ARTICLE 3B Property Control

15-3B-1. Short title.

Chapter 15, Article 3B NMSA 1978 may be cited as the "Property Control Act".

History: 1978 Comp., § 15-3B-1, enacted by Laws 2001, ch. 319, § 1.

ANNOTATIONS

Effective dates. — Laws 2001, ch. 319 § 24 made the act effective July 1, 2001.

Governor's authority to order flags be flown at half-staff. — There is no express constitutional or legislative grant of authority to the governor to order that the New Mexico state flag be flown at half-staff, but the legislature has granted broad managerial authority within the executive department, which consists of statutorily created departments, headed by secretaries who serve at the pleasure of the governor; a secretary is responsible to the governor for the operation of the department and it is the secretary's duty to manage all operations of the department. It can be inferred from the

broad operational authority granted by the legislature that the governor may order the state flag be flown at half-staff as long as the order is limited to the executive's jurisdictional reach. When such authority is exercised for the broader context of raising awareness for societal issues statewide, however, the executive authority may be limited without some expressed grant of authority to do so. *Governor's authority to order state flags be flown at half-staff (2/19/21)*, [Att'y Gen. Adv. Ltr. 2021-03](#).

Because Laws 2001, ch. 293 was approved earlier on April 5, 2001, this section is set out as amended by Laws 2001, ch. 319, § 4. See 12-1-8 NMSA 1978.

Governor's authority to order flags be flown at half-staff. — There is no express constitutional or legislative grant of authority to the governor to order that the New Mexico state flag be flown at half-staff, but the legislature has granted broad managerial authority within the executive department, which consists of statutorily created departments, headed by secretaries who serve at the pleasure of the governor; a secretary is responsible to the governor for the operation of the department and it is the secretary's duty to manage all operations of the department. It can be inferred from the broad operational authority granted by the legislature that the governor may order the

state flag be flown at half-staff as long as the order is limited to the executive's jurisdictional reach. When such authority is exercised for the broader context of raising awareness for societal issues statewide, however, the executive authority may be limited without some expressed grant of authority to do so. *Governor's authority to order state flags be flown at half-staff* (2/19/21), [Att'y Gen. Adv. Ltr. 2021-03](#).

D. A staff architect who subsequently leaves the position, or any firm he may subsequently be employed by, is prohibited for a period of two years from providing architectural services or bidding on the construction, remodeling or renovation of a state building if he developed or worked on the plans or specifications for such construction, remodeling or renovation while employed as staff architect.

A. Subject to the provisions of this section, the facilities management division of the general services department, after consulting with the human services department [health care authority department] and the children, youth and families department and on behalf of those departments, shall:

(1) enter into agreements necessary for the land acquisition, if necessary, and the planning, designing, constructing, equipping and furnishing of a new health and human services office building in the county or municipality of Santa Fe that will serve as the first phase of the health and human services office complex and be occupied by the human services department [health care authority department] and the children, youth and families department, provided that, in entering into the agreements, the division shall consider state and private land acquisition options, including potential trades of land; and

(a) specify the principal, interest and maintenance component of each payment made, provided further that: 1) the initial principal shall not exceed eighty million dollars (\$80,000,000); and 2) the net effective interest rate shall not exceed the maximum permitted by the Public Securities Act [6-14-1 to 6-14-3 NMSA 1978];

(b) provide that there is no legal obligation for the facilities management division to continue the lease from year to year or to purchase the building;

(c) provide that the lease shall be terminated if sufficient appropriations are not available to meet the current lease payments;

(d) provide that the lease payments include a maintenance component that shall escalate annually and, over the length of the agreement, approximate the amount that will be needed for the maintenance and repair of the building; and

(e) provide that if the building is purchased, title to the building shall be issued in the name of the facilities management division.

B. The facilities management division shall enter into such financing arrangements as are necessary to construct, occupy and acquire the building by the most cost-effective method and, if the division determines that the issuance of lease purchase revenue bonds by the New Mexico finance authority pursuant to Section 6-21-6.14

NMSA 1978 is the most cost-effective financing arrangement, the New Mexico finance authority is authorized to:

- (1) issue bonds, in an amount not to exceed eighty million dollars (\$80,000,000), pursuant to that section;
- (2) include a maintenance component as part of the lease payments received;
and
- (3) use a portion of the net proceeds from the sale of the bonds for debt service payments that are due before sufficient lease payments have been deposited into the debt service fund.

