"31-9-1.2. DETERMINATION OF COMPETENCY--COMMITMENT--REPORT.--

A. If, after a competency hearing, a court determines that a defendant is not competent to stand trial, the court shall determine if the defendant is dangerous. (1) advise the district attorney to consider the initiation of involuntary civil commitment proceedings in accordance with the Mental Health and Developmental Disabilities Code and may detain the defendant for a maximum of seven days to facilitate initiation of those proceedings; or

(2) advise the district attorney to consider initiation of proceedings in accordance with the Assisted Outpatient Treatment Act but may not detain the defendant for that purpose.

C. A community-based competency restoration program is a court-approved program that is designed to restore a defendant to competency and provided in an outpatient setting in the community where the defendant resides. A court may order a defendant to participate in a community-based competency restoration program for no longer than ninety days, and:

(1) within thirty days of the date that the defendant was ordered to participate in a community-based competency restoration program, the person supervising the defendant's competency restoration program shall submit a progress report to the court and both parties that includes:

E. The department of health shall admit a defendant for competency restoration within fifteen days of receipt of the court's order of commitment of an incompetent defendant and of the necessary and available documents reasonably required for admission pursuant to written policies adopted by the secretary of health or the secretary's designee. If the secretary of health or the secretary's designee determines that the department of health does not have the ability to meet the needs of the defendant, the secretary or the secretary's designee may refuse admission by providing written certification to the committing court and the parties of the department's inability to meet the needs of the defendant. The certification shall be made within seven days of the receipt of the court's order of commitment and necessary and available documents reasonably required for admission pursuant to written policies adopted by the secretary or the secretary's designee. Within ten days of filing of the certification, the court shall conduct a hearing for further disposition of the criminal case.

E. If the district court finds that the defendant remains not competent, that the defendant is not making progress toward being restored to competency and that there is not a substantial probability that the defendant will be restored to competency within nine months from the date the court determined the defendant is not competent to stand trial, the court shall proceed pursuant to Section 31-9-1.4 NMSA 1978. However, if the defendant is in need of continued care and treatment and the department of health agrees to continue to provide it, the district court may order continued care or treatment of the defendant by the department until the conclusion of the criminal proceedings."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 10 Section 1 Laws 2025

SECTION 1. Section 7-37-5 NMSA 1978 (being Laws 1973, Chapter 258, Section 38, as amended) is amended to read:

"7-37-5. VETERAN EXEMPTION.--

A. An amount as provided in Subsection B of this section of the taxable value of property, including the community or joint property of married individuals, subject to the tax is exempt from the imposition of the tax if the property is owned by a veteran or

the veteran's unmarried surviving spouse if the veteran or surviving spouse is a New Mexico resident or if the property is held in a grantor trust established under Sections 671 through 677 of the Internal Revenue Code of 1986, as those sections may be amended or renumbered, by a veteran or the veteran's unmarried surviving spouse if the veteran or surviving spouse is a New Mexico resident. The exemption shall be deducted from the taxable value of the property to determine the net taxable value of the property.

B. The exemption allowed shall be in the following amounts for the specified tax years:

(1) for tax years 2006 through 2024, four thousand dollars (\$4,000);

(2) for tax year 2025, ten thousand dollars (\$10,000); and

(3) for tax year 2026 and subsequent tax years, the amount provided in Paragraph (2) of this subsection, adjusted for inflation pursuant to Subsection C of this section.

C. For tax year 2026 and subsequent tax years, the amount of exemption shall be adjusted to account for inflation. The department shall make the adjustment by multiplying ten thousand dollars (\$10,000) by a fraction, the numerator of which is the consumer price index ending during the prior tax year and the denominator of which is the consumer price index ending in tax year 2025. The result of the multiplication shall be rounded down to the nearest one hundred dollars (\$100), except that if the result would be an amount less than the corresponding amount for the preceding tax year, then no adjustment shall be made.

D. The department shall publish annually the amount determined by the calculation made pursuant to Subsection C of this section and provide the calculated amount to each county assessor no later than December 1 of the prior tax year.

E. The veteran exemption shall be applied only if claimed and allowed in accordance with Section 7-38-17 NMSA 1978 and regulations of the department.

F. As used in this section, "veteran" means an individual who:

(1) has been honorably discharged from membership in the armed forces of the United States; and

(2) except as provided in this section, served in the armed forces of the United States on active duty continuously for ninety days.

G. For the purposes of Subsection F of this section, a person who would otherwise be entitled to status as a veteran except for failure to have served in the armed forces continuously for ninety days is considered to have met that qualification if

the person served for less than ninety days and the reason for not having served for ninety days was a discharge brought about by service-connected disablement.

H. For the purposes of Subsection F of this section, a person has been "honorably discharged" unless the person received either a dishonorable discharge or a discharge for misconduct.

I. For the purposes of this section, a person whose civilian service has been recognized as service in the armed forces of the United States under federal law and who has been issued a discharge certificate by a branch of the armed forces of the United States shall be considered to have served in the armed forces of the United States."

Chapter 10 Section 2 Laws 2025

SECTION 2. Section 7-37-5.1 NMSA 1978 (being Laws 2000, Chapter 92, Section 1 and Laws 2000, Chapter 94, Section 1, as amended) is amended to read:

(b) has been determined pursuant to federal law to have a permanent service-connected disability; and

(2) "honorably discharged" means discharged from the armed forces pursuant to a discharge other than a dishonorable or bad conduct discharge.

B. The property of a disabled veteran, including joint or community property of the veteran and the veteran's spouse, is exempt from property taxation in an amount equal to the percentage of the veteran's disability as determined by federal law multiplied by the value of the property after the amount that may be exempted pursuant to Section 7-37-5 NMSA 1978 is deducted; provided that the property is occupied by the disabled veteran as the veteran's principal place of residence. Property held in a grantor trust established under Sections 671 through 677 of the Internal Revenue Code of 1986, as those sections may be amended or renumbered, by a disabled veteran or the veteran's surviving spouse is also exempt from property taxation if the property otherwise meets the requirements for exemption in this subsection or Subsection C of this section.

C. The property of the surviving spouse of a disabled veteran is exempt from property taxation if:

(1) the surviving spouse and the disabled veteran were married at the time of the disabled veteran's death; and

(2) the surviving spouse continues to occupy the property continuously after the disabled veteran's death as the spouse's principal place of residence.

D. Upon the transfer of the principal place of residence of a disabled veteran or of a surviving spouse of a disabled veteran entitled to and granted a disabled veteran exemption, the disabled veteran or the surviving spouse may choose to:

(1) maintain the exemption for that residence for the remainder of the year, even if the residence is transferred during the year; or

(2) remove the exemption for that residence and apply it to the disabled veteran's or the disabled veteran's surviving spouse's new principal place of residence, regardless of whether the exemption was applied for and claimed within thirty days of the mailing of the county assessor's notice of valuation made pursuant to the provisions of Section 7-38-20 NMSA 1978.

E. The exemption provided by this section may be referred to as the "disabled veteran exemption".

F. The disabled veteran exemption shall be applied only if claimed and allowed in accordance with Section 7-38-17 NMSA 1978 and the rules of the department. The disabled veteran exemption shall be claimed in proportion to the taxpayer's ownership interest in the property.

G. The veterans' services department shall assist the department and the county assessors in determining which veterans qualify for the disabled veteran exemption."

Chapter 10 Section 3 Laws 2025

SECTION 3. Section 7-38-17 NMSA 1978 (being Laws 1973, Chapter 258, Section 57, as amended) is amended to read:

"7-38-17. CLAIMING EXEMPTIONS--REQUIREMENTS--PENALTIES.--

A. Subject to the requirements of Subsection E of this section, head-of-family exemptions, veteran exemptions, disabled veteran exemptions or veterans' organization exemptions claimed and allowed in a tax year need not be claimed for subsequent tax years if there is no change in eligibility for the exemption nor any change in ownership of the property against which the exemption was claimed. Head-of-family, veteran and

veterans' organization exemptions allowable under this subsection shall be applied automatically by county assessors in the subsequent tax years.

B. Other exemptions of real property specified under Section 7-36-7 NMSA 1978 for nongovernmental entities shall be claimed in order to be allowed. Once such exemptions are claimed and allowed for a tax year, they need not be claimed for subsequent tax years if there is no change in eligibility. Exemptions allowable under this subsection shall be applied automatically by county assessors in subsequent tax years.

C. Except as set forth in Subsection H of this section, an exemption required to be claimed under this section shall be applied for no later than thirty days after the mailing of the county assessor's notices of valuation pursuant to Section 7-38-20 NMSA 1978 in order for it to be allowed for that tax year.

D. A person who has had an exemption applied to a tax year and subsequently becomes ineligible for the exemption because of a change in the person's status or a change in the ownership of the property against which the exemption was applied shall notify the county assessor of the loss of eligibility for the exemption by the last day of February of the tax year immediately following the year in which loss of eligibility occurs.

E. Exemptions may be claimed by filing proof of eligibility for the exemption with the county assessor. The proof shall be in a form prescribed by regulation of the department. Procedures for determining eligibility of claimants for any exemption shall be prescribed by regulation of the department, and these regulations shall include provisions for requiring the veterans' services department to issue certificates of eligibility for veteran and veterans' organization exemptions in a form and with the information required by the department. The regulations shall also include verification procedures to assure that veteran exemptions in excess of the amount authorized under Section 7-37-5 NMSA 1978 are not allowed as a result of multiple claiming in more than one county or claiming against more than one property in a single tax year.

F. The department shall consult and cooperate with the veterans' services department in the development, adoption and promulgation of regulations under Subsection E of this section. The veterans' services department shall comply with the promulgated regulations. The veterans' services department shall collect a fee of five dollars (\$5.00) for the issuance of a duplicate certificate of eligibility to a veteran or to a veterans' organization.

G. A person who violates the provisions of this section by intentionally claiming and receiving the benefit of an exemption to which the person is not entitled or who fails to comply with the provisions of Subsection D of this section is guilty of a misdemeanor and shall be punished by a fine of not more than one thousand dollars (\$1,000). A county assessor or the assessor's employee who knowingly permits a claimant for an exemption to receive the benefit of an exemption to which the claimant is not entitled is guilty of a misdemeanor and shall be punished by a fine of not more

than one thousand dollars (\$1,000) and shall also be automatically removed from office or dismissed from employment upon conviction under this subsection.

H. When a disabled veteran or the disabled veteran's unmarried surviving spouse provides proof of eligibility pursuant to Subsection E of this section, the disabled veteran or the disabled veteran's unmarried surviving spouse shall be allowed the exemption for the tax year; provided that the exemption shall not be allowed for property tax due for previous tax years."

D. If a petitioner for confirmatory adoption conceived the child through assisted reproduction using a donor, the court shall not require notice of the confirmatory adoption to that donor or the consent of that donor to the confirmatory adoption.

E. Unless otherwise ordered by the court for good cause shown and supported by written findings of the court demonstrating good cause, for the purposes of evaluating and granting a petition for confirmatory adoption pursuant to this section, the court shall not require:

- (1) placement;
- (2) a pre-placement study or post-placement report, including home visits, interviews, medical exams or certificates, employment or financial resource verification, letters of reference or examination of a petitioner's capacity or readiness;

A. The intended parent or parents shall consent to the assisted reproduction in a record signed before, on or after the day of birth of the child or in an oral agreement entered into before conception by each intended parent.

B. The absence of evidence required pursuant to Subsection A of this section does not preclude a finding of parentage if the person resided with the child after birth and openly held out the child as the person's own jointly with the birthing parent.

C. All papers relating to the assisted reproduction, whether part of a court, medical or any other file, are subject to inspection only upon an order of the district court or with the consent, in a signed record of:

AN ACT

RELATING TO PUBLIC SCHOOL CAPITAL OUTLAY; EXTENDING THROUGH FISCAL YEAR 2027 THE PROVISION THAT REDUCES LOCAL SHARES BY ONE-THIRD FOR SOME SCHOOL DISTRICTS AND ONE-HALF FOR CERTAIN SMALL SCHOOL DISTRICTS; ELIMINATING SOME OF THE CRITERIA THE PUBLIC SCHOOL CAPITAL OUTLAY COUNCIL IS REQUIRED TO CONSIDER BEFORE MAKING AN ADJUSTMENT TO A SCHOOL DISTRICT'S LOCAL SHARE; MAKING CONFORMING AMENDMENTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 16 Section 1 Laws 2025

SECTION 1. Section 22-24-5 NMSA 1978 (being Laws 1975, Chapter 235, Section 5, as amended) is amended to read:

"22-24-5. PUBLIC SCHOOL CAPITAL OUTLAY PROJECTS--APPLICATION--GRANT ASSISTANCE.--

A. Applications for grant assistance, approval of applications, prioritization of projects and grant awards shall be conducted pursuant to the provisions of this section.

B. Except as provided in Sections 22-24-4.3, 22-24-5.4 and 22-24-5.6 NMSA 1978, the following provisions govern grant assistance from the fund for a public school capital outlay project not wholly funded pursuant to Section 22-24-4.1 NMSA 1978:

(1) all school districts are eligible to apply for funding from the fund, regardless of percentage of indebtedness;

(2) priorities for funding shall be determined by using the statewide adequacy standards developed pursuant to Subsection C of this section; provided that:

(a) the council shall apply the standards to charter schools to the same extent that they are applied to other public schools;

(b) the council may award grants annually to school districts for the purpose of repairing, renovating or replacing public school building systems in existing buildings as identified in Section 22-24-4.6 NMSA 1978;

(c) the council shall adopt and apply adequacy standards appropriate to the unique needs of the constitutional special schools; and

(d) in an emergency in which the health or safety of students or school personnel is at immediate risk or in which there is a threat of significant property damage, the council may award grant assistance for a project using criteria other than the statewide adequacy standards;

(3) the council shall establish criteria to be used in public school capital outlay projects that receive grant assistance pursuant to the Public School Capital Outlay Act. In establishing the criteria, the council shall consider:

(a) the feasibility of using design, build and finance arrangements for public school capital outlay projects;

(b) the potential use of more durable construction materials that may reduce long-term operating costs;

(c) concepts that promote efficient but flexible utilization of space; and

(d) any other financing or construction concept that may maximize the dollar effect of the state grant assistance;

(4) no more than ten percent of the combined total of grants in a funding cycle shall be used for retrofitting existing facilities for technology infrastructure;

(5) no later than May 1 of each calendar year, the phase two formula value shall be calculated for each school district in accordance with the following procedure:

(a) the sum of the final prior five years net taxable value for a school district multiplied by nine ten-thousandths for that school district is calculated for each school district;

(b) the maximum allowable gross square foot per student multiplied by the replacement cost per square foot divided by forty-five is calculated for each school district;

(c) the value calculated pursuant to Subparagraph (a) of this paragraph divided by the value calculated pursuant to Subparagraph (b) of this paragraph is calculated for each school district;

(d) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value equal to or greater than one, the phase two formula value shall be zero for the subject school district;

(e) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value of ninety-hundredths or more but less than one, the phase two formula value shall be one minus the value calculated in Subparagraph (c) of this paragraph; and

(f) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value less than ninety-hundredths, the phase two formula value shall be one minus the value calculated in Subparagraph (c) of this paragraph plus the school district population density factor;

(6) the state share of a project approved by the council shall be funded within available resources pursuant to the provisions of this paragraph. Except as provided in Section 22-24-5.7 NMSA 1978 and except as adjusted pursuant to Paragraph (8), (9) or (10) of this subsection, the amount to be distributed from the fund for an approved project shall equal the total project cost multiplied by the following percentage, except that in no case shall the state share be less than six percent:

(a) for fiscal year 2024 through fiscal year 2027, the percentage shall be the phase two formula value plus a percentage equal to one-third of the difference between one and the phase two formula value; provided that, for school districts with fewer than 200 MEM, the percentage shall be the phase two formula value plus a percentage equal to one-half of the difference between one and the phase two formula; and

(b) for fiscal year 2028 and thereafter, the percentage shall be the phase two formula value;

(7) as used in this subsection:

(a) "governmental entity" includes an Indian nation, tribe or pueblo;

(b) "phase two formula value" for a state-chartered charter school means the phase two formula value calculated pursuant to Paragraph (5) of this subsection for the school district in which the state-chartered charter school is physically located;

(c) "subject school district" means the school district that has submitted the application for funding and in which the approved public school capital outlay project will be located; and

(d) "total project cost" means the total amount necessary to complete the public school capital outlay project less any insurance reimbursement received by the school district for the project;

(8) the amount calculated pursuant to Paragraph (6) of this subsection may be increased by an additional five percent if the council finds that the subject school district has been exemplary in implementing and maintaining a preventive maintenance program. The council shall adopt such rules as are necessary to implement the provisions of this paragraph;

(9) the council may adjust the amount of a school district's local share otherwise required if it determines that the school district has made a good-faith effort to use all of its local resources. Before making any adjustment to the local share, the council shall consider whether:

(a) the school district has insufficient bonding capacity over the next four years to provide the local match necessary to complete the project and, for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; or

(b) the school district has fewer than an average of one thousand five hundred full-time-equivalent students on the second and third reporting dates of the prior school year and, for all educational purposes, has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(10) the local match for the constitutional special schools shall be set at fifty percent for projects that qualify under the educational adequacy category and one hundred percent for projects that qualify in the support spaces category; provided that the council may adjust or waive the amount of any direct appropriation offset to or local share required for the constitutional special schools if an applicant constitutional special school has insufficient or no local resources available; and

(11) no application for grant assistance from the fund shall be approved unless the council determines that:

(a) the public school capital outlay project is needed and included in the school district's five-year facilities plan among its top priorities;

(b) the school district has used its capital resources in a prudent manner;

(c) the school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978;

(d) the school district has submitted a five-year facilities plan that includes: 1) enrollment projections; 2) a current preventive maintenance plan that has been approved by the council pursuant to Section 22-24-5.3 NMSA 1978 and that is followed by each public school in the district; 3) the capital needs of charter schools located in the school district; and 4) projections for the facilities needed in order to maintain a full-day kindergarten program;

(e) the school district is willing and able to pay any portion of the total cost of the public school capital outlay project that, according to Paragraph (6), (8) or (9) of this subsection, is not funded with grant assistance from the fund;

(f) the application includes the capital needs of any charter school located in the school district or the school district has shown that the facilities of the charter school have a smaller deviation from the statewide adequacy standards than other district facilities included in the application; and

(g) the school district has agreed, in writing, to comply with any reporting requirements or conditions imposed by the council pursuant to Section 22-24-5.1 NMSA 1978.

C. After consulting with the public school capital outlay oversight task force and other experts, the council shall regularly review and update statewide adequacy standards applicable to all school districts. The standards shall establish the acceptable level for the physical condition and capacity of buildings, the educational suitability of facilities, the need for career-technical education facilities or classrooms and the need for education technology infrastructure. Except as otherwise provided in the Public School Capital Outlay Act, the amount of outstanding deviation from the standards shall be used by the council in evaluating and prioritizing public school capital outlay projects.

D. The acquisition of a facility by a school district or charter school pursuant to a financing agreement that provides for lease payments with an option to purchase for a price that is reduced according to lease payments made may be considered a public school capital outlay project and eligible for grant assistance under this section pursuant to the following criteria:

(1) no grant shall be awarded unless the council determines that, at the time of exercising the option to purchase the facility by the school district or charter school, the facility will equal or exceed the statewide adequacy standards and the building standards for public school facilities;

(2) no grant shall be awarded unless the school district and the need for the facility meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act;

(3) the total project cost shall equal the total payments that would be due under the agreement if the school district or charter school would eventually acquire title to the facility;

(4) the portion of the total project cost to be paid from the fund may be awarded as one grant, but disbursements from the fund shall be made from time to time as lease payments become due;

(5) the portion of the total project cost to be paid by the school district or charter school may be paid from time to time as lease payments become due; and

(6) neither a grant award nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facility.

E. In order to encourage private capital investment in the construction of public school facilities, the purchase of a privately owned school facility that is, at the time of application, in use by a school district may be considered a public school capital outlay project and eligible for grant assistance pursuant to this section if the council finds that:

(1) at the time of the initial use by the school district, the facility to be purchased equaled or exceeded the statewide adequacy standards and the building standards for public school facilities;

(2) at the time of application, attendance at the facility to be purchased is at seventy-five percent or greater of design capacity and the attendance at other schools in the school district that the students at the facility would otherwise attend is at eighty-five percent or greater of design capacity; and

(3) the school district and the capital outlay project meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act; provided that, when determining the deviation from the statewide adequacy standards for the purposes of evaluating and prioritizing the project, the students using the facility shall be deemed to be attending other schools in the school district.

F. It is the intent of the legislature that grant assistance made pursuant to this section allows every school district to meet the standards developed pursuant to Subsection C of this section; provided, however, that nothing in the Public School Capital Outlay Act or the development of standards pursuant to that act prohibits a school district from using other funds available to the district to exceed the statewide adequacy standards.

G. Upon request, the council shall work with, and provide assistance and information to, the public school capital outlay oversight task force.

H. The council may establish committees or task forces, not necessarily consisting of council members, and may use the committees or task forces, as well as existing agencies or organizations, to conduct studies, conduct surveys, submit recommendations or otherwise contribute expertise from the public schools, programs, interest groups and segments of society most concerned with a particular aspect of the council's work.

I. Upon the recommendation of the authority, the council shall develop building standards for public school facilities and shall promulgate other such rules as are necessary to carry out the provisions of the Public School Capital Outlay Act.

J. No later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year. The report shall describe in detail all projects funded, the progress of projects previously funded but not completed, the criteria used to prioritize and fund projects and all other council actions. The report shall be submitted to the public education commission, the governor, the legislative finance committee, the legislative education study committee and the legislature.

K. For any school district that received a standards- or systems-based award from the council in fiscal year 2023, the state share for any future phase of the project for which funding has not yet been awarded shall be the amount calculated pursuant to Subsection B of this section for fiscal year 2024, regardless of the state share at the time of the initial award.

L. As used in this section:

(1) "MEM" means membership; and

(2) "membership" means the total enrollment of qualified students on the current roll of a class or school on a specified day. The current roll is established by the addition of original entries and reentries minus withdrawals. Withdrawals of students, in addition to students formally withdrawn from the public school, include students absent from the public school for as many as ten consecutive school days; provided that withdrawals do not include students in need of early intervention and habitual truants the school district is required to intervene with and keep in an educational setting."

A. It is unlawful for any person to receive or agree to receive any fees or payment directly or indirectly in connection with any claim for compensation under the Workers' Compensation Act except as provided in this section.

B. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the Workers' Compensation Act, the director or workers' compensation judge, unless the claimant is represented by an attorney, may in the director's or judge's discretion appoint an attorney to aid the workers' compensation judge in determining whether the settlement should be approved and, in the event of an appointment, a reasonable fee for the services of the attorney shall be fixed by the workers' compensation judge, subject to the limitation of Subsection I of this section.

C. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the Workers' Compensation Act and the claimant is represented by an attorney, the total amount paid or to be paid by the employer in settlement of the claim shall be stated in the settlement papers. The workers' compensation judge shall determine and fix a reasonable fee for the claimant's attorney, taking into account any sum previously paid, and the fee fixed by the workers' compensation judge shall be the limit of the fee received or to be received by the attorney in connection with the claim, subject to the limitation of Subsection I of this section.

D. The cost of discovery shall be borne by the party who requests it. If, however, the claimant requests any discovery, the employer shall advance the cost of paying for discovery up to a limit of three thousand five hundred dollars (\$3,500). Beginning January 1, 2027, the limit shall be four thousand dollars (\$4,000), and beginning January 1, 2029, the limit shall increase to four thousand five hundred dollars (\$4,500). If the claimant substantially prevails on the claim, as determined by a workers' compensation judge, any discovery cost advanced by the employer shall be paid by that employer. If the claimant does not substantially prevail on the claim, as determined by a workers' compensation judge, the employer shall be reimbursed for discovery costs advanced according to a schedule for reimbursement approved by a workers' compensation judge.

E. In all cases where compensation to which any person is entitled under the provisions of the Workers' Compensation Act is refused and the claimant thereafter collects compensation through proceedings before the workers' compensation administration or courts in an amount in excess of the amount offered in writing by an employer five business days or more prior to the informal hearing before the administration, the compensation to be paid the attorney for the claimant shall be fixed by the workers' compensation judge hearing the claim or the courts upon appeal in the

amount the workers' compensation judge or courts deem reasonable and proper, subject to the limitation of Subsection I of this section. In determining and fixing a reasonable fee, the workers' compensation judge or courts shall take into consideration:

- (1) the sum, if any, offered by the employer:
 - (a) before the worker's attorney was employed;
 - (b) after the attorney's employment but before proceedings were commenced; and
 - (c) in writing five business days or more prior to the informal hearing;
- (2) the present value of the award made in the worker's favor; and
- (3) any failure of a party to participate in a good-faith manner in informal claim resolution methods adopted by the director.

F. After a recommended resolution has been issued and rejected, but more than ten days before a trial begins, the employer or claimant may serve upon the opposing party an offer to allow a compensation order to be taken against the employer or claimant for the money or property or to the effect specified in the offer, with costs then accrued, subject to the following:

- (1) if, within ten days after the service of the offer, the opposing party serves written notice that the offer is accepted, either party may then file the offer and notice of acceptance together with proof of service thereof, and thereupon that compensation order may be entered as the workers' compensation judge may direct. An offer not accepted shall be deemed withdrawn, and evidence thereof is not admissible except in a proceeding to determine costs. If the compensation order finally obtained by the party is not more favorable than the offer, that party shall pay the costs incurred by the opposing party after the making of the offer. The fact that an offer has been made but not accepted does not preclude a subsequent offer;
- (2) when the liability of one party to another has been determined by a compensation order, but the amount or extent of the liability remains to be determined by further proceedings, the party adjudged liable may make an offer, which shall have the same effect as an offer made before trial if it is served within a reasonable time not less than ten days prior to the commencement of hearings to determine the amount or extent of liability;
- (3) if the employer's offer was greater than the amount awarded by the compensation order, the employer shall not be liable for the employer's fifty percent share of the attorney fees to be paid the worker's attorney and the worker shall pay one hundred percent of the attorney fees due to the worker's attorney; and

(4) if the worker's offer was less than the amount awarded by the compensation order, the employer shall pay one hundred percent of the attorney fees to be paid the worker's attorney, and the worker shall be relieved from any responsibility for paying any portion of the worker's attorney fees.

G. In all actions arising under the provisions of Section 52-1-56 NMSA 1978 where the jurisdiction of the workers' compensation administration is invoked to determine the question whether the claimant's disability has increased or diminished and the claimant is represented by an attorney, the workers' compensation judge or courts upon appeal shall determine and fix a reasonable fee for the services of the claimant's attorney only if the claimant is successful in establishing that the claimant's disability has increased or if the employer is unsuccessful in establishing that the claimant's disability has diminished. The fee when fixed by the workers' compensation judge or courts upon appeal shall be the limit of the fee received or to be received by the attorney for services in the action, subject to the limitation of Subsection I of this section.

H. In determining reasonable attorney fees for a claimant, the workers' compensation judge shall consider only those benefits to the worker that the attorney is responsible for securing. The value of future medical benefits shall not be considered in determining attorney fees.

