing withdrawal symptoms as a result of ceasing or reducing use of a substance.

[8.325.12.7 NMAC - N, 9/1/2024]

8.325.12.8 MISSION STATEMENT:

We ensure New Mexicans attain their highest level of health by providing whole-person, cost-effective, accessible, and high-quality health care and safety-net services.

[8.325.12.8 NMAC - N, 9/1/2024]

8.325.12.9 PROGRAM REQUIERED ELEMENTS:

A. Identification of the type of treatment service delivery model(s) to be used by the correctional facility's treatment programs:

(1) Facility becomes an accredited/certified and DEA-registered opioid treatment program/narcotic treatment program (OTP/NTP).

(2) Facility contracts with medical service provider (to include onsite or telemedicine resources).

(3) Facility transport to OTP/NTP.

(4) Facility arranges for MOUD provider to come to the facility to provide services.

B. Screening and referral to assessment:

(1) A preliminary SUD screening shall be administered during the correctional facility's in-take process. The screening instrument shall:

(a) follow evidence-based practices consistent with current scientifically-based and validated tools, protocols, or guidance for SUD treatment and services to identify all individuals who may have a SUD as well as individuals in need of withdrawal management services; and

(b) assure identification of individuals who are receiving continuation of SUD treatment (to include MAT and MOUD) in the community or in a county detention facility prior to placement to inform continuation of those services during the individual's incarceration.

(2) Individuals screened and referred for assessment, shall receive a comprehensive assessment and diagnostic evaluation for SUD. The clinical assessment and diagnostic evaluation shall:

(a) follow best practice and accepted general SUD guidelines; and

(b) serve as basis for provision of treatment services for those individuals diagnosed with a SUD for which there are federal food and drug administration (FDA) approved medications. For persons specifically identified with OUD, FDA-approved MAT/MOUD shall be offered.

(3) Beginning on July 1, 2026, current inmates and detainees may request SUD screening at any time during their incarceration, including prior to release, and this shall result in a referral for screening and assessment, if indicated.

C. MAT/MOUD Medications:

(1) The program shall include provision of all medications approved by the FDA for the treatment of SUD and withdrawal management to ensure that each program participant receives the medication identified to be the most effective at treating and meeting individual needs.

(2) The program shall provide existing or prospective program participants education regarding the FDA-approved medications for the treatment of SUD, including the benefits and risks.

(3) The decision as to which FDA-approved medication is prescribed, dispensed and administered shall be made by the healthcare practitioner in consultation with the program participant, taking into consideration security, health and safety level, and community resource availability. Transferring from one OUD medication to another to another may commence, if:

(a) the new medication is deemed medically necessary by a healthcare practitioner authorized to prescribe that new medication and the program participant consents to the change; or

(b) the program participant elects to commence the new medication, the new medication is FDA-approved to treat the program participant's SUD, and a qualified healthcare practitioner does not identify any absolute contraindication to the change.

(4) Program participants who are receiving MOUD during incarceration and who elect to discontinue MOUD shall receive education on the risks of MOUD discontinuation and supervised clinical taper from MOUD to avoid abrupt discontinuation of the medication.

(5) Program healthcare practitioners will assess program participants on an annual basis at a minimum but can choose to assess a program participant more frequently in order to determine their response to a given medication. Following the assessment (whether annual or interim), the healthcare practitioner may, in consultation with the program participant, recommend that the medication be continued, titrated or tapered. Education must be provided to the program participant regarding the benefits and risks of the clinical options and decision making.

D. Therapeutic services:

(1) An individualized treatment plan shall be created for each program participant.

(2) Group or individual counseling services with clinical support and supervision shall be provided where available. Treatment services, to include medication, shall not be withheld in the event of the lack of availability of counseling services.

(3) Service delivery shall offer engagement with qualified peer support workers or certified peer support workers.

E. Reentry services:

(1) Reentry planning for the program participant shall begin upon entry to the treatment program.

(2) Qualified peer support workers or certified peer support workers shall be engaged with the reentry process from the onset of the program participant's enrollment in the treatment program.

(3) Facilities shall ensure referral to a community-based provider if MAT/MOUD is indicated for a program participant and, despite best efforts, treatment initiation is not possible prior to release.

(4) Reentry planning shall occur to assure continuity of care in the community for program participants who received MAT/MOUD services for their SUD during incarceration and are exiting facilities.

(5) Reentry services for program participants receiving MAT/MOUD during incarceration, in order to promote success and safeguard from poor outcomes, shall include, but not be limited to:

(a) providing information and referral to available SUD treatment facilities and primary care clinical facilities in the program participant's area of release;

(b) referring program participants who are receiving treatment with methadone, to OTPs under medical order and in compliance with current federal and state requirements and regulations regarding services' transfer;

(c) assisting program participants with information and resources for housing and regional resources that include job employment assistance, healthcare, transportation, and other safety-net services in community of release, including tribal programs and services;

(d) assisting program participants with information on and reactivation of medicaid/medicare enrollment and affiliation with a managed care organization (MCO) or fee for service for eligible participants; and

(e) assuring program participant access to naloxone rescue kits, or a prescription for a naloxone rescue kit as indicated in 33-2-51 NMSA 1978.

F. Transitional services (to include discharge):

(1) Transitional services shall include a warm handoff with a transition of care plan from sending entity (correctional facility medical provider) to receiving entity. This includes transition from county detention facility to state correctional facility and vice versa.

(2) Discharge planning shall include:

(a) linking to MAT/MOUD and other SUD services in the program participant's geographic area of residence;

(b) providing behavioral and medical health referrals;

(c) ensuring discharge prescription for naltrexone or buprenorphine products; and

(d) referring program participants who are receiving treatment with methadone, to OTPs under medical order and in compliance with current federal and

state requirements and regulations to ensure continuity of care and access to MAT/MOUD.

(3) Program participants who are receiving MOUD during incarceration and who elect to discontinue MOUD upon their release shall receive education on the risks of MOUD discontinuation and supervised clinical taper from MOUD to avoid abrupt discontinuation of the medication.

(4) Program participants who are transitioning to a community or region that does not have resources available to continue treatment may receive supervised clinical taper from MOUD to avoid abrupt discontinuation of the medication.

G. Program participant safeguards: Correctional facilities shall assure that:

(1) treatment services, once initiated, are available for the duration of a program participant's period of incarceration;

(2) placement in the medication-assisted treatment program shall be offered to all qualified individuals, but participation shall not be mandatory;

(3) the program participant provides written consent to receive treatment services or to discontinue treatment services;

(4) no program participant shall be charged fees for SUD treatment services;

(5) MAT/MOUD services shall not be denied to any eligible program participant as a form of disciplinary action unless that action is related to the diversion, abuse or misuse of the program's prescribed medication; and

(6) program participants are provided the option to discontinue treatment services, should they choose to do so. (In such cases, discontinuation shall adhere to medically appropriate tapering guidelines and educational practices.)

[8.325.12.9 NMAC - N, 9/1/2024]

8.325.12.10 POLICIES AND PROCEDURES:

A. Every program shall establish written general policies, procedures and guidelines reflecting language in this rule in its entirety.

B. These established policies, procedures and guidelines shall further detail each of the following categories:

(1) Medication diversion:

(a) addressing prevention of diversion and misuse of MOUD;

(b) assuring diversion policies are visible in the facility;

(c) addressing consequential strategies for diversion, to include non-punitive approaches for remediation instead of immediately terminating from the program; and

(d) addressing critical incident reporting.

(2) Screening and treatment of pregnant individuals in compliance with 31.3.11 NMSA 1978.

(3) Withdrawal management:

(a) screening (clinical opiate withdrawal scale (COWS) or its equivalent) and assessment to discern level of withdrawal intensity, e.g. mild, moderate or severe;

(b) monitoring the individual;

(c) describing roles and responsibilities for staff;

(d) identifying treatment and supportive care to include assurances of the following:

(i) withdrawal treatment is planned and supervised by the program medical director;

(ii) dose reduction occurs at a rate deemed medically appropriate; and

(iii) program participant is informed of the risks of withdrawal treatment.

(4) Transition of care, to include:

(a) engaging and educating the program participant;

(b) assuring MCOs initiate transition of care planning prior to release to facilitate continuity of care, and inclusion of tribal 638 or Indian health service program staff for transition in tribal communities for fee for service participants; and

(c) describing roles and responsibilities for staff.

(5) Medication tapering guidelines: Each of the following shall have its own guidelines:

(a) transferring patients to higher level of care based on medical necessity;

(b) assuring pregnancy and postpartum patient care; and

(c) providing reentry support.

[8.325.12.10 NMAC - N, 9/1/2024]

8.325.12.11 STAFFING, ADMINISTRATION AND EDUCATION:

Correctional facilities shall:

A. Develop adequate staffing patterns including healthcare practitioners authorized by law to prescribe, administer, and monitor medication-assisted treatment (to include telehealth-supported clinical review or services if necessary).

B. Facilitate timely access to medication-assisted treatment, based upon the clinical need of the program participant.

C. Provide trainings and technical assistance on SUD (disease course and evidence-based treatment modalities), including OUD and MOUD on an ongoing basis for new and existing healthcare and custodial staff, ensuring that staff are educated on these topics from the beginning of their career.

D. Provide education and training that addresses and provides tools to combat the broader stigma associated with these topics and emphasizes medication treatment as the standard of care for OUD. The trainings shall meet national standards and be responsive to shifting needs in the facility.

[8.325.12.11 NMAC - N, 9/1/2024]

8.325.12.12 PROGRAM REPORTING AND EVALUATION:

A. Beginning October 1, 2023, and annually thereafter, the HCA shall report to the interim legislative health and human services committee and the legislative finance committee on the establishment, operation and effectiveness of the program(s) established pursuant to Section 24-1-5.11 NMSA 1978.

B. NMCD shall submit program reports to HCA for review beginning August 31, 2024, and each year thereafter, as basis for HCA's compilation of report to interim legislative health and human services committee and the legislative finance committee.

C. County detention facilities, upon statutory mandate, shall submit annual program reports based on mutually agreed upon data elements (e.g., numbers screened, numbers referred to assessment, numbers qualified for program enrollment and enrollment in program).

D. The reports shall also include an evaluation section that demonstrated the impact on institutional safety and program performance and any recommendations for

additional legislative enactments that may be needed or required to improve or enhance the programs as determined to be appropriate by the health care authority.

[8.325.12.12 NMAC - N, 9/1/2024]

8.325.12.13 RECORDKEEPING:

A. Records shall be maintained in writing or electronically reflecting each program participant's screening, placement and participation, including, but not limited to, the offer of placement, individualized treatment plan, medication regimen, establishment of reentry plan, and discharge medications or orders for released individuals.

B. Contemporary medication administration records shall be maintained in writing or electronically for every program participant receiving MAT/MOUD pursuant to a facility's SUD treatment and transition services program.

C. Designated healthcare practitioners and other facility healthcare staff shall retain all records required by this section in the facility or shall otherwise have the ability to immediately access such records when necessary.

[8.325.12.13 NMAC - N, 9/1/2024]

CHAPTER 326: CASE MANAGEMENT SERVICES

PART 1: GENERAL PROVISION [RESERVED]

PART 2: CASE MANAGEMENT SERVICES FOR ADULTS WITH DEVELOPMENTAL DISABILITIES

8.326.2.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.326.2.1 NMAC - Rp 8.326.2.1 NMAC, 7/1/2024]

8.326.2.2 SCOPE:

The rule applies to the general public.

[8.326.2.2 NMAC - Rp 8.326.2.2 NMAC, 7/1/2024]

8.326.2.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of

the Social Security Act, as amended, and by the state health care authority pursuant to state statute. See Sections 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.326.2.3 NMAC - Rp 8.326.2.3 NMAC, 7/1/2024]

8.326.2.4 DURATION:

Permanent.

[8.326.2.4 NMAC - Rp 8.326.2.4 NMAC, 7/1/2024]

8.326.2.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.326.2.5 NMAC - Rp 8.326.2.5 NMAC, 7/1/2024]

8.326.2.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[8.326.2.6 NMAC - Rp 8.326.2.6 NMAC, 7/1/2024]

8.326.2.7 DEFINITIONS:

[RESERVED]

8.326.2.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.326.2.8 NMAC - Rp 8.326.2.8 NMAC, 7/1/2024]

8.326.2.9 CASE MANAGEMENT SERVICES FOR ADULTS WITH DEVELOPMENTAL DISABILITIES:

The New Mexico medical assistance program (medicaid) pays for medically necessary health services furnished to eligible recipients, including covered case management services furnished to adult recipients who have developmental disabilities [42 U.S.C.

Section 1396n(g)(1)(2)]. This part describes eligible providers, eligible recipients, covered services, service limitations and general reimbursement methodology.

[8.326.2.9 NMAC - Rp 8.326.2.9 NMAC, 7/1/2024]

8.326.2.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following agencies are eligible to be reimbursed for providing case management services:

(1) state agencies in New Mexico providing case management services to individuals with developmental disabilities;

(2) Indian tribal governments and Indian health service clinics; and

(3) community-based agencies in New Mexico that do not furnish adult day habilitation, work related services, or adult residential services to individuals with developmental disabilities.

B. Agency qualification: Agencies must be certified by the developmental disabilities division of the HCA and meet the MAD approved standards for agencies providing case management for adults who are developmentally disabled.

(1) Agencies must demonstrate knowledge of the community to be served, its populations and its resources, including methods for accessing those resources.

(2) Agencies must demonstrate direct experience in case management services and success in serving the target population.

(3) Agencies must have personnel management skills, including written policies and procedures that include recruitment, selection, retention and termination of case managers, job descriptions for case managers, grievance procedures, hours of work, holidays, vacations, leaves of absence, wage scales and benefits, conduct and other general rules.

C. Case manager qualifications: Case managers employed by case management agencies must possess the education, skills, abilities and experience to perform case management service for adults with developmental disabilities. At a minimum, case managers must meet one of the following qualifications:

(1) bachelor’s degree from an accredited institution in a human services field or any related academic discipline associated with the study of human behavior or human skills development, such as psychology, sociology, speech, gerontology, education, counseling, social work, human development or any other study of services

related field and one (1) year of experience working with individuals with developmental disabilities;

(2) licensed as a registered or licensed practical nurse with one year of experience working with individuals with developmental disabilities; or

(3) In the event that there are no suitable candidates with the above qualifications, individuals with the following qualifications and experience can be employed as case managers:

(a) associate's degree and a minimum of three years of experience working with individuals with developmental disabilities; or

(b) high school graduation or general educational development (GED) test and a minimum of four (4) years of experience working with individuals with developmental disabilities.

(4) Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[8.326.2.10 NMAC - Rp 8.326.2.10 NMAC, 7/1/2024]

8.326.2.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, General Provider Policies. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, General Provider Policies. Documentation must substantiate the date of service, type of contact, category of case management service furnished, length/time units of service furnished, nature/content of the service furnished, result of service or intended result and relationship of the service furnished to goals identified in the plan of care.

[8.326.2.11 NMAC - Rp 8.326.2.11 NMAC, 7/1/2024]

8.326.2.12 ELIGIBLE RECIPIENTS:

A. Case management services are available for eligible medicaid recipients that meet all of the following criteria:

(1) 21 years of age or older;

(2) resident of the state of New Mexico;

(3) meet the state definition of an individual with a developmental disability;

(4) placement on the list for developmental disability services by the community services team (CST) of the developmental disabilities division of the HCA;

(5) resides outside a medicaid certified intermediate care facility for the mentally retarded (ICF-MR); and

(6) not a participant in a home and community- based services waiver program.

B. Information on the individual is gathered by the CST and used to complete an assessment and assign an "urgency of need" priority. Recipients assigned a priority one are individuals who are in danger of becoming homeless or victims of abuse, if suitable placement services are not received. Recipients assigned a priority two are individuals whose condition will deteriorate without placement. Recipients assigned a priority three are individuals who could benefit from case management but whose present condition is acceptable.

[8.326.2.12 NMAC - Rp 8.326.2.12 NMAC, 7/1/2024]

8.326.2.13 COVERED SERVICES:

Medicaid coverage for case management services varies by the priority assigned recipients by the CST.

A. Case management services for recipients assigned a priority three: Case management services for recipients assigned a priority three are limited. Medicaid covers assessments of recipients' needs and the coordination and performance of evaluations and assessments. A follow-up is performed during the third month with appropriate recommendations. Medicaid covers case management services for recipients classified as priority three only for an initial 90 day period, unless the recipient's urgency of need priority changes to priority one or priority two.

B. Case management services for recipients assigned priority one or priority two: Medicaid covers case management services for those recipients assigned a priority one or priority two for up to 60 days after suitable placement or services are received. Medicaid covers the following case management service activities for these recipients:

(1) assessment of the recipient's medical and social needs and functional limitations;

(2) coordination and monitoring of evaluations and services;

(3) help in identifying available service providers and programs to enhance the recipient's community access and involvement, including:

(a) arrangement of transportation;

(b) location of housing;

(c) location of providers to teach living skills;

(d) location of vocational or educational services; and

(e) location of civic or recreational services, as needed.

(4) facilitation and participation in the development, review and evaluation of a plan of care and revision of that plan when warranted; and

(5) assessment of the recipient's progress and continued need for services.

C. Administrative activities: Medicaid eligibility determinations or intake processing are covered services for individuals with developmentally disabilities who have not applied for medicaid but who have been referred to the CST for evaluation. These administrative services are billed as administrative activities, not as case management services.

[8.326.2.13 NMAC - Rp 8.326.2.13 NMAC, 7/1/2024]

8.326.2.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, General Noncovered Services. Medicaid does not cover the following specific activities:

A. services furnished to individuals who are not medicaid eligible or do not meet the definition of an eligible recipient for these case management services;

B. services furnished by case managers which are not substantiated with appropriate documentation in the recipient's file;

C. formal educational or vocational services which relate to traditional academic subjects or job training;

D. outreach activities to contact potential recipients, except as described under covered services;

E. all administrative activities conducted after the initial 90 day referral by the CST;

F. institutional discharge planning which must be furnished by the institution prior to discharge;

G. services which are furnished under other categories, such as therapies, transportation or counseling;

H. services which are considered by MAD or its designee to be excessive based on the condition of the recipient;

I. monitoring the quality of service provider agencies;

J. resource development; and

K. testifying before governmental bodies, such as city council meetings or legislative committees, even if on behalf of the recipient.

[8.326.2.14 NMAC - Rp 8.326.2.14 NMAC, 7/1/2024]

8.326.2.15 PLAN OF CARE:

A. Case managers develop and implement plans of care (POC) based on standards developed by the developmental disabilities division of the HCA. For purposes of compliance with medicaid regulations, the following must be contained in the plan of care or documents used to develop the plan of care. The plan of care and supporting documents must be available for review in the recipient's file:

(1) statement of the nature of the specific problem and needs of the recipient;

(2) description of the functional level of the recipient, including an assessment and evaluation of the following:

(a) mental status assessment;

(b) intellectual function assessment;

(c) psychological assessment;

(d) educational assessment;

(e) vocational assessment;

(f) social assessment;

(g) medication assessment; and

(h) physical assessment.

(3) description of the intermediate and long-range goals and placement options with the projected timetable for their attainment, including information on the duration and scope of services; and

(4) statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, including review and modification of the plan.

B. The plan of care must be retained by agency providers and available for utilization review purposes. Plans of care must be updated and revised, as indicated, at least every six months or more often, as indicated by the recipient's condition.

[8.326.2.15 NMAC - Rp 8.326.2.15 NMAC, 7/1/2024]

8.326.2.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, Prior Approval and Utilization Review. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. Prior approval: Certain procedures or services which are part of the recipients' plan of care can require prior approval from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior approval request denials or other review decisions can request a re- review and a reconsideration. See 8.350.2 NMAC, Reconsideration of Utilization Review Decisions.

[8.326.2.16 NMAC - Rp 8.326.2.16 NMAC, 7/1/2024]

8.326.2.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA-1500 claim form or its successor. See 8.302.2 NMAC, Billing for Medicaid Services. Instructions on documentation, billing and claims processing are sent to approved medicaid providers. Reimbursement for covered case management services is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service or procedure.

B. The provider's billed charge must be their usual and customary charge for an average month of services to individuals who are part of the target population. Monthly charges are based on a cost analysis conducted periodically by the HCA.

C. "Usual and customary charge" refers to the amount which the individual providers charge the general public in the majority of cases for a specific procedure or service.

D. For case management services furnished by an institution, costs associated with case management must be removed from their cost reports prior to cost settlement or rebasing.

[2/1/1995; 8.326.3.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/2012; A, 4/5/2022]

8.326.3.9 CASE MANAGEMENT SERVICES FOR PREGNANT INDIVIDUALS AND THEIR INFANTS:

The New Mexico medical assistance program (medicaid) pays for medically necessary health services furnished to eligible recipients, including case management services furnished to medicaid eligible pregnant individuals on the day the pregnancy ends through the last day in which the 12-month postpartum period ends. This part describes eligible providers, eligible recipients, covered services, service limitations and general reimbursement methodology.

[2/1/1995; 5/15/1996; 8.326.3.9 NMAC - Rn, 8 NMAC 4.MAD.772, 3/1/2012; A, 4/5/2022]

8.326.3.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following

certified agencies are eligible to be reimbursed for furnishing case management services to eligible pregnant individuals and their infants:

(1) public health offices of the New Mexico department of health;

(2) Indian tribal governments or Indian health services;

(3) federally qualified health centers (FQHC); and

(4) other community-based agencies which meet the requirements for participation.

B. Agency qualifications: Community-based agencies must be certified by the department of health and meet the following criteria:

(1) agencies must have demonstrated direct experience in successfully serving the target population; and

(2) agencies must have demonstrated knowledge of available community services and methods for accessing them.

C. Case manager qualifications: Case managers employed by the agency must possess the education, skills, abilities, and experience to perform case management services. It can be important that case managers have language skills, cultural sensitivity and acquired knowledge and expertise unique to the geographic area. At a minimum, case managers must have one of the following qualifications:

(1) case managers must be licensed as a registered nurse and have a bachelors degree in nursing or be licensed as a social worker; the nurse or social worker must have two years of experience in community health and at least one year of experience in maternal health or child health;

(2) or be a licensed registered nurse or have a bachelors degree in social work with a minimum of two years of experience in community health and at least two years experience in maternal health or child health nursing;

(3) in the event that there are no candidates with the above qualifications, an individual with an associates degree and four years of experience in social, community health or maternal health and child health may be employed as a case manager;

(4) if no individuals with a college degree and appropriate experience are available, an individual with a high school diploma and five years of experience in social services, community health or maternal health and child health may be considered; agencies that are considering hiring individuals listed in Paragraph (3) and (4) of 8.326.3.10 NMAC must complete a waiver process.

D. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[2/1/1995; 5/15/1996; 8.326.3.10 NMAC - Rn, 8 NMAC 4.MAD.772.1, 3/1/2012; A, 4/5/2022]

8.326.3.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*. Documentation must substantiate the date of service, type of contact, category of case management service furnished, length/time units of service furnished, nature/content of the service furnished, result of service or intended result and relationship of the service furnished to goals identified in the individual service plan.

[2/1/95; 5/15/96; 8.326.3.11 NMAC - Rn, 8 NMAC 4.MAD.772.2, 3/1/12]

8.326.3.12 ELIGIBLE RECIPIENTS:

Case management services are available to medicaid eligible pregnant individuals and their infants up to 12-months following the delivery in accordance with 8.291.400.14 NMAC.

[2/1/1995; 5/15/1996; 8.326.3.12 NMAC - Rn, 8 NMAC 4.MAD.772.3, 3/1/2012; A, 4/5/2022]

8.326.3.13 COVERED SERVICES AND SERVICE LIMITATIONS:

Medicaid covers case management services for pregnant individuals and their infants which help recipients gain access to medical, social, educational or other needed services. Case management services provide necessary coordination with providers of non-medical services, such as nutrition or education programs, when these services are necessary to enable recipients to benefit from the health services paid for by medicaid.

A. Medicaid covers the following case management service activities furnished to pregnant individuals:

(1) identification of programs appropriate for the recipient’s needs, including those which teach basic maternal and child health skills;

(2) help in accessing the identified programs;

(3) assessment of the service needs of recipients to coordinate the delivery of services when multiple providers or programs are involved in the provision of care;

(4) reassessment to ensure that the services which were obtained are necessary and appropriate in meeting the recipient's needs; and

(5) determination of whether any additional services are warranted.

B. Medicaid covers five hours of case management services per client per pregnancy. The five hours include services to both the pregnant recipient and the infant. Additional units of service require prior approval by MAD or its designee.

[2/1/1995; 5/15/1996; 8.326.3.13 NMAC - Rn, 8 NMAC 4.MAD.772.4, 3/1/2012; A, 4/5/2022]

8.326.3.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following specific activities:

A. services furnished to individuals who are not medicaid eligible, who are not pregnant, or who are not residents of New Mexico;

B. services furnished by case managers which are not substantiated with appropriate documentation in the recipient's file;

C. formal educational or vocational services which are related to traditional academic subjects or job training;

D. outreach and identification activities in which providers attempt to contact potential recipients;

E. administrative activities, such as medicaid eligibility determinations and intake processing;

F. institutional discharge planning;

G. services which are furnished by other practitioners, such as therapies, transportation and homemaker or personal care services; and

H. services considered by MAD or its designee to be excessive based on the needs of the recipient and on the documentation by the case manager.

[2/1/95; 5/15/96; 8.326.3.14 NMAC - Rn, 8 NMAC 4.MAD.772.5, 3/1/12]

8.326.3.15 PLAN OF CARE:

A. Case managers develop and implement plans of care for each medicaid recipient. Plans of care are developed in consultation with the recipients, families or legal guardian(s), physicians and others involved with care.

B. The following must be contained in the plan of care or documents used in the development of the plan of care. The plan of care and all supporting documentation must be available for review in the recipient's file:

(1) statement of the nature of the specific problem and needs of the woman or infant;

(2) description of the intermediate and long-range goals with the projected timetable for their attainment, including specific information on the duration and scope of services; and

(3) statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, including review and modification of the plan.

C. The plan of care must be retained by agency providers and be available for utilization review purposes. Plans of care must be updated and revised, as indicated, at least every six months or more often, as indicated by the recipient's condition.

[2/1/1995; 5/15/1996; 8.326.3.15 NMAC - Rn, 8 NMAC 4.MAD.772.6, 3/1/2012; A, 4/5/2022]

8.326.3.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** Certain procedures or services which are part of the treatment plan can require prior approval from MAD or its designee. See utilization instruction for those services. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[2/1/95; 5/15/96; 8.326.3.16 NMAC - Rn, 8 NMAC 4.MAD.772.7, 3/1/12]

8.326.3.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA 1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Instructions on documentation, billing and claims processing are sent to approved medicaid providers. Reimbursement for case management services is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service or procedure.

B. The provider's billed charge must be their usual and customary charge for services.

C. "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

D. For case management services furnished by an institution, costs associated with case management must be removed from their cost reports prior to cost settlement or rebasing

[2/1/95; 5/15/96; 8.326.3.17 NMAC - Rn, 8 NMAC 4.MAD.772.8, 3/1/12]

PART 4: CASE MANAGEMENT SERVICES FOR THE CHRONICALLY MENTALLY ILL

8.326.4.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[2/1/1995; 8.326.4.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 3/1/2012; A, 7/1/2024]

8.326.4.2 SCOPE:

The rule applies to the general public.

[2/1/95; 8.326.4.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 3/1/12]

8.326.4.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[2/1/1995; 8.326.4.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 3/1/2012; A, 7/1/2024]

8.326.4.4 DURATION:

Permanent.

[2/1/95; 8.326.4.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 3/1/12]

8.326.4.5 EFFECTIVE DATE:

February 1, 1995.

[2/1/95; 8.326.4.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.326.4.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.326.4.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.326.4.7 DEFINITIONS:

[RESERVED]

8.326.4.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.326.4.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.326.4.9 CASE MANAGEMENT SERVICES FOR THE CHRONICALLY MENTALLY ILL:

The New Mexico medical assistance program (medicaid) pays for medically necessary health services furnished to eligible recipients for case management services furnished to recipients who are chronically mentally ill [42 U.S.C. Section 1396n(g)(1)(2)]. This part describes eligible providers, eligible recipients, covered services, service restrictions and general reimbursement methodology.

[2/1/95; 8.326.4.9 NMAC - Rn, 8 NMAC 4.MAD.773, 3/1/12]

8.326.4.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following agencies are reimbursed for furnishing case management services to recipients who are chronically mentally ill:

(1) community mental health centers funded by the mental health division of the department of health;

(2) Indian tribal governments; and

(3) other community-based agencies which have demonstrated direct experience in case management services and success in serving the target population, as certified by the department of health.

B. **Agency qualifications:** Agencies must be certified by the mental health division of the department of health. Agencies must meet the following criteria.

(1) agencies must have demonstrated direct experience in successfully serving the target population; and

(2) agencies must demonstrate knowledge of available community services and methods for accessing them.

C. **Case manager qualification:** Case managers employed by the agency must possess the education, skills, abilities, and experience to perform case management services for recipients who are chronically mentally ill. Case managers must meet at least one of the following requirements:

(1) bachelor’s degree in social work, counseling, psychology or a related field, from an accredited institution and one year of experience in the mental health field; or

(2) licensed as a registered nurse with one year of experience in the mental health field;

(3) in the event that there are no suitable candidates with the above qualifications, individuals with the following qualifications and experience can be employed as case managers:

(a) associate's degree and a minimum of three (3) years of experience working with individuals with chronic mental illness;

(b) high school graduation or general educational development (GED) test and a minimum of four (4) years of experience working with individuals with chronic mental illness.

D. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions, and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[2/1/95; 8.326.4.10 NMAC - Rn, 8 NMAC 4.MAD.773.1, 3/1/12]

8.326.4.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*. Documentation must substantiate the date of service, type of contact, category of case management service furnished, length/time units of service furnished, nature/content of the service furnished, result of service or intended result, and relationship of the service furnished to goals identified in the plan of care.

[2/1/95; 8.326.4.11 NMAC - Rn, 8 NMAC 4.MAD.773.2, 3/1/12]

8.326.4.12 ELIGIBLE RECIPIENTS:

Medicaid covers case management services furnished to medicaid recipients who are chronically mentally ill and who are not residents of an institution for mental disease. Chronic mental illness is defined by diagnosis, disability and duration. The major diagnoses include schizophrenia, affective disorders, bipolar disorders, and serious personality disorders, such as borderline personality. The illness must be of a duration of more than one year and cause serious impairment of functions relative to daily living.

[2/1/95; 8.326.4.12 NMAC - Rn, 8 NMAC 4.MAD.773.3, 3/1/12]

8.326.4.13 COVERED SERVICES:

Medicaid covers the following case management service activities for recipients who are chronically mentally ill:

A. assessment of the recipient's medical and social needs and functional limitations using standardized needs assessment instruments;

B. development and implementation of individualized plan of care;

C. mobilizing the use of"natural helping" networks, such as family members, church members and friends;

D. development of increased opportunities for community access and involvement including assistance in the location of housing, community living skills, teaching, vocational, civil and recreational service programs;

E. coordination and monitoring of the delivery of services; and

F. evaluation of the effectiveness of services furnished under the plan of care and revision of the plan as conditions warrant.

[2/1/95; 8.326.4.13 NMAC - Rn, 8 NMAC 4.MAD.773.4, 3/1/12]

8.326.4.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following specific activities:

A. services furnished to individuals who are not medicaid eligible or who are not eligible for these services;

B. services furnished by case managers which are not substantiated with appropriate documentation in the recipient's file;

C. formal educational or vocational services related to traditional academic subjects or job training;

D. outreach and identification activities in which providers attempt to contact potential recipients;

E. administrative activities, such as medicaid eligibility determinations and intake processing;

F. institutional discharge planning;

G. services which are furnished under other categories, such as therapies, transportation or counseling; or

H. services considered by MAD or its designee to be excessive based on the needs of recipient and documentation in the case management file.

[2/1/95; 8.326.4.14 NMAC - Rn, 8 NMAC 4.MAD.773.5, 3/1/12]

8.326.4.15 PLAN OF CARE:

A. Case managers develop and implement plans of care in conjunction with the recipients, families or legal guardian(s), therapists, physicians, or others who assist with the recipient's care.

B. The following must be contained in the plan of care or documents used in the development of the plan of care. The plan of care and all supporting documentation must be available for review in the recipient's file:

(1) statement of the nature of the specific problem and the specific needs of the recipient;

(2) description of the functional level of the recipient, including an assessment and evaluation of the following:

(a) mental status assessment;

(b) intellectual function assessment;

(c) psychological assessment;

(d) educational assessment;

(e) vocational assessment;

(f) social assessment;

(g) medication assessment; and

(h) physical assessment.

(3) description of the intermediate and long-range goals with the projected timetable for their attainment, including information about the duration and scope of services;

(4) statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, including review and modification of the plan.

(5) the plan of care must be retained by agency providers and available for utilization review purposes; plans of care must be updated and revised, as indicated, at least every six (6) months or more often, as indicated by the recipient's condition.

[2/1/95; 8.326.4.15 NMAC - Rn, 8 NMAC 4.MAD.773.6, 3/1/12]

8.326.4.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** Certain procedures or services which are part of the plan of care can require prior approval from MAD or its designee. See utilization instructions for the specific service. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[2/1/95; 8.326.4.16 NMAC - Rn, 8 NMAC 4.MAD.773.7, 3/1/12]

8.326.4.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA 1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Instructions on documentation, billing and claims processing are sent to approved medicaid providers. Reimbursement for case management services is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service or procedure.

B. The provider's billed charge must be their usual and customary charge for services.

C. "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

D. For case management services rendered by an institution, the costs associated with case management services must be removed from their cost reports prior to cost settlement or rebasing.

[2/1/95; 8.326.4.17 NMAC - Rn, 8 NMAC 4.MAD.773.8, 3/1/12]

PART 5: CASE MANAGEMENT SERVICES FOR TRAUMATICALLY BRAIN INJURED ADULTS

8.326.5.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[2/1/1995; 8.326.5.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 3/1/2012; A, 7/1/2024]

8.326.5.2 SCOPE:

The rule applies to the general public.

[2/1/95; 8.326.5.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 3/1/12]

8.326.5.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[2/1/1995; 8.326.5.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 3/1/2012; A, 7/1/2024]

8.326.5.4 DURATION:

Permanent.

[2/1/95; 8.326.5.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 3/1/12]

8.326.5.5 EFFECTIVE DATE:

February 1, 1995.

[2/1/95; 8.326.5.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.326.5.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.326.5.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.326.5.7 DEFINITIONS:

[RESERVED]

8.326.5.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.326.5.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.326.5.9 CASE MANAGEMENT SERVICES FOR TRAUMATICALLY BRAIN INJURED ADULTS:

The New Mexico medicaid program (medicaid) pays for medically necessary health services furnished to eligible recipients, including covered case management services furnished to adult recipients who are traumatically brain injured [42 U.S.C. Section 1396n (g)(1)(2)]. This part describes eligible providers, eligible recipients, covered services, service limitations and general reimbursement methodology.

[2/1/95; 10/15/96; 8.326.5.9 NMAC - Rn, 8 NMAC 4.MAD.774, 3/1/12]

8.326.5.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following agencies are eligible for certification as case management agencies:

(1) government or community agencies which meet certification standards developed by MAD or its designee;

(2) Indian tribal governments;

(3) Indian health services; and

(4) federally qualified health centers (FQHC).

B. Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

C. **Qualification of case management agencies:** Case management agencies must have direct experience in serving traumatically brain-injured adults and must demonstrate knowledge of available community services and methods for gaining access to those services.

D. **Qualifications of case managers:** Case managers employed by case management agencies must have the education, skills, abilities and experience to perform case management services for adults with traumatic brain injuries. Case managers may also need language skills, cultural sensitivity and acquired knowledge and expertise unique to a geographic area. Case managers must have at least one of the following qualification:

(1) bachelor's degree from an accredited institution in social work, counseling, psychology or a related field and one year of experience working with traumatically brain injured adults;

(2) licensed as a registered nurse with one year of experience working with traumatically brain injured adults; or

(3) if there are no suitable candidates with the above qualifications, individuals with the following qualifications and experience can be employed as case managers:

(a) associate's degree and a minimum of three (3) years experience in the mental health or traumatic brain injury field; or

(b) high school graduation or general educational development (GED) test and a minimum of five (5) years experience in the mental health or traumatic brain injury field.

(4) This individual must work under the direct supervision of an experienced case manager within the agency who meets the educational and experience requirements, described above.

[2/1/95; 10/15/96; 8.326.5.10 NMAC - Rn, 8 NMAC 4.MAD.774.1, 3/1/12]

8.326.5.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*.

A. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

B. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*.

C. Documentation must substantiate the date of service, type of contact, category of case management service furnished, length/time units of service furnished, nature/content of the service furnished, result of service of intended result and relationship of the service furnished to goals identified in the individual plan of care.

[2/1/95; 10/15/96; 8.326.5.11 NMAC - Rn, 8 NMAC 4.MAD.774.2, 3/1/12]

8.326.5.12 ELIGIBLE INDIVIDUALS:

A. Case management services are available for eligible medicaid recipients who meet all of the following criteria:

(1) twenty-one (21) years of age or older;

(2) resident of the state of New Mexico;

(3) resident of Santa Fe, Chavez, Dona Ana, San Juan, McKinley or San Miguel counties;

(4) suffer from traumatic brain injury; and

(5) reside outside an institution.

B. **Definition of traumatic brain injury:**"Traumatic brain injury" is defined as an insult to the brain which is not caused by a degenerative or congenital process, but by an external physical force. The physical force produces a diminished or altered state of consciousness resulting in impairment of cognitive abilities or physical functioning. It can also result in the disturbance of behavioral or emotional functioning. These impairments can be either temporary or permanent and cause partial or total functional disability or psychological maladjustment.

C. **Recipient freedom of choice:** Adults with traumatic brain injuries are not required to receive case management services even if they are eligible for the service. Case management services can only be furnished at the request of recipients. Recipients have the freedom to choose among medicaid-eligible case management agencies and specific case managers within an agency.

[2/1/95; 10/15/96; 8.326.5.12 NMAC - Rn, 8 NMAC 4.MAD.774.3, 3/1/12]

8.326.5.13 COVERED SERVICES:

Medicaid covers those case management services for traumatic brain-injured adults which are medically necessary to help these recipients gain access to needed medical, social, educational and other services. Medicaid covers the following specific case management services:

A. identification of programs which are appropriate for a recipient's needs and provision of assistance to the recipient in accessing those programs;

B. assessment of the service needs of recipients to coordinate the delivery of services if multiple providers or programs are involved in the provision of care; and

C. reassessment to ensure that the services obtained are medical necessary and appropriate to meet the recipient's needs.

[2/1/95; 10/15/96; 8.326.5.13 NMAC - Rn, 8 NMAC 4.MAD.774.4, 3/1/12]

8.326.5.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following specific activities:

A. services furnished to individuals who are not medicaid-eligible, who do not meet the definition of traumatically brain injured, or who are not residents of Santa Fe county or the state of New Mexico;

B. services furnished by case managers which are not substantiated with appropriate documentation in the recipient's file;

C. daily independent living skills training;

D. outreach and identification activities in which providers attempt to contact potential recipients;

E. administrative activities, such as medicaid eligibility determinations and intake processing;

F. institutional discharge planning: if recipients are in medical institutions, medicaid covers case management only for the thirty (30) days prior to discharge; this service cannot duplicate required discharge planning activities conducted by medical institutions;

G. actual provision of services or treatment identified in the case management assessment; or

H. services furnished by other practitioners, such as therapies, transportation, homemaker or personal care services or psycho-social rehabilitation services.

[2/1/95; 10/15/96; 8.326.5.14 NMAC - Rn, 8 NMAC 4.MAD.774.5, 3/1/12]

8.326.5.15 PLAN OF CARE:

A. Case managers develop and implement individualized plans of care in consultation with recipients, families or legal guardians, physicians and others involved in the care.

B. The following must be contained in the plan of care or documents used in the development of the plan of care. The plan of care and all supporting documentation must be available for review in the recipient's file:

(1) statement of the nature of the specific problem and needs of the recipients;

(2) description of the functional level of the recipient, including an assessment and evaluation of the following:

(a) mental status assessment;

(b) intellectual function assessment;

(c) psychological assessment;

(d) educational assessment;

(e) vocational assessment;

(f) social assessment;

(g) medication assessment; and

(h) physical assessment.

(3) description of the intermediate and long-range goals, with the projected timetable for their attainment, including information on the duration and scope of services; and

(4) statement and rationale of the plan of care for achieving these intermediate and long-range goals, including review and modification of the plan;

(5) the plan of care must be retained by agency providers and available for utilization review purposes; plans of care must be updated and revised, at least every six (6) months or more often, as indicated by the recipient's condition.

[2/1/95; 10/15/96; 8.326.5.15 NMAC - Rn, 8 NMAC 4.MAD.774.6, 3/1/12]

8.326.5.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** Certain procedures or services which are a part of the plan of care can require prior approval from MAD or its designee. See utilization instructions for the specific service. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[2/1/95; 10/15/96; 8.326.5.16 NMAC - Rn, 8 NMAC 4.MAD.774.7, 3/1/12]

8.326.5.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA-1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Instructions on documentation, billing and claims processing are sent to approved medicaid providers. Reimbursement for case management services is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service.

B. The provider's billed charge must be their usual and customary charge for services.

C. "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

D. For case management services furnished by an institution or clinic, the costs associated with case management services must be removed from cost reports prior to cost settlement or rebasing.

[2/1/95; 10/15/96; 8.326.5.17 NMAC - Rn, 8 NMAC 4.MAD.774.8, 3/1/12]

PART 6: CASE MANAGEMENT SERVICES FOR CHILDREN UP TO AGE THREE

8.326.6.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[2/1/1995; 8.326.6.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 3/1/2012; A, 7/1/2024]

8.326.6.2 SCOPE:

The rule applies to the general public.

[2/1/95; 8.326.6.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 3/1/12]

8.326.6.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[2/1/1995; 8.326.6.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 3/1/2012; A, 7/1/2024]

8.326.6.4 DURATION:

Permanent.

[2/1/95; 8.326.6.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 3/1/12]

8.326.6.5 EFFECTIVE DATE:

February 1, 1995.

[2/1/95; 8.326.6.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.326.6.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.326.6.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.326.6.7 DEFINITIONS:

[RESERVED]

8.326.6.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.326.6.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.326.6.9 CASE MANAGEMENT SERVICES FOR CHILDREN UP TO AGE THREE:

The New Mexico medical assistance program (medicaid) pays for medically necessary health services furnished to eligible recipients, including case management services furnished to medicaid eligible children up to the age of three (3) who are medically at risk due to family conditions [42 U.S.C. Section 1396n(g)(1)(2)]. This part describes eligible providers, eligible recipients, covered services, service limitations and general reimbursement methodology.

[2/1/95; 5/15/96; 8.326.6.9 NMAC - Rn, 8 NMAC 4.MAD.775, 3/1/12]

8.326.6.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following certified agencies are eligible to be reimbursed for furnishing case management services to children up to the age of three (3) who are medically at risk due to family conditions:

(1) public health offices of the New Mexico department of health;

(2) Indian tribal governments or Indian health services;

(3) federally qualified health centers (FQHC); and

(4) other community-based agencies which meet the requirements for participation.

B. **Agency qualifications:** Community-based agencies must be certified by the department of health and meet the following criteria.

(1) Agencies must have demonstrated direct experience in successfully serving the target population; and

(2) Agencies must have demonstrated knowledge of available community services and methods for accessing them.

C. **Case manager qualifications:** Case managers employed by the agency must possess the education, skills, abilities, and experience to perform case management services. It can be important that case managers have language skills, cultural sensitivity and acquired knowledge and expertise unique to the geographic area.

(1) At a minimum, case managers must have one of the following qualifications:

(a) case managers must be licensed as a registered nurse and have a bachelors degree in nursing or be licensed as a social worker; the nurse or social worker must have two (2) years of experience in community health and at least one (1) year of experience in maternal health or child health;

(b) or be a licensed registered nurse or have a bachelors degree in social work with a minimum of two (2) years of experience in community health and at least two (2) years experience in maternal health or child health nursing;

(c) in the event that there are no candidates with the above qualifications, an individual with an associates degree and four (4) years of experience in social, community health and/or maternal health and child health may be employed as a case manager;

(d) if no individuals with a college degree and appropriate experience are available, an individual with a high school diploma and five (5) years of experience in social services, community health or maternal health and child health may be considered; agencies that are considering hiring individuals in option 3 or 4 must complete a waiver process.

(2) Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions, and other pertinent material from MAD. Providers are responsible for ensuring that they have

received these materials and for updating them as new materials are received from MAD.

[2/1/95; 5/15/96; 8.326.6.10 NMAC - Rn, 8 NMAC 4.MAD.775.1, 3/1/12]

8.326.6.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*. Documentation must substantiate the date of service, type of contact, category of case management service furnished, length/time units of service furnished, nature/content of the service furnished, result of service or intended result and relationship of the service furnished to goals identified in the individual service plan.

[2/1/95; 5/15/96; 8.326.6.11 NMAC - Rn, 8 NMAC 4.MAD.775.2, 3/1/12]

8.326.6.12 ELIGIBLE RECIPIENTS:

Case management services are available to medicaid eligible children under the age of three (3) who are medically at risk due to family conditions but who are not developmentally delayed.

[2/1/95; 5/15/96; 8.326.6.12 NMAC - Rn, 8 NMAC 4.MAD.775.3, 3/1/12]

8.326.6.13 COVERED SERVICES AND SERVICE LIMITATIONS:

Medicaid covers case management services for children up to the age of three (3) which help recipients gain access to medical, social, educational or other needed services. Case management services provide necessary coordination with providers of non-medical services, such as nutrition or education programs, when these services are necessary to enable recipients to benefit from the health services paid for by medicaid.

A. Medicaid covers the following case management service activities furnished children up to the age of three (3):

(1) identification of programs appropriate for the recipient’s needs, including those which teach basic maternal and child health skills;

(2) help in accessing the identified programs;

(3) assessment of the service needs of recipients to coordinate the delivery of services when multiple providers or programs are involved in the provision of care;

(4) reassessment to ensure that the services which were obtained are necessary and appropriate in meeting the recipient's needs; and

(5) determination of whether any additional services are warranted.

B. Medicaid covers four (4) hours of case management services per child per year. Additional units of service require prior approval by MAD or its designee.

[2/1/95; 5/15/96; 8.326.6.13 NMAC - Rn, 8 NMAC 4.MAD.775.4, 3/1/12]

8.326.6.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following specific activities:

A. services furnished to individuals who are not medicaid eligible or who are not residents of New Mexico;

B. services furnished by case managers which are not substantiated with appropriate documentation in the recipient's file;

C. formal educational or vocational services which are related to traditional academic subjects or job training;

D. outreach and identification activities in which providers attempt to contact potential recipients;

E. administrative activities, such as medicaid eligibility determinations and intake processing;

F. institutional discharge planning;

G. services which are furnished by other practitioners, such as therapies, transportation and homemaker or personal care services; and

H. services considered by MAD or its designee to be excessive based on the needs of the recipient and on the documentation by the case manager.

[2/1/95; 5/15/96; 8.326.6.14 NMAC - Rn, 8 NMAC 4.MAD.775.5, 3/1/12]

8.326.6.15 PLAN OF CARE:

A. Case managers develop and implement plans of care for each medicaid recipient. Plans of care are developed in consultation with the recipients, families or legal guardian(s), physicians and others involved with care.

B. The following must be contained in the plan of care or documents used in the development of the plan of care. The plan of care and all supporting documentation must be available for review in the recipient's file:

(1) statement of the nature of the specific problem and needs of the child;

(2) description of the intermediate and long-range goals with the projected timetable for their attainment, including specific information on the duration and scope of services; and

(3) statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, including review and modification of the plan.

C. The plan of care must be retained by agency providers and be available for utilization review purposes. Plans of care must be updated and revised, as indicated, at least every six (6) months or more often, as indicated by the recipient's condition.

[2/1/95; 5/15/96; 8.326.6.15 NMAC - Rn, 8 NMAC 4.MAD.775.6, 3/1/12]

8.326.6.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** Certain procedures or services which are part of the treatment plan can require prior approval from MAD or its designee. See utilization instruction for those services. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[2/1/95; 5/15/96; 8.326.6.16 NMAC - Rn, 8 NMAC 4.MAD.775.7, 3/1/12]

8.326.6.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA 1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Instructions on documentation, billing and claims processing are sent to approved medicaid providers. Reimbursement for case management services is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service or procedure.

B. The provider's billed charge must be their usual and customary charge for services.

C. "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

D. For case management services furnished by an institution, costs associated with case management must be removed from their cost reports prior to cost settlement or rebasing.

[2/1/95; 5/15/96; 8.326.6.17 NMAC - Rn, 8 NMAC 4.MAD.775.8, 3/1/12]

PART 7: ADULT PROTECTIVE SERVICES CASE MANAGEMENT

8.326.7.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[2/1/1995; 8.326.7.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 3/1/2012; A, 7/1/2024]

8.326.7.2 SCOPE:

The rule applies to the general public.

[2/1/95; 8.326.7.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 3/1/12]

8.326.7.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[2/1/1995; 8.326.7.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 3/1/2012; A, 7/1/2024]

8.326.7.4 DURATION:

Permanent.

[2/1/95; 8.326.7.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 3/1/12]

8.326.7.5 EFFECTIVE DATE:

January 31, 1996.

[2/1/95; 8.326.7.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.326.7.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.326.7.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.326.7.7 DEFINITIONS:

[RESERVED]

8.326.7.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.326.7.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.326.7.9 ADULT PROTECTIVE SERVICES CASE MANAGEMENT:

The New Mexico medical assistance program (medicaid) pays for medically necessary health services furnished to eligible recipients, including case management services furnished to medicaid eligible adults, individuals who are 18 years or older, who have been neglected, abused, or exploited [42 U.S.C. Section 136n(g)(1)(2)]. This part describes eligible providers, eligible population, covered services, service limitations, and general reimbursement information.

[1/31/96; 8.326.7.9 NMAC - Rn, 8 NMAC 4.MAD.776, 3/1/12]

8.326.7.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by the New Mexico medical assistance division (MAD), the following agencies are eligible to be reimbursed for furnishing case management services to an eligible recipient.

(1) Government agencies or their delegates which by law receive reports or allegations of abuse, exploitation or neglect and who by New Mexico state law are required to provide adult protective services for the target population.

(2) Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

B. **Agency qualifications:** Agencies must demonstrate direct experience in successfully serving the target population; and past performance of such agencies must demonstrate knowledge of available community services and methods for gaining access to those services.

C. **Case manager qualifications:** Case managers employed by an agency must possess the education, skills, abilities, and experience to perform case management services. Case managers must have the necessary skills to meet the needs of specified recipients. In some instances, it is important that individuals have language skills, cultural sensitivity and acquired knowledge unique to a geographic area. Case managers must also at a minimum, have a current license at the baccalaureate level issued by the New Mexico board of social work. These individuals must work under the direct supervision of an experienced case manager within the agency who meets the educational requirements specified above.

[1/31/96; 8.326.7.10 NMAC - Rn, 8 NMAC 4.MAD.776.1, 3/1/12]

8.326.7.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid recipients must comply with all specified medicaid participation requirements. See 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to recipients. See 8.302.1 NMAC, *General Provider Policies*. Documentation must substantiate the date of services, type of contact, category of case management services furnished, length/time units of service furnished, nature/content of the service furnished, result of service or intended result and relationship of the service furnished to the goals identified in the individual service plan.

[1/31/96; 8.326.7.11 NMAC - Rn, 8 NMAC 4.MAD.776.2, 3/1/12]

8.326.7.12 ELIGIBLE RECIPIENTS:

Case management services are available for eligible medicaid recipients who meet all of the following criteria:

A. individuals who are eighteen (18) years of age or older;

B. individuals who are residents of the state of New Mexico;

C. individuals who are not residents of an institution; and

D. individuals who through investigation are found to be abused, neglected or exploited; abuse is defined as knowingly, intentionally or negligently and without justifiable cause inflicting physical pain, injury or mental anguish, or the intentional deprivation by a caretaker or other person of services necessary to maintain the mental and physical health of an adult; neglect is defined as failure of the caretaker of an adult to provide basic needs such as clothing, food, shelter, supervision and care for the physical and mental health for that adult or failure by an adult to provide such basic needs for him/herself; exploitation is defined as an unjust or improper use of an adult's resources for another's profit or advantage, pecuniary or otherwise.

[1/31/96; 8.326.7.12 NMAC - Rn, 8 NMAC 4.MAD.776.3, 3/1/12]

8.326.7.13 COVERED SERVICES:

Medicaid covers the following case management services for adults who have been abused, neglected or exploited:

A. services which help recipients gain access to medical, social, educational or other needed services.

B. assessment of a recipient's medical and social needs and functional limitations using standardized needs assessment instruments;

C. development and implementation of an individualized plan of care designed to help recipients retain or achieve the maximum degree of independence;

D. mobilization of the use of"natural helping" networks such as family members, church members, community organizations, support groups and friends; and

E. coordination and monitoring of the delivery of services, evaluation of the effectiveness and quality of the services, and revision of the plan of care, if necessary.

[1/31/96; 8.326.7.13 NMAC - Rn, 8 NMAC 4.MAD.776.4, 3/1/12]

8.326.7.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following specific services as adult protective services case management:

A. services furnished to individuals who are not medicaid eligible or who do not meet the definition of an adult who is abused, neglected or exploited;

B. services furnished by case managers which are not substantiated with appropriate documentation in the recipient's file;

C. formal educational or vocation services related to traditional academic subjects or vocational training;

D. client outreach activities in which a provider attempts to contact potential recipients;

E. administrative activities, such as medicaid eligibility determinations and intake processing;

F. case management for a recipient who is institutionalized, except for the last thirty (30) days of the institutionalization to ensure follow-up services;

G. institutional discharge planning which is a required condition for payment of hospital, nursing home or residential treatment center services;

H. services which are furnished under other categories, such as therapies, transportation or counseling; or

I. services considered by MAD or its designee to be excessive based on the needs of the recipient and documentation in the case management file.

[1/31/96; 8.326.7.14 NMAC - Rn, 8 NMAC 4.MAD.776.5, 3/1/12]

8.326.7.15 PLAN OF CARE:

A. Case managers develop and implement plans of care for each medicaid recipient. Plans of care are developed in consultation and cooperation with recipients, families or legal guardian(s), primary physicians, as appropriate and others involved with the recipient's care.

B. The following must be contained in the treatment plan or documents used in the development of the treatment plan. The treatment plan and all supporting documentation must be available for review in the recipient's file:

(1) statement of the nature of the specific problem and the specific needs of the recipient;

(2) description of the functional level of the recipient, including the following:

(a) mental status assessment;

(b) intellectual function assessment;

(c) psychological assessment;

(d) educational assessment;

(e) vocational assessment;

(f) social assessment;

(g) medical assessment; and

(h) physical assessment.

(3) description of the intermediate and long-range goals, with the projected timetable for their attainment and duration and scope of services; and

(4) statement and rationale of the treatment plan for achieving these intermediate and long-range goals, including provisions for review and modification of the plan and plans for discontinuation of services, criteria for discontinuation of services and projected date service will be discontinued.

C. The plan of care must be retained by agency providers and be available for utilization review purposes. Plans of care must be updated and revised, as indicated, at least every six (6) months or more often, as indicated by the recipient's condition.

[1/31/96; 8.326.7.15 NMAC - Rn, 8 NMAC 4.MAD.776.6, 3/1/12]

8.326.7.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** Certain procedures or services which are specified in the treatment plan can require prior approval from MAD or its designee. Services for which

prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[1/31/96; 8.326.7.16 NMAC - Rn, 8 NMAC 4.MAD.776.7, 3/1/12]

8.326.7.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA-1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, instructions on documentation, billing and claims processing are sent to the medicaid providers. Reimbursement for case management providers is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service.

B. The provider's billed charge must be its usual and customary charge for the services.

C. "Usual and customary charge" refers to the amount which an individual provider charges the general public in the majority of cases for a specific procedure or service.

D. For case management services furnished by an institution, costs associated with case management must be removed from their cost reports prior to any cost settlement or rebasing.

PART 8: CASE MANAGEMENT SERVICES FOR CHILDREN PROVIDED BY JUVENILE PROBATION AND PAROLE OFFICERS

8.326.8.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[2/1/1995; 8.326.8.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 3/1/2012; A, 7/1/2024]

8.326.8.2 SCOPE:

The rule applies to the general public.

[2/1/95; 8.326.8.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 3/1/12]

8.326.8.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[2/1/1995; 8.326.8.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 3/1/2012; A, 7/1/2024]

8.326.8.4 DURATION:

Permanent.

[2/1/95; 8.326.8.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 3/1/12]

8.326.8.5 EFFECTIVE DATE:

March 1, 2000.

[2/1/95; 8.326.8.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.326.8.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.326.8.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.326.8.7 DEFINITIONS:

[RESERVED]

8.326.8.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.326.8.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.326.8.9 CASE MANAGEMENT SERVICES FOR CHILDREN PROVIDED BY JUVENILE PROBATION AND PAROLE OFFICERS:

The New Mexico human services department (HSD) pays for medically necessary case management services furnished to identified clients under nineteen (19) years of age who are under the supervision of a juvenile probation and parole officer (JPPO) and have an identified physical or mental condition which has a high probability of impairing their cognitive, emotional, neurological, social or physical development. *See* Section 1915(g) of the Social Security Act. This part describes eligible providers, eligible clients, covered services, service restrictions and general reimbursement methodology.

[3/1/00; 8.326.8.9 NMAC - Rn, 8 NMAC 4.MAD.778, 3/1/12]

8.326.8.10 ELIGIBLE PROVIDERS:

Upon approval of a New Mexico medical assistance program provider participation agreement by the New Mexico medical assistance division (MAD), the following agency is reimbursed for furnishing case management services to clients in the identified population: New Mexico children, youth and families department. *See* the New Mexico Children's Code, Chapter 32A-2-5.

A. Agency qualifications:

B. Case manager qualification:

(1) Case managers employed by the New Mexico children, youth and families department must possess the knowledge, skills, abilities and experience to perform case management services for the targeted population and when necessary, possess language skills, cultural sensitivity and acquired knowledge unique to a geographic area. Case managers must meet at least one of the following qualifications: a bachelor's degree in social work, counseling, psychology or a related field and experience serving the targeted population.

(2) All children, youth and families department, juvenile probation and parole officers (JPPOs) and JPPO supervisors performing targeted case management services must have documentation in their personnel file of completion of structured decision making training and any other additional or supplemental training developed by CYFD specific for this program.

(3) Once enrolled, providers receive a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. Providers are responsible for ensuring that they have received these materials and for updating them as new materials are received from MAD.

[3/1/00; 8.326.8.10 NMAC - Rn, 8 NMAC 4.MAD.778.1, 3/1/12]

8.326.8.11 PROVIDER RESPONSIBILITIES:

Providers who furnish services to medicaid clients must comply with all specified medicaid participation requirements. *See* 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid clients have other health insurance. Providers must maintain records which are sufficient to fully disclose the extent and nature of the services furnished to clients. *See* 8.302.1 NMAC, *General Provider Policies*. Documentation must substantiate the date of service, nature of contact, reason the service was furnished, nature/content of the service furnished, result of service or intended result and relationship of the service furnished to goals identified in the plan of care.

[3/1/00; 8.326.8.11 NMAC - Rn, 8 NMAC 4.MAD.778.2, 3/1/12]

8.326.8.12 ELIGIBLE RECIPIENTS (TARGET POPULATION):

Medicaid covers case management services furnished to medicaid clients under nineteen (19) years of age who are involved with the juvenile justice system or who have committed a delinquent act and have an identified physical or mental condition which has a high probability of impairing their cognitive, emotional, neurological, social or physical development. Juveniles who are adjudicated and incarcerated or who are placed in a detention center for longer than sixty (60) pre-adjudication days) are not eligible for medicaid and/or case management services paid for by medicaid.

[3/1/00; 8.326.8.12 NMAC - Rn, 8 NMAC 4.MAD.778.3, 3/1/12]

8.326.8.13 COVERED SERVICES:

Case management is defined as services which assist clients in the target population in gaining access to needed medical, social, educational and other services.

A. Medicaid covers the following case management service activities for clients in the target population:

(1) assessment of the client’s medical, social, educational and other service needs and functional limitations using standardized needs assessment instruments;

(2) development and implementation of individualized plan of care;

(3) mobilizing the use of"natural helping" networks, such as family members, church members and friends;

(4) development of increased opportunities for community access and involvement including assistance in the location of housing, community living skills, vocational, social, educational or other service programs;

(5) coordination and monitoring of the delivery of services; and

(6) evaluation of the effectiveness of services furnished under the plan of care and revision of the plan as conditions warrant.

B. For clients in the target population that participate in the medicaid managed care program, HSD covers only those activities that relate to accessing social, educational, and other services. The medicaid managed care organizations are responsible for ensuring that clients have access to medical services and coordination occurs with other case managers.

C. For clients in the target population that are not enrolled in the medicaid managed care program, HSD covers all delineated case management activities.

[3/1/00; 8.326.8.13 NMAC - Rn, 8 NMAC 4.MAD.778.4, 3/1/12]

8.326.8.14 NONCOVERED SERVICES:

Case management services are subject to the limitations and coverage restrictions which exist for other medicaid services. *See* 8.301.3 NMAC, *General Noncovered Services*. In addition, medicaid does not cover the following specific activities:

A. services furnished to individuals who are not medicaid eligible or who are not eligible for these services;

B. services furnished by case managers which are not substantiated with appropriate documentation in the client's file;

C. formal educational or vocational services related to traditional academic subjects or job training;

D. outreach and identification activities in which providers attempt to contact potential clients;

E. administrative activities, such as medicaid eligibility determinations and intake processing;

F. discharge planning from inpatient hospital, residential facility or community-based placement;

G. services which are furnished under other categories, such as therapies, transportation or counseling;

H. services provided to clients that are not part of the target population or services which are not documented in the client file; or

I. services provided to clients that relate to the legal and/or corrections functions performed by JPPOs.

[3/1/00; 8.326.8.14 NMAC - Rn, 8 NMAC 4.MAD.778.5, 3/1/12]

8.326.8.15 PLAN OF CARE:

A. Case managers develop and implement plans of care in conjunction with the clients, families or legal guardian(s), therapists, physicians or others who assist with the client's care.

B. The following must be contained in the plan of care or documents used in the development of the plan of care. The plan of care and all supporting documentation must be available for review in the client's file:

(1) statement of the nature of the specific problem and the specific needs of the client;

(2) description of the functional level of the client, including an assessment and evaluation using the structured decision making assessment tool developed by CYFD and approved by HSD or its successor.

(3) description of the intermediate and long-range goals with the projected timetable for their attainment, including information about the duration and scope of services;

(4) statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, including review and modification of the plan.

C. The plan of care must be retained by agency providers and available for utilization review purposes. Plans of care must be updated and revised, as indicated, at least every six (6) months or more often, as indicated by the client's condition.