C. No contract or financing arrangement entered into pursuant to Subsection A or B of this section shall be effective until approved by the attorney general for legal sufficiency.

D. Neither a request for proposals shall be issued pursuant to Subsection A or B of this section nor a contract entered into pursuant to those subsections without prior review by the capitol buildings planning commission to ensure that:

- (2) the building and its proposed use are within the scope of the commission's master plan.

E. The facilities management division shall enter into subleases with the human services department [health care authority department] and the children, youth and families department for the lease of office space within the building, provided that the payments made under the subleases shall equal the payments due by the facilities management division under the lease purchase agreement. The facilities management division may also sublease available space within the building to any state agency if:

- (1) the space subject to an existing sublease has been reduced by agreement between the facilities management division and the existing sublessee;
- (2) the previous sublease for the available space has been terminated due to the failure of the sublessee to obtain appropriations or otherwise receive the money necessary for making the lease payments; or
- (3) the previous sublessee of the available space has been relocated by an act of the legislature.

F. Notwithstanding any provision restricting budget adjustments, upon the certification by the director of the facilities management division that the building is

completed and suitable for occupancy, the secretary of finance and administration may transfer between and among the categories and programs of the current operating budget of each agency that will occupy the building any unexpended or unencumbered appropriation for lease payments or building maintenance. The transferred appropriations shall be expended by the facilities management division for lease payments due pursuant to the lease purchase agreement.

G. During the term of the lease purchase agreement, each sublessee shall include, in its annual budget request, the amount due under its sublease during the next fiscal year, and the sublessee and the facilities management division shall use their best efforts to secure the appropriation.

The 2009 amendment, effective April 7, 2009, in Paragraph (2) of Subsection B, deleted "or" after "natural resources department", and after "game and fish", added "or homeland security and emergency management department".

The 2007 amendment, effective July 1, 2007, in Subsection A, changed "state vehicles" to "vehicles used by state agencies"; deleted former Paragraph (2) of Subsection B, which provided that custody may reside in another state agency if the vehicle is of a special design or construction that effectively limits its use to a particular purpose; deleted former Paragraph (3) of Subsection B, which provided that custody may reside in another state agency if the money used to acquire the vehicle is subject to constitutional or trust limitations that prevent its use as part of the motor pool; deleted former Paragraph (4) of Subsection B, which provided that custody may reside in another state agency if the vehicle is not based in Santa Fe; in Paragraph (2), changed "state highway and transportation department" to "department of transportation" and added "energy, minerals and natural resources department or department of game and fish passenger vehicle"; deleted former Paragraph (6) of Subsection B, which provided that custody may reside in another state agency if the agency requires the use of a vehicle on a regular basis as defined by regulation of the division; in Subsection C, added "State of New Mexico Department of _____" as a state vehicle designation, added the qualification that the department designated by the marking be the department using the vehicle, and deleted the provision that if a department has more than one vehicle assigned for its use, each vehicle shall be conspicuously numbered in consecutive order and that the division include the words "State Motor Pool" and consecutive number of the vehicle on the designation for its vehicles; and added Subsection F.

An authorized driver of a state vehicle must be using the vehicle in furtherance of official state business. — Where the New Mexico corrections department (department) treated state employees who were members of a union differently than a state employee who was not by allowing the non-union employee to use a state vehicle to attend the same department-called policy review meeting for which the union employees' request to use a state vehicle had been denied, the district court did not err in affirming the public employee labor relations board's decision that the union employees were acting in furtherance of official state business by attending the policy review meeting and that the department committed a prohibited practice in violation of 10-7E-19(A) NMSA 1978 by prohibiting the union members from using a state vehicle, because the policy review meetings are a required step in the process of implementing operational changes at the department's facilities, and because the department cannot implement its proposed changes without first conferring with employee officials. *N.M.