I. Attorney fees, including, but not limited to, the costs of paralegal services, legal clerk services and any other related legal services costs on behalf of a claimant or an employer for a single accidental injury claim, including representation before the workers' compensation administration and the courts on appeal, shall not exceed thirty thousand dollars (\$30,000) in calendar year 2025. Beginning January 1, 2027, the maximum allowable attorney fees shall be thirty-two thousand dollars (\$32,000), and beginning January 1, 2029, the maximum allowable attorney fees shall increase to thirty-four thousand dollars (\$34,000). This limitation applies whether the claimant or employer has one or more attorneys representing the claimant or employer and applies as a cumulative limitation on compensation for all legal services rendered in all proceedings and other matters directly related to a single accidental injury to a claimant. The workers' compensation judge may exceed the maximum amount stated in this subsection in awarding a reasonable attorney fee if the judge finds that a claimant, an insurer or an employer acted in bad faith with regard to handling the injured worker's claim and the injured worker or employer has suffered economic loss as a result. However, in no case shall this additional amount exceed five thousand dollars (\$5,000). As used in this subsection, "bad faith" means conduct by the claimant, insurer or employer in the handling of a claim that amounts to fraud, malice, oppression or willful, wanton or reckless disregard of the rights of the worker or employer. Any determination of bad faith shall be made by the workers' compensation judge through a separate fact-finding proceeding. Notwithstanding the provisions of Subsection J of this section, the party found to have acted in bad faith shall pay one hundred percent of the additional fees awarded for representation of the prevailing party in a bad faith action.

J. Except as provided in Paragraphs (3) and (4) of Subsection F of this section, the payment of a claimant's attorney fees determined under this section shall be shared equally by the worker and the employer.

K. It is unlawful for any person except a licensed attorney to receive or agree to receive any fee or payment for legal services in connection with any claim for compensation under the Workers' Compensation Act.

L. Nothing in this section applies to agents, excluding attorneys, representing employers, insurance carriers or the subsequent injury fund in any matter arising from a claim under the Workers' Compensation Act.

M. No attorney fees shall be paid until the claim has been settled or adjudged.

N. By May 1, 2029, the advisory council on workers' compensation and occupational disease disablement shall review the maximum allowable attorney fees and the limitation on discovery costs that employers are required to advance. By November 1, 2029, the advisory council on workers' compensation and occupational disease disablement shall make recommendations to the legislature on any necessary adjustments to the maximum allowable attorney fees or the limitation on discovery costs that employers are required to advance.

O. Every person violating the provisions of this section is guilty of a misdemeanor and upon conviction shall be fined not less than fifty dollars (\$50.00) or more than five hundred dollars (\$500), to which may be added imprisonment in the county jail for a term not exceeding ninety days.

P. Nothing in this section shall restrict a claimant from being represented before the workers' compensation administration by a nonattorney as long as that nonattorney receives no compensation for that representation from the claimant."

Chapter 18 Section 2 Laws 2025

SECTION 2. Section 52-3-47 NMSA 1978 (being Laws 1987, Chapter 235, Section 41, as amended) is amended to read:

"52-3-47. FEE RESTRICTIONS--APPOINTMENT OF ATTORNEYS BY THE DIRECTOR OR WORKERS' COMPENSATION JUDGE--DISCOVERY COSTS--OFFER OF JUDGMENT--PENALTY FOR VIOLATIONS.--

A. It is unlawful for any person to receive or agree to receive any fees or payment directly or indirectly in connection with any claim for compensation under the New Mexico Occupational Disease Disablement Law except as provided in this section.

B. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the

New Mexico Occupational Disease Disablement Law, the director or workers' compensation judge, unless the claimant is represented by an attorney, may in the director's or judge's discretion appoint an attorney to aid the workers' compensation judge in determining whether the settlement should be approved. In the event of such an appointment, a reasonable fee for the services of the attorney shall be fixed by the workers' compensation judge, subject to the limitation of Subsection I of this section.

C. In all cases where the jurisdiction of the workers' compensation administration is invoked to approve a settlement of a compensation claim under the New Mexico Occupational Disease Disablement Law and the claimant is represented by an attorney, the total amount paid or to be paid by the employer in settlement of the claim shall be stated in the settlement papers, and the workers' compensation judge shall determine and fix a reasonable fee for the claimant's attorney, taking into account any sum previously paid. The fee fixed by the workers' compensation judge shall be the limit of the fee received or to be received by the attorney in connection with the claim, subject to the limitation of Subsection I of this section.

D. The cost of discovery shall be borne by the party who requests it. If, however, the claimant requests any discovery, the employer shall advance the cost of paying for discovery up to a limit of three thousand five hundred dollars (\$3,500). Beginning January 1, 2027, the limit shall be four thousand dollars (\$4,000), and beginning January 1, 2029, the limit shall increase to four thousand five hundred dollars (\$4,500). If the claimant substantially prevails on the claim, as determined by a workers' compensation judge, any discovery cost advanced by the employer shall be paid by that employer. If the claimant does not substantially prevail on the claim, as determined by a workers' compensation judge, the employer shall be reimbursed for discovery costs advanced according to a schedule for reimbursement approved by a workers' compensation judge.

E. In all cases where compensation to which any person is entitled under the provisions of the New Mexico Occupational Disease Disablement Law is refused and the claimant thereafter collects compensation through proceedings before the workers' compensation administration or courts in an amount in excess of the amount offered in writing by an employer five business days or more prior to the informal hearing before the administration, the compensation to be paid the attorney for the claimant shall be fixed by the workers' compensation judge hearing the claim or the courts upon appeal in the amount the workers' compensation judge or courts deem reasonable and proper, subject to the limitation of Subsection I of this section. In determining and fixing a reasonable fee, the workers' compensation judge or courts shall take into consideration:

- (1) the sum, if any, offered by the employer:
 - (a) before the employee's attorney was employed;
 - (b) after the attorney's employment but before proceedings were commenced; and

(c) in writing five business days or more prior to the informal hearing;

(2) the present value of the award made in the employee's favor; and

(3) the failure of a party to participate in a good-faith manner in informal claim resolution methods adopted by the director.

F. After a recommended resolution has been issued and rejected, but more than ten days before a trial begins, the employer or claimant may serve upon the opposing party an offer to allow a compensation order to be taken against the employer or claimant for the money or property or to the effect specified in the offer, with costs then accrued, subject to the following:

(1) if, within ten days after the service of the offer, the opposing party serves written notice that the offer is accepted, either party may then file the offer and notice of acceptance together with proof of service thereof, and thereupon that compensation order may be entered as the workers' compensation judge may direct. An offer not accepted shall be deemed withdrawn, and evidence thereof is not admissible except in a proceeding to determine costs. If the compensation order finally obtained by the party is not more favorable than the offer, that party shall pay the costs incurred by the opposing party after the making of the offer. The fact that an offer has been made but not accepted does not preclude a subsequent offer;

(2) when the liability of one party to another has been determined by a compensation order, but the amount or extent of the liability remains to be determined by further proceedings, the party adjudged liable may make an offer, which shall have the same effect as an offer made before trial if it is served within a reasonable time not less than ten days prior to the commencement of hearings to determine the amount or extent of liability;

(3) if the employer's offer was greater than the amount awarded by the compensation order, the employer shall not be liable for the employer's fifty-percent share of the attorney fees to be paid the worker's attorney and the worker shall pay one hundred percent of the attorney fees due to the worker's attorney; and

(4) if the worker's offer was less than the amount awarded by the compensation order, the employer shall pay one hundred percent of the attorney fees to be paid the worker's attorney, and the worker shall be relieved from any responsibility for paying any portion of the worker's attorney fees.

G. In all actions arising under the provisions of Section 52-3-35 NMSA 1978, where the jurisdiction of the workers' compensation administration is invoked to determine the question of whether the claimant's disablement has terminated and the claimant is represented by an attorney, the workers' compensation judge or courts upon appeal shall determine and fix a reasonable fee for the services of the claimant's

attorney only if the employer is unsuccessful in establishing that the claimant's disablement has terminated. The fee when fixed by the workers' compensation judge or courts upon appeal shall be taxed as part of the costs against the employer and shall be the limit of the fee received or to be received by the attorney for services in the action, subject to the limitation of Subsection I of this section.

H. In determining reasonable attorney fees for a claimant, the workers' compensation judge shall consider only those benefits to the employee that the attorney is responsible for securing. The value of future medical benefits shall not be considered in determining attorney fees.

I. Attorney fees, including, but not limited to, the costs of paralegal services, legal clerk services and any other related legal services costs on behalf of a claimant or an employer for a single disablement claim, including representation before the workers' compensation administration and the courts on appeal, shall not exceed thirty thousand dollars (\$30,000) in calendar year 2025. Beginning January 1, 2027, the maximum allowable attorney fees shall be thirty-two thousand dollars (\$32,000), and beginning January 1, 2029, the maximum allowable attorney fees shall increase to thirty-four thousand dollars (\$34,000). This limitation applies whether the claimant or employer has one or more attorneys representing the claimant or employer and applies as a cumulative limitation on compensation for all legal services rendered in all proceedings and other matters directly related to a single occupational disease of a claimant. The workers' compensation judge may exceed the maximum amount stated in this subsection in awarding a reasonable attorney fee if the judge finds that a claimant, an insurer or an employer acted in bad faith with regard to handling the disabled employee's claims and the employer or disabled employee has suffered economic loss as a result thereof. However, in no case shall this additional amount exceed five thousand dollars (\$5,000). As used in this subsection, "bad faith" means conduct by the claimant, insurer or employer in the handling of a claim that amounts to fraud, malice, oppression or willful, wanton or reckless disregard of the rights of the employee or employer. Any determination of bad faith shall be made by the workers' compensation judge through a separate fact-finding proceeding. Notwithstanding the provisions of Subsection J of this section, the party found to have acted in bad faith shall pay one hundred percent of the additional fees awarded for representation of the prevailing party in a bad faith action.

J. Except as provided in Paragraphs (3) and (4) of Subsection F of this section, the payment of a claimant's attorney fees determined under this section shall be shared equally by the employee and the employer.

K. It is unlawful for any person except a licensed attorney to receive or agree to receive any fee or payment for legal services in connection with any claim for compensation under the New Mexico Occupational Disease Disablement Law.

L. Nothing in this section applies to agents, excluding attorneys, representing employers, insurance carriers or the subsequent injury fund in any matter arising from a claim under the New Mexico Occupational Disease Disablement Law.

M. No attorney fees shall be paid until the claim has been settled or adjudged.

N. By May 1, 2029, the advisory council on workers' compensation and occupational disease disablement shall review the maximum allowable attorney fees and the limitation on discovery costs that employers are required to advance. By November 1, 2029, the advisory council on workers' compensation and occupational disease disablement shall make recommendations to the legislature on any necessary adjustments to the maximum allowable attorney fees or the limitation on discovery costs that employers are required to advance.

O. Every person violating the provisions of this section is guilty of a misdemeanor and upon conviction shall be fined not less than fifty dollars (\$50.00) or more than five hundred dollars (\$500), to which may be added imprisonment in the county jail for a term not exceeding ninety days.

P. Nothing in this section shall restrict a claimant from being represented before the workers' compensation administration by a nonattorney as long as that nonattorney receives no compensation for representation from the claimant."

"4-62-1. REVENUE BONDS--AUTHORITY TO ISSUE--PLEDGE OF REVENUES--LIMITATION ON TIME OF ISSUANCE.--

A. In addition to any other law authorizing a county to issue revenue bonds, a county may issue revenue bonds pursuant to Chapter 4, Article 62 NMSA 1978 for the purposes specified in this section.

B. Gross receipts tax revenue bonds may be issued for any county purpose. A county may pledge irrevocably any or all of the revenue received by the county pursuant to Section 7-1-6.13 NMSA 1978 for payment of principal and interest due in connection with, and other expenses related to, gross receipts tax revenue bonds or for any area of county government services. If the revenue is pledged for payment of principal and interest as authorized by this subsection, the pledge shall require the revenues received to be deposited into a special bond fund for payment of the principal, interest and expenses. At the end of each fiscal year, money remaining in the special bond fund after the annual obligations for the bonds are fully met may be transferred to any other fund of the county. Revenues in excess of the annual principal and interest due on gross receipts tax revenue bonds secured by a pledge of gross receipts tax revenue may be accumulated in a debt service reserve account. The governing body of the county may appoint a commercial bank trust department to act as trustee of the proceeds of the tax and to administer the payment of principal of and interest on the bonds.

C. Gasoline tax revenue bonds may be issued for the acquisition of rights of way for and the construction, reconstruction, resurfacing, maintenance, repair or other improvement of county roads and bridges. A county may pledge irrevocably any or all of the county gasoline tax revenue for payment of principal and interest due in connection with, and other expenses related to, county gasoline tax revenue bonds.

The county may pledge irrevocably any or all of the net revenues from the operation of the revenue-producing project for which the particular project revenue bonds are issued to the payment of the interest on and principal of the project revenue bonds. The net revenues of any revenue-producing project shall not be pledged to the project revenue bonds issued for any other revenue-producing project that is clearly unrelated in nature; but nothing in this subsection prevents the pledge to any of the project revenue bonds of the revenues received from existing, future or disconnected facilities and equipment that are related to and that may constitute a part of the particular revenue-producing project. A general determination by the governing body that facilities or equipment is reasonably related to and constitutes a part of a specified revenue-producing project shall be conclusive if set forth in the proceedings authorizing the project revenue bonds.

F. Fire district revenue bonds may be issued for acquiring, extending, enlarging, bettering, repairing, improving, constructing, purchasing, furnishing, equipping and rehabilitating a fire district project, including, as applicable, purchasing, otherwise acquiring or improving the ground for the project. I. Emergency medical services bonds may be issued for the purchase of equipment for emergency medical system improvement projects or emergency medical

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 29 Section 1 Laws 2025

SECTION 1. Section 33-2-34 NMSA 1978 (being Laws 1999, Chapter 238, Section 1, as amended) is amended to read:

"33-2-34. ELIGIBILITY FOR EARNED MERITORIOUS DEDUCTIONS.--

A. To earn meritorious deductions, a prisoner confined in a correctional facility designated by the corrections department must be an active participant in programs recommended for the prisoner by the classification supervisor and approved by the warden or the warden's designee. Meritorious deductions shall not exceed the following amounts:

(1) for a prisoner confined for committing a serious violent offense, up to a maximum of four days per month of time served;

(2) for a prisoner confined for committing a nonviolent offense, up to a maximum of thirty days per month of time served;

(3) for a prisoner confined following revocation of parole for the alleged commission of a new felony offense or for absconding from parole, up to a maximum of four days per month of time served during the parole term following revocation; and

(4) for a prisoner confined following revocation of parole for a reason other than the alleged commission of a new felony offense or absconding from parole:

(a) up to a maximum of eight days per month of time served during the parole term following revocation, if the prisoner was convicted of a serious violent offense or failed to pass a drug test administered as a condition of parole; or

(b) up to a maximum of thirty days per month of time served during the parole term following revocation, if the prisoner was convicted of a nonviolent offense.

B. A prisoner may earn meritorious deductions upon recommendation by the classification supervisor, based upon the prisoner's active participation in approved programs and the quality of the prisoner's participation in those approved programs. A prisoner may not earn meritorious deductions unless the recommendation of the classification supervisor is approved by the warden or the warden's designee.

C. If a prisoner's active participation in approved programs is interrupted by a lockdown at a correctional facility, the prisoner may continue to be awarded meritorious deductions at the rate the prisoner was earning meritorious deductions prior to the lockdown, unless the warden or the warden's designee determines that the prisoner's conduct contributed to the initiation or continuance of the lockdown.

D. A prisoner confined in a correctional facility designated by the corrections department is eligible for lump-sum meritorious deductions as follows:

(1) for successfully completing an approved vocational, substance abuse or mental health program, one month; except when the prisoner has a demonstrable physical, mental health or developmental disability that prevents the prisoner from successfully earning a high school equivalency credential, in which case, the prisoner shall be awarded three months;

The classification supervisor and the warden or the warden's designee may recommend the number of days to be awarded in each case based upon the particular merits, but any award shall be determined by the director of the adult institutions division of the corrections department or the director's designee.

E. Lump-sum meritorious deductions, provided in Paragraphs (1) through (6) of Subsection D of this section, may be awarded in addition to the meritorious deductions provided in Subsections A and B of this section. H. The corrections department shall promulgate rules to implement the provisions of this section, and the rules shall be matters of public record. A concise summary of the rules shall be provided to each prisoner, and each prisoner shall receive a quarterly statement of the meritorious deductions earned.

I. A New Mexico prisoner confined in a federal or out-of-state correctional facility is eligible to earn meritorious deductions for active participation in programs on the basis of the prisoner's conduct and program reports furnished by that facility to the corrections department. All decisions regarding the award and forfeiture of meritorious deductions at such facility are subject to final approval by the director of the adult institutions division of the corrections department or the director's designee.

K. A prisoner confined in a correctional facility in New Mexico that is operated by a private company, pursuant to a contract with the corrections department, is eligible to earn meritorious deductions in the same manner as a prisoner confined in a state-run correctional facility. Providers shall submit a set of fingerprints of applicants, caregivers and hospital caregivers to the health care authority for a nationwide criminal history screening, and the department of public safety shall accept from the health care authority such fingerprints for the purpose of conducting a nationwide criminal history screening.

C. No caregiver or hospital caregiver may be employed by a care provider unless the caregiver or hospital caregiver first has submitted to a request for a nationwide criminal history screening prior to beginning employment in accordance with procedures established by rule by the health care authority and department of public safety. In determining whether a person poses an unreasonable risk as a caregiver, the health care authority shall assess the totality of the circumstances using reasonably reliable information, such as court records. The health care authority may only find that an applicant, caregiver or hospital caregiver poses an unreasonable risk if the preponderance of the evidence establishes an unreasonable risk due to the applicant, caregiver or hospital caregiver having:

- (a) two or more convictions related to abuse, neglect or exploitation within the past ten years, regardless of the degree of the crime; or

B. "division" means the oil conservation division of the energy, minerals and natural resources department;

C. "geologic sequestration" means the long- or short-term underground sequestration of carbon dioxide within a geologic stratum, formation, aquifer, cavity or void, whether naturally or artificially created, including deep saline aquifers, oil and gas reservoirs and unminable coal seams, such that injected carbon dioxide does not escape to the atmosphere;

D. "operator" means a person who has the right to inject carbon dioxide for geologic sequestration into a sequestration facility, whether for the person's own account or for the account of others;

E. "pore space" means the empty space between rock grains, fractures and voids in the earth's subsurface; "pore space" is the available space within, and contained by, geologic formations;

F. "sequestration facility" means carbon dioxide injection wells, monitoring wells and devices, science wells, but excluding stratigraphic and similar wells for assessing the nature of the subsurface, and other wells used for the injection of carbon dioxide in subsurface geologic formations, including the underground equipment, pipelines and surface equipment and buildings used for the purpose of geologic sequestration of carbon dioxide. "Sequestration facility" includes a facility that injects carbon dioxide for secure geologic sequestration pursuant to applicable federal laws, including a geologic sequestration project as may be defined in federal regulations pertaining to federal environmental protection agency class 6 underground injection control wells for carbon dioxide injection wells; and

G. "sequestration unit" means the geologic formation or formations proposed for the injection of carbon dioxide for geologic sequestration and the lands to be included within the unit. "Sequestration unit" does not include oil and gas units where carbon dioxide is injected for purposes of enhancing oil and gas production.

Chapter 48 Section 3 Laws 2025

SECTION 3. APPLICABILITY--DIVISION AUTHORITY--RULEMAKING.--

A. The Geologic Carbon Dioxide Storage Stewardship Act applies to sequestration facilities that commence injection of carbon dioxide after the effective date of that act; provided that sequestration facilities that commenced injection of carbon dioxide before the effective date of that act may apply to the division for a certificate of completion of injection operations and for the transfer of the continuing stewardship responsibilities to the state pursuant to applicable statutes and rules and after payment of a fee equivalent to the fee that the division would otherwise have collected pursuant to Section 5 of that act.

B. The division has the jurisdiction and authority necessary to enforce the provisions of the Geologic Carbon Dioxide Storage Stewardship Act and may adopt and promulgate rules and issue orders for the implementation of the provisions of that act.

C. The fees collected from operators and deposited in the geologic carbon dioxide long-term storage stewardship fund shall not relieve a facility owner or operator from responsibility for posting and maintaining financial assurance mechanisms as required by applicable statutes and rules or from any liability caused by conditions or operation of a sequestration facility prior to transfer of stewardship.

Chapter 48 Section 4 Laws 2025

SECTION 4. CERTIFICATE OF CLOSURE FOR GEOLOGIC SEQUESTRATION UNITS.--

A. An operator that has obtained a permit for geologic carbon dioxide sequestration may ask for a certificate of closure for that site; provided that the operator can demonstrate that the storage has demonstrated long-term security, monitoring of the site has not shown significant risk of future leakage and the conditions as provided in Subsection E of Section 6 of the Geologic Carbon Dioxide Storage Stewardship Act are satisfied.

B. The lands to be included on the certificate of closure shall be the reasonably ascertained areal extent of migration of the sequestered carbon dioxide within the formation or formations and shall include all necessary and reasonable areal buffer and subsurface monitoring zones as required by federal or state law, rule, regulation, order or permit.

C. The commissioner of public lands or a state agency may grant to an operator a certificate of closure for geologic sequestration on lands subject to the agency's jurisdiction on such terms as the agency finds are reasonable.

D. The division may grant to an operator a certificate of closure not less than five years after completion of injection activities and satisfaction of the requirements of the Geologic Carbon Dioxide Storage Stewardship Act, allowing for the transfer of stewardship to the state.

Chapter 48 Section 5 Laws 2025

SECTION 5. GEOLOGIC CARBON DIOXIDE LONG-TERM STORAGE STEWARDSHIP FUND CREATED.--

A. The "geologic carbon dioxide long-term storage stewardship fund" is created as a nonreverting fund in the state treasury. The fund consists of fees collected from operators at a rate of not less than ten cents (\$.10) per metric ton of carbon dioxide injected for storage pursuant to applicable statutes and rules, distributions, appropriations, gifts, grants and donations. The oil conservation commission shall establish by rule a fee schedule sufficient to meet the projected needs of the fund. All fees collected pursuant to this section shall be transmitted to the state treasurer for credit to the fund. All money in the fund is appropriated to the division for the sole

purpose of ensuring the long-term storage security of geologic sequestration facilities. Disbursements from the fund shall be made by warrant of the secretary of finance and administration pursuant to vouchers signed by the secretary of energy, minerals and natural resources.

B. The division shall administer the geologic carbon dioxide long-term storage stewardship fund, and money in the fund shall be used for:

- (1) long-term monitoring of geologic sequestration facilities and associated class 6 injection wells;
- (2) remediation of mechanical problems associated with geologic sequestration facilities and associated carbon dioxide class 6 injection wells;
- (3) repairing mechanical leaks at geologic sequestration facilities;
- (4) plugging abandoned carbon dioxide class 6 injection wells used for geologic sequestration;
- (5) remediation of surface facilities, access, and rights of way related to a geologic sequestration site;
- (6) training and technology transfer related to carbon dioxide injection and geologic sequestration;
- (7) compliance and enforcement activities related to geologic sequestration facility operation and associated class 6 injection wells;
- (8) oversight and management of geologic sequestration facilities and associated class 6 injection wells after site closure; and
- (9) emergency response as deemed necessary by the director of the division.

Chapter 48 Section 6 Laws 2025

SECTION 6. CERTIFICATE OF COMPLETION OF INJECTION OPERATIONS-- LIABILITY RELEASE.--

A. The division shall issue a certificate of completion of injection operations upon a showing by the operator of a sequestration facility and a division finding that the requirements of Subsection E of this section have been satisfied.

B. Upon the issuance of a certificate of completion of injection operations:

(1) all stewardship responsibilities for the sequestration facility that are covered in Subsection B of Section 5 of the Geologic Carbon Dioxide Storage Stewardship Act, including the stored carbon dioxide, shall transfer to the state;

(2) the operator, owners and all persons who generated, transported or injected carbon dioxide into the sequestration unit and all owners otherwise having an interest in the sequestration unit and sequestration facility or the injected carbon dioxide shall be released from all stewardship responsibilities associated with or related to the sequestration unit and sequestration facility;

(3) all bonds posted by or on behalf of the operator shall be released;
and

(4) the state shall succeed and be subject to the terms of all agreements, permits, rules, regulations and orders applicable to the owner or operator and its successors, and the sequestration facility and all monitoring, repair and remediation required by law shall become the state's responsibility to be overseen by the division, unless and until the federal government assumes responsibility for the long-term monitoring and management of the sequestration unit and sequestration facility.

C. The release from stewardship responsibilities provided pursuant to this section shall not apply to an owner or operator or generators or transporters of injected carbon dioxide if, after notice and hearing, the division determines that:

(1) the person provided deficient or erroneous information that was material and relied upon by the division to support approval of the sequestration facility's certification of completion;

(2) the person concealed or misrepresented facts relating to the mechanical integrity of the sequestration facility or sequestration unit or the chemical composition of the injected carbon dioxide;

(3) the operator violated a state statute or rule related to the sequestration facility that was not remedied prior to approval of site closure and any applicable statutes of limitation have not run;

(4) liability arises from the operator's conduct associated with the sequestration facility or sequestration unit that, if known, would have materially affected the division's decision in issuing the certification of completion;

(5) the division determines that there is fluid migration for which the owner or operator is responsible that causes or threatens imminent and substantial endangerment to an underground source of drinking water; or

(6) the division determines that the geologic carbon dioxide long-term storage stewardship fund is insufficient to cover costs arising from the sequestration unit or sequestration facility.

D. The division shall set the certification matter for hearing and, in addition to notice otherwise required by law or the division's rules, shall cause the operator to give notice of the hearing, specifying the time and place of the hearing and describing briefly the hearing's purpose and the land and formations affected, to be mailed by certified mail at least thirty days prior to the hearing to all persons whose names and addresses are required to be listed in the application.

E. The certificate of completion of injection operations shall be issued upon a showing by the operator and division findings that:

(1) the operator is in full compliance with all laws governing the sequestration unit and sequestration facility;

(2) the operator has resolved all claims, pending or perfected, regarding the sequestration unit and sequestration facility;

(3) the sequestration unit is reasonably expected to retain the carbon dioxide stored in it;

(4) the carbon dioxide in the sequestration unit is stable and does not show a significant risk of future movement and leakage;

(5) all wells, monitoring devices, equipment and facilities to be used following the cessation of injection are in good condition and retain mechanical integrity; and

(6) the operator has plugged all wells and removed all equipment and facilities, unless the equipment and facilities are needed for use following the cessation of injection, and has completed all reclamation work required by law.

Chapter 48 Section 7 Laws 2025

SECTION 7. OWNERSHIP OF PORE SPACE WITHIN THE EARTH.--

A. Absent specific language in a severing instrument to the contrary, the surface estate includes the pore space, and the ownership of all pore space in all strata below the surface lands and waters of this state is declared to be vested in the several owners of the surface above the strata or formations.

B. To the extent the dominant mineral estate is reasonably utilizing the surface estate for the production of minerals located thereon and therein, the formations so used shall not be interfered with.

C. A conveyance of the surface ownership of real property shall be a conveyance of the pore space in all formations and strata below the surface of the real property unless the ownership interest in the pore space was previously severed from the surface ownership or is explicitly excluded in the conveyance.

D. The ownership of pore space in any formations or strata may be conveyed in the manner provided by law for the transfer of interests in real property. No agreement conveying minerals or other interests underlying the surface shall act to convey ownership of any pore space in the formation or stratum unless the agreement explicitly conveys that ownership interest.

E. No provision of law, including a lawfully adopted rule or regulation, requiring notice to be given to a surface owner, to an owner of a mineral interest or to both shall be construed to require notice to persons holding ownership interests in any pore space in the underlying formations or strata unless the law specifies that notice to the persons is required.

Chapter 54 Section 2 Laws 2025

SECTION 2. Section 1-6-4 NMSA 1978 (being Laws 1969, Chapter 240, Section 130, as amended) is amended to read:

"1-6-4. MAILED BALLOT APPLICATION.--

In a statewide election, application by a voter for a mailed ballot shall be made only on the official form approved by the secretary of state or its online equivalent accessed through a website authorized by the secretary of state. The form shall identify the applicant and contain information to establish the applicant's qualification for issuance of a mailed ballot under the Absent Voter Act. A voter who has declined to designate on the voter's certificate of registration a party affiliation shall be provided the option on the application form for a mailed ballot in a primary election to request the ballot of one of the parties participating in the primary election.