[3/1/00; 8.326.8.15 NMAC - Rn, 8 NMAC 4.MAD.778.6, 3/1/12]

8.326.8.16 PRIOR APPROVAL AND UTILIZATION REVIEW:

All medicaid services are subject to utilization review for medical necessity and program compliance. Case management services furnished to clients in this targeted population do not require prior approval. Reviews can be performed before services are furnished,

after services are furnished and before payment is made, or after payment is made. *See* 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. **Prior approval:** Certain procedures or services which are part of the plan of care can require prior approval from MAD or its designee. *See* utilization instructions for the specific service. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. **Eligibility determination:** Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid clients have other health insurance.

C. **Reconsideration:** Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. *See* Section MAD-953, *Reconsideration of Utilization Review Decisions*.

[3/1/00; 8.326.8.16 NMAC - Rn, 8 NMAC 4.MAD.778.7, 3/1/12]

8.326.8.17 REIMBURSEMENT:

Case management providers must submit claims for reimbursement on the HCFA 1500 claim form or its successor. *See* 8.302.2 NMAC, *Billing for Medicaid Services*. Instructions on documentation, billing and claims processing are sent to approved medicaid providers.

A. **Reimbursement for non-governmental providers:** For community agencies, tribal government, or Indian health services, reimbursement for case management services is made at the lesser of the following:

(1) the provider’s billed charge; or

(2) the MAD fee schedule for the specific service or procedure.

B. The provider’s billed charge must be the provider’s usual and customary charge for services.

C. "Usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service.

D. **Reimbursement for governmental providers:** For case management services rendered by governmental agencies to the target population, reimbursement rates, rate setting methodology and reimbursement process will be delineated under the terms of

the joint powers agreement between the government agencies and the human services department.

[8.326.10.5 NMAC - Rp, 8.326.10.5 NMAC, 4/1/2021]

8.326.10.6 OBJECTIVE:

The objective of this rule is to establish policies and procedures and define standards of the New Mexico human services department (HSD) brain injury services fund program. The brain injury services fund program provides timely short term in-state

non-medicaid services for persons with qualifying brain injuries that are of traumatic or other acquired origin in order to promote independence and to assist the individual in resolving a brain-injury related crisis need and access available payer sources and community resources, when there is no other funding available.

[8.326.10.6 NMAC - Rp, 8.326.10.6 NMAC, 4/1/2021]

8.326.10.7 DEFINITIONS:

A. "Acquired brain injury" (ABI) means a brain injury that is the result of trauma arising from an insult to the brain from an outside physical force via open or closed head injury; shaken baby syndrome; anoxia; near-drowning; electrical shock; brain infection; brain tumors; cerebrovascular lesions or insults, including stroke and aneurysm; or unintended toxic or chemical exposure. The definition excludes conditions that are congenital, degenerative, induced by birth trauma, or resulting from abuse of alcohol or other substances. The injury may be focal or diffuse, causing temporary or permanent impairments in cognitive, psychosocial or physical functioning affecting one or more areas of the brain and result in partial or total functional disability. Brain injury related impairments may affect one or more areas of functioning such as: cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; information processing; sensory, perceptual, and motor abilities; physical functioning; sleep; psychosocial and behavioral functioning; and, or speech.

B. "Activities of daily living" (ADL) means the basic tasks that are necessary for independent functioning to care for one's personal needs and may include bathing and showering, personal hygiene and grooming, dressing, toileting, transferring or moving the physical body in space while performing activities, and self-feeding. Instrumental activities of daily living (IADLs) are not necessary for fundamental functioning but do allow an individual to live independently in their home or community; these include cleaning and maintaining the home, doing laundry, managing personal finances, preparing meals, shopping for groceries, taking prescribed medications, and using the telephone or other communication devices.

C. "Brain injury". See definition for acquired brain injury and traumatic brain injury.

D. "Brain injury services fund (BISF) program" means a non-medicaid program administered by HSD through programmatic oversight and contractual management of agencies, providing short-term crisis interim home and community-based services for eligible individuals living with brain injury, who have a defined crisis related to living with brain injury and no responsible funding source to pay for needed services or goods. Direct participant care services are provided through service coordination or BISF home and community-based services.

E. "Crisis" means an emergency or unstable situation that has reached a critical phase with a distinct possibility of adverse outcome and poses a serious potential danger. As related to a brain injury, a crisis may include homeless status, unemployment, substantial loss of income, lack of health insurance or means to pay for

brain-injury related healthcare, separation from support systems, abandonment or other endangering circumstances. For the purposes of the BISF, the absence of service coordination, long-term care, long-term case management or need for long-term case management does not constitute a crisis.

F. "Crisis interim period" means a short-term period of six months upon which an enrolled participant can be reassessed to extend approved services for another six month period depending upon available funding and limited to no more than one consecutive year, if the crisis has not resolved and goals for independent living have not reached completion, or until another funding source has been obtained. Time limitations on services apply to both service coordination and to BISF HCBS.

G. "Education" means providing individuals living with brain injury training and understanding of brain injury, acquiring life skills or fulfilling activities of daily living, which can be applied day to day, to assist in the attainment of an independent lifestyle.

H. "Fiscal intermediary agency" means an agency that arranges for BISF home and community-based services and goods and processes payment or reimbursement for services and goods for eligible participants of the New Mexico human services department brain injury services fund program.

I. "Formulary" or"BISF formulary" means the list of medications approved by the BISF program for treatment of specific categories of brain injury symptoms and related conditions. Coverage is in the form of copayments for participants who have no other responsible payer sources. Approved generic and brand name medications are categorized by class or function. BISF service coordinators are authorized to review prescribed participant medications against the formulary in the event that other responsible payer sources to cover the medication do not exist prior to referral for BISF HCBS.

J. "Grievance" means a complaint or disagreement with regard to how or whether a service provided through the program is or can be provided.

K. "Home and community-based services" (HCBS) are defined as services to promote independent living that are provided in a person's home or community, i.e., those not provided under institutional care. BISF HCBS are those that may be required when there is an imminent risk to a participant's health and safety; there has been a sudden change in the medical, psychological or physical condition of a participant; when there is acceleration in the amount of services needed; when needs have suddenly changed; or when another payer source will not pay for the unique brain injury services assessed as a need.

L. "Human services department (HSD)" is the New Mexico state government agency that administers services to New Mexico's more vulnerable populations to improve health outcomes through state and federal funding. The brain injury services

fund is administered through the medical assistance division and receives only state funding.

M. "ICD code" means an international classification of diseases diagnosis, which includes codes for traumatic and other acquired brain injuries and has been documented in writing by a duly licensed medical professional or psychologist for the purpose of assisting an individual with brain injury to qualify for the BISF program. Current ICD codes may be accepted from medical doctors (MDs), osteopathic doctors (DOs), certified nurse practitioners (CNPs), physician assistants (PAs), and Ph.D. psychologists.

N. "Imminent" means impending and threatening, referring to a crisis that is bound to happen with a clear and present danger to the health and safety of a person who has sustained a brain injury and who has exhausted all available resources.

O. "Independence" means the ability to live in a home and community setting and perform activities of daily living with little or no assistance from others while having access to available community resources.

P. "Individual" means a person living with brain injury and may be an applicant or a program participant.

Q. "Independent living plan" (ILP) means a written person-centered plan that outlines definite goals for resolving a participant's identified crisis which is designed to assist the participant toward greater independence; lists measurable objectives in the form of action steps and strategies that are targeted to comprehensively address and resolve each identified crisis; and specifies a plan for discharge. The ILP identifies all services and supports as well as payer sources that are assisting the participant toward greater independence, specifying those that pertain directly to service coordination and BISF HCBS. It must also list ancillary services and supports, not paid for by the BISF program, noting related payer sources, as well as services refused but needed to resolve or address identified crises.

R. "Interim" means a time period defined by the BISF program in which temporary services are provided. The interim period for the BISF program is six months.

S. "Legal resident of New Mexico" means a person residing in New Mexico at the time of application.

T. "Life skills coach" means a person, who may be defined as a"life coach", is certified through an accredited organization, and provides targeted customized training to an individual with brain injury to assist in relearning and completing activities of daily living while addressing related cognitive, behavioral or social impairments that are preventing the return to independent functioning.

U. "Participant" means a person living with brain injury, who has qualified for, been approved for, and is actively receiving BISF program services, while working toward greater independence and resolution of crisis needs.

V. "Payer of last resort" refers to the BISF Program as a source of funding available to pay for BISF HCBS only after all payer sources with responsibility to pay have been denied or exhausted including private insurance, medicaid, medicare, Indian health services, veterans administration, adult protective services and other state or federal programs, or community programs in which the participant participates voluntarily.

W. "Residency" means the status of a person who is a legal resident of New Mexico and is able to produce documentation of a physical address within New Mexico at which the person resides within a home and community setting. It does not include residence in an institution wherein the individual is unable to function independently.

X. "Risk" means a possible loss or injury, a hazard increasing the probability or chance that loss or injury will occur.

Y. "Self-determination" means the right of individuals to make decisions that direct the path their life follows with regard to medical, financial and all other matters, including the right to refuse measures needed to improve their outcome.

Z. "Service coordination" means the goal-oriented initiation, organization and management of a BISF participant's services, including determination of eligibility, initial and interim assessments, development and monitoring of the participant's independent living plan (ILP), referrals for BISF program and community resources, assistance with benefits applications for other payer sources, and problem-solving to assist in the resolution of the crisis that motivated entry to the BISF program, while moving the participant toward greater independence in daily living. Service coordination may continue during resolution of an identified crisis need. Service coordination is not defined as case management, and the need for long-term case management does not constitute a qualifying crisis for remaining on the BISF.

AA. "Short-term" means an intervention period with beginning and end points within which BISF funding for service coordination or BISF HCBS may be used to prevent or alleviate a crisis situation until circumstances stabilize or other funding is obtained.

BB. "Traumatic brain injury (TBI)" means an insult to the brain from an outside physical force that may or may not have produced a diminished or altered state of consciousness causing temporary or permanent impairments in one or more areas of the brain and resulting in partial or total functional disability and or psychosocial disorientation. The term applies to open or closed head injuries resulting in an impairment of cognitive, psychosocial or physical functions. Brain injury related impairments may occur in one or more areas such as: cognition; language; memory;

attention; reasoning; abstract thinking; judgment; problem-solving; information processing, sensory, perceptual, and motor abilities; physical functioning; sleep; psychosocial and behavioral functioning; and speech.

[8.326.10.7 NMAC - Rp, 8.326.10.7 NMAC, 4/1/2021]

8.326.10.8 MISSION STATEMENT:

To transform lives. Working with our partners, we design and deliver innovative, high quality health and human services that improve the security and promote independence for New Mexicans in their communities.

[8.326.10.8 NMAC - Rp, 8.326.10.8 NMAC, 4/1/2021]

8.326.10.9 BISF ELIGIBILITY REQUIREMENTS:

Enrollment into the BISF, as a non-entitlement program, is on a voluntary basis and occurs in up to six month increments. To be eligible for the BISF program, an applicant with a crisis need must meet the following requirements:

A. Diagnosis: Individuals are eligible for BISF services if they have a qualifying diagnosis of brain injury of ABI or TBI which has been documented in writing by a duly licensed medical professional or psychologist. A qualifying diagnosis of brain injury is confirmed by the licensed health practitioner's assignment of the current international classification of diseases (ICD) code.

B. Residency: Eligible individuals must be legal residents of the state of New Mexico. Eligible participants must be able to produce documentation of the physical location of their New Mexico residence. Those residing in an institution or are in the process of transitioning to an institutional setting are not eligible for services through the BISF program. Those participants who have a confirmed discharge date from an institutional setting and are transitioning into the community are eligible for BISF services for a 30-day period prior to the planned discharge date to assist with setting up needed supports and services. For homeless participants with brain injury, the physical address constitutes the agreed-upon location at which the participant routinely meets with the BISF service coordinator and at least one other community case manager, if available.

C. Service Coordination Duplication: Those participants served by other service coordination programs, care coordination or case management systems are not eligible to receive service coordination through the BISF program, unless transitioning between programs and with HSD approval. Such programs might include comparable services offered through any of the following:

(1) medicaid managed care organization (MCO), including community benefit;

(2) medicaid home and community-based services waivers;

(3) early and periodic screening, diagnosis and treatment;

(4) family infant toddler;

(5) program of all-inclusive care for the elderly (PACE);

(6) health management organizations (HMOs); and

(7) other private insurances.

D. Determination of eligibility: The service coordination contractor is responsible for determining eligibility for the BISF program and maintaining documentation of eligibility status. Proof of eligibility status including current qualifying ICD codes must be provided to the HSD or its designee upon request.

E. Re-enrollment into the BISF for reactivation of services: Former program participants, who disenrolled from the program due to resolution of their crisis needs, may seek to re-enroll in the BISF, in the event that a new crisis arises with which they require the program's assistance. Re-enrollment allows for the reactivation of service coordination and BISF HCBS without providing a new ICD code, in the event that a qualifying code continues to be on file.

F. Continuation of BISF services beyond one consecutive service year. Program participants who have not experienced a resolution of their crisis need(s) within two consecutive six month interims of service may be eligible to continue service coordination or BISF HCBS for additional interim periods for up to another service year as funding allows. The petition for continuation of services requires written justification by the service coordination agency, following the standards established by HSD. In no case will continuation of services be permitted without written approval by HSD to extend services beyond one service year.

G. Disenrollment from the BISF: Disenrollment from the BISF may be voluntary or involuntary.

(1) Voluntary disenrollment: Participants may voluntarily disenroll from the program without cause at any time. In addition, participants are no longer eligible to receive service coordination or BISF HCBS services when any of the following apply:

(a) other responsible payer sources have been identified and have begun coverage;

(b) the crisis or crises that caused the participant to seek enrollment have been resolved; or

(c) upon a permanent move out of the state of New Mexico. The service coordination agency will give such participants reasonable advance notice of pending disenrollment and continue furnishing any needed services until the terms for disenrollment have been met and the disenrollment is complete. Upon disenrollment, all services will be inactivated.

(2) Involuntary disenrollment: Participants of the BISF may be disenrolled involuntarily if any of the following circumstances apply, subsequent to reasonable efforts of the service coordination agency to provide technical assistance to improve the participant's understanding of program expectations and as noted below:

(a) The participant refuses to act in accordance with the requirements of their independent living plan (ILP) or otherwise participate in the resolution of their crisis needs, exercising the capabilities that remain within their power or that of their authorized representative. This describes participants who repeatedly fail to follow through with keeping appointments with the service coordinator or access needed and recommended services;

(b) The participant refuses to act in accordance with the program's participant rights and responsibilities, as explained by the service coordination agency and signed by the participant upon program intake;

(c) The participant's physical, behavioral, psychosocial or service needs exceed that which can be reasonably provided by the program or be met with available funding;

(d) The participant engages in disruptive or threatening behavior. This describes a participant whose behavior jeopardizes his or her health or safety, or the safety of others. In these cases, and with justifiable cause for the service coordinator's safety, the service coordination agency may elect to disenroll such participant without providing further remedy or technical assistance.

(e) Prior to disenrollment for any of the above, the service coordination agency proposing to disenroll a participant involuntarily is required to:

(i) document the reasons for proposing to disenroll the participant as well as any and all efforts to remedy the situation; and

(ii) submit the written request to involuntarily disenroll the participant to HSD, along with supporting documentation for HSD's review and determination that the service coordination agency has provided acceptable grounds for the participant's disenrollment.

[8.326.10.9 NMAC - Rp, 8.326.10.9 NMAC, 4/1/2021]

8.326.10.10 BISF CONTRACTED ENTITIES AND CONTRACTORS:

Brain injury services fund (BISF) services are provided through two contractor components, service coordination and fiscal intermediary agent for BISF HCBS.

A. Service coordination services: Service coordination services serve a problem-solving function. They are intended to resolve a participant's stated crisis need, ensure service continuity, prevent fragmentation of services and endeavor to tap into any and all resources that are appropriate and accessible, including community-based supports, while resolving the crisis that brought the participant into the program. The intent of service coordination is to augment, not replace, the participant's natural supports in a manner that facilitates independent living and self-determination. All participants must have a BISF program service coordinator before they can receive any other BISF program services.

(1) Qualifications for service coordination: Service coordination agencies serving the BISF program must ensure the following pertaining to staff qualifications:

(a) have a current social worker license in good standing with the New Mexico board of social work examiners; or

(b) have a current registered nurse license, in good standing from the New Mexico board of nursing; or

(c) have a bachelor's degree in social work, counseling, nursing, special education or closely related field plus one-year clinical experience related to the brain injury population working in any of the following settings:

(i) home health or community health program;

(ii) hospital;

(iii) private practice;

(iv) publicly funded institution or long-term care program;

(v) mental health program;

(vi) school or school health setting;

(vii) community-based social service program; or

(viii) other programs addressing the needs of individuals with brain injury.

(d) With prior approval from the HSD BISF program manager or designee, exceptions to service coordinator qualifications can be made; contractors requesting

qualification exceptions must demonstrate that applicant candidates have relevant education, internships or volunteer experience. Other qualifications may be:

(i) associates degree and a minimum of three years of experience in the mental health or brain injury field; or

(ii) high school graduation or general educational development (GED) test and a minimum of five years of experience in the mental health or brain injury field.

(e) All BISF service coordinators whether subcontracting or employed by a BISF program contracted agency must meet these requirements and attend continuing education as determined by HSD.

(2) Scope of services: Service coordination includes but is not limited to facilitating eligibility determination for individuals applying to the BISF; conducting an in-person assessment; developing an independent living plan (ILP); coordination and documentation of the delivery of services; maintaining a complete permanent case record for each participant which includes documentation as prescribed by HSD; and creating a transition plan for discharge from the BISF program, coordinating with other case managers, as needed.

(a) Service coordinators must identify, and resolve known or suspected issues that may have an impact on the safety and well-being of the participant.

(b) Service coordinators must evaluate and monitor direct service and implementation of the ILP through face-to-face contact with the participant at a frequency prescribed by HSD.

(c) Service coordination agencies are required to maintain a 24-hour emergency response system that allows participants to contact the agency and respond to individual emergency situations within a reasonable amount of time after notification on a 24-hour basis. An emergency response written policy is to be provided to all program participants.

B. Fiscal intermediary agent (FIA): The fiscal intermediary agent (FIA) serves as the intermediary for the arrangement and payment of brain injury specific home and community-based services (HCBS). BISF services are only accessible through the coordination of a BISF program service coordination agency and are limited to filling a participant's needs as outlined in the participant's independent living plan (ILP), when there is an imminent risk to the participant's health and safety.

(1) Qualifications for FIA: FIA service staff must demonstrate the following qualifications:

(a) have a bachelor's degree in business, social work, counseling, nursing, special education or closely related field; and

(b) have experience related to the brain injury population, working in any of the following settings:

(i) home health or community health program;

(ii) hospital;

(iii) private practice;

(iv) publicly funded institution or long-term care program;

(v) mental health program; or

(vi) community-based social service program; or other program addressing the needs of individuals with brain injuries.

(c) With prior approval from the BISF program manager or designee, exceptions to FIA personnel qualifications can be made. Contractors requesting qualification exceptions must demonstrate relevant education internships or volunteer experience. Other qualifications may be:

(i) associate degree and experience in the mental health or brain injury field; or

(ii) high school graduation or general educational development (GED) test and extensive experience in the mental health or traumatic brain injury field.

(d) All BISF FIA staff employed by the agent, must meet these requirements and attend continuing education as determined by HSD. Contracted FIA service providers must have the required education and be duly licensed by the state of New Mexico within their respective disciplines.

(2) Scope of services: Fiscal intermediary agent services include but are not limited to the following activities: maintain a network of providers of brain injury related services and goods and ensure that subcontracted providers are duly licensed by the state of New Mexico or otherwise certified within their respective disciplines; procure goods and arrange contracts and letters of agreement with vendors and contractors who provide the goods, services and supports; receive service and goods referral requests submitted by BISF service coordinators for prior authorization; and arrange for delivery of BISF goods and services.

(a) Prior to arranging for and funding requested services or goods, the FIA must verify that other responsible payer source coverage is not available to pay for services or goods and that the participant has exhausted any other financial resources.

(b) The FIA must monitor and document service expenditures for participants receiving BISF HCBS and ensure that coverage does not exceed the allowable limits set by HSD;

(c) The FIA must assure that subcontracted providers and vendors are providing the services and goods as contracted and ensure timely reimbursement to such providers and vendors.

C. General administrative requirements: Agencies contracted to provide BISF service coordination or fiscal intermediary services are required to:

(1) have and follow confidentiality standards;

(2) maintain a current business license issued by the state, county or city government if required;

(3) comply with all applicable federal or state regulations, policies and procedures that apply to their business and to their contract with HSD;

(4) demonstrate financial solvency;

(5) maintain full professional liability insurance coverage;

(6) establish and maintain written policies and procedures related to:

(a) service provision and appropriate supervision;

(b) professional documentation standards;

(c) training and education on brain injury; and

(d) grievances and appeals as outlined in 8.326.10.15 NMAC in a manner that is accommodating to those living with brain injury and agreeable to the HSD BISF program; and

(7) have a governing board with at least one external member with a brain injury, a family member with a brain injury or professional working with brain injury;

(8) maintain an in-house directory of brain injury resources for each region served.

[8.326.10.10 NMAC - Rp, 8.326.10.10 NMAC, 4/1/2021]

8.326.10.11 CONFLICT OF INTEREST:

Contracted entities and providers, who provide direct BISF services, must avoid conflict of interest or duplication of services and may not:

A. provide direct intervention services, such as individual therapy, group therapy, support groups, homemaker services, personal attendant services, life skills coaching services, psychosocial rehabilitation services, or duplicate BISF HCBS or fiscal intermediary services for enrolled BISF participants, when they are also contracted to provide service coordination services;

B. accept gifts from existing or potential vendors in exchange for a contract relationship or other favorable treatment;

C. charge BISF program participants for their services; and

D. in no instance shall a service coordination agency or fiscal intermediary agent, contracted by HSD for BISF program services, direct the provider, vendor or contractor that shall provide a participant's services or goods.

[8.326.10.11 NMAC - Rp, 8.326.10.11 NMAC, 4/1/2021]

8.326.10.12 INDEPENDENT LIVING PLAN:

An independent living plan (ILP) is required for each interim service period that includes all the services, goods, and supports recommended to the participant including referrals to BISF HCBS and any other potential resources available in the local community that are needed to resolve the identified crisis. BISF HCBS cannot be initiated until the service coordinator has included the services in the ILP and completed the appropriate referrals. The ILP is to be written and developed by the service coordinator with the participation of the participant and shall include:

A. person-centered goals and action steps needed to complete goals;

B. education and support necessary to reach goals and objectives;

C. number of hours per month the participant will receive BISF service coordination and other identified BISF services;

D. expected measurable outcomes;

E. time frames for reaching goals and meeting objectives;

F. plans for discharge or transference to another program or payer source;

G. identification of all persons, services or products necessary to reach the participant's goals and accomplish their objectives; and

H. estimation of cost of services or goods provided by HCBS.

[8.326.10.12 NMAC - Rp, 8.326.10.12 NMAC, 4/1/2021]

8.326.10.13 BRAIN INJURY SERVICES FUND HOME AND COMMUNITY-BASED SERVICES:

BISF home and community-based services (HCBS) and goods are for outpatient care administered within the state of New Mexico and must address the participant's assessed needs and include the expectation of individual and family participation. BISF HCBS are designed to resolve a participant's identified crisis, enhance the individual's self-determination and promote independence. BISF HCBS funding can only be used for services and goods that are documented in the participant's ILP and or substantiated by physician's orders or other required documentation, as appropriate. As the payer of last resort, BISF funding may be used for the purchase of authorized services or goods that are not covered by medicaid, medicare, the special education-individuals with disability education act (IDEA) program, department of vocational rehabilitation (DVR), private insurance or other responsible payer sources. The delivery of all BISF HCBS will be in accordance with the standards set by HSD.

A. BISF HCBS eligibility requirements: BISF HCBS can only be provided to program participants who have a current BISF service coordinator and have met BISF program requirements. Eligibility for BISF HCBS is based upon the service coordinator's assessment of participant needs, verification that no responsible payer source exists, and receipt of supporting medical documentation, as appropriate to justify the need for a requested service or good. Referrals for qualifying participants are submitted to the FIA, who arranges and pays for authorized goods and services in 90-day increments.

B. Funding limits per participant: There is a maximum yearly and lifetime coverage for eligible participants as determined by their assessed needs. Funding is also limited by legislative or departmental appropriation. Coverage limitations for qualifying participants are as follows:

(1) No more than the annual budgetary cap per participant as prescribed by HSD, unless through approved written exception by HSD; this value represents a maximum amount that may be budgeted and is not a guaranteed annual budget assignment.

(2) $75,000 lifetime maximum for combined services and goods;

(3) $10,000 lifetime limit on environmental modifications; and

(4) only one emergency housing assistance per participant in a lifetime, unless an exception is made in writing by the BISF program manager at the HSD.

C. Duration of services: BISF HCBS funding and approved services are provided in six month increments with the following provisions:

(1) BISF HCBS are provided as funding limits allow only until other responsible payer sources are available, or the crisis has been otherwise resolved.

(2) BISF HCBS can only be continued for one additional interim, up to one year with documentation that the needs being addressed still exist and cannot be provided by another responsible payer. Continuation of BISF HCBS for requested services is contingent upon completion of a six-month written recertification conducted by the participant's service coordinator in accordance with program standards. As applicable, this will include orders from a physician or licensed medical provider stating support for ongoing services.

(3) BISF HCBS may be extended or continue past the six-month duration, until a necessary product can be obtained or in the case of environmental modification and retrofit automobile services, the modification to the participant's environment or automobile can be completed. Any cause for delay must be recorded by the service provider in the participant's record and provided to the service coordination agency. The record must be updated, until completion of the project or modification has been completed or the goods ordered are delivered.

(4) Exceptions to the six-month interim timeline beyond two consecutive interims, may be requested by the service coordination agency in writing through HSD's process for extending services and referrals on the basis of one or more unresolved crises, ongoing participant needs and available funding.

(5) After a participant's BISF HCBS have been inactivated, services may be reestablished through the BISF service coordinator due to an exacerbated condition or situation that has caused a critical need that cannot be covered by other responsible payer sources.

(6) Participants who are receiving BISF HCBS may be eligible to access additional BISF HCBS funding, beyond the prescribed limits, if the person has experienced a sudden, drastic and accelerated change in needs impacting health and safety, such as an exacerbated medical or psychological condition. Participants accessing BISF HCBS on an escalated basis will require medical documentation to establish a higher order of need. Escalated services may or may not be provided as funding allows on a short-term basis, per program requirements.

D. Freedom of choice: Each participant receiving BISF HCBS shall be informed of all available service providers, vendors or contractors that are eligible to provide the needed services or goods in their region. The participant shall be the sole decision maker of who is to provide services or goods from all eligible entities that could fill his or her needs. The BISF program cannot guarantee that all services will be available in all regions or that a preferred provider will agree to work with the program.

E. **Service descriptions:** Services that require physician's orders include but are not limited to home health aide, nursing services, neuropsychological evaluations, novel or unconventional therapies, durable medical equipment over $250, and other non-standard services and goods. Requested services and goods cannot be accessed until authorized in writing by the FIA, who arranges and pays for approved BISF HCBS and goods. BISF HCBS funding may be used to pay for services and goods that meet the noted criteria in the following categories, with special requirements, as noted:

(1) Assistive technology assessment services: Assistive technology assessment services are the systematic application of technologies to assist persons diagnosed with brain injury to improve communication skills and the ability to perform activities of daily living. An assistive technology assessment is required to justify the purchase of assistive technology or adaptive equipment that is needed to address symptoms of the participant's brain injury. Services shall be provided by an individual or agency with a minimum of a master's degree in assistive technologies; an individual or agency certified by the rehabilitation engineering and assistive technologies society of North America (RESNA); an individual or agency demonstrating a working knowledge of assistive technologies; or a licensed physician or rehabilitation provider agency. Services shall include assessment, recommendations and training by a qualified healthcare professional.

(2) Durable medical equipment and assistive technology: Durable medical equipment (DME) refers to any equipment that is used to serve a medical purpose or provides therapeutic benefits to a patient in need because of certain medical conditions, related to a participant's brain injury. Assistive or adaptive technology refers to any"product, device, or equipment, whether acquired commercially, modified or customized, that is used to maintain, increase, or improve the functional capabilities" of a person living with brain injury. DME or adaptive equipment is intended to fill the assessed medical, therapeutic or functional needs of participant and a prescription and a written assessment provided by a physician or licensed therapist must be submitted to justify the equipment requested if the cost of the DME is more than $250.

(3) Environmental modifications: Environmental modifications refer to alterations required to make the participant's home more accessible because of their brain injury and related physical limitations. Environmental modifications include but are not limited to, widening doorways, installing ramps and modifying bathrooms. Funds cannot be used to cover home improvements; expenses related to home maintenance or other repairs that would otherwise be incurred as a responsible homeowner or tenant; or be applied toward the purchase of a home. The following criteria for environmental modifications must be adhered to:

(a) An assessment for the proposed environmental modification must be done by a licensed physical or occupational therapist to justify the service.

(b) For any modification over $250, contractor bids must be obtained by the service coordinator which must include blueprint, written description of plan and price itemization for materials and labor, along with any other supporting documentation.

(c) Only contractors with a current license in good standing can be engaged to do environmental modifications.

(d) Funds for environmental modifications are limited to a $10,000 lifetime maximum.

(e) The participant shall provide proof of property ownership, and, if residing in or renting property owned by another party, provide written permission from the landlord prior to pursuing any BISF funded environmental modification;

(f) The FIA in collaboration with the participant's service coordinator shall show evidence that BISF funding was the most appropriate payer source to fund the requested environmental modification;

(g) For instances when costs related to a needed environmental modification cannot be covered in total by another funding source, documentation of collaboration with other funding sources must be submitted to the FIA and include:

(i) a detailed description and plan for the project including total cost;

(ii) the specific portion to be funded by the BISF program as the payer of last resort; and

(iii) the contractor's written acknowledgment of the specific portion and amount of the project for which the BISF program is responsible.

(h) All requests, plans and related documentation for environmental modifications shall be submitted by the BISF service coordinator for review and written approval by HSD, prior to submitting a referral.

(4) Home health aide, homemaker or companion: A home health aide, homemaker or companion from a licensed agency may be contracted to assist participants in gaining functional independence with activities of daily living, performance of general household tasks, and enable the eligible participant to accomplish tasks he or she would normally do for himself or herself if he or she did not have a brain injury. Providers of these services must meet the quality personnel standards as stipulated by the agency and state licensing. The required license of contractors providing these services must be in good standing and current. Provision of authorized services must adhere to the following requirements:

(a) Participants must require regular assistance with activities and or instrumental activities of daily living, as prescribed by the HSD BISF program.

(b) Family members, who reside in the same household, cannot serve as paid caregivers, unless:

(i) the participant and family member reside in a remote area, where no professional caregiver or respite services are available, and the needs of the participant prevent the in-home caregiver from engaging in employment outside the home; or

(ii) the intensiveness of the participant's behavioral or mental health needs prevent outside caregivers from entering the home and administering effective care. These needs shall be justified in writing through a signed letter from the participant's licensed medical or mental health care providers and submitted to HSD or designated representative for review and approval. Such justification shall be updated annually, for as long as the participant remains eligible for BISF services.

(c) In-home family caregivers who meet the criteria noted in Subparagraphs (a) and (b) of Paragraph (4) of Subsection E of 8.326.10.13 NMAC must be trained and employed by a licensed agency that meets the quality personnel standards, as stipulated by the agency and state licensing, and timesheets shall be submitted, as requested.

(5) Initial and emergency housing costs: Assistance to pay initial or emergency rent, security deposit and utility start-of-service or one-month maintenance of service charges may be provided as once in a lifetime occurrence. Documentation submitted by BISF service coordinators with any housing referral to the FIA shall adhere to the guidelines below and be maintained in the participant's BISF record:

(a) a completed housing plan worksheet and budget, which includes documentation that the participant has sufficient resources to sustain ongoing housing expenses for the chosen housing; documentation that no other payer source was available to cover the housing expenses; the rental price range that would be sustainable for the participant; and detail regarding the manner in which initial housing or utility costs will be paid.

(b) a copy of a lease or rental agreement letter that contains the name of the leaser, the address of the property and a contact name and phone number for verification of rental intent.

(c) start up and or emergency utility costs shall be submitted to the FIA to be paid within 90 days of the signed rental agreement.

(6) Nursing care: Brain injury related private duty nursing services covered by BISF HCBS must be in compliance with the New Mexico Nurse Practice Act and provided in the participant's home under the orders of the participant's physician. These services may be provided by a licensed registered nurse (RN) or a licensed practical nurse (LPN).

(7) Nutritional consultation: Coverage includes consultation and follow-up with a registered dietician or nutritionist, who is licensed with the New Mexico board of nutrition and dietetics; qualified providers may include specialists such as MDs, DOs, Ph.D.s, RDs, LDs, or DCs.

(8) Physician or medical provider services for outpatient health insurance: Coverage of copayments for physician services or the treatment of a participant's brain injury or conditions directly related to the brain injury requires treatment verification by the office of the licensed medical professional or therapist. Payments of insurance premiums and or deductibles are not covered by the BISF program.

(9) Prescribed medications: Copayment assistance may be used to cover prescription medications that are medically necessary to treat symptoms arising from a participant's brain injury or directly related conditions. Reimbursement for this service requires adherence to the following guidelines:

(a) prescription medications eligible for reimbursement must be listed in the approved BISF program formulary. Exceptions to the BISF program formulary must be approved in writing from the HSD BISF program manager or designee;

(b) participants may not be reimbursed for prescription medications in cases where the receipt evidencing purchase is submitted more than 90 days past the date the prescription was filled;

(c) the participant must submit the pharmacy print out, which identifies the participant's name, the date, doctor's name, name of the medication and the price paid; and

(d) if feasible, and the FIA is able to set up an agreement with certain pharmacies, participants may have scripts filled with the billing sent directly to the FIA for payment; the service coordinator is responsible for checking receipts submitted by participants to avoid duplicate payments on those submitted through the pharmacy.

(10) Professional life skills coaching and organizer services: This interim service may be accessed to assist a participant in learning or re-learning life skills that are required in order to function independently in their home environment, in their job or in their community. These services are provided by individuals with appropriate certification and require the provider to address the cognitive, behavioral or social impairments that are preventing the return to independent functioning. The service may include assistance with home organization or management, time management, records management, and organization and management of finances, as well as coaching in appropriate social interactions; effective communication skills; anger management; self-care/health management; pursuit of education or employment; childcare and parenting skills; accessing and navigating community resources; mindfulness training and any other cognitive, social, or behavioral skills identified in the participant's ILP. The

services of the life skills coach are not to be used as a substitute for the participant's task performance. The services are customized for each participant and are usually provided in the person's home, place of work or wherever an activity would normally occur. Services are to be provided at a frequency that will best facilitate the transfer of needed skills, following an evaluation conducted by the coach. Life skills may also be provided to family members to help them adjust to their changed roles and circumstances following the brain injury of their family member. Service limitations apply as prescribed by HSD.

(11) Respite care: A participant's primary caregiver may be provided temporary respite, if the caregiver lives in the same household as the participant. Respite may be provided for a period up to 72 hours per week and may or may not include overnight hours. BISF HCBS funds cannot be used to pay for respite care provided by home health aides or salaried employees.

(12) Retrofit automobile: This service is used to modify an automobile specifically for the use of a participant with brain injury. The service is limited to installation of a van lift; hand or pedal controls; and modified seating. Funds cannot be used for the purchase of an automobile or be applied toward the cost of auto repairs or maintenance that would be otherwise incurred by the responsible vehicle owner or lessee. Any request for retrofit of an automobile will begin with a referral by the service coordinator identifying a certified driver rehabilitation specialist (CDRS), who will assess the abilities of the participant with brain injury, complete an evaluation, make recommendations for the vendor who will perform the installation, and provide any training on the use of specialized equipment or controls, once the installation is completed. The CDRS may or may not be affiliated with the vendor who completes the installation; a separate referral may be needed for the vendor completing the installation.

(13) Transportation (public or private): Requests to cover private or public in-state transportation for participants with brain injury must adhere to the following guidelines:

(a) Funds may be authorized for mileage reimbursements for the use of the participant's private vehicle for the purpose of getting to medical and therapy care for treatment of conditions directly related to the brain injury. Approved mileage reimbursements will:

(i) require prior approval by the BISF service coordinator for identified destinations and be authorized for payment by the BISF FIA;

(ii) cover costs of actual mileage at no more than the current state approved rates;

(iii) not be authorized to pay for gas, mileage or wear and tear on any other vehicle not privately owned by the participant with brain injury;

(iv) not cover overnight costs for participant or caregiver lodging or per diem; and

(v) not be covered for requests submitted more than 90 days past the date the transportation was provided, or the trip was taken.

(b) Funds may be used to purchase public transportation in the form of bus, van or rail passes for participants and their caregivers.

(14) Therapies and alternative therapies: All therapists providing traditional and alternative therapy services must hold a current license and be in good standing from their respective licensing authority. Service limitations on alternative therapies, such as massage, acupuncture and chiropractic care may apply, as specified by the HSD. BISF HCBS funds may be used to cover copayments for medically necessary therapies, as listed below:

(a) outpatient mental or behavioral health;

(b) physical therapy;

(c) occupational therapy;

(d) speech and language therapy;

(e) massage therapy;

(f) acupuncture; and

(g) chiropractic care.

(15) Other use of BISF HCBS funds: BISF HCBS funds may be used to provide other limited services in the absence of another payer source. Those services provided by a licensed practitioner may require an order or a letter of recommendation from a licensed physician or therapist. Requests for these services must be submitted by the service coordinator in writing for written authorization by the HSD BISF program manager or designee and include:

(a) Special training and education to the participant and family in the use of tools and methods needed to promote recovery and independence of the participant.

(b) Neuropsychological evaluations to determine a course of treatment for a participant who has already met the BISF program's eligibility criteria. The participant must present a physician's order or letter of recommendation for prior authorization, before accessing the service.

(c) Special health and dietary items that are needed because of conditions directly related to the brain injury.

(d) Health and housing advocate through independent contractors or peer mentors for attendance and advocacy at medical or therapy appointments or providing assistance in locating safe and affordable housing.

F. Providers or vendors of BISF HCBS sub-contracted by the FIA may not charge program participants for services already arranged and authorized through the BISF, unless the program has authorized direct reimbursement to the participant.

G. Only the HSD BISF program manager or designee can make exceptions or waivers of requirements regarding the provision of BISF HCBS with the following stipulations:

(1) requests for waivers to the provisions and services provided by the BISF program must be made by the service coordination agency in writing;

(2) requests must have accompanying documentation justifying the exception; and

(3) written approval from HSD must be placed in the participant's record by both the FIA and the service coordination agency.

[8.326.10.13 NMAC - Rp, 8.326.10.13 NMAC, 4/1/2021]

8.326.10.14 NON-COVERED SERVICES AND GOODS:

Costs not covered by BISF HCBS include:

A. Dental exams, visits, procedures or equipment;

B. Optical exams, visits, glasses, lenses or other equipment;

C. Hearing exams, visits or aids or other equipment;

D. Experimental therapies;

E. Computers and internet;

F. Cell phones or cell phone carrier service;

G. Organizational supplies;

H. Service animals, certification or training of service animals, veterinary, grooming, boarding or maintenance costs;

I. Health insurance deductibles or premiums; and

J. Institutional care, nursing facility or hospital care costs.

[8.326.10.14 NMAC - Rp, 8.326.10.14 NMAC, 4/1/2021]

8.326.10.15 SERVICE AUTHORIZATION AND REIMBURSEMENT:

Funding for BISF service coordination, BISF HCBS and fiscal intermediary agent services is based upon trust fund revenues and legislative or departmental appropriation. Billings and receipts for all approved goods, services and supports, shall be submitted for payment or reimbursement within 90 days of the service date, by the participant, service coordinator or vendor, following all HSD BISF program instructions. Reimbursement for goods, services and supports are made at a predetermined reimbursement rate. The HSD reserves the right to approve or disapprove any and all vendors or subcontractors used by the BISF HCBS fiscal intermediary agent.

[8.326.10.15 NMAC - Rp, 8.326.10.15 NMAC, 4/1/2021]

8.326.10.16 GRIEVANCE AND APPEALS PROCESSES FOR THE BRAIN INJURY SERVICES FUND PROGRAM:

The BISF program allows for a grievance or complaint process that affords program participants the opportunity to register grievances or complaints concerning the provision of services that are administered through the BISF program.

A. Grievances:

(1) Program participants may register complaints with the service coordination and FIA contractors.

(2) Individual BISF contractors will have written grievance procedures approved by HSD, which provide the participant or their representative with a process for expressing dissatisfaction with the program services.

(3) The contractor’s written grievance procedure is to be available upon request by program participants, HSD or its assigns.

B. Appeals:

(1) If the participant or their representative do not agree with the outcome of a formal grievance filed and reviewed at the BISF contracted agency, they may appeal, in writing, to the HSD BISF program manager.

(2) The HSD BISF program manager or designee will review the written appeal along with any supporting documentation as applicable and will respond in writing to the participant filing the appeal within 30 days with notification of the outcome to the provider agencies involved.

8.349.2.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[8.349.2.6 NMAC - Rp 8.349.2.6 NMAC, 7/1/2024]

8.349.2.7 DEFINITIONS:

[RESERVED]

8.349.2.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[8.349.2.8 NMAC - Rp 8.349.2.8 NMAC, 7/1/2024]

8.349.2.9 COORDINATED SERVICE CONTRACTORS (CSC):

CSCs that manage some services of the medicaid program are responsible for any or all aspects of program management, prior authorization, utilization review, claims processing, and issuance of remittance advices and payments.

A. The CSC shall have a grievance system in place for recipients that include a grievance process related to dissatisfaction and an appeals process related to a CSC's action, including the opportunity to request an HCA fair hearing.

B. A grievance is a recipient's expression of dissatisfaction about any matter or aspect of the CSC or its operation, other than a CSC's action, as defined below.

C. An appeal is a request for review by the CSC of a CSC's action. An action is the denial or limited authorization of a requested service, including the type or level of service; the reduction, suspension, or termination of a previously authorized service; the denial, in whole or in part, of payment for a service; or the failure to provide services in a

timely manner. An untimely service authorization constitutes a denial and is thus considered an action.

D. The recipient, legal guardian of the recipient for a minor or an incapacitated adult, or a representative of the recipient as designated in writing to the CSC, has the right to file a grievance or an appeal of the CSC's action on behalf of the recipient. A provider acting on behalf of the recipient, with the recipient's written consent, may file a grievance or an appeal of a CSC's action.

E. In addition to the CSC's grievance and appeal process described above, a recipient, legal guardian of the recipient for a minor or an incapacitated adult, or the representative of the recipient has the right to request a fair hearing on behalf of the recipient with HCA directly as described in 8.352.2 NMAC, Recipient Hearings, if a CSC's decision results in termination, modification, suspension, reduction, or denial of services to the recipient or if the recipient believes the CSC has taken an action erroneously. A fair hearing may be requested prior to, concurrent with, subsequent to, or in lieu of a grievance or appeal to the CSC.

[8.349.2.9 NMAC - Rp 8.349.2.9 NMAC, 7/1/2024]

8.349.2.10 GENERAL REQUIREMENTS FOR GRIEVANCE AND APPEALS:

A. The CSC shall implement written policies and procedures describing how the recipient may submit a request for a grievance or an appeal with the CSC or submit a request for a fair hearing with the HCA. The policy shall include a description of how the CSC resolves the grievance or appeal.

B. The CSC shall provide to all service providers and subcontractors in the CSC's network a written description of the CSC's grievance and appeal process and how the provider can submit a grievance or appeal.

C. The CSC shall have available reasonable assistance in completing forms and taking other procedural steps. This includes, but is not limited to, providing interpreter services and toll-free numbers that have adequate TTY/TTD and interpreter capability.

D. The CSC shall name a specific individual(s) designated as the CSC's medicaid recipient grievance coordinator with the HCA to administer the policies and procedures for resolution of a grievance or an appeal, to review patterns/trends in grievances or appeals, and to initiate corrective action.

E. The CSC shall ensure that the individuals that make the decisions on grievances or appeals are not involved in any previous level of review or decision-making. The CSC shall also ensure that health care professionals with appropriate clinical expertise shall make decisions for the following:

(1) an appeal of a CSC denial that is based on lack of medical necessity;

(2) a CSC denial that is upheld in an expedited resolution;

(3) a grievance or appeal that involves clinical issues.

F. Upon enrollment, the CSC shall provide recipients, at no cost, with an information sheet or handbook that provides information on how they or their representative(s) can file a grievance or an appeal, and the resolution process. The recipient information shall also advise recipients of their right to file a request for an administrative hearing with the HCA hearings bureau, upon notification of a CSC action, or concurrent with or following an appeal of the CSC action.

G. The CSC shall ensure that punitive or retaliatory action is not taken against a recipient or a provider that files a grievance or an appeal, or a provider that supports a recipients' grievance or appeal.

[8.349.2.10 NMAC - Rp 8.349.2.10 NMAC, 7/1/2024]

8.349.2.11 GRIEVANCE:

A grievance is a recipient's expression of dissatisfaction about any matter or aspect of the CSC or its operation.

A. A recipient may file a grievance either orally or in writing with the CSC within 90 calendar days of the date the event causing the dissatisfaction occurred. The legal guardian of the recipient for a minor or an incapacitated adult, a representative of the recipient as designated in writing to the CSC, and a provider acting on behalf of the recipient and with the recipient's written consent, have the right to file a grievance on behalf of the recipient.

B. Within five working days of receipt of the grievance, the CSC shall provide the grievant with written notice that the grievance has been received and the expected date of its resolution.

C. The investigation and final CSC resolution process for grievances shall be completed within 30 calendar days of the date the grievance is received by the CSC and shall include a resolution letter to the grievant or the grievant' s representative.

D. The CSC may request an extension from HCA up to 14 calendar days if the grievant requests the extension, or the CSC demonstrates to HCA that there is need for additional information, and the extension is in the recipient's interest. For any extension not requested by the grievant, the CSC shall give the grievant written notice of the reason for the extension within two working days of the decision to extend the timeframe.

E. Upon resolution of the grievance, the CSC shall mail a resolution letter to the grievant, legal guardian, representative, and provider acting on behalf of the recipient. The resolution letter shall include, but not be limited to, the following:

(1) all information considered in investigating the grievance;

(2) findings and conclusions based on the investigation; and

(3) the disposition of the grievance.

[8.349.2.11 NMAC - Rp 8.349.2.11 NMAC, 7/1/2024]

8.349.2.12 APPEALS:

An appeal is a request for review by the CSC of a CSC action.

A. An action is defined as:

(1) the denial or limited authorization of a requested service, including the type of level of service;

(2) the reduction, suspension, or termination of a previously authorized service;

(3) the denial, in whole or in part, of payment for a service;

(4) the failure of the CSC to provide services in a timely manner, as defined by HCA; or

(5) the failure of the CSC to complete the authorization request in a timely manner as defined in 42 CFR 438.408.

B. The CSC shall mail a notice of action to the recipient and provider within 10 days of the date of the action, except for denial of claims that may result in recipient financial liability, which requires immediate notification. The notice shall contain, but not be limited, to the following:

(1) the action CSC has taken or intends to take;

(2) the reasons for the action;

(3) the recipient’s or the provider’s right to file an appeal of the CSC action through the CSC;

(4) the recipient’s right to request an HCA fair hearing and what the process would be;

(5) the procedures for exercising the rights specified;

(6) the circumstances under which expedited resolution of an appeal is available and how to request it; and

(7) the recipient's right to have benefits continue pending resolution of an appeal, how to request the continuation of benefits, and the circumstances under which the recipient may be required to pay the costs of continuing these benefits.

C. A recipient may file an appeal of a CSC action within 90-calendar days of receiving the CSC's notice of action. The legal guardian of the recipient for a minor or an incapacitated adult, a representative of the recipient as designated in writing to the CSC, or a provider acting on behalf of the recipient with the recipient's written consent, have the right to file an appeal of an action on behalf of the recipient.

D. The CSC has 30-calendar days from the date the initial oral or written appeal is received by the CSC to resolve the appeal.

E. The CSC shall have a process in place that ensures that an oral or written inquiry from a recipient seeking to appeal an action is treated as an appeal (to establish the earliest possible filing date for the appeal). The CSC shall use its best efforts to assist recipients as needed with the written appeal.

F. Within five working days of receipt of the appeal, the CSC shall provide the grievant with written notice that the appeal has been received and the expected date of its resolution. The CSC shall confirm in writing receipt of oral appeals, unless the recipient or the provider requests an expedited resolution.

G. The CSC may extend the 30 days time frame by 14 calendar days if the recipient requests the extension, or the CSC demonstrates to HCA that there is need for additional information, and the extension is in the recipient's interest. For any extension not requested by the recipient, the CSC shall give the recipient written notice of the extension and the reason for the extension within two working days of the decision to extend the time frame.

H. The CSC shall provide the recipient or the recipient's representative a reasonable opportunity to present evidence of the facts or law, in person as well as in writing.

I. The CSC shall provide the recipient or the representative the opportunity, before and during the appeals process, to examine recipient's case file, including medical or clinical records (subject to HIPAA requirements), and any other documents and records considered during the appeals process. The CSC shall include as parties to the appeal the recipient and their representative, or the legal representative of a deceased recipient's estate.

J. For all appeals, the CSC shall provide written notice within the 30-calendar-day timeframe for resolution to the grievant, legal guardian, representative, and provider acting on behalf of the recipient.

(1) The written notice of the appeal resolution shall include, but not be limited to, the following information:

(a) the results of the appeal resolution; and

(b) the date it was completed.

(2) The written notice of the appeal resolution for appeals not resolved wholly in favor of the recipient shall include, but not be limited to, the following information:

(a) the right to request an HCA fair hearing and how to do so:

(b) the right to request receipt of benefits while the hearing is pending, and how to make the request; and

(c) that the recipient may be held liable for the cost of continuing benefits if the hearing decision upholds the CSC's action.

K. The CSC may continue benefits while the appeal or the HCA fair hearing process is pending.

(1) The CSC shall continue the recipient's benefits if all of the following are met:

(a) the recipient or the provider files a timely appeal of the CSC action within 10 days of the date on the notice of action from the CSC);

(b) the appeal involves the termination, suspension, or reduction of a previously authorized course of treatment:

(c) the services are ordered by an authorized provider;

(d) the recipient requests extension of benefits.

(2) The CSC shall provide benefits until one of the following occurs:

(a) the recipient withdraws the appeal;

(b) 10 days have passed since the date of the resolution letter, provided the resolution of the appeal was against the recipient and the recipient has taken no further action;

(c) HCA issues a hearing decision adverse to the recipient;

(d) the time period or service limits of a previously authorized service has expired.

(3) If the final resolution of the appeal is adverse to the recipient, that is, the CSC's action is upheld, the CSC may recover the cost of the services furnished to the member while the appeal was pending, to the extent that services were furnished solely because of the requirements of this section and in accordance with the policy in 42 CFR 431.230(b).

(4) If the CSC or HCA reverses a decision to deny, limit, or delay services, and these services were not furnished while the appeal was pending the CSC shall authorize or provide the disputed services promptly and as expeditiously as the recipient's health condition requires.

(5) If the CSC or HCA reverses a decision to deny, limit or delay services and the recipient received the disputed services while the appeal was pending, the CSC shall pay for these services.

[8.349.2.12 NMAC - Rp 8.349.2.12 NMAC, 7/1/2024]

8.349.2.13 EXPEDITED RESOLUTION OF APPEALS:

An expedited resolution of an appeal is an expedited review by the CSC of a CSC action.

A. The CSC shall establish and maintain an expedited review process for appeals when the CSC determines that allowing the time for a standard resolution could seriously jeopardize the recipient's life or health or ability to attain, maintain, or regain maximum function. Such a determination is based on:

(1) a request from the recipient;

(2) a provider's support of the recipient's request;

(3) a provider's request on behalf of the recipient; or

(4) the CSC's independent determination.

B. The CSC shall ensure that the expedited review process is convenient and efficient for the recipient.

C. The CSC shall resolve the appeal within three working days of receipt of the request for an expedited appeal, if the request meets the definition of expedited in 8.349.2.13 NMAC.

D. The CSC may extend the time frame by up to 14 calendar days if the recipient requests the extension, or the CSC demonstrates to HCA that there is need for additional information and the extension is in the recipient's interest. For an extension not requested by the recipient, the CSC shall give the recipient written notice of the reason for the delay.

E. The CSC shall ensure that punitive action is not taken against a recipient or a provider who requests an expedited resolution or supports a recipient's expedited appeal.

F. The CSC shall provide an expedited resolution, if the request meets the definition of an expedited appeal, in response to an oral or written request from the recipient or provider on behalf of the recipient.

G. The CSC shall inform the recipient of the limited time available to present evidence and allegations in fact or law.

H. If the CSC denies a request for an expedited resolution of an appeal, it shall:

(1) transfer the appeal to the 30-day timeframe for standard resolution, in which the 30-day period begins on the date the CSC received the original request for appeal;

(2) make reasonable efforts to give the recipient prompt oral notice of the denial, and follow up with a written notice within two calendar days; and

(3) inform the grievant in the written notice of the right to file an appeal or request an HCA fair hearing if the recipient is dissatisfied with the CSC's decision to deny an expedited resolution.

I. The CSC shall document in writing all oral requests for expedited resolution and shall maintain the documentation in the case file.

[8.349.2.13 NMAC - Rp 8.349.2.13 NMAC, 7/1/2024]

8.349.2.14 SPECIAL RULE FOR CERTAIN EXPEDITED SERVICE AUTHORIZATION DECISIONS:

In the case of expedited service authorization decisions that deny or limit services, the CSC shall, within 72 hours of receipt of the request for service, automatically file an appeal on behalf of the recipient, use its best effort, to give the recipient oral notice of the decision on the automatic appeal and to resolve the appeal.

[8.349.2.14 NMAC - Rp 8.349.2.14 NMAC, 7/1/2024]

8.349.2.15 OTHER RELATED COORDINATED SERVICE CONTRACTOR (CSC) PROCESSES:

A. Information about grievance system to providers and subcontractors: The CSC shall provide information specified in 42 CFR438.10(g) (1) about the grievance system to all providers and subcontractors at the time that they enter into a contract.

B. Grievance or appeal files:

(1) All grievance or appeal files shall be maintained in a secure and designated area and accessible to HCA, upon request, for review. Grievance or appeal files shall be retained for six years following the final decision by the CSC, HCA, and administrative law judge, judicial appeal, or closure of a file, whichever occurs later.

(2) The CSC shall have procedures for assuring that files contain sufficient information to identify the grievance or appeal, the date it was received, the nature of the grievance or appeal, notice to the recipient of receipt of the grievance or appeal, all correspondence between the CSC and the recipient, the date the grievance or appeal is resolved, the resolution, the notices of final decision to the recipient, and all other pertinent information.

(3) Documentation regarding the grievance shall be made available to the grievant, legal guardian representative, or provider acting on behalf of the recipient if requested.

[8.349.2.15 NMAC - Rp 8.349.2.15 NMAC, 7/1/2024]

8.349.2.16 COORDINATED SERVICE CONTRACTOR (CSC) PROVIDER GRIEVANCE PROCESS:

The CSC shall establish and maintain written policies and procedures for the filing of provider grievances. A provider shall have the right to file a grievance with the CSC regarding utilization management decisions or provider payment issues. Grievances shall be resolved within 30 calendar days. A provider may not file a grievance on behalf of a recipient without written designation by the recipient as the recipient's representative. See 8.349.2.14 NMAC for special rules for certain expedited service authorizations.

8.350.2.7 DEFINITIONS:

[RESERVED]

8.350.2.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.350.2.8 NMAC - Rp, 8.350.2.8 NMAC, 8/1/2014]

8.350.2.9 UTILIZATION REVIEW DECISIONS:

A. Utilization review (UR) decisions are those decisions the medical assistance division (MAD), its utilization review (UR) contractor or a MAD designee makes regarding the medical necessity of services or items that require authorization for medical necessity or a level of care (LOC) determination prior to reimbursement by MAD and its fee-for-service program. For applicable rules for services and items provided through a MAD managed care organization (MCO), refer to 8.308.15 NMAC. For applicable rules for services and items provided through coordinated service contractors, refer to 8.349.2 NMAC.

B. For services for which payment has already been made for which MAD is recouping payment due to a post payment review of medical necessity or LOC, the applicable rule is 8.532.3 NMAC.

C. Decisions are based on information submitted by the provider in a format specified by MAD, its UR contractor, or a MAD designee, and applicable New Mexico Administrative Code (NMAC) MAD rules.

D. Prior to making a decision, MAD, its UR contractor or a MAD designee may issue a request for information (RFI) to the provider requesting clarification or additional information in order to have sufficient information to render an appropriate decision. The provider must submit the clarification or additional information within 21 calendar days of issuance of the request or a technical denial may be issued.

E. MAD, its UR contractor or a MAD designee may deny or reduce the authorized services or items in frequency, intensity, duration, quantity, scope or level of care after considering the submitted documentation or NMAC MAD rules. An eligible provider or eligible recipient who is dissatisfied with the decision may proceed as detailed in Section 10 of this rule.

[8.350.2.9 NMAC - Rp, 8.350.2.9 NMAC, 8/1/2014]

8.350.2.10 RECONSIDERATION OF UTILIZATION REVIEW DECISIONS:

A provider who is dissatisfied with a medical necessity or LOC decision by MAD, its UR contractor or a MAD designee, can request reconsideration. An eligible recipient who is

dissatisfied with a medical necessity or LOC decision by MAD, its UR contractor or a MAD designee, can request the provider to pursue reconsideration on his or her behalf.

A. **Time constraints and submission requirements:** Requests for reconsideration must be in writing and received by MAD, its UR contractor or a MAD designee within 30 calendar days after the date on the initial notice of action.

B. **Requirement for filing an extension:** MAD, its UR contractor or a MAD designee will accept a request for reconsideration filed up to 14 calendar days past the 30 calendar day limit if MAD finds that there was good cause for the provider's or the eligible recipient's failure to file a timely request. The provider or the eligible recipient must furnish written documentation of good cause. Good cause includes a death in the family, a disabling personal illness or another significant emergency or other exceptional circumstance.

C. **Information required in the request for reconsideration:** The request for reconsideration must include the following:

(1) reference to the challenged decision or action;

(2) basis for the challenge;

(3) copies of any document(s) pertinent to the challenged decision or action;

(4) copies of claim form(s) if the challenge involves a claim for payment which is denied due to an UR decision; and

(5) a statement that a reconsideration of the decision is requested.

D. **Individuals conducting reconsideration review:** Individuals employed by MAD, its UR contractor or a MAD designee who were not participants in the initial UR decision conduct the reconsideration review.

E. **Information used in reconsideration process:** MAD, its UR contractor or a MAD designee reviews the information and findings upon which the initial action was based and any additional information submitted to, or otherwise obtained by MAD, its UR contractor or a MAD designee. The information can include the following:

(1) case records and other applicable documents submitted to MAD, its UR contractor or a MAD designee by the provider when the request for services was initially submitted;

(2) findings of the reviewer resulting in the initial decision;

(3) complete record of the service(s) provided, including hospital or medical records; and

(4) additional documents submitted by the provider to support a reconsideration review.

F. **Decision deadline:** MAD, its UR contractor or a MAD designee performs the reconsideration and furnishes the reconsideration decision within 10 business days of receipt of the reconsideration request.

G. **Notification of reconsideration decision:** MAD, its UR contractor or a MAD designee gives the provider and the eligible recipient written notice of the reconsideration determination. If the decision is adverse to the eligible recipient, the notice also includes information on the eligible recipient's right to a HSD administrative hearing and timeframes to file for a hearing and request for a continuation of his or her current benefit.

[8.350.2.10 NMAC - Rp, 8.350.2.10 NMAC, 8/1/2014]

8.350.2.11 CLAIMANT HEARINGS:

MAD has established a process to determine if an individual is eligible to request a HSD administrative hearing. MAD has also established a process for an individual or the individual's authorized representative to request an HSD administrative hearing when an UR reconsideration decision results in an adverse action that is intended or has been taken by MAD, its UR contractor or a MAD designee. See 8.352.2 NMAC for the definition of an authorized representative. MAD must grant an individual or his or her authorized representative the opportunity for a HSD administrative hearing under specific circumstances pursuant to 42 CFR Section 431.220(a) and Section 27-3-3 NMSA 1978. A request for a HSD administrative hearing must be received within 30 days of the date of its UR reconsideration decision. A HSD administrative hearing occurs telephonically between the parties to the hearing and the assigned ALJ. See 8.352.2 NMAC for detailed description of a HSD administrative claimant hearing process. At the time the eligible recipient or his or her authorized representative requests a HSD administrative hearing, the eligible recipient is referred to as the claimant.

A. **Record preservation:** To preserve a record for review, MAD, its UR contractor or a MAD designee documents and retains a record of the reconsideration determination.

B. **Documentation requirements:** The record preserved by MAD, its UR contractor or a MAD designee includes all documentation of the initial UR decision, copies of any documents relevant to the initial decision, any additional evidence presented during the reconsideration, and a copy of the reconsideration determination.

[8.350.2.11 NMAC - Rp, 8.350.2.11 NMAC, 8/1/2014]

PART 3: ABSTRACT SUBMISSION FOR LEVEL OF CARE DETERMINATIONS

8.350.3.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[2/1/1995; 8.350.3.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 3/1/2012; A, 7/1/2024]

8.350.3.2 SCOPE:

The rule applies to the general public.

[2/1/95; 8.350.3.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 3/1/12]

8.350.3.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See Section 27-2-12 et seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[2/1/1995; 8.350.3.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 3/1/2012; A, 7/1/2024]

8.350.3.4 DURATION:

Permanent

[2/1/95; 8.350.3.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 3/1/12]

8.350.3.5 EFFECTIVE DATE:

November 1, 1996

[11/1/96; 8.350.3.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 3/1/12]

8.350.3.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[2/1/95; 8.350.3.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 3/1/12]

8.350.3.7 DEFINITIONS:

[RESERVED]

8.350.3.8 MISSION STATEMENT:

The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.350.3.8 NMAC - Rn, 8 NMAC 4.MAD.002, 3/1/12]

8.350.3.9 ABSTRACT SUBMISSION FOR LEVEL OF CARE DETERMINATIONS:

The medical assistance division (MAD) utilization review (UR) contractor performs prior approval and abstract review on admissions, readmissions, and continued stay requests for all long-term care nursing facilities (NF) and intermediate care facilities for the mentally retarded (ICF-MR). Within ten (10) working days after a recipient's admission to a nursing facility or intermediate care facility for the mentally retarded (ICF-MR), the facility must submit a long-term care abstract to the UR contractor for review. The initial admission abstract describes the recipient's functional level and level of care needs and includes the physician's history and physical examination and preadmission screening and annual resident review (PASARR). Readmissions and continued-stay request abstracts must be submitted to the UR contractor ten (10) working days before the expiration of the currently certified length of stay.

[11/1/96; 8.350.3.9 NMAC - Rn, 8 NMAC 4.MAD.954, 3/1/12]

8.350.3.10 REQUESTS FOR RETROACTIVE PRIOR APPROVAL REVIEW:

MAD permits facilities to request retroactive prior approval review of long-term care abstracts which are not submitted for level-of-care reviews within the applicable time period if certain conditions are met.

A. **Initial abstracts:** Facilities must submit a request for retroactive prior approval review when delays in the submission of an initial abstract beyond the ten (10) working day period are caused by circumstances beyond the facility's control, including:

(1) physician does not sign orders or history and physical within the time period; or

(2) medicaid eligibility decisions have not been completed.

B. **Initial continued-stay abstract:** Facilities must submit a request for retroactive prior approval review when continued-stay abstracts are not submitted at least ten (10)

working days before the expiration of the currently certified length of stay. The delay in submission must be attributed to circumstances beyond the facility's control.

C. **Subsequent continued-stay abstract:** Facilities must submit a request for retroactive prior approval review when subsequent continued-stay abstracts are not submitted at least ten (10) working days prior to the expiration of the currently certified length of stay. The delay in submission must be caused by circumstances beyond the facility's control.

D. **Delays caused by circumstances within the facility's control:** Medicaid allows its UR contractor to accept ten (10) total late abstracts per facility per calendar year when delays in submission are caused by circumstances within the control of the facility, such as staff illness or staff turnover. Initial admission abstracts and initial and subsequent continued stay abstracts are included in this number.

E. **Denial of request for retroactive prior approval reviews:** Medicaid does not reimburse facilities for dates of service not covered by an approved abstract. Facilities cannot bill medicaid recipients for those days.

[11/1/96; 8.350.3.10 NMAC - Rn, 8 NMAC 4.MAD.954.1, 3/1/12]

8.350.3.11 SUBMITTING ABSTRACTS FOR RETROACTIVE PRIOR APPROVAL REVIEW:

A. To request retroactive prior approval review, a facility must submit the abstract, a request for retroactive prior approval review form and supporting documentation to the UR contractor. Facilities must provide at least the following supporting documentation:

(1) pertinent information, such as physician orders, history and physical, physician progress notes or hospital discharge summaries; all documentation must be date-stamped by the facility verifying date of receipt from the physician or hospital.

(2) dated facility entries and records that document telephone calls to physicians reminding them of the need to complete the abstract, physician orders, history and physical or progress notes;

(3) date-stamped copy of the notification of medicaid eligibility; and

(4) documentation of other reasons for delay.

B. Any request for retroactive prior approval review received without the required supporting documentation is returned to the facility.

[11/1/96; 8.350.3.11 NMAC - Rn, 8 NMAC 4.MAD.954.2, 3/1/12]

8.350.3.12 REVIEW OF RETROACTIVE PRIOR APPROVAL REVIEW DENIALS:

Providers who disagree with abstract review decisions or denials of retroactive prior approval review can request a re-review and reconsideration. See Section MAD-953, *Reconsideration of Utilization Review Decisions* for specific information on the review process.

[11/1/96; 8.350.3.12 NMAC - Rn, 8 NMAC 4.MAD.954.3, 3/1/12]

8.350.3.13 PAYMENT FOLLOWING APPROVAL OF RETROACTIVE PRIOR APPROVAL REVIEW ABSTRACTS:

Medicaid reimburses facilities in the following manner after approval of a retroactive prior approval review:

A. for late initial abstracts caused by delayed physician signature, reimbursement is effective back to the date of admission;

B. for late initial abstracts caused by delayed medicaid eligibility decisions, reimbursement is effective back to the date the recipient became medicaid-eligible;

C. for late continued-stay abstracts caused by delays in obtaining physician signature or retroactive medicaid eligibility, reimbursement is effective from the beginning of the certification period for continued stay;

D. for the first ten (10) late abstracts per facility per calendar when delay is attributed to circumstances within the facility's control, reimbursement is effective back to the date of admission or the beginning of the certification period for continued stay applicable to the situation; and

E. for late abstracts beyond the ten (10) allowed by medicaid attributed to circumstances within the facility's control, the earliest possible effective date is the date the late abstract was received by the UR contractor.

PART 4: RECONSIDERATION OF AUDIT SETTLEMENTS

8.350.4.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[1/1/1995; 8.350.4.1 NMAC - Rn, 8 NMAC 4.MAD.000.1, 1/1/2003; A, 7/1/2024]

8.350.4.2 SCOPE:

The rule applies to the general public.

[1/1/95; 8.350.4.2 NMAC - Rn, 8 NMAC 4.MAD.000.2, 1/1/2003]

8.350.4.3 STATUTORY AUTHORITY:

The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended and by the state health care authority pursuant to state statute. See NMSA 1978 Section 27-2-12 et. seq. (Repl. Pamp. 1991). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[1/1/1995; 8.350.4.3 NMAC - Rn, 8 NMAC 4.MAD.000.3, 1/1/2003; A, 7/1/2024]

8.350.4.4 DURATION:

Permanent.

[1/1/95; 8.350.4.4 NMAC - Rn, 8 NMAC 4.MAD.000.4, 1/1/2003]

8.350.4.5 EFFECTIVE DATE:

November 1, 1996.

[1/1/95, 2/1/95; 8.350.4.5 NMAC - Rn, 8 NMAC 4.MAD.000.5, 1/1/2003]

8.350.4.6 OBJECTIVE:

The objective of these regulations is to provide policies for the service portion of the New Mexico Medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.

[1/1/95, 2/1/95; 8.350.4.6 NMAC - Rn, 8 NMAC 4.MAD.000.6, 1/1/2003]

8.350.4.7 DEFINITIONS:

[RESERVED]

8.350.4.8 MISSION STATEMENT:

The mission of the New Mexico Medical Assistance Division (MAD) is to maximize the health status of Medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.

[2/1/95; 8.350.4.9 NMAC - Rn, 8 NMAC 4.MAD.002, 1/1/2003]

8.350.4.9 RECONSIDERATION OF AUDIT SETTLEMENTS:

A. General Reconsideration Process: Medicaid providers who disagree with an audit settlement can submit a written request for a reconsideration to the New Mexico Medical Assistance Division (MAD) within thirty (30) calendar days of the date on the notice of final settlement. The written request may be submitted by facsimile or by U.S. mail but not by electronic mail. The written request must be received by MAD no later than the thirtieth day from the date of the notice. Filing of a request for reconsideration does not affect the imposition of the final settlement.

(1) Information Included in the Request: The written request for reconsideration must identify each point on which the provider takes an issue with the audit agent and include all documentation, citations of authority, and arguments on which the request is based. Any point or issue not raised in the original request for reconsideration may not be raised later and will not be considered in the final decision of the reconsideration.

(2) Audit Agent Response: The written request and supporting materials is forwarded to the audit agent for reconsideration. The audit agent must file a response with MAD within thirty (30) calendar days of the receipt of the request and supporting material from MAD.

(3) Submission of Additional Material: MAD forwards the audit agent's response to the provider. Additional material from the audit agent or the provider must be received by MAD within fifteen (15) calendar days of the date the response was forwarded to the provider. Any additional information, the request for reconsideration and supporting documentation, and the audit agent's response constitute final submittal. The packet containing the final submittal is provided to the MAD Deputy Director for final submittal by the responsible bureau for program reimbursement.

(4) Decision by MAD: The Deputy Director may call on all information and call on all expertise he/she believes is necessary to decide the issue. The Deputy Director makes a determination and submits a written copy of his/her findings to each party within forty-five (45) calendar days of the date of final submittal to the MAD Director. The decision may be sent to the parties by facsimile or U.S. mail. The provider may appeal an adverse decision on the request for reconsideration to the New Mexico Human Services Department’s Hearings Bureau pursuant to the 8.353.10 NMAC. The MAD Director or designee shall make the decision on the recommendation from the hearing officer.

B. Specific Reconsideration Process for Nursing Facility, Intermediate Care Facility for the Mentally Retarded Providers: The reconsideration process for audit settlement varies for the aforementioned providers. See 8.312.3 NMAC, COST RELATED REIMBURSEMENT FOR NURSING FACILITIES, and 8.313.3 NMAC, COST RELATED REIMBURSEMENT OF ICF/MR FACILITIES for specific information.

CHAPTER 351: SANCTIONS OR REMEDIES

PART 1: GENERAL PROVISIONS [RESERVED]

PART 2: SANCTIONS AND REMEDIES

8.351.2.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.351.2.1 NMAC - Rp, 8.351.2.1 NMAC, 1/1/2014; A, 7/1/2024]

8.351.2.2 SCOPE:

The rule applies to the general public.

[8.351.2.2 NMAC - Rp, 8.351.2.2 NMAC, 1/1/2014]

8.351.2.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See NMSA 1978, Section 27-1-12 et seq. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.351.2.3 NMAC - Rp, 8.351.2.3 NMAC, 1/1/2014; A, 7/1/2024]

8.351.2.4 DURATION:

Permanent.

[8.351.2.4 NMAC - Rp, 8.351.2.4 NMAC, 1/1/2014]

8.351.2.5 EFFECTIVE DATE:

January 1, 2014, unless a later date is cited at the end of a section.

[8.351.2.5 NMAC - Rp, 8.351.2.5 NMAC, 1/1/2014]

8.351.2.6 OBJECTIVE:

The objective of this rule is to provide instructions for the service portion of the New Mexico medical assistance programs (MAP).

[8.351.2.6 NMAC - Rp, 8.351.2.6 NMAC, 1/1/2014]

8.351.2.7 DEFINITIONS:

[RESERVED]

8.351.2.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.351.2.8 NMAC - Rp, 8.351.2.8 NMAC, 1/1/2014]

8.351.2.9 SANCTIONS AND REMEDIES:

The medical assistance division (MAD) is required to impose sanctions or penalties against providers for fraud, violations of federal or state law, violations of HIPAA regulations, failure to meet professional standards of conduct, non-compliance with the medical assistance division's New Mexico administrative code (NMAC) rules, violations of the Medicaid Provider Act, and other misconduct. See 42 CFR Part 455; Section 30-44-3 NMSA 1978 (Repl. Pamp. 1998). HSD recovers overpayments made to MAD enrolled providers, to include HSD contracted managed care organizations (MCO) contracted providers; and to a MCO's out-of-network providers who have billed and received payments from a HSD contracted MCO. For applying sanctions and remedies, any of the following are considered a MAD enrolled provider.

A. Any individual or other entity who has signed a provider participation agreement (PPA) with MAD, or who has signed an agreement or contract with a HSD contracted MCO.

B. Any individual or other entity who has otherwise received payment for treating or providing services to a medical assistance program (MAP) eligible recipient as an out-of-network provider, a participating or non participating provider, a subcontracted provider, or who participates in an entity contracted by HSD or a HSD contracted MCO, including but not limited to, pharmacy benefit managers, dental benefit administrators, and contracted transportation services.

C. Any individual or other entity that provides a service to a MAP eligible recipient which results in a claim for payment by MAD, the HSD contracted fiscal agent, or by a HSD contracted MCO or coordinated care organization with or without a contractual basis for the claim submission.

D. Any individual or other entity who submits a claim to medicare or to a medicare advantage plan for a MAP eligible recipient, for which a copayment, coinsurance, or deductible is applied.

E. An employee, owner, or contractor to any of the above.

[8.351.2.9 NMAC - Rp, 8.351.2.9 NMAC, 1-1-14]

8.351.2.10 SANCTIONS:

MAD is required to impose sanctions against a provider for violation of the provisions outlined in the MAD NMAC rules and federal and state laws and regulations. MAD has discretion to impose monetary or non-monetary sanctions against providers for fraud or other forms of misconduct.

A. **Provider fraud:** Fraud is the intentional misappropriation, deception or misrepresentation made by a provider with the knowledge that the deception could result in some unauthorized benefit to the provider, other entity or some other person. The term includes any act that constitutes fraud under applicable federal or state law or regulation.

B. **Misconduct defined:** Provider misconduct includes, but is not limited to, any of the following:

(1) engaging in a course of conduct or performing an act that violates any provision of federal or state statutes, laws, regulation, and rules, to include HIPAA, or the continuation of his or her conduct after the receipt of the notice that the conduct should cease;

(2) failure to meet federal or state licensing or certification standards required of the provider or other entity, including the revocation or suspension of his or her license. The provider or other entity must notify MAD of such failure;

(3) failure to correct deficiencies in provider or other entity operations within time limits specified by HSD or its authorized agent after receiving written notice of these deficiencies;

(4) failure to maintain and retain any medical, behavioral health or business records as are necessary to:

(a) verify the treatment or care of a MAP eligible recipient for which the provider or other entity received payment from MAD or a HSD contracted MCO to provide the benefit or service;

(b) services or goods provided to any MAP eligible recipient for which the provider or other entity received payment from MAD or a HSD contracted MCO;

(c) amounts paid by MAD or a HSD contracted MCO on behalf of a MAP eligible recipient;

(d) identify the practitioners and qualifications of practitioners providing the service, and

(e) other records required by MAD for at least six years from the date of creation or until ongoing audits are settled, whichever is longer;

(5) furnishing services to a MAP eligible recipient or billing MAD or a HSD contracted MCO for services which fall outside the scope of the provider's practice board or outside the scope of his or her prescribed practice or as limited by MAD's NMAC rules;

(6) failure to comply with the terms of the provider certification, electronic signature, or terms of submission for the claim form;

(7) failure to provide complete, accurate, and current information on his or her MAD provider participation agreement (PPA);

(8) breach of the terms of the provider's MAD PPA;

(9) failure to provide or maintain services which meet professionally recognized standards of care and quality;

(10) engaging in negligent or abusive practices which result in death or physical, emotional, or psychological injury to a MAP eligible recipient;

(11) failure to repay or make arrangements to repay identified overpayments;

(12) failure to make records available upon request to HSD or its delegated agent;

(13) violation of any laws, regulations or code of ethics governing the conduct of providers;

(14) conviction of crimes relating to the neglect or abuse of any of his or her patients;

(15) conviction of a felony relating to the unlawful manufacture, distribution, prescription or dispensing of a controlled substance;

(16) conviction of program-related crimes under medicare to include any other programs administered by the federal government or any state health care program or the suspension or termination of a provider's participation by this or another state's medicaid agency;

(17) seeking payment for a furnished service or for work related charges and penalties from a MAP eligible recipient or his or her personal or authorized agent, except as allowed and specifically delineated by HSD;

(18) refusing to furnish services to a MAP eligible recipient because he or she has third-party coverage; or

(19) advising a MAP eligible recipient to terminate his or her third-party coverage;

(20) failing to follow federal or state regulations and rules regarding the management of pain with controlled substances, the prescription monitoring program, and prescribing controlled substances;

(21) injudicious or excessive prescribing;

(22) failing to maintain a practitioner-to-patient relationship while prescribing controlled substances;

(23) failure of a provider or other entity to report overpayments identified by the provider or other entity within 60 calendar days of identification which, at that point, are presumed to be false claims and are subject to determination as credible allegations of fraud.

C. **Violation of Medicaid Provider Act:** Violations of the Medicaid Provider Act include the following:

(1) a material breach of a provider's obligation to furnish services to a MAP eligible recipient or any other duty specified under the terms of his or her PPA;

(2) a violation of any provision of the Public Assistance Act or the Medicaid Provider Act or any regulations and rules issued pursuant to those acts;

(3) the provider or other entity intentionally or with reckless disregard made false statements with respect to any report or statement required by the Public Assistance Act, Medicaid Provider Act or rules issued pursuant to either of act;

(4) the provider or other entity intentionally or with reckless disregard advertised or marketed or attempted to advertise or market, services to a MAP eligible recipient in a manner to misrepresent its service or capacity for services, or engaged in any deceptive, misleading or unfair practice with respect to advertising or marketing;

(5) the provider or other entity hindered or prevented the HSD secretary, MAD director, or HSD's authorized agent from performing any duty imposed by the Public Assistance Act, the Human Services Act, the Medicaid Provider Act or any regulations and rules issued pursuant to those acts; or

(6) the provider or other entity fraudulently procured or attempted to procure any benefit from MAD or a HSD contracted MCO.

[8.351.2.10 NMAC - Rp, 8.351.2.10 NMAC, 1/1/2014]

8.351.2.11 TYPES OF SANCTIONS:

HSD is allowed to impose monetary or non-monetary sanctions against any provider or other entity for misconduct. HSD is required to impose certain sanctions against a provider or other entity for fraud, HIPAA violations, and other actions. Sanctions may be applied to any provider or other entity receiving payment for services either directly through MAD or through its managed care contractor, subcontractor, or other provider.

A. **Prior approval:** As a condition of payment, MAD or a HSD contracted MCO can require a provider to obtain prior approval before delivering all or certain services including prior to prescribing or ordering services. The prior approval request must be submitted to the HSD's contracted MCO or the MAD UR contractor in a manner prescribed for general utilization review. Failure to obtain prior approval prior to furnishing a service may result in imposition of sanctions. In addition, MAD may sanction a provider or other entity by requiring him or her to obtain prior approval before furnishing all or certain services, including prior to prescribing or ordering services, even if other providers may furnish that service without the requirement of obtaining prior approval; see 8.302.5 NMAC.

B. **Education:** As a condition of payment, MAD or a HSD contracted MCO can require a provider or other entity to attend an educational program if misconduct could be remedied with the provision of identified education. MAD or a HSD contracted MCO may also require a provider or other entity who is seeking reinstatement to attend a specific educational program prior to the approval of his or her new PPA application. Provider education programs may include, but are not limited to, the following:

(1) claim form completion;

(2) use and format of the MAD NMAC rules;

(3) use of procedure codes;

(4) substantive provisions of MAD's NMAC rule, policy, and requirement;

(5) reimbursement rates;

(6) assistance in claims coding and billing; and

(7) continuing medical or behavioral health education.

C. **Closed-end agreements:** MAD can transfer the provider to a closed-end PPA. A closed-end PPA is for a specified period of time which terminates on a defined date not to exceed 12 months. At the end of this term, a new PPA must be executed for continued MAD participation.

D. **Suspension:** "Suspension" is an exclusion from participation in MAD or a HSD contracted MCO for a specified period of time.

(1) MAD suspension: MAD may suspend a provider from MAD or a HSD contracted MCO participation for misconduct or fraud.

(a) HSD is permitted to suspend a provider for up to 36 months. The period of suspension is not less than the term of any court-imposed suspension.

(b) If the suspension is imposed by MAD, the effective date of the suspension is the date on the notice of suspension. If the suspension is concurrent with a court-imposed suspension, the effective date is the date of the court-imposed suspension.

(c) MAD is permitted to suspend a provider when the provider's license is terminated, suspended, or moved to an inactive status whether the action is voluntary on the part of the provider or is an action of his or her practice or licensing board. When a provider is reinstated by his or her practice or licensing board, the provider may reapply to MAD. Approval of the provider's PPA will be based on the history, nature, and financial magnitude of the provider's prior misconduct and not solely on the basis of reinstatement of the provider's license.

(2) Medicare suspension: MAD must suspend a provider or other entity that is suspended by medicare or any other federal or state-funded health program. When a MAD suspension is concurrent with a medicare suspension, the effective date of the MAD suspension is the same date of the medicare suspension.

(3) Special exception for health manpower shortage areas: After assessing the nature of the violation or misconduct, MAD has the option of requesting action from the secretary of the federal department of health and human services (DHHS) if the suspension of a provider would result in the lack of adequate medical or behavioral health services for MAP eligible recipients in a given area. The secretary of DHHS can be asked to:

(a) designate the community as a health manpower shortage area and place national health services corps personnel in the community; or

(b) waive the provider's suspension based upon submission of adequate documentation that the suspension would deprive the provider's community of needed medical or behavioral health services because of a shortage of practitioners in the area.

(4) Submission of claims following suspension:

(a) If a provider is suspended from MAD or a HSD contracted MCO participation, the provider is prohibited from submitting claims for payment to MAD, its MAD claims processing contractor, or to a HSD contracted MCO.

(b) MAD or a HSD contracted MCO will not pay claims submitted by clinics, groups, corporations, associations or other entities associated with a provider who is suspended from MAD participation for services furnished by such provider after the effective date of the suspension.

(c) Claims for services, treatment or supplies furnished by the provider before the effective date of the suspension can be submitted. The claims may be subject to pre-payment review.

(5) Reinstatement: A provider can apply for reinstatement at the end of a suspension period. Reinstatement is not automatic or guaranteed. A provider must furnish written documentation that he or she meets all relevant licensing, certification, or registration requirements as specified by MAD, HSD's behavioral health services division (BHSD), the children, youth and families department (CYFD), or the department of health (DOH).

E. **Termination:** Termination is the ending of the provider's MAD PPA for a specified period of time. MAD must terminate the provider's PPA in certain specified instances and is permitted to terminate the PPA in other instances.

(1) Mandatory termination: MAD must terminate the PPA when any of the following events occur:

(a) provider is convicted of MAP or medicare fraud;

(b) provider has a previous suspension from MAD with failure to correct identified deficiencies; or

(c) provider is terminated from participation in the medicare program or another federal or state-funded health program.

(2) Discretionary termination: MAD may terminate the provider's PPA when the violation is so egregious, in the discretionary opinion of MAD, that other sanctions are not sufficient to address, reduce or eliminate the violation or when the identified deficiency or violation reflects a pattern of violation.

(3) Effective date of termination: The effective date of the MAD PPA termination is the date of a MAD or a medicare fraud conviction or the date of the provider's medicare termination. If termination follows a prior suspension from MAD or the termination is discretionary, the date of termination is set by MAD.

(4) Termination of a nursing facility (NF) or intermediate care facility's PPA:

(a) MAD or a HSD contracted MCO can terminate a NF or an intermediate care facility for individuals with intellectual disabilities (ICF-IID) PPA instead of or in addition to other alternative remedies. Termination can occur in the instances which include, but are not limited to, the following:

(i) immediate jeopardy to a NF or ICF-IID MAP eligible recipient resident's health and safety which have not been removed;

(ii) the provider is not in substantial compliance with participation requirements regardless of whether immediate jeopardy to a NF or ICF-IID MAP eligible recipient resident is present;

(iii) the provider fails to submit an acceptable plan of correction within the specified timeframes;

(iv) provider fails to relinquish control to temporary manager; or

(v) DOH recommends termination as the most appropriate remedy.

(b) Termination of the provider's PPA ends payment to the NF or ICF-IID provider.

(c) Notwithstanding other sections of this rule, payment to the NF or ICF-IID provider can be continued for up to 30 calendar days after the effective date of his or her PPA termination if the following conditions are met:

(i) the payment is for a NF or ICF-IID MAP eligible recipient resident admitted to the NF or ICF-IID before the effective date of the provider's PPA termination; and

(ii) MAD or a HSD contracted MCO is making reasonable efforts to transfer a MAP eligible recipient resident to another MAD enrolled facility or to alternate care;

(iii) for purposes of this provision, the 30 calendar day period begins on the effective date of the provider's PPA termination by the centers for medicare and medicaid services (CMS), MAD, or by the NF or ICF-IID provider.

(d) Before termination of a provider's NF or ICF-IID PPA, MAD or a HSD contracted MCO must notify the provider and the public at least 15 calendar days before the effective date of the termination with non-immediate jeopardy deficiencies that constitute the noncompliance. For termination due to deficiencies that pose immediate jeopardy to a MAP eligible recipient resident, MAD or a HSD contracted MCO must notify the provider and the public at least two working days before the effective date of the termination.

(e) If the termination of the provider's PPA is selected due to immediate jeopardy to a NF or ICF-IID MAP eligible recipient resident, the effective date of the termination is within 23 calendar days of the last date of its DOH survey.

(5) Submission of claims following termination:

(a) If a provider is terminated from MAD participation, the provider is prohibited from submitting claims for payment to a HSD contracted MCO or to the MAD claims processing contractor.

(b) MAD or an HSD contracted MCO will not pay claims submitted by clinics, groups, corporations, associations, or other entities associated with a provider who is terminated from MAD participation for services furnished by such provider after the effective date of the termination.

(c) Claims for services, treatment or supplies furnished by the provider before the effective date of the termination can be submitted. The claims may be subject to pre-payment review.

(6) Re-application for MAD participation: A provider or other entity must submit a new PPA application after the end of the termination period to MAD, before requesting enrollment in one of HSD's contracted MCOs. A provider must meet certification and licensing requirements specified by MAD, CYFD or DOH to be eligible to once again become a provider.

F. **Civil monetary penalties:** MAD is permitted to impose civil monetary penalties in addition to other penalties, and in accordance with the federal and state laws, regulations and rules.

(1) Amount of penalty: the provider or other entity is liable for the following:

(a) payment of interest on the amount received by the provider or other entity from MAD or a HSD contracted MCO in excess of payment at the maximum legal rate in effect on the date the payment was made, for the period from the date payment was made to the date of repayment to HSD;

(b) a civil monetary penalty in an amount of up to the maximum allowable under federal or state law, regulations or rules;

(c) a civil monetary penalty of $500 for each false or fraudulent claim submitted for furnishing treatment, services, or goods; and

(d) payment of legal fees and costs of investigation and enforcement of civil remedies.

(2) Payment of penalty amounts: Penalties and interest amounts must be remitted to the state of New Mexico (the state). Any legal fees, costs of investigation and costs of enforcement of civil remedies recovered on behalf of the state must also be remitted to the state.

(3) Criminal action: The filing of a criminal action is not a condition precedent to MAD's imposition of civil monetary penalties.

G. **Reduction of payment:** MAD may reduce the amount of any payment due a provider or other entity, in addition to other sanctions, if the provider or other entity seeks to collect an amount in excess of the MAD or a HSD contracted MCO's allowable amount from a MAP eligible recipient, his or her family, his or her authorized agent or any other source. See 42 CFR Section 447.20 - 447.21.

(1) The reduction may be equal to up to three times the amount that the provider sought to collect.

(2) For purposes of this provision, the MAD allowable amount is equal to the amount payable under the state plan or MAD NMAC rules, a MAD or a HSD contracted MCO fee schedule. The provider may not charge a MAP eligible recipient for any effort or penalties such as researching eligibility, not having cards, completing paper work or billing forms, missed appointments, or any other add-on cost unless specifically allowed in a MAD NMAC rule.

H. **Sanctions and remedies for noncompliance with nursing facility or intermediate care facility certification requirements:** MAD is required to impose additional remedies against a NF provider who fails to comply with federal medicaid and state MAD participation requirements with respect to his or her licensing and certification. One or more of the following remedies can be imposed by MAD for each deficiency constituting noncompliance or for all deficiencies constituting noncompliance: termination of the NF provider's MAD PPA and all provider contracts with the HSD contracted MCO; temporary management; denial of payment for new admissions; civil money penalties; NF closure or the transfer of MAP eligible recipient residents or both; state monitoring; directed plan of correction; directed inservice training; and other state remedies approved by CMS. MAD is also required to impose remedies against an ICF-IID provider who fail to comply with federal medicaid and state MAD licensing and certification requirements. MAD may terminate an ICF-IID provider's certification or deny payment for new admissions if the provider fails to meet the conditions for participation or certain deficiencies are identified by DOH.

(1) Authority of survey agency: DOH is the survey agency designated by MAD. When the rationale for imposition of the remedies is tied to DOH's licensing and certification responsibilities, criteria for imposition of remedies and description of these specific remedies are based on NMAC rules promulgated by the DOH.

(2) Recommendations for imposition of additional remedies: Following completion of a survey, DOH may recommend that specified remedies be imposed against a NF or an ICF-IID provider for failure to meet certification or licensing requirements which are based on the type, extent and seriousness of an identified deficiency. MAD has five working days from receipt of DOH's recommendations to impose remedies or to oppose the recommendations. Unless a response from MAD is received in writing prior to the expiration of the time period, the recommendations are accepted by MAD as submitted and the recommended remedy is imposed.

(3) Informal reconsideration for an ICF-IID provider: An ICF-IID provider can request an informal reconsideration of the decision to deny, terminate or not renew his or her MAD PPA when the HSD administrative hearing final decision will not be completed prior to the effective date of the termination. The informal reconsideration must be completed prior to the effective date of the termination. The informal reconsideration includes the following:

(a) written notice to the ICF-IID provider of the denial, termination or nonrenewal of his or her MAD PPA;

(b) reasonable opportunity for the ICF-IID provider to refute the findings upon which the decision was based; and

(c) a written affirmation or reversal of the denial, termination or nonrenewal of the provider's MAD PPA.

I. **Sanction for violation of the Medicaid Provider Act:** MAD may take any or any combinations of the following delineated actions against a provider or other entity for a violation of the Medicaid Provider Act.

(1) imposition of an administrative penalty of not more than $5,000 for engaging in any practice that violates the act; each separate occurrence of such practice constitutes a separate offense;

(2) MAD issues an administrative order requiring the provider or other entity to:

(a) cease or modify any specified conduct or practices engaged in by the provider or other entity or his or her employees, subcontractors, or agents;

(b) fulfill its contractual obligations in the manner specified in the order;

(c) provide any service that has been denied;

(d) take steps to provide or arrange for any service that it has agreed to or is otherwise obligated to make available; or

(e) enter into and abide by the terms of binding or nonbinding arbitration proceeding, if agreed to by the opposing parties;

(3) suspend or terminate the provider's MAD PPA and the provider contracts with a HSD contracted MCO.

[8.351.2.11 NMAC - Rp, 8.351.2.11 NMAC, 1/1/2014]

8.351.2.12 IMPOSITION OF SANCTIONS:

A. **Mandatory sanctions:** MAD must impose sanctions when a provider receives a formal reprimand or censure for unethical practice by a professional association of the provider's peers or when a provider is suspended or terminated from participation in medicare or any federal or state-funded health care program. Imposition of sanctions are applied to any provider or other entity receiving payment for services either directly through MAD, its contractor, or through any HSD contracted MCO, subcontractor, or provider.

B. **Permissive sanctions:** MAD can impose monetary or non-monetary sanctions against a provider or other entity for fraud or other forms of misconduct.

C. **Criteria used in assessment of permissive sanctions:** MAD uses the following criteria to determine the type of permissive or mandatory sanction to impose:

(1) seriousness of the violation;

(2) number and nature of a violation;

(3) history of a prior violation or prior sanction;

(4) action or recommendation of peer review group or licensing board;

(5) nature and degree of adverse impact of the sanction upon a MAP eligible recipient;

(6) cost to MAD or a HSD contracted MCO of the violation;

(7) mitigating circumstances; and

(8) other relevant facts.

[8.351.2.12 NMAC - Rp, 8.351.2.12 NMAC, 1/1/2014]

8.351.2.13 RECOVERY OF OVERPAYMENTS:

MAD can seek recovery of overpayments through the recoupment or repayment process. Overpayments are amounts paid to a MAD provider or other entity in excess of the MAD allowable amount. Overpayment amounts must be collected within 24 months of the initiation of recovery. Overpayment includes, but is not limited to, payment for any claim for which the provider or other entity was not entitled to payment because an applicable MAD NMAC rule and its requirements were not followed. Payment made to a pharmacy for a controlled substance or another prescribed drug item for which the prescriber did not follow all state and federal regulations, laws or rules may be subject to recoupment from the prescriber or entity to which the prescriber is associated. Recovery of overpayments through a HSD contracted MCO is also subject to the provisions of 8.308.22 NMAC.

A. **Auditing procedures:**

(1) Prima facie evidence: The audit findings generated through the audit procedure shall constitute prima facie evidence in all MAD proceedings of the number and amount of requests for payment as submitted by the provider or other entity.

(2) Use of statistical sampling techniques: MAD's procedures for auditing a provider or other entity may include the use of random sampling and extrapolation. When this procedure is used, all sampling will be performed using generally accepted statistical methods and will yield statistically significant results at a confidence level of at least 90 percent. Findings of the sample will be extrapolated to the universe for the audit period.

(3) Burden of proof: When MAD's final audit findings have been generated through the use of sampling and extrapolation, and the provider or other entity disagrees with the findings based on the sampling and extrapolation methodology that was used, the burden of proof of compliance rests with the provider or other entity. The provider or other entity may present evidence to show that the sample was invalid. The evidence must include a 100 percent audit of the universe of provider records used by MAD in the drawing of its sample. Any such audit must:

(a) be arranged and paid for by the provider or other entity;

(b) be conducted by a certified public accountant;

(c) demonstrate that a statistically significantly higher number of claims and records not reviewed in MAD sample were in compliance with MAD NMAC rules, and

(d) be submitted to MAD with all supporting documentation.

B. **Repayment process:** A provider or other entity can repay all or part of an overpayment with a lump sum payment or a series of payments based on a schedule developed and mutually agreed to by MAD and the provider or other entity. If a provider

or other entity fails to comply with the schedule, HSD will recover the overpayment and interest or initiate other collection efforts.

C. **Recoupment process:** Upon written notice, MAD may withhold all or a portion of a provider or other entity's payment on pending and subsequently received claims in order to recover an overpayment, or it may suspend payment on all pending or subsequently submitted claims, pending a final determination of the amount of overpayment. All amounts must be recouped within 24 months. Recoupments may be applied to other providers owned by the same entity when necessary to recoup overpayments timely.

D. **Combination of processes:** MAD can use both recoupment and repayment process to collect an overpayment if:

(1) the provider is unlikely to remain a MAD provider long enough for full recovery using recoupment alone;

(2) the provider is not enrolled through a MAD PPA or contract; or

(3) the average monthly payment to a provider or other entity is so low that recoupment within 12 months is not feasible.

E. **Prepayment review:** MAD may require pre-payment review of claims submitted during a recoupment or repayment process to ensure that subsequent claims are not inflated to compensate for amounts recovered during the recoupment or repayment process. Prepayment review may also be conducted as part of MAD's administrative responsibilities.

[8.351.2.13 NMAC - Rp, 8.351.2.13 NMAC, 1-1-14]

8.351.2.14 NOTICE REQUIREMENTS:

A. **Content of provider notice:** With the exception of a referral based on a credible allegation of fraud, as that term is defined in federal statute or regulation or both, when MAD seeks overpayment recovery, or to impose sanctions or remedies, written notice is sent to the provider or other entity. The notice sent to a non-nursing facility provider or other entity contains the following information:

(1) nature of the violation or misconduct;

(2) dollar value, if applicable, the method, criteria or both used for determining the overpayment, intended sanction, or amount of civil monetary penalty to be imposed;

(3) provider's right to a HSD provider administrative hearing, the right to be represented by counsel at the hearing proceeding, and the process necessary to request a HSD provider administrative hearing.

(4) statement notifying the provider that if he or she does not request a HSD provider administrative hearing, the action proposed by MAD will be deemed final for purposes of collection of overpayment and imposition of sanctions; and

(5) a statement that provider has 30 calendar days from the date of the notice to request a HSD provider administrative hearing.

B. **Notice requirements for credible allegations of fraud:**

(1) The notice for contains the following information; see 42 CFR Section 455.23 (b):

(a) a statement that payments are being withheld on a temporary basis and delineate which types or type of MAD claim to which the termination applies, when appropriate;

(b) a statement informing the provider of his or her right to submit written information for MAD's consideration regarding release of payments, in whole or in part, for a good cause exception; and

(c) the information listing the conditions or circumstances under which the withholding is terminated.

(2) Time limits for withholding for fraud or misrepresentation: If payments are to be withheld in instances of credible allegations of fraud, the notice is sent to the provider within five calendar days of taking such action.

(3) The provider is not afforded any HSD administrative hearing for temporary payment suspension based on refunds or denial of a partial or in whole good cause exception for a credible allegation of fraud.

C. **Notice to other organizations:** When a MAD provider or other entity is sanctioned, MAD notifies the applicable professional society, board of certification, licensing or registration, and state or federal agencies of the sanctions imposed and rationale for imposition of sanctions. If MAD learns that a provider or other entity is convicted of a MAD-related offense, MAD also notifies the federal secretary of DHHS of the conviction.

D. **Notice to a MAP eligible recipient:** When MAD terminates or suspends a provider from participation, it notifies each MAP eligible recipient for whom the provider has submitted claims for services after the date of the alleged fraud or misconduct.

E. **Notice deadlines for a NF or ICF-IID provider:** The notice period begins on the date of the MAD notice. In no event will the effective date of the action be later than 20 calendar days after MAD sends the notice.

(1) The notice informing the NF or ICF-IID provider of MAD's intent to impose remedies is given at least two calendar days before the effective date of the action in instances where there is immediate jeopardy to a NF or ICF-IID MAP eligible resident.

(2) The notice informs the NF or ICF-IID provider of MAD's intent to impose remedies is given at least 15 calendar days before the effective date of the remedies in instances where immediate jeopardy to a NF or ICF-IID MAP eligible resident is not involved.

F. **Exceptions to the notice requirements:** Notice is not sent and a HSD provider administrative hearing is not available if the basis for the provider sanction is the non-nursing facility provider's failure to meet standards for licensing, certification, or registration required by federal or state laws and rules for MAD participation Additional notice is not required if MAD has notified the provider in writing of the failure to meet standards and has given the provider 30 calendar days notice to correct or produce necessary documentation curing the failure and the provider fails to respond.

[8.351.2.14 NMAC - Rp, 8.351.2.14 NMAC, 1/1/2014]

8.351.2.15 REQUEST FOR PROVIDER HEARING:

A provider can request a hearing if he or she disagrees with any of the aforementioned actions taken or sanctions or remedies imposed by MAD, as applicable. Requests for a HSD provider administrative hearing must be made within 30 calendar days or within the time limit specified on the notice of MAD action. A NF or ICF-IID provider must submit the request to DOH within 60 calendar days of the notice of the proposed imposition of remedies related to noncompliance with certification or licensing requirements. If a provider fails to request a HSD provider administrative hearing during this time frame, the provider waives its right to an appeal. See 8.352.3 NMAC for information on the MAD provider administrative hearing process and a provider rights and responsibilities.

A. **Imposition of remedies:** MAD can impose all remedies on a MAD enrolled provider after notifying the provider in a timely manner of the deficiencies an impending sanction, or remedy. Except for the imposition of civil monetary penalties against a NF provider, imposition of sanctions for violation of the Medicaid Provider Act and referrals based on credible allegations of fraud, any applicable sanctions or remedy may be imposed prior to the HSD provider administrative hearing.

B. **Stay granted:** As applicable, the provider can request that the imposition of sanctions or remedies be stayed while the HSD provider administrative hearing process is pending by submitting such request in writing to MAD. Granting of a stay is at the discretion of the MAD director upon consideration of health service available and other related concerns. Interest on civil money penalties or overpayments accrues from the date of the initial determination.

C. **Collection of civil monetary penalties for noncompliance:** MAD may not collect a civil money penalty against a NF provider until a final decision is made that supports the imposition of the penalty. In instances where imposition of civil money penalties are proposed due to noncompliance with certification requirements, a NF provider may waive its right to a HSD provider administrative hearing by submitting a written request to DOH. Waiver of the right to such a hearing reduces the amount of the specified penalty by 35 percent. A NF provider may submit a plan of correction or request a resurvey without prejudicing its position during the hearing.

CHAPTER 352: ADMINISTRATIVE HEARINGS

PART 1: GENERAL PROVISIONS [RESERVED]

PART 2: CLAIMANT HEARINGS

8.352.2.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.352.2.1 NMAC - Rp, 8.352.2.1 NMAC, 6/15/2014; A, 7/1/2024]

8.352.2.2 SCOPE:

The rule applies to the general public.

[8.352.2.2 NMAC - Rp, 8.352.2.2 NMAC, 6-15-14]

8.352.2.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See Section 27-1-12 et seq NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.352.2.3 NMAC - Rp, 8.352.2.3 NMAC, 6/15/2014; A, 7/1/2024]

8.352.2.4 DURATION:

Permanent.

[8.352.2.4 NMAC - Rp, 8.352.2.4 NMAC, 6-15-14]

8.352.2.5 EFFECTIVE DATE:

June 15, 2014, unless a later date is cited at the end of a section.

[8.352.2.5 NMAC - Rp, 8.352.2.5 NMAC, 6-15-14]

8.352.2.6 OBJECTIVE:

The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs.

[8.352.2.6 NMAC - Rp, 8.352.2.6 NMAC, 6-15-14]

8.352.2.7 DEFINITIONS:

A. "Administrative law judge (ALJ)" means the hearing officer appointed by the HSD fair hearings bureau (FHB) to oversee the claimant's administrative hearing process, to produce and evidentiary record and render a recommendation to the medical assistance division director.

B. "Appeal" means the process open to a managed care organization's member when his or her managed care organization (MCO) has taken, or intends to take, an adverse action related to the member's benefits or services.

C. "Authorized representative" means the individual designated to represent and act on the claimant's behalf during the appeal process. The claimant or authorized representative must provide formal documentation authorizing the named individual or individuals to access the identified case information for a specified purpose and time frame. An authorized representative may be an attorney representing a person or household, a person acting under the authority of a valid power of attorney, a guardian, or any other individual or individuals designated in writing by the claimant.

D. "Claimant" means the individual, or in case of eligibility determinations, the household, requesting a HSD administrative hearing that is claiming to be affected by an adverse action or actions taken or intended to be taken by MAD, its UR contractor or a MCO.

E. "HSD administrative hearing" or"fair hearing" means an informal evidentiary hearing that is conducted by the FHB so that evidence may be presented as it relates to an adverse action taken, or intended to be taken, by MAD, its UR contractor, or the MCO; see Section 10 of this rule for definitions of an adverse action.

F. "MAD" means the medical assistance division, which administers medicaid and other medical assistance programs under HSD.

G. "MAP" means the medical assistance programs administered by MAD.

H. "MCO" means a member's HSD contracted managed care organization.

I. "MCO appeal decision" means the MCO's final decision regarding a member's appealed adverse action it intends to take or has taken against its member.

J. "Member" means a MAP eligible recipient enrolled in a HSD contracted MCO.

K. "Notice of action" means the notice issued by MAD or its UR contractor or a MCO. Adverse actions include:

(1) the intent of MAD or its UR contractor or the MCO to take an adverse action against an individual in the form of a termination, suspension, change or reduction, of an existing service including level of care (LOC) or the transfer or discharge of a nursing facility (NF) resident. If the notice of action is for one of the listed adverse actions, MAD or its UR contractor or the MCO must send the notice of action 10 calendar days prior to the date of the intended adverse action; or

(2) an adverse determination made with regard to preadmission or annual resident review (PASRR) requirements; or

(3) the denial or reduction, or a limited authorization of a service including the type or level of care of a request for a new service or item.

L. "Parties to the hearing" are MAD and as appropriate, its designees, the individual's MCO or the MAD UR contractor, and the claimant or authorized representative.

M. "UR contractor" is a MAD contractor responsible for physical and behavioral health level of care (LOC) reviews, medical necessity reviews, and other determinations as directed by MAD when a MAP eligible recipient is enrolled in a medicaid fee-for-service plan.

[8.352.2.7 NMAC - Rp, 8.352.2.7 NMAC, 6-15-14]

8.352.2.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.352.2.8 NMAC - Rp, 8.352.2.8 NMAC, 6-15-14]

8.352.2.9 CLAIMANT OR THE CLAIMANT'S AUTHORIZED REPRESENTATIVE AND HSD ADMINISTRATIVE HEARING PROCESS:

MAD has established a process to determine if an individual is eligible to request a HSD administrative hearing. MAD has also established a process for an individual or the individual's authorized representative to request a HSD administrative hearing when an adverse action is intended or has been taken by MAD, its UR contractor or the MCO against the individual; see Section 10 of this rule.

A. Eligible claimant:

(1) When an adverse eligibility determination is made by HSD against a MAP applicant, he or she may file as a claimant to request a HSD administrative hearing. See 8.100.970 NMAC for the rules governing a HSD administrative hearing for a MAP adverse eligibility determination.

(2) When an adverse action is taken or intended to be taken against a MAP eligible recipient by MAD or its UR contractor, the MAP eligible recipient may file as a claimant to request a HSD administrative hearing.

(3) When an adverse action is taken or intended to be taken against a member by his or her MCO, and the member has exhausted his or her MCO's appeal process, he or she may file as a claimant to request a HSD administrative hearing.

B. A claimant or the claimant's authorized representative may have legal counsel assist him or her during the MCO appeal and HSD administrative hearing process. If a claimant or the claimant's authorized representative, MAD, its UR contractor or the MCO retains legal counsel, that legal counsel must submit an entry of appearance to the assigned ALJ and the ALJ will forward this information to the MAD administrative hearings unit (MAD AHU).

[8.352.2.9 NMAC - Rp, 8.352.2.9 NMAC, 6-15-14]

8.352.2.10 ADVERSE ACTION:

The following constitute an adverse action for which an individual may request a MCO appeal and a HSD administrative hearing.

A. The denial or reduction by MAD, its UR contractor, or a MCO of an authorized service or item, including level of care (with the exception of a MCO value-added service).

B. When a notice of action against a member is not from his or her MCO, but instead is from an entity MAD has authorized to make utilization of service determinations, the member may request a HSD administrative hearing rather than request a MCO appeal.

C. The denial in whole or in part of an individual's provider claim by MAD, its UR contractor, or the MCO which results in the individual becoming liable for payment of all or part of the claim when the denial is based on medical necessity.

D. The failure of MAD, its UR contractor or the MCO to approve a service or item in a timely manner.

E. The failure of the MCO to act on an appeal within the time-frames specified in 42 CFR Section 438.408(b).

F. The MCO's final decision to deny a member a MCO expedited appeal hearing. The HSD administrative hearing will only address the member's request for a MCO expedited appeal hearing.

G. The denial of an individual's application for MAP enrollment.

H. A determination that an individual is to be transferred or discharged.

I. The belief of an individual or the individual's authorized representative that the MAD UR contractor or the MCO's preadmission, change in condition, or annual resident review (PASRR) requirements determination is erroneous. When a claimant requests a HSD administrative hearing due to an adverse PASRR determination, the parties to the hearing will comply with 8.354.2 NMAC in place of this rule.

[8.352.2.10 NMAC - Rp, 8.352.2.10 NMAC, 6-15-14]

8.352.2.11 RIGHT TO A HSD ADMINISTRATIVE HEARING:

MAD must grant an individual or his or her authorized representative the opportunity for a HSD administrative hearing under specific circumstances pursuant to 42 CFR Section 431.220(a) and 27-3-3 NMSA 1978. A HSD administrative hearing occurs telephonically between the parties to the hearing and the assigned ALJ.

A. An individual or the individual's authorized representative may request a HSD administrative hearing based on his or her belief that MAD or its UR contractor intends to take, or has taken, an adverse action.

B. A member shall have the right to request a HSD administrative hearing after he or she has exhausted the MCO's appeal process and:

(1) the member does not agree with the MCO's final decision;

(2) the member requests an HSD administrative hearing within 30 calendar days of the date of the MCO's final decision; and

(3) the basis for the member's request for an HSD administrative hearing meets one of the definitions of an adverse action in Section 10 of this rule.

C. MAD, its UR contractor or the MCO will not be responsible for any fees or costs, incurred by the individual or his or her authorized representative as a result of a MCO appeal or a HSD administrative hearing, or if he or she files an appeal of the HSD administrative hearing final decision to a New Mexico district court.

[8.352.2.11 NMAC - Rp, 8.352.2.11 NMAC, 6-15-14]

8.352.2.12 NOTICE, TIME LIMITS, POSTPONEMENT, OR THE DISMISSAL OF MCO APPEAL OR A HSD ADMINISTRATIVE HEARING REQUEST:

A. **Notice:**

(1) MAD or its UR contractor shall issue a"notice of action" to an individual when it intends to take an adverse action against an individual. When the notice of action relates to a reduction or termination of a service, LOC, or another benefit the individual already receives, the notice of action shall be sent not less than 10 calendar days prior to the date of MAD's or its UR contractor's intended adverse action.

(2) The MCO appeal process is governed by and set forth in detail in 8.308.15 NMAC.

B. **Exceptions to a notice of action:** Notwithstanding the notice requirement set forth in the preceding subsection, MAD, its UR contractor or the MCO may mail a notice of action to the individual or the individual's authorized representative or estate (in the event of an individual's death) no later than the actual date of the intended adverse action when:

(1) MAD, its UR contractor or the MCO has confirmed the death of the individual;

(2) MAD, its UR contractor or the MCO has received a clear written statement signed by the individual or the individual's authorized representative that all or a portion of an authorized service is no longer wanted;

(3) the individual or the individual's authorized representative provides information to MAD, its UR contractor or the MCO that indicates his or her understanding that such information may require MAD, its UR contractor or the MCO to take the adverse action;

(4) MAD, its UR contractor or the MCO learns the individual is residing in an institution, which renders the individual ineligible for MAP enrollment and MAD services;

(5) MAD, its UR contractor or the MCO cannot determine the physical location of either the individual, or if designated, his or her authorized representative;

(6) MAD, its UR contractor or the MCO has established that the individual has been accepted for medicaid services outside of the state; or

(7) the primary care provider for the individual has prescribed a change in his or her LOC.

C. **Time limits:** An individual or his or her authorized representative must adhere to the time limits for requesting both a continuation of a benefit and a HSD administrative hearing.

(1) Requesting a HSD administrative hearing: an individual who is not enrolled in a MCO has 90 calendar days from the date of the"notice of action" to request a HSD administrative hearing. To be considered timely, the request must be received by FHB, the individual's local income support division (ISD) office or by the MAD director's office no later than the close of business on the 90th calendar day immediately following the date of the notice of action. If the request for a HSD administrative hearing is mailed by the individual, the request must be postmarked by the 90th calendar day from the date of the notice of action. For a member of a MCO, see 8.308.15 NMAC for detailed description of the MCO appeal process.

(2) Continuation of a benefit:

(a) An individual who is not a member of a MCO, may request that the benefit that is the subject of an adverse action continue while his or her HSD administrative hearing proceeds. A request for a continuation of the benefit shall be accorded to any claimant who requests the continuation within 10 calendar days of the mailing of the notice of action by MAD or its UR contractor. The continuation of a benefit is only available to an individual that is currently receiving the appealed benefit and will be the same as the individual's current allocation, budget or LOC. MAD or its UR contractor must provide information in its notice of action of an individual's rights and limitations to continue a benefit during his or her HSD administrative hearing process and of the responsibility to repay MAD for the continued benefit if the HSD administrative hearing final decision is against the individual.

(b) A member of a MCO must follow his or her MCO appeal process. The member may request the benefit that is the subject of an adverse action continue while his or her MCO appeal process proceeds. A request for a continuation of a benefit shall be accorded to any member who requests the continuation within 10 calendar days of his or her MCO's mailing of the notice of action. The continuation of a benefit is only available to a member that is currently receiving the appealed benefit. The continuation of the benefit will be the same as the member's current allocation, budget or LOC. The MCO must provide information in its notice of action of a member's rights and limitations to continue a benefit during his or her MCO appeal process and of the responsibility to repay the MCO for the continued benefit if the MCO final appeal decision is against a member and, if the member requests a HSD administrative hearing, its final decision is also against the member as a claimant. The MCO appeal process is outlined in 8.308.15 NMAC.

(3) For a member who is enrolled in a MCO and who is dissatisfied with the MCO's final appeal process, the time limit to request a HSD administrative hearing is 30 calendar days following the MCO's final decision of his or her appeal.

(a) Upon requesting a HSD administrative hearing within this time limit, the member is referred to as the claimant and is governed by the remaining sections of this rule.

(b) If the member had a continuation of his or her benefit during the MCO appeal process, the claimant automatically maintains his or her continuation of the benefit throughout the remaining HSD administrative hearing process. If the claimant or the claimant's authorized representative opts to discontinue his or her benefit during the HSD administrative hearing process, the claimant or the claimant's authorized representative must contact the MCO to end services.

(4) The HSD administrative hearing is concluded within 90 calendar days from the date the claimant or the claimant's authorized representative requests a HSD administrative hearing unless the claimant or the claimant's authorized representative agrees to extend the HSD administrative hearing time frame in order to facilitate the process.

D. **Dismissal of a hearings request:** HSD authorizes FHB to issue a dismissal of a claimant or member's request for a HSD administrative hearing when:

(1) the request is not received within the time periods specified in the rules and notice of action, or if the claimant is a MCO member and the member has not followed or exhausted the appeal process available under the MCO;

(2) the request is withdrawn or cancelled in writing by the individual or the individual's authorized representative;

(3) the sole issue presented concerns a federal or state statue, regulation or rule requiring an adjustment of benefits for all or certain classes of individuals, including, but not limited to, a termination, modification, reduction, or suspension of a service;

(4) the same issue involving the individual has already been subject to a final decision by the MAD director following a HSD administrative hearing;

(5) the sole issue presented is regarding a New Mexico administrative code (NMAC) rule rather than the application of the rule to the claimant or the member; or

(6) the claimant, the member, or the authorized representative fails to appear telephonically or in person at a scheduled hearing without good cause at which time a HSD administrative hearing may be considered abandoned and therefore dismissed. However, if the claimant or the claimant's authorized representative presents to the ALJ good cause for failure to appear within 10 calendar days after the date of the scheduled HSD administrative hearing, the HSD administrative hearing may be rescheduled. Good cause includes a death in the family, a disabling personal illness or another significant emergency or at the discretion of the ALJ, as appropriate, another exceptional circumstance. If the ALJ determines that the claimant or the claimant's authorized

representative has shown good cause, the HSD administrative hearing will be rescheduled.

(7) When an ALJ dismisses a claimant's request for a HSD administrative hearing, that decision becomes HSD's administrative hearing final decision. A claimant may elect to then file a state district court judicial appeal.

[8.352.2.12 NMAC - Rp, 8.352.2.13 NMAC, 6-15-14]

8.352.2.13 SCHEDULING OF A HSD ADMINISTRATIVE HEARING:

A. **Scheduling:** The ALJ will assign a date for a HSD administrative hearing that affords the MAD director the opportunity to render his or her HSD administrative hearing final decision within the 90 calendar day time limit. The claimant or the claimant's authorized representative must agree via a recorded message to the assigned ALJ or in writing to the assigned ALJ to extend the 90 calendar day time limit up to an additional 30 calendar days to provide the necessary time for the HSD administrative hearing to be conducted and a final decision rendered. The ALJ has the authority on a case-by-case basis to extent the 90-calendar day time limit to more than 30-calendar days when the claimant or the claimant's authorized representative requests such an extension in writing. If an accommodation is necessary for a disability, the claimant or the claimant's authorized representative must notify FHB at least 10 calendar days prior to the HSD administrative hearing.

B. **Rescheduling:** Any party to a HSD administrative hearing may request, and is entitled to receive, one postponement of a HSD administrative hearing, as long as it does not interfere with the HSD administrative hearing final decision time frames.

(1) A request for more than one postponement is at the ALJ's discretion on a case-by-case basis.

(2) The claimant or the claimant's authorized representative must agree to allow the ALJ to extend the 90 calendar day time limit up to an additional 30 calendar days to provide the necessary time for the HSD administrative hearing to be conducted and a final decision rendered.

C. **Expedited HSD administrative hearing:** Any party may request an expedited HSD administrative hearing in cases involving a claimant's health, safety, or service availability issues. The request must be made in writing to the claimant's assigned ALJ. The request must state in detail the reasons why an expedited HSD administrative hearing is necessary. The granting of an expedited HSD administrative hearing is at the discretion of the ALJ.

D. **Group hearing:** An ALJ may respond to a series of individual claimant or the claimant's authorized representative requests for HSD administrative hearings by conducting a single group hearing. In all group hearings, the rules governing an

individual HSD administrative hearing are followed. Each claimant or the claimant's authorized representative is permitted to present his or her own case. If a group hearing is arranged, any claimant or a claimant's authorized representative has the right to withdraw from the group hearing in favor of an individual HSD administrative hearing.

[8.352.2.13 NMAC - Rp, 8.352.2.15 NMAC, 6-15-14]

8.352.2.14 SUMMARY OF EVIDENCE (SOE):

A. **Summary of evidence.**

(1) At a HSD administrative hearing, MAD has the burden to prove through the preponderance of the evidence that an adverse action against a claimant is correct. A summary of evidence (SOE) provides information concerning the basis of MAD, its UR contractor or the MCO's adverse action. MAD may have its designee complete an SOE for final review by MAD; however, MAD is ultimately responsible for the submission of its SOE. An SOE is submitted by MAD to the ALJ and claimant or the claimant's authorized representative within specified timeframes.

(2) A claimant or the claimant's authorized representative may submit an SOE to provide the ALJ with information to refute MAD's SOE. A claimant or the claimant's authorized representative is not required to provide a SOE, as the burden of proof falls on MAD.

(3) The MAD SOE shall, at a minimum, contain:

(a) the claimant's name, and as applicable, his or her authorized representative's or legal counsel's telephone number and address, and the status of any previous or concurrent appeal through his or her MCO or MAD UR contractor;

(b) the adverse action against the claimant;

(c) the documentation supporting MAD, its UR contractor, or the MCO basis for the intended or taken adverse action; and

(d) any applicable federal or state statutes, regulations, rules or any combination of these; however, that a failure by MAD, the UR contractor or a MCO to submit an applicable statute, regulation or rule shall not constitute per se grounds for the ALJ to find that MAD, the UR contractor or the MCO failed to meet its burden of proof.

B. **Timeframes.**

(1) The HSD administrative hearing.

(a) MAD's SOE shall be delivered to the ALJ and the parties to the HSD administrative hearing at least 10 working days prior to the HSD administrative hearing.

(b) MAD's SOE may be amended by MAD at any point prior to the HSD administrative hearing if the ALJ and the claimant or the claimant's authorized representative is delivered copies of the amended SOE at least two working days prior to the HSD administrative hearing. MAD is responsible for providing its UR contractor or MCO the amended SOE.

(c) If the claimant or his or her authorized representative has an SOE that he or she wants entered into evidence for the HSD administrative hearing, he or she must provide the ALJ the SOE not less than three working days prior to the HSD administrative hearing. The ALJ will provide MAD AHU with a copy of the claimant's SOE within one working day of its receipt. The MAD AHU will provide a copy of the SOE to either its UR contractor or the MCO within one working day of its receipt.

(d) If the claimant or the claimant's authorized representative has an amendment to his or her SOE, he or she shall follow the process in Subparagraph (c) of Paragraph (1) of Subsection B of this section.

(2) The failure of MAD to provide its SOE in a timely manner may, at the ALJ's discretion result in its exclusion or a postponement of the HSD administrative hearing charged against MAD.

(3) If the claimant or the claimant's authorized representative fails to provide the assigned ALJ a SOE or any amendments to the SOE within the specified timeframes, and the claimant or the claimant's authorized representative wishes to submit such documents for consideration at the HSD administrative hearing, the claimant or the claimant's authorized representative will utilize his or her one allowed postponement opportunity in which to submit the SOE or any amendments to the ALJ. The ALJ will follow the process in Subparagraph (b) of Paragraph (1) of Subsection B of this section for the disbursement of the amended SOE.

C. **Availability of information to the claimant or the claimant's representative:** MAD, its UR contractor or the MCO shall:

(1) provide upon request to the claimant or his or her authorized representative, any document in its possession concerning its adverse action against the claimant that is not already in its SOE;

(2) provide the claimant or the claimant's authorized representative the requested documents; such documents will be provided by MAD, its UR contractor or MCO to the claimant or the claimant's authorized representative in a timely manner and without charge.

D. No party to a HSD administrative hearing may present into evidence, as part of an amended SOE, any document or record that any other party of the hearing has not received at least two working days prior to the HSD administrative hearing. The ALJ will not take such information into consideration when reaching his or her recommendation.

[8.352.2.14 NMAC - Rp, 8.352.2.16 NMAC, 6-15-14]

8.352.2.15 ADMINISTRATIVE HEARING STANDARDS:

A. **Administrative law judge.**

(1) A HSD administrative hearing is conducted by an impartial official who:

(a) does not have any personal stake or involvement in the case; and

(b) was not involved in the determination or the action which is being contested; if the ALJ had any involvement with the action in question, including giving advice or consultation on the points at issue, or is personally related in any relevant degree to the parties, the ALJ must disqualify his or herself as the assigned ALJ for that case.

(2) In conducting a HSD administrative hearing, the ALJ must:

(a) explain how the HSD administrative hearing will be conducted to participants at the start of the hearing, before administering oaths;

(b) administer oaths and affirmations;

(c) request, receive, and make part of the record all evidence that has been provided to each party within the required time-frames that the ALJ considers necessary to decide the issues raised;

(d) regulate the conduct and the course of the HSD administrative hearing to ensure an orderly HSD administrative hearing;

(e) request, if appropriate, an independent physical or behavioral health assessment or a professional evaluation from a source mutually satisfactory to the parties at no cost to the claimant; and

(f) produce the ALJ HSD administrative hearing report that includes findings of fact and recommendations for the MAD director’s consideration.

(3) Appointment of the ALJ: the ALJ is appointed by FHB upon receipt of the request for a HSD administrative hearing. The ALJ will be copied on all written communications between the parties to HSD administrative hearing to ensure all parties

are free of undue influence and receive written notices and documents within the required time-frames.

B. **Record of the hearing:** A HSD administrative hearing is digitally recorded. The digital recording, findings of fact, SOEs and any amendments, pleadings, documents, NMAC rules, other relevant statutes or other exhibits admitted into evidence, as well as the ALJ's recommendations will be available to the parties for one calendar year following the HSD administrative hearing final decision. These items are referred to as the record of the HSD administrative hearing. Parties to the HSD administrative hearing may request one copy of the record without charge. Subsequent copies will be charged at a pre-determined rate set by HSD.

C. **Rights at an administrative hearing:** A claimant or the claimant's authorized representative will provide the assigned ALJ a signed release-of-information in order for a designated spokesperson to assist or represent the claimant or the claimant's authorized representative in presenting the claimant's case at a HSD administrative hearing. If the claimant or the claimant's authorized representative, MAD, its UR contractor or MCO have retained legal counsel, that legal counsel will submit a notice appearance to the assigned ALJ and the ALJ will forward this information to the MAD administrative hearings unit (MAD AHU). The parties are given an opportunity to:

(1) call witnesses to present information relevant to the case;

(2) submit evidence to establish all pertinent facts and circumstances in the case;

(3) advance arguments without undue interference; and

(4) question or contradict any testimony or evidence, including an opportunity to confront and cross-examine opposing witnesses.

D. **Evidence and procedure:** Formal rules of evidence and civil procedure do not apply to a HSD administrative hearing. A free, orderly exchange of relevant information is necessary for the decision-making process.

(1) Admissibility: all relevant evidence is admissible subject to the ALJ's authority to limit repetitive, scandalous or unduly cumulative evidence and his or her ability to conduct an orderly HSD administrative hearing. The ALJ must admit evidence that is relevant to the intended or taken adverse action by MAD, its UR contractor, or the MCO.

(2) Confidentiality: the confidentiality of records is to be maintained;

(3) Information not entered in the hearing record: information which is not presented during the HSD administrative hearing in the presence of the claimant or the

claimant's authorized representative, MAD, its UR contractor, or the MCO may not be used by the ALJ in making his or her record of fact finding and recommendation.

(4) Administrative notice: the ALJ may take administrative notice of any matter in which courts of this state may take judicial notice.

(5) Privilege: the rules of privilege apply to the extent that they are required to be recognized in civil actions in the district courts of New Mexico.

(6) Medical issues: in a case involving physical or behavioral health issues, the parties may submit expert testimony, reports, affidavits or health care records into evidence as necessary. Admission of this evidence is at the discretion of the ALJ and must meet the SOE time-frames for submission. All parties of the HSD administrative hearing have the right to examine any documents which may influence the HSD administrative hearing final decision.