B. Each application on a paper form for a mailed ballot shall be signed by the applicant and shall require the applicant's printed name, registration address and year of birth. When submitted by a third party, the county clerk shall not accept an application for a mailed ballot pursuant to this subsection if the application for a mailed ballot is delivered by electronic means.

C. The secretary of state shall allow a voter to submit an online application for a mailed ballot through a website authorized by the secretary of state; provided that the voter shall have a current or expired New Mexico driver's license or state identification card issued by the motor vehicle division of the taxation and revenue department. G. A person who willfully and with knowledge and intent to deceive or mislead any voter, election board, canvassing board, county clerk or other election official and who falsifies any information on an absentee ballot request form or who affixes a signature or mark other than the person's own on a mailed ballot request form is guilty of a fourth degree felony."

B. If a precinct is designated a mail ballot election precinct, in addition to the notice required pursuant to Section 1-3-8 NMSA 1978, the county clerk shall notify by mail with delivery confirmation all voters in that precinct at least forty-two days before an election that each voter will be sent an absentee ballot twenty-eight days before the election and that there will be no polling place for the precinct on election day. The county clerk shall include in the notice a card informing the voter that if the voter does not want to receive an absentee ballot for that election, the voter should return the card before the date the county clerk is scheduled to mail out absentee ballots. The notice shall also inform the voter that a voting system equipped for persons with disabilities will be available at all early voting locations before election day and in the office of the county clerk on election day in case the voter prefers to vote in person and not by mail. In addition, the notice shall inform the voter of the ability of the voter to cast a ballot at any voter convenience center on election day if the voter chooses not to receive an absentee ballot, or to cast a replacement ballot at any early voting location or voter convenience center if the voter does not receive an absentee ballot, which will be counted upon confirmation that the voter has not returned the absentee ballot. D. The county clerk shall mail each voter in the mail ballot election precinct an absentee ballot on the twenty-eighth day before an election, unless the voter has requested otherwise or does not return the card required by Subsection C of this section indicating which party ballot the voter chooses for that election, along with a notice that there will be no polling place in that precinct on election day."

The posted copy shall not contain a listing of voter addresses, years, months or days of birth or social security numbers.

B. At each polling location where physical rosters are used, the presiding judge of the precinct board shall assign one judge or election clerk of the board to be in

charge of one copy of the checklist of voters, which shall be used to confirm the registration and voting of each person offering to vote.

C. The presiding judge of the precinct board shall assign one judge or election clerk to be in charge of the signature roster.

D. The judge or election clerk assigned to confirm registration shall determine that each person offering to vote is registered and, in the case of a primary election, that the voter is either currently registered in a party designated on the primary election ballot or has declined to designate a party affiliation on the voter's certificate of registration and chooses to affiliate with a major political party for that primary election by requesting a ballot of a party designated on the primary election ballot. If the person's registration is confirmed and the voter provides the required voter identification, the judge or election clerk shall announce to the judges or election clerks the list number and the name of the voter as shown on the checklist of voters. If the voter does not provide the required voter identification, the voter shall be allowed to vote on a provisional paper ballot and shall provide the required voter identification to the county clerk's office before 5:00 p.m. on the second day following the election, or to the precinct board before the polls close, or the voter's provisional ballot shall not be qualified. If the required voter identification is provided, the voter's provisional paper ballot shall be qualified and the voter shall not vote on any other type of ballot.

E. The judge or election clerk shall locate the name on the signature roster and shall require the voter to sign the voter's usual signature or, if unable to write, to make the voter's mark opposite the voter's printed name. If the voter makes the voter's mark, it shall be witnessed by one of the judges or election clerks of the precinct board.

F. If the signature roster indicates that the voter is required to present a physical form of identification before voting, the judge or election clerk shall ask the voter for the required physical form of identification. If the voter does not provide the required identification, the voter shall be allowed to vote on a provisional paper ballot; provided, however, that if the voter brings the required physical form of identification to the polling place after casting a provisional paper ballot, that ballot shall be qualified.

G. The judge or election clerk shall follow the procedures provided for in Sections 1-12-7.2 and 1-12-8 NMSA 1978 if a person whose name does not appear on the signature roster requests to vote or a person is required to vote on a provisional paper ballot.

H. A voter shall not be permitted to vote until the voter has properly signed the voter's usual signature or made the voter's mark in the signature roster."

C. The provisional paper ballot tracking number for the voter shall be entered on the affidavit of eligibility, the signature roster and the checklist of registered voters.

D. In a primary election, a voter shall not be permitted to vote for a candidate of a party different from the party designation shown on the voter's certificate of registration unless the voter's certificate of registration shows that the voter has declined to designate a party affiliation and the voter chooses to affiliate with a major political party for that primary election by requesting the ballot of a party participating in the primary. Upon making that determination, the county clerk shall transmit the ballot to the county canvassing board to be tallied and included in the canvass of that county for the appropriate precinct."

A. The interstate stream commission shall establish a strategic water reserve and may purchase or lease from willing sellers or lessors or receive through donation surface water or water rights or storage rights to compose the reserve. The commission may also purchase or lease from willing sellers or lessors or receive by donation underground water or water rights for the strategic water reserve for cessation of pumping or limited short-term stream augmentation. At no time shall the use of water or

water rights held by the strategic water reserve result in an increase in net depletions in any basin. The commission shall pay no more than the appraised market value to purchase or lease water or water rights and storage rights for the strategic water reserve. The commission may accept money or grants from federal or other governmental entities or other persons to purchase or lease water or water rights for the strategic water reserve, to pay administrative costs and to develop, construct, operate and maintain infrastructure for the delivery of water to the location of need. The commission shall not acquire water or water rights that are served by an irrigation district established pursuant to Chapter 73, Article 10 NMSA 1978, except through contractual arrangement with the district board of directors or as a special water users association established pursuant to Chapter 73, Article 10 NMSA 1978, but nothing in this section shall be construed to authorize the interstate stream commission to acquire water rights contrary to Section 72-1-2.4 NMSA 1978. The commission shall not acquire water or water rights for the strategic water reserve by condemnation and may only condemn real property when that property is needed for infrastructure related to the conveyance of water. Water in the strategic water reserve shall not be subject to forfeiture pursuant to Chapter 72 NMSA 1978. Water or water rights shall only be acquired with the explicit approval of the commission.

B. Water and water rights in the strategic water reserve shall be used to:

- (2) assist the state and water users in water management efforts for the benefit of threatened or endangered species or in a program intended to avoid additional listings of species. Management of water pursuant to this subsection shall be done in conjunction with collaborative programs or processes where they exist. Use of the strategic water reserve pursuant to this paragraph shall be limited to aquatic or obligate riparian species; or
- (3) assist the state or water users with water management and water conservation efforts designed to support aquifer recharge or reduce ground water depletion, in order to promote stream flow or other environmental benefits. Surface water leased or purchased for the purpose of this paragraph shall not be converted to ground water via any methods other than natural, passive infiltration through the streambed.

C. The interstate stream commission shall develop river reach or ground water basin priorities for the acquisition of water or water rights and storage rights for the strategic water reserve in consultation with the New Mexico interstate stream

compact commissioners, the office of the state engineer and the state department of justice. For each river reach or ground water basin, additional prioritization shall be developed in coordination with the governing bodies of the following organizations within the affected river reach or ground water basin:

- (1) Indian nations, tribes and pueblos;
- (2) boards of county commissioners;
- (3) municipalities;
- (4) special districts established pursuant to Chapter 73 NMSA 1978;

E. When establishing priorities for acquisition of water or water rights and storage rights for the strategic water reserve pursuant to Subsection C of this section, the interstate stream commission shall consider potential supplementary benefits, such as supporting traditional and cultural practices, habitat improvement or recreational opportunities within the affected water reach or ground water basin. The interstate stream commission may prioritize transactions that meet at least one of these supplementary benefits, in addition to at least one of the purposes described in Subsection B of this section.

F. The interstate stream commission may sell or lease water or water rights from the strategic water reserve at no less than the appraised market value. The commission may sell water rights only if the rights are no longer necessary for the purposes for which they were acquired for the reserve; provided that water rights in the reserve shall not be sold to the United States. Pursuant to a sale of water rights from the strategic water reserve by the interstate stream commission, the commission shall first make the offer of sale for the original purpose of use. Proceeds of any sale are appropriated to the office of the state engineer to adjudicate water rights. Proceeds of any leases are appropriated to the interstate stream commission for carrying out the purposes of the strategic water reserve.

G. Water or water rights acquired for the strategic water reserve or water or water rights sold or leased from the reserve shall remain in their river reach or ground water basin of origin.

H. Transactions with members of an irrigation or conservancy district established pursuant to Chapter 73 NMSA 1978 shall provide for the strategic water reserve to pay the annual assessment to the district that would accrue to the district absent the transaction.

I. Cumulative impacts of the strategic water reserve acquisitions and uses shall not adversely affect existing water users or delivery systems.

J. The interstate stream commission shall adopt rules consistent with the terms of this section, including rules to ensure:

(1) that water and water rights acquired for the strategic water reserve are used only for the purposes of the reserve;

SECTION 2. Section 6-21-6 NMSA 1978 (being Laws 1992, Chapter 61, Section 6, as amended) is amended to read:

"6-21-6. PUBLIC PROJECT REVOLVING FUND--PURPOSE--
ADMINISTRATION.--

A. The "public project revolving fund" is created within the authority. The fund shall be administered by the authority as a separate account, but may consist of such subaccounts as the authority deems necessary to carry out the purposes of the fund. The authority may establish procedures and adopt rules as required to administer the fund in accordance with the New Mexico Finance Authority Act.

B. Except as otherwise provided in the New Mexico Finance Authority Act, money from payments of principal of and interest on loans and payments of principal of and interest on securities held by the authority for public projects shall be deposited in the public project revolving fund. C. Money appropriated to pay administrative costs, money available for administrative costs from other sources and money from payments of interest on loans or securities held by the authority, including payments of interest on loans and securities held by the authority for public projects, that represents payments for administrative costs shall not be deposited in the public project revolving fund and shall be deposited in a separate account of the authority and may be used by the authority to meet administrative costs of the authority.

D. Except as otherwise provided in the New Mexico Finance Authority Act, money in the public project revolving fund is appropriated to the authority to pay the reasonably necessary costs of originating and servicing loans, grants or securities funded by the fund and to make loans or grants and to purchase or sell securities to assist qualified entities in financing public projects in accordance with the New Mexico Finance Authority Act.

E. Money in the public project revolving fund not needed for immediate disbursement, including money held in reserve, may be deposited with the state

treasurer for short-term investment pursuant to Section 6-10-10.1 NMSA 1978 or may be invested in direct and general obligations of or obligations fully and unconditionally guaranteed by the United States, obligations issued by agencies of the United States, obligations of this state or any political subdivision of the state, interest-bearing time deposits, commercial paper issued by corporations organized and operating in the United States and rated "prime" quality by a national rating service, other investments permitted by Section 6-10-10 NMSA 1978 or as otherwise provided by the trust indenture or bond resolution, if money is pledged for or secures payment of bonds issued by the authority.

F. The authority shall establish fiscal controls and accounting procedures that are sufficient to assure proper accounting for public project revolving fund payments, disbursements and balances.

G. Money on deposit in the public project revolving fund may be used to make interim loans for a term not exceeding two years to qualified entities for the purpose of providing interim financing for any project approved or funded by the legislature.

H. Money on deposit in the public project revolving fund may be used to acquire securities or to make loans to qualified entities in connection with the small loan program. As used in this subsection, "small loan program" means the program of the authority designed to provide financing for public projects in amounts not to exceed one million dollars (\$1,000,000) per project. Chapter 71 Section 3 Laws 2025

SECTION 3. Section 62-6-26 NMSA 1978 (being Laws 1989, Chapter 5, Section 1, as amended) is amended to read:

"62-6-26. ECONOMIC DEVELOPMENT RATES FOR GAS AND ELECTRIC UTILITIES--AUTHORIZATION.--

A. The commission may approve or otherwise allow to become effective, as provided in Subsection B of this section, applications from utilities or persons subject to regulation pursuant to Subsection B of Section 62-6-4 NMSA 1978 or filings by cooperative utilities pursuant to Section 62-8-7 NMSA 1978, as appropriate, for special rates or tariffs in order to prevent the loss of customers, to encourage customers to expand present facilities and operations in New Mexico and to attract new customers where necessary or appropriate to promote economic development in New Mexico. Any such special rates or tariffs shall be designed so as to recover at least the incremental cost of providing service to such customers.

B. The commission may approve or otherwise allow to become effective applications from utilities or persons subject to regulation pursuant to Subsection B of Section 62-6-4 NMSA 1978 and filings by cooperative utilities pursuant to Section 62-8-7 NMSA 1978 for economic development rates and rates designed to retain load for gas and electric utility customers. For purposes of this section and Section 62-8-6 NMSA 1978, economic development rates and rates designed to retain load are rates set at a level lower than the corresponding service rate for which a customer would otherwise qualify.

C. Except as provided in Subsection D of this section, economic development rates shall be approved or otherwise allowed to become effective for an electric utility or persons subject to regulation pursuant to Subsection B of Section 62-6-4 NMSA 1978 or filings by cooperative utilities pursuant to Section 62-8-7 NMSA 1978 only when the utility or the substantially full requirements supplier of the utility has excess capacity. For purposes of this section, "excess capacity" means the amount of electric generating and purchased power capacity available to the utility or such supplier that is greater than the utility's or such supplier's peak load plus a fixed percentage reserve margin set by the commission.

D. Economic development rates may be approved or otherwise allowed to become effective for electric utilities or persons subject to regulation pursuant to Subsection B of Section 62-6-4 NMSA 1978 or filings by cooperative utilities pursuant to Section 62-8-7 NMSA 1978 that do not meet the qualifications of Subsection C of this section; provided that the following conditions are met:

(1) economic development rates approved under this subsection shall not be lower than the incremental cost of providing service to the economic development rate customer as determined by the commission. As used in this subsection, "economic development rate customer" means a customer that directly benefits from the economic development rate established pursuant to this subsection; and

(2) an economic development rate approved for any customer under this subsection shall last no longer than four years, except that the commission may approve the rate for up to twelve additional months if it finds that the additional period is necessary to attract a particular economic development rate customer to New Mexico.

E. Prior to July 1, 2035, the commission shall allow public utilities to recover prudent and reasonable costs incurred by a public utility for the ongoing development, construction or maintenance of resources for economic development projects that provide incremental capacity, or serve incremental load growth, within the economic development project's service area. For economic development projects implemented after the effective date of this 2025 act, the reasonable costs of economic development projects shall be recoverable in rates through a rate rider, base rates or a combination thereof, when the associated equipment and facilities begin serving the new load associated with the economic development project or the utility demonstrates that the economic development project provides benefits to existing customers. A public utility shall be allowed to defer costs incurred for economic development projects that are not included in rates to a regulatory asset. Notwithstanding the time lines in Subsection C of Section 62-9-1 NMSA 1978, the commission shall review a public utility's application for an economic development project and issue a final order approving, modifying or denying the application within six months of the application filing date; provided, however, that the commission may extend the time for granting approval for an additional three months for good cause shown. All projects shall be certified by the economic development department using industry standard guidelines for site selection and approved by the commission. All certified and approved projects shall be allowed to complete construction.

F. The economic development department shall certify, using industry standard guidelines for site selection, whether the economic development project will support reasonably anticipated economic development within the state. Prior to the certification, the department shall provide an opportunity for public comment regarding whether the proposed economic development project will support reasonably anticipated economic development within the state. The department shall issue a certification letter within sixty days of a request from a public utility or project developer, and the certification letter shall be included in a public utility's application filed pursuant to Subsection E of this section.

G. For purposes of this section:

(1) "economic development project" means the construction or modification of new or existing electric generation facilities, energy storage facilities, transmission and distribution facilities, zero-carbon resources as defined in Subsection K of Section 62-16-3 NMSA 1978, alternative fuel facilities, energy efficiency programs, renewable energy and fuel cell facilities, recycled energy or other technologies necessary to serve reasonably anticipated new load and that have been certified by the economic development department pursuant to Subsection F of this section;

(2) "incremental capacity" means the increase in capacity attributable to new or expanded facilities up to ten percent of a public utility's total system peak load per calendar year;

(3) "incremental cost" at a minimum shall include all additional costs incurred to serve the economic development rate customer that would not otherwise have been incurred to serve other customers, fuel and purchased power costs, costs recoverable from customers pursuant to the Renewable Energy Act and the Efficient Use of Energy Act and the direct costs of facilities necessary to provide service to the customer. The commission shall not impute to the electric utility revenues that would have been received from the economic development rate or load retention customer if they had been provided service under the corresponding rate for which they would have otherwise qualified;

(4) "incremental load growth" means the increase in forecasted load attributable to commercial and industrial growth or electrification of utility customer infrastructure; and

(5) "recycled energy" means energy produced by a generation unit that converts the otherwise lost energy from exhaust stacks or pipes to electricity without combustion of additional fossil fuel."

Chapter 71 Section 4 Laws 2025

SECTION 4. Section 62-9-1 NMSA 1978 (being Laws 1941, Chapter 84, Section 46, as amended) is amended to read:

"62-9-1. NEW CONSTRUCTION--RATEMAKING PRINCIPLES.--

A. No public utility shall begin the construction or operation of any public utility plant or system or of any extension of any plant or system without first obtaining from the commission a certificate that public convenience and necessity require or will require such construction or operation. This section does not require a public utility to secure a certificate for an extension within any municipality or district within which it lawfully commenced operations before June 13, 1941 or for an extension within or to territory already served by it, necessary in the ordinary course of its business, or for an extension into territory contiguous to that already occupied by it and that is not receiving similar service from another utility. If any public utility or mutual domestic water

consumer association in constructing or extending its line, plant or system unreasonably interferes or is about to unreasonably interfere with the service or system of any other public utility or mutual domestic water consumer association rendering the same type of service, the commission, on complaint of the public utility or mutual domestic water consumer association claiming to be injuriously affected, may, upon and pursuant to the applicable procedure provided in Chapter 62, Article 10 NMSA 1978, and after giving due regard to public convenience and necessity, including reasonable service agreements between the utilities, make an order and prescribe just and reasonable terms and conditions in harmony with the Public Utility Act to provide for the construction, development and extension, without unnecessary duplication and economic waste.

B. If a certificate of public convenience and necessity is required pursuant to this section for the construction or extension of a generating plant or transmission lines and associated facilities, a public utility may include in the application for the certificate a request that the commission determine the ratemaking principles and treatment that will be applicable for the facilities that are the subject of the application for the certificate. If such a request is made, the commission shall, in the order granting the certificate, set forth the ratemaking principles and treatment that will be applicable to the public utility's stake in the certified facilities in all ratemaking proceedings on and after such time as the facilities are placed in service. The commission shall use the ratemaking principles and treatment specified in the order in all proceedings in which the cost of the public utility's stake in the certified facilities is considered. If the commission later decertifies the facilities, the commission shall apply the ratemaking principles and treatment specified in the original certification order to the costs associated with the facilities that were incurred by the public utility prior to decertification.

C. The commission may approve the application for the certificate without a formal hearing if no protest is filed within sixty days of the date that notice is given, pursuant to commission order, that the application has been filed. The commission shall issue its order granting or denying the application within nine months from the date the application is filed with the commission. Failure to issue its order within nine months is deemed to be approval and final disposition of the application; provided, however, that the commission may extend the time for granting approval for an additional six months for good cause shown.

D. Notwithstanding the time lines contained in Subsection C of this section, for applications certified by the economic development department pursuant to Subsection F of Section 62-6-26 NMSA 1978, the commission shall issue an order granting or denying the application within six months from the date the application is filed with the commission. Failure to issue the commission's order within six months is deemed to be approval and final disposition of the application; provided, however, that the commission may extend the time for granting approval for an additional three months for good cause shown.

E. In an application for a certificate of public convenience and necessity for an energy storage system, the commission shall approve energy storage systems that:

- (1) reduce costs to ratepayers by avoiding or deferring the need for investment in new generation and for upgrades to systems for the transmission and distribution of energy;
- (2) reduce the use of fossil fuels for meeting demand during peak load periods and for providing ancillary services;
- (3) assist with ensuring grid reliability, including transmission and distribution system stability, while integrating sources of renewable energy into the grid;
- (4) support diversification of energy resources and enhance grid security;
- (5) reduce greenhouse gases and other air pollutants resulting from power generation;
- (6) provide the public utility with the discretion, subject to applicable laws and rules, to operate, maintain and control energy storage systems so as to ensure reliable and efficient service to customers; and
- (7) are the most cost effective among feasible alternatives.

F. As used in this section:

- (1) "energy storage system" means methods and technologies used to store electricity; and
- (2) "mutual domestic water consumer association" means an association created and organized pursuant to the provisions of:
 - (a) Laws 1947, Chapter 206; Laws 1949, Chapter 79; or Laws 1951, Chapter 52; or
 - (b) the Sanitary Projects Act."

A. Except as provided in Section 31-21-10.2 NMSA 1978, an inmate of an institution who was sentenced to life imprisonment becomes eligible for a parole hearing after the inmate has served thirty years of the sentence. - (3) make a finding that a parole is in the best interest of society and the inmate; and
- (4) make a finding that the inmate is able and willing to fulfill the obligations of a law-abiding citizen.

If parole is denied, the inmate sentenced to life imprisonment shall again become entitled to a parole hearing at two-year intervals. The board may, on its own motion, reopen any case in which a hearing has already been granted and parole denied.

B. Unless the board finds that it is in the best interest of society and the parolee to reduce the period of parole, a person who was sentenced to life imprisonment shall be required to undergo a minimum period of parole of five years. During the period of parole, the person shall be under the guidance and supervision of the board.

C. An inmate of an institution who was sentenced to life imprisonment without possibility of release or parole is not eligible for parole and shall remain incarcerated for the entirety of the inmate's natural life.

D. Except for certain sex offenders as provided in Section 31-21-10.1 NMSA 1978, an inmate who was convicted of a first, second or third degree felony and who has served the sentence of imprisonment imposed by the court in an institution designated by the corrections department shall be required to undergo a two-year period of parole. An inmate who was convicted of a fourth degree felony and who has served the sentence of imprisonment imposed by the court in an institution designated by the corrections department shall be required to undergo a one-year period of parole. During the period of parole, the person shall be under the guidance and supervision of the board.

E. Every person while on parole shall remain in the legal custody of the institution from which the person was released, but shall be subject to the orders of the board. The board shall furnish to each inmate as a prerequisite to release under its supervision a written statement of the conditions of parole that shall be accepted and agreed to by the inmate as evidenced by the inmate's signature affixed to a duplicate copy to be retained in the files of the board. The board shall also require as a prerequisite to release the submission and approval of a parole plan. If an inmate refuses to affix the inmate's signature to the written statement of the conditions of parole or does not have an approved parole plan, the inmate shall not be released and shall remain in the custody of the institution in which the inmate has served the inmate's sentence, excepting parole, until such time as the period of parole the inmate was required to serve, less meritorious deductions, if any, expires, at which time the inmate shall be released from that institution without parole, or until such time that the inmate evidences acceptance and agreement to the conditions of parole as required or receives approval for the inmate's parole plan or both. Time served from the date that an inmate refuses to accept and agree to the conditions of parole or fails to receive approval for the inmate's parole plan shall reduce the period, if any, to be served under parole at a later date. If the district court has ordered that the inmate make restitution to a victim as provided in Section 31-17-1 NMSA 1978, the board shall include restitution as a condition of parole. "33-2-34. ELIGIBILITY FOR EARNED MERITORIOUS DEDUCTIONS.--

A. A prisoner confined in a correctional facility designated by the corrections department may lose earned meritorious deductions if the prisoner fails to actively participate in programs recommended for the prisoner by the classification supervisor and approved by the warden or the warden's designee.

B. Meritorious deductions shall be awarded for the remainder of the sentence, after pre-sentence confinement has been deducted, upon admission to a correctional facility designated by the corrections department.

C. Meritorious deductions shall not exceed the following amounts:

- (1) for a prisoner confined for committing a serious violent offense, four days per month;
- (2) for a prisoner confined for committing a nonviolent offense, thirty days per month; and
- (3) for a prisoner confined following revocation of parole, meritorious deductions will be awarded commensurate with the classification of the offense.

D. A prisoner may lose meritorious deductions upon recommendation by the classification supervisor, based upon the prisoner's failure to actively participate in approved programs and the quality of the prisoner's participation in those approved programs. A prisoner may not lose meritorious deductions unless the recommendation of the classification supervisor is approved by the warden or the warden's designee.

E. If a prisoner's active participation in approved programs is interrupted by a lockdown at a correctional facility, the prisoner may not lose meritorious deductions, unless the warden or the warden's designee determines that the prisoner's conduct contributed to the initiation or continuance of the lockdown.

F. A prisoner confined in a correctional facility designated by the corrections department is eligible for lump-sum meritorious deductions as follows:

- (1) for successfully completing an approved vocational, substance abuse or mental health program, thirty days; except when the prisoner has a demonstrable physical, mental health or developmental disability that prevents the prisoner from successfully earning a high school equivalency credential, in which case, the prisoner shall be awarded ninety days;

The classification supervisor and the warden or the warden's designee may recommend the number of days to be awarded in each case

based upon the particular merits, but any award shall be determined by the director of the adult institutions division of the corrections department or the director's designee.

G. Lump-sum meritorious deductions, provided in Paragraphs (1) through (6) of Subsection F of this section, may be awarded in addition to the meritorious deductions provided in Subsection C of this section. A concise summary of the rules shall be provided to each prisoner, and each prisoner shall receive a statement of the meritorious deductions earned upon initial award, if additional awards are given, if meritorious deductions are lost and upon request.

M. A prisoner confined in a correctional facility in New Mexico that is operated by a private company, pursuant to a contract with the corrections department, is eligible to earn meritorious deductions in the same manner as a prisoner confined in a state-run correctional facility. (2) the council may authorize payments directly to the contractor.

G. Balances in the fund may be annually appropriated for the core administrative functions of the authority pursuant to the Public School Capital Outlay Act, and, in addition, balances in the fund may be expended by the authority, upon approval of the council, for project management expenses; provided that:

(1) the total annual expenditures from the fund for the core administrative functions pursuant to this subsection shall not exceed five percent of the average annual grant assistance authorized from the fund during the five previous fiscal years; and

(2) any unexpended or unencumbered balance remaining at the end of a fiscal year from the expenditures authorized in this subsection shall revert to the fund.

H. The fund may be expended by the council for building system repair, renovation or replacement initiatives with projects to be identified by the council pursuant to Section 22-24-4.6 NMSA 1978; provided that money allocated pursuant to this subsection shall be expended within three years of the allocation.