[8.352.2.15 NMAC - Rp, 8.352.2.17 NMAC, 6-15-14]

8.352.2.16 CONDUCTING THE HSD ADMINISTRATIVE HEARING:

A HSD administrative hearing is conducted in an orderly manner and in an informal atmosphere. The HSD administrative hearing is normally conducted telephonically and is not open to the general public. The assigned ALJ has the authority to limit the number of persons in attendance as necessary for the ALJ to control the hearing.

A. **Opening the hearing:** The HSD administrative hearing is opened by the assigned ALJ. All individuals present at the hearing must identify themselves for the record, including when the claimant or the claimant's authorized representative has other representation or legal counsel to assist him or her during the HSD administrative hearing. The ALJ shall explain his or her role in conducting the HSD administrative hearing that he or she will submit the record of the HSD administrative hearing to the MAD director and that the final decision of the HSD administrative hearing will be made by the MAD director or designee after review of the record of the HSD administrative hearing.

B. **Order of testimony:** The order of testimony is described, and the oath is administered to all who will testify at the HSD administrative hearing. Because the burden of proof is with MAD, it is at the claimant or the claimant's authorized representative's discretion to call witnesses or to present evidence. The order of testimony at the HSD administrative hearing is as follows:

(1) opening statements of parties, authorized representatives, or designees, or if the claimant or the claimant's authorized representative through a signed statement has identified a designated spokesperson or legal counsel to assist him or her during the HSD administrative hearing process;

(2) presentation of MAD's case; if witnesses are called, the order of examination of each witness is:

(a) examination by MAD, its UR contractor, the MCO, or another MAD designee;

(b) cross examination by the claimant, the claimant's authorized representative, designated spokesperson, or his or her legal counsel; and

(c) MAD's opportunity to redirect the witness;

(3) presentation of the claimant's case is at the claimant or the claimant's authorized representative discretion, if witnesses are called, the order of examination of each witness is:

(a) examination by claimant or the claimant's authorized representative, designated spokesperson or legal counsel;

(b) cross examination by MAD, its UR contractor, the MCO or another MAD designee; and

(c) the claimant, claimant's authorized representative or designated spokesperson, or legal counsel's opportunity to redirect the witness;

(4) presentation of rebuttal evidence by MAD, its UR contractor, the MCO or another designee and the claimant or the claimant's authorized representative, designated spokesperson or legal counsel respectively;

(5) the ALJ may direct further questions to any of the parties to the HSD administrative hearing to clarify inconsistencies or obtain an adequate evidentiary record; and

(6) the ALJ may ask specific parties to summarize and present closing arguments.

C. **Points of law:** The ALJ may direct the parties who have legal counsel to submit memoranda on points of law to assist the ALJ develop the HSD administrative hearing record and recommendation letter. The ALJ may dictate the length and scope of these submissions.

D. **Written closing argument:** At the discretion of the ALJ, the parties may be directed to make closing arguments, or submit written memoranda on points of law.

E. **Continuance:** The ALJ may, at his or her discretion, continue the HSD administrative hearing upon the request of the parties to the HSD administrative hearing or the ALJ's own motion, to allow for the admission of additional testimony or evidence.

The reasons for the continuance must be clearly stated for the record. Written notice of the date, time, and place of the continued HSD administrative hearing shall be sent to the parties if they are not set at the time of the approval of the continuance.

F. **Additional evidence:** If the ALJ requires additional evidence to further clarify documentary evidence presented during the HSD administrative hearing, he or she may close the HSD administrative hearing but keep the record open and direct the parties to submit such clarifying evidence. The assigned ALJ shall provide each party to the HSD administrative hearing with a copy of the direction for further evidence and the documentary evidence to be submitted. Any party may respond to the ALJ's direction, in writing, within 10 calendar days of its receipt of the ALJ's notice. The ALJ will provide the other parties to the HSD administrative hearing a copy of any such submissions and the additional evidence and responses, subject to the ALJ's discretion and appropriate objections by any of the parties to the HSD administrative hearing, shall become part of the HSD administrative hearing record.

G. **Re-opening a closed HSD administrative hearing:** The ALJ, at his or her discretion or subject to an order from a court of competent jurisdiction, may re-open a closed HSD administrative hearing when the evidentiary record fails to address an issue that is relevant to resolution of the HSD administrative hearing request. Written notice of the date, time and place of the re-opened HSD administrative hearing shall be sent by the ALJ to the parties not less than 10 calendar days before the re-opened HSD administrative hearing. Once the MAD director or designee has issued a HSD administrative final decision, the HSD administrative hearing cannot be re-opened absent an order from a court of competent jurisdiction. A claimant or the claimant's authorized representative may request a new HSD administrative hearing if additional material information becomes available that was not available at the time of the first HSD administrative hearing. The previously assigned ALJ has the discretion to determine if the additional information would necessitate a new HSD administrative hearing.

[8.352.2.16 NMAC - Rp, 8.352.2.18 NMAC, 6-15-14]

8.352.2.17 HSD ADMINISTRATIVE HEARING FINAL DECISION:

The final decision concerning the HSD administrative hearing is made by the MAD director or designee after the review of the HSD administrative hearing record and the ALJ's recommendation. If the ALJ had rendered a decision to dismiss a HSD administrative hearing request, that decision becomes the HSD administrative hearing final decision and the following process detailed in this section of the rule does not apply.

A. **Decision based on the record:** The ALJ's HSD administrative hearing recommendation must be based solely on the record of the HSD administrative hearing.

B. **ALJ recommendation:** The ALJ shall review the record of the HSD administrative hearing and submit a complete copy of the record to the MAD director.

(1) Content of the ALJ recommendation: the ALJ shall specify the reasons for his or her conclusions, identifies the supporting evidence, references the pertinent federal and state statutes, regulations, and NMAC rules, and responds to the arguments of the parties within his or her written report.

(2) The ALJ recommends:

(a) in favor of the claimant if MAD, its UR contractor or the MCO's intended or taken adverse action is not supported by a preponderance of the evidence submitted during the HSD administrative hearing. The ALJ will provide specific recommendations to each appealed adverse action;

(b) in favor of MAD, if the preponderance of evidence submitted during the HSD administrative hearing supports the intended or taken of adverse action or actions; or

(c) any other result supported by the record of the HSD administrative hearing which may be a combination of recommendations for and against the claimant or MAD. If the HSD administrative hearing covered a number of services or components of a service, the ALJ will provide specific recommendations to each intended or taken adverse action.

C. **Review of the record:** The record of the HSD administrative hearing and the report and recommendation of the ALJ is reviewed by the MAD director or designee to ensure conformity with applicable federal and state statutes, regulations, and rules.

D. **Final decision:** The ALJ’s recommendation may be adopted or rejected in a final written decision by the MAD director or designee on issues that were the subject of the HSD administrative hearing. The MAD director’s final decision letter shall specify the reasons for his or her decision and identify the regulatory authority and those portions of the record, applicable federal and state law, rules and policies or any combination of these that support the final decision. No person who participated during the HSD administrative hearing process may participate in arriving at a HSD administrative hearing final decision.

E. **Notice to parties:** MAD shall promptly provide all parties with a copy of the HSD administrative hearing final written decision. When the claimant is represented by legal counsel or an authorized representative, each must receive a copy of the final decision. The HSD administrative hearing final decision letter shall include an explanation that the parties have exhausted all HSD administrative remedies and a claimant or the claimant’s authorized representative may pursue judicial review of this decision.

[8.352.2.17 NMAC - Rp, 8.352.2.19 NMAC, 6-15-14]

8.352.2.18 CONTINUATION OF BENEFITS PURSUANT TO A TIMELY APPEAL AND A HSD ADMINISTRATIVE HEARING PROCEEDING:

A continuation of an existing benefit is provided to a claimant who is not a member of a MCO when the claimant requests a continuation of the benefit through MAD or its UR contractor as directed on the claimant's notice of action within 10 calendar days of the mailing of the MAD or its UR contractor's notice of action. A continuation of the benefit is provided to a member who requests a continuation of the benefit through his or her MCO within 10 calendar days of the mailing of the MCO's notice of action. The MAD, its UR contractor or the MCO's notice of action will include information on the rights to the continued benefit and on the claimant or member's responsibility for repayment if the MCO final appeal decision and, as applicable, the HSD administrative hearing decision is not in his or her favor. The continuation of a benefit is only available to a member or claimant that is currently receiving the appealed benefit. The continuation of the benefit will be the same as the member or claimant's current allocation, budget or LOC.

[8.352.2.18 NMAC - Rp, 8.352.2.20 NMAC, 6-15-14]

8.352.2.19 IMPLEMENTATION OF THE HSD ADMINISTRATIVE FINAL DECISION:

The HSD administrative hearing final decision is binding on all issues that have been the subject of the HSD administrative hearing as to the claimant unless stayed by either a court order or by the MAD director or designee. MAD is responsible for ensuring that the HSD administrative hearing final decision is fulfilled.

A. If the claimant is a member and he or she received a benefit under his or her approved continuation of the benefit and the decision is favorable to the MCO, the claimant's MCO will take action to file a repayment claim to the claimant or the claimant's authorized representative for the services received during the MCO appeal and the HSD administrative hearing process up to the date of the HSD administrative hearing final decision. The claimant is responsible for repayment to his or her MCO the amount of paid claims for the continuation of the benefit beginning on the first date of service of the claimant's approved continuation of the benefit up to and including the date of the HSD administrative hearing final decision. The claimant's MCO is charged with the collection of this amount. The repayment amount must be used by the claimant's MCO to benefit its members.

B. If the claimant is not enrolled in a MCO and the HSD administrative hearing final decision is favorable to MAD or its UR contractor, MAD will take action to file a repayment claim to the claimant or the claimant's authorized representative for the services received during the HSD administrative hearing process up to the date of the HSD administrative hearing final decision.

C. When the HSD administrative hearing final decision is favorable to the claimant, MAD, its UR contractor or MCO will authorize the benefit and coverage set forth in the HSD administrative hearing final decision.

D. A request for a HSD administrative hearing concerning the MAD or MCO repayment claim is limited to alleging errors in how the repayment amount was determined. The HSD final administrative hearing decision serves as the claimant's notice of action from either the MCO or MAD to start collection proceedings.

[8.352.2.19 NMAC - Rp, 8.352.2.21 NMAC, 6-15-14]

8.352.2.20 JUDICIAL APPEAL:

If the HSD administrative hearing final decision upholds MAD, its UR contractor or the MCO's intended or taken adverse action, the claimant or the claimant's authorized representative has the right to pursue judicial review of the HSD administrative hearing final decision and is notified of that right in the HSD administrative final decision letter. Judicial appeals for the HSD administrative hearing final decision are governed by New Mexico statutes and court rules. While the following subsections highlight applicable procedures, they should not be considered a substitute for examining the statutes and rules themselves.

A. **Jurisdiction:** Administrative appeals for a claimant are governed by the Section 39-3-1.1 NMSA 1978 and by Rule 1-074, Rules of Civil Procedures for the District Courts.

B. **Timeliness:** Unless otherwise provided by law, a claimant or the claimant's authorized representative must appeal the HSD administrative hearing final decision within 30 calendar days of the date of the HSD administrative hearing final decision by filing a notice of appeal with the clerk of the appropriate New Mexico district court.

C. **Jurisdiction and standard of review:** All judicial appeals are based on the record made at the HSD administrative hearing, and in accordance with state statute and court rules. HSD files a copy of the HSD administrative hearing record with the court clerk and furnishes one copy to the claimant or the claimant's authorized representative and if applicable, his or her legal counsel within 30 calendar days after receipt of the notice of appeal. The court may set aside the HSD administrative hearing final decision if it finds the decision is:

(1) arbitrary, capricious, or an abuse of discretion;

(2) is not supported by substantial evidence in the record as a whole; or

(3) is otherwise not in accordance with the applicable law, statutes or rules.

D. **Benefits pending state district court appeal:** The filing of a notice of appeal shall not stay the enforcement of the HSD administrative hearing final decision. The claimant or the claimant's authorized representative may seek a stay upon a motion to the court or the claimant may request the MAD director or designee to stay the HSD administrative hearing final decision while the adverse action is on appeal in a New

Mexico district court. If the court orders a stay, MAD, it UR contractor or the MCO will maintain the benefit at issue in accordance with the state district court's order. If the New Mexico district court's final decision is in favor of MAD, its UR contractor or the MCO and the claimant continued utilizing his or her benefit during the district court appeal process, see 8.352.2.19 NMAC for the repayment process.

[8.352.2.20 NMAC - Rp, 8.352.2.22 NMAC, 6-15-14]

PART 3: PROVIDER HEARINGS

8.352.3.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.352.3.1 NMAC - N, 1/1/2014; A, 7/1/2024]

8.352.3.2 SCOPE:

The rule applies to the general public.

[8.352.3.2 NMAC - N, 1-1-14]

8.352.3.3 STATUTORY AUTHORITY:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See NMSA 1978, Section 27-2-12 et seq. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.352.3.3 NMAC - N, 1/1/2014; A, 7/1/2024]

8.352.3.4 DURATION:

Permanent.

[8.352.3.4 NMAC - N, 1-1-14]

8.352.3.5 EFFECTIVE DATE:

January 1, 2014, unless a later date is cited at the end of a section.

[8.352.3.5 NMAC - N, 1-1-14]

8.352.3.6 OBJECTIVE:

The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs (MAP).

[8.352.3.6 NMAC - N, 1-1-14]

8.352.3.7 DEFINITIONS:

[RESERVED]

8.352.3.8 MISSION STATEMENT:

To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.

[8.352.3.8 NMAC - N, 1-1-14]

8.352.3.9 PROVIDER ADMINISTRATIVE HEARINGS:

With the exception of referrals for credible allegations of fraud, HSD has established a hearing process for MAD fee-for-service (FFS) providers who disagree with its decision concerning his or her participation as a MAD provider, recoupment of overpayments due to a provider billing error, and the imposition of MAD sanctions. For the provider administrative hearing process concerning decisions on noncompliance with nursing facility (NF) or intermediate care facility for individuals with intellectual disabilities (ICF-IID) provider certification requirements also see hearing regulations promulgated by the department of health (DOH) and specific MAD New Mexico administrative code (NMAC) rules applicable to the provider. See 8.311.3 NMAC, 8.312.2 NMAC, and 8.313.3 NMAC for a detailed description of the appeals process for audit settlements. See 8.308.14 NMAC for a detailed description of the grievance and appeal process for resolving provider disputes between a HSD contracted managed care organization (MCO) and its contractor or subcontractor. For applicable rules for services and items provided through a MAD coordinated service contractor, see 8.349.2 NMAC.

A. **Provider administrative hearing rights:** The right to a provider administrative hearing includes the right to:

(1) be advised of the nature and availability of a provider administrative hearing;

(2) be represented by his or her authorized representative or legal counsel;

(3) have a provider administrative hearing which safeguards the provider's opportunity to present a case;

(4) have prompt notice and implementation of the final provider administrative hearing decision; and

(5) be advised that judicial review may be invoked to the extent such review is available under state law.

B. **Notice of rights:** Upon enrollment, a MAD provider receives written notice of provider administrative hearing rights along with any MAD action notice concerning provider participation agreement (PPA) termination, recoupment of overpayment due to provider billing error, or notice of sanction. This information includes a description of the method by which a provider administrative hearing may be requested and a statement that the provider's presentation may be made by the provider or by his or her authorized representative or legal counsel.

[8.352.3.9 NMAC - N, 1-1-14]

8.352.3.10 INITIATION OF FFS PROVIDER ADMINISTRATIVE HEARING PROCESS:

A. **Notice:** When applicable, the provider administrative hearing process is initiated by a provider's request for hearing made in response to a MAD action notice. See Section 8.351.2 NMAC for a detailed description of notice requirements when the action is a MAD sanction.

B. **Time limits:** A MAD FFS provider has 30 calendar days from the date of the MAD action notice to request a provider administrative hearing. To be considered timely, the request must be received by the HSD fair hearings bureau (FHB) no later than the close of business of the 30th day. Provider administrative hearings are conducted and a written decision is issued by the MAD director or designee to the provider within 120 calendar days from the date the FHB receives the provider administrative hearing request, unless the parties otherwise agree to an extension. See 8.351.2 NMAC for information concerning time limits when the action is a MAD sanction. The right to request a stay is cited in 8.351.2.15 NMAC.

C. **Scope and limits on provider administrative hearings:**

(1) A provider administrative hearing is available to all MAD FFS providers, including providers applying for electronic health record incentive payments, who submit a request in accordance with all sections of this rule. A provider can request a hearing if:

(a) his or her PPA or renewal of his or her PPA is denied;

(b) the provider's MAD participation is suspended or terminated;

(c) the provider disagrees with a decision of MAD or its designee with respect to recovery of overpayments due to provider billing error including incorrect billing, or

lack of documentation to support the medical necessity of a service, or that the service was provided, or imposition of a sanction or other remedy, with the exception of a temporary payment suspension for credible allegations of fraud; or

(d) the provider believes the requirements for timely filing of a claim as stated in 8.302.2 NMAC were met but a decision by MAD has been made that the timely filing requirements were not met.

(2) **Denial or dismissal of request for provider administrative hearing:** The assigned fair hearing FHB's administrative law judge (ALJ) may recommend to the MAD director in writing to deny or dismiss a provider's request for an administrative hearing when:

(a) the request is not received within the time period stated in the notice;

(b) the request is withdrawn or canceled in writing by the provider, the provider's authorized representative or legal counsel;

(c) the sole issue presented concerns a federal or state statute, regulation or rule which requires an adjustment of compensation for all or certain classes of FFS providers or services unless the reason for the provider administrative hearing request involves an alleged error in the computation of a provider's compensation;

(d) the provider fails to appear at a scheduled provider administrative hearing without good cause; a request for a provider administrative hearing may be considered abandoned and therefore dismissed if the provider, his or her authorized representative or legal counsel fails to appear at the time and place of the hearing, unless, within 10 calendar days after the date of the scheduled provider administrative hearing, the provider presents good cause for failure to appear; good cause includes death in the family, disabling personal illness, or other significant emergencies; at the discretion of the ALJ, other exceptional circumstances may be considered good cause;

(e) the same issue has already been appealed or decided upon as to this provider and fact situation;

(f) the matter presented for the provider administrative hearing is outside the scope of issues which are subject to the HSD provider administrative hearing process;

(g) the sole issue presented concerns a HSD contracted MCO or its subcontractor's utilization management decision, such as a decision to terminate, suspend, reduce, or deny services to its member, untimely utilization review, and provider payment issues raised by the MCO or its subcontractor; or

(h) the sole issue presented is regarding a MAD New Mexico administrative code (NMAC) rule rather than the application of the MAD NMAC rule to that provider.

D. **Method:** A request for a provider administrative hearing must be made in writing and must identify the provider and the one or more of the actions stated in Subsection C above.

E. **Acknowledgment of request:** The FHB sends acknowledgment of its receipt of a provider administrative hearing request to the provider in writing, as well as sends an electronic copy via email to the MAD designated administrative hearing staff.

[8.352.3.10 NMAC - N, 1-1-14]

8.352.3.11 PRE-HEARING PROCEDURE:

A. **Notice of hearing:** Not less than 30 calendar days before the provider administrative hearing, written notice is given to all parties involved of the time, date, and place of the hearing. If an accommodation is necessary, the party must notify the assigned ALJ at least 10 calendar days prior to the hearing. The FHB includes in its written notice to the provider an explanation of the HSD provider administrative hearing process and procedures, and informs the provider HSD does not pay fees or costs incurred by the provider as a result of the provider administrative hearing or district court appeals of the final HSD provider administrative hearing decision.

B. **Postponement:** A provider may request, and is entitled to receive, one postponement of the scheduled provider administrative hearing, as long as it does not interfere with the 120 calendar day timeframe. Requests for more than one postponement are considered on a case-by-case basis at the ALJ's discretion.

C. **Expedited hearing:** The parties may request an expedited hearing in cases involving a medical assistance program (MAP) eligible recipient’s health, safety, or service availability concerns. The request must be made in writing and state in detail the reasons why an expedited hearing is necessary. Granting an expedited hearing is at the discretion of the ALJ.

D. **Group hearing:** The ALJ may respond to a series of individual requests for hearings by conducting a single group hearing. In all group hearings, the HSD administrative hearing process governing an individual hearing is followed. Each provider, his or her authorized representative or legal counsel may present his or her case individually. If a group hearing is arranged, each affected provider has the right to withdraw from the group hearing in favor of an individual HSD provider administrative hearing.

E. **Informal resolution conference:** The parties are encouraged to hold an informal resolution conference before the provider administrative hearing to discuss the issues involved in the hearing. The informal resolution conference is optional and does not delay or replace the provider administrative hearing process. Conference participants may include the provider, his or her authorized representative or legal counsel, MAD or other responsible agency representatives, and the MAD selected

claims and provider enrollment processing contractor. The purpose of the informal resolution conference is to informally review MAD's action and to determine whether the issues can be resolved by mutual agreement. The issues to be decided at the provider administrative hearing may also be clarified or further defined. Regardless of the outcome of the informal resolution conference, a provider administrative hearing is still held, unless the provider submits a written withdrawal of the request of the provider administrative hearing.

F. **Pre-hearing conference:** The assigned ALJ schedules a pre-hearing conference within 30 calendar days of the receipt of the provider's request for a HSD provider administrative hearing. A pre-hearing conference is an informal proceeding and may occur telephonically.

(1) **Purpose of conference:** The purposes of the pre-hearing conference include, but are not limited to:

(a) expediting the disposition of the action;

(b) identification, clarification, formulation and simplification of issues;

(c) resolution of some or all issues;

(d) exchange of documents and information;

(e) preparing stipulations of fact to avoid unnecessary introduction of evidence at the hearing;

(f) review of audit findings;

(g) reconsideration of a suspension or withholding of payments;

(h) identifying the number of witnesses; and

(i) facilitating the settlement of the case.

(2) **Scheduling:** A scheduling order shall be entered into, which shall set the due date for the summary of evidence (SOE), due date for exhibits, and sets the date for the provider administrative hearing. The order shall be issued as soon as practicable, but in any event within 30 calendar days of the request for provider administrative hearing.

(3) **Continuations and rescheduling:** A pre-hearing conference may be continued or rescheduled with the consent of all parties after the 30 calendar day time limit.

(4) **Settlements, stipulations and admissions:** No offer of settlement made in a pre-hearing conference is admissible as evidence at the later provider administrative hearing. Stipulations and admissions are binding and may be used as evidence at the provider administrative hearing. Any stipulation, settlement or consent order reached between the parties is written and signed by the ALJ and all parties to the provider administrative hearing.

(5) **Timeliness:** The pre-hearing conference will not delay or replace the provider administrative hearing itself. Pre-hearing conferences may include the provider, his or her authorized representative or legal counsel, MAD or other responsible agency representatives, and the MAD selected claims and provider enrollment processing contractor. Subsequent to the conference or in the event that any of the parties to the provider administrative hearing fail to participate, the scheduled hearing is still held, unless the provider submits a written request for withdrawal.

(6) **Unresolved issues:** If all matters in controversy are not resolved at the pre-hearing conference, the ALJ sets a provider administrative hearing date within 30 calendar days of the last conference date, or at a later time agreed to by all parties, recognizing the 120 calendar day timeframes.

(7) **Written summaries:** The ALJ may request the parties to submit a written summary of all issues resolved at the pre-hearing conference.

(8) **Pre-hearing order:** The may, at his or her sole discretion, prepare or ask the parties to prepare a pre-hearing order. The pre-hearing order may contain:

(a) statements of any contested facts and issues;

(b) stipulation of matters not in dispute;

(c) list of witnesses to be called and the subject of their testimony;

(d) list of exhibits;

(e) discovery directives; or

(f) other matters relevant to the issues.

(9) **Points of law:** The ALJ may direct the parties to submit memoranda on points of law to inform the final decision, and may dictate the length and scope of the submissions.

G. **Summary of evidence (SOE):** A summary of evidence (SOE) is a document submitted by MAD that provides preliminary information concerning the basis of its or its selected claims and provider enrollment processing contractor’s action. The SOE may be amended by MAD at any point prior to the pre-hearing if the ALJ and the provider,

his or her authorized representative or legal counsel receives copies of the amended SOE at least two working days of the pre-hearing conference.

(1) The SOE must be provided at least 10 working days prior to the pre-hearing conference or if the pre-hearing conference is not held, within 10 working days prior to the scheduled provider administrative hearing date.

(2) The failure of MAD to timely provide the SOE may, at the ALJ's discretion, result in its exclusion or a continuance of the hearing.

(3) MAD staff or its designee is responsible for the preparation of the SOE and coordination of parties and witnesses. MAD is responsible for the submission of the SOE to all parties.

(4) The summary of evidence shall contain:

(a) the provider's name, telephone number and address and the status of any previous or concurrent appeal through the MAD or its selected claims and provider enrollment processing contractor;

(b) the action, proposed action or inaction being appealed;

(c) information on which the action or proposed action is based with supporting documentation and correspondence; and

(d) applicable federal and state law, regulations, statutes, rules or any combination of these.

H. **Availability of provider evidence:**

(1) The provider, his or her authorized representative or legal counsel will provide at least ten calendar days prior to the hearing to the FHB assigned ALJ any document to be introduced as evidence at the pre-hearing conference. The SOE may be amended by the provider, his or her authorized representative or legal counsel at any point prior to the pre-hearing if the ALJ and MAD receive copies of the amended SOE at least within two working days of the pre-hearing conference. The FHB will forward to the MAD administrative hearings unit copies of such evidence. MAD will then make these available to its selected claims and provider enrollment processing contractor.

(2) Failure of the provider, his or her authorized representative or legal counsel to timely provide the documentary evidence may result in its exclusion or a continuance of the provider administrative hearing at the discretion of the ALJ.

I. **Availability of information:** MAD must:

(1) provide, on request, in a timely manner and without charge, any documents in its possession concerning the underlying action, that are not already in the provider's possession, and that are necessary for a provider to decide whether to request a hearing or to prepare for a provider administrative hearing; and

(2) allow the provider, his or her authorized representative or legal counsel to examine all documents to be used at the provider administrative hearing at a reasonable time before the date of the provider administrative hearing and during such hearings; documents or records which the provider would not otherwise have an opportunity to challenge or contest, may not be introduced at the provider administrative hearing or be taken into consideration by the ALJ.

[8.352.3.11 NMAC - N, 1-1-14]

8.353.3.12 HEARING STANDARDS:

A. **Rights at hearing:** The parties are given an opportunity to:

(1) present their case or have it presented by his or her authorized representative or legal counsel;

(2) bring witnesses to present information relevant to the case;

(3) submit evidence to establish all pertinent facts and circumstances in the case;

(4) advance arguments without undue interference; and

(5) question or contradict any testimony or evidence, including an opportunity to confront and cross-examine opposing witnesses.

B. **ALJ:** Hearings are conducted by an impartial official, the ALJ, who:

(1) does not have any personal stake or involvement in the case; and

(2) was not involved in the determination or the action which is being contested; if the ALJ had any involvement with the action in question, including giving advice or consultation on the points at issue, or is personally related in any relevant degree to the parties, the ALJ must disqualify him or herself as the ALJ for that specific case.

(3) **Authority and duties of the ALJ:** The ALJ must:

(a) explain how the provider administrative hearing will be conducted to participants at the start of the hearing, before administering oaths;

(b) administer oaths and affirmations;

(c) request, receive, and make part of the record all evidence considered necessary to decide the issues raised;

(d) regulate the conduct and the course of the provider administrative hearing and any pre-hearing conference to ensure an orderly hearing;

(e) request, if appropriate, an independent medical assessment or professional evaluation from a source mutually satisfactory to the parties; and

(f) produce the provider administrative hearing report and recommendation for review and final decision by the MAD director or designee.

(4) **Appointment of ALJ:** The ALJ is appointed by the HSD FHB chief upon receipt of the request for hearing. All communications are to be addressed to the assigned ALJ.

C. **Evidence and procedure:** Formal rules of evidence and civil procedure do not apply. A free, orderly exchange of relevant information is necessary for the decision-making process.

(1) **Admissibility:** All evidence is admissible subject to the ALJ's authority to limit irrelevant, repetitive or unduly cumulative evidence and his or her ability to conduct an orderly hearing. The ALJ must admit evidence that is relevant to those allegations against the provider included in the notice of recovery of overpayment, sanction or other remedy, application denial, or application termination.

(2) **Confidentiality:** The confidentiality of records is to be maintained. Information which is not presented during the provider administrative hearing in the presence of the provider, his or her authorized representative or legal counsel, and the MAD representative may not be used by the ALJ in making the provider administrative hearing recommendation except as allowed by Subsection E of Section 13 of this part.

(3) **Administrative notice:** The ALJ may take administrative notice of any matter in which courts of this state may take judicial notice.

(4) **Privilege:** The rules of privilege apply to the extent that they are required to be recognized in civil actions in the district courts of New Mexico.

(5) **Medical issues:** In a case involving medical and behavioral health issues, the parties may submit expert testimony, reports, affidavits or medical and behavioral health records into record as necessary. Admission of this evidence is at the discretion of the ALJ. All parties to the provider administrative hearing have the right to examine any documents which may influence the decision.

D. **Burden of proof:** MAD has the burden of proving the basis to support its proposed action by a preponderance of the evidence. In cases involving the imposition of civil money penalties against a NF provider, MAD's conclusion about the NF's level of noncompliance must be upheld unless clearly erroneous.

E. **Record of the provider administrative hearing:** A hearing is electronically recorded. The recording is placed on file at the FHB and is available to the parties for 60 calendar days following the decision. In addition to the recorded proceedings, the record of the provider administrative hearing includes any pleadings, documents, or other exhibits admitted into evidence. Any of the parties to the provider administrative hearing may request one digital copy of the recordings without charge. Subsequent copies will be charged at a rate HSD sets for any other digital request.

[8.352.3.12 NMAC - N, 1-1-14]

8.352.3.13 CONDUCTING THE HEARING:

A provider administrative hearing is conducted in an orderly manner and in an informal atmosphere. The provider administrative hearing is conducted in person or telephonically and is not open to the public. The ALJ has the authority to limit the number of persons in attendance if space or other considerations dictate.

A. **Opening the provider administrative hearing:** The hearing is opened by the ALJ. Individuals present must identify themselves for the record. The ALJ explains his or her role in the proceedings, and that the final decision on the appeal will be made by the MAD director after review of the proceedings and the ALJ's recommendation. The order of testimony is described, and the oath is administered to all who will testify at the hearing.

B. **Order of testimony:** The order of testimony at the provider administrative hearing is as follows:

(1) opening statements of parties or their representatives;

(2) presentation of MAD's case; if witnesses are called, the order of examination of each witness is:

(a) examination by the MAD representative;

(b) cross examination by the provider, his or her authorized representative or legal counsel; and

(c) opportunity to redirect the witness;

(3) presentation of the provider's case; if witnesses are called, the order of examination of each witness is:

(a) examination by provider, his or her authorized representative or legal counsel;

(b) cross examination by MAD or its selected claims and provider enrollment processing contractor; and

(c) opportunity to redirect the witness;

(4) presentation of rebuttal evidence by MAD and provider, respectively;

(5) the ALJ may direct further questions to the MAD representative, the provider, or any witnesses to clarify inconsistencies or obtain an adequate evidentiary record; and

(6) the ALJ may ask parties to summarize and present closing arguments.

C. **Written closing argument:** At the discretion of the ALJ, the parties may be directed to make closing arguments, or submit written memoranda on points of law.

D. **Continuance:** The ALJ may continue the provider administrative hearing upon the request of either party or on his or her own motion, for admission of additional testimony or evidence. The granting of a continuance is at the discretion of the ALJ and can only be allowed when the timeliness of a decision is not jeopardized by the continuance or the parties have agreed to an extension of the decision time frame. The reasons for the continuance must be stated for the record. Written notice of the date, time, and place of the continued hearing is sent to the parties if these are not set at the time of the continuance.

E. **Additional evidence:** If the ALJ needs additional evidence to further clarify documentary evidence presented during the hearing, he may close the hearing but keep the record open and direct the parties to submit such clarifying evidence. Each party receives a copy of the direction for further evidence and the documentary evidence being submitted and is allowed an opportunity to respond to the submission, in writing, within 10 calendar days of its receipt. The additional evidence and responses become part of the hearing record.

F. **Re-opening a hearing:** The ALJ, at his or her discretion, may re-open a hearing when the evidentiary record fails to address an issue that is relevant to resolution of a provider administrative hearing request. The hearing can only be re-opened if the timeliness of the decision is not jeopardized or the parties have agreed to an extension of the decision timeframes. Written notice of the date, time and place of the re-opened hearing is sent by the FHB to the parties not less than 10 calendar days before the date of the re-opened provider administrative hearing.

[8.352.3.13 NMAC - N, 1-1-14]

8.352.3.14 HEARING DECISION:

The final HSD provider administrative hearing decision concerning the hearing is made by the MAD director or designee after review of the record and the ALJ's report and recommendation.

A. **Decision based on the record:** The ALJ's recommendation may be adopted or rejected in a final written decision by the MAD director or designee on issues that were the subject of the hearing. The MAD director or designee specifies the reasons for the decision and identifies the regulatory authority and the evidence supporting the decision, including the record created by the provider administrative hearing, applicable federal and state law, regulations and NMAC rules, policies and instructions or any combination of these. No person who participated in the original action under appeal or in the provider administrative hearing may participate in arriving at a final decision.

B. **ALJ recommendation:** The ALJ reviews the record of the provider administrative hearing and all applicable federal and state law, regulations and NMAC rules, policy and instructions or any combination of these, and evaluates the evidence submitted. The ALJ submits the complete record of the hearing, along with his or her written recommendation to the MAD director.

(1) Content of recommendation. The ALJ specifies the reasons for his or her conclusions, identifies the supporting evidence, references the applicable federal and state law, regulations and NMAC rules, policies and instructions or any combination of these, and responds to the arguments of the parties in a written report and recommendation.

(2) The ALJ recommends:

(a) in favor of the provider if MAD's action or proposed action is not supported by a preponderance of the evidence available as a result of the provider administrative hearing;

(b) in favor of MAD, if the preponderance of the evidence available supports the action or proposed action; or

(c) any other result supported by the record.

C. **Review of recommendation:** The provider administrative hearing file and recommendation are reviewed by the MAD director or designee to ensure conformity with applicable federal and state law, regulations and NMAC rules, policies and instructions or any combination of these.

D. **Final decision:** The ALJ's recommendation may be adopted or rejected in a final written decision by the MAD director or designee on issues that were the subject of the hearing. The MAD director specifies the reasons for the decision and identifies the

regulatory authority and the evidence supporting the decision, including the record created by the provider administrative hearing, applicable federal and state law, rules and policies or any combination of these. No person who participated in the original action under appeal or in the hearing may participate in arriving at a final decision.

E. **Notice to parties:** The parties receive the written decision, including the effective date of sanctions, terms of sanctions, and amounts of overpayment to be recovered by MAD. When the provider is represented by legal counsel, counsel must receive the decision. The notice of the decision includes an explanation that the parties have exhausted all administrative remedies and may pursue judicial review of the decision. This explanation includes information on time limits, and where and how to pursue judicial review.

[8.352.3.14 NMAC - N, 1-1-14]

8.352.3.15 IMPLEMENTATION OF DECISION:

The final HSD provider administrative hearing decision is binding on all issues that were the subject of a hearing, as to the provider, unless stayed by court order pending appeal. The decision is implemented within the time frames specified below.

A. **Decision favorable to HSD:** Decisions favorable to MAD are implemented immediately, unless stayed by court order.

B. **Decision favorable to provider:** If the decision is in favor of the provider, MAD must immediately lift any sanctions in place and remit to the provider any funds being held pending the decision.

[8.352.3.15 NMAC - N, 1-1-14]

8.352.3.16 JUDICIAL REVIEW:

A. **Right of appeal:** If the final HSD provider administrative hearing decision upholds MAD's original action or proposed action, the provider has the right to pursue judicial review of the decision and is so notified of that right in the decision.

B. **Timeliness:** The provider has 30 calendar days from the date of the provider administrative hearing decision to appeal that decision by filing an appropriate action for judicial review with the clerk of the first judicial district court and sending a copy of the notice of action to HSD and the ALJ.

C. **Jurisdiction and standard:** All appeals to the district court are based on a review of the record made at the hearing. The HSD office of general counsel files one copy of the hearing record with the clerk of the first judicial district court and furnishes one copy to the provider and his or her counsel within 20 calendar days after receipt of the notice of appeal.

D. **Stay pending appeal:** The district court decides, upon motion duly filed, whether the filing of the appeal will operate as a stay of the HSD final provider administrative hearing decision. If a stay is granted, the office of general counsel notifies appropriate staff concerning any necessary action.

8.354.2.6 OBJECTIVE:

The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act as amended or by state statute. See Section 27-1-12 et seq. NMSA 1978.

[8.354.2.6 NMAC - Rp, 8.354.2.6 NMAC, 8/1/14]

8.354.2.7 DEFINITIONS:

A. "**Administrative law judge (ALJ)**" means the HSD fair hearings bureau's (FHB) appointed judge to oversee the claimant's administrative hearing process and render a recommendation to the medical assistance division (MAD) director.

B. "**Adverse action":** means:

(1) the belief of a claimant or his or her authorized representative that his or her preadmission or annual resident review (PASRR) determination is erroneous; or

(2) the belief of a claimant or his or her authorized representative that the claimant's NF determination to transfer or discharge him or her is erroneous.

C. "**Authorized representative**" means the individual designated to represent and act on the claimant's behalf during the appeal process. The claimant or the claimant's authorized representative must provide formal documentation authorizing the named individual or individuals to access the indentified case information for a specified purpose and time frame. An authorized representative may be an attorney representing a person or household, a person acting under the authority of a valid power of attorney, a guardian, or any other individual or individuals designated in writing by the claimant.

D. "**Claimant**" means the individual requesting a HSD administrative hearing that is claiming to be affected by an adverse action or actions taken or intended to be taken by MAD, its utilization review (UR) contractor, the MCO or their designees.

E. "**Denial**" means the decision not to authorize the medical assistance program (MAP) eligible recipient or a MCO member's requested services, item, or level of care (LOC).

F. "**Designee**" means a state agency or an institution MAD has designated to be responsible for:

(1) conducting a PASRR level I screening to identify if a MAP eligible recipient or a MCO member has a mental illness or an intellectual disability; or

(2) conducting a PASRR level II evaluation.

G. "**DOH-DDSD**" means the developmental disabilities support division of the department of health, which conducts the PASRR level II evaluation for a MAP eligible recipient or a MCO member that has been identified through a PASRR level I screen.

H. "**HSD administrative hearing**" or"fair hearing" means an informal evidentiary hearing that is conducted by the FHB so that evidence may be presented as it relates to an adverse action taken, or intended to be taken, by MAD, it UR contractor, or the MCO, or their designees.

I. "**MAD**" means the medical assistance division, which administers medicaid and other medical assistance programs under HSD.

J. "**MAP**" means the medical assistance programs administered by MAD.

K. "**MCO**" means a member's HSD contracted managed care organization.

L. "**Member**" means a MAP eligible recipient enrolled in a HSD contracted MCO. Once a member requests a HSD administrative hearing, the member is referred to as a claimant.

M. "**Notice of action**" means the notice issued by MAD, its UR contractor, the MCO or their designees of their intent to take an adverse action against eligible recipient or a member in the form an adverse determination is made with regard to the preadmission or annual resident review requirements or a discharge or transfer from a NF.

N. "**Nursing facility (NF)**" means a MAD enrolled, and as appropriate, a MCO contracted, NF which meets the requirements as described in 8.312.2 NMAC and is designated by MAD, its UR contractor, or the MCO to complete a PASRR level I screen for a MAP eligible recipient or a MCO member.

O. "**Parties to the hearing**" are MAD, its UR contractor, the MCO or their designees and the claimant or his or her authorized representative.

[8.354.2.7 NMAC - Rp, 8.354.2.7 NMAC, 8/1/14]

8.354.2.8 MISSION STATEMENT:

The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs.

[8.354.2.8 NMAC - Rp, 8.354.2.8 NMAC, 8/1/14]

8.354.2.9 CLAIMANT OR THE CLAIMANT'S AUTHORIZED REPRESENTATIVE AND HSD ADMINISTRATIVE HEARING PROCESS:

HSD has established a hearing process for a MAP eligible recipient or a MCO member who is adversely affected by the preadmission screening and annual resident review (PASRR) or the transfer or discharge from a NF as required by Section 1919(e)(7) of the Social Security Act.

A. Claimant:

(1) When an adverse action (see Subsection B of 8.354.2.7 NMAC) is intended or taken against a MAP eligible recipient by MAD, its UR contractor or their designee, the MAP eligible recipient may file as a claimant to request a HSD administrative hearing.

(2) When an adverse action (see Subsection B of 8.354.2.7 NMAC) is intended or taken against a member by his or her MCO or its designee, the member may file as a claimant to request a HSD administrative hearing. A member is not required to first exhaust his or her MCO appeal process prior to filing for a HSD administrative hearing when affected by an adverse action listed in 8.354.2.7 NMAC. Upon requesting a HSD administrative hearing, the member is referred to as the claimant and is governed by the remaining sections of this rule.

(3) A claimant must request a HSD administrative hearing within 90 calendar days of the mailing of either the notice of action or the denial for new service.

B. A claimant or the claimant's authorized representative may have legal counsel assist him or her during the HSD administrative hearing process. If a claimant or the claimant's authorized representative, MAD, its UR contractor, the MCO or their designees retains legal counsel, that legal counsel must submit a notice of appearance to the assigned ALJ. The ALJ will forward this notice to the MAD administrative hearings unit (MAD AHU).

C. The claimant or claimant's authorized representative may also chose a relative, friend or other spokesperson (spokesperson) to represent or assist him or her in the HSD administrative hearing process.

[8.354.2.9 NMAC - Rp, 8.354.2.9 NMAC, 8/1/14]

8.354.2.10 RIGHT TO A PASRR AND NURSING FACILITY TRANSFER OR DISCHARGE HSD ADMINISTRATIVE HEARING:

This specific type of a HSD administrative hearing is an informal evidentiary hearing that is conducted by the FHB so that evidence may be presented as it relates to an adverse action taken or intended to be taken, against an individual by MAD, it UR contractor, the MCO and their designees. MAD or the MCO must grant an individual or the individual's authorized representative the opportunity for a HSD administrative hearing under specific circumstances pursuant to 42 CFR Section 431.220(a) and 27-3-3 NMSA 1978. A HSD administrative hearing occurs telephonically between the parties to the HSD administrative hearing and the assigned FHB ALJ.

A. An individual or the individual's authorized representative may request a HSD administrative hearing based on his or her belief that MAD, its UR contractor, the MCO or their designees intends to take, or has taken, an adverse action.

B. MAD, its UR contractor, the MCO or their designees will not be responsible for any fees or costs, incurred by the individual or his or her authorized representative as a result of a HSD administrative hearing, or if he or she files an appeal of the HSD administrative hearing final decision to a New Mexico district court.

[8.354.2.10 NMAC - Rp, 8.354.2.10 NMAC, 8/1/14]

8.354.2.11 NOTICE, TIME LIMITS, POSTPONEMENT, OR THE DISMISSAL OF A HSD ADMINISTRATIVE HEARING REQUEST:

A. **Notice:**

(1) In cases involving a PASRR determination or the determination to transfer or discharge the claimant from a NF, the notice of action is submitted by MAD, it UR contractor, the MCO or their designees. MAD, its UR contractor, the MCO or their designees shall issue a"notice of action" to an individual when it intends to take an adverse action against the individual. When the notice of action is concerning the LOC determination the MAP eligible recipient or the member currently has, the notice of action shall be sent not less than 10 calendar days prior to the date of MAD, its UR contractor, the MCO or their designee's intended adverse action.

B. **Exceptions to a notice of action:** Notwithstanding the notice requirement set forth in the preceding Subsection, MAD, its UR contractor, the MCO or their designees may mail a notice of action to the individual or the individual's authorized representative

or estate (in the event of an individual's death) no later than the actual date of the intended adverse action when:

(1) MAD, its UR contractor, the MCO or their designees has confirmed the death of the individual;

(2) MAD, its UR contractor, the MCO or their designees has received a clear written statement signed by the individual or the individual's authorized representative that all or a portion of an authorized service is no longer wanted;

(3) the individual or the individual's authorized representative provides information to MAD, its UR contractor, the MCO or their designees that indicates his or her understanding that such information may require MAD, its UR contractor, the MCO or their designees to take the adverse action;

(4) MAD, its UR contractor, the MCO or their designees learns the individual is residing in an institution, which renders the individual ineligible for MAP enrollment and MAD services;

(5) MAD, its UR contractor, the MCO or their designees cannot determine the physical location of either the individual, or if designated, his or her authorized representative;

(6) MAD, its UR contractor, the MCO or their designees have established that the individual has been accepted for medicaid services outside of the state; or

(7) the primary care provider for the individual has prescribed a change in his or her LOC.

C. **Time limits:** an individual or his or her authorized representative must adhere to the time limits for requesting for a continuation of a benefit and for requesting a HSD administrative hearing.

(1) Requesting a HSD administrative hearing: An individual has 90 calendar days from the date of the notice of action to request a HSD administrative hearing. To be considered timely, the request must be received by one of the following: FHB, the individual's local income support division (ISD) office, offices of DOH-DDSS, the NF the individual resides at, or the MAD's director's office no later than the close of business on the 90th calendar day immediately following the date of the notice of action. If the request for a HSD administrative hearing is mailed by the individual, the request must be postmarked by the 90th calendar day from the date of the notice of action.

(2) Continuation of a benefit:

(a) A claimant may request the current benefit that is the subject of an adverse action continue while his or her HSD administrative hearing proceeds. A

request for a continuation of a benefit shall be accorded to any claimant who requests the continuation within 10 calendar days of the mailing of the notice of action by MAD, its UR contractor, the MCO or their designees. The continuation of the benefit will be the same as the claimant's current benefit or LOC. MAD, its UR contractor, the MCO or their designees must provide information in its notice of action of a claimant rights and limitations to continue a benefit during his or her HSD administrative hearing process.

(b) A continuation of the benefit in a NF is not approved for a claimant:

(i) when the health or safety of other residents in the NF would be endangered by the claimant's continued presence;

(ii) the claimant's health improves sufficiently to allow a more immediate transfer or discharge;

(iii) an immediate transfer or discharge is required by the claimant's urgent medical needs; or

(iv) the claimant has not resided in the NF for 30 consecutive calendar days or more.

(4) The HSD administrative hearing is concluded within 90 calendar days from the date the claimant or the claimant's authorized representative requests a HSD administrative hearing unless the claimant or the claimant's authorized representative agrees to extend the HSD administrative hearing time frame in order to facilitate the process.

D. **Dismissal of a hearings request:** HSD authorizes FHB to issue a dismissal of a claimant's request for a HSD administrative hearing when:

(1) the request is not received within the time periods specified in the rules and notice of action;

(2) the request is withdrawn or cancelled in writing by the claimant or the claimant's authorized representative;

(3) the sole issue presented concerns a federal or state statue, regulation or rule requiring an adjustment of benefits for all or certain classes of individuals, including, but not limited to, a termination, modification, reduction, or suspension of a service;

(4) the same issue involving the claimant has already been subject to a final decision by the MAD director following a HSD administrative hearing;

(5) the sole issue presented is regarding a New Mexico administrative code (NMAC) rule rather than the application of the rule to the claimant; or

(6) the claimant or the claimant's authorized representative fails to appear at a scheduled hearing without good cause; the claimant or the claimant's authorized representative request for a HSD administrative hearing may be considered abandoned and therefore dismissed if the claimant or the claimant's authorized representative fails to appear telephonically or in person (if the claimant or the claimant's authorized representative has elected to participate in this manner) at the time of the hearing; however, if the claimant or the claimant's authorized representative presents to the ALJ good cause for failure to appear within 10 calendar days after the date of the HSD administrative hearing, the HSD administrative hearing may be rescheduled; good cause includes a death in the family, a disabling personal illness or another significant emergency, or at the discretion of the ALJ, as appropriate, for another exceptional circumstance; if the ALJ agrees the claimant or the claimant's authorized representative showed good cause, the HSD administrative hearing will be reschedule.

[8.354.2.11 NMAC - Rp, 8.354.2.10 and 8.354.11 NMAC, 8/1/14]

8.354.2.12 SCHEDULING OF A HSD ADMINISTRATIVE HEARING:

A. **Scheduling:** The ALJ will assign a date for a HSD administrative hearing that affords the MAD director the opportunity to render his or her HSD administrative hearing final decision within the 90 calendar day time limit. The claimant or the claimant's authorized representative must agree via a recorded message to the assigned ALJ or in writing to the assigned ALJ to extend the 90 calendar day time limit up to an additional 30 calendar days to provide the necessary time for the HSD administrative hearing to be conducted and a final decision rendered. The ALJ has the authority on a case-by-case basis to extent the 90-calendar day time limit to more than 30-calendar days when the claimant or the claimant's authorized representative requests such an extension in writing. If an accommodation is necessary for a disability, the claimant or the claimant's authorized representative must notify FHB at least 10 calendar days prior to the HSD administrative hearing.

B. **Rescheduling:** Any party to a HSD administrative hearing may request, and is entitled to receive, one postponement of a HSD administrative hearing, as long as it does not interfere with the HSD administrative hearing final decision time frames.

(1) A request for more than one postponement is at the ALJ's discretion on a case-by-case basis.

(2) The claimant or the claimant's authorized representative must agree to allow the ALJ to extend the 90 calendar day time limit up to an additional 30 calendar days to provide the necessary time for the HSD administrative hearing to be conducted and a final decision rendered.

C. **Expedited HSD administrative hearing:** Any party may request an expedited HSD administrative hearing in cases involving a claimant's health, safety, or service availability issues. The request must be made in writing to the claimant's assigned ALJ.

The request must state in detail the reasons why an expedited HSD administrative hearing is necessary. The granting of an expedited HSD administrative hearing is at the discretion of the ALJ.

[8.354.2.12 NMAC - Rp, 8.354.2.11 NMAC, 8/1/14]

8.354.2.13 SUMMARY OF EVIDENCE (SOE):

A. **Summary of evidence.**

(1) At a HSD administrative hearing, MAD has the burden to prove through the preponderance of the evidence that an adverse action against a claimant is correct. A summary of evidence (SOE) provides information concerning the basis of MAD, its UR contractor, the MCO or their designee's adverse action. MAD may have its UR contractor, HSD MCO or its designee complete an SOE for final review by MAD; however, MAD is ultimately responsible for the submission of its SOE. An SOE is submitted by MAD to the ALJ and claimant or the claimant's authorized representative within specified time-frames.

(2) A claimant or the claimant's authorized representative may submit a SOE to provide the ALJ with information to refute MAD's SOE. A claimant or the claimant's authorized representative is not required to provide a SOE as the burden of proof falls on MAD.

(3) The MAD SOE shall, at a minimum, contain:

(a) the claimant's name, and as applicable, his or her authorized representative's or legal counsel's telephone number and address, and the status of any previous or concurrent appeal through his or her MCO or MAD UR contractor;

(b) the adverse action against the claimant;

(c) the documentation supporting MAD, its UR contractor, the MCO or their designee basis for the intended or taken adverse action; and

(d) any applicable federal or state statutes, regulations, rules or any combination of these; however, that a failure by MAD, the UR contractor, the MCO or their designee to submit an applicable statute, regulation or rule shall not constitute per se grounds for the ALJ to find that MAD, the UR contractor, the MCO or their designee failed to meet its burden of proof.

B. **Timeframes.**

(1) The HSD administrative hearing.

(a) MAD's SOE shall be delivered to the ALJ and the parties to the HSD administrative hearing at least 10 working days prior to the HSD administrative hearing.

(b) MAD's SOE may be amended by MAD at any point prior to the HSD administrative hearing if the ALJ and the claimant or the claimant's authorized representative is delivered copies of the amended SOE at least two working days prior to the HSD administrative hearing. MAD is responsible for providing its UR contractor, the MCO or their designee the amended SOE.

(c) If the claimant or his or her authorized representative has a SOE that he or she wants entered into evidence for the HSD administrative hearing, he or she must provide the ALJ the SOE not less than three working days prior to the HSD administrative hearing. The ALJ will provide MAD AHU with a copy of the claimant's SOE within one working day of its receipt. The MAD AHU will provide a copy of the SOE to one or more as appropriate: its UR contractor, the MCO or their designee within one working day of its receipt.

(d) If the claimant or the claimant's authorized representative has an amendment to his or her SOE, he or she shall follow the process in Subparagraph (c) of Paragraph (1) of Subsection B of this section.

(2) The failure of MAD to provide its SOE in a timely manner may, at the ALJ's discretion result in its exclusion or a postponement of the HSD administrative hearing charged against MAD.

(3) If the claimant or the claimant's authorized representative fails to provide the assigned ALJ a SOE or any amendments to the SOE within the specified time-frames, and the claimant or the claimant's authorized representative wishes to submit such documents for consideration at the HSD administrative hearing, the claimant or the claimant's authorized representative will utilize his or her one allowed postponement opportunity in which to submit the SOE or any amendments to the ALJ. The ALJ will follow the process in Subparagraph (b) of Paragraph (1) of Subsection B of this section for the disbursement of the amended SOE.

C. **Availability of information to the claimant or the claimant's representative:** MAD, its UR contractor, the MCO or their designee shall:

(1) provide upon request to the claimant or his or her authorized representative, any document in its possession concerning its adverse action against the claimant that is not already in its SOE;

(2) provide the claimant or the claimant's authorized representative the requested documents and such documents will be provided by MAD, its UR contractor, the MCO or their designee to the claimant or the claimant's authorized representative in a timely manner and without charge.

D. No party to a HSD administrative hearing may present into evidence, as part of an amended SOE, any document or record that any other party of the hearing has not received at least two working days prior to the HSD administrative hearing. The ALJ will not take such information into consideration when reaching his or her recommendation.

[8.354.2.13 NMAC - Rp, 8.354.2.11 NMAC, 8/1/14]

8.354.2.14 ADMINISTRATIVE HEARING STANDARDS:

A. **Administrative law judge.**

(1) A HSD administrative hearing is conducted by an impartial official who:

(a) does not have any personal stake or involvement in the case; and

(b) was not involved in the determination or the action which is being contested; if the ALJ had any involvement with the action in question, including giving advice or consultation on the points at issue, or is personally related in any relevant degree to the parties, the ALJ must disqualify his or herself as the assigned ALJ for that case.

(2) In conducting a HSD administrative hearing, the ALJ must:

(a) explain how the HSD administrative hearing will be conducted to participants at the start of the hearing, before administering oaths;

(b) administer oaths and affirmations;

(c) request, receive, and make part of the record all evidence that has been provided to each party within the required time-frames that the ALJ considers necessary to decide the issues raised;

(d) regulate the conduct and the course of the HSD administrative hearing to ensure an orderly HSD administrative hearing;

(e) request, if appropriate, an independent physical or behavioral health assessment or a professional evaluation from a source mutually satisfactory to the parties at no cost to the claimant; and

(f) produce the ALJ HSD administrative hearing report that includes findings of fact and recommendations for the MAD director’s consideration.

(3) Appointment of the ALJ: the ALJ is appointed by FHB upon receipt of the request for a HSD administrative hearing. The ALJ will be copied on all written communications between the parties to HSD administrative hearing to ensure all parties

are free of undue influence and receive written notices and documents within the required time-frames.

B. **Record of the hearing:** A HSD administrative hearing is digitally recorded. The digital recording, findings of fact, SOEs and any amendments, pleadings, documents, NMAC rules, other relevant statutes or other exhibits admitted into evidence, as well as the ALJ's recommendations will be available to the parties for one calendar year following the HSD administrative hearing final decision. These items are referred to as the record of the HSD administrative hearing. Parties to the HSD administrative hearing may request one copy of the record without charge. Subsequent copies will be charged at a pre-determined rate set by HSD.

C. **Rights at an administrative hearing:** A claimant or the claimant's authorized representative will provide the assigned ALJ a signed release-of-information in order for a designated spokesperson to assist or represent the claimant or the claimant's authorized representative in presenting the claimant's case at a HSD administrative hearing. If a claimant or the claimant's authorized representative, MAD, its UR contractor, the MCO or their designee retains legal counsel, that legal counsel must submit a notice appearance to the assigned ALJ and the ALJ will forward this information to the MAD administrative hearings unit (MAD AHU). The parties are given an opportunity to:

(1) call witnesses to present information relevant to the case;

(2) submit evidence to establish all pertinent facts and circumstances in the case;

(3) advance arguments without undue interference; and

(4) question or contradict any testimony or evidence, including an opportunity to confront and cross-examine opposing witnesses.

D. **Evidence and procedure:** Formal rules of evidence and civil procedure do not apply to a HSD administrative hearing. A free, orderly exchange of relevant information is necessary for the decision-making process.

(1) Admissibility: all relevant evidence is admissible subject to the ALJ's authority to limit repetitive, scandalous or unduly cumulative evidence and his or her ability to conduct an orderly HSD administrative hearing. The ALJ must admit evidence that is relevant to the intended or taken adverse action by MAD, its UR contractor, the MCO or their designees.

(2) Confidentiality: the confidentiality of records is to be maintained;

(3) Information not entered in the hearing record: information which is not presented during the HSD administrative hearing in the presence of the claimant or the

claimant's authorized representative, MAD, its UR contractor, the MCO or their designees may not be used by the ALJ in making his or her record of fact finding and recommendation.

(4) Administrative notice: the ALJ may take administrative notice of any matter in which courts of this state may take judicial notice.

(5) Privilege: the rules of privilege apply to the extent that they are required to be recognized in civil actions in the district courts of New Mexico.

(6) Medical issues: in a case involving physical or behavioral health issues, the parties may submit expert testimony, reports, affidavits or health care records into evidence as necessary. Admission of this evidence is at the discretion of the ALJ and must meet the SOE time-frames for submission. All parties of the HSD administrative hearing have the right to examine any documents which may influence the HSD administrative hearing final decision.

[8.354.2.14 NMAC - Rp, 8.354.2.12 NMAC, 8/1/14]

8.354.2.15 CONDUCTING THE HSD ADMINISTRATIVE HEARING:

A HSD administrative hearing is conducted in an orderly manner and in an informal atmosphere. The HSD administrative hearing is normally conducted telephonically and is not open to the general public. The assigned ALJ has the authority to limit the number of persons in attendance as necessary for the ALJ to control the hearing.

A. **Opening the hearing:** The HSD administrative hearing is opened by the assigned ALJ. All individuals present at the hearing must identify themselves for the record, including when the claimant or the claimant's authorized representative has other representation or legal counsel to assist him or her during the HSD administrative hearing. The ALJ shall explain his or her role in conducting the HSD administrative hearing that he or she will submit the record of the HSD administrative hearing to the MAD director and that the final decision of the HSD administrative hearing will be made by the MAD director or designee after review of the record of the HSD administrative hearing.

B. **Order of testimony:** The order of testimony is described, and the oath is administered to all who will testify at the HSD administrative hearing. Because the burden of proof is with MAD, it is at the claimant or the claimant's authorized representative's discretion to call witnesses or to present evidence. The order of testimony at the HSD administrative hearing is as follows:

(1) opening statements of parties, authorized representatives, or designees, or if the claimant or the claimant's authorized representative through a signed statement has identified a designated spokesperson or legal counsel to assist him or her during the HSD administrative hearing process;

(2) presentation of MAD's case; if witnesses are called, the order of examination of each witness is:

(a) examination by MAD, its UR contractor, the MCO or their designees or other MAD designees;

(b) cross examination by the claimant, the claimant's authorized representative, designated spokesperson, or his or her legal counsel; and

(c) MAD's opportunity to redirect the witness;

(3) presentation of the claimant's case is at the claimant or the claimant's authorized representative discretion; if witnesses are called, the order of examination of each witness is:

(a) examination by claimant or the claimant's authorized representative, designated spokesperson or legal counsel;

(b) cross examination by MAD, its UR contractor, the MCO or their designees or another MAD designees and

(c) the claimant, claimant's authorized representative or designated spokesperson, or legal counsel's opportunity to redirect the witness;

(4) presentation of rebuttal evidence by MAD, its UR contractor, the MCO or their designees or another MAD designees and the claimant or the claimant's authorized representative, designated spokesperson or legal counsel respectively;

(5) the ALJ may direct further questions to any of the parties to the HSD administrative hearing to clarify inconsistencies or obtain an adequate evidentiary record; and

(6) the ALJ may ask specific parties to summarize and present closing arguments.

C. **Points of law:** The ALJ may direct the parties who have legal counsel to submit memoranda on points of law to assist the ALJ develop the HSD administrative hearing record and recommendation letter. The ALJ may dictate the length and scope of these submissions.

D. **Written closing argument:** At the discretion of the ALJ, the parties may be directed to make closing arguments, or submit written memoranda on points of law.

E. **Continuance:** The ALJ may, at his or her discretion, continue the HSD administrative hearing upon the request of the parties to the HSD administrative hearing or the ALJ's own motion, to allow for the admission of additional testimony or evidence.

The reasons for the continuance must be clearly stated for the record. Written notice of the date, time, and place of the continued HSD administrative hearing shall be sent to the parties if they are not set at the time of the approval of the continuance.

F. **Additional evidence:** If the ALJ requires additional evidence to further clarify documentary evidence presented during the HSD administrative hearing, he or she may close the HSD administrative hearing but keep the record open and direct the parties to submit such clarifying evidence. The assigned ALJ shall provide each party to the HSD administrative hearing with a copy of the direction for further evidence and the documentary evidence to be submitted. Any party may respond to the ALJ's direction, in writing, within 10 calendar days of its receipt of the ALJ's notice. The ALJ will provide the other parties to the HSD administrative hearing a copy of any such submissions and the additional evidence and responses, subject to the ALJ's discretion and appropriate objections by any of the parties to the HSD administrative hearing, shall become part of the HSD administrative hearing record.

G. **Re-opening a closed HSD administrative hearing:** The ALJ may at his or her discretion, or subject to an order from a court of competent jurisdiction, or at the request of the MAD director may re-open a closed HSD administrative hearing when the evidentiary record fails to address an issue that is relevant to resolution of the HSD administrative hearing request. Written notice of the date, time and place of the re-opened HSD administrative hearing shall be sent by the ALJ to the parties not less than 10 calendar days before the re-opened HSD administrative hearing. Once the MAD director or designee has issued an HSD administrative final decision, the HSD administrative hearing cannot be re-opened absent an order from a court of competent jurisdiction. A claimant or the claimant's authorized representative may request a new HSD administrative hearing if additional material information becomes available that was not available at the time of the first HSD administrative hearing. The previously assigned ALJ has the discretion to determine if the additional information would necessitate a new HSD administrative hearing.

[8.354.2.15 NMAC - Rp, 8.354.2.13 NMAC, 8/1/14]

8.354.2.16 HSD ADMINISTRATIVE HEARING FINAL DECISION:

The final decision concerning the HSD administrative hearing is made by the MAD director or designee after the review of the HSD administrative hearing record and the ALJ's recommendation. If the ALJ had rendered a decision to dismiss a HSD administrative hearing request, that decision becomes the HSD administrative hearing final decision and the following process detailed in this section of the rule does not apply.

A. **Decision based on the record:** The ALJ's HSD administrative hearing recommendation must be based solely on the record of the HSD administrative hearing.

B. **ALJ recommendation:** The ALJ shall review the record of the HSD administrative hearing and submit a complete copy of the record to the MAD director.

(1) Content of the ALJ recommendation: the ALJ shall specify the reasons for his or her conclusions, identifies the supporting evidence, references the pertinent federal and state statutes, regulations, and NMAC rules, and responds to the arguments of the parties within his or her written report.

(2) The ALJ recommends:

(a) in favor of the claimant if MAD, its UR contractor, the MCO or their designee's intended or taken adverse action is not supported by a preponderance of the evidence submitted during the HSD administrative hearing; the ALJ will provide specific recommendations to each appealed adverse action;

(b) in favor of MAD, if the preponderance of evidence submitted during the HSD administrative hearing supports the intended or taken of adverse action or actions; or

(c) any other result supported by the record of the HSD administrative hearing which may be a combination of recommendations for and against the claimant or MAD; if the HSD administrative hearing covered a number of services or components of a service, the ALJ will provide specific recommendations to each intended or taken adverse action.

C. **Review of the record:** The record of the HSD administrative hearing and the report and recommendation of the ALJ is reviewed by the MAD director or designee to ensure conformity with applicable federal and state statutes, regulations, and rules.

D. **Final decision:** The ALJ's recommendation may be adopted or rejected in a final written decision by the MAD director or designee on issues that were the subject of the HSD administrative hearing. The MAD director's final decision letter shall specify the reasons for his or her decision and identify the regulatory authority and those portions of the record, applicable federal and state law, rules and policies or any combination of these that support the final decision. No person who participated during the HSD administrative hearing process may participate in arriving at a HSD administrative hearing final decision.

E. **Notice to parties:** MAD shall promptly provide all parties with a copy of the HSD administrative hearing final written decision. When the claimant is represented by legal counsel or an authorized representative, each must receive a copy of the final decision. The HSD administrative hearing final decision letter shall include an explanation that the parties have exhausted all HSD administrative remedies and a claimant or the claimant's authorized representative may pursue judicial review of this decision.

[8.354.2.156 NMAC - Rp, 8.354.2.14 NMAC, 8/1/14]

8.354.2.17 CONTINUATION OF BENEFITS PURSUANT TO A TIMELY APPEAL AND A HSD ADMINISTRATIVE HEARING PROCEEDING:

The HSD administrative hearing final decision is binding on all issues that have been the subject of the HSD administrative hearing as to the claimant unless stayed by either a court order or by the MAD director or designee. MAD is responsible for ensuring that the HSD administrative hearing final decision is fulfilled.

A. If the claimant is a member and he or she received a benefit under his or her approved continuation of the benefit and the decision is favorable to the MCO, the claimant's MCO will not take action to file a repayment claim to the claimant or the claimant's authorized representative for the services received during the HSD administrative hearing process up to the date of the HSD administrative hearing final decision.

B. If the claimant is not enrolled in an MCO and the HSD administrative hearing final decision is favorable to MAD, MAD will not take action to file a repayment claim to the claimant or the claimant's authorized representative for the services received during the HSD administrative hearing process up to the date of the HSD administrative hearing final decision.

C. When the HSD administrative hearing final decision is favorable to the claimant, MAD, its UR contractor, the MCO or their designees will authorize the benefit and coverage set forth in the HSD administrative hearing final decision.

[8.354.2.17 NMAC - Rp, 8.354.2.10 NMAC, 8/1/14]

8.354.2.18 IMPLEMENTATION OF THE HSD ADMINISTRATIVE FINAL DECISION:

The HSD administrative hearing final decision is binding on all issues that have been the subject of the HSD administrative hearing as to the claimant unless stayed by either a court order or by the MAD director or designee. MAD is responsible for ensuring that the HSD administrative hearing final decision is fulfilled.

A. If the claimant is a member and he or she received a benefit under his or her approved continuation of the benefit and the decision is favorable to the MCO, the claimant's MCO will not take action to file a repayment claim to the claimant or the claimant's authorized representative for the services received during the MCO appeal and the HSD administrative hearing process up to the date of the HSD administrative hearing final decision.

B. If the claimant is not enrolled in an MCO and the HSD administrative hearing final decision is favorable to MAD, its UR contractor or designee, MAD will not take action to file a repayment claim to the claimant or the claimant's authorized representative for the services received during the HSD administrative hearing process up to the date of the HSD administrative hearing final decision.

C. When the HSD administrative hearing final decision is favorable to the claimant, MAD, its UR contractor, the MCO or their designee will authorize the benefit and coverage set forth in the HSD administrative hearing final decision.

[8.354.2.18 NMAC - Rp, 8.354.2.15 NMAC, 8/1/14]

8.354.2.19 JUDICIAL APPEAL:

If the HSD administrative hearing final decision upholds MAD, its UR contractor, the MCO or their designee's intended or taken adverse action, the claimant or the claimant's authorized representative has the right to pursue judicial review of the HSD administrative hearing final decision and is notified of that right in the HSD administrative final decision letter. Judicial appeals for the HSD administrative hearing final decision are governed by New Mexico statutes and court rules. While the following subsections highlight applicable procedures, they should not be considered a substitute for examining the statutes and rules themselves.

A. **Jurisdiction:** Administrative appeals for a claimant are governed by the Section 39-3-1.1 NMSA 1978 and by Rule 1-074, Rules of Civil Procedures for the district courts.

B. **Timeliness:** Unless otherwise provided by law, a claimant or the claimant's authorized representative must appeal the HSD administrative hearing final decision within 30 calendar days of the date of the HSD administrative hearing final decision by filing a notice of appeal with the clerk of the appropriate New Mexico district court.

C. **Jurisdiction and standard of review:** All judicial appeals are based on the record made at the HSD administrative hearing, and in accordance with state statute and court rules. HSD files a copy of the HSD administrative hearing record with the court clerk and furnishes one copy to the claimant or the claimant's authorized representative and if applicable, his or her legal counsel within 30 calendar days after receipt of the notice of appeal. The court may set aside the HSD administrative hearing final decision if it finds the decision is:

(1) arbitrary, capricious, or an abuse of discretion;

(2) is not supported by substantial evidence in the record as a whole; or

(3) is otherwise not in accordance with the applicable law, statutes or rules.

D. **Benefits pending state district court appeal:** The filing of a notice of appeal shall not stay the enforcement of the HSD administrative hearing final decision. The claimant or the claimant's authorized representative may seek a stay upon a motion to the court or the claimant may request the MAD director or designee to stay the HSD administrative hearing final decision while the adverse action is on appeal in a New Mexico district court. If the court orders a stay, MAD, it UR contractor, the MCO or their

designee will maintain the benefit at issue in accordance with the state district court's order. If the New Mexico district court's final decision is in favor of MAD, its UR contractor, the MCO or their designee and the claimant continued utilizing his or her benefit during the district court appeal process, see 8.352.2 NMAC for the repayment process.

[8.354.2.19 NMAC - Rp, 8.354.2.16 NMAC, 8/1/14]

CHAPTER 355-369: [RESERVED]

CHAPTER 370: OVERSIGHT OF LICENSED HEALTHCARE FACILITIES AND COMMUNITY BASED WAIVER PROGRAMS

PART 2: ADJUDICATORY HEARINGS FOR LICENSED FACILITIES

8.370.2.1 ISSUING AGENCY:

This rule is promulgated and issued by the New Mexico Health Care Authority.

[8.370.2.1 NMAC - N, 7/1/2024]

8.370.2.2 SCOPE:

Except as otherwise specifically provided by statute or rule, the scope of the sections in this part apply to adjudicatory proceedings conducted by the authority.

[8.370.2.2 NMAC - N, 7/1/2024]

8.370.2.3 STATUTORY AUTHORITY:

This rule is promulgated by the secretary of the New Mexico health care authority (authority), pursuant to the authority granted under Section 9-8-1 et seq. NMSA 1978 which establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation; the authority granted pursuant to 42 U.S.C. Section 1396a(i); the authority granted under 42 C.F.R. Sections 431.151 through 431.154; 442.118; and 8.353.2.9 NMAC, based on sanctions imposed by the authority on licensed facilities in which medicaid recipients receive services. This rule does not provide adjudicatory procedures for appeals from actions related to the home and community based waiver.

[8.370.2.3 NMAC - N, 7/1/2024]

8.370.2.4 DURATION:

Permanent.

[8.370.2.4 NMAC - N, 7/1/2024]

8.370.2.5 EFFECTIVE DATE:

This rule becomes effective on July 1, 2024, unless a later date is cited at the end of a section.

[8.370.2.5 NMAC - N, 7/1/2024]

8.370.2.6 OBJECTIVE:

This rule provides adjudicatory procedures for licensed health facilities: administrative appeals of the initial denial of an annual license; of an emergency prehearing suspension of license and of emergency intermediate sanctions; of authority action denying renewal, suspending, or revoking a license, or of the authority's imposition of an intermediate sanction or civil monetary penalty; and of a cease and desist order.

[8.370.2.6 NMAC - N, 7/1/2024]

8.370.2.7 DEFINITIONS:

For purposes of this rule, the following shall apply.

A. "Adjudicate" means to decide, settle or determine a disputed action. The term applies to a determination of facts and the application of law and reason to the facts by an impartial decision maker.

B. "Administrator" means the person or manager in charge of the day-to-day operation of the facility or medicaid provider. The administrator may be the licensee or an authorized representative of the licensee.

C. "Annual license" is the legally required authority- issued license authorizing a facility to operate for the one year period of time noted on the face of the document and issued on an initial and renewal basis.

D. "Appellant" means the party seeking review in a court of competent jurisdiction of a final decision of the licensing authority.

E. "Applicant" means the individual responsible for the day-to-day operations of the facility, and who signs the license application. The applicant must be the individual. The applicant may be the same individual as the prospective licensee or may be an authorized representative of the prospective licensee.

F. "Application" means the forms, attachments and other writings and drawings required by the licensing authority, to be completed and submitted by the applicant for the licensing authority's review for granting or denying a license.

G. "Burden of proof" refers to the requirement of a party to produce an amount of evidence tending to prove a proposition.

H. "Cease and desist order" means a formal, enforceable order of the licensing authority issued to a facility, usually in instances where the facility is operating without a license.

I. "Certification" means the determination made by the licensing authority as to whether a health facility or agency complies with applicable federal regulations and the conditions of participation in the medicare or medicaid program. Certification of noncompliance may be the basis for denial or termination of provider participation in the medicare or medicaid programs, or the basis for the imposition of other sanctions including license revocation.

J. "Denial of an application" and **"denial of an annual license"** mean action by the licensing authority declining to grant an annual license on the basis of noncompliance with applicable laws and regulations.

K. "Director" means the director of the division of health improvement of the New Mexico health care authority.

L. "Emergency suspension of license" means the licensing authority's prohibition of operation of a facility for a stated period of time by temporary withdrawal of the license, prior to a hearing on the matter, when immediate action is required to protect human health and safety. The emergency suspension is carried out by personal service of an emergency suspension order and notice of a hearing. A hearing must be held within five working days of the effective date of suspension ("five-day hearing"), as noticed in the emergency suspension order and notice of hearing, unless the right to a hearing is waived by the licensee or the right to a five-day hearing is waived and a hearing is requested at a later date by the licensee.

M. "Facility" means any health facility or health agency required to be licensed by the licensing authority pursuant to the authority of the Public Health Act, Sections 24-1-1 to 24-1-21 NMSA 1978, as amended, or required to be certified by the licensing authority in order to be eligible to receive and medicaid reimbursement for services provided to eligible recipients. This does not refer to community providers.

N. "Final decision" means the dispositive written document entered following a request for hearing under this rule, stating the final determination of the secretary made after review of the hearing officer's report and recommendation.

O. "Five-day hearing" means the hearing noticed in the emergency suspension order and notice of hearing. See the definition of "emergency suspension of license" in Subsection E of this section.

P. "Hearing" means a proceeding in which legal rights, duties or privileges of a party are at issue and which shall include an opportunity for the parties to present such testimony and evidence as the hearing officer deems relevant and material to the issues to be adjudicated.

Q. "Hearing officer" means an individual designated to conduct prehearing conferences and hearings and to make reports and recommendations, based on the evidence taken, to the secretary.

R. "Initial applicant" means the individual who signs the initial license application.

S. "License" means the document issued by the licensing authority which authorizes the lawful operation of a facility. The term "license" includes an annual license and a temporary license.

T. "Licensee" means the person in whose name a license for a facility has been issued and who is legally responsible for the facility's compliance with applicable laws and regulations.

U. "Licensing authority" means the division of health improvement of the New Mexico health care authority. The licensing authority is also the state survey agency authorized to perform survey and certification functions for the medicaid and medicare programs.

V. "Official notice" means administrative notice, the act by which the hearing officer, in conducting the hearing or framing their decision, recognizes the existence and truth of certain facts without the production of evidence by the parties.

W. "Party" and **"parties"** means the original persons, entities, or agencies to a hearing under this rule and such intervenors permitted to intervene by written order of the hearing officer.

X. "Person" means an individual, partnership, proprietorship, agency, corporation, company, association, tribal government or tribal organization, state or local government entity, or similar legal entity and the legal successor thereof.

Y. "Prospective licensee" means the person in whose name a license for operation of a facility is to be issued.

Z. "Recipient" means the individual who receives service of notice and, specifically includes the person who receives a cease and desist order issued by the licensing authority.

AA. **"Renewal applicant"** means the individual who signs the renewal license application.

BB. **"Revocation of license"** means the licensing authority's cancellation and withdrawal of a license on a permanent basis.

CC. **"Secretary"** means the secretary of the New Mexico health care authority and includes their authorized representative.

DD. **"Subpoena"** means a written command issued by the hearing officer, at the request of a party, directing the appearance by a person, at a designated time and place, to give testimony upon a certain matter. The subpoena may include a command to produce books, papers, documents and other things, in which case it is issued as a subpoena duces tecum.

EE. **"Suspension of license"** means the licensing authority's temporary cancellation and withdrawal of a license for a stated period of time.

FF."Taking of appearances" means recording for the record the names of persons appearing at the hearing and their representatives, if any.

GG. **"Temporary license"** means, with respect to a health facility, an operating license issued for a stated period of time not to exceed 120 days. Not more than two consecutive temporary licenses may be granted by the licensing authority.

HH. **"Working days"** means, when determining compliance with various deadlines in this rule, Monday through Friday of each calendar week, excluding state observed holidays.

[8.370.2.7 NMAC - N, 7/1/2024]

8.370.2.8 STANDARD OF COMPLIANCE:

The degree of compliance required by this rule is designated by the use of the words "shall" or "must" and "may"."Shall" and "must" designate mandatory requirements; "may" is permissive.

[8.370.2.8 NMAC - N, 7/1/2024]

8.370.2.9 USAGE:

The singular number includes the plural, and the plural includes the singular.

[8.370.2.9 NMAC - N, 7/1/2024]

8.370.2.10 SEVERABILITY:

If any portion of this rule or the application of this rule, is held to be invalid, the validity of the remainder of the regulations, or the application of the regulations to different situations or persons, shall not be affected.

[8.370.2.10 NMAC - N, 7/1/2024]

8.370.2.11 HEARING PROCESS AND PROCEDURES: GROUNDS FOR REQUESTING HEARING:

The actions or proposed actions of the authority which may be contested are:

A. denial of an application for initial annual license;

B. denial of an application for renewal of an annual license;

C. a cease and desist order;

D. emergency suspension of license (pre-hearing);

E. suspension of license (non-emergency, post- hearing);

F. revocation of license;

G. intermediate sanctions or civil monetary penalties.

[8.370.2.11 NMAC - N, 7/1/2024]

8.370.2.12 INITIATION OF HEARING PROCESS:

The hearing process is begun upon receipt by the licensing authority of a timely request for hearing, or, in the case of a pre- hearing emergency suspension of license, by service upon the licensee of an emergency suspension order and notice of hearing.

[8.370.2.12 NMAC - N, 7/1/2024]

8.370.2.13 REQUEST FOR HEARING:

A. Written and signed: the request for hearing shall be made in writing and shall be signed by the person or an authorized representative of the person against whom the action of the authority is taken.

B. Delivery: the request for hearing shall be addressed to the director of the division of health improvement or to any other authority employee indicated in the authority's notice, and it shall be hand delivered or mailed, return receipt requested, to such person.

[8.370.2.13 NMAC - N, 7/1/2024]

8.370.2.14 TIME FOR REQUESTING HEARING:

The request for hearing must be received by the authority:

A. within 10 working days after receipt by the initial applicant, renewal applicant or prospective licensee of notice of the decision denying the application for license;

B. within five working days after receipt of a cease and desist order;

C. within 10 working days after receipt by the licensee of a notice of suspension or notice of revocation;

D. within four working days after receipt by the licensee of an emergency suspension order or emergency intermediate sanction and notice of hearing (pre-hearing emergency suspension of license).

[8.370.2.14 NMAC - N, 7/1/2024]

8.370.2.15 EFFECT OF REQUEST FOR HEARING; STAY:

A. Denial of an initial annual license: receipt by the licensing authority of a timely request for hearing upon the denial of an initial annual license does not allow the facility to begin operation. If the facility begins operation without a license, it is operating illegally and is subject to appropriate administrative and judicial sanctions and criminal charges.

B. Denial of renewal of annual license: receipt by the licensing authority of a timely request for hearing upon the denial of renewal of an annual license stays the expiration of the current license until a final decision.

C. Cease and desist order: receipt by the licensing authority of a timely request for hearing following issuance of a cease and desist order does not allow a facility to operate.

D. Emergency suspension of license: if the licensee intends to appear for the five-day hearing noticed in the emergency suspension order and notice of hearing, a request for hearing need not be made. If the licensee timely waives the five-day hearing and requests a hearing to be held at a later date, the effect of such waiver is to allow time for additional prehearing discovery. Such waiver and request for later hearing does not stay the emergency suspension. The facility operates without legal authority if it continues operation after the effective date of the emergency suspension and becomes subject to appropriate administrative and judicial sanctions and criminal charges.

E. Suspension, revocation, intermediate sanctions and civil monetary penalties: receipt by the licensing authority of a timely request for hearing following notice of the suspension or revocation of a current license stays suspension or revocation of the license until a final decision is reached following the hearing.

[8.370.2.15 NMAC - N, 7/1/2024]

8.370.2.16 SCHEDULING HEARING:

A. Scheduling: promptly upon receipt of a timely request for hearing, the authority shall schedule a hearing to be held in Santa Fe, unless the hearing is required to be held elsewhere by applicable regulation.

B. Change of location: upon timely motion, and with a showing of undue hardship and burden, the hearing officer may order the hearing location changed.

[8.370.2.16 NMAC - N, 7/1/2024]

8.370.2.17 HEARING OFFICER:

A. Designation of hearing officer: promptly upon receipt of a timely request for hearing, the secretary or authorized representative of the authority shall designate a hearing officer.

B. Qualifications: the hearing officer shall be impartial and shall have no personal bias or interest in the matter to be heard. He or she may be an officer or employee of the New Mexico health care authority as long as he was not involved in making the challenged administrative decision. The hearing officer need not be a licensed attorney, however, he should have relevant experience with evidentiary, adjudicatory proceedings.

C. Disqualification: a hearing officer designated to preside at the hearing may disqualify himself on their own motion, or upon written request to, and approval of, the secretary of the New Mexico health care authority.

D. Party's request for disqualification: whenever any party deems the hearing officer to be disqualified to preside, such party may file a written request to disqualify with the secretary of the New Mexico health care authority. The request shall be supported by affidavits setting forth the grounds for disqualification. The secretary shall promptly determine the validity of the grounds alleged and take appropriate action.

[8.370.2.17 NMAC - N, 7/1/2024]

8.370.2.18 DUTIES OF HEARING OFFICER:

A. Official file: upon appointment, the hearing officer shall establish an official file which will contain all the filed notices, pleadings, briefs, recommendations, correspondence and decisions. It shall also contain the authority's notice of action as well as the request for hearing. Upon conclusion of the proceeding and following issuance of the final decision, the hearing officer shall turn over to the authority this official file for future custody.

B. Preside at hearing: the hearing officer shall preside over the hearing, administer oaths, take evidence and decide evidentiary objections and any motions or other matters that arise prior to or during the hearing.

C. Evidence file: the hearing officer shall maintain an evidence file with each document or item admitted into evidence. Proffered items not admitted into evidence, at the request of the offering party, shall be so identified and separately maintained by the hearing officer.

D. Subpoenas: the hearing officer, upon request by a party, may issue subpoenas and subpoenas duces tecum.

[8.370.2.18 NMAC - N, 7/1/2024]

8.370.2.19 PARTIES:

The principal and original parties to a hearing conducted under this rule shall be the appropriate agency of the authority, and the applicant or prospective licensee, the licensee, licensed medicaid provider applicant, or the recipient of a cease and desist order, depending upon the nature of the hearing. Generally, intervenors are not allowed to participate as a party.

[8.370.2.19 NMAC - N, 7/1/2024]

8.370.2.20 LEGAL REPRESENTATION:

A. Natural persons: natural persons may appear on their own behalf or by an attorney licensed to practice in New Mexico.

B. Entities: the authority, corporations and other organizations and entities may appear by a bona fide officer, employee or representative or may be represented by an attorney licensed to practice in New Mexico.

C. Filing: any party filing documents in the appeal shall sign the original and hand deliver or mail it to the hearing officer and shall hand deliver or mail copies to all other parties.

[8.370.2.20 NMAC - N, 7/1/2024]

8.370.2.21 DISCOVERY:

A. Minimum discovery; inspection and copying of documents: each party shall have access to the relevant documents in the possession of the other party, except confidential or privileged documents. Access to the authority's relevant documents may be had during normal business hours at the authority's appropriate business offices. A reasonable copying fee may be charged.

B. Minimum discovery; witnesses: the parties shall each disclose to each other orally or in writing and to the hearing officer, the names of witnesses to be called, together with a brief summary of the testimony of each witness. In situations where statements will be presented to the hearing officer, rather than witnesses examined, the names of the persons making the statements and the summary of the statements, shall be disclosed.

C. Additional discovery: at the hearing officer's discretion, upon a written request by a party which sets out reasons that additional discovery is needed, further discovery in the form of production and review of documents and other tangible things, examinations and premise inspections, interviews or written interrogatories may be ordered. In exercising their authority to determine whether further discovery is necessary or desirable, the hearing officer should consider whether the complexity of fact or law reasonably requires further discovery to ensure a fair opportunity to prepare for the hearing and whether such request will result in unnecessary hardship, cost, or delay in holding the hearing.

D. Costs: cost of document copying, mail or delivery service, interviews or written interrogatories, including mileage and per diem, paid in accordance with the New Mexico Per Diem and Mileage Act (Section 10-8-1, NMSA 1978) shall be paid by the requesting party.

E. Depositions prohibited: oral or written depositions are not permitted.

[8.370.2.21 NMAC - N, 7/1/2024]

8.370.2.22 PREHEARING CONFERENCE:

A. Purpose: at the discretion of the hearing officer, upon request of a party or upon the hearing officer's own motion, a prehearing conference shall be scheduled by the hearing officer at a time and place reasonably convenient to all parties, in order to: limit and define issues; discuss possible prehearing disposition; consider possible stipulations of factual or legal issues, or stipulations concerning the admissibility of evidence; limit the testimony or the number of witnesses, the issues or the evidence; and, discuss such other matters as may aid in the simplification of evidence and disposition of the proceedings.

B. Informal: such a conference shall be informal. No offer of settlement made at the conference shall be admissible in evidence at any later hearing. Stipulations and admissions shall be binding and may be used as evidence at the hearing. At the hearing officer's discretion, stipulations and admissions may be made in writing and filed with the hearing officer as part of the official record of the proceedings.

C. Notice: the hearing officer will give notice of the time and place of the pre-hearing conference to the parties by telephone, in person or by mail.

D. Costs: each party shall bear its own costs, including transportation costs.

E. Record: a record of the prehearing conference shall not be kept. A prehearing order or other pleadings may be filed as a result of the prehearing conference.

[8.370.2.22 NMAC - N, 7/1/2024]

8.370.2.23 PREHEARING DISPOSITION:

The subject matter of any hearing may be disposed of by stipulation, settlement or consent order, unless otherwise precluded by law. Any stipulation, settlement or consent order reached between the parties shall be written, signed by the hearing officer and the parties or their attorneys, and submitted to the secretary of the New Mexico health care authority. Such prehearing disposition shall be effective only if approved by the secretary.

[8.370.2.23 NMAC - N, 7/1/2024]

8.370.2.24 POSTPONEMENT OR CONTINUANCE:

The hearing officer in their discretion, may postpone or continue a hearing upon their own motion or upon motion of a party, for good cause shown. Notice of any postponement or continuance shall be given in person, by telephone, or by mail to all parties within a reasonable time in advance of the previously scheduled hearing date.

[8.370.2.24 NMAC - N, 7/1/2024]

8.370.2.25 ADDITIONAL PLEADINGS:

Solely at the discretion of the hearing officer, pleadings, motions and briefs allowed in the state district courts of New Mexico may be filed.

[8.370.2.25 NMAC - N, 7/1/2024]

8.370.2.26 CONDUCT OF THE HEARING:

A. Public: all hearings shall be open to the public, unless a closed hearing is asked for by the person requesting the hearing and the hearing officer finds good cause exists for closing the hearing. The authority shall not request a closed hearing.

B. Powers of hearing officer: the hearing officer shall have all the powers necessary to conduct a hearing and to take all necessary action to avoid delay, maintain order, and assure development of a clear and complete record, including but not limited to the power to: administer oaths or affirmations on the request of any party; schedule continuances; examine witnesses and direct witnesses to testify; limit repetitious and cumulative testimony; and set reasonable limits on the amount of time a witness may testify; decide objections to the admissibility of evidence or receive the evidence subject to later ruling; receive offers of proof for the record; direct parties to appear and confer for the settlement or simplification of issues, and to otherwise conduct prehearing conferences; dispose of procedural requests or similar matters; and, enter findings of fact, conclusions of law, orders, and reports and recommendations.

[8.370.2.26 NMAC - N, 7/1/2024]

8.370.2.27 ORDER OF PRESENTATION; GENERAL RULE:

Except as specifically provided in the following section, the order of presentation for hearings in all cases, including but not limited to those arising from suspension, revocation, denial of renewal of license, intermediate sanctions, civil monetary penalties, emergency suspension, emergency intermediate sanctions shall be:

A. appearances: opening of proceeding and taking of appearances by the hearing officer;

B. pending matters: disposition by the hearing officer of preliminary and pending matters;

C. opening statements: the opening statement of the authority; and then the opening statement of the licensee or the party challenging the authority's action;

D. cases: the authority's case-in-chief; and then the case-in-chief of the licensee or the party challenging the authority's action;

E. rebuttal: the authority's case-in-rebuttal;

F. closing argument: the authority's closing statement, which may include legal argument; and then the closing statement, which may include legal argument of the licensee or the party challenging the authority's action; and

G. close: closing of proceedings by the hearing officer.

[8.370.2.27 NMAC - N, 7/1/2024]

8.370.2.28 ORDER OF PRESENTATION; SPECIAL CASES RULE:

The order of presentation in denial of an initial annual license and cease and desist order cases is:

A. appearances: opening of proceeding and taking of appearances by the hearing officer;

B. pending matters: disposition by the hearing officer of preliminary and pending matters;

C. opening statements: applicant's or recipient's opening statement; and then the opening statement of the licensing authority;

D. cases: the applicant's or recipient's case- in-chief; and then the licensing authority's case-in-chief;

E. rebuttal: the applicant's/prospective licensee's or recipient's case-in-rebuttal;

F. closing argument: the applicant's/prospective licensee's or recipient's closing statement, which may include legal argument; and then the licensing authority's closing statement, which may include legal argument; and

G. close: closing of proceedings by the hearing officer.

[8.370.2.28 NMAC - N, 7/1/2024]

8.370.2.29 BURDEN OF PROOF:

A. General rule: except as specifically provided for in the following paragraph, in all cases, including but not limited to those arising from suspension, revocation, denial of renewal of license, intermediate sanctions, civil monetary penalties, emergency suspension, emergency intermediate sanctions, or medicaid provider appeals, the authority shall present evidence supporting its decision. The party challenging the authority's decision shall then present evidence to show that the authority's decision is incorrect. The burden of proving by a preponderance of the evidence the basis for the decision at issue rests with the authority.

B. Special cases: in cases arising from the denial of initial license and cease and desist orders, the applicant for initial license or the recipient of the cease and desist order shall present evidence supporting the license application, or evidence supporting the legality of operating without a license. The licensing authority shall then present evidence supporting the denial of the application, or evidence of the propriety and of cease and desist order. The burden of proving by a preponderance of the evidence:

(1) that the application was improperly denied by the licensing authority and should be approved, or

(2) that operation is proper and in accordance with law, rests with the license applicant or recipient of the cease and desist order.

[8.370.2.29 NMAC - N, 7/1/2024]

8.370.2.30 EVIDENCE:

A. Technical rules not applicable: in general, the technical rules of evidence, such as the New Mexico rules of evidence, shall not apply but may be used as a guide to the principles of evidence and may be considered in determining the weight to be given any item of evidence. Nonprivileged, material and relevant evidence of the type which is relied upon by reasonably prudent persons in the conduct of serious affairs is admissible. The hearing officer may exclude, either with or without formal objection, unreliable, immaterial, irrelevant and unduly repetitious testimony and evidence.

B. Objections: a party may timely object to evidentiary offers by stating the objection together with a succinct statement of the grounds. The hearing officer may rule on the admissibility of evidence at the time an objection is made or may receive the evidence subject to later ruling.

C. Official notice: official notice may be taken of all facts of which judicial notice may be taken. Any party shall, on timely request, be afforded an opportunity to contest the noticed fact.

[8.370.2.30 NMAC - N, 7/1/2024]

8.370.2.31 EVIDENCE FROM WITNESSES:

A. Statement or examination of witnesses: the hearing officer, at their discretion, may receive evidence in the form of statements where a party is not represented by counsel; otherwise, the normal manner of witness testimony shall be by direct examination, cross examination and redirect examination, and through questioning by the hearing officer.

B. Written form: any part of the evidence may be received by the hearing officer in writing when a hearing will be expedited and the interests of the parties will not be substantially prejudiced.

[8.370.2.31 NMAC - N, 7/1/2024]

8.370.2.32 RECORD:

A. Content: the record of a proceeding under this rule shall include all documents contained in the official files maintained by hearing officer, including findings of fact and conclusions of law, the recommendations of the hearing officer; and the final decision of the secretary.

B. Recording the hearing: proceedings at which evidence is presented orally shall be recorded by means of a mechanical or electronic sound recording device provided by the authority. Such recording need not be transcribed, unless requested by a party who shall arrange and pay for the transcription. Any party who seeks judicial review, in conformity with applicable appellate rules, must request leave to file the audio tapes of the administrative proceeding as the transcript of the proceedings together with the necessary copies made and certified as true and correct by an authorized employee of the authority.

[8.370.2.32 NMAC - N, 7/1/2024]

8.370.2.33 REPORT AND RECOMMENDATION OF HEARING OFFICER:

A. Hearing officer's report shall contain: a statement of the issues raised at the hearing; findings of fact and conclusions of law, applying law and regulations to the facts. Findings of fact shall be based on the evidence presented at the hearing or known to all parties, including matters officially noticed; and recommended determination.

B. Submission for final decision: the hearing officer's report together with the full hearing record shall be submitted to the secretary of the New Mexico health care authority for a final determination. The report and recommendation shall be submitted within 30 working days after expiration of the time set for submittal of the last post hearing submission of requested findings and conclusions, arguments or briefs.

C. Optional announcement of decision: at the close of the hearing, the hearing officer may announce their decision and request that the parties prepare appropriate post hearing submissions, including a decision for approval by the hearing officer. The hearing officer's oral and written decision is a recommendation to the secretary of the New Mexico health care authority and is not a final order.

[8.370.2.33 NMAC - N, 7/1/2024]

8.370.2.34 FINAL DECISION:

The secretary of the authority shall render a final administrative determination within ten working days of the submission of the hearing officer's report. Parties may be notified personally, by telephone or by mail of the final order. A copy of the final decision shall be mailed to each party or attorney of record.

[8.370.2.34 NMAC - N, 7/1/2024]

8.370.2.35 FAILURE TO APPEAR:

A. Default: failure of the party requesting the hearing to appear on the date and at the time set for hearing, without good cause shown, shall constitute a default and the hearing officer shall so notify all parties in writing.

B. Entry of decision: the hearing officer shall enter such findings, conclusions, decisions, recommendations, rulings and orders as are appropriate.

[8.1.2.35 NMAC - N, 7/1/2024]

8.370.2.36 PERSONAL SERVICE:

Whenever this rule requires or allow delivery of notice of administration action or proposed action by way of personal service, such service shall be made by a licensing authority employee or other authority representative, or by any individual over the age of 18 years.

[8.370.2.36 NMAC - N, 7/1/2024]

8.370.2.37 MANNER OF SERVICE:

A. Service on the person or at the place where found: personal delivery of any notice shall be given when the applicant licensee or recipient of a cease and desist order is present, by personal delivery to the individual, applicant, licensee or recipient at the facility or where the person is found; if delivery is refused, service is effected by leaving the notice at the place where such person was found. If the person to be served refuses to accept the notice or to permit the notice to be left, valid service is achieved by the attempts described above to personally deliver or leave the notice.

B. Service on a representative: service shall be complete when the individual, applicant, licensee or recipient is absent, by personal delivery at the facility to an administrative or other employee who reasonably appears to be capable of delivering the notice to the applicant licensee, recipient; or if no such person is available or willing to accept delivery, service may be made by posting notice on the most public part of the facility and by mailing, by U.S. postal service return receipt requested mail, a copy of the notice to the individual, applicant licensee, or recipient at the facility address or to the known address of the individual.

C. Mail: when notice is given by U.S. postal service certified return receipt requested mail, service shall be deemed to have been made on the date delivered, or if delivery is refused, service shall be deemed to have been made on the date on which delivery is attempted for the purpose of calculating all time requirements in this rule. When notice or service is given by regular first class mail, then receipt shall be deemed to have occurred on the third day following deposit in the U.S. mail, except when the

third day falls on a Saturday, Sunday or legal holiday in which case receipt shall be deemed to have occurred on the next working day.

[8.370.2.37 NMAC - N, 7/1/2024]

8.370.2.38 PROOF OF SERVICE:

The licensing authority employee, authority representative, or other individual making such service shall prepare and sign a statement indicating upon whom, where and when such personal service was made. If possible, the licensee's or applicant's or other recipient's signed acknowledgment of notice may be obtained. Failure to make proof of service shall not affect the validity of service. Personal service shall be deemed to be made at the time that notice is handed to the recipient of service, left or posted, in accordance with this section.

[8.370.2.38 NMAC - N, 7/1/2024]

8.370.2.39 JUDICIAL REVIEW:

District court: to the extent provided by law, a final decision may be reviewed by the district court for the county of Santa Fe.

[8.370.2.39 NMAC - N, 7/1/2024]

8.370.2.40 RULES GOVERNING JUDICIAL REVIEW:

The procedural rules for review of a final order are contained in the New Mexico statutes governing procedure for civil cases in the court of appeals and the district courts.

[8.370.2.40 NMAC - N, 7/1/2024]

8.370.2.41 RECORD:

A. The appellant shall make satisfactory arrangements with the authority for the preparation of the record of the proceeding for which judicial review is sought.

B. The record shall consist of the official file maintained by the hearing officer together with exhibits admitted into evidence, and the tapes or other transcript of the hearing.

C. The expense of copying tape recorded testimony and any other expense of preparing the record, including copying costs, shall be borne by the appellant.

D. The appellant shall certify in applicable pleadings filed with the court that arrangements have been made for preparation of a sufficient number of transcripts of the hearing and other items making up the record of the proceedings.

E. Within 30 days after service of notice of judicial appeal, the authority shall file in the appropriate court a certified copy of the original and duplicate copies of the tapes of the hearing under review together with the original and copies of the official file maintained and certified by the hearing officer.

[8.370.2.41 NMAC - N, 7/1/2024]

8.370.2.42 COURT ORDERED STAY:

Filing for judicial review does not itself stay enforcement of the final decision. Any party may petition the court whose jurisdiction has been properly invoked for an order staying enforcement.

[8.370.2.42 NMAC - N, 7/1/2024]

8.370.2.43 STANDARD OF REVIEW:

The reviewing court shall set aside the final order only if it is found to be:

A. arbitrary, capricious, or an abuse of discretion;

B. not supported by substantial evidence in the record;

C. beyond the authority of the authority; or

D. otherwise not in accordance with law.

[8.370.2.43 NMAC - N, 7/1/2024]

PART 3: HEALTH FACILITY LICENSURE FEES AND PROCEDURES

8.370.3.1 ISSUING AGENCY:

New Mexico Health Care Authority, Division of Health Improvement, Health Facility Licensing and Certification Bureau.

[8.370.3.1 NMAC - Rp, 8.370.3.1 NMAC, 1/28/2025]

8.370.3.2 SCOPE:

These regulations apply to any health facility as defined by Subsection D of 24-1-2 NMSA 1978, as amended, which is licensed or is required to be licensed, or any health facility which by federal regulations must be licensed to obtain or maintain federal funding.

[8.370.3.2 NMAC - Rp, 8.370.3.2 NMAC, 1/28/2025]

8.370.3.3 STATUTORY AUTHORITY:

The regulations set forth herein have been promulgated by the secretary of the New Mexico health care authority (authority), pursuant to the general authority granted under Subsection E of Section 9-8-6 of the Health Care Authority Act, NMSA 1978, as amended; and the authority granted under Subsection D of Section 24A-1-2, Subsection I of Section 24A-1-3, and Section 24A-1-5 of the Health Care Code, NMSA 1978, as amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.370.3.3 NMAC - Rp, 8.370.3.3 NMAC, 1/28/2025]

8.370.3.4 DURATION:

Permanent.

[8.370.3.4 NMAC - Rp, 8.370.3.4 NMAC, 1/28/2025]

8.370.3.5 EFFECTIVE DATE:

January 28, 2025, unless a later date is cited at the end of a section.

[8.370.3.5 NMAC - Rp, 8.370.3.5 NMAC, 1/28/2025]

8.370.3.6 OBJECTIVE:

The purpose of these regulations is to set licensing fees for health facilities. Fees are charged in order to partially defray the cost to the state of New Mexico of the licensing process, including the cost of on-site facility surveys by the licensing authority.

[8.370.3.6 NMAC - Rp, 8.370.3.6 NMAC, 1/28/2025]

8.370.3.7 DEFINITIONS:

For purposes of these regulations the following shall apply:

A. Definitions beginning with "A":

(1) **"amended license"** means a license issued by the licensing authority to reflect a non-substantive change which does not result in the voiding of the original license, for example, a change in the name of the facility or a change in the operator or administrator;

(2) **"annual license"** is a license granting permission to operate a facility for the one-year period stated on the face of the document; the annual license is issued on an initial and renewal basis following submission of an acceptable application for license and survey of the facility;

(3) **"application for license"** means the forms, attachments and other writings and drawings required by the licensing authority, under the authority of the regulations listed in 8.370.3.14 NMAC, of these regulations to be submitted for review by the licensing authority as part of the process of granting or denying an annual license.

B. Definitions beginning with "B": "bed" means an assembly for sleeping, whether or not the bed is in actual use and for which "bed capacity" the facility is licensed.

C. Definitions beginning with "C":

(1) **"capacity"** means the total number of persons or beds for which the facility is licensed;

(2) **"change of ownership"** licenses are non-transferable; a change of ownership licensure will follow the initial application and licensure fee schedule process.

D. Definitions beginning with "D": "denial of the license" means action by the licensing authority refusing to grant an annual license on the basis of non-compliance with applicable laws and regulations, and specifically under these regulations, nonpayment of the prescribed fee.

E. Definitions beginning with "E": [RESERVED]

F. Definitions beginning with "F":

(1) **"facility and health facility"** means any health facility required to be licensed by the licensing authority by authority of the Health Care Code, Sections 24A-1-1 et. seq. NMSA 1978, as amended, and the regulations listed in 8.370.3.14 NMAC of these regulations;

(2) **"facility inspections or survey and inspection survey"** means an entry into a facility and examination of the facility premises, inspection of records and interview of staff and clientele.

G. Definitions beginning with "G": [RESERVED]

H. Definitions beginning with "H": [RESERVED]

I. Definitions beginning with "I": [RESERVED]

J. Definitions beginning with "J": [RESERVED]

K. Definitions beginning with "K": [RESERVED]

L. Definitions beginning with "L":

(1) **"license"** means the document issued by the licensing authority which authorizes the operation of a facility. The term license may mean an annual license or a time-limited temporary license;

(2) **"licensing authority"** means the division of health improvement of the New Mexico health care authority.

M. Definitions beginning with "M": [RESERVED]

N. Definitions beginning with "N": [RESERVED]

O. Definitions beginning with "O": [RESERVED]

P. Definitions beginning with "P": [RESERVED]

Q. Definitions beginning with "Q": [RESERVED]

R. Definitions beginning with "R": [RESERVED]

S. Definitions beginning with "S": [RESERVED]

T. Definitions beginning with "T": "temporary license" means a provisional license granting permission to operate a facility for any period of time not to exceed 120 days; not more than two consecutive temporary licenses may be granted by the licensing authority.

U. Definitions beginning with "U": [RESERVED]

V. Definitions beginning with "V": [RESERVED]

W. Definitions beginning with "W": [RESERVED]

X. Definitions beginning with "X": [RESERVED]

Y. Definitions beginning with "Y": [RESERVED]

Z. Definitions beginning with "Z": [RESERVED]

[8.370.3.7 NMAC - Rp, 8.370.3.7 NMAC, 1/28/2025]

8.370.3.8 STANDARD OF COMPLIANCE:

Strict compliance is required of health facilities subject to these regulations. Payment of the licensing fee is a condition precedent to licensure of the health facility by the licensing authority.

[8.370.3.8 NMAC - Rp, 8.370.3.8 NMAC, 1/28/2025]

8.370.3.9 BASIS:

Licensing fees for inpatient health facilities providing professional medical or nursing services on a 24 hour basis are based upon a maximum fee per bed set by statute. Licensing fees are based upon the maximum fee for health facilities as set by statute.

[8.370.3.9 NMAC - Rp, 8.370.3.9 NMAC, 1/28/2025]

8.370.3.10 LICENSURE FEE SCHEDULE:

Rates shall be charged, as indicated in the fee schedule shown in this section, upon initial and renewal application for an annual license and prior to issuance of a second temporary license. The fee for the first temporary license is included in the initial application fee. This rule applies to both initial and renewal of health facility licenses.

A. Hospitals: general hospitals, limited hospitals, children's psychiatric hospitals, special hospitals to include orthopedic, children's, psychiatric, alcohol & drug abuse treatment, rehabilitation, and other special hospital as identified;

Facility Types:	Rate Per License	Term limit
Hospital bed rate	$12.00 per bed	Annually

B. Assisted living facilities:

Facility Types:	Rate Per License	Term limit
Assisted living base assessment rate	$300.00	Annually

C. Long-term care facilities:

Facility Types:	Rate Per License
skilled nursing facilities	$12.00 per bed

intermediate care facilities	$12.00 per bed
intermediate care facilities for mentally retarded	$12.00 per bed

D. Outpatient health facilities:

Facility Types:	**Rate Per License**
Health facilities providing outpatient medical services	$300.00
community mental health centers	$300.00
free standing hospice	$300.00
home health agency	$300.00
diagnostic and treatment center	$300.00
limited diagnostic and treatment center	$300.00
rural health clinic	$300.00
Infirmary	$300.00
new or innovative clinic	$300.00
ambulatory surgical center	$300.00

E. Other health facilities:

Facility Types:	**Rate Per License**
Facilities providing services for end stage renal disease	$300.00
services for end state renal disease	$300.00
renal transplantation center	$300.00
renal dialysis center	$300.00
renal dialysis facility	$300.00
self dialysis unit	$300.00
special purpose renal dialysis facility	$300.00
In home and inpatient hospice care	$300.00
Home health agencies	$300.00
Rural emergency hospital	$300.00
Freestanding birth centers	$300.00
Adult accredited residential treatment center	$600.00 bi-annually + $25 per bed
Boarding homes:	$300.00

F. Adult Day Care: Facilities providing adult day care and services for less than 24 hours a day for three or more clients in accordance with 8.370.20 NMAC.

Facility Types:	**Rate Per License**
Adult day care facilities	$300.00

[8.370.3.10 NMAC - Rp, 8.370.3.10 NMAC, 1/28/2025]

8.370.3.11 FEES FOR AMENDED LICENSES:

The licensing fee for each amended license issued shall be $300.00 as follows:

Amendment Type:	Amended License Fee:
Change of administrator or director	$300.00
Change of capacity (additional $25.00 per bed if fee is rate per bed)	$300.00
Change of facility name	$300.00
Change of physical address	$300.00

[8.370.3.11 NMAC - Rp, 8.370.3.11 NMAC, 1/28/2025]

8.370.3.12 METHOD OF PAYMENT FOR LICENSE FEES:

All applications for license and requests for amended license shall be accompanied by the prescribed fee in the form of a check or money order or state approved electronic payment process payable to the State of New Mexico or the health care authority.

[8.370.3.12 NMAC - Rp, 8.370.3.12 NMAC, 1/28/2025]

8.370.3.13 NON-REFUNDABLE PRE-PAYMENT OF FEES:

All fees are prepaid and are not refundable.

[8.370.3.13 NMAC - Rp, 8.370.3.13 NMAC, 1/28/2025]

8.370.3.14 RELATED REGULATIONS:

The following is a list of regulations regarding licensure of health facilities within the jurisdiction of the licensing authority.

A. Requirements for acute care, limited services and special hospitals, New Mexico health care authority, 8.370.12 NMAC.

B. Requirements for long term care facilities, New Mexico health care authority, 8.370.16 NMAC.

C. Requirements for facilities providing outpatient medical services and infirmaries, New Mexico health care authority, 8.370.18 NMAC.

D. Requirements for in-home and inpatient hospice care, New Mexico health care authority, 8.370.19 NMAC.

E. Requirements for adult day care facilities, New Mexico health care authority, 8.370.20 NMAC.

F. Requirements for intermediate care facilities for the mentally retarded, New Mexico health care authority, 8.371.2 NMAC.

G. Requirements for end stage renal disease facilities, New Mexico health care authority, 8.370.24 NMAC.

H. Requirements for assisted living facilities for Adults, New Mexico health care authority, 8.370.14 NMAC.

I. Requirements for home health agencies, New Mexico health care authority, 8.370.22 NMAC.

J. Requirements for rural emergency hospitals, New Mexico health care authority, 8.370.13 NMAC.

K. Requirements for boarding homes, New Mexico health care authority, 8.370.15 NMAC.

L. Requirements for clinical laboratory improvement amendments, 42 CFR, Part 493, New Mexico health care authority.

M. Requirements for community mental health centers, New Mexico health care authority, 8.321.6 NMAC.

N. Requirements for freestanding birth centers, New Mexico health care authority, 8.370.17 NMAC.

O. crisis triage centers, New Mexico health care authority, 8.321.11 NMAC.

PART 4: HEALTH FACILITY SANCTIONS AND CIVIL MONETARY PENALTIES

8.370.4.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.4.1 NMAC - N, 7/1/2024]

8.370.4.2 SCOPE:

These regulations apply to any health facility as defined by Subsection D of Section 24-1-2 NMSA 1978, as amended which is licensed or is required to be licensed, or any health facility which by federal regulations must be licensed to obtain or maintain federal funding.

[8.370.4.2 NMAC - N, 7/1/2024]

8.370.4.3 STATUTORY AUTHORITY:

The regulations set forth herein govern the imposition of intermediate sanctions and civil monetary penalties levied on health facilities licensed by the authority. These regulations have been promulgated by the secretary of the New Mexico health care authority (authority), pursuant to the general authority granted under Subsection E of Section 9-8-6 of the Health Care Authority Act, NMSA 1978, as amended; and the authority granted under Subsection D of Section 24- 1-2, Subsection I of Section 24-1-3, and Section 24-1-5 of the Public Health Act, NMSA 1978, as amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.370.4.3 NMAC - N, 7/1/2024]

8.370.4.4 DURATION:

Permanent.

[8.370.4.4 NMAC - N, 7/1/2024]

8.370.4.5 EFFECTIVE DATE:

July 1, 2024, unless a different date is cited at the end of a section.

[8.370.4.5 NMAC - N, 7/1/2024]

8.370.4.6 OBJECTIVE:

The purpose of these regulations is to:

A. comply with Section 24-1-5.2 NMSA 1978 which mandates that the authority adopt and promulgate regulations specifying the criteria for imposition of any intermediate sanction, including the amount of monetary penalties and the type and extent of intermediate sanctions;

B. encourage health facilities to maintain compliance with licensing requirements and accelerate compliance when found in violation; intermediate sanctions and civil

monetary penalties are intended as alternatives to implementation of more drastic measures such as revocation or suspension of license.

(1) The objective of the base penalty component of the civil monetary penalty is deterrence. The base penalty is imposed without regard to the time required for the correction.

(2) The objective of the daily penalty component of the civil monetary penalty is principally to motivate prompt correction of the deficiency and to protect the health and safety of the residents.

[8.370.4.6 NMAC - N, 7/1/2024]

8.370.4.7 DEFINITIONS:

For purposes of these regulations the following shall apply.

A. "Abuse" means any act or failure to act performed intentionally, knowingly or recklessly that causes or is likely to cause harm to a resident, including:

(1) physical contact that harms or is likely to harm a resident of a health facility;

(2) inappropriate use of a physical restraint, isolation, or medication that harms or is likely to harm a resident;

(3) inappropriate use of a physical or chemical restraint, medication, or isolation as punishment or in conflict with a physician's order;

(4) medically inappropriate conduct that causes or is likely to cause physical harm to a resident;

(5) medically inappropriate conduct that causes or is likely to cause great psychological harm to a resident;

(6) an unlawful act, a threat or menacing conduct directed toward a resident that results and might reasonably be expected to result in fear or emotional or mental distress to a resident.

B. "Exploitation" of a resident consists of the act or process, performed intentionally, knowingly, or recklessly, of using a resident's property for another person's profit, advantage or benefit without legal entitlement to do so.

C. "Serious physical harm" means physical harm of a type that causes a temporary or permanent physical loss of a bodily member or organ or functional loss of a bodily member or organ or of a major life activity.

D. "Serious psychological harm" means psychological harm that causes a temporary or permanent mental or emotional incapacitation or that causes an obvious behavioral change or obvious physical symptoms or that requires psychological or psychiatric treatment or care.

E. "Health facility" means any health care entity identified in the Public Health Act which requires state licensure in order to provide health services.

F. "Intermediate sanction" means a measure imposed on a facility for a violation(s) of applicable licensing laws and regulations other than license revocation, suspension, denial of renewal of license or loss of certification.

G. "Licensing authority" means the New Mexico health care authority.

H. "Neglect" means subject to the resident's right to refuse treatment and subject to the caregiver's right to exercise sound medical discretion, the grossly negligent:

(1) failure to provide any treatment, service, care, medication or item that is necessary to maintain the health or safety of a resident;

(2) failure to take any reasonable precaution that is necessary to prevent damage to the health or safety of a resident;

(3) failure to carry out a duty to supervise properly or control the provision of any treatment, care, good, service or medication necessary to maintain the health or safety of a resident.

I. "Class A deficiency" means:

(1) any abuse or neglect of a patient, resident, or client by a facility employee or for which the facility is responsible which results in death, or serious physical or psychological harm; or

(2) any exploitation of a patient, resident, or client by a facility employee or for which the facility is responsible in which the value of the property exceeds $1,500; or

(3) a violation or group of violations of applicable regulations, which results in death, serious physical harm, or serious psychological harm to a patient, resident, or client.

J. "Class B deficiency" means:

(1) any abuse or neglect of a patient, resident, or client by a facility employee or for which the facility is responsible; or

(2) any exploitation of a patient, resident, or client by a facility employee or for which the facility is responsible in which the value of the property exceeds $100, but is less than $1,500; or

(3) a violation or group of violations of applicable regulations which present a potential risk of injury or harm to any patient, resident or client.

K. "Class C deficiency" means:

(1) a violation or a group of violations of applicable regulations as cited by surveyors from the licensing authority which have the potential to cause injury or harm to any patient, resident or client if the violation is not corrected; or

(2) any exploitation of a patient, resident, or client by a facility employee in which the value of the property was less than $100.

[8.370.4.7 NMAC - N, 7/1/2024]

8.370.4.8 TYPES OF INTERMEDIATE SANCTIONS AND CIVIL MONETARY PENALTIES THAT MAY BE IMPOSED ON ANY LICENSED HEALTH CARE FACILITY:

A. A directed plan of correction: The licensing authority may direct a licensee to correct violations in a time specified, detailed plan.

B. Facility monitors: The licensing authority may select a facility monitor for a specified period of time to closely observe a health facility's compliance efforts. The facility monitor shall have authority to review all applicable facility records, policies, procedures and financial records; and the authority to interview facility staff and residents. The facility monitor may also provide consultation to the facility management and staff in the correction of violations. The health facility must pay all reasonable costs of a facility monitor.

C. Temporary management: The licensing authority may appoint temporary management with expertise in the field of health services to oversee the operation of the health facility. The management appointed will ensure that the health and safety of the facility's patients, residents, or clients is protected. The health facility must pay all reasonable costs of temporary management.

D. Restricted admissions or provision of services: The licensing authority may restrict the health facility from providing designated services and from accepting any new patients, residents, or clients until deficiencies are corrected.

E. Reduction of licensed capacity: The licensing authority may reduce the licensed capacity of a health facility.

F. Civil monetary penalty: The licensing authority may impose on any health facility a civil monetary penalty.

(1) The amount of the civil monetary penalty is based upon the total of:

(a) the initial base penalty;

(b) a daily penalty which is calculated based on the uncorrected deficiencies which exist for each day following the notice to the facility, and;

(c) any penalty doubling for repeat deficiencies. Civil monetary penalties shall not exceed a total of $5,000 per day.

(2) Limitation: A civil monetary penalty is not intended to force the closure of a licensed facility in lieu of license revocation.

(3) Burden of proof; limitation: Any facility seeking to show that the imposition of a civil monetary penalty will result in the forced closure of the facility must prove the same by clear and convincing evidence.

[8.370.4.8 NMAC - N, 7/1/2024]

8.370.4.9 EMERGENCY APPLICATION:

The intermediate sanctions may be imposed on an emergency basis when there exists an immediate threat to human health and safety. An administrative hearing will be schedule within five working days, unless waived by the facility. A request for a hearing does not stay the imposition of the emergency sanction.

[8.370.4.9 NMAC - N, 7/1/2024]

8.370.4.10 ADDITIONAL TYPES OF INTERMEDIATE SANCTIONS AND CIVIL MONETARY PENALTIES THAT MAY BE IMPOSED ON MEDICAID CERTIFIED NURSING FACILITIES:

A. Denial of payment and a facility monitor: The licensing authority may recommend denial of payment and a facility monitor to the medical assistance division, New Mexico health care authority when survey findings document non- compliance with federal regulations governing conditions of participation. Substandard quality of care must be documented on three consecutive surveys. The facility monitor shall remain until the facility has demonstrated, to the satisfaction of the licensing authority, that it is in compliance with the conditions of participation and that it will remain in compliance with such requirements.

B. Temporary management or termination of medicaid participation: The licensing authority may impose temporary management or recommend termination of the

medicaid provider participation agreement when survey findings document deficiencies which immediately jeopardize the health and safety of the residents. Notice of this sanction must provide that a hearing will be conducted within five working days of the imposition of the sanction.

[8.370.4.10 NMAC - N, 7/1/2024]

8.370.4.11 CONSIDERATIONS FOR IMPOSITION OF INTERMEDIATE SANCTIONS OR CIVIL MONETARY PENALTIES:

Before intermediate sanctions or civil monetary penalties are imposed, they will be reviewed and approved by the director of the public health division or their designee. The following factors shall be considered by supervisory personnel of the licensing authority when determining whether to impose one or more intermediate sanctions or civil monetary penalties:

A. death or serious injury to a patient, resident or client;

B. abuse, neglect or exploitation of a patient, resident or client;

C. regulatory violations which immediately jeopardize the health or safety of the patients, residents or clients of a health facility;

D. numerous violations, which combined, jeopardize the health or safety of patients, residents or clients of a health facility;

E. repetitive violations of the same nature found during two or more consecutive on-site visits or surveys of a health facility;

F. failure of a health facility to correct violations found during previous surveys or visits;

G. compliance history;

H. intentional deceit regarding condition of the facility;

I. effect of a civil monetary penalty on financial viability of the facility;

J. extenuating circumstances. Extenuating circumstances allow the licensing authority greater discretion to consider both mitigating and exacerbating circumstances not specifically defined.

[8.370.4.11 NMAC - N, 7/1/2024]

8.370.4.12 CORRECTION OF DEFICIENCIES:

When the licensing authority has determined deficiencies exist, the facility must correct the deficiencies according to the following time frames:

A. Immediate response: The risk of injury or harm created or presented by the Class A and B deficiencies must be immediately eliminated. Under no circumstance should a situation that presents a risk of injury or harm to residents be allowed to continue. The facility must immediately stop the risk of injury or harm, even if the Class A or B deficiency is not corrected, by eliminating such risk of injury or harm. The facility, in addition to any other sanction imposed by the licensing authority, shall submit a plan of correction addressing systemic causes of the deficiencies within a determinate period of time approved by the licensing authority.

B. Plan of correction: All deficiencies must be corrected within a fixed period of time approved by the licensing authority.

C. Failure to timely correct: A separate civil monetary penalty may be imposed for each uncorrected Class A, Class B or Class C deficiency for each day that the particular violation continues beyond the date specified for correction.

[8.370.4.12 NMAC - N, 7/1/2024]

8.370.4.13 CIVIL MONETARY PENALTIES; INITIAL BASE PENALTY:

The authority shall impose civil monetary penalties in accordance with these regulations on licensed facilities, not to exceed $5,000 per day.

A. Civil monetary penalty; initial base penalty assessed: An initial base penalty amount is assessed when a civil monetary penalty is imposed. The base penalty amount is calculated at the rate of the most serious deficiency. For example, the base penalty amount is assessed at the rate applicable to a class A deficiency when the survey or investigation results in citation of regulatory violations comprising class A, class B and class C deficiencies, because the most serious regulatory violation is the class A deficiency. The base penalty is assessed once for the deficiencies cited by the licensing authority during any particular survey or investigation. The base penalty amount is usually greater than the daily penalty amount for the same deficiency.

B. Civil monetary penalty; initial base penalty amount: The licensing authority has the discretion to impose an initial base penalty at any amount within the range for each deficiency level.

(1) Class A deficiency: not less than $500 and not greater than $5,000.

(2) Class B deficiency: not less than $300 and not greater than $3,000.

(3) Class C deficiency: not less than $100 and not greater than $500.

C. Doubling authorized for repeat violations: Where the facility was assessed a civil monetary penalty for class A or B deficiencies within the previous 24 months, the initial base penalty amount is doubled for each instance of the licensed facility's noncompliance with applicable regulation(s) previously assessed as a class A or B deficiency. Where the facility was assessed a civil monetary penalty for a class C deficiency within the previous 24 months, the initial base penalty amount may be doubled for the facility's noncompliance with the applicable regulation(s) previously assessed as a class C deficiency. If such doubling results in civil monetary penalties in excess of $5,000 per day, then the civil monetary penalty is $5,000 per day.

[8.370.4.13 NMAC - N, 7/1/2024]

8.370.4.14 CIVIL MONETARY PENALTY; DAILY PENALTY:

A. Accrual: The daily civil monetary penalty amount accrues from the date of harm or injury, or from the date of the regulatory noncompliance, or from the date of the facility's receipt of notice of the intermediate sanction, at the discretion of the licensing authority. The daily civil monetary penalty continues until notice is provided to the licensing authority that all the deficiencies which were originally cited and relied upon in calculating the amount of the daily penalty are corrected. No piecemeal reduction of the daily penalty is available for partial correction of regulatory violations cited as the basis for all or part of the daily penalty.

B. Calculation of amount: For a class A, class B, or class C deficiency, a daily civil monetary penalty is determined by multiplying the facility's licensed capacity times the facility penalty rate, times the severity index. The sum of the civil penalties for each class A, class B and class C deficiency is the total daily civil monetary penalty amount for all class A, class B and class C deficiencies. For each day that the total daily civil monetary penalty for each class A, class B and repeat class C deficiency exceeds $5,000, the civil monetary penalty is $5,000. Expressed as a formula, the calculation of the civil monetary penalty amount per deficiency equals the lesser of either:

(1) $5,000; or

(2) (licensed capacity) x (facility penalty rate) x (severity index).

[8.370.4.14 NMAC - N, 7/1/2024]

8.370.4.15 CALCULATION OF AMOUNT OF CIVIL MONETARY PENALTY - DOUBLING FOR REPEAT DEFICIENCIES:

A. General: In addition to doubling the base penalty, doubling the daily civil monetary penalty is authorized and is intended to eliminate repeat regulatory violations. Doubling occurs in instances where the facility was assessed a base penalty or a daily civil monetary penalty for class A or B deficiencies cited within the previous 24 months, and the facility is cited for noncompliance with one or more of the same regulations on

the current survey or investigation for which the previous civil monetary penalty was assessed. The licensing authority has greater discretion to double the civil monetary penalty for class C deficiencies. Where the facility was assessed a civil monetary penalty for a class C deficiency within the previous 24 months, the civil monetary penalty may be doubled for the facility's noncompliance with the same regulation that previously was assessed as a class C deficiency. If such doubling of the civil monetary penalty results in civil monetary penalties in excess of $5,000 per day, then the civil monetary penalty is $5,000 per day.

B. Doubling; repeat class A or B deficiencies: The amount of the daily civil monetary penalty for a deficiency, as calculated above, shall be doubled for a second or subsequent violation of the same regulatory requirement or provision, the violation of which within the prior 24 month period, resulted in, or was part of a group of violations that resulted in, the imposition of intermediate sanctions or civil monetary penalties as class A or B deficiencies.

C. Doubling; repeat class C deficiencies: The amount of the daily civil monetary penalty may be doubled, in the discretion of the licensing authority, for a second or subsequent violation of the same regulatory requirement or provision, the violation of which within the prior 24 month period, resulted in, or was part of a group of violations that resulted in, the imposition of intermediate sanctions or in civil monetary penalties as a class C deficiency.

[8.370.4.15 NMAC - N, 7/1/2024]

8.370.4.16 LICENSED CAPACITY AND FACILITY PENALTY RATES:

A. Licensed capacity: For purposes of calculating the amount of civil monetary penalties, the facility's licensed capacity is determined by one of the following two methods, depending on the type of facility:

(1) For a facility having a capacity stated on its license, that capacity amount is employed in calculating the daily civil monetary penalty imposed by the licensing authority.

(2) For facilities not having a capacity reflected on the license, the licensed capacity will be based on the average number of patients or clients receiving services from the facility each day for the five working days preceding the day deficiencies were noted during the survey or investigation by the licensing authority.