I. The fund shall be expended annually by the council for grants to school districts for the purpose of making lease payments for facilities, including facilities leased by charter schools. The grants shall be made upon application by the school districts and pursuant to rules adopted by the council; provided that an application on behalf of a charter school shall be made by the school district, but, if the school district fails to make an application on behalf of a charter school, the charter school may submit its own application. The following criteria shall apply to the grants:

(1) the amount of a grant to a school district or charter school shall not exceed:

(a) the actual annual lease payments owed for leasing a facility;
or

(b) seven hundred dollars (\$700) multiplied by the MEM using the leased facilities; provided that in fiscal year 2009 and in each subsequent fiscal year, this amount shall be adjusted by the percentage change between the penultimate calendar year and the immediately preceding calendar year of the consumer price index for the United States, all items, as published by the United States department of labor;

(2) a grant received for the lease payments of a charter school may be used by that charter school as a state match necessary to obtain federal grants pursuant to the federal Every Student Succeeds Act;

(3) at the end of each fiscal year, any unexpended or unencumbered balance of the grant shall revert to the fund;

(4) no grant shall be made for lease payments due pursuant to a financing agreement under which the facilities may be purchased for a price that is reduced according to the lease payments made unless:

(a) the agreement has been approved pursuant to the provisions of the Public School Lease Purchase Act; and

(b) the facilities are leased by a charter school;

(5) if the lease payments are made pursuant to a financing agreement under which the facilities may be purchased for a price that is reduced according to the lease payments made, neither a grant nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facilities nor does it create a legal

obligation for the state to make subsequent grants pursuant to the provisions of this subsection; and

(6) as used in this subsection:

(a) "MEM" means: 1) the average full-time-equivalent enrollment using leased facilities on the second and third reporting dates of the prior school year; or 2) in the case of an approved charter school that has not commenced classroom instruction, the estimated full-time-equivalent enrollment that will use leased facilities in the first year of instruction, as shown in the approved charter school application; provided that, after the second reporting date of the current school year, the MEM shall be adjusted to reflect the full-time-equivalent enrollment on that date; and

(b) "facilities" includes the space needed for school activities.

J. In addition to other authorized expenditures from the fund, up to one percent of the average grant assistance authorized from the fund during the three previous fiscal years may be expended in each fiscal year by the authority to pay the state fire marshal, the construction industries division of the regulation and licensing department and local jurisdictions having authority from the state to permit and inspect projects for expenditures made to permit and inspect projects funded in whole or in part under the Public School Capital Outlay Act. The authority may enter into contracts with the state fire marshal, the construction industries division or the appropriate local authorities to carry out the provisions of this subsection. Such a contract may provide for initial estimated payments from the fund prior to the expenditures if the contract also provides for additional payments from the fund if the actual expenditures exceed the initial payments and for repayments back to the fund if the initial payments exceed the actual expenditures. Money distributed from the fund to the state fire marshal or the construction industries division pursuant to this subsection shall be used to supplement, rather than supplant, appropriations to those entities.

K. Pursuant to guidelines established by the council, allocations from the fund may be made to assist school districts in developing and updating five-year facilities plans required by the Public School Capital Outlay Act; provided that:

(1) no allocation shall be made unless the council determines that the school district is willing and able to pay the portion of the total cost of developing or updating the plan that is not funded with the allocation from the fund. Except as provided in Paragraph (2) of this subsection, the portion of the total cost to be paid with the allocation from the fund shall be determined pursuant to the methodology in Subsection B of Section 22-24-5 NMSA 1978; or

(2) the allocation from the fund may be used to pay the total cost of developing or updating the plan if:

(a) the school district has fewer than an average of six hundred full-time-equivalent students on the second and third reporting dates of the prior school year; or

(b) the school district meets all of the following requirements: 1) the school district has fewer than an average of one thousand full-time-equivalent students on the second and third reporting dates of the prior school year; 2) the school district has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) the state share of the total cost, if calculated pursuant to the methodology in Subsection B of Section 22-24-5 NMSA 1978, would be less than fifty percent; and 4) for all educational purposes, the school district has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds.

L. Upon application by a school district, allocations from the fund may be made by the council for the purpose of demolishing abandoned school district facilities; provided that:

(1) the costs of continuing to insure an abandoned facility outweigh any potential benefit when and if a new facility is needed by the school district;

(2) there is no practical use for the abandoned facility without the expenditure of substantial renovation costs; and

(3) the council may enter into an agreement with the school district to fully fund the demolition of the abandoned school district facility if Paragraphs (1) and (2) of this subsection are satisfied.

M. The fund may be expended in each of fiscal years 2020 through 2024 for a pre-kindergarten classroom facilities initiative project in accordance with Section 22-24-12 NMSA 1978.

N. The council may fund pre-kindergarten classrooms with a qualifying, awarded standards-based project; provided that pre-kindergarten classroom space shall not be included in the project prioritization calculation adopted by the council pursuant to Section 22-24-5 NMSA 1978. The council shall develop pre-kindergarten classroom standards to use when funding pre-kindergarten space."

Chapter 82 Section 4 Laws 2025

SECTION 4. Section 22-24-5 NMSA 1978 (being Laws 1975, Chapter 235, Section 5, as amended) is amended to read:

"22-24-5. PUBLIC SCHOOL CAPITAL OUTLAY PROJECTS--APPLICATION--
GRANT ASSISTANCE.--

A. Applications for grant assistance, approval of applications, prioritization of projects and grant awards shall be conducted pursuant to the provisions of this section.

B. Except as provided in Sections 22-24-4.3, 22-24-5.4 and 22-24-5.6 NMSA 1978, the following provisions govern grant assistance from the fund for a public school capital outlay project not wholly funded pursuant to Section 22-24-4.1 NMSA 1978:

(1) all school districts are eligible to apply for funding from the fund, regardless of percentage of indebtedness;

(2) priorities for funding shall be determined by using the statewide adequacy standards developed pursuant to Subsection C of this section; provided that:

(a) the council shall apply the standards to charter schools to the same extent that they are applied to other public schools;

(b) the council may award grants annually to school districts for the purpose of repairing, renovating or replacing public school building systems in existing buildings as identified in Section 22-24-4.6 NMSA 1978;

(c) the council shall adopt and apply adequacy standards appropriate to the unique needs of the constitutional special schools; and

(d) in an emergency in which the health or safety of students or school personnel is at immediate risk or in which there is a threat of significant property damage, the council may award grant assistance for a project using criteria other than the statewide adequacy standards;

(3) the council shall establish criteria to be used in public school capital outlay projects that receive grant assistance pursuant to the Public School Capital Outlay Act. In establishing the criteria, the council shall consider:

(a) the feasibility of using design, build and finance arrangements for public school capital outlay projects;

(b) the potential use of more durable construction materials that may reduce long-term operating costs;

(c) concepts that promote efficient but flexible utilization of space; and

(d) any other financing or construction concept that may maximize the dollar effect of the state grant assistance;

(4) no more than ten percent of the combined total of grants in a funding cycle shall be used for retrofitting existing facilities for technology infrastructure;

(5) no later than May 1 of each calendar year, the phase two formula value shall be calculated for each school district in accordance with the following procedure:

(a) the sum of the final prior five years net taxable value for a school district multiplied by nine ten-thousandths for that school district is calculated for each school district;

(b) the maximum allowable gross square foot per student multiplied by the replacement cost per square foot divided by forty-five is calculated for each school district;

(c) the value calculated pursuant to Subparagraph (a) of this paragraph divided by the value calculated pursuant to Subparagraph (b) of this paragraph is calculated for each school district;

(d) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value equal to or greater than one, the phase two formula value shall be zero for the subject school district;

(e) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value of ninety-hundredths or more but less than one, the phase two formula value shall be one minus the value calculated in Subparagraph (c) of this paragraph; and

(f) in those instances in which the calculation pursuant to Subparagraph (c) of this paragraph yields a value less than ninety-hundredths, the phase two formula value shall be one minus the value calculated in Subparagraph (c) of this paragraph plus the school district population density factor;

(6) the state share of a project approved by the council shall be funded within available resources pursuant to the provisions of this paragraph. Except as provided in Section 22-24-5.7 NMSA 1978 and except as adjusted pursuant to Paragraph (8), (9) or (10) of this subsection, the amount to be distributed from the fund for an approved project shall equal the total project cost multiplied by the following percentage, except that in no case shall the state share be less than six percent:

(a) for fiscal year 2024 through fiscal year 2026, the percentage shall be the phase two formula value plus a percentage equal to one-third of the difference between one and the phase two formula value; provided that, for school districts with fewer than 200 MEM, the percentage shall be the phase two formula value plus a percentage equal to one-half of the difference between one and the phase two formula; and

(b) for fiscal year 2027 and thereafter, the percentage shall be the phase two formula value;

(7) as used in this subsection:

(a) "governmental entity" includes an Indian nation, tribe or pueblo;

(b) "phase two formula value" for a state-chartered charter school means the phase two formula value calculated pursuant to Paragraph (5) of this subsection for the school district in which the state-chartered charter school is physically located;

(c) "subject school district" means the school district that has submitted the application for funding and in which the approved public school capital outlay project will be located; and

(d) "total project cost" means the total amount necessary to complete the public school capital outlay project less any insurance reimbursement received by the school district for the project;

(8) the amount calculated pursuant to Paragraph (6) of this subsection may be increased by an additional five percent if the council finds that the subject school district has been exemplary in implementing and maintaining a preventive maintenance program. The council shall adopt such rules as are necessary to implement the provisions of this paragraph;

(9) the council may adjust the amount of local share otherwise required if it determines that a school district has made a good-faith effort to use all of its local resources. Before making any adjustment to the local share, the council shall consider whether:

(a) the school district has insufficient bonding capacity over the next four years to provide the local match necessary to complete the project and, for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(b) the school district: 1) has fewer than an average of eight hundred full-time-equivalent students on the second and third reporting dates of the prior school year; 2) has at least seventy percent of its students eligible for free or reduced-fee lunch; 3) has a phase two formula value calculated pursuant to Paragraph (5) of this subsection that would be greater than fifty percent; and 4) for all educational purposes, has a residential property tax rate of at least seven dollars (\$7.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates

imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds; or

(c) the school district: 1) has an enrollment growth rate over the previous school year of at least two and one-half percent; 2) pursuant to its five-year facilities plan, will be building a new school within the next two years; and 3) for all educational purposes, has a residential property tax rate of at least ten dollars (\$10.00) on each one thousand dollars (\$1,000) of taxable value, as measured by the sum of all rates imposed by resolution of the local school board plus rates set to pay interest and principal on outstanding school district general obligation bonds;

(10) the local match for the constitutional special schools shall be set at fifty percent for projects that qualify under the educational adequacy category and one hundred percent for projects that qualify in the support spaces category; provided that the council may adjust or waive the amount of any direct appropriation offset to or local share required for the constitutional special schools if an applicant constitutional special school has insufficient or no local resources available; and

(11) no application for grant assistance from the fund shall be approved unless the council determines that:

(a) the public school capital outlay project is needed and included in the school district's five-year facilities plan among its top priorities;

(b) the school district has used its capital resources in a prudent manner;

(c) the school district has provided insurance for buildings of the school district in accordance with the provisions of Section 13-5-3 NMSA 1978;

(d) the school district has submitted a five-year facilities plan that includes: 1) enrollment projections; 2) a current preventive maintenance plan that has been approved by the council pursuant to Section 22-24-5.3 NMSA 1978 and that is followed by each public school in the district; 3) the capital needs of charter schools located in the school district; and 4) projections for the facilities needed in order to maintain a full-day kindergarten program;

(e) the school district is willing and able to pay any portion of the total cost of the public school capital outlay project that, according to Paragraph (6), (8) or (9) of this subsection, is not funded with grant assistance from the fund;

(f) the application includes the capital needs of any charter school located in the school district or the school district has shown that the facilities of the charter school have a smaller deviation from the statewide adequacy standards than other district facilities included in the application; and

(g) the school district has agreed, in writing, to comply with any reporting requirements or conditions imposed by the council pursuant to Section 22-24-5.1 NMSA 1978.

C. After consulting with the public school capital outlay oversight task force and other experts, the council shall regularly review and update statewide adequacy standards applicable to all school districts. The standards shall establish the acceptable level for the physical condition and capacity of buildings, the educational suitability of facilities and the need for career-technical education facilities or classrooms. The council shall collaborate with the office of broadband access and expansion in the development of education technology infrastructure standards in accordance with the provisions of the Broadband Access and Expansion Act and apply those standards to the statewide adequacy standards. Except as otherwise provided in the Public School Capital Outlay Act, the amount of outstanding deviation from the standards shall be used by the council in evaluating and prioritizing public school capital outlay projects.

D. The acquisition of a facility by a school district or charter school pursuant to a financing agreement that provides for lease payments with an option to purchase for a price that is reduced according to lease payments made may be considered a public school capital outlay project and eligible for grant assistance under this section pursuant to the following criteria:

(1) no grant shall be awarded unless the council determines that, at the time of exercising the option to purchase the facility by the school district or charter school, the facility will equal or exceed the statewide adequacy standards and the building standards for public school facilities;

(2) no grant shall be awarded unless the school district and the need for the facility meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act;

(3) the total project cost shall equal the total payments that would be due under the agreement if the school district or charter school would eventually acquire title to the facility;

(4) the portion of the total project cost to be paid from the fund may be awarded as one grant, but disbursements from the fund shall be made from time to time as lease payments become due;

(5) the portion of the total project cost to be paid by the school district or charter school may be paid from time to time as lease payments become due; and

(6) neither a grant award nor any provision of the Public School Capital Outlay Act creates a legal obligation for the school district or charter school to continue the lease from year to year or to purchase the facility.

E. In order to encourage private capital investment in the construction of public school facilities, the purchase of a privately owned school facility that is, at the time of application, in use by a school district may be considered a public school capital outlay project and eligible for grant assistance pursuant to this section if the council finds that:

(1) at the time of the initial use by the school district, the facility to be purchased equaled or exceeded the statewide adequacy standards and the building standards for public school facilities;

(2) at the time of application, attendance at the facility to be purchased is at seventy-five percent or greater of design capacity and the attendance at other schools in the school district that the students at the facility would otherwise attend is at eighty-five percent or greater of design capacity; and

(3) the school district and the capital outlay project meet all of the requirements for grant assistance pursuant to the Public School Capital Outlay Act; provided that, when determining the deviation from the statewide adequacy standards for the purposes of evaluating and prioritizing the project, the students using the facility shall be deemed to be attending other schools in the school district.

F. It is the intent of the legislature that grant assistance made pursuant to this section allows every school district to meet the standards developed pursuant to Subsection C of this section; provided, however, that nothing in the Public School Capital Outlay Act or the development of standards pursuant to that act prohibits a school district from using other funds available to the district to exceed the statewide adequacy standards.

G. Upon request, the council shall work with, and provide assistance and information to, the public school capital outlay oversight task force.

H. The council may establish committees or task forces, not necessarily consisting of council members, and may use the committees or task forces, as well as existing agencies or organizations, to conduct studies, conduct surveys, submit recommendations or otherwise contribute expertise from the public schools, programs, interest groups and segments of society most concerned with a particular aspect of the council's work.

I. Upon the recommendation of the authority, the council shall develop building standards for public school facilities and shall promulgate other such rules as are necessary to carry out the provisions of the Public School Capital Outlay Act.

J. No later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year. The report shall describe in detail all projects funded, the progress of projects previously funded but not completed, the criteria used to prioritize and fund projects and all other council actions. The report

shall be submitted to the public education commission, the governor, the legislative finance committee, the legislative education study committee and the legislature.

K. For any school district that received a standards- or systems-based award from the council in fiscal year 2023, the state share for any future phase of the project for which funding has not yet been awarded shall be the amount calculated pursuant to Subsection B of this section for fiscal year 2024, regardless of the state share at the time of the initial award.

L. As used in this section:

(1) "MEM" means membership; and

(2) "membership" means the total enrollment of qualified students on the current roll of a class or school on a specified day. The current roll is established by the addition of original entries and reentries minus withdrawals. Withdrawals of students, in addition to students formally withdrawn from the public school, include students absent from the public school for as many as ten consecutive school days; provided that withdrawals do not include students in need of early intervention and habitual truants the school district is required to intervene with and keep in an educational setting."

"EDUCATION TECHNOLOGY INFRASTRUCTURE PROJECTS--
APPLICATION-- GRANT ASSISTANCE.--

A. Applications for grant assistance, approval of applications, prioritization of projects and grant awards for education technology infrastructure shall be conducted pursuant to the provisions of this section.

B. The broadband office shall establish project funding requirements and priority standards for school districts by rule based on the following factors:

(1) school district geographic size and population;

(2) school district population density;

(3) local property tax base;

(4) the current condition of education technology infrastructure relative to the adequacy standards established in collaboration with the public school capital outlay council and public school facilities authority; and

(5) whether the broadband office has designated the school district as a high-growth area pursuant to Subsection C of this section.

C. The broadband office may designate an area that equals a contiguous attendance area of one or more existing schools as a high-growth area if it determines that within five years of the grant allocation decision, the estimated use of the proposed education technology infrastructure project will exceed the functional capacity of the project as determined by the broadband office by rule.

D. The broadband office shall apply the adequacy standards to state-chartered charter schools to the same extent that they are applied to other public schools.

E. The broadband office shall adopt and apply adequacy standards appropriate to the unique needs of the constitutional special schools.

Chapter 84 Section 6 Laws 2025

SECTION 6. Section 63-9F-11 NMSA 1978 (being Laws 1993, Chapter 54, Section 11, as amended) is amended to read:

"63-9F-11. IMPOSITION OF SURCHARGE.--

A. A telecommunications relay service surcharge of one and sixty-six hundredths percent is imposed on the gross amount paid:

(1) by customers, except customers whose telephone service rates are reduced as authorized by the Low Income Telephone Service Assistance Act, for intrastate telecommunications services provided in this state;

(2) by customers for the intrastate portion of interconnected voice over internet protocol service;

(3) by customers for intrastate mobile telecommunications services that originate and terminate in the same state, regardless of where the mobile telecommunications services originate, terminate or pass through, provided by home service providers to customers whose place of primary use is in New Mexico; and

(4) by a prepaid consumer in a retail transaction.

B. The telecommunications relay service surcharge shall be included on the monthly bill of each customer of a local exchange company or other telecommunications company providing intrastate telecommunications services, interconnected voice over internet protocol services or intrastate mobile telecommunications services and paid at the time of payment of the monthly bill. Receipts from selling those services to any other telecommunications company or provider for resale are not subject to the surcharge. The customer is liable for the payment of the surcharge to the provider of intrastate mobile telecommunications services, the provider of interconnected voice over internet protocol services or the local exchange company or other telecommunications company providing intrastate telecommunications services to the customer.

C. For the purposes of the surcharge imposed on a retail transaction pursuant to Paragraph (4) of Subsection A of this section:

(1) the surcharge shall be collected by the seller from the prepaid consumer with respect to each retail transaction occurring in this state. The amount of

the surcharge shall be either separately stated on an invoice, receipt or other similar document that is provided to the prepaid consumer by the seller or otherwise disclosed to the prepaid consumer;

(2) for the purposes of Paragraph (1) of this subsection, a retail transaction that is effected in person by a prepaid consumer at a business location of the seller shall be treated as occurring in this state if that business location is in this state, and any other retail transaction is treated as occurring in this state if the retail transaction is treated as occurring in this state for purposes of the Gross Receipts and Compensating Tax Act;

(3) the surcharge is the liability of the prepaid consumer and not of the seller or any provider, except that the seller shall be liable to remit all surcharges collected from the prepaid consumer as provided in this subsection, including all such surcharges that the seller is deemed to collect where the amount of the surcharge has not been separately stated on an invoice, receipt or other similar document provided to the prepaid consumer by the seller;

(4) the amount of the surcharge that is collected by a seller from a prepaid consumer, if such amount is separately stated on an invoice, receipt or other similar document provided to the prepaid consumer by the seller, shall not be included in the base for measuring any tax, fee, surcharge or other charge that is imposed by this state, any political subdivision of this state or any intergovernmental agency;

(5) when prepaid wireless communications service is sold with one or more other products or services for a single, non-itemized price, the percentage specified in Subsection A of this section shall apply to the entire non-itemized price unless the seller elects to apply such percentage to:

(a) if the amount of the prepaid wireless communications service is disclosed to the prepaid consumer as a dollar amount, such dollar amount; or

(b) if the seller can identify the portion of the price that is attributable to the prepaid wireless communications service by reasonable and verifiable standards from its books and records that are kept in the regular course of business for other purposes, including non-tax purposes, such portion;

(6) if a minimal amount of prepaid wireless communications service is sold with a prepaid wireless device for a single, non-itemized price, the seller may elect not to apply the percentage specified in Subsection A of this section to such transaction. For the purposes of this paragraph, an amount of service denominated as ten minutes or less, or five dollars (\$5.00) or less, is minimal;

(7) surcharges collected by sellers shall be remitted to the taxation and revenue department at the times and in the manner provided with respect to the Gross Receipts and Compensating Tax Act. The department shall establish registration and

payment procedures that substantially coincide with the registration and payment procedures that apply to the Gross Receipts and Compensating Tax Act. A seller shall be permitted to deduct and retain three percent of surcharges that are collected by the seller from the prepaid consumer;

(8) the audit and appeal procedures applicable to the Gross Receipts and Compensating Tax Act shall apply to the surcharge;

(9) the taxation and revenue department shall establish procedures by which a seller of prepaid wireless communications services may document that a sale is not a retail transaction, which procedures shall substantially coincide with the procedures for documenting sale for resale transactions for the Gross Receipts and Compensating Tax Act; and

(10) notwithstanding Paragraph (1) of this subsection, if a 911 surcharge is imposed on prepaid wireless communications service pursuant to the Enhanced 911 Act, the taxation and revenue department shall promulgate rules to permit sellers to combine the surcharge imposed pursuant to this section and the surcharge imposed pursuant to the Enhanced 911 Act into a single surcharge on the invoice, receipt or other similar document that is provided to the prepaid consumer. The department shall ensure that appropriate surcharge revenues are directed proportionately to the respective 911 and telecommunications relay service funds.

D. A telecommunications company providing intrastate telecommunications services, a home service provider providing intrastate mobile telecommunications services and a seller of interconnected voice over internet protocol services shall, on sales subject to the telecommunications relay service surcharge, assess and collect the surcharge and remit the surcharge collected monthly to the taxation and revenue department on or before the twenty-fifth day of the month following collection. The department shall administer and enforce the collection of the surcharge in accordance with the Tax Administration Act.

E. The taxation and revenue department shall transfer the following amounts of the net receipts of the telecommunications relay service surcharge collected, less any amount deducted in accordance with Subsection F of this section, within the month following the month in which the surcharge is collected:

(1) twenty percent to the telecommunications access fund; and

(2) eighty percent to the 988 lifeline fund.

F. The taxation and revenue department may deduct an amount not to exceed three percent of the telecommunications relay service surcharge collected as a charge for the administrative costs of collection and shall remit that amount to the state treasurer for deposit in the general fund each month.

itemized as Paragraphs (3) through (16) in this subsection. The itemized program units are as follows:

- (1) early childhood education;

- (3) special education, adjusted by subtracting the units derived from membership in class D special education programs in private, nonsectarian, nonprofit training centers;
- (4) bilingual multicultural education;
- (5) fine arts education;
- (6) elementary physical education;
- (7) size adjustment;
- (8) at-risk;
- (9) enrollment growth or new district adjustment;
- (10) special education units derived from membership in class D special education programs in private, nonsectarian, nonprofit training centers;
- (11) national board for professional teaching standards certification;
- (12) home school student;
- (13) home school student activities;
- (14) charter school student activities;
- (15) K-12 plus; and
- (16) English learners.

B. The total program cost calculated as prescribed in Subsection A of this section includes the cost of early childhood, special, bilingual multicultural, fine arts and vocational education and other remedial or enrichment programs. It is the responsibility of the local school board or governing body of a charter school to determine its priorities in terms of the needs of the community served by that board. Except as otherwise provided in this section, funds generated pursuant to the Public School Finance Act are discretionary to local school boards and governing bodies of charter schools; provided that the special program needs as enumerated in this section are met; and provided

further that the department shall ensure that the local school board or governing body of a charter school is prioritizing resources for the public school toward proven programs and methods linked to improved student achievement."

Chapter 89 Section 4 Laws 2025

SECTION 4. Section 22-8-20 NMSA 1978 (being Laws 1991, Chapter 85, Section 3, as amended by Laws 1993, Chapter 2, Section 1 and by Laws 1993, Chapter 226, Sections 21 and 22 and also by Laws 1993, Chapter 228, Sections 2 and 3) is amended to read:

"22-8-20. BASIC PROGRAM UNITS.--The number of basic program units is determined by multiplying the basic program MEM in each grade by the corresponding cost differential factor as follows:

"22-8-23.3. AT-RISK PROGRAM UNITS.--

A. A school district or charter school is eligible for additional program units if it establishes within its department-approved educational plan identified services to assist students to reach their full academic potential. A school district or charter school receiving additional at-risk program units shall include a report of specified services implemented to improve the academic success of at-risk students. The report shall identify the ways in which the school district, charter school and individual public schools use funding generated through the at-risk index and the intended outcomes. For purposes of this section, "at-risk student" means a student who meets the criteria to be included in the calculation of the three-year average rate in Subsection B of this section. The number of additional units to which a school district or charter school is entitled under this section is computed in the following manner:

$$\text{At-Risk Index} \times \text{MEM} = \text{Units}$$

where MEM is equal to the total district or charter school membership, including early childhood education, full-time-equivalent membership and special education membership and where the at-risk index is calculated in the following manner:

$$\text{Three-Year Average Rate} \times 0.40 = \text{At-Risk Index.}$$

B. To calculate the three-year average rate, the department shall compute the preceding three-year average of the school district's or charter school's family income index rate.

C. The department shall recalculate the at-risk index for each school district and charter school every year.

D. For purposes of this section, "services" means research-based or evidence-based social, emotional or academic interventions, such as:

(1) case management, tutoring, reading interventions and after-school programs that are delivered by social workers, counselors, teachers or other professional staff;

(2) culturally relevant professional and curriculum development, including those necessary to support language acquisition, bilingual and multicultural education;

(3) additional compensation strategies for high-need schools;

(4) whole school interventions, including school-based health centers and community schools;

(5) educational programming intended to improve career and college readiness of at-risk students, including dual or concurrent enrollment, career and technical education, guidance counseling services and coordination with post-secondary institutions; and

(6) services to engage and support parents and families in the education of students."

SECTION 6. A new section of the Public School Finance Act, Section 22-8-23.15 NMSA 1978, is enacted to read:

"22-8-23.15. ENGLISH LEARNER PROGRAM UNITS.--

A. A school district or charter school is eligible for additional program units if it establishes identified services to assist English learners to attain English language

proficiency in a reasonable period of time. The number of additional units to which a school district or charter school is entitled pursuant to this section is computed in the following manner:

$$\text{Three-Year Average Rate} \times \text{MEM} \times 0.33 = \text{Units.}$$

B. To calculate the three-year average rate, the department shall compute the preceding three-year average of the school district's or charter school's percentage of MEM that is classified as an English learner, using criteria established by the office for civil rights of the United States department of education. The three-year average rate shall include students who have been reclassified as fluent English proficient in the preceding two school years, as determined by the department on the department-approved English language proficiency assessment.

C. The department shall recalculate the three-year average rate for each school district and charter school every year.

D. For the purposes of this section, "services" means research- or evidence-based social, emotional or academic interventions designed to improve student achievement and sustain student progress, such as:

(1) culturally sustaining case management, tutoring, language development interventions, out-of-school time programs and student service-leadership development opportunities;

(5) innovative staffing, scheduling and programming strategies that promote collaborative instruction; and

(6) services to support and partner with parents and families in the long-term success of students."

Chapter 89 Section 7 Laws 2025

SECTION 7. TEMPORARY PROVISION--PROTECTION FROM PROGRAM COST REDUCTIONS.--

A. Using money appropriated by the legislature for fiscal year 2026, the public education department shall supplement a school district's or charter school's calculated program cost in that fiscal year:

(1) if, for fiscal year 2026, the school district's or charter school's calculated program units are less than its final program units in fiscal year 2025, if the reduction is attributable to the implementation of Sections 2 through 6 of this act, an amount equal to one hundred percent of the reduction attributable to those sections; and

(2) if, in fiscal year 2026, the appropriation for the purpose of implementing this subsection is insufficient to supplement school districts and charter schools in accordance with Paragraph (1) of this subsection, then in an amount equal to the school district's or charter school's prorated share of the total appropriation.