B. Facility penalty rates: For purposes of calculation of the amount of civil monetary penalties the following penalty rates for facilities are as listed below:

TYPE OF FACILITY PENALTYRATE

(1) Adult residential facilities:

	(a)	adult residential shelter care home	$10.00
	(b)	community residential facility for developmentally disabled individuals	$10.00
	(c)	residential treatment home	$10.00
	(d)	boarding home	$10.00
	(e)	halfway home	$10.00
	(f)	new or innovative programs	$10.00
(2)		Adult daycare facilities:	
	(a)	adult day care center	$10.00
	(b)	adult day care home	$10.00
	(c)	new or innovative programs	$10.00
(3)		General and special hospitals:	
	(a)	rehabilitation hospital	$10.00
	(b)	general hospital	$10.00
	(c)	psychiatric hospital	$10.00
	(d)	specialty hospitals	$10.00
	(e)	rural primary care hospital	$10.00
(4)		Long term care facilities:	
	(a)	intermediate care facility (ICF)	$10.00
	(b)	medicaid certified nursing facilities (NF)	$10.00
	(c)	skilled nursing facility (SNF)	$10.00
	(d)	intermediate care facility for the mentally retarded (ICF/MR)	$10.00
(5)		Facilities providing outpatient medical services and infirmaries:	
	(a)	ambulatory surgical center	$65.00
	(b)	diagnostic and treatment center	$10.00
	(c)	limited diagnostic and treatment center	$10.00
	(d)	rural health clinic	$10.00
	(e)	infirmary	$10.00
	(f)	new or innovative clinic	$10.00

(6)	Other	facilities:
(a)	home health agency	$10.00
(b)	end stage renal disease	$65.00
(c)	hospice	$10.00

[8.370.4.16 NMAC - N, 7/1/2024]

8.370.4.17 SEVERITY INDEX:

Three index ratings, in descending order of severity, are established and applied as follows:

A. Class A: Severity index of five is applied for class A deficiencies.

B. Class B: Severity index of three is applied for class B deficiencies.

C. Class C: Severity index of one is applied for class C deficiencies.

[8.370.4.17 NMAC - N, 7/1/2024]

8.370.4.18 CIVIL MONETARY PENALTIES CUMULATIVE:

The civil monetary penalties imposed by the licensing authority are cumulative and are in addition to any other fines or penalties, remedies, or other intermediate sanctions provided by law.

[8.370.4.18 NMAC - N, 7/1/2024]

8.370.4.19 PAYMENT OF MONETARY PENALTIES:

The following will govern the payment of monetary penalties:

A. Unless an appeal has been filed, the facility has 30 calendar days to pay the monetary penalty. Calculation begins from the date the facility received the notice of penalty assessment.

B. Payment of monetary penalties must be in the form of a money order, certified check, business or personal check payable to state of New Mexico.

C. The check or money order must clearly indicate the purpose for the payment, i.e. payment of monetary penalty.

D. Payment shall be sent to health facility licensing and certification bureau, public health division, health care authority.

[8.370.4.19 NMAC - N, 7/1/2024]

8.370.4.20 COLLECTION OF CIVIL MONETARY PENALTY:

A civil monetary penalty assessed under these regulations shall be paid to the authority within 30 days following such assessment or following the resolution of any appeal. Interest shall accrue at the current judgment interest rate after 30 days of such assessment or following the resolution of any appeal. If the facility fails to submit payment of the civil monetary penalty, then the authority is authorized to take any of the following actions:

A. The authority may add the amount of the civil monetary penalty together with accrued interest to the facility's annual license fee. If the facility fails to pay such civil monetary penalty and accrued interest, the license shall not be renewed.

B. The authority may bring action in a court of competent jurisdiction to recover the amount of the civil monetary penalty and accrued interest.

[8.370.4.20 NMAC - N, 7/1/2024]

8.370.4.21 DAILY ACCRUAL OF CIVIL MONETARY PENALTIES:

The daily penalty of the civil monetary penalty is imposed for each day that any cited deficiency exists.

A. Begin date: The accrual of the daily civil monetary penalties begins from the date of harm or injury, or from the date of the regulatory noncompliance, or from the date of the facility's receipt of notice of the intermediate sanction, at the discretion of the licensing authority.

B. End date: Daily civil monetary penalties cease accruing on the first full day that all deficiencies are corrected.

C. Retroactive accrual for uncorrected deficiencies: A civil monetary penalty may be assessed for uncorrected deficiencies cited in a revisit or follow up survey, when the facility was cited for such deficiencies, but was not assessed daily civil monetary penalties at the time of the preceding survey. The daily civil monetary penalty may accrue beginning with the date the uncorrected deficiencies were cited at the preceding survey.

[8.370.4.21 NMAC - N, 7/1/2024]

8.370.4.22 CESSATION OF DAILY ACCRUAL OF CIVIL MONETARY PENALTIES:

The licensing authority will terminate the daily accrual of civil monetary penalties attributable to any class A, B, or C deficiency upon the facility's provision of evidence to the licensing authority that the specific deficiency has been corrected.

[8.370.4.22 NMAC - N, 7/1/2024]

8.370.4.23 SERVICE OF NOTICE:

The authority shall provide notification, by certified mail, personal delivery, or by facsimile if the notice is also mailed, of its intent to impose any intermediate sanction or civil monetary penalty. Notice may be given of the intent to impose a civil monetary penalty where the total accrued amount of the civil monetary penalty is not yet determined. Notice setting out the base amount and final total accrued amount of the daily civil monetary penalty shall be provided at the time of the determination. Notification of other actions contemplated under these regulations may be by regular mail, certified mail, or personal delivery or by facsimile if the notice is also mailed. All time periods for response shall be calculated beginning on the date of service, unless otherwise provided.

[8.370.4.23 NMAC - N, 7/1/2024]

8.370.4.24 RIGHT TO APPEAL:

The facility may appeal the authority's notice of license suspension, license revocation, imposition of intermediate sanctions, or civil monetary penalties. The administrative appeal hearing shall be conducted by an impartial hearing officer appointed by the secretary of the authority.

[8.370.4.24 NMAC - N, 7/1/2024]

8.370.4.25 TIMELINESS:

To obtain an administrative appeal hearing, the facility must make a timely request in writing.

A. Suspensions, revocations, intermediate sanctions, or civil monetary penalties: The authority must receive written request for an appeal hearing within 10 working days after the facility receives the authority's final notice of suspension, revocation, intermediate sanction, or civil monetary penalty. In any appeal of the authority's imposition of civil monetary penalties, final notice from which an appeal may be taken is that notice which sets out the total civil monetary penalty, including both the base amount and the daily accrual amount.

B. Emergency suspension and emergency intermediate sanctions: The authority shall provide notice of an administrative appeal hearing concurrently with notice of an emergency suspension or emergency intermediate sanction. The administrative appeal hearing is scheduled within five working days of the date of imposition of the authority's emergency action. The facility may waive this hearing and request a hearing at a later date. The authority must receive such a waiver and written request for a later hearing within four working days after the facility receives notice of the emergency action.

C. Cease and desist order: The authority must receive written request for an appeal hearing within five working days after the facility receives the cease and desist order.

[8.370.4.25 NMAC - N, 7/1/2024]

8.370.4.26 APPEAL PROCEDURES:

Adjudicatory hearings, New Mexico Health care authority, 8.370.2 NMAC shall apply in all administrative appeals provided by these regulations.

[8.370.4.26 NMAC - N, 7/1/2024]

8.370.4.27 RESOLUTION WITHOUT HEARING - PENALTY REDUCTION:

The facility may satisfy, in full, the amount of any civil monetary penalty imposed under these regulations if, within 10 working days following receipt of the notice:

A. the authority receives the facility's written waiver of any right to appeal; and

B. the authority receives the facility's payment of one- half (fifty percent) of the amount of the civil monetary penalty imposed.

[8.370.4.27 NMAC - N, 7/1/2024]

8.370.4.28 STAY OF SANCTION:

The authority's receipt of the facility's notice of appeal shall operate as a stay of suspension, revocation, intermediate sanction (except temporary manager or monitor), or civil monetary penalty. In the case of emergency suspension or emergency intermediate sanctions, however, neither the immediate five day hearing nor the facility's request for a later hearing will stay the authority's action.

[8.370.4.28 NMAC - N, 7/1/2024]

8.370.4.29 PREHEARING NEGOTIATIONS; NO TOLLING:

Discussions and negotiations between the authority and a facility prior to hearing do not postpone any deadlines for an appeal, unless as a result of negotiations the authority and facility agree to postponement in writing.

[8.370.4.29 NMAC - N, 7/1/2024]

8.370.4.30 RELATED REGULATION AND CODES:

Health facilities subject to these regulations are also subject to other regulations, codes and standards as the same may from time to time be amended as follows:

A. Adjudicatory hearings, New Mexico health care authority, 8.370.2 NMAC.

B. Requirements for long term care facilities, New Mexico health care authority, 8.370.16 NMAC.

C. Requirements for general and special hospitals, New Mexico health care authority, 8.370.12 NMAC.

D. Health facility licensure fees and procedures, New Mexico health care authority, 8.370.3 NMAC.

E. Requirements for adult day care facilities, New Mexico health care authority, 8.370.20 NMAC.

F. Requirements for adult residential care facilities, New Mexico health care authority, 8.370.14 NMAC.

G. Requirements for inhome and inpatient hospice care, New Mexico health care authority, 8.370.19 NMAC.

H. Requirements for home health agencies, New Mexico health care authority, 8.370.24 NMAC.

I. Requirements for facilities providing outpatient medical services and infirmaries, New Mexico health care authority, 8.370.18 NMAC.

J. Requirements for intermediate care facilities for the mentally retarded, New Mexico health care authority, 8.370.22 NMAC.

K. Requirements for end stage renal disease facilities, New Mexico health care authority, 8.370.26 NMAC.

[8.370.4.30 NMAC - N, 7/1/2024]

PART 5: CAREGIVERS CRIMINAL HISTORY SCREENING REQUIREMENTS

8.370.5.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.2.1 NMAC - N, 7/1/2024]

8.370.5.2 SCOPE:

This rule has general applicability to all applicants, caregivers, hospital caregivers, and care providers in New Mexico as defined in 8.370.5.7 NMAC of this rule. This rule does not apply to caregivers as set forth in Paragraph (2) of Subsection D of 8.370.5.7 NMAC and does not apply to care providers as set forth in Paragraph (2) of Subsection E of 8.370.5.7 NMAC.

[8.370.5.2 NMAC - N, 7/1/2024]

8.370.5.3 STATUTORY AUTHORITY:

Sections 29-17- 2 through 29-17-5, NMSA 1978 amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (authority) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.370.5.3 NMAC - N, 7/1/2024]

8.370.5.4 DURATION:

Permanent.

[8.370.5.4 NMAC - N, 7/1/2024]

8.370.5.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.370.5.5 NMAC - N, 7/1/2024]

8.370.5.6 OBJECTIVE:

The objective of this part is to establish the requirements for complying with the Caregivers Criminal History Screening Act. Generally included within these rules are the requirements and procedures for submission of applicant, caregiver and hospital

caregiver fingerprints, payment of fees and administrative reconsideration for a disqualifying conviction. These rules are intended to have all covered care providers meeting the requirements of the act.

[8.370.5.6 NMAC - N, 7/1/2024]

8.370.5.7 DEFINITIONS:

For purposes of this rule, the following definitions shall apply:

A. "act" means Sections 29-17-2 to 29-17-5, NMSA 1978 of the Caregivers Criminal History Screening Act;

B. "applicant" means a person who applies, and is offered employment or contractual service with a care provider to provide services as a caregiver or hospital caregiver whether as an employee or contractor;

C. "care" means the therapy, services, treatment, support, supervision, assistance with the activities of daily living or management of a care recipient;

D. "caregiver" means any person whose employment or contractual service with a care provider includes direct care or routine and unsupervised physical or financial access to any care recipient serviced by that provider;

(1) **"caregiver"** includes:

(a) compensated persons such as employees, contractors and employees of contractors;

(b) guardianship service providers and case management entities that provide services to people with developmental disabilities; and

(c) administrators or operators of facilities who are routinely on site;

(2) **"caregiver"** does not include:

(a) persons who provide natural supports;

(b) independent health care professionals, licensed or medicaid certified in good standing, who are not otherwise associated with the care provider as an administrator, operator or employee, and who are involved in the treatment or management of the medical care of a care recipient such as attending or treating physicians or other health care professionals providing consultation or ancillary services; or

(c) a person who has undergone a nationwide or statewide criminal history screening under Sections 32A- 15-1 to 32A-15-4, NMSA 1978, of the Children's and Juvenile Facility Criminal Records Screening Act.

E. "care provider" includes:

(1) state owned or operated health care facilities, intermediate care facilities for the mentally retarded, general acute care hospitals, long-term care hospitals, psychiatric hospitals, rehabilitation hospitals, hospice services, guardianship providers, adult residential care facilities, adult community residential facilities, adult limited diagnostic treatment centers, case management entities providing services to persons with developmental disabilities, adult boarding homes, adult day care centers, adult family care homes, adult halfway homes, care providers operating respite, companion or personal care programs funded by the New Mexico aging and long term services department , care providers funded through the New Mexico children youth and families department providing homemaker and adult care services, disabled and elderly residential care providers providing services paid for in whole or in part by state funds, home health agencies, all residential habilitation service or respite service care providers authorized to be reimbursed in whole or in part by state funds or under any medicaid or medicaid waiver program, nursing home facilities, any other care provider entity which is licensed or medicaid certified and which is not specifically identified herein;

(2) **"care provider"** does not include: outpatient treatment facilities, diagnostic and treatment facilities, ambulatory surgical centers and facilities, end-stage renal dialysis and treatment facilities, rural health clinics, private physicians' offices or other clinics that operate in the same manner as private physicians' offices in group practice settings, and any care facility located at or performing services exclusively for any correctional facility;

F. "care recipient" means any person under the care of a care provider who has a physical or mental illness, injury or disability or who suffers from any cognitive impairment that restricts or limits the person's activities;

G. "conditional employment" means supervised employment pursuant to a bona fide offer of employment by a care provider to an applicant, caregiver or hospital caregiver, which is contingent upon the receipt of notice from the authority that the applicant's, caregiver's or hospital caregiver's nationwide and statewide criminal history screening indicates no existence of a disqualifying conviction, or notice from the authority pending an administrative reconsideration procedure; this includes that period of employment during the time allowed for responding to the authority's request for additional information in cases where the applicant's, caregiver's or hospital caregiver's criminal history record indicates an arrest without a final disposition for a crime listed under 8.370.5.11 NMAC.

H. "consent" means the written acknowledgment of permission to conduct a nationwide or statewide criminal history screening; consent also includes, with respect to the criminal history record, permission for the authority, following an attempt to obtain clarifying information from the applicant, caregiver or hospital caregiver to attribute, as a rebuttable presumption, disqualifying conviction status to any arrest for crimes that would constitute a disqualifying conviction and for which the arrest appearing on the nationwide criminal history record lacks a final disposition;

I. "authority" means the New Mexico health care authority;

J. "disqualifying conviction" means a plea, judgment or verdict of guilty, a plea of nolo contendere, an alford plea or any plea or judgment entered in connection with a suspended sentence, in this state or from any other state or jurisdiction to a felony crime listed in 8.370.5.11 NMAC; if a conviction may be considered in or used for sentence enhancement in a subsequent proceeding, then it is a disqualifying conviction under these rules if the conviction is for a crime listed in 8.370.5.11 NMAC;

K. "hospital caregiver" means any person whose employment or contractual service with a care provider includes direct care or routine and unsupervised physical or financial access to any care recipient serviced by that care provider in an inpatient setting who is not a licensed New Mexico health care professional practicing within the scope of a profession's license;

L. "nationwide criminal history screening" means a criminal history background investigation of an applicant, caregiver or hospital caregiver through the use of fingerprints reviewed by the authority of public safety and submitted to the federal bureau of investigation, resulting in the generation of a nationwide criminal history record for that applicant, caregiver or hospital caregiver;

M. "nationwide criminal history record" means information collected by criminal justice agencies concerning an applicant's, caregiver's or hospital caregiver's arrests, indictments or other formal criminal charges, and any dispositions arising therefrom, including convictions, dismissals, acquittals, sentencing and correctional supervision;

N. "natural supports" means those resources, systems and persons that are readily available to the general community, including a care recipient, without regard to the care provider;

O. "routine" means in the context of care provision or financial access by an applicant, caregiver or hospital caregiver, that which is non-episodic and regularly scheduled or assigned;

P. "supervised" means, in the context of care provision or financial access, the supervisory oversight a care provider employs to ensure the prevention of abuse, neglect or the misappropriation of property of a care recipient by a caregiver or hospital caregiver during the caregiver's or hospital caregiver's conditional employment period;

supervisory oversight shall include but is not limited to a management program utilized by the care provider, which demonstrates a systematic and routine monitoring of the safety and quality of service provided by the caregiver or hospital caregiver to the care recipient during the caregiver's or hospital caregiver's conditional employment period;

Q. "statewide criminal history screening" means a criminal history background investigation of an applicant, caregiver or hospital caregiver through the use of fingerprints reviewed by the authority of public safety resulting in the generation of a statewide criminal history record of the applicant, caregiver or hospital caregiver;

R. "unsupervised" means, in the context of care provision or financial access, that which occurs without the on-site, visual or physical presence of another caregiver or hospital caregiver or a family member of the care recipient or of another individual representing the care provider.

[8.370.5.7 NMAC - N, 7/1/2024]

8.370.5.8 CAREGIVER AND HOSPITAL CAREGIVER EMPLOYMENT REQUIREMENTS:

A. General: The responsibility for compliance with the requirements of the act applies to both the care provider and to all applicants, caregivers and hospital caregivers. All applicants for employment to whom an offer of employment is made or caregivers and hospital caregivers employed by or contracted to a care provider must consent to a nationwide and statewide criminal history screening, as described in Subsections D, E and F of this section, upon offer of employment or at the time of entering into a contractual relationship with the care provider. Care providers shall submit all fees and pertinent application information for all applicants, caregivers or hospital caregivers as described in Subsections D, E and F of this section. Pursuant to Section 29-17-5 NMSA 1978 (amended) of the act, a care provider's failure to comply is grounds for the state agency having enforcement authority with respect to the care provider to impose appropriate administrative sanctions and penalties.

B. Exception: A caregiver or hospital caregiver applying for employment or contracting services with a care provider within 12 months of the caregiver's or hospital caregiver's most recent nationwide criminal history screening which list no disqualifying convictions shall only apply for a statewide criminal history screening upon offer of employment or at the time of entering into a contractual relationship with the care provider. At the discretion of the care provider a nationwide criminal history screening, additional to the required statewide criminal history screening, may be requested.

C. Conditional employment: Applicants, caregivers, and hospital caregivers who have submitted all completed documents and paid all applicable fees for a nationwide and statewide criminal history screening may be deemed to have conditional supervised employment pending receipt of written notice given by the authority as to whether the applicant, caregiver or hospital caregiver has a disqualifying conviction.

D. Application: In order for a nationwide criminal history record to be obtained and processed, the following shall be submitted to the authority on forms provided by the authority.

(1) A form containing personal identification which has a photograph of the person and which meets the requirements for employment eligibility in accordance with the immigration and nationality act as amended. A reasonable xerographic copy of a drivers license photograph will suffice under Subsection D of 8.370.5.8 NMAC.

(2) A signed authorization for release of information form.

(3) Three complete sets of readable fingerprint cards or other authority approved media acceptable to the department of public safety and the federal bureau of investigation submitted using black ink.

(4) The fee specified by the authority for the nationwide and statewide criminal history screening investigation shall be applied to cover costs incurred by the authority to support activities required by the act and these rules. The fees will not be applied to any other activity or expense undertaken by the authority.

(5) If the applicant, caregiver or hospital caregiver must submit another readable set of fingerprint cards upon notice that the fingerprint cards previously submitted were found unreadable, as determined by the federal bureau of investigation or department of public safety, the submission of a second set of fingerprint cards is required, a separate fee will not be charged. A fee shall be charged for submission of a third and subsequent fingerprint sets.

(6) If the applicant, caregiver or hospital caregiver has a physical or medical condition which prevents the applicant, caregiver or hospital caregiver from producing readable fingerprints using commonly available fingerprinting techniques, the applicant, caregiver or hospital caregiver shall submit the fingerprint cards with a notarized affidavit signed by the applicant, caregiver, hospital caregiver, returned to the authority within 14 calendar days, as determined by the postmark, which provides:

(a) identification of the applicant, caregiver or hospital caregiver; and

(b) an explanation of, or a statement describing, the applicant's, caregiver's or hospital caregiver's good faith efforts to supply readable fingerprints; and

(c) the physical or medical reason that prevents the applicant, caregiver or hospital caregiver from producing readable fingerprints using commonly available fingerprinting techniques;

(d) an applicant, caregiver or hospital caregiver meeting the conditions of this paragraph and who has resided in the state of New Mexico for less than 10 years must also submit a 10 year work history in addition to the required affidavits.

(7) All documentation submitted to the authority for the purposes of criminal history screening and for the purposes set forth in 8.370.5.9 NMAC and 8.370.5.10 NMAC shall become the sole property of the authority with the exception of fingerprint cards which shall be destroyed upon clearance by both the federal bureau of investigation and department of public safety. All other submitted documentation shall be retained by the authority for a period of one year from the final date of closure and thereafter shall be archived.

E. Fees: The federal bureau of investigation has a mandatory processing fee with no exceptions. The authority and department of public safety impose a state processing and administrative fee. The fee payment must accompany the fingerprint application, or otherwise be credited to the authority prior to or at the same time with the authority's receipt of the application documents. The manner of payment of the fee is by bank cashier check or money order payable to the New Mexico health care authority or other method of funds transfer acceptable to the authority. Business checks will be accepted unless the business tendering the check has previously tendered a check to the authority unsupported by sufficient funds. Neither cash nor personal checks will be accepted. The fee may be paid by the care provider or by the applicant, caregiver or hospital caregiver. The authority will set a fee in addition to the fees imposed by department of public safety and the federal bureau of investigation that will fully and completely cover costs incurred by the authority to support activities required by the act and these rules. The fees will not be applied to any other activity or expense undertaken by the authority.

F. Timely submission: Care providers shall submit all fees and pertinent application information for all individuals who meet the definition of an applicant, caregiver or hospital caregiver as described in Subsections B, D and K of 8.370.5.7 NMAC, no later than 20 calendar days from the first day of employment or effective date of a contractual relationship with the care provider.

G. Maintenance of records: Care providers shall maintain documentation relating to all employees and contractors evidencing compliance with the act and these rules.

(1) During the term of employment, care providers shall maintain evidence of each applicant, caregiver or hospital caregiver's clearance, pending reconsideration, or disqualification.

(2) Care providers shall maintain documented evidence showing the basis for any determination by the care provider that an employee or contractor performs job functions that do not fall within the scope of the requirement for nationwide or statewide criminal history screening. A memorandum in an employee's file stating "This employee does not provide direct care or have routine unsupervised physical or financial access to care recipients served by (name of care provider)" together with the employee's job description, shall suffice for record keeping purposes.

[8.370.5.8 NMAC - N, 7/1/2024, A, 1/28/2025]

8.370.5.9 CAREGIVERS OR HOSPITAL CAREGIVERS AND APPLICANTS WITH DISQUALIFYING CONVICTIONS:

A. Prohibition on employment: A care provider shall not hire or continue the employment or contractual services of any applicant, caregiver or hospital caregiver for whom the care provider has received notice of a disqualifying conviction, except as provided in Subsection B of this section.

(1) In cases where the criminal history record lists an arrest for a crime that would constitute a disqualifying conviction and no final disposition is listed for the arrest, the authority will attempt to notify the applicant, caregiver or hospital caregiver and request information from the applicant, caregiver or hospital caregiver within timelines set forth in the authority's notice regarding the final disposition of the arrest. Information requested by the authority may be evidence, for example, a certified copy of an acquittal, dismissal or conviction of a lesser included crime.

(2) An applicant's, caregiver's or hospital caregiver's failure to respond within the required timelines regarding the final disposition of the arrest for a crime that would constitute a disqualifying conviction shall result in the applicant's, caregiver's or hospital caregiver's temporary disqualification from employment as a caregiver or hospital caregiver pending written documentation submitted to the authority evidencing the final disposition of the arrest. Information submitted to the authority may be evidence, for example, of the certified copy of an acquittal, dismissal or conviction of a lesser included crime. In instances where the applicant, caregiver or hospital caregiver has failed to respond within the required timelines the authority shall provide notice by [certified] mail or electronic communication that an employment clearance has not been granted. The care provider shall then follow the procedure of Subsection A of 8.370.5.9 NMAC.

(3) The authority will not make a final determination for an applicant, caregiver or hospital caregiver with a pending potentially disqualifying conviction for which no final disposition has been made. In instances of a pending potentially disqualifying conviction for which no final disposition has been made, the authority shall notify the care provider, applicant, caregiver or hospital caregiver by mail or electronic communication that an employment clearance has not been granted. The care provider shall then follow the procedure of Subsection A of 8.370.5.9 NMAC.

B. Employment pending reconsideration determination: At the discretion of the care provider, an applicant, caregiver or hospital caregiver whose nationwide criminal history record reflects a disqualifying conviction and who has requested administrative reconsideration may continue conditional supervised employment pending a determination on reconsideration.

C. Notice of final determination of disqualification: Upon receipt of a notice of final determination of disqualification a care provider shall:

(1) immediately and permanently remove an applicant, caregiver or hospital caregiver from any position of employment that meets the definition of an applicant, caregiver or hospital caregiver as set forth in Subsections D and K of 8.370.5.7 NMAC; and

(2) notify the authority by letter within 14 calendar days, as determined by the postmark, of the date and type of action taken to satisfy the removal requirements of as set forth in Paragraph (1) of Subsection C of this section via written documentation signed by an authorized agent of the care provider.

[8.370.5.9 NMAC - N, 7/1/2024; A, 1/28/2025]

8.370.5.10 ADMINISTRATIVE RECONSIDERATION:

A. Availability: The applicant, caregiver or hospital caregiver whose nationwide criminal history record reflects a disqualifying conviction may request an informal administrative reconsideration from the authority.

B. Procedure for requesting administrative reconsideration:

(1) An applicant, caregiver or hospital caregiver given notice of a disqualifying conviction may submit a written request for an administrative reconsideration. To be effective, the written request shall:

(a) be made within 14 calendar days, as determined by the postmark, from the date of the notice issued by the authority;

(b) be properly addressed to the authority;

(c) state the applicants', caregivers' or hospital caregivers' name, home and work address, and telephone numbers;

(d) state the applicants', caregivers' or hospital caregivers' employer or proposed employer name, address and telephone numbers;

(e) state the date of hire;

(f) state the position title;

(g) describe the duties of the position; and

(h) describe the care recipients.

(2) If the applicant, caregiver or hospital caregiver wishes to submit and have considered additional documentation (as specified in Paragraph (1) of Subsection C of

this section) that additional documentation must be included with the request for an administrative reconsideration.

(3) An applicant, caregiver or hospital caregiver requesting reconsideration shall include a signed declaration identifying with specificity any criminal felony convictions.

C. Written documentation: The documentation submitted with the request for an administrative reconsideration may include information on the following.

(1) Credible and reliable evidence of the actual disposition of any arrest for which the nationwide criminal history record was incomplete. This could be evidence, for example, of the certified copies of an acquittal, a dismissal, or conviction of a lesser included crime, submitted to refute or rebut the presumption of a disqualifying conviction created because the nationwide criminal history record was incomplete in not showing the final disposition of an arrest for a crime that constitutes a disqualifying conviction.

(2) The applicant's, caregiver's or hospital caregiver's age at the time of each disqualifying conviction.

(3) Any mitigating circumstances when the offense was committed.

(4) Any court imposed sentence or punishment and, if completed, when completed.

(5) Any successfully completed rehabilitation program since the offense.

(6) The applicant's, caregiver's or hospital caregiver's full employment history since the disqualifying convictions.

(7) And other relevant materials the applicant, caregiver or hospital caregiver may wish to submit.

D. Reconsideration proceeding: The reconsideration proceeding is intended to be an informal non-adversarial administrative review of written documentation. It will be conducted by a reconsideration committee designated for that purpose by the authority. The reconsideration committee will issue an employment clearance determination based upon the completed request for reconsideration and all supporting documents submitted. In cases where the reconsideration committee finds the need for additional or clarifying information, the reconsideration committee may request that the applicant, caregiver or hospital caregiver supply such additional information within the time set forth in the reconsideration committees' request.

E. Factors in determination: In determining whether an applicant's caregiver's or hospital caregiver's nationwide criminal history record reflects a disqualifying conviction may be employed, the reconsideration committee shall take into account the

requirements of Section 28-2-1 to 28-2-6, NMSA 1978 of the criminal offender employment act. However, that act is not dispositive. The following factors may be considered:

(1) total number of disqualifying convictions;

(2) time elapsed since last disqualifying conviction or since discharge of sentence;

(3) circumstances of crime including whether violence was involved;

(4) activities evidencing rehabilitation, including but not limited to substance abuse or other rehabilitation programs;

(5) whether conviction was expunged by the court or whether an unconditional pardon was granted;

(6) false or misleading statements about any conviction in the signed declaration;

(7) evidence that applicant , caregiver or hospital caregiver poses no risk of harm to the health and safety of care recipients; and

(8) age of applicant , caregiver or hospital caregiver at time of disqualifying conviction.

F. Grounds for reconsideration employment clearance determination: An applicant, caregiver or hospital caregiver may be issued a reconsideration employment clearance determination by the authority where the request for reconsideration and accompanying documentation clearly demonstrates that the applicant, caregiver or hospital caregiver has satisfied one of the following three grounds for a reconsideration employment clearance determination.

(1) Inaccuracy: The nationwide criminal history record inaccurately reflects a disqualifying conviction. This ground for a reconsideration employment clearance determination applies:

(a) in instances of factual error in the nationwide criminal history record, from any source;

(b) in instances of error arising from the authoritys' application or use of the inappropriate criminal statute or standard to the disqualifying conviction at issue; and

(c) in instances where the authority, pursuant to the applicant's, caregiver's or hospital caregiver's required consent, applies a rebuttable presumption of a

disqualifying conviction to an arrest for a felony that lacks a final disposition in the nationwide criminal history record.

(2) No risk of harm: The employment or contractual services provided by an applicant, caregiver or hospital caregiver with a disqualifying conviction presents no risk of harm to a care recipient. The reconsideration employment clearance determination issued by the reconsideration committee under this ground may be limited, in certain cases, based upon the evidence in the request for reconsideration and the accompanying documentation. The reconsideration determination of whether the applicant, caregiver or hospital caregiver presents no risk of harm to a care recipient is based upon the risk arising from the disqualifying conviction.

(3) No bearing on fitness: The disqualifying conviction does not directly bear upon the applicant's, caregiver's, or hospital caregiver's fitness for employment.

[8.370.5.10 NMAC - N, 7/1/2024]

8.370.5.11 DISQUALIFYING CONVICTIONS:

The following felony convictions disqualify an applicant, caregiver or hospital caregiver from employment or contractual services with a care provider:

A. homicide;

B. trafficking, or trafficking in controlled substances;

C. kidnapping, false imprisonment, aggravated assault or aggravated battery;

D. rape, criminal sexual penetration, criminal sexual contact, incest, indecent exposure, or other related felony sexual offenses;

E. crimes involving adult abuse, neglect or financial exploitation;

F. crimes involving child abuse or neglect;

G. crimes involving robbery, larceny, extortion, burglary, fraud, forgery, embezzlement, credit card fraud, or receiving stolen property; or

H. an attempt, solicitation, or conspiracy involving any of the felonies in this subsection.

[8.370.5.11 NMAC - N, 7/1/2024]

PART 6: ACCESS TO MEDICAL RECORDS BY DISABILITY APPLICANTS

8.370.6.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.6.1 NMAC - N, 7/1/2024]

8.370.6.2 SCOPE:

This regulation applies to requests for copies of medical records by any person, or that person's authorized representative, who is applying for social security disability benefits or appealing a denial of social security disability benefits.

[8.370.6.2 NMAC - N, 7/1/2024]

8.370.6.3 STATUTORY AUTHORITY:

This regulation is promulgated pursuant to Section 14-6-3, NMSA 1978 as amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (authority) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.370.6.3 NMAC - N, 7/1/2024]

8.370.6.4 DURATION:

Permanent.

[8.370.6.4 NMAC - N, 7/1/2024]

8.370.6.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.370.6.5 NMAC - N, 7/1/2024]

8.370.6.6 OBJECTIVE:

The purpose of this regulation is to establish the health care provider's duty to furnish medical records within 30 days of the request, and to set and enforce fee schedules for the provision of copies of medical records, when copies of such medical records are requested by persons applying for social security disability or appealing a denial of such benefits.

[8.370.6.6 NMAC - N, 7/1/2024]

8.370.6.7 DEFINITIONS:

A. "Authorized representative" means a person who lawfully may act on behalf of the individual who is applying for social security disability or appealing a denial of such benefits and whose medical records are the subject of a request to furnish copies.

B. "Health care provider" means a person licensed or certified by the state of New Mexico, or otherwise authorized by law to provide health care services in New Mexico in the ordinary course of business or practice of a profession, and includes facilities and entities that employ or contract with such a person, and it includes entities which maintain, process or store, medical records for such persons or facilities.

C. "Medical records" means information in a medical or mental health patient file, including drug or alcohol treatment records, clinical notes, nurses' notes, history of injury, subjective and objective complaints, diagnostic and laboratory test results and interpretations of tests, reports and summaries of interpretations of tests and other reports, diagnoses and prognoses, bills, invoices, referral requests, consultative reports, and reports of any services requested by the medical care provider.

D. "Person" means an individual who has been a patient of a health care provider or health care facility.

[8.370.6.7 NMAC - N, 7/1/2024]

8.370.6.8 REQUIREMENT OF WRITTEN REQUEST:

A. A person applying for social security disability, or appealing denial of such benefits, or the authorized representative, shall be furnished copies of requested medical records by health care providers who are provided a written and dated request for medical records signed by such person or authorized representative.

B. Requests shall be accompanied by a written verification that a person is applying for social security disability benefits, or is appealing a denial of such benefits.

[8.370.6.8 NMAC - N, 7/1/2024]

8.370.6.9 PRODUCTION OF RECORDS:

Any records requested pursuant to this regulation or Section 14-6-3, NMSA 1978 as amended, shall be produced within 30 calendar days of receipt of the written request, regardless of prior receipt of the fee for the records.

[8.370.6.9 NMAC - N, 7/1/2024]

8.370.6.10 FEES AUTHORIZED; SCHEDULE:

A reasonable fee for copying and furnishing requested medical records may be charged by the health care provider. No health care provider shall charge more than:

A. $2.00 per page for the first 10 one-sided pages;

B. For each page after the first 10 one-sided pages, not more than twenty cents per page.

[8.370.6.10 NMAC - N, 7/1/2024]

8.370.6.11 COMPLAINTS; ENFORCEMENT:

A. Complaints by any person, or person's authorized representative, that a health care provider has failed to comply with the requirements of this rule, shall be made, in writing, to the New Mexico health care authority, division of health improvement.

B. Complaints shall include a description of manner in which the health care provider failed to follow this rule, and shall include copies of all documents relevant to the alleged violation.

C. Complaints alleging violation of this rule made against health care providers which are substantiated by the authority, or any failure by a health care provider to timely submit payment of any assessed civil monetary penalty, may be referred to the appropriate professional or facility licensure or certification authority for further action.

[8.370.6.11 NMAC - N, 7/1/2024]

8.370.6.12 PENALTIES:

If the authority finds that the health care provider has violated these regulations, the authority may impose a civil monetary penalty in an amount not to exceed $100 per violation.

[8.370.6.12 NMAC - N, 7/1/2024]

PART 7: HEALTH FACILITY RECEIVERSHIP REQUIREMENTS

8.370.7.1 ISSUING AGENCY:

The New Mexico Health Care Authority.

[8.370.7.1 NMAC - N, 7/1/2024]

8.370.7.2 SCOPE:

This rule applies to the New Mexico health care authority (authority) in actions taken pursuant to the Health Facility Receivership Act, Chapter 24, Article 1E, NMSA 1978.

[8.370.7.2 NMAC - N, 7/1/2024]

8.370.7.3 STATUTORY AUTHORITY:

Section 24-1E-3.1, NMSA 1978 (2001). Section 9-8-1 et seq. NMSA 1978 establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.370.7.3 NMAC - N, 7/1/2024]

8.370.7.4 DURATION:

Permanent.

[8.370.7.4 NMAC - N, 7/1/2024]

8.370.7.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited in a section.

[8.370.7.5 NMAC - N, 7/1/2024]

8.370.7.6 OBJECTIVE:

This rule implements provisions of the Health Facility Receivership Act and sets out the conditions for the authority to petition for appointment of a health facility receiver; the duties, authority and responsibility of the health facility receiver; the authority for imposing financial conditions on the facility; the minimum qualifications for the deputy receiver; and the provisions which the secretary will request for inclusion in district court orders.

[8.370.7.5 NMAC - N, 7/1/2024]

8.370.7.7 DEFINITIONS:

As used in this rule, unless the context requires otherwise:

A. "Abandonment" means the elimination of, or the failure to provide, one or more essential support services for all or a portion of the residents of a health facility, including but not limited to appropriate personnel, shelter, medical care, sustenance,

assistance with the activities of daily living, habilitation or individual treatment plan activities and support.

B. "Closure Plan" means the health facility's written plan, including any amendments, detailing the manner in which the health facility will satisfy all applicable legal or contractual requirements, including any requirements that the authority may request be included in such written plan, and which at a minimum sets forth the discharge planning and transfer of the residents, and the manner in which the health facility will fully meet the needs of the residents during the period of the facility closure.

C. "Constructive Abandonment" means a situation in which abandonment of the residents of a health facility can be inferred from the totality of circumstances, as, for example, the health facility's untimely payment or nonpayment of suppliers or staff resulting in the lack of necessary supplies or services.

D. "Facility" means:

(1) a health facility as defined in Subsection D of Section 24-1-2 NMSA 1978 other than a child-care center or facility, whether or not licensed by New Mexico; or,

(2) a community-based program providing services funded, directly or indirectly, in whole or in part, by the home and community-based Medicaid waiver program or by developmental disabilities, traumatic brain injury or other medical disabilities programs.

E. "Imminent danger" means a significant, foreseeable jeopardy, risk or threat existing at the present time or in the immediate future.

F. "Receivership" means, pursuant to a court order, the condition or occurrence of the legal vesting of authority in the Secretary, acting as a receiver, and vesting of authority in the deputy receiver, to exercise management and control over all of, or a portion of, a facility, in derogation of the rights of the facility owner or operator.

G. "Receivership estate" means the totality of the property, accounts, assets, rights and obligations over which the receiver has authority to manage and control in accordance with a court's order.

H. "Secretary" means the secretary of the New Mexico health care authority.

[8.370.7.7 NMAC - 7/1/2024]

8.370.7.8 CONDITIONS FOR FILING RECEIVERSHIP PETITION:

When any of the following situations exist, the secretary may petition the district court seeking appointment as a health facility receiver.

A. Facility closure. The health facility will close, or cease all or part of its operations, within 60 days; and the health facility has failed to provide the secretary with, and obtained written approval from the secretary for, the health facility's detailed closure plan. The closure plan must demonstrate that the health facility will maintain and safeguard the health and safety of the care recipients. Upon receipt of a facility closure plan, the secretary will respond within 10 days to the facility with written notice of the secretary's approval or rejection of the closure plan. At a minimum, the closure plan will specify the facility's:

(1) Procedures and arrangements to insure that the health facility's care recipients obtain, or continue to receive, accessible, appropriate and affordable care; and

(2) The method of protecting all legal rights of the care recipients as such rights are affected by the closure; and

(3) Staffing; and

(4) Transfer planning and procedures with respect to the care recipients, including the funds, accounts, and property of the care recipients, medical and financial authorizations, and any other relevant documents executed by or on behalf of the care recipient in the possession of the health facility; and

(5) Other arrangements which the secretary may specify for inclusion in the closure plan.

B. No license. The health facility is operated without such license as otherwise may be required.

C. Abandonment. The health facility is abandoned, care recipients of the health facility are abandoned or constructively abandoned, or such abandonment is imminent.

D. Imminent danger. The health facility presents an imminent danger of death or significant mental or physical harm to the care recipients of the health facility. Such imminent danger may arise from:

(1) A single factor, or combination of factors, adversely affecting the health or safety of the facility's care recipients; or

(2) A physical condition of a service location for the health facility's care recipients; or

(3) A practice or method of operation of the health facility.

[8.370.7.8 NMAC - N, 7/1/2024]

8.370.7.9 QUALIFICATIONS OF THE DEPUTY RECEIVER:

Unless otherwise permitted by order of the district court, the secretary will seek appointment of a deputy receiver who possesses the following qualifications:

A. Free of conflicts of interest. The deputy receiver may not have a financial interest which conflicts with:

(1) Carrying out any of the duties and responsibilities imposed by the district court on the receiver or deputy receiver; or

(2) Fully protecting the persons receiving care from the health facility; or

(3) The management and operation of the receivership estate.

B. Experience. The deputy receiver must have relevant experience in health care management appropriate to the health facility. Such experience preferably would reflect successful management experience similar to that reasonably required to manage and operate the facilities within the receivership estate. Experience or licensure as a clinician is discretionary unless otherwise required by law.

C. Education and licensure. The deputy receiver must have achieved such educational level and have such licensure as customarily is held by persons managing and operating health care facilities similar to the facility or facilities within the receivership estate.

[8.370.7.9 NMAC - N, 7/1/2024]

8.370.7.10 DUTIES, AUTHORITY & RESPONSIBILITIES OF THE DEPUTY RECEIVER:

Unless otherwise ordered by the district court the deputy receiver generally will carry out the duties of the receiver, as established in the Health Facility Receivership Act, NMSA 1978, Sections 24-1E-1 to 24-1E-7 (2001), including the following.

A. Removal of care recipients from settings or situations within the receivership estate which threaten the care recipients with imminent danger of death or significant mental or physical harm.

B. All necessary actions needed to:

(1) Correct or remedy each condition on which the receiver's appointment was based.

(2) Ensure adequate care and services, in accordance with applicable authority, law, regulations, and accrediting requirements, for each care recipient of the health facility.

(3) Manage and operate the health facility, including, where deemed appropriate in the judgment of the receiver or deputy receiver, any of the following:

(a) Closing the health facility.

(b) Expanding existing and initiating new services and operations.

(c) Hiring and firing officers and employees.

(d) Contracting for necessary services, personnel, supplies, equipment, facilities, and all other appropriate things.

(e) Reasonably expending funds of the health facility.

(f) Paying the health facility's obligations, borrowing money and property and giving security as necessary for such.

(g) Purchasing, selling, marshalling and otherwise managing the health facility's property and assets.

[8.370.7.10 NMAC - N, 7/1/2024]

8.370.7.11 FINANCIAL OBLIGATIONS AND CONDITIONS:

The deputy receiver, unless granted prior approval from the district court, will not obligate the health facility to the purchase of real property, the sale of the health facility's real property, or the long-term lease of real property.

[8.370.7.11 NMAC - N, 7/1/2024]

8.370.7.12 PROVISIONS SOUGHT IN AN ORDER GRANTING PETITION FOR HEALTH FACILITY RECEIVERSHIP:

The secretary will seek provisions in the order granting the petition pertaining to:

A. Prior approval from the district court for the sale or purchase of real property;

B. Periodic accounting to the court and the parties;

C. The posting of bond for the deputy receiver and the waiver of any such bonds;

D. Allocation of income and assets of the health facility to the receiver to carry out the purposes of the receivership;

E. Expansion and restrictions on the statutory authority granted to the receiver or deputy receiver;

F. The scope of the receivership estate; and,

G. Any other provisions deemed necessary to carry out the duties, authority and responsibilities of the deputy receiver, including provisions that may limit or expand the duties, authority and responsibilities.

[8.370.7.12 NMAC - N, 7/1/2024]

PART 8: EMPLOYEE ABUSE REGISTRY

8.370.8.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.8.1 NMAC - N, 7/1/2024]

8.370.8.2 SCOPE:

This rule applies to a broad range of New Mexico providers of health care and services and employees of these providers who are not licensed health care professionals or certified nurse aides. This rule requires that providers check with the registry and avoid employing an individual on the registry. This rule provides for the investigation and determination of complaints alleging abuse, neglect or exploitation of recipients of care or services by employees. This rule further requires listing employees with substantiated registry-referred abuse, neglect or exploitation on the registry, following an opportunity for a hearing. This rule supplements other pre-employment screening requirements currently applicable to health care providers, such as the requirement for criminal history screening of caregivers employed by care providers subject to the Caregiver Criminal History Screening Act, Sections 29-17-1 et seq. NMSA 1978, and that Act's implementing rule, 8.370.5 NMAC. It also supplements requirements for pre-employment screening of certified nurse aides applicable to nursing facilities pursuant to 42 CFR Sections 483.75(e) and 488.335; and 8.370.25 NMAC. This rule does not address the consequences of abuse, neglect, or exploitation for which a provider, as distinguished from an employee, is responsible.

[8.370.8.2 NMAC - N, 7/1/2024]

8.370.8.3 STATUTORY AUTHORITY:

The Employee Abuse Registry Act, Sections 27-7A- 1 to 27-7A-8 NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (authority) as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.370.8.3 NMAC - N, 7/1/2024]

8.370.8.4 DURATION:

Permanent.

[8.370.8.4 NMAC - N, 7/1/2024]

8.370.8.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.370.8.5 NMAC - N, 7/1/2024]

8.370.8.6 OBJECTIVE:

The objective of this rule is to implement the Employee Abuse Registry Act. The rule is intended to provide guidance as to the rights and responsibilities under the Employee Abuse Registry Act of providers, employees of providers, the health care authority and the adult protective services division of the department of aging and long term services, and the public including recipients of care and services from providers.

[8.370.8.6 NMAC - N, 7/1/2024]

8.370.8.7 DEFINITIONS:

A. "Abuse" means,

(1) knowingly, intentionally or negligently and without justifiable cause inflicting physical pain, injury or mental anguish, and includes sexual abuse and verbal abuse; or

(2) the intentional deprivation by a caretaker or other person of services necessary to maintain the mental and physical health of a person.

B. "Adjudicated" means with respect to a substantiated registry-referred complaint, a final determination by the Secretary following a hearing, or by a court, that the employee committed abuse, neglect, or exploitation requiring the listing of the employee on the registry.

C. "APS" means the adult protective services division of the New Mexico aging and long term services department.

D. "Behavioral change" means an observable manifestation of psychological, emotional or mental harm, injury, suffering or damage, and includes, but is not limited to, crying, hysterical speech, or disruptions to sleeping, working, eating, speech, nonverbal communications, socially interacting, or other activities which were performed routinely before the harm, injury, suffering, or damage.

E. "Complaint" means any report, assertion, or allegation of abuse, neglect, or exploitation made by a reporter to the incident management system, and includes any reportable incident that a licensed or certified health care facility or community based services provider is required to report under applicable law.

F. "Custodian" means the person assigned by the secretary to maintain the registry in accordance with this rule and the Employee Abuse Registry Act.

G. "Direct care" means face-to-face services provided or routine and unsupervised physical or financial access to a recipient of care or services.

H. "Employee" means a person employed by or on contract with a provider, either directly or through a third party arrangement to provide direct care. "Employee" does not include a New Mexico licensed health care professional practicing within the scope of the professional's license or a certified nurse aide practicing as a certified nurse aide.

I. "Exploitation" means an unjust or improper use of a person's money or property for another person's profit or advantage, pecuniary or otherwise.

J. "Investigation" means a systematic fact finding process that has as its goal the gathering of all information relevant to making a determination whether an incident of abuse, neglect or exploitation occurred.

K. "Licensed health care professional" means a person who is required to be licensed, and is licensed, by a New Mexico health care professional licensing board or authority, and the issuance of whose professional license is conditioned upon the successful completion of a post secondary academic course of study resulting in a degree or diploma, including physicians and physician assistants, audiologists, acupuncture practitioners, dentists, registered nurses, licensed practical nurses, chiropractors, pharmacists, podiatrists, certified nurse-midwife, nurse practitioners, occupational therapists, optometrists, respiratory therapists, speech language pathologists, pharmacists, physical therapists, psychologists and psychologist associates, dietitians, nutritionists and social workers.

L. "Manager" means the authority employee designated by the secretary to manage the employee abuse registry program pursuant to the New Mexico Employee Abuse Registry Act and this rule.

M. "Mental Anguish" means a relatively high degree of mental pain and distress that is more than mere disappointment, anger, resentment or embarrassment, although it may include all of these and includes a mental sensation of extreme or excruciating pain.

N. "Neglect" means, subject to a person's right to refuse treatment and subject to a provider's right to exercise sound medical discretion, the failure of an employee to provide basic needs such as clothing, food, shelter, supervision, protection and care for the physical and mental health of a person or failure by a person that may cause physical or psychological harm. Neglect includes the knowing and intentional failure of an employee to reasonably protect a recipient of care or services from nonconsensual, inappropriate or harmful sexual contact, including such contact with another recipient of care or services.

O. "Provider" means an intermediate care facility for the mentally retarded; a rehabilitation facility; a home health agency; a homemaker agency; a home for the aged or disabled; a group home; an adult foster care home; a case management entity that provides services to elderly people or people with developmental disabilities; a corporate guardian; a private residence that provides personal care, adult residential care or natural and surrogate family services provided to persons with developmental disabilities; an adult daycare center; a boarding home; an adult residential care home; a residential service or habilitation service authorized to be reimbursed by medicaid; any licensed or medicaid-certified entity or any program funded by the aging and long-term services department that provides respite, companion or personal care services; programs funded by the children, youth and families department that provide homemaker or adult daycare services; and any other individual, agency or organization that provides respite care or delivers home- and community- based services to adults or children with developmental disabilities or physical disabilities or to the elderly, but excluding a managed care organization unless the employees of the managed care organization provide respite care, deliver home- and community-based services to adults or children with developmental disabilities or physical disabilities or to the elderly.

P. "Registry" means an electronic database operated by the authority that maintains current information on substantiated registry- referred employee abuse, neglect or exploitation, including the names and identifying information of all employees who, during employment with a provider, engaged in a substantiated registry-referred or an adjudicated incident of abuse, neglect or exploitation involving a recipient of care or services from a provider.

Q. "Reporter" means a person who or an entity that reports possible abuse, neglect or exploitation to the authority's incident management system.

R. "Secretary" means the secretary of the health care authority.

S. "Sexual abuse" means the inappropriate touching of a recipient of care or services by an employee for sexual purpose or in a sexual manner, and includes

kissing, touching the genitals, buttocks, or breasts, causing the recipient of care or services to touch the employee for sexual purpose, or promoting or observing for sexual purpose any activity or performance involving play, photography, filming or depiction of acts considered pornographic.

T. "Substantiated" means the verification of a complaint based upon a preponderance of reliable evidence obtained from an appropriate investigation of a complaint of abuse, neglect, or exploitation.

U. "Substantiated registry-referred" means a substantiated complaint that satisfies the severity standard for referral of the employee to the registry.

V. "Unsubstantiated" means that that the complaint's alleged abuse, neglect or exploitation did not or could not have occurred, or there is not a preponderance of reliable evidence to substantiate the complaint, or that there is conflicting evidence that is inconclusive.

W. "Verbal abuse" means profane, threatening, derogatory, or demeaning language, spoken or conveyed by an employee with the intent to cause pain, distress or injury, and which does cause pain, distress or injury as objectively manifested by the recipient of care or services.

[8.370.8.7 NMAC - N, 7/1/2024]

8.370.8.8 REGISTRY ESTABLISHED; PROVIDER INQUIRY REQUIRED:

Upon the effective date of this rule, the authority has established and maintains an accurate and complete electronic registry that contains the name, date of birth, address, social security number, and other appropriate identifying information of all persons who, while employed by a provider, have been determined by the authority, as a result of an investigation of a complaint, to have engaged in a substantiated registry- referred incident of abuse, neglect or exploitation of a person receiving care or services from a provider. Additions and updates to the registry shall be posted no later than two business days following receipt. Only authority staff designated by the custodian may access, maintain and update the data in the registry.

A. Provider requirement to inquire of registry. A provider, prior to employing or contracting with an employee, shall inquire of the registry whether the individual under consideration for employment or contracting is listed on the registry.

B. Prohibited employment. A provider may not employ or contract with an individual to be an employee if the individual is listed on the registry as having a substantiated registry-referred incident of abuse, neglect or exploitation of a person receiving care or services from a provider.

C. Applicant's identifying information required. In making the inquiry to the registry prior to employing or contracting with an employee, the provider shall use identifying information concerning the individual under consideration for employment or contracting sufficient to reasonably and completely search the registry, including the name, address, date of birth, social security number, and other appropriate identifying information required by the registry.

D. Documentation of inquiry to registry. The provider shall maintain documentation in the employee's personnel or employment records that evidences the fact that the provider made an inquiry to the registry concerning that employee prior to employment. Such documentation must include evidence, based on the response to such inquiry received from the custodian by the provider, that the employee was not listed on the registry as having a substantiated registry- referred incident of abuse, neglect or exploitation.

E. Documentation for other staff. With respect to all employed or contracted individuals providing direct care who are licensed health care professionals or certified nurse aides, the provider shall maintain documentation reflecting the individual's current licensure as a health care professional or current certification as a nurse aide.

F. Consequences of noncompliance. The authority or other governmental agency having regulatory enforcement authority over a provider may sanction a provider in accordance with applicable law if the provider fails to make an appropriate and timely inquiry of the registry, or fails to maintain evidence of such inquiry, in connection with the hiring or contracting of an employee; or for employing or contracting any person to work as an employee who is listed on the registry. Such sanctions may include a directed plan of correction, civil monetary penalty not to exceed $5,000 per instance, or termination or non-renewal of any contract with the authority or other governmental agency.

[8.370.8.8 NMAC - N, 7/1/2024]

8.370.8.9 INCIDENT MANAGEMENT SYSTEM INTAKE:

The authority has established an incident management system for receipt, tracking and processing of complaints. Complaints may be reported to the authority's incident management system using the authority website's on-line form completion utility, by telephone using a toll free number, facsimile, U.S. mail, email, or in-person. The method of reporting preferred by the authority is on-line form completion via the authority's website, http://dhi.health.state.nm.us/elibrary/ironline/ir.php. The toll free telephone line is staffed by the authority during normal business hours and a message system is available for reporting complaints during non-business hours.

A. Incident report form. Complaints of suspected abuse, neglect or exploitation will be reported by providers on the department's incident report form if possible. This form

and instructions for completing and filing the form are available at the department's website or may be obtained from the department by calling the toll free number 800-752-8649 or 800-445- 6242 or by mailing a request to the incident management bureau, division of health improvement, health care authority.

B. Reportable intake information. Reports of suspected abuse, neglect or exploitation made to the authority by persons who do not have access to, or are unable to use, the authority's current incident report form shall provide as specific a description of the incident or situation as possible, and shall contain the following information where applicable:

(1) the location, date and time or shift of the incident;

(2) the name, age and gender, address and telephone number of the person the reporter suspects to have been abused, neglected, or exploited, and the name, address and telephone number of the guardian or health care decision maker for such person, if applicable;

(3) the names, addresses, phone numbers and other identifying information of the providers who provide services to the person the reporter suspects to have been abused, neglected, or exploited;

(4) the names, addresses, phone numbers and other identifying information of the following people who the reporter believes may have been involved with, or have knowledge of, the incident; provider's staff and employees; family members or guardians of the person the reporter suspects to have been abused, neglected, or exploited; other health care professionals or facilities; and any other persons who may have such knowledge;

(5) the condition and status of the person the reporter suspects to have been abused, neglected, or exploited;

(6) the reporter's name, address, telephone number and other contact information, together with the name and address of the provider with whom the reporter is employed, if applicable.

C. Method of filing complaint. The completed incident report form must be filed with the department. It may be hand delivered, mailed, emailed, or, preferably, filed by use of the department's procedure for on-line form completion.

[8.370.8.9 NMAC - N, 7/1/2024]

8.370.8.10 COMPLAINT PROCESSING:

A. Assignment of complaint. The manager or designee shall review the complaints, reports or allegations of abuse, neglect or exploitation, prioritize these complaints and

assign appropriate authority staff to investigate when warranted, and refer the complaint, report, or allegation to APS, and other appropriate oversight agencies for investigation.

(1) Assignment shall be made to appropriate staff of the authority of all complaints of abuse, neglect or exploitation involving a provider for whom the authority has oversight authority or for whom the authority has agreed to investigate.

(2) Referral shall be made to APS of complaints of abuse, neglect or exploitation in all instances where the complaint involves a provider of medicaid waiver services administered by the aging and long-term services department and the provider is not otherwise licensed by or under contract with the authority.

(3) The manager shall prioritize the complaints and ensure that the complaints that allege the most serious incidents of abuse, neglect or exploitation, or that present a high risk of future harm, are promptly investigated.

B. Immediate threat to health or safety. In instances where the investigation determines that there exists an immediate threat to the health or safety of a person in the care of a provider, the authority or APS, in accordance with applicable statutory authority, will make the necessary arrangements or referrals to ensure the protection of persons at risk of harm or injury. The authority will take appropriate action to eliminate or reduce the immediate threat to health or safety with respect to providers it licenses or with whom it contracts.

C. Conducting the investigation. The authority investigation of complaints will follow the procedures in this rule. The investigations conducted by APS will comply with applicable APS rules or with the provisions herein.

(1) The investigators shall gather all relevant evidence, weigh the evidence including making credibility determinations. Individuals from whom information is gathered may include the reporter, witnesses identified by the reporter, listed on the incident report form or discovered during the investigation, the alleged victim, appropriate representatives of the provider, medical personnel with relevant information, family members and guardians of the alleged victim, any employee suspected of abuse, neglect or exploitation, other recipients of care and services, and other persons possibly having relevant information.

(2) Physical injuries that are the subject of the complaint will be observed in person and documented. Complete documentation must be obtained of all objectively verifiable manifestations of mental anguish, verbal abuse, sexual abuse or neglect on the part of the recipient of care or services.

(3) The investigator will generally follow authority guidelines addressing face-to- face individualized interviews, telephonic interviews, witness statements and documentation of contacts.

(4) The investigator will follow established guidelines for clinical consultations.

(5) In instances where the investigation results in discovery of other, unrelated instances of possible abuse, neglect or exploitation, the investigator will file an incident report form with the incident management system. However, additional allegations involving the same complaint as the one under investigation are considered the same case and will not be separately reported, although the investigator may supplement the Incident Report.

(6) At any time during the investigation, the manager shall make referrals to other licensing authorities based upon information of possible violations of applicable health facility, community provider or health care professional standards.

(7) The investigator will submit an investigation report to the manager with recommendations as to whether the complaint is:

(a) unsubstantiated;

(b) substantiated; or

(c) substantiated registry-referred.

(8) Where appropriate, the investigation report may make findings and recommendations with respect to provider responsibility for abuse, neglect or exploitation.

(9) The manager shall review the investigation report and recommendations and shall make a determination whether the complaint of abuse, neglect or exploitation is substantiated.

(10) If the manager determines, as a result of the manager's review of the investigation report and recommendations, that the complaint is substantiated, the manager shall apply the appropriate severity standard to the substantiated complaint to further determine if the complaint is substantiated registry- referred.

D. Investigation file and report. The authority shall establish an investigation file, which shall contain all applicable information relating to the complaint including the incident report form, correspondence, investigation, referrals, determinations, secretary's decision, and notices of appeal. Following the investigation and determination by the manager, the complaint and investigation file will be maintained by the custodian. The investigator, or the investigator from the lead agency in a joint investigation, shall prepare and submit a written investigation report. The investigation report shall be part of the investigation file. The investigation report shall contain a review of the evidence obtained during the investigation, including but not limited to:

(1) interviews conducted and written statements;

(2) interviews and statements reviewed that were originally conducted or obtained by other entities such as the provider, other health care facilities and medical providers, or law enforcement;

(3) documents, diagrams, photographs and other tangible evidence obtained or reviewed;

(4) a description of any actions taken by the provider in a response to the complaint or situation under investigation; and,

(5) analysis of the evidence and recommendations.

E. Timeline and processing of a complaint. The investigation of each complaint shall be completed by the authority within 60 calendar days of receipt of the complaint.

(1) The investigation report shall be submitted to the manager no later than 60 calendar days following the receipt of the complaint.

(2) The manager shall review the investigatory findings and recommendations and make a determination within five business days of receipt of the findings as to whether the complaint of abuse, neglect or exploitation is substantiated registry-referred.

(3) The manager may issue a specific extension of any complaint processing deadline if reasonable grounds exist for such extension and the reasons are set out in the written extension. The written extension is included in the investigation file. Grounds for an extension may include, but are not limited to, the temporary non-availability of witnesses or documentary evidence, or the need for information not yet available from other entities that may be involved with an investigation into the facts that form the basis of the complaint, including the office of the medical investigator and agencies charged with law enforcement, auditing, financial oversight, fraud investigation, or advocacy.

F. Validity of enforcement actions. Failure by the authority or APS to comply with the procedures or time requirements set out in this section does not abrogate or invalidate any action taken against an employee pursuant to this rule, or any action taken against a provider for noncompliance with this rule or any other applicable law or regulation. However, any such failure may be admitted into evidence at a hearing.

[8.370.8.10 NMAC - N, 7/1/2024]

8.370.8.11 SEVERITY STANDARD:

A determination of the severity of all substantiated complaints of abuse, neglect or exploitation is made for the purpose of deciding if the employee is to be referred for placement on the registry. The determination of the severity of the substantiated complaint of abuse, neglect or exploitation is based upon application of the severity

standards in this section. A substantiated complaint that satisfies the severity standard in this section is a substantiated registry-referred complaint. A substantiated complaint that does not satisfy the severity standard in this section will not be referred to the registry. Severity is determined by assessing the impact of the substantiated abuse, neglect, or exploitation on the recipient of care or services, and by assessing the employee for aggravating factors. In assessing the impact of abuse, neglect or exploitation, a reasonable person standard shall apply when the harmed individual is not able to express their feelings, when there is no discernable response from the harmed individual, or when circumstances do not permit a direct evaluation of the individual's psychosocial outcome. Such circumstances may include, but are not limited to, the individual's death, cognitive impairments, physical impairments, insufficient documentation by the facility, or when an individual's reaction to a deficient practice is markedly incongruent with the level of reaction a reasonable person in the individual's position would have to the deficient practice.

A. Abuse: A substantiated complaint of abuse meets the severity standard if:

(1) the abuse results in, or is a contributing factor to, death;

(2) the abuse results in the deliberate infliction of a physical injury;

(3) the abuse results in any injury for which criminal charges are brought against the employee resulting in a plea or conviction;

(4) the abuse results in the infliction of pain;

(5) the abuse causes significant mental anguish as evidenced by the victim's descriptions, behavioral changes, or by applying a reasonable person standard;

(6) the abuse is sexual abuse;

(7) the abuse is verbal abuse that causes mental anguish, including psychological or emotional damage, as evidenced by behavioral changes or physical symptoms, or by applying a reasonable person standard;

(8) the employee used alcohol or a controlled substance at or near the time of the substantiated abuse; or

(9) the employee used, brandished or threatened to use, a weapon in connection with the substantiated.

B. Neglect: A substantiated complaint of neglect meets the severity standard if:

(1) the neglect results in, or is a contributing factor to, death;

(2) the neglect results in the infliction of a physical injury or emotional injury;

(3) the neglect results in any injury for which criminal charges are brought against the employee resulting in a plea or conviction;

(4) the neglect results in the infliction of pain;

(5) the neglect causes mental anguish as evidenced by the victim's descriptions, or behavioral changes, or by applying a reasonable person standard; or

(6) the employee used alcohol or a controlled substance at or near the time of the substantiated neglect.