B. On or before January 31, 2026, the public education department shall submit a report to the legislative education study committee and the legislative finance committee that states the need for a supplemental appropriation for fiscal year 2026 that shows:

(1) the total sum needed to supplement school districts and charter schools in accordance with this section; and

SECTION 1. Section 62-8-13 NMSA 1978 (being Laws 2020, Chapter 15, Section 3, as amended) is amended to read:

"62-8-13. APPLICATION FOR GRID MODERNIZATION PROJECTS--
ADVANCED GRID TECHNOLOGY PROJECTS.--

A. A public utility may file an application with the commission to approve grid modernization projects that are needed by the utility, or upon request of the commission. Applications may include requests for approval of investments or incentives to facilitate grid modernization, rate designs or programs that incorporate the use of technologies, equipment or infrastructure associated with grid modernization and customer education and outreach programs that increase awareness of grid modernization programs and of the benefits of grid modernization. Applications shall include the utility's estimate of costs for grid modernization projects. Applications may include requests for approval of advanced grid technology projects pursuant to Subsection G of this section. Applications for grid modernization projects shall be filed pursuant to Sections 62-9-1 and 62-9-3 NMSA 1978, as applicable.

B. When considering applications for approval, the commission shall review the reasonableness of a proposed grid modernization project and as part of that review shall consider whether the requested investments, incentives, programs and expenditures are:

(1) reasonably expected to improve the public utility's electrical system efficiency, reliability, resilience and security; maintain reasonable operations, maintenance and ratepayer costs; and meet energy demands through a flexible, diversified and distributed energy portfolio, including energy standards established in Section 62-16-4 NMSA 1978;

(2) designed to support connection of New Mexico's electrical grid into regional energy markets and increase New Mexico's capability to supply regional energy needs through export of clean and renewable electricity;

C. Except as provided in Subsection D of this section, a public utility that undertakes grid modernization projects approved by the commission may recover its reasonable costs through an approved tariff rider or in base rates, or by a combination of the two. Costs that are no greater than the amount approved by the commission for a utility grid modernization project are presumed to be reasonable. A tariff rider proposed by a public utility to fund approved grid modernization projects shall go into effect thirty days after filing, unless suspended by the commission for a period not to exceed one hundred eighty days. If the tariff rider is not approved or suspended within thirty days after filing, it shall be deemed approved as a matter of law. If the commission has not acted to approve or disapprove the tariff rider by the end of the suspension period, it shall be deemed approved as a matter of law.

D. Costs for a grid modernization project that only benefits customers of an electric distribution system shall not be recovered from customers served at a level of one hundred ten thousand volts or higher from an electric transmission system in New Mexico, except for advanced grid technology projects pursuant to Subsection G of this section.

E. The provisions of this section do not apply to a distribution cooperative organized pursuant to the Rural Electric Cooperative Act.

- (11) infrastructure and equipment necessary to support electric vehicle charging or the electrification of community infrastructure or industrial production, processing or transportation; and
- (12) new customer information platforms designed to provide improved customer access, greater service options and expanded access to energy usage information.

G. When considering advanced grid technology projects for approval, the commission shall review the reasonableness of the projects proposed and whether the investments, programs and expenditures of the project would:

- (1) reduce costs to ratepayers by avoiding or deferring the need for investment in new generation or transmission, including new rights of way;
- (2) assist with ensuring grid reliability, including transmission and distribution system stability, while integrating sources of renewable energy into the grid;
- (3) support the diversification of energy resources and enhance grid security;

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 107 Section 1 Laws 2025

SECTION 1. Section 7-9G-1 NMSA 1978 (being Laws 2004, Chapter 15, Section 1, as amended) is amended to read:

"7-9G-1. HIGH-WAGE JOBS TAX CREDIT--QUALIFYING HIGH-WAGE JOBS.--

A. A taxpayer that is an eligible employer may apply for, and the department may allow, a tax credit for each new high-wage job. The credit provided in this section may be referred to as the "high-wage jobs tax credit".

B. The purpose of the high-wage jobs tax credit is to provide an incentive for urban and rural businesses to create and fill new high-wage jobs in New Mexico.

C. The high-wage jobs tax credit may be claimed and allowed in an amount equal to eight and one-half percent of the wages distributed to an eligible employee in a new high-wage job but shall not exceed twelve thousand seven hundred fifty dollars (\$12,750) per job per qualifying period. The high-wage jobs tax credit may be claimed by an eligible employer for each new high-wage job performed for the year in which the new high-wage job is created and for consecutive qualifying periods.

D. To receive a high-wage jobs tax credit, a taxpayer shall file an application for approval of the credit with the department once per calendar year on forms and in the manner prescribed by the department. The annual application shall contain the certification required by Subsection K of this section and shall contain all qualifying periods that closed during the calendar year for which the application is made. Any qualifying period that did not close in the calendar year for which the application is made shall be denied by the department. The application for a calendar year shall be filed no later than December 31 of the following calendar year. If a taxpayer fails to file the annual application within the time limits provided in this section, the application shall be denied by the department. The department shall make a determination on the application within one hundred eighty days of the date on which the application was filed.

E. A new high-wage job shall not be eligible for a credit pursuant to this section for the initial qualifying period unless the eligible employer's total number of employees with threshold jobs on the last day of the initial qualifying period at the location at which the job is performed or based is at least one more than the number of threshold jobs on the day prior to the date the new high-wage job was created. A new high-wage job shall not be eligible for a credit pursuant to this section for a consecutive qualifying period unless the total number of threshold jobs at a location at which the job is performed or based on the last day of that qualifying period is greater than or equal to the number of threshold jobs at that same location on the last day of the initial qualifying period for the new high-wage job.

F. If a consecutive qualifying period for a new high-wage job does not meet the wage, occupancy and residency requirements, then the qualifying period is ineligible.

G. Except as provided in Subsection H of this section, a new high-wage job shall not be eligible for a credit pursuant to this section if:

(1) the new high-wage job is created due to a business merger or acquisition or other change in business organization;

(2) the eligible employee was terminated from employment in New Mexico by another employer involved in the business merger or acquisition or other change in business organization with the taxpayer; and

The new employer that results from a business merger or acquisition or other change in business organization may only claim the high-wage jobs tax credit for the balance of the consecutive qualifying periods for which the new high-wage job is otherwise eligible.

I. A new high-wage job shall not be eligible for a credit pursuant to this section if the job is created due to an eligible employer entering into a contract or becoming a subcontractor to a contract with a governmental entity that replaces one or more entities performing functionally equivalent services for the governmental entity unless the job is a new high-wage job that was not being performed by an employee of the replaced entity.

J. A new high-wage job shall not be eligible for a credit pursuant to this section if the eligible employer has more than one business location in New Mexico from which it conducts business and the requirements of Subsection E of this section are satisfied solely by moving the job from one business location of the eligible employer in New Mexico to another business location of the eligible employer in New Mexico.

K. With respect to each annual application for a high-wage jobs tax credit, the employer shall certify and include:

(1) the amount of wages paid to each eligible employee in a new high-wage job during the qualifying period;

(2) the number of weeks each position was occupied during the qualifying period;

(9) whether the eligible employer has ceased business operations at any of its business locations in New Mexico; and

(10) whether the application is precluded by Subsection O of this section.

L. Any person who willfully submits a false, incorrect or fraudulent certification required pursuant to Subsection K of this section shall be subject to all applicable penalties under the Tax Administration Act, except that the amount on which the penalty is based shall be the total amount of credit requested on the application for approval.

M. Except as provided in Subsection N of this section, an approved high-wage jobs tax credit shall be claimed against the taxpayer's modified combined tax liability and shall be filed with the return due immediately following the date of the credit approval. If the credit exceeds the taxpayer's modified combined tax liability, the excess shall be refunded to the taxpayer.

N. If the taxpayer ceases business operations in New Mexico while an application for credit approval is pending or after an application for credit has been approved for any qualifying period for a new high-wage job, the department shall not grant an additional high-wage jobs tax credit to that taxpayer except as provided in Subsection O of this section and shall extinguish any amount of credit approved for that taxpayer that has not already been claimed against the taxpayer's modified combined tax liability.

O. A taxpayer that has received a high-wage jobs tax credit shall not submit a new application for the credit for a minimum of two calendar years from the closing date of the last qualifying period for which the taxpayer received the credit if the taxpayer lost

eligibility to claim the credit from a previous application pursuant to Subsection N of this section.

"59A-37-32. SUPERVISORY COLLEGES.--

A. In order to determine compliance with the Insurance Holding Company Law by an insurer registered pursuant to Section 59A-37-11 NMSA 1978, the superintendent may participate in a supervisory college for a domestic insurer that is part of an insurance holding company system with international operations. Concerning a supervisory college, the superintendent may:

- (2) clarify its membership and the participation of other supervisors;

(3) clarify its functions and the role of other regulators, including the establishment of a group-wide supervisor;

(4) coordinate its ongoing activities, including planning meetings, supervision and processes for information sharing; and

(5) establish a crisis management plan.

B. A registered insurer subject to this section shall pay the reasonable expenses, including for travel, associated with the superintendent's participation in a supervisory college pursuant to Subsection C of this section. A supervisory college may be convened as a temporary or permanent forum for communication and cooperation between the regulators charged with the supervision of the insurer or its affiliates. The superintendent may establish a regular assessment to the insurer for the payment of these expenses.

C. In order to assess the business strategy, financial position, legal and regulatory position, risk exposure, risk management and governance processes of an insurer, and as part of the examination of individual insurers pursuant to Section 59A-37-23 NMSA 1978, the superintendent may participate in a supervisory college with other regulators charged with the supervision of the insurer or its affiliates, including other state, federal and international regulatory agencies. The superintendent may enter into agreements in accordance with Subsection C of Section 59A-37-24 NMSA 1978 that provide the basis for cooperation between the superintendent and the other regulatory agencies and the activities of the supervisory college. Nothing in this section shall delegate to the supervisory college the authority of the superintendent to regulate or supervise the insurer or its affiliates within its jurisdiction.

D. The superintendent may act as the group-wide supervisor for an internationally active insurance group and may also acknowledge another commissioner as the group-wide supervisor when the internationally active insurance group:

(1) does not have substantial insurance operations in the United States;

(2) has substantial insurance operations in the United States, but not in New Mexico; or

(3) has substantial operations in the United States, including in New Mexico, but the superintendent has determined that another commissioner is the appropriate group-wide supervisor.

E. An insurance holding company system that does not qualify as an internationally active insurance group may request that the superintendent make a determination as to a group-wide supervisor.

F. The superintendent shall identify a single group-wide supervisor for an internationally active insurance group in cooperation with other state, federal and international regulatory agencies.

G. The superintendent may determine that the superintendent is the appropriate group-wide supervisor for an internationally active insurance group that conducts substantial insurance operations conducted in New Mexico.

H. The superintendent may acknowledge that a commissioner from another jurisdiction is the appropriate group-wide supervisor. In making this determination, the superintendent shall consider the following factors:

(1) the place of domicile of the insurers within the internationally active insurance group that holds the largest share of the group's written premiums, assets or liabilities;

(2) the place of domicile of the top-tiered insurers in the insurance holding company's system of the internationally active insurance group;

(3) the location of the executive offices or largest operational offices of the internationally active insurance group;

(5) whether the commissioner acting or seeking to act as the group-wide supervisor provides the superintendent with reasonably reciprocal recognition and cooperation.

I. Another commissioner identified as the group-wide supervisor may determine that it is appropriate to acknowledge another supervisor to serve as the group-wide supervisor after considering the factors in Subsection H of this section. Such acknowledgment shall be made in cooperation with the subject of the acknowledgment, the internationally active insurance group and other commissioners involved with supervision of members of the internationally active insurance group.

J. Notwithstanding any other provision of law, when another commissioner is acting as the group-wide supervisor of an internationally active insurance group, the superintendent shall acknowledge that commissioner as the group-wide supervisor."

(3) an insurance holding company system whose non-United States group-wide supervisor is located in a reciprocal jurisdiction that recognizes the United States regulatory approach to group supervision and group capital; and

(4) an insurance holding company system:

(a) that provides information to a lead state that meets the association's accreditation requirements and financial standards; and

(b) whose non-United States group-wide supervisor recognizes and accepts the world-wide capital assessment for United States insurance groups that operate in that jurisdiction.

C. If an insurance holding company system is required to perform a group capital calculation with the United States federal reserve board, the superintendent shall request the calculation from the United States federal reserve board. If the United States federal reserve board cannot share the calculation, the insurance holding company system is not exempt from the group capital calculation report.

D. Notwithstanding any other provisions of this section, a lead state regulator shall require a group capital calculation for United States operation of any non-United States-based insurance holding company system where, after any necessary consultation with other commissioners, it is deemed appropriate by the lead state

regulator for prudential oversight and solvency monitoring purposes or for ensuring a competitive insurance marketplace.

E. Notwithstanding the filing exemptions provided in this section, the superintendent may exempt the ultimate controlling person from filing that annual group capital calculation and accept a limited group capital calculation report in accordance with criteria specified by the superintendent in regulation.

F. If the superintendent determines that an insurance holding company system no longer meets the requirements for an exemption, the insurance holding company system shall file the group capital calculation at the next annual filing date unless given an extension by the superintendent based on reasonable grounds shown."

A large life insurance company that does not meet the requirements of the scope criteria is considered scoped out of the association's liquidity stress test framework for that data year, unless the superintendent, in consultation with the association's financial stability task force or its successor, determines that the large life insurance company should be scoped into the liquidity stress test framework for that year.

D. The superintendent shall, in consultation with the association's financial stability task force or its successor, assess the concerns of the superintendent's wishes to avoid having insurers scoped in and out of the association's liquidity stress test framework.

E. The superintendent shall comply with the association's liquidity stress test framework instruction and reporting templates and shall file the results of a specific year's determinations.

F. A large life insurance company subject to registration pursuant to the provisions of the Insurance Code shall file the results of a specific year's liquidity stress test in accordance with the instructions in the financial analysis handbook adopted by the association as directed by the superintendent.

(7) federal water quality requirements;

G. shall assign responsibility for administering its rules to constituent agencies to assure adequate coverage and prevent duplication of effort. To this end, the commission may make such classification of waters and sources of water contaminants as will facilitate the assignment of administrative responsibilities to constituent agencies.

The commission shall also hear and decide disputes between constituent agencies as to jurisdiction concerning matters within the purpose of the Water Quality Act. In assigning responsibilities to constituent agencies, the commission shall give priority to the primary interests of the constituent agencies. The department shall provide technical services, including certification of permits pursuant to the federal act, and shall maintain a repository of the scientific data required by the Water Quality Act;

H. may enter into or authorize constituent agencies to enter into agreements with the federal government or other state governments for purposes consistent with the Water Quality Act and receive and allocate to constituent agencies funds made available to the commission;

I. may grant an individual variance from a rule of the commission whenever it is found that compliance with the rule will impose an unreasonable burden upon any lawful business, occupation or activity. The commission may only grant a variance conditioned upon a person effecting a particular abatement of water pollution within a reasonable period of time. A variance shall be granted for the period of time specified by the commission. The commission shall adopt rules specifying the procedure under which variances may be sought, which rules shall provide for the holding of a public hearing before a variance may be granted;

J. may adopt rules to require the filing with the commission or a constituent agency of proposed plans and specifications for the construction and operation of new sewer systems, treatment works or sewerage systems or extensions, modifications or additions to new or existing sewer systems, treatment works or sewerage systems. Filing with and approval by the federal housing administration of plans for an extension to an existing or construction of a new sewerage system intended to serve a subdivision solely residential in nature shall be deemed compliance with all provisions of this subsection;

K. may adopt rules requiring notice to the commission or a constituent agency of intent to introduce or allow the introduction of water contaminants into waters of the state;

L. shall specify in rules the measures to be taken to prevent water pollution and to monitor water quality. The commission may adopt rules for particular industries. The commission shall adopt rules for the dairy industry and the copper industry. The commission shall consider, in addition to the factors listed in Subsection F of this section, the best available scientific information. The rules may include variations in requirements based on site-specific factors, such as depth and distance to ground water and geological and hydrological conditions. The constituent agency shall establish an advisory committee composed of persons with knowledge and expertise particular to the industry category and other interested stakeholders to advise the constituent agency on appropriate rules to be proposed for adoption by the commission. The rules shall be developed and adopted in accordance with a schedule approved by the commission.

The schedule shall incorporate an opportunity for public input and stakeholder negotiations;

M. may adopt rules establishing pretreatment standards that prohibit or control the introduction into publicly owned sewerage systems of water contaminants that are not susceptible to treatment by the treatment works or that would interfere with the operation of the treatment works;

N. shall not require a permit respecting the use of water in irrigated agriculture, except in the case of the employment of a specific practice in connection with the irrigation that documentation or actual case history has shown to be hazardous to public health or the environment or for the use of produced water;

O. shall not require a permit for applying less than two hundred fifty gallons per day of private residential gray water originating from a residence for the resident's household gardening, composting or landscape irrigation if:

(1) a constructed gray water distribution system provides for overflow into the sewer system or on-site wastewater treatment and disposal system;

(2) a gray water storage tank is covered to restrict access and to eliminate habitat for mosquitos or other vectors;

(3) a gray water system is sited outside of a floodway;

(4) gray water is vertically separated at least five feet above the ground water table;

(5) gray water pressure piping is clearly identified as a nonpotable water conduit;

(6) gray water is used on the site where it is generated and does not run off the property lines;

(7) gray water is applied in a manner that minimizes the potential for contact with people or domestic pets;

(8) ponding is prohibited, application of gray water is managed to minimize standing water on the surface and to ensure that the hydraulic capacity of the soil is not exceeded;

(9) gray water is not sprayed;

(10) gray water is not discharged to a watercourse; and

(11) gray water use within municipalities or counties complies with all applicable municipal or county ordinances enacted pursuant to Chapter 3, Article 53 NMSA 1978;

P. shall coordinate application procedures and funding cycles for loans and grants from the federal government and from other sources, public or private, with the local government division of the department of finance and administration pursuant to the New Mexico Community Assistance Act;

Q. shall adopt rules to be administered by the department for the discharge, handling, transport, storage, recycling or treatment for the disposition of treated produced water, including disposition in road construction maintenance, roadway ice or dust control or other construction, or in the application of treated produced water to land, for activities unrelated to the exploration, drilling, production, treatment or refinement of oil or gas;

R. shall adopt rules to be administered by the department for surface water discharges, including:

(1) for discharges from point sources, the rules shall not require a permit for a point source discharge for which a permit is issued under Section 402 of the federal Clean Water Act or the New Mexico Pollutant Discharge Elimination System Act; provided that in adopting rules related to this paragraph, in addition to the factors to be considered under Subsection F of this section, the commission may:

(a) identify exemptions from a discharge permit requirement when water contaminants in discharges are subject to effective and enforceable water quality requirements in a state or federally issued permit, unless there is a hazard to public health or the environment that may result or an applicable state water quality standard will not be achieved; and

(b) consider requirements for permits and general permits that are consistent with the requirements of similar permits issued under Section 402 of the federal Clean Water Act; and

(2) for discharges of dredged or fill material, the rules shall not require a permit for discharges of dredged or filled materials for which a permit or authorization is issued under Section 404 of the federal Clean Water Act; provided that the rules shall include avoidance and minimization to the maximum extent practicable of adverse impacts to wetlands, streams and other aquatic resources and may require compensatory mitigation for unavoidable adverse impacts that remain after appropriate and practicable avoidance and minimization measures have been achieved; and provided further that in adopting rules related to this paragraph, in addition to the factors to be considered under Subsection F of this section, the commission may:

(a) identify exemptions from a discharge permit requirement when a discharge is subject to effective and enforceable water quality requirements in a state or federally issued permit, unless there is a hazard to public health or the environment that may result or an applicable state water quality standard will not be achieved; and

(b) consider the requirements for permits and general permits that are consistent with the requirements of similar permits issued under Section 404 of the federal Clean Water Act;

S. may adopt rules to be administered by the department for the state to respond to, investigate and remediate water pollution and contamination in soil and soil vapor for the protection of human health and the environment; and

T. shall adopt rules to be administered by the department to govern the transfer and use of treated domestic wastewater for potable reuse. The rules may specify a standard of performance, including log reduction for pathogen removal, critical control points, barriers and the greatest reduction in the concentration of water contaminants and pathogens that the commission determines to be achievable through application of the best available demonstrated control technology, processes, operating methods or other alternatives, including, where practicable, a standard permitting no risk to human health. The rules governing the potable reuse of domestic wastewater may include the use of existing permitting systems or create new permitting rules that include the means necessary to assure that potable reuse projects are conducted in a manner that is directly protective of human health."

Chapter 112 Section 3 Laws 2025

SECTION 3. Section 74-6-5 NMSA 1978 (being Laws 1973, Chapter 326, Section 4, as amended) is amended to read:

"74-6-5. PERMITS--CERTIFICATION--APPEALS TO COMMISSION.--

A. By rule, the commission may require a person to obtain from a constituent agency designated by the commission a permit or general permit coverage for the discharge of a water contaminant or for the disposal or reuse of septage or sludge.

B. The commission shall adopt rules establishing procedures for certifying federal water quality permits.

C. Prior to the issuance of a permit or approval of general permit coverage, the constituent agency may require the submission of plans, specifications and other relevant information that it deems necessary.

D. The commission shall by rule set the dates upon which applications for permits shall be filed and designate the time periods within which the constituent

agency shall, after the filing of an administratively complete application for a permit, either grant the permit, grant the permit subject to conditions or deny the permit. The constituent agency has the burden of showing that each condition is reasonable and necessary to ensure compliance with the Water Quality Act and applicable rules, considering site-specific conditions. After rules have been adopted for a particular industry, permits for facilities in that industry shall be subject to conditions contained in the rules. Additional conditions on a final permit may be imposed if the applicant is provided with an opportunity to review and provide comments in writing on the draft permit conditions and to receive a written explanation of the reasons for the conditions from the constituent agency.

E. The constituent agency shall deny an application for a permit or request for general permit coverage or deny the certification of a federal water quality permit if:

- (1) the effluent would not meet applicable state or federal effluent regulations, standards of performance or limitations;
- (2) a provision of the Water Quality Act would be violated;
- (3) the discharge would cause or contribute to water contaminant levels in excess of a state or federal standard. Determination of the discharge's effect on ground water shall be measured at a place of withdrawal of water for present or reasonably foreseeable future use. Determination of the discharge's effect on surface waters shall be measured at the point of discharge;
- (4) the surface water discharge would cause or contribute to water contaminant levels in excess of a downstream state or tribal water quality standard; or
- (5) the applicant has, within the ten years immediately preceding the date of submission of the permit application or request for general permit coverage:
 - (a) knowingly misrepresented a material fact in an application for a permit or request for general permit coverage;
 - (b) refused or failed to disclose information required pursuant to the Water Quality Act;
 - (c) been convicted of a felony or other crime involving moral turpitude;
 - (d) been convicted of a felony in court for a crime defined by state or federal law as being a restraint of trade, price-fixing, bribery or fraud;
 - (e) exhibited a history of willful disregard for environmental laws of a state or the United States; or

(f) had an environmental permit revoked or permanently suspended for cause under environmental laws of a state or the United States.

F. For ground water discharge permits, the commission shall by rule develop procedures that ensure that the public and affected governmental agencies, Indian nations, tribes and pueblos and other states shall receive notice of each application and draft of a new permit, a modification of a permit or a renewal of a permit. Public notice shall include:

(1) for issuance of new permits or permit modifications:

(a) notice to adjacent and nearby landowners using postal or electronic mail;

(b) notice to affected local, state and federal government agencies, land grant organizations, ditch associations and Indian nations, tribes and pueblos using postal or electronic mail;

(c) posting the notice at a place conspicuous to the public and near the discharge or proposed discharge site;

(d) a display advertisement in English and Spanish in a newspaper of general circulation in the location of the discharge or proposed discharge site; provided, however, that the advertisement shall not be displayed in the classified or legal advertisement sections; and

(e) consideration of the languages spoken by and the communication methods accessible to the intended recipients of the public notice; and

(2) for permit renewals:

(a) notice by postal or electronic mail to the interested public;

(b) notice to affected local, state and federal government agencies, land grant organizations, ditch associations and Indian nations, tribes and pueblos;

(c) a display advertisement in English and Spanish in a newspaper of general circulation in the location of the discharge site; provided, however, that the advertisement shall not be displayed in the classified or legal advertisement sections; and

(d) consideration of the languages spoken by and the communication methods accessible to the intended recipients of the public notice.

G. For surface water discharge permits, the commission shall by rule develop procedures that ensure that the public and affected governmental agencies, Indian nations, tribes and pueblos and other states shall receive notice of each draft permit. Public notice shall include the following, except that for a general permit, Paragraphs (1) and (3) of this subsection shall not be required:

(1) notice to adjacent and nearby landowners using postal or electronic mail;

(2) notice to affected local, state and federal government agencies, land grant organizations, ditch associations and Indian nations, tribes and pueblos using postal or electronic mail;

(3) for new surface water discharge permits or permit modifications, posting at a place conspicuous to the public and near the discharge or proposed discharge site;

(4) notice to the general public and others whom the commission deems appropriate using one or more reasonable and appropriate methods, such as electronic mail to persons who have requested notification, social media posts, radio announcements or advertisements in a newspaper of general circulation in the location of the discharge or proposed discharge site; and

(5) consideration of the languages spoken by and the communication methods accessible to the intended recipients of the public notice.

H. No ruling shall be made on a draft permit without opportunity for a public hearing at which all interested persons shall be given a reasonable chance to submit evidence, data, views or arguments orally or in writing and to examine witnesses testifying at the hearing. The hearing shall be recorded. A person submitting evidence, data, views or arguments shall be subject to examination at the hearing.

I. The commission may adopt rules for the operation and maintenance of the permitted facility, including requirements, as may be necessary or desirable, that relate to continuity of operation, personnel training and financial responsibility, including financial responsibility for corrective action.

J. Permits shall be issued for fixed terms of five years, except that surface water discharge permits may be issued for fixed terms of up to ten years. For new discharges, the term of the permit shall commence on the date the discharge begins, but in no event shall the term of the permit exceed seven years from the date the permit was issued.

K. By rule, the commission may impose reasonable conditions upon permits requiring permittees to:

- (1) install, use and maintain monitoring devices;
- (2) sample effluents and receiving waters for any known or suspected water contaminants in accordance with methods and at locations and intervals as may be prescribed by the commission;
- (3) establish and maintain records of the nature and amounts of effluents and the performance of effluent control devices;
- (4) provide other information relating to the discharge or direct or indirect release of water contaminants; and
- (5) notify a constituent agency of the introduction of new water contaminants from a new source and of a substantial change in volume or character of water contaminants being introduced from sources in existence at the time of the issuance of the permit.

L. The commission shall provide by rule a schedule of fees for permits and approvals of general permit coverage to support the cost of developing and implementing the permitting rules authorized pursuant to Section 74-6-4 NMSA 1978, including the review of applications, issuance and enforcement of permits and rules, compliance assistance, monitoring and inspection of facilities and discharges, data stewardship, records management and administrative and legal costs. Fees collected pursuant to this section shall be deposited in the water quality management fund.

M. The issuance of a permit or approval of or request for a general permit coverage does not relieve a person from the responsibility of complying with the provisions of the Water Quality Act, any applicable rules or water quality standards of the commission or any applicable federal laws, regulations or standards.

N. A permit or general permit coverage may be terminated or modified by the constituent agency that issued the permit or approved the general permit coverage prior to its date of expiration for any of the following causes:

- (1) violation of a condition of the permit;
- (2) obtaining the permit or general permit coverage by misrepresentation or failure to disclose fully all relevant facts;
- (3) violation of the provisions of the Water Quality Act or any applicable rules, standard of performance or water quality standards;
- (4) violation of applicable state or federal effluent regulations or limitations; or

(5) change in a condition that requires either a temporary or permanent reduction or elimination of the permitted discharge.