C. Exploitation: A substantiated complaint of exploitation meets the severity standard where unjust or improper use of the money or property belonging to the recipient of care or services results in:

(1) an objectively quantifiable loss, the value of which exceeds the lesser of either:

(a) $100.00; or,

(b) twenty five percent the monthly income available to the recipient of care or services for purchasing personal items or discretionary spending; or

(2) a subjectively substantial loss to the recipient of care or services due to a special attachment to the property, as demonstrated by anger, fear, frustration, depression or behavioral changes caused by the loss.

D. Aggravating factors: A substantiated complaint of abuse, neglect or exploitation meets the severity standard requiring referral of the employee for placement on the registry where:

(1) the employee used alcohol or a controlled substance at or near the time of the substantiated abuse, neglect or exploitation; or

(2) the employee used, brandished or threatened to use, a weapon in connection with the substantiated abuse, neglect or exploitation.

[8.370.8.11 NMAC - N, 7/1/2024; A/E, 2/25/2025]

8.370.8.12 PROVIDER COOPERATION:

A. Access to provider by investigators. The provider shall provide immediate physical access to the provider's entire facility or its service delivery sites to

investigators from the authority or APS. The investigators may require such access during any or all shifts.

B. Access to provider records. The provider shall provide to investigators from the authority or APS immediate access to all information obtained as a result of the provider's own internal investigation of the matters that form the basis of the complaint, including but not limited to written statements, interviews, affidavits, physical items, medical information, electronic and computer data, and photographic information.

C. Interviews. Investigators from the authority or APS shall have a reasonable opportunity to conduct confidential interviews with any person who may have relevant information relating to the complaint, including employees and other staff including licensed health care professionals and certified nurse aides, other licensed health care professionals and other provider staff, recipients of care or services from the provider and their family members, guardians, health care decision makers and friends.

D. Physical access to recipients of care and services. The provider must allow reasonable access to individuals receiving care or services from the provider to investigators from the authority or APS when such investigators announce that they are investigating a complaint. Such access may be telephonic or face-to-face.

E. Access to the provider's records, patient trust accounts and patient property. The provider must provide immediate access to investigators from the authority or APS to the provider's billing records, patient trust accounts, representative payee records, patient care and medical records, and patient property. In addition the provider must assure access to employee and personnel records, including documentation showing provider inquiry to the registry.

F. Copying. The access required to be provided to investigators includes copying paper documents and printing and copying electronic and computer records or data. Copied documents shall be retained in accordance with applicable state retention policies.

G. Consequences of provider's denial of cooperation. The authority shall administer sanctions for a provider's failure to comply with the Employee Abuse Registry Act, including failure to provide access as required herein to conduct investigations of complaints, and such sanctions include a directed plan of correction, a civil monetary penalty not to exceed $5,000, or such sanctions as are available under applicable contract or licensing provisions.

[8.370.8.12 NMAC - N, 7/1/2024]

8.370.8.13 NOTIFICATION FOLLOWING INVESTIGATION:

A. Notification to provider and employee. If the authority or APS determines, following an investigation, that an instance of either substantiated or substantiated

registry-referred employee abuse, neglect, or exploitation has occurred, then the authority, if it substantiated the complaint, or APS, if it substantiated the complaint, shall promptly notify the employee and the provider.

B. Required information for substantiated registry-referred complaints. The notice to the provider and employee for substantiated registry-referred complaints shall be by certified mail and shall include the following information.

(1) The nature of the abuse, neglect, or exploitation.

(2) The date and time of the occurrence.

(3) The right to request a hearing, and the time and manner for requesting a hearing.

(4) The fact that the substantiated registry-referred findings will be reported to the registry, once the employee has had an opportunity for a hearing.

(5) The failure by the employee to request a hearing in writing within 30 calendar days from the date of the notice shall result in the reporting of the substantiated findings to the registry and the provider.

C. Required information for substantiated complaints. The notice to the provider and employee for substantiated complaints may be by mail or by email and shall include the following information.

(1) The nature of the abuse, neglect, or exploitation.

(2) The date and time of the occurrence.

(3) The fact that the substantiated complaint was not sufficiently severe to warrant reporting the employee to the registry.

(4) The fact that the employee may not request a hearing.

D. Unsubstantiated complaints. Notice of a determination that an investigated complaint is unsubstantiated shall be mailed or emailed to the provider following such determination.

E. APS notification to the authority. APS shall notify the manager of substantiated complaints of abuse, neglect and exploitation, and substantiated registry-referred complaints of abuse, neglect and exploitation.

[8.370.8.13 NMAC - N, 7/1/2024]

8.370.8.14 HEARINGS:

Hearings are provided to employees by either the authority or APS. This section provides rules applicable to hearings held by the authority.

A. Request for hearing. An employee may request an evidentiary hearing if the employee is notified that as a result of substantiated registry-referred findings of abuse, neglect, or exploitation the employee will be reported to the registry. The request for hearing shall be made to the authority if the authority conducted the investigation and issued the notice. The employee's request for hearing shall be made to APS if APS conducted the investigation and issued the notice. A provider may not request a hearing pursuant to the Employee Abuse Registry Act. The following applies to hearings properly requested of the authority.

(1) The request for a hearing shall be in writing and mailed or delivered to the New Mexico health care authority at the address set forth in the notice.

(2) The request for hearing shall include a copy of the notice.

(3) The request for hearing must be mailed or hand-delivered no later than 30 calendar days after the date of the notice.

B. Scheduling order. The authority, or the hearing officer, shall issue a scheduling order that sets the hearing at a location reasonably convenient for the employee and at a date and time reasonably convenient to the parties. The scheduling order shall establish deadlines for completion of discovery and provide for the filing of a confidentiality order. The hearing shall be scheduled within 30 calendar days following the authority's receipt of the request for hearing. Either party may request a continuance of the hearing for good cause. If a hearing is continued it shall be rescheduled at the earliest date and time available to the parties.

C. Hearing officer. The hearing will be conducted before an impartial and independent hearing officer of the authority. The hearing officer is not required to be an attorney. Upon appointment, the hearing officer shall establish an official file of the case. The hearing officer shall resolve all prehearing matters, including amendment of the scheduling order, schedule and conduct prehearing conferences, rule on prehearing motions, and resolve discovery disputes. The hearing officer will preside over the hearing and allow each party an opportunity to present its case, and shall resolve all motions, evidentiary issues and other matters as may be necessary. Within 30 calendar days of the conclusion of the hearing the hearing officer will issue a report and recommended decision to the secretary.

D. Parties. The parties to the hearing are the authority, through the manager or designee, and the employee. Each party may be represented by an attorney.

E. Confidentiality. The hearing officer shall require the filing of an appropriate signed confidentiality order in which each party agrees to maintain and protect the confidentiality of all individually identifiable health information that is, or may be, used or

disclosed at any time during the course of the entire proceeding in accordance with applicable state and federal law and regulations. Refusal or failure to sign an appropriate confidentiality order constitute grounds for denying discovery to the non-signing party, limiting the number and testimony of the non-signing party's witnesses, limiting the admission of evidence that discloses individually identifiable health information, and the imposition of other appropriate measures to limit the scope of disclosure of individually identifiable health information to the non-signing party.

F. Discovery.

(1) Exhibit and witness lists will be exchanged between the parties and provided to the hearing officer prior to the hearing by the parties in accordance with the scheduling order, any prehearing order, or by agreement of the parties. The witness list shall include a summary of the subject matter of the anticipated testimony of each witness listed.

(2) No depositions are allowed except by order of the hearing officer upon a showing that the deposition is necessary to preserve the testimony of persons who are sick or elderly, or persons who will not be able to attend the hearing. Pursuant to provisions in the scheduling order or upon agreement of the parties, and with the consent of the witness if the witness is not employed by the authority or another governmental entity, a party may interview witnesses identified by the other party at a reasonable time and in a reasonable manner.

(3) Production of documents. Upon request by the employee, the authority shall provide a copy of the investigation to the employee. The parties may request the production of other relevant documents in accordance with the scheduling order or other discovery order.

G. Hearing procedures. The hearing shall be closed to the public. The hearing officer shall conduct the hearing in an efficient and orderly manner that respects the rights of the parties to present their cases. The hearing officer shall maintain proper decorum and shall assure that all participants in the hearing are courteous to one another. The hearing officer is authorized to resolve motions and other disputes before and during the hearing.

(1) Recording. The hearing officer will cause a record to be made of the hearing and retained in the official file. Generally such record is made by use of commonly available audio recording technology. A log of the recording shall be maintained.

(2) Order of presentation at hearing. The authority shall present its case, the employee shall present the employee's case, and the authority may present its rebuttal case.

(3) Public. The hearing is a closed, nonpublic hearing.

(4) Evidence. The New Mexico rules of evidence do not apply, although they may be referred to for guidance as to type of evidence that may be admitted. Generally, evidence shall be admitted if it is of a type relied upon by reasonable persons in the conduct of important affairs. Proffered evidence may be excluded if it is not relevant, or is repetitious or cumulative.

(5) Telephonic testimony. Upon timely notice to the opposing party and the hearing officer and with the approval of the hearing officer, the parties may present witnesses by telephone, or live video.

(6) Recommended decision. The hearing officer shall issue a recommended decision to the secretary within 30 days of the closing of the hearing and transfer the official record to the custodian.

(7) The custodian shall maintain the official record of the hearing, which shall include the recommendation of the hearing officer and the secretary's adjudicated decision.

H. Secretary's decision. Within 10 business days of receipt of the authority's or the APS' hearing officer recommendation, the secretary of the authority shall issue a final decision, and promptly provide the parties with a copy. If the decision of the secretary finds that the employee was responsible for abuse, neglect or exploitation of sufficient severity for referral to the registry, it shall be the adjudicated decision of abuse, neglect or exploitation.

I. Judicial review. An employee may appeal the secretary's adjudicated decision of abuse, neglect or exploitation to the district court pursuant to the provisions of Section 39-3-1.1 NMSA 1978. The custodian will enter the employee's name into the registry within two working days following receipt of the adjudicated decision. The custodian shall promptly remove the employee from the registry upon the authority's receipt of an order issued by the district court granting a stay pending the outcome of the appeal, or upon the authority's receipt of a district court order reversing the adjudicated decision.

J. Court of appeals. If the employee seeks review in the court of appeals by writ of certiorari, the employee shall remain on the registry, unless a stay is granted or the court of appeals reverses the district court. If a stay is granted or the court of appeals reverses, notification shall be made to the custodian who shall promptly remove the employee from the registry.

[8.370.8.14 NMAC - N, 7/1/2024]

8.370.8.15 NOTIFICATION BY APS:

APS shall promptly provide all required employee information to the custodian of the final disposition of complaints of substantiated registry-referred abuse, neglect or exploitation after the occurrence of each of the following:

A. No hearing requested. The employee has not requested an administrative hearing within 30 calendar days after the date of the notice to the employee following an investigation resulting in the determination of substantiated registry-referred abuse, neglect, or exploitation.

B. Adjudication of abuse, neglect or exploitation. The employee has not filed for review in the district court pursuant to the provisions of Section 39-3-1.1 NMSA 1978 after 30 calendar days following the date of the final APS administrative adjudication decision of employee abuse, neglect or exploitation of sufficient severity for registry referral.

C. Judicial decision. Upon the receipt by APS of a district court order or decision sustaining the APS administrative adjudication decision of abuse, neglect or exploitation of sufficient severity for registry referral, if an employee seeks judicial review in the district court.

D. Court of Appeals. If the employee seeks review in the court of appeals by writ of certiorari, the employee shall remain on the registry, unless a stay is granted or the court of appeals reverses the district court. If a stay is granted or the court of appeals reverses, then notification shall be made to the custodian who shall promptly remove the employee from the registry.

[8.370.8.15 NMAC - N, 7/1/2024]

8.370.8.16 ENTRY ON THE REGISTRY:

The custodian shall provide the employee and the provider for whom the employee worked with notice of the employee's listing on the registry. The following employees will be listed on the registry by the custodian:

A. No hearing requested. Any employee determined to have committed substantiated registry-referred abuse, neglect or exploitation who does not request an administrative hearing within 30 calendar days after the date of the notice to the employee.

B. Adjudicated decision. Any employee who, after 30 calendar days following the date of an adjudicated decision of abuse, neglect or exploitation, has not filed for review in the district court pursuant to the provisions of Section 39-3-1.1 NMSA 1978.

C. Judicial decision. Any employee for whom a district court has entered an order or decision sustaining an administrative adjudication of abuse, neglect or exploitation.

D. Court of appeals. Any employee who seeks review in the court of appeals by writ of certiorari shall remain listed on the registry, unless a stay is granted pending the outcome of the case, or the court of appeals reverses the district court. If a stay is

granted or the court of appeals reverses the district court, then the custodian shall promptly remove the employee from the registry.

[8.370.8.16 NMAC - N, 7/1/2024]

8.370.8.17 REMOVAL FROM THE REGISTRY:

After a period of three years from the effective date of placement on the registry, an individual on the registry may petition for removal from the registry. The petition shall be sent to the custodian. The petition contents shall be reviewed for completeness within five days, and if not complete, notice shall be sent to the petitioner informing the petitioner that the petition is incomplete. The petition review time does not commence to run until the submission of a complete petition.

A. Petition contents. Any individual whose name is on the registry may petition the custodian in writing for removal of the individual's name from the registry. In addition to the name, address, telephone number, and social security number of the petitioner, the petition shall provide:

(1) the petitioner's employment history since placement on the registry, to include for each employer, the name, address and telephone number of the employer, a brief description of the petitioner's responsibilities, the dates of the employment, reasons for ending the employment, and the names and telephone numbers of any employer contacts;

(2) evidence of any rehabilitation, restitution or education since the incident of abuse, neglect or exploitation, including copies of any certificates or other evidence of successful completion of rehabilitation or other educational programs, and including evidence of relevant volunteer activities;

(3) other relevant information including changed circumstances.

B. Review of petition. The authority shall establish a process of review of the petition. Such process may include review of the petition by authority or APS employees selected for such reviews, and shall include a requirement that a recommendation be made to the secretary on the merits of the petition within 20 calendar days from receipt of the completed petition. The burden at all times rests upon the petitioner to present truthful information sufficient to show that good cause exists for removing the petitioner's name from the registry.

C. Review considerations. The review process established by the authority shall consider all relevant factors to determine if the petitioner has presented truthful information sufficient to demonstrate that good cause exists for removing the petitioner's name from the registry, including but not limited to:

(1) the nature and extent of the substantiated abuse, neglect or exploitation which resulted in the placement of the petitioner's name on the registry including records obtained from the employee abuse registry program and the custodian of the registry;

(2) the evidence showing the rehabilitation activities of the petitioner, which may be based in part on relevant volunteer activities, education and restitution;

(3) the petitioner's age at the time of the substantiated abuse, neglect or exploitation, and the length of time since the substantiated abuse, neglect or exploitation;

(4) the likelihood that the petitioner will commit future acts of abuse, neglect or exploitation; and,

(5) the existence and extent of false or misleading statements or information provided by the petitioner in connection with the petition.

D. Decision on Petition. The secretary shall issue a final written determination on the petition based upon the review of the petition within 30 days of receipt of the completed petition, and shall provide the decision to the petitioner in person or by certified mail. The secretary's final written determination shall be delivered or mailed to the petitioner within three business days of such determination. If the petition is granted, the petitioner's name shall be promptly removed from the registry.

E. Hearings. If the secretary denies the petition, the petitioner may request an administrative hearing with 10 calendar days of receipt of the decision. Upon receipt of a request for a hearing, an independent hearing officer of the authority shall conduct the hearing. If a petition is denied by the secretary and a hearing is requested and provided, the individual may not thereafter re-petition for removal from the registry. If the petition is denied following a hearing, then the petitioner may seek judicial review pursuant to the provisions of Section 39-3-1.1 NMSA 1978. If a petition is denied by the secretary, and an administrative hearing is not timely requested, then the individual on the registry may petition only one additional time for removal from the registry after a minimum of 36 months from the date of the prior petition denial.

[8.370.8.17 NMAC - N, 7/1/2024]

8.370.8.18 CONFIDENTIALITY:

The authority complies with all state and federal confidentiality requirements regarding information obtained in connection with the operation of the employee abuse registry program, including the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

A. Confidentiality of information. Information obtained by the incident management system involving incidents or situations of suspected abuse, neglect or exploitation is confidential, and is not subject to public inspection until completion of all investigations and hearings, and then only to the extent specifically permitted by law and only such information that does not identify individuals who are receiving care or services from providers.

B. Unsubstantiated complaints. Complaints of suspected abuse, neglect or exploitation obtained by the incident management system that are not substantiated following investigation are not public information and are not subject to public inspection.

C. Substantiated complaints. Complaints of suspected abuse, neglect or exploitation obtained by the incident management system that are substantiated following investigation are subject to public inspection only to the extent permitted by law and the disclosure may not include any identifying information about an individual who is receiving health care services from a provider.

D. Permitted disclosures. Nothing herein shall restrict an appropriate disclosure of information to the centers for medicare and medicaid services; nor shall any provision herein restrict disclosures to law enforcement officials, including district attorneys and courts, in accordance with the Adult Protective Services Act and the Resident Abuse and Neglect Act or other law.

[8.370.8.18 NMAC - N, 7/1/2024]

PART 9: INCIDENT REPORTING, INTAKE, PROCESSING AND TRAINING REQUIREMENTS

8.370.9.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.9.1 NMAC - N, 7/1/2024]

8.370.9.2 SCOPE:

This rule is applicable to persons, organizations or legal entities to include each: adult day care center, adult day care home, adult assisted living facility, ambulatory surgical center, diagnostic and treatment center, end stage renal disease facility, general, acute, special and limited service hospitals, home health agency, hospice facility, hospital infirmary, intermediate care facility for the mentally retarded or the intellectually and developmentally disabled, limited diagnostic and treatment center, nursing facility, skilled nursing facility, and rural health clinic.

[8.370.9.2 NMAC - N, 7/1/2024]

8.370.9.3 STATUTORY AUTHORITY:

Section 24-1-3, and 24-1-5 NMSA 1978, of the Public Health Act as amended. Section 9-8- 1 et seq. NMSA 1978 establishes the health care authority (authority) (as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.370.9.3 NMAC - N, 7/1/2024]

8.370.9.4 DURATION:

Permanent.

[8.370.9.4 NMAC - N, 7/1/2024]

8.370.9.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.370.9.5 NMAC - N, 7/1/2024]

8.370.9.6 OBJECTIVE:

This rule establishes standards for licensed health care facilities to institute and maintain an incident management system and employee training program for the reporting of abuse, neglect, exploitation injuries of unknown origin and other reportable incidents.

[8.370.9.6 NMAC - N, 7/1/2024]

8.370.9.7 DEFINITIONS:

A. "Abuse" means:

(1) knowingly, intentionally, and without justifiable cause inflicting physical pain, injury or mental anguish;

(2) the intentional deprivation by a caretaker or other person of services necessary to maintain the mental and physical health of a person;

(3) sexual abuse, including criminal sexual contact, incest, and criminal sexual penetration; or

(4) verbal abuse, including profane, threatening, derogatory, or demeaning language, spoken or conveyed with the intent to cause mental anguish.

B. "Bureau" means the health care authority, division of health improvement, health facility licensing and certification bureau.

C. "Case manager" means the staff person designated to coordinate and monitor the individual service plan for persons receiving services.

D. "Complaint" means any report, assertion, or allegation of abuse, neglect, or exploitation of, or injuries of unknown origin to, a consumer made by a reporter to the incident management system, and includes any reportable incident that a licensed health care facility is required to report under applicable law.

E. "CMS" means the centers for medicare and medicaid services.

F. "Consumer" means any person who engages the professional services of a medical or other health professional on an inpatient or outpatient basis, or person requesting services from a hospital.

G. "Division" means the health care authority, division of health improvement.

H. "Employee" means:

(1) any person whose employment or contractual service with a licensed health care facility which includes direct care or routine and unsupervised physical or financial access to any care recipient serviced by that licensed health care facility; or

(2) any compensated persons such as employees, contractors and employees of contractors; or guardianship service providers or case management entities that provide services to people with developmental disabilities; or administrators or operators of facilities who are routinely on site.

I. "Exploitation" means an unjust or improper use of a person's money or property for another person's profit or advantage, financial or otherwise.

J. "Immediate access" means physical or in person direct and unobstructed access, to electronic or other access needed by employees, consumers, family members or legal guardian to the licensed health care facility's incident management reporting procedures or access to the division's incident report form.

K. "Immediate reporting" means reporting that is done as soon as practicable and no later than 24 hours from knowledge of the incident.

L. "Immediate jeopardy" means a provider's noncompliance with one or more requirements of medicaid or medicare participation, which causes or is likely to cause, serious injury, harm, impairment, or death to a consumer.

M. "Incident" means any known, alleged or suspected event of abuse, neglect, exploitation, injuries of unknown origin or other reportable incidents.

N. "Incident management system" means the written policies and procedures adopted or developed by the licensed health facility for reporting abuse, neglect, exploitation, injuries of unknown origin or other reportable incidents.

O. "Incident report form" means the reporting format issued by the division for the reporting of incidents or complaints.

P. "ISP" means a consumer's individual service plan.

Q. "Licensed health care facilities" means any organization licensed by the authority for the following services: adult day care center, assisted living facility, ambulatory surgical center, diagnostic and treatment center, end stage renal disease facility, general, acute, special and limited service hospitals, home health agency, hospice facility, hospital infirmary, intermediate care facility for the mentally retarded or intellectually and developmentally disabled, limited diagnostic and treatment center, nursing facility, skilled nursing facility, rural health clinic.

R. "Mental anguish" means a relatively high degree of mental pain and distress that is more than mere disappointment, anger, resentment or embarrassment, although it may include all of these, and is objectively manifested by the recipient of care or services by significant behavioral or emotional changes or physical symptoms.

S. "Neglect" means the failure of the caretaker to provide basic needs of a person, such as clothing, food, shelter, supervision and care for the physical and mental health of that person. Neglect causes, or is likely to cause, harm to a person.

T. "Quality assurance" means a systematic approach to the continuous study and improvement of the efficiency and efficacy of organizational, administrative and clinical practices in meeting the needs of persons served as well as achieving the licensed health care facility's mission, values and goals.

U. "Quality improvement system" means the adopted or developed licensed health care facility's policies and procedures for reviewing and documenting all alleged incidents of abuse, neglect, exploitation, injuries of unknown origin, or other reportable incidents for the continuous study and improvement of the efficiency and efficacy of organizational, administrative and preventative practices in employee training and reporting.

V. "Reportable incident" means possible abuse, neglect, exploitation, injuries of unknown origin and other events including but not limited to falls which cause injury, unexpected death, elopement, medication error which causes or is likely to cause harm, failure to follow a doctor's order or an ISP, or any other incident which may evidence abuse, neglect, or exploitation.

W. "Reporter" means any person who or any entity that reports possible abuse, neglect or exploitation to the division.

X. "Restraints" means use of a mechanical device, or chemical restraints imposed, for the purposes of discipline or convenience, to physically restrict a consumer's freedom of movement, performance of physical activity, or normal access to his body.

Y. "Revocation" means a type of sanction making a license null and void through its cancellation.

Z. "Sanction" means a measure imposed by the authority on a licensed program, pursuant to these requirements, in response to a finding of deficiency, with the intent of obtaining increased compliance with these requirements.

AA. "Substantiated" means the verification of a complaint based upon a preponderance of reliable evidence obtained from an appropriate investigation of a complaint of abuse, neglect, or exploitation.

BB. "Suspension" means a temporary cancellation of a license pending an appeal, hearing or correction of the deficiency. During a suspension the provider's medicare or medicaid agreement is not in effect.

CC. "Training curriculum" means the instruction manual or pamphlet adopted or developed by the licensed health facility containing policies and procedures for reporting abuse, neglect, misappropriation of consumers' property or other reportable incidents.

DD. "Unsubstantiated" means that the complaint or incident could not be verified based upon a preponderance of reliable evidence obtained from an appropriate investigation of a complaint of abuse, neglect, or exploitation.

EE. "Volunteer" means any person who works without compensation for a licensed health care facility whose services includes direct care or routine and unsupervised physical or financial access to any care recipient serviced by that licensed health care facility.

[8.370.9.7 NMAC - N, 7/1/2024]

8.370.9.8 INCIDENT MANAGEMENT SYSTEM REPORTING REQUIREMENTS FOR LICENSED HEALTH CARE FACILITIES:

A. Duty to report:

(1) All licensed health care facilities shall immediately report abuse, neglect or exploitation to the adult protective services division.

(2) All licensed health care facilities shall report abuse, neglect, exploitation, and injuries of unknown origin or other reportable incidents to the bureau within a 24 hour period, or the next business day when the incident occurs on a weekend or holiday.

(3) All licensed health care facilities shall ensure that the reporter with direct knowledge of an incident has immediate access to the bureau incident report form to allow the reporter to respond to, report, and document incidents in a timely and accurate manner.

B. Notification:

(1) Incident reporting: Any person may report an incident to the bureau by utilizing the DHI toll free complaint hotline at 1-800-752-8649. Any consumer, employee, family member or legal guardian may also report an incident to the bureau directly or through the licensed health care facility by written correspondence or by utilizing the bureau's incident report form. The incident report form and instructions for the completion and filing are available at the division's website or may be obtained from the authority by calling the toll free number at 1-800- 752-8649.

(2) Division incident report form and notification by licensed health care facilities: The licensed health care facility shall report incidents utilizing the division's incident report form consistent with the requirements of the division's incident management system guide and CMS regulations as applicable. The licensed health care facility shall ensure that all incident report forms alleging abuse, neglect, exploitation, injuries of unknown origin or other reportable incidents are submitted by a reporter with direct knowledge of an incident, are completed on the bureau's incident report form and received by the division within 24 hours of an incident or allegation of an incident or the next business day if the incident occurs on a weekend or a holiday. The licensed health care facility shall ensure that the reporter with the most direct knowledge of the incident assists with the preparation of the incident report form.

C. Incident policies: All licensed health care facilities shall maintain policies and procedures which describe the licensed health care facility's immediate response to all reported allegations of abuse, neglect, exploitation, injuries of unknown origin, and deaths, as applicable.

D. Retaliation: Any individual who, without false intent, reports an incident or makes an allegation of abuse, neglect or exploitation will be free of any form of retaliation.

E. Quality improvement system for licensed health care facilities: The licensed health care facility shall establish and implement a quality improvement system for reviewing alleged complaints and incidents. The incident management system shall include written documentation of corrective actions taken. The provider shall maintain documented evidence that all alleged violations are thoroughly investigated, and shall take all reasonable steps to prevent further incidents.

[8.370.9.8 NMAC - N, 7/1/2024]

8.370.9.9 INCIDENT MANAGEMENT SYSTEM REQUIREMENTS:

A. General: All licensed health care facilities shall establish and maintain an incident management system, which emphasizes the principles of prevention and staff involvement. The licensed health care facility shall ensure that the incident management system policies and procedures require all employees to be competently trained to respond to, report, and document reportable incidents in a timely and accurate manner.

B. Training curriculum: Prior to working unsupervised with consumers, the licensed health care facility shall provide all employees and volunteers with a written training curriculum and shall train them on incident policies and procedures for identification, and timely reporting of abuse, neglect, exploitation, injuries of unknown origin or other reportable incidents. Refresher training shall be provided at annual, not to exceed 12 month, intervals. The training curriculum may include computer-based training. Reviews shall include, at a minimum, review of the written training curriculum and site-specific issues pertaining to the licensed health care facility. Training shall be conducted in a language that is understood by the employee and volunteer.

C. Incident management system training curriculum requirements:

(1) The licensed health care facility shall conduct training, or designate a knowledgeable representative to conduct training, in accordance with the written training curriculum that includes but is not limited to:

(a) an overview of the potential risk of abuse, neglect, and exploitation;

(b) informational procedures for properly filing the division's incident management report form;

(c) specific instructions of the employees' legal responsibility to report an incident of abuse, neglect or exploitation;

(d) specific instructions on how to respond to abuse, neglect, and exploitation; and

(e) emergency action procedures to be followed in the event of an alleged incident or knowledge of abuse, neglect, or exploitation.

(2) All current employees and volunteers shall receive training within 90 days of the effective date of this rule.

D. Training documentation: All licensed health care facilities shall prepare training documentation for each employee to include a signed statement indicating the date, time, and place they received their incident management reporting instruction. The licensed health care facility shall maintain documentation of an employee's or volunteer's training for a period of at least 12 months. Training curricula shall be kept on the premises and made available on request by the authority. Training documentation shall be made available immediately upon a authority representative's request. Failure to provide employee or volunteer training documentation shall subject the licensed health care facility to the penalties provided for in this rule.

E. Consumer and guardian orientation packet: Consumers, family members and legal guardians shall be made aware of and have available immediate accessibility to the licensed health care facility incident reporting processes. The licensed health care facility shall provide consumers, family members or legal guardians an orientation packet to include incident management systems policies and procedural information concerning the reporting of abuse, neglect or exploitation. The licensed health care facility shall include a signed statement indicating the date, time, and place they received their orientation packet to be contained in the consumer's file. The appropriate consumer, family member or legal guardian shall sign this at the time of orientation.

F. Posting of incident management information poster: All licensed health care facilities and shall post two or more posters, to be furnished by the division, in a prominent public location which states all incident management reporting procedures, including contact numbers and internet addresses. All licensed health care facilities operating 60 or more beds shall post at least three or more posters, to be furnished by the division, in a prominent public location which states all incident management reporting procedures, including contact numbers and internet addresses. The posters shall also be posted where employees report each day and from which the employees operate to carry out their activities. Each licensed health care facility shall take steps to ensure that the notices are not altered, defaced, removed, or covered by other material.

[8.370.9.9 NMAC - N, 7/1/2024]

8.370.9.10 ACCESS AND COOPERATION TO FACILITATE AUTHORITY INCIDENT INVESTIGATIONS:

A. The authority will conduct incident investigations and periodic surveys of licensed health care facilities subject to these requirements. These reviews may be either announced or unannounced.

B. All licensed health care facilities shall facilitate immediate physical or in-person access to authority personnel investigating incidents or conducting surveys:

(1) all records, regardless of media, including but not limited to, financial records, all client records, individual service plans, personnel records, board and or committee minutes, incident reports, quality assurance activities, client satisfaction surveys and agency policy/procedures manuals;

(2) all necessary employees with direct knowledge of the incident;

(3) all necessary clients currently receiving services, guardians, representatives and family members with direct knowledge of the incident; and

(4) all administrative and service delivery sites.

C. All licensed health care facilities shall conduct a complete investigation and report the actions taken and conclusions reached by the facility within five days of discovery of the incident.

[8.370.9.10 NMAC - N, 7/1/2024]

8.370.9.11 CONSEQUENCES OF LICENSED HEALTH CARE FACILITY NONCOMPLIANCE:

A. The authority or other governmental agency having regulatory enforcement authority over a licensed health care facility may sanction a licensed health care facility or in accordance with applicable law if the licensed health care facility fails to report incidents of abuse, neglect or exploitation or fails to provide or fails to maintain evidence of an existing incident management system and employee training documentation as set forth by this rule, fails to take reasonable measures to protect consumers from abuse, neglect or exploitation, or any other violation of this rule.

B. Such sanctions may include revocation or suspension of license, directed plan of correction, intermediate sanctions or civil monetary penalty up to $5,000 per instance.

C. All confirmed incident investigations conducted by the authority hold the licensed health care facility responsible for the actions of the employee in their employment with the following exception: any employee found to have caused the abuse, neglect or exploitation shall be held accountable independent of the licensed health care facility when the facility has complied with all requirements of this rule and the employee acts outside of the provider's system. The employee shall be subject to the Employee Abuse Registry Act or referred to the appropriate certification or licensing authority and reported to law enforcement agencies when appropriate.

[8.370.9.11 NMAC - N, 7/1/2024]

8.370.9.12 CONFIDENTIALITY:

All consumer information reviewed or obtained in the course of a survey or investigation of a licensed health care facility is confidential in accordance with all applicable federal and state law and regulation. If a complaint is unsubstantiated, no information regarding the substance of the complaint or the alleged individual or provider perpetrator may be released publicly. If a complaint is substantiated, confidential information includes, but is not limited to: identity of the incident report form reporter if confidentiality has been requested, personnel records, dates of birth, drivers' license numbers, social security numbers, personal addresses and telephone numbers, the licensed health care facility's internal incident investigations, financial documents and proprietary business information.

[8.370.9.12 NMAC - N, 7/1/2024]

8.370.9.13 SEVERABILITY:

If any provision or application of 8.370.9 NMAC is held invalid, the remainder, or its application to other situations or persons, shall not be affected.

[8.370.9.13 NMAC – N, 7/1/2024]

PART 10: ABUSE, NEGLECT, EXPLOITATION, AND DEATH REPORTING, TRAINING AND RELATED REQUIREMENTS FOR COMMUNITY PROVIDERS

8.370.10.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.10.1 NMAC - N, 7/1/2024]

8.370.10.2 SCOPE:

This rule is applicable to persons, organizations or legal entities receiving developmental disability waiver funds and developmental disability medically fragile waiver funds acting as community-based service providers as defined in this rule.

[8.370.10.2 NMAC - N, 7/1/2024]

8.370.10.3 STATUTORY AUTHORITY:

Subsection E of Section 9-8-6, NMSA 1978, Subsection D of Section 24-1-2, Subsections I, L, O, T and U of Sections 24-1-3 and 24-1-5 NMSA 1978 of the Public Health Act as amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care

authority (authority) as a single, unified department to administer laws and exercise functions relating to health care purchasing and regulation.

[8.370.10.3 NMAC - N, 7/1/2024]

8.370.10.4 DURATION:

Permanent.

[8.370.10.4 NMAC - N, 7/1/2024]

8.370.10.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.370.10.5 NMAC - N, 7/1/2024]

8.370.10.6 OBJECTIVE:

This rule establishes standards for community-based service providers to institute and maintain an incident management system and employee and volunteer training programs for the reporting of abuse, neglect, exploitation, suspicious injuries, environmentally hazardous conditions and death.

[8.370.10.6 NMAC - N, 7/1/2024]

8.370.10.7 DEFINITIONS:

A. "Abuse" including verbal abuse, means:

(1) knowingly, intentionally, and without justifiable cause inflicting physical pain, injury or mental anguish;

(2) the intentional deprivation by a caretaker or other person of services necessary to maintain the mental and physical health of a person; or

(3) sexual abuse, including criminal sexual contact, incest, and criminal sexual penetration.

B. "Abuse, neglect, exploitation, or report of death form" means the reporting format issued by the division for the reporting of incidents which may relate to abuse, neglect, or exploitation of a consumer, including suspicious injuries, or for reporting any death.

C. "Case manager" means the staff person designated to coordinate and monitor the individual service plan for persons receiving community-based services.

D. "Community- based service providers" means any person, organization, or legal entity, including mi via consultants, providing the following services, and having any provider agreement with the health care authority:

(1) "developmental disability waiver services" means a medicaid funded home or community-based services for persons with intellectual and developmental disabilities; and

(2) "medically fragile waiver services" means medicaid funded home or community- based services for persons with intellectual and developmental disabilities who are medically fragile.

E. "Consultant" means the person or entity supporting the mi via consumer to make informed choices among the services offered through the mi via waiver, develop service and support plans (SSP), and providing on-going assistance with SSP implementation.

F. "Consumer" means any recipient of services from a community-based service provider.

G. "Division" means the health care authority, division of health improvement, incident management bureau.

H. "Employee" means any person whose employment or contractual service with a community- based service provider, or with a consumer, which includes direct care or routine and unsupervised physical or financial access to any care recipient served.

I. "Environmental hazard" means a condition in the physical environment which creates an immediate threat to health or safety of the individual.

J. "Exploitation" means an unjust or improper use of a person's money or property for another person's profit or advantage, financial, or otherwise.

K. "Immediate access" means physical or in-person direct and unobstructed access to electronic or other access needed by employees, consumers, family members, or legal guardians to the community-based service program's incident management reporting procedures or access to the division's abuse, neglect, exploitation or report of death form.

L. "Immediate jeopardy" means a provider's non-compliance with one or more requirements of medicaid participation or the provider agreement which causes, or is likely to cause, serious injury, harm, impairment, or death to a consumer.

M. "Immediate reporting" means reporting that is done immediately. A report may only be delayed while the provider is taking immediate action to prevent harm to a consumer.

N. "Incident" means any known, alleged, or suspected event of abuse, neglect, exploitation, suspicious injury, or any death.

O. "Incident management system" means the written policies and procedures adopted or developed by the community-based service provider for reporting abuse, neglect, exploitation, suspicious injuries, or for making a report of death as required in Subsection A of 8.370.10.8 NMAC.

P. "Mental anguish" means a relatively high degree of mental pain and distress that is more than mere disappointment, anger, resentment, or embarrassment, although it may include all of these, and is objectively manifested by the recipient of care or services by significant behavioral or emotional changes or physical symptoms.

Q. "Natural support" means an uncompensated person such as a family member, friend, or any person in a supportive relationship with the consumer.

R. "Neglect" means the failure of the caretaker to provide basic needs of a person, such as clothing, food, shelter, supervision, and care for the physical and mental health of that person. Neglect causes, or is likely to cause, harm to a person.

S. "Non-responsible provider" means any reporter who is reporting an incident of abuse, neglect, exploitation, suspicious injury or death in which they are not the responsible community-based service provider during the time of the incident.

T. "Quality assurance" means a systematic approach to the continuous study and improvement of the efficiency and efficacy of organizational, administrative, and clinical practices in meeting the needs of persons served as well as achieving the community-based service provider's mission, values and goals.

U. "Quality improvement system" means the community-based service provider's policies and procedures for reviewing and documenting all alleged incidents of abuse, neglect, exploitation, suspicious injuries, and all deaths for the continuous study and improvement of the efficiency and efficacy of organizational, administrative, and preventative practices in employee training and reporting.

V. "Report" means any assertion or allegation of abuse, neglect, exploitation, suspicious injuries, or report of death made by a reporter to the incident management bureau and includes any incident that a community-based service provider is required to report under applicable law.

W. "Reporter" means any person who, or any entity that, reports possible abuse, neglect, exploitation, suspicious injury, or makes a report of death to the authority's incident management bureau.

X. "Restraints" means use of a mechanical device or chemical restraints imposed, for the purposes of discipline or convenience, to physically restrict a consumer's freedom of movement, performance of physical activity, or normal access to his body.

Y. "Sanction" means a measure imposed by the authority on a provider, pursuant to these requirements, in response to a finding of deficiency, with the intent of obtaining increased compliance with these requirements.

Z. "Sexual abuse" means the inappropriate touching of a recipient of care or services for sexual purpose or in a sexual manner, and includes kissing, touching the genitals, buttocks, or breasts, causing the recipient of care or services to touch another for sexual purpose, or promoting or observing for sexual purpose any activity or performance involving play, photography, filming, or depiction of acts considered pornographic. Sexual conduct engaged in by an employee with a person for whom they are providing care or services is sexual abuse per se.

AA. "Substantiated" means the verification of an allegation of abuse, neglect, or exploitation based upon a preponderance of reliable evidence obtained from an investigation of an allegation of abuse, neglect, or exploitation.

BB. "Training curriculum" means the instruction manual or pamphlet adopted or developed by the community-based service provider containing policies and procedures for reporting abuse, neglect, exploitation, suspicious injury, or any death.

CC. "Unsubstantiated" means that an allegation of abuse, neglect, and exploitation could not be verified based upon a preponderance of reliable evidence obtained from an investigation of a complaint of abuse, neglect, or exploitation.

DD. "Verbal abuse" means profane, threatening, derogatory, or demeaning language, spoken or conveyed with the intent to cause mental anguish.

EE. "Volunteer" means any person who is not a natural support who works without compensation for a community- based service provider and whose services includes direct care or routine physical or financial access to any consumer serviced by that community-based service provider.

[8.370.10.7 NMAC - N, 7/1/2024]

8.370.10.8 INCIDENT MANAGEMENT SYSTEM REPORTING REQUIREMENTS FOR COMMUNITY-BASED SERVICE PROVIDERS:

A. Duty to report:

(1) All community-based providers shall immediately report alleged crimes to law enforcement or call for emergency medical services as appropriate to ensure the safety of consumers.

(2) All community-based service providers, their employees and volunteers shall immediately call the division of health improvement (DHI) hotline at 1-800- 445-6242 to report abuse, neglect, exploitation, suspicious injuries or any death and also to report an environmentally hazardous condition which creates an immediate threat to health or safety.

B. Reporter requirement: All community-based service providers shall ensure that the employee or volunteer with knowledge of the alleged abuse, neglect, exploitation, suspicious injury, or death calls the division's hotline to report the incident.

C. Initial reports, form of report, immediate action and safety planning, evidence preservation, required initial notifications:

(1) Abuse, neglect, and exploitation, suspicious injury or death reporting: Any person may report an allegation of abuse, neglect, or exploitation, suspicious injury or a death by calling the division's toll-free hotline number 1-800-445-6242. Any consumer, family member, or legal guardian may call the division's hotline to report an allegation of abuse, neglect, or exploitation, suspicious injury or death directly, or may report through the community-based service provider who, in addition to calling the hotline, must also utilize the division's abuse, neglect, and exploitation or report of death form. The abuse, neglect, and exploitation or report of death form and instructions for its completion and filing are available at the division's website or may be obtained from the authority by calling the division's toll free hotline number, 1-800-445-6242.

(2) Use of abuse, neglect, and exploitation or report of death form and notification by community-based service providers: In addition to calling the division's hotline as required in Paragraph (2) of Subsection A of 8.370.10.8 NMAC, the community-based service provider shall also report the incident of abuse, neglect, exploitation, suspicious injury, or death utilizing the division's abuse, neglect, and exploitation or report of death form consistent with the requirements of the division's abuse, neglect, and exploitation reporting guide. The community- based service provider shall ensure all abuse, neglect, exploitation or death reports describing the alleged incident are completed on the division's abuse, neglect, and exploitation or report of death form and received by the division within 24 hours of the verbal report. If the provider has internet access, the report form shall be submitted via the division's website; otherwise it may be submitted via fax to 1-800-584-6057. The community-based service provider shall ensure that the reporter with the most direct knowledge of the incident participates in the preparation of the report form.

(3) Limited provider investigation: No investigation beyond that necessary in order to be able to report the abuse, neglect, or exploitation and ensure the safety of consumers is permitted until the division has completed its investigation.

(4) Immediate action and safety planning: Upon discovery of any alleged incident of abuse, neglect, or exploitation, the community-based service provider shall:

(a) develop and implement an immediate action and safety plan for any potentially endangered consumers, if applicable;

(b) be immediately prepared to report that immediate action and safety plan verbally, and revise the plan according to the division's direction, if necessary; and

(c) provide the accepted immediate action and safety plan in writing on the immediate action and safety plan form within 24 hours of the verbal report. If the provider has internet access, the report form shall be submitted via the division's website; otherwise it may be submitted by faxing it to the division at 1-800-584-6057.

(5) Evidence preservation: The community- based service provider shall preserve evidence related to an alleged incident of abuse, neglect, or exploitation, including records, and do nothing to disturb the evidence. If physical evidence must be removed or affected, the provider shall take photographs or do whatever is reasonable to document the location and type of evidence found which appears related to the incident.

(6) Legal guardian or parental notification: The responsible community-based service provider shall ensure that the consumer's legal guardian or parent is notified of the alleged incident of abuse, neglect and exploitation within 24 hours of notice of the alleged incident unless the parent or legal guardian is suspected of committing the alleged abuse, neglect, or exploitation, in which case the community-based service provider shall leave notification to the division's investigative representative.

(7) Case manager or consultant notification by community-based service providers: The responsible community-based service provider shall notify the consumer's case manager or consultant within 24 hours that an alleged incident involving abuse, neglect, or exploitation has been reported to the division. Names of other consumers and employees may be redacted before any documentation is forwarded to a case manager or consultant.

(8) Non- responsible reporter: Providers who are reporting an incident in which they are not the responsible community-based service provider shall notify the responsible community-based service provider within 24 hours of an incident or allegation of an incident of abuse, neglect, and exploitation.

D. Incident policies: All community-based service providers shall maintain policies and procedures which describe the community-based service provider's immediate response, including development of an immediate action and safety plan acceptable to the division where appropriate, to all allegations of incidents involving abuse, neglect, or exploitation, suspicious injury as required in Paragraph (2) of Subsection A of 8.370.10.8 NMAC.

E. Retaliation: Any person, including but not limited to an employee, volunteer, consultant, contractor, consumer, or their family members, guardian, and another

provider who, without false intent, reports an incident or makes an allegation of abuse, neglect, or exploitation shall be free of any form of retaliation such as termination of contract or employment, nor may they be disciplined or discriminated against in any manner including, but not limited to, demotion, shift change, pay cuts, reduction in hours, room change, service reduction, or in any other manner without justifiable reason.

F. Quality assurance/ quality improvement program for community-based service providers: The community-based service provider shall establish and implement a quality improvement program for reviewing alleged complaints and incidents of abuse, neglect, or exploitation against them as a provider after the division's investigation is complete. The incident management program shall include written documentation of corrective actions taken. The community-based service provider shall take all reasonable steps to prevent further incidents. The community-based service provider shall provide the following internal monitoring and facilitating quality improvement program:

(1) community-based service providers shall have current abuse, neglect, and exploitation management policy and procedures in place that comply with the authority's requirements;

(2) community-based service providers providing intellectual and developmental disabilities services must have a designated incident management coordinator in place; and

(3) community-based service providers providing intellectual and developmental disabilities services must have an incident management committee to identify any deficiencies, trends, patterns, or concerns as well as opportunities for quality improvement, address internal and external incident reports for the purpose of examining internal root causes, and to take action on identified issues.

[8.370.10.8 NMAC - N, 7/1/2024]

8.370.10.9 INCIDENT MANAGEMENT SYSTEM REQUIREMENTS:

A. General: All community-based service providers shall establish and maintain an incident management system, which emphasizes the principles of prevention and staff involvement. The community-based service provider shall ensure that the incident management system policies and procedures requires all employees and volunteers to be competently trained to respond to, report, and preserve evidence related to incidents in a timely and accurate manner.

B. Training curriculum: Prior to an employee or volunteer's initial work with the community-based service provider, all employees and volunteers shall be trained on an applicable written training curriculum including incident policies and procedures for identification, and timely reporting of abuse, neglect, exploitation, suspicious injury, and

all deaths as required in Subsection A of 8.370.10.8 NMAC. The trainings shall be reviewed at annual, not to exceed 12-month intervals. The training curriculum as set forth in Subsection C of 8.370.10.9 NMAC may include computer-based training. Periodic reviews shall include, at a minimum, review of the written training curriculum and site-specific issues pertaining to the community- based service provider's facility. Training shall be conducted in a language that is understood by the employee or volunteer.

C. Incident management system training curriculum requirements:

(1) The community-based service provider shall conduct training or designate a knowledgeable representative to conduct training, in accordance with the written training curriculum provided electronically by the division that includes but is not limited to:

(a) an overview of the potential risk of abuse, neglect, or exploitation;

(b) informational procedures for properly filing the division's abuse, neglect, and exploitation or report of death form;

(c) specific instructions of the employees' legal responsibility to report an incident of abuse, neglect and exploitation, suspicious injury, and all deaths;

(d) specific instructions on how to respond to abuse, neglect, or exploitation;

(e) emergency action procedures to be followed in the event of an alleged incident or knowledge of abuse, neglect, exploitation, or suspicious injury.

(2) All current employees and volunteers shall receive training within 90 days of the effective date of this rule.

(3) All new employees and volunteers shall receive training prior to providing services to consumers.

D. Training documentation: All community- based service providers shall prepare training documentation for each employee and volunteer to include a signed statement indicating the date, time, and place they received their incident management reporting instruction. The community-based service provider shall maintain documentation of an employee or volunteer's training for a period of at least three years, or six months after termination of an employee's employment or the volunteer's work. Training curricula shall be kept on the provider premises and made available upon request by the authority. Training documentation shall be made available immediately upon a division representative's request. Failure to provide employee and volunteer training documentation shall subject the community-based service provider to the penalties provided for in this rule.

E. Consumer and guardian orientation packet: Consumers, family members, and legal guardians shall be made aware of and have available immediate access to the community-based service provider incident reporting processes. The community-based service provider shall provide consumers, family members, or legal guardians an orientation packet to include incident management systems policies and procedural information concerning the reporting of abuse, neglect, exploitation, suspicious injury, or death. The community- based service provider shall include a signed statement indicating the date, time, and place they received their orientation packet to be contained in the consumer's file. The appropriate consumer, family member, or legal guardian shall sign this at the time of orientation.

F. Availability of incident management and abuse, neglect, exploitation, suspicious injury, or report of death reporting information: All community-based service providers shall provide written information to be furnished by the division at its website, which states all incident management reporting procedures, including contact numbers and internet addresses. The written information shall be on-site and available to staff.

[8.370.10.9 NMAC - N, 7/1/2024]

8.370.10.10 ACCESS AND COOPERATION TO FACILITATE AUTHORITY INCIDENT INVESTIGATIONS:

A. The authority will conduct incident investigations of community-based service providers subject to these requirements. These investigations may be either announced or unannounced.

B. All community- based service providers programs shall facilitate immediate physical or in-person access, and assist with scheduling of interviews, by authority personnel investigating incidents to all of the providers:

(1) formal and informal records, regardless of media, including but not limited to, financial records, all consumer records, individual service plans, volunteer and personnel records, board and or committee minutes, incident reports, quality assurance activities, client satisfaction surveys, and agency policy and procedures manuals;

(2) employees and volunteers with knowledge of the incident;

(3) necessary clients currently receiving services, guardians, representatives, and family members with knowledge of the incident; and

(4) administrative and service delivery sites.

[8.370.10.10 NMAC - N, 7/1/2024]

8.370.10.11 CONSEQUENCES OF COMMUNITY-BASED SERVICE PROVIDER NON- COMPLIANCE:

A. The authority may sanction a community-based service provider in accordance with applicable law if the community- based service provider fails to report incidents of abuse, neglect, exploitation, suspicious injury, or any death; fails to provide or maintain evidence of an existing incident management system and employee and volunteer training documentation as set forth by this rule; for any failure to adequately protect consumers from abuse, neglect or exploitation; or for any other violation of this rule.

B. Such sanctions may include a directed plan of correction, intermediate sanctions, or civil monetary penalty up to $5,000 per instance, or high level sanctions up to and including termination or non-renewal of any provider agreement with the authority or other governmental agency.

C. All substantiated incident investigations conducted by the authority hold the community- based service provider responsible for the actions of the employee, volunteer, or contractor with the following exception: any employee, volunteer, or contractor found to have caused the abuse, neglect, or exploitation of a consumer shall be found individually responsible independent of the community- based service provider when the community-based service provider has complied with all requirements of this rule, and the employee acts outside of the provider's system. When this occurs, the individual shall be subject to the Employee Abuse Registry Act, Sections 29-27-1 through 29-27-8 NMSA 1978, or referred to the appropriate professional licensing board and law enforcement where appropriate.

[8.370.10.11 NMAC - N, 7/1/2024]

8.370.10.12 NOTIFICATION OF INVESTIGATION RESULTS:

The division will inform the provider, the guardian, or alleged victim, the case manager or consultant, the developmental disabilities supports division regional office, and the reporter of the conclusion reached by the investigator(s) when the report is final. The responsible provider must notify the alleged perpetrator.

[8.370.10.12 NMAC - N, 7/1/2024]

8.370.10.13 INFORMAL RECONSIDERATION OF FINDINGS:

A. An aggrieved person or provider agency may request an informal reconsideration of findings (IRF) of a decision made by the division regarding a substantiation of abuse, neglect, or exploitation in accordance with the provisions set forth in this section.

B. A request for an IRF must be submitted in writing along with all relevant evidence to be considered by the bureau within 10 calendar days of the date of the letter of substantiation. The bureau may reverse the substantiation at any time at or before the IRF review.

C. Informal reconsideration of findings process.

(1) The person conducting the review shall be neutral and have no direct involvement with the investigation or substantiation.

(2) The person conducting the IRF shall issue a written decision within 30 days of the review, giving the reason why the substantiation, by preponderance of evidence, is modified, affirmed, or reversed. The written decision will be mailed to the aggrieved party and placed in the case record no later than the 30th day after receipt of the request for the IRF.

(3) The decision by the person conducting the IRF is final and non-appealable except as otherwise provided for by law.

[8.370.10.13 NMAC - N, 7/1/2024]

8.370.10.14 CONFIDENTIALITY:

A. In the case of substantiated cases of abuse, neglect, or exploitation, the written report may be shared publicly upon request and subject to all other applicable federal and state laws and regulations. Unsubstantiated incident investigation reports shall not be shared publicly in relation to any accused person or provider other than to confirm that an allegation of abuse, neglect, or exploitation was unsubstantiated.

B. All consumer information reviewed or obtained in the course of an investigation of a community-based service provider is confidential in accordance with all applicable federal and state laws and regulations and with all applicable contract provisions. If the consumer's identity may not be sufficiently de-identified even after redaction, then the report may not be released except upon the request of that consumer or their legally authorized representative.

C. Other confidential information includes, but is not limited to: identity of the reporter of the alleged abuse, neglect, and exploitation if confidentiality is requested, personnel records, dates of birth, driver's license numbers, social security numbers, personal addresses, and telephone numbers, the community-based service provider's internal incident investigation, if any is received by the authority, financial documents, and proprietary business information.

[8.370.10.14 NMAC - N, 7/1/2024]

8.370.10.15 SEVERABILITY:

If any provision or application of 8.370.10NMAC is held invalid, the remainder, or its application to other situations or persons, shall not be affected.

[8.370.10.15 NMAC - N, 7/1/2024]

PART 11: LONG-TERM CARE FACILITY DEMENTIA TRAINING

8.370.11.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.11.1 NMAC - N, 7/1/2024]

8.370.11.2 SCOPE:

These regulations apply to any long-term care facility and long-term care facility contractor in the state of New Mexico or licensed by the New Mexico health care authority, division of health improvement.

[8.370.11.2 NMAC - N, 7/1/2024]

8.370.11.3 STATUTORY AUTHORITY:

The regulations set forth herein are promulgated by the secretary of the health care authority by authority of Subsection E of Section 9-8-6 NMSA 1978, Section 24-17B-1 through Section 24-17B-4 NMSA 1978. The division of health improvement of the health care authority (authority) shall administer and enforce these regulations. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.370.11.3 NMAC - N, 7/1/2024]

8.370.11.4 DURATION:

Permanent.

[8.370.11.4 NMAC - N, 7/1/2024]

8.370.11.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is cited at the end of a section.

[8.370.11.5 NMAC - N, 7/1/2024]

8.370.11.6 OBJECTIVE:

The regulations establish policy, standards, and criteria relating to: the educational and certification requirements, issuing of certifications, and continuing education of persons who provide direct care service to long-term care facility residents in order to maintain or improve the health and qualify of life of the residents.

[8.370.11.6 NMAC - N, 7/1/2024]

8.370.11.7 DEFINITIONS:

A. "Act" shall mean the Long-Term Care Facility Dementia Training Act Section 24-17B-1, et seq NMSA 1978.

B. "Certificate" shall mean the training certificate issued by the provider of training pursuant to 8.370.11 NMAC and the Long-Term Care Facility Dementia Training Act Section 24-17B-1, et seq NMSA 1978.

C. "Continuing education" means participation in a formal learning experience of which the course topics have been approved by the authority as set forth in 8.370.11.9 NMAC.

D. "Direct care service" means services provided to long-term care facility residents that maintain or improve the health and quality of life of the residents.

E. "Direct care service staff member" means a person:

(1) employed by or contracted with a long-term care facility, either directly or through a third-party agreement, to provide in-person direct care services to long- term care facility residents; or

(2) contracted with a long-term care facility, either directly or through a third-party agreement, to provide at least 10 hours per week in direct care services by video, audio or telephonic means.

F. "DCSSM" means direct care service staff member.

G. "Division" means the division of health improvement of the health care authority.

H. "In-person instructor" means the in-person dementia training instructor who will conduct dementia training pursuant to the requirements of 8.370.11 NMAC.

I. "Long-term care facility" means every long-term care facility licensed by the state of New Mexico.

J. "Long-term care facility contractor" as used within this regulation means an entity that employs direct care service staff members.

[8.370.11.7 NMAC - N, 7/1/2024]

8.370.11.8 TRAINING REQUIREMENT:

A. Every direct care service staff member shall complete the requirements for and obtain certification as provided in 8.370.11.9 NMAC.

B. Every direct care service staff member is required to complete the training and written examination set forth in 8.370.11.9 NMAC pursuant to the following requirements:

(1) if hired after January 1, 2022, shall complete the training required within 60 days of the start of employment;

(2) if hired prior to January 1, 2022, shall complete the training required if the direct care service staff member has not received training in the past 24 months equivalent to the training set forth in 8.370.11.9 NMAC within 60 days of January 1, 2022;

(3) if the direct care service staff member had successfully obtained a training certificate but has had a lapse of dementia-related direct care service employment for 24 consecutive months or more then the direct care service staff member shall complete the training and examination set forth in 8.370.11.9 NMAC within 60 days of the start of employment.

C. Exception to initial training: A direct care service staff member (DCSSM) hired prior to January 1, 2022, who received equivalent training within the past 24 months equivalent to the requirements set forth in Subsection A of 8.370.11.9 NMAC shall be issued a training certificate by the authority upon receipt from a facility of a written attestation that the DCSSM has received such training within the 24 months prior to January 1, 2022. A direct care service staff member (DCSSM) hired after January 1, 2022, who received equivalent training within the 24 months prior to the hiring date equivalent to the requirements set forth in Subsection A of 8.370.11.9 NMAC shall be issued a training certificate by the authority upon receipt from a facility of a written attestation that the DCSSM has received such training within the 24 months prior to the date of hire. The facility attestation shall be provided to the authority's train division email address for issuance of a training certificate by the authority.

[8.370.11.8 NMAC - N, 7/1/2024]

8.370.11.9 COURSE OF EDUCATION:

New Mexico requires a state training education process to become a certified direct care staff member. The education program shall provide knowledge on the skills and abilities necessary to perform as a competent direct care service staff member; this is established through training education, provided either on-line or in person, followed by successful completion of a division-approved written examination. The in-person instructor will conduct the course of education for the direct care staff member as set out below. Each long-term facility and long-term care facility contractor shall provide

training either on-line or in-person as set forth in this section to each DCSSM that it employs.

A. Instruction: Instruction by the on-line provider or in-person instructor must be at least four hours in length, either in- person or on-line, and include these authority-approved areas of study:

(1) identify cognitive, functional, and behavioral changes of normal aging and those associated with mild cognitive impairment and dementia;

(2) identify and understand the various types of dementia;

(3) identify the prevalence, risk factors, signs and symptoms, and rate of progression of dementia;

(4) identify and understand the stages of dementia;

(5) describe and understand when to refer people living with dementia (PLwD) to a neurologist, geriatric psychiatrist, neuropsychologist, or a national Alzheimer's disease center;

(6) diagnosing dementia & discussing dementia diagnosis;

(7) patient centered care;

(8) activities of daily living in people living with dementia and Alzheimer's disease;

(9) identify common components of an individualized primary care plan for persons with middle stage dementia;

(10) identify common components of an individualized primary care plan for persons with late stage dementia;

(11) identify and understand common medical issues related to early-stage dementia,

(12) identify and understand common medical issues related to middle-stage dementia;

(13) identify and understand common medical issues related to late-stage dementia;

(14) effective care transitions to and from acute care hospitals:

(15) interprofessional team roles and dementia:

(16) describe how responsibilities may evolve as the disease progresses;

(17) list legal and financial considerations to discuss with a patient and appropriate care partner(s) upon a diagnosis of dementia;

(18) identify domains that are included in a capacity assessment for a person living with dementia;

(19) ethics and capacity issues;

(20) responding to abuse, neglect & exploitation of people living with dementia and Alzheimer's disease.

(21) identify signs and symptoms of end-stage dementia;

(22) identify and understand barriers to optimal care among various ethnic groups;

(23) identify and understand techniques for effective communications with diverse populations;

(24) pain assessment in people living with dementia;

(25) resident rights;

(26) palliative care & end of life care.

B. Trainer requirements: A person conducting training of the required topics set forth in 8.370.11.9 NMAC shall have:

(1) at least two years of work experience related to alzheimer's disease, dementia, health care, gerontology or other related field; and

(2) successfully completed training requirement to the requirements provided in Subsection A of 8.370.11.9 NMAC, including passage of the knowledge test required in Subsection D of 8.370.11.9 NMAC; and

C. Training on-line: Training on-line shall be provided by the authority through the train program at www.train.org/nm or through a authority -approved on-line curriculum and knowledge test which shall include the authority-approved areas of study set forth in Subsection A of 8.370.11.9 NMAC and shall be at least four hours in length. After completion of the on-line training and successful passage of a knowledge test, a certificate shall be issued to the DCSSM.

D. Evaluation of training topics: The authority shall review and evaluate the training areas of study in Subsection A of 8.370.11.9 NMAC every two years or as determined necessary by the authority based upon current research and best practices.

E. Testing: The in- person or on-line training must be followed by successful completion of a division-approved written examination which shall cover the areas of study set forth in Subsection A of 8.370.11.9 NMAC before a training certificate will be issued by the in-person or on-line training program.

F. Training certificates: The provider of on- line or in-person training conducted pursuant to 8.370.11.9 NMAC shall issue a certificate to the DCSSM upon completion of initial training, or the authority shall issue a certificate upon receipt of facility attestation of exemption from training as set forth in Subsection D of 8.370.11.8 NMAC. The certificate shall be valid so long as the certificate holder meets the continuing education requirement set forth in 8.370.11.9 NMAC and the certificate holder has not had a lapse of dementia-related direct care service employment for 24 consecutive months or more. The certificate shall be valid among long-term care facilities.

G. Continuing education: Proof must be maintained by the facility of four hours of training by the DCSSM every two years on topics set forth in 8.370.11.9 NMAC for treatment and care of persons with Alzheimer's disease or dementia, in order to maintain the certificate issued to the individual DCSSM.

H. Maintenance of certification records: Each long- term care facility and long-term care facility contractor subject to 8.370.11 NMAC shall be responsible for maintaining documentation regarding completed long-term care facility dementia training, evaluation and continuing education for each DCSSM. Each long-term care facility contractor subject to 8.370.11 NMAC shall provide a copy of each DCSSM'S dementia training certificate to every long- term care facility where the DCSSM provides direct care service, pursuant to Subsection F of Section 24-17B-3 NMSA 1978.

[8.370.11.9 NMAC - N, 7/1/2024]

8.370.11.10 SEVERABILITY:

If any part or application of the long-term care facility dementia training regulation is held invalid, the remainder or its application to other situations or persons shall not be affected.

[8.370.11.10 NMAC - N, 7/1/2024]

PART 12: REQUIREMENTS FOR ACUTE CARE, LIMITED SERVICES AND SPECIAL HOSPITALS

8.370.12.1 ISSUING AGENCY:

New Mexico Health Care Authority.