O. If the constituent agency denies, terminates or modifies a permit or general permit coverage or grants a permit subject to condition, the constituent agency shall notify the applicant or permittee by certified mail or other method acceptable to the applicant or permittee of the action taken and the reasons. Notice shall also be given by postal or electronic mail to persons who participated in the permitting action.

P. A person who participated in a permitting action before a constituent agency or a person affected by a certification of a federal permit and who is adversely affected by the permitting action or certification may file a petition for review before the commission. Unless a timely petition for review is made, the decision of the constituent agency shall be final and not subject to judicial review. The petition shall:

(1) be made in writing to the commission within thirty days from the date notice is given of the constituent agency's action;

(2) include a statement of the issues to be raised and the relief sought;
and

(3) be provided to all other persons submitting evidence, data, views or arguments in the proceeding before the constituent agency.

Q. If a timely petition for review is made, the commission shall consider the petition within ninety days after receipt of the petition. The commission shall notify the petitioner and the applicant or permittee, if other than the petitioner, by certified mail of the date, time and place of the review. If the petitioner is not the applicant or permittee, the applicant or permittee shall be a party to the proceeding. The commission shall ensure that the public receives notice of the date, time and place of the review.

R. The commission shall review the record compiled before the constituent agency, including the transcript of a public hearing held on the application or draft permit, and shall allow any party to submit arguments. The commission may designate a hearing officer to review the record and the arguments of the parties and recommend a decision to the commission. The commission shall consider and weigh only the evidence contained in the record before the constituent agency and the recommended decision of the hearing officer, if any, and shall not be bound by the factual findings or legal conclusions of the constituent agency. Based on the review of the evidence, the arguments of the parties and recommendations of the hearing officer, the commission shall sustain, modify or reverse the action of the constituent agency. The commission shall enter ultimate findings of fact and conclusions of law and keep a record of the review.

S. Prior to the date set for review, if a party shows to the satisfaction of the commission that there was no reasonable opportunity to submit comment or evidence

on an issue being challenged, the commission shall order that additional comment or evidence be taken by the constituent agency. Based on the additional evidence, the constituent agency may revise the decision and shall promptly file with the commission the additional evidence received and action taken. The commission shall consider the additional evidence within ninety days after receipt of the additional evidence and shall notify the petitioner and the applicant or permittee, if other than the petitioner, of the date, time and place of the review.

T. The commission shall notify the petitioner and all other participants in the review proceeding of the action taken by the commission and the reasons for that action.

U. The only exemptions from surface water discharge permits for point sources are:

- (1) return flows composed entirely from irrigated agriculture;
- (2) stormwater runoff from a mining operation or an oil and gas exploration, production, processing or treatment operation or transmission facility that is composed entirely of flows that are from conveyances or systems of conveyances, including pipes, conduits, ditches and channels, used for collecting and conveying precipitation runoff and that are not contaminated by contact with, or do not come into contact with, any overburden, raw material, intermediate products, finished product, byproduct or waste product located on the site of the operation or facility; provided that oil and gas exploration, production, processing or treatment operations or transmission facilities include activities necessary to prepare a site for drilling and for the movement and placement of drilling equipment, whether or not the field activities or operations may be considered to be construction activities;
- (3) runoff resulting from the following silviculture activities conducted in accordance with standard industry practice:
 - (a) nursery operations;
 - (b) site preparation;
 - (c) reforestation and subsequent cultural treatment;
 - (d) thinning;
 - (e) prescribed burning;
 - (f) pest and fire control;
 - (g) harvesting operations;

(h) surface drainage; and

(i) road construction and maintenance; and

(4) discharges and water contaminants that are subject to effective and enforceable surface water quality requirements in a state or federally issued permit, unless there is a hazard to public health or the environment that may result or an applicable state water quality standard will not be achieved.

V. The only exemptions from surface water discharge permits for discharges of dredged or fill material are:

(1) normal farming, silviculture and ranching activities such as plowing, seeding, cultivating, minor drainage, harvesting for the production of food, fiber and forest products or upland soil and water conservation practices;

(2) maintenance, including emergency reconstruction of recently damaged parts, of currently serviceable structures such as dikes, dams, levees, groins, riprap, breakwaters, causeways and bridge abutments or approaches and transportation structures;

(3) construction or maintenance of farm or stock ponds, acequias or irrigation ditches or the maintenance of drainage ditches;

(4) construction of temporary sedimentation basins on a construction site that does not include placement of fill material into the surface waters;

(5) construction or maintenance of farm roads, forest roads or temporary roads for moving mining equipment, where such roads are constructed and maintained, in accordance with best management practices, to assure that:

(a) flow and circulation patterns and chemical and biological characteristics of the surface waters are not impaired;

(b) the reach of the surface waters is not reduced; and

(c) any adverse effect on the aquatic environment will be otherwise minimized; and

(6) discharges that are subject to effective and enforceable surface water quality requirements in a state-issued or federally issued permit, unless there is a hazard to public health or the environment that may result or an applicable state water quality standard will not be achieved.

W. The exemptions provided in Subsection V of this section shall not apply if the discharge resulting from the activities contains any toxic pollutant as set forth in rule

by the commission or if a new activity brings a surface water of the state into farm production where the area of the surface water has not previously been used for farming."

Chapter 112 Section 4 Laws 2025

SECTION 4. Section 74-6-5.2 NMSA 1978 (being Laws 1993, Chapter 100, Section 4) is amended to read:

- D. respond to, investigate and remediate water pollution and contamination in soil and soil vapor; provided that in its investigation, the department shall identify responsible parties and shall prepare a written report of the investigation; and provided

further that prior to remediation of water pollution and soil contamination in soil and soil vapor, the department shall:

- (1) prepare a work plan consistent with rules adopted by the commission;
- (2) issue public notice of the work plan; and
- (3) provide opportunities for public comment and participation in accordance with rules adopted by the commission;

E. make every reasonable effort to obtain voluntary cooperation in the prevention or abatement of water pollution;

F. upon presentation of proper credentials, enter at reasonable times upon or through any premises in which a water contaminant source is located or in which are located any records required to be maintained by regulations of the federal government or the commission; provided that entry into any private residence without the permission of the owner shall be only by order of the district court for the county in which the residence is located and that, in connection with any entry provided for in this subsection, the constituent agency may:

- (1) have access to and reproduce for its use any copy of the records;

(1) issue a compliance order requiring compliance immediately or within a specified time period or issue a compliance order assessing a civil penalty, or both; or

(2) commence a civil action in district court for appropriate relief, including injunctive relief.

B. A compliance order issued pursuant to Paragraph (1) of Subsection A of this section may include a suspension or termination of the permit allegedly violated.

C. A compliance order shall state with reasonable specificity the nature of the violation. Any penalty assessed in the compliance order shall not exceed:

(1) fifteen thousand dollars (\$15,000) per day of noncompliance with the provisions in Section 74-6-5 NMSA 1978, including a regulation adopted or a permit issued pursuant to that section; or

D. In assessing a penalty authorized by this section, the constituent agency shall take into account the seriousness of the violation, any good faith efforts to comply with the applicable requirements and other relevant factors.

E. For purposes of this section, a single operational event that leads to simultaneous violations of more than one standard shall be treated as a single violation.

F. If a person fails to take corrective actions within the time specified in a compliance order, the constituent agency may:

(1) assess a civil penalty of not more than twenty-five thousand dollars (\$25,000) for each day of continued noncompliance with the compliance order; and

(2) suspend or terminate the permit violated by the person.

G. A compliance order issued by a constituent agency pursuant to this section shall become final unless, no later than thirty days after the compliance order is served, a person named in the compliance order submits a written request to the commission for a public hearing. A. The Water Quality Act does not grant to the commission or to any other entity the power to take away or modify the property rights in water, nor is it the intention of the Water Quality Act to take away or modify such rights.

B. The Water Quality Act does not apply to an activity or condition subject to the authority of the environmental improvement board pursuant to the Hazardous Waste Act, the Ground Water Protection Act or the Solid Waste Act except to abate water pollution or to control the disposal or use of septage and sludge.

C. The Water Quality Act does not authorize the commission to adopt a rule with respect to a condition or quality of water if the water pollution and its effects are confined entirely within the boundaries of property within which the water pollution occurs when the water does not combine with other waters.

D. The Water Quality Act does not grant to the commission any jurisdiction or authority affecting the relation between employers and employees with respect to or arising out of a condition or quality of water.

E. The Water Quality Act does not supersede or limit the applicability of a law relating to industrial health, safety or sanitation.

F. Except as required by federal law or for surface water discharges permitted pursuant to the Water Quality Act, in the adoption of rules and water quality standards and in an action for enforcement of the Water Quality Act and rules adopted pursuant to that act, reasonable degradation of water quality resulting from beneficial use shall be allowed. The degradation shall not result in impairment of water quality to the extent that water quality standards are exceeded.

G. Except for a surface water discharge for which a permit is required under rules adopted pursuant to Subsection R of Section 74-6-4 NMSA 1978, the Water Quality Act does not apply to an activity or condition subject to the authority of the oil conservation commission pursuant to provisions of the Oil and Gas Act and other laws conferring power on the oil conservation commission to prevent or abate water pollution.

H. When changes in dissolved oxygen, temperature, dissolved solids, sediment or turbidity in a water of the state is attributable to natural causes or to the reasonable operation of irrigation and flood control facilities that are not subject to federal or state water pollution control permitting, numerical standards for temperature, dissolved solids content, dissolved oxygen, sediment or turbidity adopted under the Water Quality Act do not apply. "Reasonable operation", as used in this subsection, shall be defined by rule of the commission."

Chapter 112 Section 8 Laws 2025

SECTION 8. A new section of the Water Quality Act is enacted to read:

"NEGLECTED AND CONTAMINATED SITES FUND--CREATED.--

A. The "neglected and contaminated sites fund" is created as a nonreverting fund in the state treasury. The fund consists of appropriations, gifts, grants, donations and money received by the department. Unless otherwise required by law, money received or recovered by the state by or on behalf of the department arising from claims for enforcement actions, response actions or response costs relating to the contamination liability, including any fees, settlement funds, recovered litigation costs and any interest derived therefrom, shall be deposited in the fund.

B. The department shall administer the fund. Money in the fund is appropriated to the department for the state to respond to, investigate and remediate water pollution and contamination in soil and soil vapor.

C. Money in the fund shall be disbursed on warrants signed by the secretary of finance and administration pursuant to vouchers signed by the secretary of environment or the secretary's designee."

Chapter 112 Section 9 Laws 2025

SECTION 9. A new section of the Water Quality Act is enacted to read:

"LIABILITY--SCOPE--DEFENSES--CONTRIBUTION.--

A. Liability for the prevention or abatement of water pollution exists if there has been an actual or threatened release of a water contaminant that causes the requirement for response or remediation, or the incurrence of response or remediation costs. Responsible parties may be liable for the release of a water contaminant that occurred prior to and since the effective date of this 2025 act.

B. Liability shall include:

- (1) all costs of removal or remedial action incurred by the state;
- (2) any other necessary costs of response incurred by any other person;
- (3) damages for injury to, destruction of or loss of natural resources, including the reasonable costs of assessing such injury, destruction or loss, resulting from a release of water contaminants; and
- (4) the cost of any health assessment or health effects study carried out pursuant to rules promulgated by the commission.

C. Liability defenses of the responsible party shall include, if established by a preponderance of the evidence:

- (1) an act of God;
- (2) an act of war;

Senate Bill 88, aa
Approved April 8, 2025

AN ACT

RELATING TO PUBLIC FUNDS; CREATING THE MEDICAID TRUST FUND AND THE STATE-SUPPORTED MEDICAID FUND; REQUIRING CERTAIN BALANCES OF REVERTING FUNDS AND ACCOUNTS TO BE TRANSFERRED FROM THE GENERAL FUND TO THE MEDICAID TRUST FUND.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 113 Section 1 Laws 2025

SECTION 1. MEDICAID TRUST FUND.--

A. The "medicaid trust fund" is created as a nonreverting fund in the state treasury. The trust fund consists of distributions, appropriations, gifts, grants and donations. Income from investment of the trust fund shall be credited to the trust fund. Money in the trust fund shall be expended only as provided in this section.

B. The state investment officer shall invest money in the trust fund in accordance with the prudent investor rule as set forth in Chapter 6, Article 8 NMSA 1978 and in consultation with the health care authority.

C. The state investment officer shall report quarterly to the legislative finance committee and the state investment council on the investments made pursuant to this section. An annual report shall be submitted no later than October 1 of each year to the legislative finance committee, the revenue stabilization and tax policy committee and any other appropriate interim committees.

D. On July 1, 2029 and each July 1 thereafter, a distribution shall be made from the trust fund to the state-supported medicaid fund in an amount equal to five percent of the average of the year-end market values of the trust fund for the immediately preceding three calendar years; provided that a distribution shall not be made until the balance of the trust fund at the end of a fiscal year is at least five hundred million dollars (\$500,000,000).

E. Money in the trust fund may be appropriated for any purpose if, in a fiscal year, federal matching funds for the state medicaid program:

(1) decrease by at least seven and one-half percent from the previous fiscal year; or

(2) are less than a one-to-one match with money appropriated by the legislature for the program.

F. In fiscal years 2026 through 2029, money in the trust fund may be appropriated to support the state medicaid program if a reduction in federal medicaid funding received by the state will cause a reduction in coverage or benefits below the levels provided as of the effective date of this 2025 act.

G. Money in the trust fund may be expended in the event that general fund balances, including all authorized revenues and transfers to the general fund and balances in the general fund operating reserve, the appropriation contingency fund, the tax stabilization reserve and the early childhood education and care fund, will not meet the level of appropriations authorized from the general fund for a fiscal year. In that event, to avoid an unconstitutional deficit, the legislature may appropriate from the trust fund to the general fund only in the amount necessary to meet general fund appropriations for that fiscal year and only if the legislature has authorized transfers from the appropriation contingency fund, the general fund operating reserve, the tax stabilization reserve and the early childhood education and care fund that exhaust those fund balances.

Chapter 113 Section 2 Laws 2025

SECTION 2. STATE-SUPPORTED MEDICAID FUND.--The "state-supported medicaid fund" is created in the state treasury. The fund consists of distributions, appropriations, gifts, grants, donations and income from investment of the fund. The health care authority shall administer the fund. Money in the fund is subject to appropriation by the legislature to support the state medicaid program and to match federal funds for the state medicaid program. Expenditures from the fund shall be by warrant of the secretary of finance and administration pursuant to vouchers signed by the secretary of health care authority or the secretary's authorized representative. Any unexpended or unencumbered balance remaining at the end of a fiscal year shall revert to the medicaid trust fund.

Chapter 113 Section 3 Laws 2025

SECTION 3. Section 6-5-10 NMSA 1978 (being Laws 1994, Chapter 11, Section 1, as amended) is amended to read:

The division may adjust the reversion within forty-five days of release of the audit report for that fiscal year.

B. By October 1 of each year, the balance of the reversions in excess of one hundred ten million dollars (\$110,000,000) for the previous fiscal year shall be transferred to the medicaid trust fund until the balance of the medicaid trust fund reaches two billion dollars (\$2,000,000,000) as of the end of a fiscal year.

C. The director of the division may modify a reversion required pursuant to Subsection A of this section or a transfer made pursuant to Subsection B of this section if the reversion made pursuant to Subsection A of this section would violate federal law or rules pertaining to supplanting of state funds with federal funds or other applicable federal provisions."

AN ACT

RELATING TO TELECOMMUNICATIONS; AMENDING SECTION 63-9H-6 NMSA 1978 (BEING LAWS 1999, CHAPTER 295, SECTION 6, AS AMENDED); INCREASING THE AMOUNT FROM THE STATE RURAL UNIVERSAL SERVICE FUND ALLOCATED TO THE BROADBAND PROGRAM FROM THIRTY MILLION DOLLARS (\$30,000,000) LESS CERTAIN EXPENSES TO FORTY MILLION DOLLARS (\$40,000,000) LESS CERTAIN EXPENSES; INCREASING THE CAP ON OBLIGATIONS OF THE STATE RURAL UNIVERSAL SERVICE FUND PLUS ADMINISTRATIVE EXPENSES AND A PRUDENT FUND BALANCE FROM THIRTY MILLION DOLLARS (\$30,000,000) TO FORTY MILLION DOLLARS (\$40,000,000).

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Chapter 117 Section 1 Laws 2025

SECTION 1. Section 63-9H-6 NMSA 1978 (being Laws 1999, Chapter 295, Section 6, as amended) is amended to read:

"63-9H-6. STATE RURAL UNIVERSAL SERVICE FUND--ESTABLISHMENT.--

A. The commission shall implement and maintain a "state rural universal service fund" to maintain and support universal service that is provided by eligible telecommunications carriers, including commercial mobile radio services carriers, as are determined by the commission. As used in this section, "universal service" means basic local exchange service, comparable retail alternative services at affordable rates, service pursuant to a low-income telephone assistance plan and broadband internet access service to unserved and underserved areas as determined by the commission.

B. The fund shall be financed by a surcharge on intrastate retail public telecommunications services to be determined by the commission, excluding services provided pursuant to a low-income telephone assistance plan billed to end-user customers by a telecommunications carrier, and excluding all amounts from surcharges,

gross receipts taxes, excise taxes, franchise fees and similar charges. For the purpose of funding the fund, the commission has the authority to apply the surcharge on intrastate retail public telecommunications services provided by telecommunications carriers, including commercial mobile radio services and voice over internet protocol services, at a competitively and technologically neutral rate or rates to be determined by the commission. The commission may establish the surcharge as a percentage of intrastate retail public telecommunications services revenue or as a fixed amount applicable to each communication connection. For purposes of this section, a "communication connection" means a voice-enabled telephone access line, wireless voice connection, unique voice over internet protocol service connection or other uniquely identifiable functional equivalent as determined by the commission. Such surcharges shall be competitively and technologically neutral. Money deposited in the fund is not public money, and the administration of the fund is not subject to the provisions of law regulating public funds. The commission shall not apply this surcharge to a private telecommunications network; to the state, a county, a municipality or other governmental entity; to a public school district; to a public institution of higher education; to an Indian nation, tribe or pueblo; or to Native American customers who reside on tribal or pueblo land.

C. The fund shall be competitively and technologically neutral, equitable and nondiscriminatory in its collection and distribution of funds, portable between eligible telecommunications carriers and additionally shall provide a specific, predictable and sufficient support mechanism as determined by the commission that ensures universal service in the state.

D. The commission shall:

(1) establish eligibility criteria for participation in the fund consistent with federal law that ensure the availability of universal service at affordable rates. The eligibility criteria shall not restrict or limit an eligible telecommunications carrier from receiving federal universal service support;

(2) provide for the collection of the surcharge on a competitively neutral basis and for the administration and disbursement of money from the fund;

(3) determine those services and areas requiring support from the fund;

(4) provide for the separate administration and disbursement of federal universal service funds consistent with federal law; and

(5) establish affordability benchmark rates for local residential and business services that shall be utilized in determining the level of support from the fund. The process for determining subsequent adjustments to the benchmark shall be established through a rulemaking.

E. All incumbent telecommunications carriers and competitive carriers already designated as eligible telecommunications carriers for the fund shall be eligible for participation in the fund. All other carriers that choose to become eligible to receive support from the fund may petition the commission to be designated as an eligible telecommunications carrier for the fund. The commission may grant eligible carrier status to a competitive carrier in a rural area upon a finding that granting the application is in the public interest. In making a public interest finding, the commission may consider at least the following items:

- (1) the impact of designation of an additional eligible carrier on the size of the fund;
- (2) the unique advantages and disadvantages of the competitor's service offering; and
- (3) any commitments made regarding the quality of telephone service.

F. The commission shall adopt rules, including a provision for variances, for the implementation and administration of the fund in accordance with the provisions of this section. The rules shall enumerate the appropriate uses of fund support and any restrictions on the use of fund support by eligible telecommunications carriers. The rules shall require that an eligible telecommunications carrier receiving support from the fund pursuant to Subsection K, L, M or N of this section must expend no less than sixty percent of the support it receives to deploy and maintain broadband internet access services in rural areas of the state. The rules also shall provide for annual reporting by eligible telecommunications carriers verifying that the reporting carrier continues to meet the requirements for designation as an eligible telecommunications carrier for purposes of the fund and is in compliance with the commission's rules, including the provisions regarding use of support from the fund.

G. The commission shall, upon implementation of the fund, select a neutral third-party administrator to collect, administer and disburse money from the fund under the supervision and control of the commission pursuant to established criteria and rules promulgated by the commission. The administrator may be reasonably compensated for the specified services from the surcharge proceeds to be received by the fund pursuant to Subsection B of this section. For purposes of this subsection, the commission shall not be a neutral third-party administrator.

H. The fund established by the commission shall ensure the availability of universal service as determined by the commission at affordable rates in rural areas of the state; provided, however, that nothing in this section shall be construed as granting any authority to the commission to impose the surcharge on or otherwise regulate broadband internet access services.

I. The commission shall ensure that intrastate switched access charges are equal to interstate switched access charges established by the federal communications

commission as of January 1, 2006. Nothing in this section shall preclude the commission from considering further adjustments to intrastate switched access charges based on changes to interstate switched access charges.

J. To ensure that providers of intrastate retail communications service contribute to the fund and to further ensure that the surcharge determined pursuant to Subsection B of this section to be paid by the end-user customer will be held to a minimum, the commission shall adopt rules, or take other appropriate action, to require all such providers to participate in a plan to ensure accurate reporting.

K. The commission shall authorize payments from the fund to incumbent local exchange carriers, in combination with revenue-neutral rate rebalancing up to the affordability benchmark rates. Beginning in 2018, the commission shall make access reduction support payments in the amount made from the fund in base year 2014, adjusted each year thereafter by:

(1) the annual percentage change in the number of access lines served by the incumbent local exchange carriers receiving such support for the prior calendar year, as compared to base year 2014; and

(2) changes in the affordability benchmark rates that have occurred since 2014.

L. Notwithstanding the provisions of Subsection K of this section, the annual amount of access reduction support payments for an eligible incumbent local exchange carrier in 2024, 2025 and 2026 shall be equal to the annual access reduction support payments for that eligible incumbent local exchange carrier for the year 2023. Access reduction support payments shall be terminated after December 31, 2026.

M. The commission shall determine the methodology to be used to authorize payments to all other carriers that apply for and receive eligible carrier status; provided that:

(1) an eligible incumbent telecommunications carrier that is not eligible for funding pursuant to rate rebalancing in Subsection K of this section and that has been previously authorized pursuant to Subsection N of this section for need-based support may apply for ongoing fund support;

(2) the commission shall award an applicant ongoing fund support at no less than the average access line amount of funding support for comparable carriers; provided that an eligible telecommunications carrier receiving fund support pursuant to this subsection shall not offer basic local exchange residential and business services at rate levels lower than the rates for such services charged by any of the comparable carriers used for the determination of the level of support;

(3) the commission shall act upon a request for ongoing fund support within one hundred twenty days of the filing of the request; and

(4) nothing in this section shall limit the commission's authority to adopt rules pursuant to Subsection F of this section regarding appropriate uses of fund support and any restrictions on the use of the fund support by eligible telecommunications carriers.

N. The commission may also authorize payments from the fund to incumbent rural telecommunications carriers or to telecommunications carriers providing comparable retail alternative services that have been designated as eligible telecommunications carriers serving in rural areas of the state upon a finding, based on factors that may include a carrier's regulated revenues, expenses or investment, by the commission that such payments are needed to ensure the widespread availability and affordability of universal service. The commission shall decide cases filed pursuant to this subsection with reasonable promptness, with or without a hearing, but no later than six months following the filing of an application seeking payments from the fund, unless the commission finds that a longer time will be required, in which case the commission may extend the period for an additional three months.

O. The commission shall adopt rules that establish and implement a broadband program to provide funding to eligible telecommunications carriers for the construction and maintenance of broadband infrastructure. Each year, an amount equal to forty million dollars (\$40,000,000) less the amounts expended pursuant to Subsections K, L, M and N of this section shall be dedicated to the broadband program.

P. Rules adopted pursuant to Subsection O of this section shall require that the commission:

(1) consider applications for funding on a technology-neutral basis;

(2) submit applications for funding to the connect New Mexico council for prioritization and alignment with the statewide broadband plan to ensure digital equity and digital inclusion; and

(3) require that the awards of support be consistent with federal universal service support programs.

Q. The total obligations of the fund determined by the commission pursuant to this section, plus administrative expenses and a prudent fund balance, shall not exceed a cap of forty million dollars (\$40,000,000) per year.

R. By October 1 of each year, the commission shall make a report to the legislature regarding the status of the fund, including:

- (1) relevant data relating to implementation of the broadband program and the progress toward digital equity and digital inclusion in rural areas of the state;
- (2) recommendations for changes to the structure, size and purposes of the fund and whether the cap on the fund provided for in Subsection Q of this section should be modified, maintained or eliminated; and
- (3) the service areas that received funding awards from the broadband program and the amounts of those awards.

S. The 2025 annual report made pursuant to Subsection R of this section shall include an assessment of the state rural universal service fund that addresses:

- (1) whether to repurpose the access reduction support funds into the commission's broadband support program;
 - (2) a methodology for determining broadband support levels that is consistent with the requirements of Subsection C of this section and accounts, at a minimum, for broadband costs, potential revenues from deployed infrastructure and existing federal support mechanisms;
 - (3) the appropriate size of the fund;
 - (4) criteria for awarding funding;
 - (5) the impact of proposed changes on per-connection assessments;
- and
- (6) whether all sellers of prepaid telecommunications services should be required to collect state rural universal service fund assessments at the point of sale, similar to the methodology for collecting 911 emergency surcharges pursuant to Section 63-9D-5 NMSA 1978."

A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state shall be eligible for enrollment in the next highest grade level in the receiving state, regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on the student's validated level from an accredited school in the sending state.

ARTICLE 5

PLACEMENT AND ATTENDANCE

A. When a student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school or educational assessments conducted at the school in the sending state if the courses are offered. Course placement includes honors, international baccalaureate, advanced placement, vocational, technical and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career-challenging courses should be paramount when considering placement. This subsection does not preclude the school in the receiving state from performing subsequent

evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

B. The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation or placement in like programs in the sending state. Such programs include gifted and talented programs and English as a second language. This subsection does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C. Section 1400 et seq., the receiving state shall initially provide comparable services to a student with disabilities based on the student's current individualized education program. In compliance with the requirements of Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. Section 794, and with Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. Sections 12131-12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This subsection does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Local education agency administrative officials shall have flexibility in waiving course or program prerequisites or other preconditions for placement in courses or programs offered under the jurisdiction of the local education agency.

E. A student whose parent or legal guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from or has immediately returned from deployment to a combat zone or combat support posting shall be granted additional excused absences, at the discretion of the local education agency superintendent, to visit with the student's parent or legal guardian.

ARTICLE 6

ELIGIBILITY

A. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

B. A local education agency shall be prohibited from charging local tuition to a military child who is in transition and is placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

C. A military child who is in transition and is placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent may continue to attend the school in which the child was enrolled while residing with the custodial parent.

D. State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE 7

GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. If a waiver is not granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time;

B. receiving states shall accept exit or end-of-course exams required for graduation from the sending state, national norm-referenced achievement tests or alternative testing in lieu of testing requirements for graduation in the receiving state. In the event the alternatives in this subsection and Subsection A of this article cannot be accommodated by the receiving state for a student transferring in the student's senior year, then the provisions of Subsection C of this article shall apply; and

C. if a military student transferring at the beginning of or during the military student's senior year is ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of the Interstate Compact on Educational Opportunity for Military Children, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Subsections A and B of this article.

ARTICLE 8

STATE COORDINATION

A. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of

government, local education agencies and military installations concerning the state's participation in and compliance with the Interstate Compact on Educational Opportunity for Military Children and interstate commission activities. While each member state may determine the membership of its own state council, its membership must include: the secretary of public education, the superintendent of a school district with a high concentration of military children, one representative from a military installation, one representative from the executive branch of government and other offices and stakeholder groups the state council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

B. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of the Interstate Compact on Educational Opportunity for Military Children.

C. The compact commissioner responsible for the administration and management of the state's participation in the Interstate Compact on Educational Opportunity for Military Children shall be appointed by the governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated in this article shall be ex-officio nonvoting members of the state council, unless either is already a full voting member of the state council.

ARTICLE 9

INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the "interstate commission on educational opportunity for military children". The activities of the interstate commission are the formation of public policy and are a discretionary state function. The interstate commission shall:

A. be a body corporate and joint agency of the member states and shall have all the responsibilities, powers and duties set forth in the Interstate Compact on Educational Opportunity for Military Children and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of that compact;

B. consist of one voting representative from each member state who shall be that state's compact commissioner.

(1) Each member state represented at a meeting of the interstate commission is entitled to one vote.

(2) A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission.

(3) A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the interstate commission, the governor or state council may delegate voting authority to another person from the person's state for a specified meeting.

(4) The bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or electronic communication;

C. consist of ex-officio nonvoting representatives who are members of interested organizations. The ex-officio members, as defined in the bylaws, may include members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the United States department of defense, the education commission of the states, the interstate agreement on qualification of educational personnel and other interstate compacts affecting the education of children of military members;

Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the interstate commission, with the exception of rulemaking, during periods when the interstate commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact, its bylaws and rules and other such duties as deemed necessary. The United States department of defense shall serve as an ex-officio nonvoting member of the executive committee;

F. establish bylaws and rules that provide for conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests;

G. give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the Interstate Compact on Educational Opportunity for Military Children. The interstate commission and its committees may close a meeting, or a portion of a meeting, if it determines by a two-thirds' vote that an open meeting would be likely to:

- (1) relate solely to the interstate commission's internal personnel practices and procedures;
- (2) disclose matters specifically exempted from disclosure by federal and state statute;
- (3) disclose trade secrets or commercial or financial information that is privileged or confidential;
- (4) involve accusing a person of a crime or formally censuring a person;
- (5) disclose information of a personal nature if the disclosure would constitute a clearly unwarranted invasion of personal privacy;
- (6) disclose investigative records compiled for law enforcement purposes; or
- (7) specifically relate to the interstate commission's participation in a civil action or other legal proceeding;

H. cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, that is closed pursuant to this subsection. The interstate commission shall keep minutes that shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons for the actions, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in the minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission;

I. collect standardized data concerning the educational transition of the children of military families under the Interstate Compact on Educational Opportunity for Military Children as directed through its rules, which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. The methods of data collection, exchange and reporting shall, insofar as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules; and

J. create a process that permits military officials, education officials and parents to inform the interstate commission if and when there are alleged violations of the Interstate Compact on Educational Opportunity for Military Children or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This subsection shall not be construed to create a private right of action against the interstate commission or any member state.

ARTICLE 10

POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The interstate commission may:

- A. provide for dispute resolution among member states;

ARTICLE 11

ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

A. The interstate commission shall, by a majority of the members present and voting, within twelve months after the first interstate commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the Interstate Compact on Educational Opportunity for Military Children, including:

(1) establishing the fiscal year of the interstate commission;

(7) providing start-up rules for initial administration of the Interstate Compact on Educational Opportunity for Military Children.

B. The interstate commission shall, by a majority of the members, elect annually from among its members a chair, a vice chair and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chair or, in the chair's absence or disability, the vice chair shall preside at all meetings of the interstate commission. The officers so elected shall serve without compensation or remuneration from the interstate commission, provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the interstate commission.

C. The executive committee shall have such authority and duties as may be set forth in the bylaws, including:

(1) managing the affairs of the interstate commission in a manner consistent with the bylaws and purposes of the interstate commission;

(2) overseeing an organizational structure within, and appropriate procedures for, the interstate commission to provide for the creation of rules, operating procedures and administrative and technical support functions; and

D. The executive committee may, subject to the approval of the interstate commission, appoint or retain an executive director for such period, upon such terms

and conditions and for such compensation as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission but shall not be a member of the interstate commission. The executive director shall hire and supervise such other persons as may be authorized by the interstate commission.

E. The interstate commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend the interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties or responsibilities, provided that the actual or alleged act, error or omission did not result from intentional or willful and wanton misconduct on the part of the person.

ARTICLE 12

RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the Interstate Compact on Educational Opportunity for Military Children. If the interstate commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of that compact, or the powers granted under that compact, then such an action by the interstate commission shall be invalid and have no force or effect.

B. Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act" (1981), Uniform Laws Annotated, Vol. 15, p.1 (2000) as amended, as may be appropriate to the operations of the interstate commission.

C. Not later than thirty days after the date a rule is promulgated, any person may file a petition for judicial review of the rule, provided that the filing of the petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the interstate commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the Interstate Compact on Educational Opportunity for Military Children, then the rule shall have no further force and effect in any compacting state.

ARTICLE 13

OVERSIGHT, ENFORCEMENT AND DISPUTE RESOLUTION

B. The interstate commission shall be entitled to receive all service of process in any proceeding provided in Subsection A of this article and shall have standing to intervene in the proceeding for all purposes.

C. If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the Interstate Compact on Educational Opportunity for Military Children or the bylaws or promulgated rules, the interstate commission shall:

(1) provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default and any action taken by the interstate commission. The interstate commission shall specify the means by which the defaulting state shall cure its default; and

(2) provide remedial training and specific technical assistance regarding the default.

D. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the Interstate Compact on Educational Opportunity for Military Children upon an affirmative vote of a majority of the member states, and all rights, privileges and benefits conferred by that compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

E. Suspension or termination of membership in the Interstate Compact on Educational Opportunity for Military Children shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature and each of the member states.

F. The state that has been suspended or terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of suspension or termination, including obligations the performance of which extends beyond the effective date of suspension or termination.

G. The interstate commission shall not bear any costs relating to any state that has been found to be in default or that has been suspended or terminated from the Interstate Compact on Educational Opportunity for Military Children unless otherwise

K. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the Interstate Compact on Educational Opportunity for Military Children.

L. The interstate commission may, by majority vote of the members, initiate legal action to enforce compliance with the provisions of the Interstate Compact on Educational Opportunity for Military Children and its promulgated rules and bylaws against a member state in default. The venue for the action shall be consistent with the determination in other interstate compacts to which the state of New Mexico is a member under the laws of the state of New Mexico.

M. The remedies in the Interstate Compact on Educational Opportunity for Military Children shall not be the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or under the regulation of a profession.

ARTICLE 14

FINANCING OF THE INTERSTATE COMMISSION

A. The interstate commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

B. The interstate commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff that must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.

C. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the obligations; nor shall the interstate commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the interstate commission.

ARTICLE 15

B. The Interstate Compact on Educational Opportunity for Military Children shall become effective and binding upon legislative enactment of that compact into law by no less than ten of the states. The governors of non-member states or their designees shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of that compact by all states.

C. The interstate commission may propose amendments to the Interstate Compact on Educational Opportunity for Military Children for enactment by the member states. No amendment shall become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

ARTICLE 16

WITHDRAWAL AND DISSOLUTION

A. Once effective, the Interstate Compact on Educational Opportunity for Military Children shall continue in force and remain binding upon each and every member state, provided that a member state may withdraw from that compact by specifically repealing the statute that enacted that compact into law.

B. Withdrawal from the Interstate Compact on Educational Opportunity for Military Children shall be by the enactment of a statute repealing that compact.

C. The withdrawing state shall immediately notify the chair of the interstate commission in writing upon the introduction of legislation repealing the Interstate

Compact on Educational Opportunity for Military Children in the withdrawing state. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt of the notice.

E. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the Interstate Compact on Educational Opportunity for Military Children or upon such later date as determined by the interstate commission.

F. The Interstate Compact on Educational Opportunity for Military Children shall dissolve effective upon the date of the withdrawal or default of the member state that reduces the membership in that compact to one member state.

G. Upon the dissolution of the Interstate Compact on Educational Opportunity for Military Children, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded, and surplus funds shall be distributed in accordance with the bylaws.

ARTICLE 17

SEVERABILITY AND CONSTRUCTION

A. The provisions of the Interstate Compact on Educational Opportunity for Military Children shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of that compact shall be enforceable.

B. The provisions of the Interstate Compact on Educational Opportunity for Military Children shall be liberally construed to effectuate its purposes.

C. Nothing in the Interstate Compact on Educational Opportunity for Military Children shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE 18

BINDING EFFECT OF COMPACT AND OTHER LAWS

A. Nothing in the Interstate Compact on Educational Opportunity for Military Children prevents the enforcement of any other law of a member state.

B. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the interstate commission, are binding upon the member states.

C. All agreements between the interstate commission and the member states are binding in accordance with their terms.

D. In the event any provision of the Interstate Compact on Educational Opportunity for Military Children exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state."."

Chapter 130 Section 1 Laws 2025

SECTION 1. Section 3-60A-21 NMSA 1978 (being Laws 2024, Chapter 62, Section 1) is amended to read:

"3-60A-21. PROPERTY AND GROSS RECEIPTS TAX INCREMENTS--PROCEDURES.--

A. The procedures to be used in determining a property tax increment are:

(1) the local government shall, after approval of a metropolitan redevelopment plan, notify the county assessor of the taxable parcels of property within the metropolitan redevelopment area;

(2) upon receipt of the notification, the county assessor shall identify the parcels of property within the metropolitan redevelopment area within their respective jurisdictions and certify to the county treasurer the net taxable value of the property at the time of notification as the base value for the distribution of property tax revenues authorized by the Property Tax Code. If because of acquisition by the local government the property becomes tax exempt, the county assessor shall note that fact on their respective records and so notify the county treasurer, but the county assessor and the county treasurer shall preserve a record of the net taxable value at the time of inclusion of the property within the metropolitan redevelopment area as the base value

for the purpose of distribution of property tax revenues when the parcel again becomes taxable. The county assessor is not required by this section to preserve the new taxable value at the time of inclusion of the property within the metropolitan redevelopment area as the base value for the purposes of valuation of the property;

(3) if because of acquisition by the local government the property becomes tax exempt, when the parcel again becomes taxable, the local government shall notify the county assessor of the parcels of property that because of their rehabilitation or other improvement are to be revalued for property tax purposes. A new taxable value of this property shall then be determined by the county assessor. If no acquisition by the local government occurs, improvement or rehabilitation of property subject to valuation by the assessor shall be reported to the assessor as required by the Property Tax Code, and the new taxable value shall be determined as of January 1 of the tax year following the year in which the improvement or rehabilitation is completed; and

(4) current tax rates shall then be applied to the new taxable value of property included in the metropolitan redevelopment area. The amount by which the revenue received exceeds that which would have been received by application of the same rates to the base value before inclusion in the metropolitan redevelopment area shall be multiplied by the percentage of the increment dedicated by the local government pursuant to Section 3-60A-23 NMSA 1978, credited to the local government and deposited in the metropolitan redevelopment fund. This transfer shall take place only after the county treasurer has been notified to apply the procedures pursuant to this subsection to property included in a metropolitan redevelopment area. Unless the entire metropolitan redevelopment area is specifically included by the local government for purposes of tax increment financing, the payment by the county treasurer to the local government shall be limited to those properties specifically included. The remaining revenue shall be distributed to participating units of government as authorized by the Property Tax Code.

B. The procedures to be used in determining a gross receipts tax increment are:

(1) the local government shall notify the taxation and revenue department of the geographic boundaries of the metropolitan redevelopment area;

(2) by the July 1 following at least ninety days after receipt of the notice of the geographic boundaries, the taxation and revenue department shall designate a reporting location code for the metropolitan redevelopment area pursuant to Section 7-1-14 NMSA 1978;

(3) using data from the twelve months of reporting periods following designation of the reporting location code, the taxation and revenue department shall calculate the gross receipts tax revenue for the base year as follows:

(a) the amount of the local government's local option gross receipts tax revenue attributable to the gross receipts sourced to the metropolitan redevelopment area pursuant to Section 7-1-14 NMSA 1978 in the previous twelve months; and

(b) the amount of state gross receipts tax revenue attributable to gross receipts sourced to the metropolitan redevelopment area pursuant to Section 7-1-14 NMSA 1978 in the previous twelve months, less any amount distributed to the municipality pursuant to Section 7-1-6.4 NMSA 1978 attributable to gross receipts sourced to the metropolitan redevelopment area; and

(4) following making the calculation of the gross receipts tax revenue for the base year:

(a) the taxation and revenue department shall compare the amounts of gross receipts tax revenues of the base year with the amounts of gross receipts tax revenues of that following twelve months, using the same calculation methods as provided in Paragraph (3) of this subsection; and

(b) if there is an increase between the gross receipts tax revenue of the base year and the gross receipts tax revenue of that following twelve months, the taxation and revenue department shall distribute, pursuant to Section 7-1-6.71 NMSA 1978, the sum of: 1) the product of the total rate of the local government's local option gross receipts tax multiplied by the increased amount of the local government's local option gross receipts tax revenue, further multiplied by the percentage of the gross receipts tax increment dedicated by the local government pursuant to Section 3-60A-23 NMSA 1978; plus 2) the product of the state gross receipts tax rate multiplied by the increased amount of the state gross receipts tax revenue, further multiplied by the percentage of the gross receipts tax increment dedicated by the state board of finance pursuant to Section 3-60A-23 NMSA 1978.

C. The procedures specified in this section shall be followed annually for a maximum period of twenty years following the date of notification provided by this section.

D. The state board of finance shall promulgate rules for implementing the dedication of a state gross receipts tax increment for the purpose of funding a metropolitan redevelopment project and for determining the amount of the increment pursuant to the Metropolitan Redevelopment Code.

(11) any distribution to a municipality or a county of cannabis excise taxes pursuant to Section 7-1-6.68 NMSA 1978.

B. Before making a distribution or transfer specified in Subsection A of this section for the month, amounts comprising the net receipts shall be segregated into two mutually exclusive categories. One category shall be for amounts relating to the current month, and the other category shall be for amounts relating to prior periods. The total of each category for a distribution recipient shall be reported each month to the recipient; provided that all negative amounts relating to a period prior to the three calendar years preceding the year of the current month, net of any positive amounts in that same time period for the same taxpayers to which the negative amounts pertain, shall be excluded from the total relating to prior periods; provided further, if the total of the amounts relating to prior periods is less than zero and its absolute value exceeds the greater of one hundred dollars (\$100) or an amount:

(1) equal to twenty percent of the average distribution or transfer amount for that recipient, the revised total for prior periods shall be excluded from the distribution or transfers and the net receipts to be distributed or transferred to the recipient shall be equal to the amount for the current month; and provided further that the department shall recover the excluded amount from the recipient; or

(2) less than twenty percent of the average distribution or transfer amount for that recipient, the net receipts to be distributed or transferred to the recipient shall be adjusted to equal the amount for the current month plus the revised total for prior periods.

C. The department shall recover from a distribution recipient the amount excluded by Paragraph (2) of Subsection B of this section. This amount may be referred to as the "recoverable amount".

D. Prior to or concurrently with the distribution or transfer to the distribution recipient of the adjusted net receipts, the department shall notify the recipient whose

distribution or transfer has been adjusted pursuant to Paragraph (2) of Subsection B of this section:

(1) that the department has made such an adjustment, that the department has determined that a specified amount is recoverable from the recipient and that the department intends to recover that amount from future distributions or transfers to the recipient;

(2) that the recipient has ninety days from the date notice is made to enter into a mutually agreeable repayment agreement with the department;

(3) that if the recipient takes no action within the ninety-day period, the department will recover the amount from the next six distributions or transfers following the expiration of the ninety days; and

(4) that the recipient may inspect, pursuant to Section 7-1-8.9 NMSA 1978, an application for a claim for refund that gave rise to the recoverable amount, exclusive of any amended returns that may be attached to the application.

E. No earlier than ninety days from the date notice pursuant to Subsection D of this section is given, the department shall begin recovering the recoverable amount from a distribution recipient as follows:

(1) the department may collect the recoverable amount by:

(a) decreasing distributions or transfers to the recipient in accordance with a repayment agreement entered into with the recipient; or

(b) except as provided in Paragraphs (2) and (3) of this subsection, if the recipient fails to act within the ninety days, decreasing the amount of the next six distributions or transfers to the recipient following expiration of the ninety-day period in increments as nearly equal as practicable and sufficient to recover the amount;

(2) if, pursuant to Subsection B of this section, the secretary determines that the recoverable amount is more than fifty percent of the average distribution or transfer of net receipts for that recipient, the secretary:

(a) shall recover only up to fifty percent of the average distribution or transfer of net receipts for that recipient; and

(b) may, in the secretary's discretion, waive recovery of any portion of the recoverable amount, subject to approval by the state board of finance; and

(3) if, after application of a refund claim, audit adjustment, correction of a mistake by the department or other adjustment of a prior period, but prior to any recovery of the department pursuant to this section, the total net receipts of a recipient for the twelve-month period beginning with the current month are reduced or are projected to be reduced to less than fifty percent of the average distribution or transfer of net receipts, the secretary may waive recovery of any portion of the recoverable amount, subject to approval by the state board of finance.

F. No later than ninety days from the date notice pursuant to Subsection D of this section is given, the department shall provide the distribution recipient adequate opportunity to review an application for a claim for refund that gave rise to the recoverable amount, exclusive of any amended returns that may be attached to the application, pursuant to Section 7-1-8.9 NMSA 1978.

G. On or before September 1 of each year beginning in 2016, the secretary shall report to the state board of finance and the legislative finance committee the total recoverable amount waived pursuant to Subparagraph (b) of Paragraph (2) and Paragraph (3) of Subsection E of this section for each distribution recipient in the prior fiscal year.

H. The secretary is authorized to decrease a distribution or transfer to a distribution recipient upon being directed to do so by the secretary of finance and administration pursuant to the State Aid Intercept Act or to redirect a distribution or transfer to the New Mexico finance authority pursuant to an ordinance or a resolution passed by the recipient and a written agreement of the recipient and the New Mexico finance authority. Upon direction to decrease a distribution or transfer or notice to redirect a distribution or transfer to a recipient, the secretary shall decrease or redirect the next designated distribution or transfer, and succeeding distributions or transfers as necessary, by the amount of the state distributions intercept authorized by the secretary of finance and administration pursuant to the State Aid Intercept Act or by the amount of the state distribution intercept authorized pursuant to an ordinance or a resolution passed by the recipient and a written agreement with the New Mexico finance authority. The secretary shall transfer the state distributions intercept amount to the recipient treasurer or other person designated by the secretary of finance and administration or to the New Mexico finance authority pursuant to written agreement to pay the debt service to avoid default on qualified local revenue bonds or meet other local revenue bond, loan or other debt obligations of the recipient to the New Mexico finance authority. A decrease to or redirection of a distribution or transfer pursuant to this subsection that arose:

(1) prior to an adjustment of a distribution or transfer of net receipts creating a recoverable amount owed to the department takes precedence over any collection of any recoverable amount pursuant to Paragraph (2) of Subsection B of this section, which may be made only from the net amount of the distribution or transfer remaining after application of the decrease or redirection pursuant to this subsection; and

(2) after an adjustment of a distribution or transfer of net receipts creating a recoverable amount owed to the department shall be subordinate to any collection of any recoverable amount pursuant to Paragraph (2) of Subsection B of this section.

I. Upon the direction of the secretary of finance and administration pursuant to Section 9-6-5.2 NMSA 1978, the secretary shall temporarily withhold the balance of a distribution to a distribution recipient, net of any decrease or redirected amount pursuant to Subsection H of this section and any recoverable amount pursuant to Paragraph (2) of Subsection B of this section, that has failed to submit an audit report required by the Audit Act or a financial report required by Subsection F of Section 6-6-2 NMSA 1978. The amount to be withheld, the source of the withheld distribution and the number of months that the distribution is to be withheld shall be as directed by the secretary of finance and administration. A distribution withheld pursuant to this subsection shall remain in the tax administration suspense fund until distributed to the distribution recipient and shall not be distributed to the general fund. An amount withheld pursuant to this subsection shall be distributed to the recipient upon direction of the secretary of finance and administration.

J. As used in this section:

(1) "amounts relating to the current month" means any amounts included in the net receipts of the current month that represent payment of tax due for the current month, correction of amounts processed in the current month that relate to the current month or that otherwise relate to obligations due for the current month;

(2) "amounts relating to prior periods" means any amounts processed during the current month that adjust amounts processed in a period or periods prior to the current month regardless of whether the adjustment is a correction of a department error or due to the filing of amended returns, payment of department-issued assessments, filing or approval of claims for refund, audit adjustments or other cause;

(3) "average distribution or transfer amount" means the following amounts; provided that a distribution or transfer that is negative shall not be used in calculating the amounts:

(a) the annual average of the total amount distributed or transferred to a distribution recipient in each of the three twelve-month periods preceding the current month;

(b) if a distribution or transfer to a recipient has been made for less than three years, the total amount distributed or transferred in the year preceding the current month; or

(c) if a recipient has not received distributions or transfers of net receipts for twelve or more months, the monthly average of net receipts distributed or transferred to the recipient preceding the current month multiplied by twelve;

(4) "current month" means the month for which the distribution or transfer is being prepared; and

(5) "repayment agreement" means an agreement between the department and a distribution recipient under which the recipient agrees to allow the department to recover an amount determined pursuant to Paragraph (2) of Subsection B of this section by decreasing distributions or transfers to the recipient for up to seventy-two months beginning with the distribution or transfer to be made with respect to a designated month. No interest shall be charged."

(2) the net receipts received by the department during the report year, including any increase or decrease made pursuant to Section 7-1-6.15 NMSA 1978, attributable to the county gross receipts tax at a rate of one-eighth percent; provided that for any month in the report year, if no county gross receipts tax was in effect in the county in the previous month, the net receipts, for the purposes of this section, for that county for that month shall be zero.

B. If the amount determined by the calculation in Subsection A of this section is zero or a negative number for a county, no distribution shall be made to that county.

(a) the net receipts received by the department in the month attributable to the state gross receipts tax plus five percent of the total amount of deductions claimed pursuant to Section 7-9-92 NMSA 1978 for the month plus five percent of the total amount of deductions claimed pursuant to Section 7-9-93 NMSA 1978 for the month; and

(b) a fraction, the numerator of which is one-eighth percent and the denominator of which is the tax rate imposed by Section 7-9-4 NMSA 1978 in effect on the last day of the previous month;

(3) "population" means the most recent official census or estimate determined by the United States census bureau for the unit or, if neither is available, the most current estimated population for the unit provided in writing by the bureau of business and economic research at the university of New Mexico; and

Chapter 130 Section 18 Laws 2025

SECTION 18. Section 7-1-6.26 NMSA 1978 (being Laws 1987, Chapter 347, Section 11, as amended) is amended to read:

"7-1-6.26. COUNTY GOVERNMENT ROAD FUND--DISTRIBUTION.--

A. For the purposes of this section, "distributable amount" means the amount in the county government road fund as of the last day of any month for which a distribution is required to be made pursuant to this section, subject to any increase or decrease made pursuant to Section 7-1-6.15 NMSA 1978, in excess of the balance in that fund as of the last day of the preceding month after reduction for any required distributions for the preceding month.

B. The secretary of transportation shall determine and certify on or before July 1 of each year the total miles of public roads maintained by each county pursuant to Section 66-6-23 NMSA 1978. For the purposes of this subsection, if the certified mileage of public roads maintained by a county is less than four hundred miles, the state treasurer shall increase the number of miles of public roads maintained by that

county by fifty percent and revise the total miles of public roads maintained by all counties accordingly. Except as provided otherwise in Subsection D of this section, each county shall receive an amount equal to its proportionate share of miles of public roads maintained, as the number of miles for the county may have been revised pursuant to this subsection, to the total miles of public roads maintained by all counties, as that total may have been revised pursuant to this subsection, times fifty percent of the distributable amount in the county government road fund.

C. Except as provided otherwise in Subsection D of this section, each county shall receive a share of fifty percent of the distributable amount in the county government road fund as determined in this subsection. The amount for each county shall be the greater of:

(1) twenty-one cents (\$.21) multiplied by the county's population as shown by the most recent federal decennial census; or

(2) the proportionate share that the taxable gallons of gasoline reported for that county for the preceding fiscal year bear to the total taxable gallons of gasoline for all counties in the preceding fiscal year, as determined by the department, multiplied by fifty percent of the distributable amount in the county government road fund.

If the sum of the amounts to be distributed pursuant to Paragraphs (1) and (2) of this subsection exceeds fifty percent of the distributable amount in the county government road fund, the excess shall be eliminated by multiplying the amount determined in Paragraphs (1) and (2) of this subsection for each county by a fraction, the numerator of which is fifty percent of the distributable amount in the county government road fund, and the denominator of which is the sum of amounts determined for all counties in Paragraphs (1) and (2) of this subsection.

D. If the distribution for a class A county or for an H class county determined pursuant to Subsections B and C of this section exceeds an amount equal to one-twelfth of the product of the total taxable gallons of gasoline reported for the county for the preceding fiscal year times one cent (\$.01), the distribution for that county shall be reduced to an amount equal to one-twelfth of the product of the total taxable gallons of gasoline reported for the county for the preceding fiscal year times one cent (\$.01). Any amount of the reduction shall be shared among the counties whose distribution has not been reduced pursuant to this subsection in the ratio of the amounts computed in Subsections B and C of this section.

E. If a county has not made the required mileage certification pursuant to Section 67-3-28.3 NMSA 1978 by April 1 of every year of the year for which distribution is being made, the secretary of transportation shall estimate the mileage maintained by those counties for the purpose of making distribution to all counties, and the amount calculated to be distributed each month to those counties not certifying mileage shall be reduced by one-third each month for that fiscal year and that amount not distributed to those counties shall be distributed equally to all counties that have certified mileages.

F. Distributions made to counties pursuant to this section shall be deposited in the county road fund to be used for the construction, reconstruction, resurfacing or other improvement or maintenance of the public roads and bridges in the county, including right-of-way and materials acquisition. Money distributed pursuant to this section may be used by the county to provide matching funds for projects subject to cooperative agreements entered into with the department of transportation pursuant to Section 67-3-28 NMSA 1978."

Chapter 130 Section 19 Laws 2025

SECTION 19. Section 7-1-6.27 NMSA 1978 (being Laws 1991, Chapter 9, Section 20, as amended) is amended to read:

"7-1-6.27. DISTRIBUTION--MUNICIPAL ROADS.--

A. A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to municipalities for the purposes and amounts specified in this section in an aggregate amount, subject to any increase or decrease made pursuant to Section 7-1-6.15 NMSA 1978, equal to five and seventy-six hundredths percent of the net receipts attributable to the gasoline tax.

B. The distribution authorized in this section shall be used for the following purposes:

(1) reconstructing, resurfacing, maintaining, repairing or otherwise improving existing alleys, streets, roads or bridges, or any combination of the foregoing; or laying off, opening, constructing or otherwise acquiring new alleys, streets, roads or bridges, or any combination of the foregoing; provided that any of the foregoing improvements may include, but are not limited to, the acquisition of rights of way;

(2) to provide matching funds for projects subject to cooperative agreements with the department of transportation pursuant to Section 67-3-28 NMSA 1978; and

(3) for expenses of purchasing, maintaining and operating transit operations and facilities, for the operation of a transit authority established by the Municipal Transit Law and for the operation of a vehicle emission inspection program. A municipality may engage in the business of the transportation of passengers and property within the political subdivision by whatever means the municipality may decide and may acquire cars, trucks, motor buses and other equipment necessary for operating the business. A municipality may acquire land, erect buildings and equip the buildings with all the necessary machinery and facilities for the operation, maintenance, modification, repair and storage of the cars, trucks, motor buses and other equipment needed. A municipality may do all things necessary for the acquisition and the conduct of the business of public transportation.