[8.370.12.1 NMAC - N, 7/1/2024]

8.370.12.2 SCOPE:

These requirements apply to public and private hospitals as defined in Section 8.370.12.7 of these requirements. Facilities that are specifically exempt under Subsection D of Section 24-1-2, NMSA 1978, from being treated as hospitals for purposes of regulation under Section 24-1-5, NMSA 1978, and these requirements, are physicians' clinics and offices, nursing homes, as well as health centers and correctional institutions that are operated by the state.

[8.370.12.2 NMAC - N, 7/1/2024]

8.370.12.3 STATUTORY AUTHORITY:

The requirements set forth herein are promulgated by the secretary of the health care authority, pursuant to the general authority granted under Subsection E of Section 9-8-6 NMSA 1978, as amended and the authority granted under Subsection D of Section 24-1-2, Subsection I of Section 24-1-3, and Section 24-1-5, NMSA 1978, of the Public Health Act as amended. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (authority) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

[8.370.12.3 NMAC - N, 7/1/2024]

8.370.12.4 DURATION:

Permanent.

[8.370.12.4 NMAC - N, 7/1/2024]

8.370.12.5 EFFECTIVE DATE:

July 1, 2024, unless a later date is specified at the end of a section.

[8.370.12.5 NMAC - N, 7/1/2024]

8.370.12.6 OBJECTIVE:

A. Establish standards for licensing hospitals in order to ensure that hospital patients receive adequate care and treatment and that the health and safety of patients and hospital employees are protected.

B. Establish standards for the construction, maintenance and operation of hospitals.

C. Regulate such hospitals in providing the appropriate level of care for patients.

D. Provide for hospital compliance with these requirements through surveys to identify any areas that could be dangerous or harmful to the health, safety, or welfare of the patients and staff.

[8.370.12.6 NMAC - N, 7/1/2024]

8.370.12.7 DEFINITIONS:

A. "Abuse" means injury, sexual misuse, or neglect resulting in harm of an individual patient.

B. "Acute-care hospital" means a hospital providing emergency services, in-patient medical and nursing care for acute illness, injury, surgery or obstetrics; ancillary services such as pharmacy, clinical laboratory, radiology, and dietary are required for acute-care hospitals.

C. "Allied health personnel" means persons who are not physicians, podiatrists, psychologists or dentists who may be admitted to practice in the hospital through the medical staff credentialing process, and includes:

(1) **"licensed independent practitioner"** means an advanced practice professional registered nurse permitted by law to provide care without direction or supervision within the scope of the individual's license and consistent with individually granted privileges; this includes certified nurse midwives, certified nurse practitioners and clinical nurse specialists;

(2) **"certified registered nurse anesthetist"** means an advanced practice professional registered nurse permitted by law to provide anesthesia care; in an interdependent role as a member of a health care team in which medical care of the patient is directed by a medical physician, osteopathic physician, dentist or podiatrist licensed in the state of New Mexico; the certified registered nurse anesthetist shall collaborate with the medical physician, osteopathic physician, dentist or podiatrist concerning the anesthesia care or the patient; collaboration means the process in which each health care provider contributes their respective expertise;

(3) **"physician assistant"** means a person licensed as a physician assistant by the New Mexico board of medical examiners, pursuant to Section 61-6-6, NMSA 1978.

D. "Amended license" means a change of administrator, name, location, capacity, classification of any units as listed in these requirements requires a new license:

(1) the application shall be on a form provided by the licensing authority;

(2) the application shall be accompanied by the required fee for an amended license; and

(3) the application shall be submitted at least 10 working days prior to the change.

E. "Annual net revenue" means, as determined from the hospitals governing board's approved audited financial statement for an annual time period, the hospital's net patient services revenue; net patient services revenue does not include net operating revenue from other sources, such as medical office rental and cafeteria; annual net revenue is determined after deductions for:

(1) contractual allowances;

(2) uncompensated care and bad debt;

(3) charity care; and

(4) annual net revenue excludes other non- operating revenues, including but not limited to, income from endowments, investments, gifts and bequests, and net gain on sale of fixed assess.

F. "Annual cost of care" means with respect to the requirements of Section 24-1-5.8 NMSA 1978 (2003), the billed charges of providing emergency services and general health care to nonpaying patients and low-income reimbursed patients.

G. "Annual license" means a license issued for a one- year period to a hospital that has met all license prior to the initial state licensing survey, or when the licensing authority finds partial compliance with these requirements.

H. "Applicant" means the individual who, or organization which, applies for a license; if the applicant is an organization, then the individual signing the application on behalf of the organization must have the authority to sign for the organization.

I. "Audiologist" means a person licensed under the Speech-Language Pathology and Audiology Act, Sections 61-14B-1 to 61-14B-16, NMSA 1978, to practice audiology.

J. "Automated medication management system" means an automatic device that compounds. measures, counts, packages and delivers a specified quantity of dosage units for a designated product and which collects, controls and maintains all transaction information.

K. "CMS" means center for medicare & medicaid services.

L. "Consultant pharmacist" means a person licensed in New Mexico under the Pharmacy Act, Subsection D of Section 61- 11-2, NMSA 1978, as a consultant pharmacist.

M. "Critical access hospital" means a hospital with special characteristics, duly certified as such by centers for medicare and medicaid services (CMS) and is in compliance with the conditions of participation for such facilities; such critical access hospitals are deemed as meeting the intent of these requirements and may be licensed accordingly by the licensing authority.

N. "Dentist" means a person licensed to practice dentistry under the Dental Act, Sections 61-5-1 to 61-5-22, NMSA 1978.

O. "Dietician" means a person who is eligible for registration as a dietitian by the commission on dietetic registration of the American dietetic association, or who has a baccalaureate degree with major studies in food and nutrition, dietetics, or food service management.

P. "Dietetic service supervisor" means a person who:

(1) is a qualified dietitian with one year of supervisory experience in the dietetic service of a health care institution; or

(2) is a graduate of a dietetic technician or dietetic assistant training program, approved by the American dietetic association and has consultation from a qualified dietitian; or

(3) is a graduate of a state-approved course that provided 90 or more hours of classroom instruction in food service supervision and has experience as a supervisor in a health care institution with consultation from a dietitian; if the supervisor is not a qualified dietitian then consultation from a qualified dietician must be provided.

Q. "Distinct emergency service" means an emergency distinct department that provides a medical screening examination and treatment of a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain, psychiatric disturbances or symptoms of substance abuse) that requires immediate medical attention.

R. "Drill" means the practice of a planned activity at full dress intensity.

S. "Emergency care for sexual assault survivors" means medical examinations, procedures and services provided by a hospital to a sexual assault survivor following an alleged sexual assault.

T. "Emergency contraception" means a drug approved by the federal food and drug administration that prevents pregnancy after sexual intercourse.

U. "Emotional abuse" means verbal behavior, harassment, or other actions that result in emotional or behavioral problems, physical manifestations, disordered or delayed development.

V. "Exercise" means the practice of a planned activity at less than full-dress intensity.

W. "Financial interest" means any equity, security, lease or debt interest in the hospital; financial interest also includes any equity, security, and lease or debt interest in any real property used by the hospital or in any entity that receives compensation arising from the use real property by the hospital.

X. "Health physicist" means a person holding a master's degree or doctorate in an appropriate discipline of radiologic physics or who has equivalent education and experience.

Y. "Hospital" means a facility offering in-patient services, nursing, overnight care on a 24-hour basis for diagnosing, treating, and providing medical, psychological or surgical care for three or more separate individuals who have a physical or mental illness, disease, injury, a rehabilitative condition or are pregnant; use of the term "hospital" for any facility not duly licensed according to these requirements is prohibited; any acute care hospital shall have emergency services, inpatient medical and nursing care for acute illness, injury, surgery, and obstetrics; any limited services hospital shall have emergency services, inpatient medical and nursing care for acute illness, injury and surgery; ancillary services such as pharmacy, clinical laboratory, radiology, and dietary are required for acute-care or limited service hospitals.

Z. "Long term acute- care hospital" means a hospital providing long term, in-patient medical care for medically-complex patients whose length of stay averages greater than 25 days; ancillary support services such as pharmacy, clinical laboratory, radiology, and dietary are required for long-term acute-care hospitals.

AA. "Low-income patient" means a patient whose family or household income does not exceed two hundred percent of the most current federal poverty level.

BB. "Rehabilitation hospital" means a special hospital that primarily provides rehabilitative care to inpatients.

CC. "Legally authorized person" means a parent of a minor, a court appointed guardian or a person authorized by the patient in accordance with law to act on the patient's behalf.

DD. "Licensed practical nurse" means a person licensed as a practical nurse under the Nursing Practice Act, Sections 61-3-1 through 61-3-30, NMSA 1978.

EE. "Licensee" means the person(s) who, or organization which, has an ownership, leasehold, or similar interest in the hospital and in whose name a license has been issued and who is legally responsible for compliance with these requirements.

FF."Licensing authority" means the agency within the authority vested with the authority to enforce these requirements.

GG. "Limited services hospital" means a hospital that limits admissions according to medical or surgical specialty, type of disease or medical condition, or a hospital that limits its inpatient hospital services to surgical services or invasive diagnostic treatment procedures; a limited services hospital must have emergency services, inpatient medical and nursing care for acute illness, injury, and surgery, and must offer ancillary services including pharmacy, clinical laboratory, radiology, and dietary; a limited services hospital does not include:

(1) a hospital licensed by the authority as a special hospital;

(2) an eleemosynary hospital that does not bill patients for the services provided; and

(3) a hospital that has been granted a license prior to January 1, 2003.

HH. "Local community" means with respect to the requirements of Section 24-1-5.8 NMSA 1978 (2003), the New Mexico standard metropolitan statistical area or county in which a limited services hospital or an acute-care hospital applies to be licensed or becomes initially licensed by the authority at any time after January 1, 2003; if the applicant seeks licensure of a facility within the boundaries of a New Mexico standard metropolitan statistical area, the local community for purposes of that application is that standard metropolitan statistical area; if the applicant seeks licensure of a facility not within the boundaries of a New Mexico standard metropolitan statistical area, the local community for purposed of that application is the New Mexico county.

II. "Local emergency operations plan" means the all- hazard emergency operations plan maintained by a jurisdiction at the local level that coordinates local level functional plans, hazard specific plans, and response specific plans into an effective and efficient whole.

JJ. "Medically and factually accurate and objective" means verified or supported by the weight of research conducted in compliance with accepted scientific methods and standards; published in peer-reviewed journals; and recognized as accurate and objective by leading professional organizations and agencies with relevant expertise in the field of obstetrics and gynecology, such as the American college of obstetricians and gynecologists.

KK. "Medical staff" means the hospital's organized component of physicians, podiatrists, psychologists, dentists and allied health personnel who have been

appointed by the governing body of the hospital and granted specific privileges for the purpose of providing care for the patients of the hospital.

LL. "Misappropriation of property" means the deliberate misplacement, misappropriation of patients' property, or wrongful, temporary or permanent use of a patient's belongings or money without the patients' consent.

MM. "National incident management system" means the core set of doctrine, concepts, principles, terminology, and organizational processes, required by homeland security presidential directive 5, that will be used to manage domestic incidents to enable effective, efficient, and collaborative action at all levels.

NN. "National response plan" means the single all-hazard incident management plan, required by homeland security presidential directive 5, that addresses the five domains of disaster and emergency management: awareness, prevention, preparedness, response, and recovery and that will govern all disaster and emergency management planning beginning in federal fiscal year 2005 (October 1, 2004-September 30, 2005).

OO. "Neglect" means the failure to provide goods and services necessary to avoid physical harm, mental anguish, or mental illness.

PP. "New Mexico state all-hazard emergency operations plan" means the all- hazard emergency operations plan maintained by the state of New Mexico that coordinates state level functional plans, hazard specific plans, and response specific plans with local emergency operations plans into an effective an efficient whole.

QQ. "Nonpaying patients" means with respect to the requirements of Section 24-1-5.8 NMSA 1978 (2003), patients whose care is substantially uncompensated, including patients classified as charity care or bad debit.

RR. "Nosocomial" means an infection pertaining to or originating in a hospital not present or incubating prior to admittance to a hospital.

SS. "Occupational therapist" means a person licensed as an occupational therapist under the Occupational Therapy Act, Sections 61-12A-1 to 61-12A-20, NMSA 1978.

TT."Pharmacist" means a person licensed in New Mexico under the Pharmacy Act, 61- 11-1 to 61-11-29, NMSA 1978.

UU. "Pharmacy" means a place where drugs are compounded or dispensed that is licensed by the New Mexico board of pharmacy.

VV. "Physical abuse" means damaging or potentially damaging acts or incidents that result in bodily injury or death.

WW. "Physical therapist" means a person licensed to practice physical therapy under the Physical Therapy Act, Sections 61-12- 1 to 61-12-21, NMSA 1978.

XX. "Physician" means a person licensed to practice medicine or osteopathy by the New Mexico board of medical examiners, pursuant to Section 61-6-10, NMSA 1978 or the osteopathic medical examiners board pursuant to Sections 61-10-1 through 61-10-21, NMSA 1978.

YY. "Physician owner" means a physician, podiatrist, dentist licensed by the New Mexico board of dental health care pursuant to Section 61-5A-12NMSA 1978, or any other person licensed in New Mexico as a health care practitioner permitted by the hospital to refer, admit or treat hospital patients, and who has a financial interest in the hospital.

ZZ."Podiatrist" means a person licensed to practice podiatry or podiatric medicine and surgery under the Podiatry Act, Sections 61-8- 1 to 61-8-16, NMSA 1978.

AAA. "Privileges" means the authorization of the medical staff members to provide care to hospital patients in the area in which the person has expertise as a result of education, training and experience.

BBB. "Psychologist" means a person licensed to practice psychology under the Professional Psychologists' Act, Sections 61-9-1 through 61-9-18, NMSA 1978.

CCC. "Psychiatric hospital" means a special hospital that primarily provides by or under the supervision of a physician, psychological or psychiatric services for the diagnosis and treatment of mentally ill persons.

DDD. "Registered nurse" means a person licensed as a professional registered nurse under the Nursing Practice Act, Sections 61- 3-1 through 61-3-30, NMSA 1978.

EEE. "Reporting year" means with respect to the provision of financial, utilization, and services information for the hospital's last full and audited annual accounting period.

FFF. "Respiratory care practitioner" means a person who is licensed under the Respiratory Care Act, Sections 61-12B-1 to 61-12B-16, NMSA 1978.

GGG. "Sexual assault" means the crime of criminal sexual penetration that may result in pregnancy.

HHH. "Sexual assault survivor" means a person who alleges or is alleged to have been sexually assaulted and who presents as a patient to a hospital.

III. **"Special hospital"** means a hospital that treats patients that have a diagnosis-related group classifications for two-thirds of all its patients that fall into no more than two major diagnosis categories, or if at least two-thirds of its patients are classified in a specific diagnosis category; an example of a special hospital is a psychiatric or rehabilitation hospital.

JJJ. **"Speech pathologist"** means a person who is licensed under the Speech-Language Pathology and Audiology Act, Sections 61-14B-1 to 61-14B-16, NMSA 1978 to practice speech language pathology.

KKK. **"Variance" means an act on the part of the licensing authority to refrain from enforcing compliance** with a portion or portions of these requirements for an unspecified period of time where the granting of a variance will not create a danger to the health, safety, or welfare of parents or staff of a hospital and is at the sole discretion of the licensing authority.

LLL. **"Waive/waiver"** means an act on the part of the licensing authority to refrain from enforcing compliance with a portion or portions of these requirements for a limited period of time less than one year, provided the health, safety, or welfare of patients and staff are not in danger; waivers are issued at the sole discretion of the licensing authority.

[8.370.12.7 NMAC - N, 7/1/2024]

8.370.12.8 REQUIRED LICENSURE BY THE AUTHORITY:

Procedures applicable after January 1, 2003: This section addresses the requirements of Section 24-1-5.8 NMSA 1978 (2003) and applies to local communities in which an acute- care hospital or a limited services hospital applies to be licensed or becomes initially licensed by the authority at any time after January 1, 2003.

A. No hospital may operate in New Mexico unless it is licensed in accordance with the requirements of the New Mexico health care authority.

B. The authority shall issue a license to an acute-care hospital or a limited services hospital that meets the requirements of this rule and agrees to:

(1) continuously maintain and operate an emergency department that provides emergency medical services as defined in Section 8.370.12.38 NMAC; and

(2) when applicable, participate in the medicare, medicaid and county indigent care programs; and

(3) require a physician owner to disclose and document in the patient's medical record a financial interest in the hospital before referring a patient to the hospital.

C. Comply with the same quality standards applied to other hospitals.

D. Provide emergency services and general health care to a number of nonpaying patients and low-income reimbursed patients in the same proportion as the patients that are treated in acute-care hospitals in the local community, as determined by the authority provided that the annual cost of the care required to be provided pursuant to paragraph (5) shall not exceed an amount equal to five percent of the hospital's annual net revenue for the previous fiscal year from audited financial statements.

E. Require a health care provider to disclose a financial interest before referring a patient to the hospital.

F. Reporting requirements-general. The authority, in accordance with the requirements of Section 24-1-5.8 NMSA 1978 (2003) requires the provision of information necessary to determine the annual cost of care for emergency and general health care to nonpaying and low-income reimbursed patients, including the number of nonpaying and low- income reimbursed patients treated, for the hospital's last full and audited accounting period. This period is called the most recent reporting year.

G. Reporting hospitals. After January 1, 2003, an application to the authority for an initial license by an acute-care hospital or limited services hospital in a local community will require the provision of information necessary to determine the annual cost of care for emergency and general health care to nonpaying and low-income reimbursed patients, including the number of nonpaying and low-income reimbursed patients treated, for the most current reporting year. The following hospitals must report to the authority within 30 days of notice from the authority of application for an initial license by an acute-care hospital or limited services hospital:

(1) all limited services hospitals in the local community;

(2) all acute- care hospitals in the local community;

(3) the limited services hospital applying for the initial license or the acute-care hospital applying for the initial license must submit a business plan that provides information necessary to determine the projected annual cost of care for emergency and general health care to nonpaying and low-income reimbursed patients, including the number of nonpaying and low-income reimbursed patients.

H. Reporting requirements-specific. The reporting requirement for information necessary to determine the annual cost of care for emergency and general health care to nonpaying and low-income reimbursed patients, including the number of nonpaying and low- income reimbursed patients treated, for the hospital's last full and audited accounting period, shall be satisfied by the provision of a certified statement by the hospital's chief executive officer and an independent certified public accountant attesting to the accuracy of the above required information, in the format determined by

the authority. The authority shall conduct, as determined necessary, an independent audit to validate the information provided in the certified statement.

I. Determination of proportionality by the authority. Based upon the certified statements and business plan(s) submitted, the authority shall determine whether the application for licensure will provide emergency services and general health care to the number of nonpaying patients and low-income reimbursed patients in the same proportion as the proportion of nonpaying and low-income reimbursed patients that are treated in acute-care hospitals in the local community. Upon that determination by the authority that the proportional requirements are met by the applicant and the receipt of a certified statement by the applicant's chief executive officer that the proportions will be maintained, and other rule requirements are met by the applicant, the authority may issue a license consistent with the requirements of Section 24-1.5.8 NMSA 1978 (2003).

J. Limitation on costs to achieve proportionality. The acute-care hospital or limited service hospital applying for licensure after January 1, 2003 shall submit to the authority on an annual basis a certified statement from an independent certified public accountant setting out for that reporting year the hospital's annual cost incurred in the provision of care to low-income reimbursed patients and to nonpaying patients, in order to satisfy the hospital's proportionality requirements. Submission to the authority of such certified statement from an independent certified public accountant shall be made by the hospital within 30 days of its acceptance by the hospital's board of directors of the annual audited financial statement. The cost incurred in the provision of care to low-income reimbursed patients and nonpaying patients to satisfy the hospital's proportionality requirements is limited to five percent of the hospital's annual net revenue.

K. Penalties for non-reporting. Failure to meet the reporting requirements set out in this rule within the proscribed timeliness may result in a civil monetary penalty not to exceed $500,000, in the suspension or revocation of the hospital's license, the referral to CMS for sanctions under the medicare and medicaid program.

L. Penalties for failure to provide proportional services. Failure by an acute-care hospital or limited service hospital applying for licensure after January 1, 2003 to provide proportional services to nonpaying and low-income reimbursed patients, as required by this section, in any year following licensure, as determined from the information submitted annually by the hospital's chief executive officer and an independent certified public accountant may result in the authority's imposition of one or more of the following penalties:

(1) a authority-directed or authority approved plan of correction in which the hospital's failure to provide proportional services to nonpaying and low-income reimbursed patients is remedied in subsequent years through the additional provision of services to nonpaying and low- income reimbursed patients beyond the proportion established by the authority for such years;

(2) a civil monetary penalty not to exceed $500,000;

(3) suspension or revocation of the hospital's license; and

(4) referral to CMS for sanctions under the medicare and medicaid programs.

M. Annual reporting. Acute-care hospitals or limited services hospitals licensed after January 1, 2003, and all acute-care hospitals in the local community, shall submit to the authority on an annual basis a certified statement from an independent certified public accountant that sets out:

(1) the annual cost of care for emergency and general health care to nonpaying and low-income reimbursed patients;

(2) the annual net patient service revenue;

(3) the number of nonpaying and low-income reimbursed patients treated; and

(4) the total number of patients treated.

N. Physician owner disclosure of financial interest requirements, disclosure required. The physician owner of a limited services hospital or an acute-care hospital initially licensed by the authority at any time after January 1, 2003, shall not make a referral of a patient for the provision of health care items or services to such limited services hospital or the acute- care hospital unless, in advance of any such referral, the referring physician owner discloses to the patient the existence and the nature of physician's ownership interest.

O. Disclosure of financial interest by a physician owner. The disclosure of financial interest by a physician owner, as required in this section, shall be made in writing, prior to or at the time of the referral, and shall be furnished to:

(1) the patient, or the patient's authorized representative, and

(2) the acute- care hospital or the limited services hospital licensed by the authority at any time after January 1, 2003, in which the referring physician owner has a financial interest, for inclusion in the hospital's permanent patient's medical record; the acute- care hospital or the limited services hospital licensed by the authority at any time after January 1, 2003, must permit inspection of the patient's medical record by authorized employees of the authority to determine the hospital's compliance with this requirement, regardless of the hospital's deemed status.

P. Written disclosure of financial interest by a physician owner. The written disclosure of financial interest by a physician owner, as required in this section, shall include:

(1) the physician's name, address, and telephone number;

(2) the name and address of the limited services hospital or the acute-care hospital licensed by the authority at any time after January 1, 2003, to which the patient is being referred by the physician;

(3) the nature of the items or services, which the patient is to receive from the hospital to which the patient is being referred;

(4) the existence, nature and extent of the physician's financial interest in the hospital to which the patient is being referred; and

(5) a signed acknowledgement by the patient or the patient's authorized representative that the required disclosure has been furnished.

Q. To be approved by the New Mexico health care authority, a hospital shall comply with these requirements and with all other applicable state laws and local ordinances. Staff of the hospital shall be licensed or registered, as appropriate, in accordance with applicable laws.

R. An application for licensure shall be submitted to the authority on a form prescribed by the authority. All applications must have the following information:

(1) name of administrator or chief executive officer;

(2) type of facility to be operated and types of services that will be offered;

(3) location of the hospital; and

(4) statement of ownership, which must include:

(a) the name and principal business address of each officer and director for the corporation;

(b) the name and business address of each stockholder owning ten percent or more of the stock;

(c) copy of the current organizational chart; and

(d) such other information or documents as may be required by the authority for the proper administration and enforcement of the licensing law and requirements.

S. The authority shall review and make a determination on an application for licensure within 90 working days of receipt of the application.

T. Separate licenses shall be required for hospitals that are maintained on separate premises even though they are under the same management. This does not apply to outpatient departments or clinics of hospitals designated as such which are maintained

and operated on separate premises within the same county or, if in another county, not to exceed a one hour drive time from the parent facility. Separate licenses shall not be required for separate buildings on the same grounds or adjacent grounds.

U. Applications submitted for proposed construction of new hospitals or additions to licensed hospitals shall include architectural plans and specifications.

V. Information contained in such applications shall be on file in the authority and available to interested individuals and community agencies.

[8.370.12.8 NMAC - N, 7/1/2024]

8.370.12.9 TYPES OF LICENSE:

A. "Annual license": an annual license is issued for a one-year period to a hospital that has met all requirements of these requirements.

B. "Temporary license": the licensing authority may, at its sole discretion, issue a temporary license prior to the initial state licensing survey, or when the licensing authority finds partial compliance with these requirements.

(1) A temporary license shall cover a period of time, not to exceed 120 days, during which the facility must correct all specified deficiencies.

(2) In accordance with Subsection D of Section 24-1-5 NMSA 1978, no more than two consecutive temporary licenses shall be issued.

C. "Amended license": a licensee must apply to the licensing authority for an amended license when there is any change of administrator, name, location, capacity, classification of any unit as listed in these requirements:

(1) the application must be on a form provided by the licensing authority;

(2) application must be accompanied by the required fee for an amended license; and

(3) application must be submitted at least 10 working days prior to the change.

[8.370.12.9 NMAC - N, 7/1/2024]

8.370.12.10 LICENSE RENEWAL:

A. The licensee must submit a renewal application on forms provided by the licensing authority, along with the required fee prior to the expiration of the current license.

B. Upon receipt of the renewal application and the required fee prior to expiration of current license, the licensing authority will issue a new license effective the day following the date of expiration of the current license if the facility is in substantial compliance with these requirements.

[8.370.12.10 NMAC - N, 7/1/2024]

8.370.12.11 POSTING:

The license, or a copy thereof, shall be conspicuously posted in a location accessible to public view within the hospital.

[8.370.12.11 NMAC - N, 7/1/2024]

8.370.12.12 NON-TRANSFERABLE REGISTRATION OF LICENSE:

A license shall not be transferred by assignment or otherwise to other persons or locations. The license shall be void and must be returned to the licensing authority when any one of the following situations occur:

A. ownership of the hospital changes;

B. the facility changes location;

C. the licensee of the hospital changes; or

D. the hospital discontinues operation.

[8.370.12.12 NMAC - N, 7/1/2024]

8.370.12.13 EXPIRATION OF LICENSE:

A license will expire at midnight on the day indicated on the license as the expiration date, unless sooner renewed, suspended, or revoked, or:

A. on the day a facility discontinues operation; or

B. on the day a facility is sold, leased, or otherwise changes ownership or licensee; or

C. on the day a facility changes location.

[8.370.12.13 NMAC - N, 7/1/2024]

8.370.12.14 SUSPENSION OF LICENSE WITHOUT PRIOR HEARING:

In accordance with Subsection H of Section 24-1-5 NMSA 1978, if the licensing authority determines immediate action is required to protect human health and safety, the licensing authority may suspend a license. A hearing must be held in accordance with the regulations governing adjudicatory hearings, New Mexico health care authority, 8.370.2 NMAC.

[8.370.12.14 NMAC - N, 7/1/2024]

8.370.12.15 GROUNDS FOR REVOCATION OR SUSPENSION OF LICENSE, DENIAL OF INITIAL OR RENEWAL APPLICATION FOR LICENSE, OR IMPOSITION OF INTERMEDIATE SANCTIONS OR CIVIL MONETARY PENALTIES:

A license may be denied, revoked or suspended, or intermediate sanctions or civil monetary penalties may be imposed after notice and opportunity for a hearing for any of the following reasons:

A. failure to comply with any provisions of these requirements;

B. failure to allow survey by authorized representatives of the licensing authority;

C. permitting any person while active in the operation of a facility licensed pursuant to these requirements to be impaired by the use of prescribed or non-prescribed drugs, including alcohol;

D. misrepresentation or falsification of any information provided to the licensing authority;

E. the discovery of repeat violations of these requirements during surveys; or

F. the failure to provide the required care and services as outlined by these requirements.

[8.370.12.15 NMAC - N, 7/1/2024]

8.370.12.16 HEARING PROCEDURES:

A. An applicant or licensee subject to an adverse action may request an administrative appeal.

B. Hearing procedures for an administrative appeal of an adverse action taken by the licensing authority against the hospital as outlined in Section 14 and 15 above will be held in accordance with adjudicatory hearings, New Mexico health care authority, 8.370.2 NMAC.

C. A copy of the adjudicatory hearing procedures will be furnished to the hospital at the time an adverse action is taken against the licensee by the licensing authority. A copy may be requested at any time by contacting the licensing authority.

[8.370.12.16 NMAC - N, 7/1/2024]

8.370.12.17 WAIVERS AND VARIANCES:

A. Applications. All applications for the grant of a waiver or variance shall be made in writing to the licensing authority, specifying the following:

(1) the rule from which the waiver or variance is requested;

(2) the time period for which the waiver or variance is requested;

(3) if the request is for a variance, the specific alternative action which the facility proposes;

(4) the reasons for request; and

(5) an explanation of why the health, safety, and welfare of the residents or staff are not endangered by the condition.

B. Requests for a waiver or variance may be made at any time.

C. The licensing authority may require additional information from the hospital prior to acting on the request.

(1) Grants and denials. The licensing authority shall grant or deny each request for waiver or variance in writing. Notice of a denial shall contain the reasons for denial. The decisions to grant, modify, or deny a request for a waiver or variance is subject to appeal one time only.

(2) The terms of a requested variance may be modified upon agreement between the licensing authority and the hospital.

D. The licensing authority may impose whatever conditions on the granting of a waiver or variance it considers necessary.

E. The licensing authority may limit the duration of any waiver.

[8.370.12.17 NMAC - N, 7/1/2024]

8.370.12.18 GOVERNING BODY:

A. General requirements: The hospital shall have an effective governing body, which is legally responsible for the management and provision of all hospital services, maintenance of the hospital services and the quality thereof.

B. Responsibilities. by-laws: The governing body shall adopt by-laws. The by-laws shall be in writing and shall be available to all members of the governing body as well as the public. The by-laws shall:

(1) stipulate the basis upon which members are selected, their terms of office and their duties and requirements;

(2) specify to whom responsibilities for operation and maintenance of the hospital, including evaluation of hospital practices, may be delegated, and the methods established by the governing body for holding these individuals responsible;

(3) require a physician owner or other provider to disclose to the patient or the patient's representative and document for the patient's medical record a financial interest in the hospital before referring a patient to the hospital;

(4) provide for the designation of officers, if any, their terms of office and their duties, and for the organization of the governing body;

(5) specify the frequency with which meetings shall be held;

(6) allow for the organization of committees, either standing or ad hoc, to assist the board in carrying out their responsibilities;

(7) provide for the appointment of members of the medical staff; during periods of routine operation, and during disaster and emergency; and

(8) provide mechanisms for the formal approval of the organization, by-laws and rules of the medical staff.

C. Meetings:

(1) The governing body shall meet at regular intervals as stated in its by-laws.

(2) Meetings shall be held frequently enough for the governing body to carry on necessary planning for growth and development and to evaluate the performance of the hospital, including the care utilization of physical and financial assets and the delegation to the CEO/administrator for the hiring and direction of personnel.

(3) Minutes of meetings shall reflect pertinent business conducted.

D. Committees:

(1) The governing body shall appoint committees. There shall be an executive committee and others as allowed by bylaws.

(2) The number and types of committees shall be consistent with the size and scope of activities of the hospital

(3) The executive committee or the governing body as a whole shall establish operating guidelines for the activities and general policies of the various hospital services and committees established by the governing body.

(4) Written minutes, or reports, which reflect business conducted by the executive committee shall be maintained for review by the governing body.

(5) Other committees, which may include finance, joint conference, quality improvement and plant and safety management committees, shall function in a manner consistent with their duties assigned by the governing body and shall maintain written minutes or reports which reflect the performance of these duties. If the governing body does not appoint a committee for a particular area, a member or members of the governing body shall assure the performance of the duties normally assigned to a committee for that area.

E. Medical staff liaison: The governing body shall establish a formal means of liaison with the medical staff by a joint conference committee or by other means as follows:

(1) a direct and effective method of communication with the medical staff shall be established on a formal, regular basis, and shall be documented in written minutes or reports which are distributed to designated members of the governing body and the active medical staff; and

(2) liaison shall be a responsibility of the joint conference committee or its equivalent and the executive committee for designated members of the governing body.

F. Medical staff appointments: The governing body shall appoint members of the medical staff in accordance with the approved medical staff by-laws.

(1) A formal procedure shall be established, governed by written rules covering application for medical staff membership and the method of processing applications during periods of routine operation, and during disaster and emergency.

(2) The procedure related to the submission and processing of applications shall involve the chief executive officer/administrator, the credentials committee of the medical staff or its equivalent, and the governing body.

(3) Action taken by the governing body on applications for medical staff appointments shall be in writing; and available to the licensing authority during surveys or complaint investigations.

(4) Written notification of applicants shall be made by either the governing body or its designated representative.

(5) Applicants selected for medical staff appointment shall sign an agreement to abide by the medical staff rules and by-laws.

(6) The governing body shall establish a procedure for appeal and hearing by the governing body or a designated committee if the applicant or the medical staff wishes to contest the decision on an application for medical staff appointments.

G. Appointment of chief executive officer/administrator: The governing body shall appoint an administrator or a chief executive officer/administrator for the hospital. The governing body shall review the performance of the chief executive officer/administrator at least annually.

H. Patient care: The governing body shall establish a policy, which requires that every patient be under the care of a licensed, independent practitioner as determined by the medical staff and governmental body.

I. Physical plant requirements: The governing body shall be responsible for providing a physical plant equipped and staffed to maintain the needed facilities and services for patients.

J. Risk management: The facility shall have a risk management program. State, county or city facilities must have a risk management plan in accordance with the general services department rules.

K. Discharge planning.

(1) The governing body shall assure that the hospital maintains an effective, ongoing program coordinated with community resources to facilitate the provision of appropriate follow-up care to patients who are discharged.

(2) The hospital shall have current information on community resources available for continuing care of discharged patients.

(3) The discharge planning program shall:

(a) have a mechanism to identify patients who require discharge planning to provide continuity of medical care to meet their identified needs;

(b) initiate discharge planning in a timely manner;

(c) identify the role of the patient's provider, nursing staff, social work staff, other appropriate staff, the patient, and the patient's family or representative in the initiation and implementation of the discharge planning process;

(d) assure documentation in the medical record of the discharge plan;

(e) allow for the timely and effective transmittal of all medical, social, economic information concerning the patient to persons responsible for subsequent care of the patient;

(f) provide that every patient, or their legal representatives, receive relevant information concerning their health needs and is involved in his or her own discharge planning; and

(g) be reviewed at least once a year to evaluate effectiveness.

[8.370.12.18 NMAC - N, 7/1/2024]

8.370.12.19 POLICIES:

Every hospital shall have written policies approved by the governing board and shall include provisions for implementation, and for access by the patient, on:

A. Patient rights and responsibilities: a list of these patient rights and responsibilities shall be available in languages appropriate to the ethnic needs of the community;

(1) The policies on patient rights and responsibilities shall provide that:

(a) patients may not be denied appropriate hospital care because of the patient's race creed, color, national origin, religion, sex, sexual orientation, marital status, age, disability or source of payment;

(b) patients shall be treated with consideration, respect, and recognition of their individuality, including the need for privacy in treatment;

(c) the individual patient's medical records, including all computerized medical information, shall be kept confidential in accordance with applicable federal, state and local laws;

(d) the patient or any person authorized by statute or in writing by the patient shall have access to the patient's medical record but access to patient's psychiatric records may be limited by treating professionals when specific hospital policies specify requirements for limiting access;

(e) every patient shall be entitled to know who has overall responsibility for the patient's care;

(f) every patient, legally authorized person or any person authorized in writing by the patient, shall receive, from the appropriate person within the facility, information about his illness, course of treatment and prognosis for recovery in terms the patient can understand;

(g) every patient, or his designate representative, where appropriate, shall have the opportunity to participate to the fullest extent possible in planning for his care and treatment;

(h) every patient, or his designated representative, shall be given, at the time of admission, a copy of the patient's rights and responsibilities;

(i) except in emergencies, the consent of the patient, or their legally authorized representative, shall be obtained before treatment is administered;

(j) any patient may refuse treatment to the extent permitted by law and shall be informed of the medical consequences of the refusal;

(k) the patient, the patient's legally authorized representative, or person granted the power to authorize medical treatment, shall be fully informed and give consent for the patient's participation in any form of research or experimentation;

(l) except in emergencies, the patient may be transferred to another facility only with a full explanation of the reason for the transfer, provision for continuing care; and acceptance by the receiving institution;

(m) every patient may examine and receive an explanation of the patient's hospital bill regardless of source of payment, and may receive upon request, information relating to financial assistance available through the hospital;

(n) every patient shall be informed of his responsibility to comply with hospital rules, cooperate in the patient's own treatment, provide a complete and accurate medical history, be respectful of other patients, staff and property, and provide required information concerning payment of charges;

(o) every patient shall be informed in writing about the hospital's policies and procedures for initiation, review and resolution of patient complaints, including the address where complaints may be filed with the authority;

(p) every patient shall be allowed to designate who may be permitted to visit during the hospital stay in accordance with the hospital policy; and

(q) every patient shall have freedom from physical or verbal abuse, harassment and inappropriate physical and chemical restraints;

(r) hospitals must be in compliance with CMS's patient rights condition of participation.

(2) The policies on patient rights and responsibilities shall also provide that patients who receive treatment for mental illness, or developmental disability, in addition to the rights listed herein, have the rights provided in section 43-1-6 NMSA 1978.

(3) Hospital staff assigned to provide direct patient care shall be informed of, and demonstrate their understanding of, the policies on patient rights and responsibilities through orientation and appropriate in-service training activities.

B. Movement of visitors: The hospital shall develop policies regarding the movement of visitors, which provide for infection control and patient privacy, but also allow the patient appropriate freedom as to the time, nature, and location of visit.

C. Use of Volunteers:

(1) the scope of volunteer activities shall be delineated in hospital policies and procedures and shall cover periods of routine operation and periods of disaster and emergency operation;

(2) volunteers may assist with patient care only under direct supervision of appropriate hospital personnel and after appropriate, documented in- service training; volunteers may not perform procedures permitted only by a licensed health care provider;

(3) no volunteer under 16 years of age may assist with or render direct patient care.

D. Identification: The hospital shall develop a method to identify employees, patients, personnel records and patient files.

E. Cancer reporting: every hospital shall report to the tumor registry all malignant neoplasms that are diagnosed by the hospital and all malignant neoplasm's diagnosed elsewhere if the individual is subsequently admitted to the hospital; the report of each malignant neoplasm shall be made on a form prescribed or approved by the authority and shall be submitted to the UNM tumor registry within six months after the diagnosis is made or within six months after the individual's first admission to the hospital if the neoplasm is diagnosed elsewhere, as appropriate; in this paragraph, "malignant neoplasm" means an in situ or invasive tumor of the human body, but does not include a squamous cell carcinoma or basal cell carcinoma arising in the skin.

F. Post - mortem examinations:

(1) the hospital shall have policies for notifying all personnel of special handling needs during post-mortem procedures;

(2) the hospital shall have policies for the release of a deceased human body to a funeral director or other authorized person.

G. Tagging of bodies: all deceased human bodies to be removed from a hospital shall be tagged by staff of the hospital; a red tag shall be used to indicate the possibility of the presence of the communicable or infectious disease or radioactive materials. If the body is in a container, a tag shall also be applied to the outside of the container.

H. Autopsy: Reports are to be distributed to the primary provider and become part of the patient's clinical record.

I. Withholding of resuscitative services from patients.

(1) A policy shall be developed in consultation with the medical staff, nursing staff, and other appropriate bodies and shall be adopted by medical staff and approved by the governing body. The policy shall describe:

(a) a mechanism(s) for reaching decisions about the withholding of resuscitative services from individual patients;

(b) the mechanism(s) for resolving conflicts in decision making, should they arise;

(c) the roles of physicians and, when applicable, of nursing personnel, other appropriate staff, and family members in the decision to withhold resuscitative services;

(d) provisions designed to assure that patients' rights are respected when decisions are made to withhold resuscitative services;

(e) a requirement that patients, or their legal representative(s), and family members must be afforded the opportunity to make their wishes known about decisions affecting the patient's end of life care;

(f) a requirement that appropriate orders be written by the physician or other licensed independent practitioners primarily responsible for the patient and that documentation be made in the patient's medical record.

(2) A decision to withhold resuscitative services does not absolve the hospital from providing basic patient care.

J. Anatomical gifts: A policy shall be adopted and implemented for organ and tissue donation in accordance with 370.12.42 NMAC; the policy shall include procedures to assist the medical, surgical and nursing staff in identifying, evaluating and reporting potential organ and tissue donors.

K. Reporting: A policy for compliance with all applicable state and federal reporting requirements must be adopted and updated as necessary; such federal requirements include but are not limited to the New Mexico health policy commission, the national practitioner data bank and the healthcare integrity and protection data bank.

[8.370.12.19 NMAC - N, 7/1/2024]

8.370.12.20 CHIEF EXECUTIVE OFFICER/ ADMINISTRATOR:

A. Appointment: The hospital shall be directed by a chief executive officer/administrator. The chief executive officer/administrator shall be appointed by the governing body, shall be responsible for the management of the hospital and shall provide liaison among the governing body, medical staff, nursing services and other services of the hospital.

B. Qualifications: The chief executive officer/administrator shall:

(1) be a college or university graduate from an accredited college or university, with three years of experience in a health care facility; or

(2) possess a college or university graduate degree in hospital, health care administration, or an advanced degree such as an MPH or an MBA with a health concentration; or

(3) have been hired and be acting in the capacity of the facility's chief executive officer/ administrator before the effective date of these requirements.

C. Responsibilities: The chief executive officer/ administrator shall:

(1) keep the governing body fully informed about the quality of patient care, the management and financial status of the hospital, survey results and the adequacy of physical plant, equipment and personnel;

(2) organize the day-to-day functions of the hospital;

(3) establish formal means of staff evaluation and accountability on the part of subordinates to whom duties have been assigned;

(4) provide for the maintenance of an accurate, current and complete personnel record for each hospital employee;

(5) ensure that there is sufficient communication among the governing body, medical staff, nursing services and other services, hold interdepartmental and departmental meetings, where appropriate, attend or be represented at the meetings on a regular basis, and report to the governing body on the pertinent activities of the hospital;

(6) provide the authority with any information required to document compliance with the Public Health Act, Section 24-1-1 et seq., NMSA 1978, and provide reasonable means for examining records and gathering the information;

(7) be responsible for the preparation of policies and procedures on the withholding of resuscitative services from patients.

[8.370.12.20 NMAC - N, 7/1/2024]

8.370.12.21 EMPLOYEE HEALTH:

The hospital shall have an employee health program under the direction of a physician, an authorized licensed independent practitioner or professional registered nurse, which shall include.

A. Post hiring health screen: A post hiring health screening shall be required for all employees and persons who will have frequent and direct contact with patients. The assessment shall be completed and the results known prior to the assumption of duties by persons who will have direct contact with patients. The screening shall include:

(1) a health history, including a history of communicable diseases and immunizations;

(2) a PPD tuberculin skin test and, if necessary, a chest roentgenogram to determine whether disease is present, unless medically contra-indicated.

B. Health history for volunteers: A health history of communicable diseases and immunizations shall be obtained prior to any volunteer assuming duties that involve direct patient care.

C. Protection against rubella: Vaccination or confirmed immunity against rubella shall be required for everyone who has direct contact with rubella patients, pediatric patients or female patients of childbearing age. No individual without documented vaccination against or immunity to rubella may be placed in a position in which he or she has direct contact with rubella patients, pediatric patients or female patients of childbearing age.

[8.370.12.21 NMAC - N, 7/1/2024]

8.370.12.22 INFECTION CONTROL:

A. Program. The hospital shall have an infection control program designed to reduce the number of infections, including nosocomial infections, within the hospital.

B. Program approval:

(1) Purpose: The governing body or medical staff shall approve an infection control program to carry out surveillance and investigation of infections in the hospital and to implement measures designed to reduce these infections to the extent possible.

(2) Responsibilities: The infection control program shall:

(a) establish techniques and systems for discovering and isolating infections occurring in the hospital;

(b) establish written infection control policies and procedures, which govern the use of aseptic technique and procedures in all areas of the hospital;

(c) establish a method of control used in relation to the sterilization of supplies and solutions; there shall be a written policy requiring identification of sterile items and specified time periods in which sterile items shall be reprocessed;

(d) establish policies specifying when employees or persons providing contractual services with infections or contagious conditions, including carriers of infectious organisms, shall be relieved from, or reassigned duties, until there is evidence that the disease or condition poses no significant risk to others;

(e) at least annually assess effectiveness of the infection control process; and

(f) establish effective guidelines for the disposition of infectious materials in accordance with the local, state and federal guidelines.

C. Education: The hospital shall provide training to all appropriate hospital personnel on the epidemiology, etiology, transmission, prevention and elimination of infection, as follows:

(1) aseptic technique: all appropriate personnel shall be educated in the practice of aseptic techniques such as hand- washing and scrubbing practices, standard precautions, personal hygiene, masking and dressing techniques, disinfecting and sterilizing techniques and the handling and storage of patient care equipment and supplies, to include the handling of needles and sharp instruments; and

(2) orientation and in-service: new employees shall receive appropriate orientation and on-the- job training, and all employees shall participate in a continuing in-service program; the participation shall be documented.

D. General infection control provisions:

(1) There shall be regular inspection and cleaning of air intake sources, screens and filters, with special attention given to high risk areas of the hospital as determined by the infection control committee.

(2) A sanitary environment shall be maintained to avoid sources and transmission of infection.

(3) Proper facilities shall be maintained, and techniques used, for disposal of infectious wastes, as well as sanitary disposal of all other wastes.

(4) Hand- washing facilities shall be provided in patient care areas for the use of hospital personnel.

(5) Sterilizing services shall be available at all times.

(6) Soiled linen shall be contained and secured at the point generated. It can be transported to a designated area or cleaning facilities. No special precautions beyond the standard precautions are necessary. Soiled bed linen shall be placed immediately in a container available for this purpose and sent to the laundry promptly.

(7) Tuberculosis exposure control plan.

(a) A program to minimize the risk of infectious tuberculosis among or between health care workers, patients, or visitors and others shall be developed.

(b) This program shall include: a comprehensive facility-wide risk assessment, early identification, isolation, and treatment of potentially infectious tuberculosis patients, effective engineering controls to prevent the spread, and reduce the concentration of, infectious droplet nuclei, a written, respiratory protection program to protect health care workers from exposure, education, counseling, and screening processes for health care workers.

E. Reporting disease: Hospitals shall report cases and suspected cases of notifiable conditions as listed in 7.4.3.13 NMAC to the New Mexico health care authority pursuant to New Mexico regulations governing the control of disease and conditions of public health significance, New Mexico health care authority, 7.4.3 NMAC or any superseding regulation.

F. Policies and procedures: There shall be written policies and procedures pertinent to care of patients with communicable diseases that shall include standard precautions.

(1) These policies and procedures shall be developed by administrative, medical, and nursing staff.

(2) The policies and procedures shall be applicable within the hospital, designed to ensure safe and adequate care to patients, safety to hospital employees, and consistent with applicable laws and regulations.

(3) Policies shall be made known to, and readily available to all hospital employees as well as the medical and nursing staff, and shall be followed in the care of patients, and shall be kept current by periodic review and revision.

[8.370.12.22 NMAC - N, 7/1/2024]

8.370.12.23 QUALITY IMPROVEMENT:

A. Responsibility of the governing body: The governing body shall ensure that the hospital has a written quality improvement program for monitoring, evaluating and improving the quality of patient care and the ancillary services in the hospital on an on-going basis. The program shall promote the most effective and efficient use of available health facilities and services consistent with patient needs and professionally recognized standards of health care.

B. Responsibilities of the chief executive officer/administrator and the chief of the medical Staff. As part of the quality improvement program, the chief executive officer/administrator and chief of the medical staff shall ensure that:

(1) the hospital's quality improvement program is implemented and evaluated for effectiveness for all patient care and all services;

(2) the findings of the program are incorporated into a well defined method of assessing staff performance in relation to patient care and the provision of services; and

(3) program findings, actions and results of the hospital's quality improvement program are reported to the chief executive officer/administrator, chief of medical staff and governing body not less than annually.

C. Evaluation of Care to be Problem-Focused.

(1) Monitoring and evaluation of the quality of care given patients and services provided shall focus on identifying patient care problems and opportunities for improving patient care.

(2) Evaluation of care and services shall be problem- focused whenever serious events occur which have a major impact on patient care and services, or when the hospital receives a quality-of-care concern or complaint.

D. Evaluation of care and services to use variety of sources. The quality of care given patients shall be evaluated using a variety of data sources, including, but not limited to, medical records, hospital information systems, published research, literature comparison, peer review organization data, patient satisfaction findings, and when available, third party information.

E. Activities. Hospitals shall document how each of the monitoring and evaluation activities has produced data used to institute changes to improve quality of care or services and promote more efficient use of facilities and services. Quality improvement activities shall:

(1) emphasize identification and analysis of patterns of patient care and suggest possible changes for maintaining consistently high quality care and effective and efficient use of services;

(2) identify and analyze factors related to the patient care rendered in the facility and, where indicated, make recommendations to the governing body, chief executive officer/ administrator and chief of the medical staff for changes that are beneficial to patients, staff, the facility and the community; and

(3) document the monitoring and evaluation activities performed and indicate how the results of these activities have been used to institute changes to improve the quality and a appropriateness of the care provided.

F. Evaluation of the program. The chief executive officer/administrator and chief of medical staff shall be involved in evaluation of the effectiveness of the quality improvement program which is evaluated by clinical and administrative staff at least once a year and that the results are communicated to the governing body.

[8.370.12.23 NMAC - N, 7/1/2024]

8.370.12.24 UTILIZATION MANAGEMENT:

A. Plan: Every hospital shall have in operation a written utilization management plan designed to ensure that quality patient care is provided in the most appropriate manner. The plan should address potential over and under utilization as well as the efficient use of resources for patients.

(1) Description of plan. The written utilization management plan shall include at a minimum at least the following:

(a) a delineation of the responsibilities and authority of those involved in the performance of utilization management activities, including utilization management personnel, administrative personnel, and, when applicable, any qualified outside organization contracting to perform review activities specified in the plan;

(b) a conflict of interest statement stating that reviews may not be conducted by any person who has a proprietary interest in any hospital or by any person who was professionally involved in the care of the patient whose case is being reviewed;

(c) a confidentiality policy applicable to all utilization management activities, including any findings and recommendations;

(d) a description of the process by which the hospital identifies and resolves utilization related problems, including the appropriateness and medical necessity of admissions, continued stays, and supportive services, as well as delays in the provision of supportive services; and

(e) the following activities shall be incorporated into the process: analysis of profiles and patterns of care, feedback of results of profile analysis to the medical staff, documentation of specific actions taken to correct aberrant practice patterns or other utilization management problems, and evaluation of the effectiveness of action taken.

(2) The plan must include the procedures for conducting review, including the time period within which the review is to be performed following admission and in assigning continued stay review dates.

(3) A mechanism for the provision of discharge planning as set forth under these requirements must be included.

(4) Responsibility for performance. The plan shall be approved by the medical staff, administration and governing body. Hospital administration shall assure the effective implementation of the plan.

B. Conduct of review.

(1) Written measurable criteria that have been approved by the medical staff shall be utilized when performing reviews.

(2) Non- physician health care professionals may participate in the development of review criteria and conduct of review relative to services provided by their peers.

(3) Determinations regarding the medical necessity and appropriateness of care provided shall be based upon information documented in the medical record. The medical staff member primarily responsible for the patient's care shall be notified whenever it is determined that an admission or continued stay is not medically necessary, and shall be afforded the opportunity to present his or her own views before a final determination is made. At least two medical staff members shall make a determination when the medical staff member primarily responsible for the patient's care disagrees.

(4) Different rules may apply to beneficiaries of, or enrollees in, plans which provide medicare or medicaid services. If the hospital is a member of, or has a contractual relationship with, a risk bearing entity, and such risk bearing entity has a contract with CMS or with the New Mexico medicaid authority (single state agency), then the applicable federal or state requirements shall apply to enrollees under such a plan.

(5) Written notice of any decision that an admission or continued stay is not medically necessary shall be given to the appropriate hospital department, the medical staff member primarily responsible for care of the patient and the patient no later than 72 hours after the determination.

C. Records and reporting. Records shall be kept of hospital utilization management recommendations made to the medical staff and to the governing body as necessary. Recommendations relevant to hospital operations or administration shall be reported to administration.

[8.370.12.24 NMAC - N, 7/1/2024]

8.370.12.25 DISASTER AND EMERGENCY MANAGEMENT:

A. Plan: E ach hospital shall have in operation a written plan for disaster and emergency management developed with the involvement of the hospital's executive, medical, and nursing staff and designed to ensure that each hospital is prepared to provide effective and efficient response to disasters and emergencies occurring in the community directly served by each hospital and in neighboring communities in New Mexico and adjacent states.

(1) Description of plan: The written plan for disaster and emergency management shall:

(a) identify the responsibilities and authorities of those involved in the conduct of disaster and emergency management activities within the hospital, including the responsibility and authority of chief executive officer of the hospital for the activation of the plan;

(b) be consistent with the concepts, principles, standards, guidelines, and terminology of the national response plan and the national incident management system;

(c) be coordinated with the local emergency operations plan, or the metropolitan medical response system plan, of the community directly served and with the New Mexico state all-hazard emergency operations plan;

(d) address the natural, accidental, negligent, and intentional hazards, identified through a hazard vulnerability analysis, to which the hospitals may be expected to respond;

(e) provide for direction, planning, education, training, exercise, drill, staff qualification and certification, equipment acquisition and certification, resource management, communications and information management, and ongoing management, improvement and maintenance;

(f) describe the direct responses of the hospital to disaster and emergency occurring in the community directly served by the hospital, the overflow and back-up responses of the hospital to disaster and emergency occurring in neighboring communities not directly served, and the efforts of the hospital in support organized and sponsored health professional disaster and emergency volunteer teams.

(2) Exercise and drill of plan: Exercises and drills of the plan, both internally, and in conjunction with local and state disaster and emergency exercises and drills, shall be conducted at least twice a year to practice response and to serve as a basis for plan improvement.

(3) Evaluation and revision of plan: The appropriateness and adequacy of the plan shall be evaluated on an annual basis, and the plan shall be revised as necessary.

B. Communications systems: With the assistance of the New Mexico health care authority each hospital shall establish and maintain connections with the various disaster and emergency management communications systems in New Mexico.

C. Bed polling: Each hospital shall participate in the electronic bed polling system operated by the New Mexico health care authority.

D. Mutual aid agreements and regional response plans: Coordination of hospital disaster and emergency management plans with local emergency operations plans and with the New Mexico state all-hazard emergency operations plan shall be recognized to serve the purposes of individual mutual aid agreements and of regional response plans.

E. Public health emergency response: In the event that a public health emergency is declared pursuant to the Public Health Response Act, Sections 12- 10A- to 12-10A-19, NMSA 1978, the secretary of the health care authority, in coordination with the secretary of public safety and the director of homeland security, may:

(1) utilize, secure or evacuate health care facilities for public use; and

(2) inspect, regulate the allocation, sale, dispensing, or distribution of, or ration health care supplies in short supply within New Mexico.

[8.370.12.25 NMAC - N, 7/1/2024]

8.370.12.26 MEDICAL STAFF:

A. General requirements:

(1) Organization and Accountability: The hospital shall have a medical staff organized under by-laws approved by the governing body. The medical staff shall be responsible to the governing body of the hospital for the quality of all medical care

provided patients in the hospital and for the ethical and professional practices of its members.

(2) Responsibility of members: Members of the medical staff shall comply with medical staff and hospital policies. The medical staff by-laws shall prescribe disciplinary procedures for infraction of hospital and medical staff policies by members of the medical staff. There shall be evidence that the disciplinary procedures are applied where appropriate.

B. Membership:

(1) Active staff: A hospital shall have an active medical staff, which performs all the organizational duties pertaining to the medical staff. Active staff membership shall be limited to individuals, as defined in Subsection LL of 8.370.12.7 NMAC of these requirements, who are currently licensed. Individuals may be granted membership in accordance with the medical staff by-laws and rules, and in accordance with the by-laws of the hospital.

(2) Other staff: The medical staff may include one or more categories defined in the medical staff by-laws in addition to the active staff including a category to cover appointment during periods of disaster and emergency.

C. Appointment:

(1) Governing body responsibilities:

(a) medical staff appointments shall be made by the governing body, taking into account recommendations made by the active medical staff;

(b) the governing body shall biennially ensure that members of the medical staff are qualified legally and professionally for the position to which they are appointed;

(c) the hospital, through its medical staff, shall require applicants for medical staff membership to provide, in addition to other medical staff requirements, a complete list of all hospital medical staff memberships held within five years prior to application; and

(d) hospital medical staff applications shall require reporting any malpractice action, any previously successful and currently pending challenges to licensure in this or another state, and any loss or pending action affecting medical staff membership or privileges at another hospital.

(2) Medical staff responsibilities:

(a) to select its members and delineate their privileges, the hospital medical staff shall have a system, based on specific standards for evaluation of each applicant

by a credentials committee, which makes recommendations to the medical staff and to the governing body; and

(b) the medical staff may include one or more categories of medical staff defined in the medical staff by-laws in addition to the active medical staff, including a category to cover appointment during periods of disaster and emergency, but this in no way modifies the duties and responsibilities of the active staff.

D. Criteria for appointment:

(1) Criteria for selection shall include the individual's current licensure, health status, professional performance, judgment and clinical and technical skills.

(2) All qualified candidates shall be considered by the credentials committee or during periods of disaster and emergency by a member of the medical staff or administration who represents the credentials committee.

(3) Re- appointments shall be made at least biennially and recorded in the minutes or files of the governing body. Reappointment policies shall provide for a periodic appraisal of each member of the staff, including consideration at the time of reappointment of information concerning the individual's current licensure, health status, professional performance, judgment and clinical and technical skills. Recommendations for re- appointments shall be noted in the minutes of the meetings of the appropriate committee.

(4) Temporary staff privileges may be granted for a limited period if the individual is qualified for membership on the medical staff.

(5) Disaster and emergency privileges may be granted to qualified individuals during disasters and emergencies.

(6) A copy of the scope of privileges to be accorded the individual shall be distributed to appropriate hospital staff. The privileges of each staff member shall be specifically stated or the medical staff shall define a classification system. If a system involving classifications is used, the scope of the categories shall be well defined, and the standards that must be met by the applicant, shall be clearly stated for each category.

(7) If other categories of staff membership are to be established for allied health personnel, the necessary qualifications, privileges and rights shall be delineated in accordance with the medical staff by-laws.

E. Consultations:

(1) The medical staff must have established policies concerning the holding of consultations.

(2) Except in an emergency, consultations are required when:

(a) the patient is not a good medical or surgical risk;

(b) the diagnosis is obscure;

(c) there is doubt as to the best therapeutic measures to be utilized; or

(d) when the patient, or legally authorized person, requests such consultation.

(3) Consultations must be included in the medical record. When operative procedures are involved, the consultation note, except in an emergency, shall be recorded prior to the operation.

(4) The patient's physician or authorized licensed independent practitioner is responsible for requesting consultations when indicated. It is the duty of the medical staff to make certain that members of the medical staff contact consultants as needed.

F. By-laws:

(1) Adoption and purpose: By-laws shall be adopted by the medical staff and approved by the governing body to govern and enable the medical staff to carry out its responsibilities. The by-laws of the medical staff shall be a precise and clear statement of the policies under which the medical staff regulates itself.

(2) Content: medical staff by-laws and rules shall include:

(a) a descriptive outline of the medical staff organization;

(b) a statement of the necessary qualifications which each member must possess to be privileged to work in the hospital, during periods of routine operation, as well as during periods of disaster and emergency, and of the duties and privileges of each category of medical staff;

(c) a procedure for granting or withdrawing privileges to each member; and an appeal process for privilege withdrawal or refusal;

(d) a mechanism for appeal of decisions regarding medical staff membership and privileges;

(e) provision for regular meetings of the medical staff;

(f) provision for keeping timely, accurate and complete records;

(g) provisions for routine examination of all patients upon admission and recording of the preoperative diagnosis prior to surgery;

(h) a stipulation that a surgical operation is permitted only with the consent of the patient or legally authorized person except in emergencies;

(i) statements concerning the request for the performance of consultations, and instances where consultations are require; and

(j) a statement specifying categories of personnel duly authorized to accept and implement medical staff orders.

G. Governance:

(1) The medical staff shall have the numbers and kinds of officers necessary for the governance of the staff.

(2) Officers shall be members of the active staff and shall be elected by the active medical staff.

H. Meetings:

(1) Number and frequency: The number and frequency of medical staff meetings shall be determined by the active medical staff and clearly stated in the by-laws of the medical staff. At a minimum the executive committee of the medical staff shall meet at least quarterly.

(2) Attendance: Attendance records shall be kept of medical staff meetings. Attendance requirements for each individual member shall be clearly stated in the by-laws of the medical staff.

(3) Purpose: Full medical staff meetings shall be held to conduct the general business of the medical staff and to review the significant findings identified through the quality improvement program.

(4) Minutes: Minutes of all meetings shall be kept.

I. Committees.

(1) Establishment: The medical staff shall establish committees of the medical staff and is responsible for their performance.

(2) Executive committee: The medical staff shall have an executive committee to coordinate the activities and general policies of the various departments, act for the staff as a whole under limitations that may be imposed by the medical staff bylaws, and receive and act upon the reports of all other medical staff committees.

J. Administrative structure: Hospitals may create services to fulfill medical staff responsibilities. Services are responsible for the quality of care rendered to patients under their care.

[8.370.12.26 NMAC - N, 7/1/2024]

8.370.12.27 NURSING SERVICES:

A. Requirement: The hospital shall provide a 24-hour nursing service, supervised by a professional registered nurse, and have a licensed practical nurse or professional registered nurse on duty at all times.

B. Administration:

(1) The nursing services shall be directed by a professional registered nurse with appropriate education and experience to direct the service. A professional registered nurse with administrative authority shall be designated to act in the absence of the director of the nursing services. Appropriate administrative staffing shall be provided on all shifts.

(2) There shall be a written plan showing the flow of authority throughout the nursing service, with delineation of the responsibilities and duties of each category of nursing staff.

(3) The delineation of responsibilities and duties for each category of the nursing staff shall be in the form of a written job description for each category.

C. Staffing:

(1) An adequate number of professional registered nurses shall be on duty at all times to meet the nursing care needs of the patients. There shall be qualified supervisory personnel for each service or unit to ensure adequate patient care management.

(2) The number of nursing personnel for all patient care services of the hospital shall be consistent with the nursing care needs of the hospital's patients.

(3) The staffing pattern shall ensure the availability of professional registered nurses to assess, plan, implement and direct the nursing care for all patients on a 24-hour basis.

D. Patient Care:

(1) Care planning:

(a) All nursing care shall be planned and directed by professional registered nurses. A professional registered nurse shall be on duty and immediately available to give direct patient care when needed.

(b) A professional registered nurse shall be available at all times to render direct care in the facility.

(2) Care determinants:

(a) A professional registered nurse shall assign the nursing care of each patient to other nursing personnel in accordance with the patient's needs and the preparation and competence of the available nursing staff.