C. For the purposes of this section:

(1) "computed distribution amount" means the distribution amount calculated for a municipality for a month pursuant to Paragraph (2) of Subsection D of this section prior to any adjustments to the amount due to the provisions of Subsections E and F of this section;

(2) "floor amount" means four hundred seventeen dollars (\$417);

(3) "floor municipality" means a municipality whose computed distribution amount is less than the floor amount; and

(4) "full distribution municipality" means a municipality whose population at the last federal decennial census was at least two hundred thousand.

D. Subject to the provisions of Subsections E and F of this section, each municipality shall be distributed a portion of the aggregate amount distributable under this section in an amount equal to the greater of:

(1) the floor amount; or

(2) eighty-five percent of the aggregate amount distributable under this section times a fraction, the numerator of which is the municipality's reported taxable gallons of gasoline for the immediately preceding state fiscal year and the denominator of which is the reported total taxable gallons for all municipalities for the same period.

E. Fifteen percent of the aggregate amount distributable under this section shall be referred to as the "redistribution amount". Beginning in August 1990, and each month thereafter, from the redistribution amount there shall be taken an amount sufficient to increase the computed distribution amount of every floor municipality to the floor amount. In the event that the redistribution amount is insufficient for this purpose, the computed distribution amount for each floor municipality shall be increased by an amount equal to the redistribution amount times a fraction, the numerator of which is the difference between the floor amount and the municipality's computed distribution amount and the denominator of which is the difference between the product of the floor amount multiplied by the number of floor municipalities and the total of the computed distribution amounts for all floor municipalities.

F. If a balance remains after the redistribution amount has been reduced pursuant to Subsection E of this section, there shall be added to the computed distribution amount of each municipality that is neither a full distribution municipality nor a floor municipality an amount that equals the balance of the redistribution amount times a fraction, the numerator of which is the computed distribution amount of the municipality and the denominator of which is the sum of the computed distribution amounts of all municipalities that are neither full distribution municipalities nor floor municipalities."

SECTION 21. Section 7-1-6.46 NMSA 1978 (being Laws 2004, Chapter 116, Section 1, as amended) is amended to read:

"7-1-6.46. DISTRIBUTION TO MUNICIPALITIES--OFFSET FOR FOOD DEDUCTION AND HEALTH CARE PRACTITIONER SERVICES DEDUCTION.--

A. For a municipality that did not have in effect on June 30, 2019 a municipal hold harmless gross receipts tax through an ordinance and that has a population of less than ten thousand according to the most recent federal decennial census, a distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the municipality in an amount, subject to any increase or decrease made pursuant to Section 7-1-6.15 NMSA 1978, equal to the applicable maximum distribution for the municipality.

B. Chapter 130 Section 31 Laws 2025

SECTION 31. Section 7-1-29 NMSA 1978 (being Laws 1965, Chapter 248, Section 31, as amended) is amended to read:

"7-1-29. AUTHORITY TO MAKE REFUNDS, CREDITS OR REBATES.--

A. In response to a claim for refund, credit or rebate made as provided in Section 7-1-26 NMSA 1978, but before a court acquires jurisdiction of the matter, the secretary or the secretary's delegate may authorize payment to a person in the amount of the credit or rebate claimed or refund an overpayment of tax determined by the secretary or the secretary's delegate to have been erroneously made by the person, together with allowable interest.

B. Pursuant to the final order of the district court, the court of appeals, the supreme court of New Mexico or a federal court, from which order, appeal or review is not successfully taken, adjudging that a person has properly claimed a credit, rebate or a refund of overpaid tax, the secretary shall authorize the payment to the person of the amount thereof. After a court acquires jurisdiction but before it issues a final order, the secretary may authorize payment of a credit, rebate or refund pursuant to a closing agreement pursuant to Section 7-1-20 NMSA 1978.

C. In the discretion of the secretary, any amount of credit or rebate to be paid or tax to be refunded may be offset against any amount of tax for which the person due to receive the credit, rebate payment or refund is liable. The secretary or the secretary's delegate shall give notice to the taxpayer that the credit, rebate payment or refund will be made in this manner, and the taxpayer shall be entitled to interest pursuant to

Section 7-1-68 NMSA 1978 until the tax liability is credited with the credit, rebate or refund amount.

D. In an audit by the department or a managed audit covering multiple reporting periods in which both underpayments and overpayments of a tax have been made in different reporting periods, the department shall credit the tax overpayments against the underpayments; provided that the taxpayer files a claim for refund of the overpayments. An overpayment shall be applied as a credit first to the earliest underpayment and then to succeeding underpayments. An underpayment of tax to which an overpayment is credited pursuant to this section shall be deemed paid in the period in which the overpayment was made or the period to which the overpayment was credited against an underpayment, whichever is later. If the overpayments credited pursuant to this section exceed the underpayments of a tax, the amount of the net overpayment for the periods covered in the audit shall be refunded to the taxpayer.

E. When a taxpayer makes a payment identified to a particular return or assessment, and the department determines that the payment exceeds the amount due pursuant to that return or assessment, the secretary may apply the excess to the taxpayer's other liabilities pursuant to the tax acts to which the return or assessment applies, without requiring the taxpayer to file a claim for a refund. The liability to which an overpayment is applied pursuant to this section shall be deemed paid in the period in which the overpayment was made or the period to which the overpayment was applied, whichever is later.

F. If the department determines, upon review of an original or amended income tax return, corporate income and franchise tax return, estate tax return, special fuels excise tax return or oil and gas tax return, that there has been an overpayment of tax for the taxable period to which the return or amended return relates in excess of the amount due to be refunded to the taxpayer pursuant to the provisions of Subsection K of Section 7-1-26 NMSA 1978, the department may refund that excess amount to the taxpayer without requiring the taxpayer to file a refund claim.

G. Records of refunds and credits made in excess of twenty thousand dollars (\$20,000) shall be available for inspection by the public. The department shall keep such records for a minimum of three years from the date of the refund or credit.

H. In response to a timely refund claim pursuant to Section 7-1-26 NMSA 1978 and notwithstanding any other provision of the Tax Administration Act, the secretary or the secretary's delegate may refund or credit a portion of an assessment of tax paid, including applicable penalties and interest representing the amount of tax previously paid by another person on behalf of the taxpayer on the same transaction; provided that the requirements of equitable recoupment are met. For purposes of this subsection, the refund claim may be filed by the taxpayer to whom the assessment was issued or by another person who claims to have previously paid the tax on behalf of the taxpayer. Prior to granting the refund or credit, the secretary may require a waiver of all

rights to claim a refund or credit of the tax previously paid by another person paying a tax on behalf of the taxpayer.

I. If, as a result of an audit by the department or a managed audit, a person is determined to owe gross receipts tax on receipts from the sale of property or services, the department may credit against the amount owed an amount of compensating tax paid by the purchaser if the person can demonstrate that the purchaser timely paid the compensating tax on the same property or services. The credit provided by this subsection shall not be denied solely because the purchaser cannot timely file for a refund of the compensating tax paid and, if the credit is to be granted, the department shall require, for the purpose of granting the credit, that the purchaser give up any right to claim a refund of that tax."

Chapter 130 Section 32 Laws 2025

SECTION 32. Section 7-1-37 NMSA 1978 (being Laws 1965, Chapter 248, Section 39, as amended) is amended to read:

A. When any substantial part of the amount of tax due from a taxpayer is paid, the department shall immediately file, in the same manner in which a notice of lien was filed, and in the same records, a document completely or partially releasing the lien. The official to whom such a document is presented shall record the release of the lien without charge.

B. The department may file, in the same manner as the notice of lien was filed, a document releasing or partially releasing any lien filed in accordance with Section 7-1-38 NMSA 1978 when the filing of the lien was premature or did not follow requirements of law or when release or partial release would facilitate collection of taxes due. The official to whom the document is presented shall record the release of the lien without charge.

C. In all cases when a notice of lien for taxes, penalties and interest has been filed under Section 7-1-38 NMSA 1978 and a period of ten years has passed from the date the lien was filed, as shown on the notice of lien, the taxes, penalties and interest for which the lien is claimed shall be conclusively presumed to have been paid and the lien is thereby extinguished, with no further action by the department. Any excess not used in a taxable year shall not be carried forward to subsequent taxable years. The energy, minerals and natural resources department shall provide the department appropriate information for all certificates of eligibility in a secure manner on regular intervals agreed upon by both departments.

I. Installation of a solar thermal system or a photovoltaic system eligible for the solar market development tax credit pursuant to Section 7-2-18.14 or 7-2-18.31 NMSA 1978 may not be used as a component of qualification for the rating system certification level used in determining eligibility for the 2015 sustainable building income tax credit, unless a solar market development tax credit pursuant to Section 7-2-18.14 or 7-2-18.31 NMSA 1978 has not been claimed with respect to that system and the building owner and the taxpayer claiming the 2015 sustainable building income tax credit certify that such a tax credit will not be claimed with respect to that system.

J. To claim the 2015 sustainable building income tax credit, the building owner shall provide to the department a certificate of eligibility issued by the energy, minerals and natural resources department pursuant to the requirements of Subsection F of this section and any other information the department may require to determine the amount of the tax credit for which the building owner is eligible.

The total credit claimed in the aggregate by all members of the partnership or association with respect to the sustainable building shall not exceed the amount of the credit that could have been claimed by a sole owner of the property.

M. Married individuals who file separate returns for a taxable year in which they could have filed a joint return may each claim only one-half of the 2015 sustainable building income tax credit that would have been allowed on a joint return.

N. The tax credit provided by this section shall be included in the tax expenditure budget pursuant to Section 7-1-84 NMSA 1978 with an analysis of the effectiveness and cost of the tax credit and whether the tax credit is performing the purpose for which it was created.

Any excess not used in a taxable year shall not be carried forward to subsequent taxable years. The energy, minerals and natural resources department shall provide the department appropriate information for all certificates of eligibility in a secure manner on regular intervals agreed upon by both departments.

I. Installation of a solar thermal system or a photovoltaic system eligible for the solar market development tax credit pursuant to Section 7-2-18.14 or 7-2-18.31 NMSA 1978 may not be used as a component of qualification for the rating system certification level used in determining eligibility for the 2015 sustainable building

The bond shall be conditioned upon the prompt filing of true reports

and the payment by the taxpayer to the department of all taxes levied by the Gasoline Tax Act, together with all applicable penalties and interest thereon.

B. In lieu of the bond, the taxpayer may elect to file with the department cash or bonds of the United States or New Mexico or of any political subdivision of the state.

C. The total amount of the bond, cash or securities required of any taxpayer shall be fixed by the department and may be increased or reduced by the department at any time, subject to the limitations provided in this section.

D. In fixing the total amount of the bond, cash or securities required of any taxpayer required to post bond, the department shall require an equivalent in total amount to at least two times the amount of the department's estimate of the taxpayer's monthly gasoline tax, determined in such manner as the secretary may deem proper; provided, however, the total amount of bond, cash or securities required of a taxpayer shall never be less than one thousand dollars (\$1,000).

E. In the event the department decides that the amount of the existing bond, cash or securities is insufficient to insure payment to this state of the amount of the gasoline tax and any penalties and interest for which the taxpayer is or may at any time become liable, the taxpayer, upon written demand of the department mailed to the last known address of the taxpayer as shown on the records of the department, shall file an additional bond, cash or securities in the manner, form and amount determined by the department to be necessary to secure at all times the payment by the taxpayer of all taxes, penalties and interest due under the Gasoline Tax Act.

On receipt of notice of such request, the department promptly shall notify the taxpayer who furnished the bond that the taxpayer, on or before the expiration of the ninety-day period, shall file with the department a new bond with a surety satisfactory to the department in the amount and form required in this section.

G. The taxpayer required to file bond with or provide cash or securities to the department in accordance with this section and who is required by another state law to file another bond with or provide cash or securities to the department may elect to file a combined bond or provide cash or securities applicable to the provisions of both this section and the other law, with the approval of the secretary. The amount of the combined bond, cash or securities shall be determined by the department and the form of the combined bond shall be approved by the attorney general.

G. The director shall, within thirty days of the filing of the complaint, commence an investigation of the allegations contained in the complaint. The director shall, within seventy-five days after the completion of mediation or if no mediation is requested, within seventy-five days after the filing of the complaint, make a determination supported by findings of fact and conclusions of law whether there has been an underpayment of wages or fringe benefits or other violation of the Public Works Minimum Wage Act; provided that if the complaint is of a continuing or significantly complex nature or involves multiple projects or job sites, the director may extend the time in which to make a determination by up to six months by providing written notice and an explanation to all parties of the need to extend the time. Prior to issuing a determination, the director shall provide the contractor, subcontractor, employer or other

person against whom the complaint has been filed with an opportunity to respond to the complaint and provide any exculpatory evidence.

The lands having been awarded to the lessee and designated as Tract No. _____ at a public sale held by the commissioner of public lands on _____, 20____.

To have and to hold the land, and all the rights and privileges granted hereunder, to and unto the lessee for a primary term of five years from the date hereof, and as long thereafter as oil and gas, or either of them, is produced in paying quantities from the land by the lessee, subject to all of the terms and conditions as hereinafter set forth.

In consideration of the premises, the parties covenant and agree as follows:

1. Subject to the free use without royalty, as hereinbefore provided, the lessee shall pay the lessor as royalty _____ (not less than three-sixteenths nor more than one-fifth, or alternatively, not less than one-fifth nor more than one-fourth if the leased premises is located in whole or in part within the following portions of the restricted districts established pursuant to Section 19-10-16 NMSA 1978: townships 8 to 10 south inclusive, ranges 31 to 38 east inclusive; townships 11 to 15 south inclusive,

2. Subject to the free use without royalty, as hereinbefore provided, at the option of the lessor at any time and from time to time, the lessee shall pay the lessor as royalty _____ (not less than three-sixteenths nor more than one-fifth, or alternatively, not less than one-fifth nor more than one-fourth if the leased premises is located in whole or in part within the following portions of the restricted districts established pursuant to Section 19-10-16 NMSA 1978: townships 8 to 10 south inclusive, ranges 31 to 38 east inclusive; townships 11 to 15 south inclusive, ranges 31 to 38 east inclusive; townships 16 to 20 south inclusive, ranges 21 to 39 east inclusive; township 20.5 south, ranges 21 to 23 east inclusive; or townships 21 to 26 south inclusive, ranges 21 to 38 east inclusive, N.M.P.M.) part of the gas produced and saved from the leased premises, including casing-head gas. Unless the option is exercised by the lessor, the lessee shall pay the lessor as royalty _____ (not less than three-sixteenths nor more than one-fifth, or alternatively, not less than one-fifth nor more than one-fourth if the leased premises is located in whole or in part within the following portions of the restricted districts established pursuant to Section 19-10-16 NMSA 1978: townships 8 to 10 south inclusive, ranges 31 to 38 east inclusive; townships 11 to 15 south inclusive, ranges 31 to 38 east inclusive; townships 16 to 20 south inclusive, ranges 21 to 39 east inclusive; township 20.5 south, ranges 21 to 23 east inclusive; or townships 21 to 26 south inclusive, ranges 21 to 38 east inclusive, N.M.P.M.) of the cash value of the gas, including casing-head gas, produced and saved from the leased premises and marketed or utilized, such value to be equal to the net proceeds derived from the sale of such gas in the field; provided, however, the cash value for royalty purposes of carbon dioxide gas and of hydrocarbon gas delivered to a gasoline plant for extraction of liquid hydrocarbons shall be equal to the net proceeds derived from the sale of such gas, including any liquid hydrocarbons recovered therefrom.

Notwithstanding the foregoing provisions, the lessor may require the payment of royalty for all or any part of the gas produced and saved under this lease and marketed or used at a price per m.c.f. equal to the maximum price being paid for gas of like kind and quality and under like conditions in the same field or area or may reduce the royalty value of any such gas (to any amount not less than the net proceeds of sale thereof, in the field) if the commissioner of public lands shall determine such action to be necessary to the successful operation of the lands for oil or gas purposes or to encouragement of the greatest ultimate recovery of oil or gas or to the promotion or conservation of oil or gas or in the public interest.

3. This lease shall not expire at the end of the primary term hereof if there is a well capable of producing gas in paying quantities located upon some part of the lands embraced herein, or upon lands pooled or communitized herewith, where such

well is shut-in due to the inability of the lessee to obtain a pipeline connection or to market the gas therefrom, and if the lessee timely pays an annual royalty on or before the annual rental paying date next ensuing after the expiration of ninety days from the date the well was shut-in and on or before the rental date thereafter. The payment of the annual royalty shall be considered for all purposes the same as if gas were being produced in paying quantities and upon the commencement of marketing of gas from the well or wells the royalty paid for the lease year in which the gas is first marketed shall be credited upon the royalty payable hereunder to the lessor for such year. The provisions of this section shall also apply where gas is being marketed from the leasehold premises and through no fault of the lessee, the pipeline connection or market is lost or ceases, in which case this lease shall not expire so long as the annual royalty is paid as herein provided. The amount of any annual royalty payable under this section shall equal twice the annual rental due by the lessee under the terms of this lease but not less than three hundred twenty dollars (\$320) per well per year; provided, however, that any such annual royalty for any month beginning on or after ten years from the date hereof shall equal four times the annual rental due by the lessee under the terms of this lease but not less than two thousand dollars (\$2,000) per well per year; provided further, that no annual royalty shall be payable under this section if equivalent amounts are timely paid pursuant to another lease issued by the lessor and if such other lease includes lands communitized with lands granted hereunder for the purpose of prorationally sharing in the shut-in well. Notwithstanding the provisions of this section to the contrary, this lease shall not be continued after five years from the date hereof for any period of more than ten years by the payment of the annual royalty unless, for good cause shown, the commissioner of public lands, in the commissioner's discretion, grants such a continuance.

4. The lessee agrees to make full settlement on the twentieth day of each month for all royalties due the lessor for the preceding month, under this lease, and to permit the lessor or its agents, at all reasonable hours, to examine the lessee's books relating to the production and disposition of oil and gas produced. The lessee further agrees to submit to the lessor annually upon forms furnished by the lessor, verified reports showing the lessee's operations for the preceding year.

5. An annual rental at the rate of \$_____ per acre shall become due and payable to the lessor by the lessee, upon each acre of the land above described and then claimed by such lessee and the same shall be due and payable in advance to the lessor on the successive anniversary dates of this lease, but the annual rental on any assignment shall in no event be less than forty dollars (\$40.00).

In the event the lessee shall elect to surrender any or all of the acreage, the lessee shall deliver to the lessor a duly executed release thereof and in event the lease has been recorded then the lessee shall upon request furnish and deliver to the lessor a certified copy of a duly recorded release.

6. The lessee may at any time by paying to the lessor all amounts then due as provided herein and the further sum of forty dollars (\$40.00), surrender and cancel

this lease insofar as the same covers all or any portion of the lands herein leased and be relieved from further obligations or liability hereunder, in the manner as hereinbefore provided. Provided, this surrender clause and the option herein reserved to the lessee shall cease and become absolutely inoperative immediately and concurrently with the institution of any suit in any court of law or equity by the lessee, lessor or any assignee, to enforce this lease, or any of its terms expressed or implied.

7. All payments due hereunder shall be made on or before the day such payment is due, at the office of the commissioner of public lands in Santa Fe, New Mexico.

8. The lessee with the consent of the lessor shall have the rights to assign this lease in whole or in part. Provided, however, that no assignment of an undivided interest in the lease or in any part thereof nor any assignment of less than a legal subdivision shall be recognized or approved by the lessor. Upon approval in writing by the lessor of an assignment, the assignor shall stand relieved from all obligations to the lessor with respect to the lands embraced in the assignment and the lessor shall likewise be relieved from all obligations to the assignor as to such tracts, and the assignee shall succeed to all of the rights and privileges of the assignor with respect to such tracts and shall be held to have assumed all of the duties and obligations of the assignor to the lessor as to such tracts.

9. In the event a well or wells producing oil or gas in paying quantities should be brought in on adjacent land that is draining the leased premises, the lessee shall drill such offset well or wells as a reasonably prudent operator would drill under the same or similar circumstances, provided that no such offset well shall be required if compensatory royalties are paid pursuant to an agreement between the lessor and the lessee.

10. The lessee agrees to notify the lessor of the location of each well before commencing drilling thereon, to keep a complete and accurate log of each well drilled and to furnish a copy thereof, verified by some person having actual knowledge of the facts, to the lessor upon the completion of any well, and to furnish the log of any unfinished well at any time when requested to do so by the lessor.

If any lands embraced in this lease shall be included in any deed or contract of purchase outstanding and subsisting issued pursuant to any sale made of the surface of such lands prior to the date of this lease, it is agreed and understood that no drilling operation shall be commenced on any such lands so sold unless and until the lessee shall have filed a good and sufficient bond with the lessor as required by law, to secure the payment for such damage to the livestock, range, water, crops or tangible improvements on such lands as may be suffered by the purchaser holding such deed or contract of purchase, or the purchaser's successors, by reason of the developments, use and occupation of such lands by such lessee. Provided, however, that no such bond shall be required if such purchaser shall waive the right to require such bond to be given in the manner provided by law.

11. In drilling wells, all water-bearing strata shall be noted in the log, and the lessor reserves the right to require that all or any part of the casing shall be left in any nonproductive well when the lessor deems it to the interest of the beneficiaries of the lands granted hereunder to maintain the well or wells for water. For such casing so left in wells the lessor shall pay to the lessee the reasonable value thereof.

12. The lessee shall be liable and agree to pay for all damages to the range, livestock, growing crops or improvements caused by the lessee's operations on the lands. When requested by the lessor, the lessee shall bury pipelines below plow depth.

13. The lessee shall not remove any machinery or fixtures placed on the premises, nor draw the casing from any well unless and until all payments and obligations due the lessor under the terms of this agreement shall have been paid or satisfied. The lessee's right to remove the casing is subject to the provision of Paragraph 11 above.

14. Upon failure or default of the lessee to comply with any of the provisions or covenants hereof, the lessor is hereby authorized to cancel this lease and such cancellation shall extend to and include all rights hereunder as to the whole of the tract so claimed, or possessed by the lessee, but shall not extend to, nor affect the rights of any other lessee or assignee claiming any portion of the lands upon which no default has been made; provided, however, that before any such cancellation shall be made, the lessor shall mail to the lessee so defaulting, by registered or certified mail, addressed to the post office address of such lessee as shown by the records of the state land office, a notice of intention of cancellation specifying the default for which cancellation is to be made, and if within thirty days from the date of mailing the notice the lessee shall remedy the default specified in the notice, cancellation shall not be made.

15. If this lease shall have been maintained in accordance with the provisions hereof and if at the expiration of the primary term provided for herein oil or gas is not being produced on the land but the lessee is then engaged in bona fide drilling or reworking operations thereon, this lease shall remain in full force and effect so long as such operations are diligently prosecuted and, if they result in the production of oil or gas, so long thereafter as oil and gas in paying quantities, or either of them, is produced from the land; provided, however, such operations extending beyond the primary term shall be approved by the lessor upon written application filed with the lessor on or before the expiration of the term, and a report of the status of all of such operations shall be made by the lessee to the lessor every thirty days and a cessation of such operations for more than twenty consecutive days shall be considered as an abandonment of such operations and this lease shall thereupon terminate.

If during the drilling or reworking of any well under this section, the lessee loses or junks the hole or well and after diligent efforts in good faith is unable to complete the operations, then within twenty days after the abandonment of the operations, the lessee

may commence another well within three hundred thirty feet of the lost or junked hole or well and drill the same with due diligence.

Operations commenced and continued as herein provided shall extend this lease as to all lands as to which the same is in full force and effect as of the time the drilling operations are commenced; provided, however, this lease shall be subject to cancellation in accordance with Paragraph 14 hereof for failure to pay rentals or file reports that may become due while operations are being conducted hereunder.

16. Should production of oil and gas or either of them in paying quantities be obtained while this lease is in force and effect and should thereafter cease from any cause after the expiration of five years from the date hereof, this lease shall not terminate if the lessee commences additional drilling or reworking operations within sixty days after the cessation of such production and shall remain in full force and effect so long as such operations are prosecuted in good faith with no cessation of more than twenty consecutive days, and if such operations result in the production of oil or gas in paying quantities, so long thereafter as oil or gas in paying quantities is produced from the land; provided, however, written notice of intention to commence such operations shall be filed with the lessor within thirty days after the cessation of such production, and a report of the status of such operations shall be made by the lessee to the lessor every thirty days, and the cessation of such operations for more than twenty consecutive days shall be considered as an abandonment of such operations and this lease shall thereupon terminate.

17. Lessees, including their heirs, assigns, agents and contractors, shall at their own expense fully comply with all laws, regulations, rules, ordinances and requirements of the city, county, state and federal authorities and agencies, in all matters and things affecting the premises and operations thereon that may be enacted or promulgated under the governmental police powers pertaining to public health and welfare, including but not limited to conservation, sanitation, aesthetics, pollution, cultural properties, fire and ecology. Such agencies are not to be deemed third party beneficiaries hereunder, however this clause is enforceable by the lessor in any manner provided in this lease or by law.

18. Should the lessor desire to exercise its rights to take in-kind its royalty share of oil, gas or associated substances or purchase all or any part of the oil, gas or associated substances produced from the lands covered by this lease, the lessee hereby irrevocably consents to the lessor exercising its right. Such consent is a consent to the termination of any supplier/purchaser relationship between the lessor and the lessee deemed to exist under federal regulations. The lessee further agrees that it will require any purchaser of oil, gas or associated substances to likewise waive any such rights.

19. The lessor reserves a continuing option to purchase at any time and from time to time, at the market price prevailing in the area on the date of purchase, all or any

part of the minerals (oil and gas) that will be produced from the lands covered by this lease.

20. The lessor reserves the right to execute leases for geothermal resource development and operation thereon; the right to sell or dispose of the geothermal resources of such lands; and the right to grant rights of way and easements for these purposes.

21. All terms of this agreement shall extend to and bind the heirs, executors, administrators, successors and assigns of the parties hereto.

In witness whereof, the party of the first part has signed and caused its name to be signed by its commissioner of public lands duly authorized, with the seal of office affixed, and the lessee has signed this agreement the day and year first above written.

All sales of leases upon competitive bidding or a public auction shall be governed by regulations issued by the commissioner not in conflict with the provisions of Chapter 19, Article 10 NMSA 1978. Notice of such sales shall be given by posting in a conspicuous place in the state land office, not less than ten days before the date of sale, a notice of the sale specifying the day and hour when and the place where the sale will be held and specifying the following for each tract to be offered for lease:

- (1) a description of the lands;
- (2) the form of lease to be used;
- (3) the royalty rate; and
- (4) the annual rental per acre to be paid.

B. The commissioner may, when it is deemed to be for the best interests of the beneficiaries of such lands, also specify a minimum bonus to be paid for the leases upon the respective tracts, and, when so specified, the bonus shall be paid in addition to the first year's rental. The notice shall also contain such other information as the commissioner may deem advisable or necessary. Sales may be conducted through sealed bids or at public auction or by both methods combined, but the method of conducting each sale shall be stated in the notice of sale required pursuant to this section. Sales may be held at the option of the commissioner either in the office of the commissioner or at the county seat of the county in which the lands, or the greater part thereof, are situated or such other place within the state as the commissioner may designate in the notice of public auction provided for in this section. - (1) a local law enforcement agency;
- (2) the department; or
- (3) a tribal law enforcement or social services agency for any Indian child residing in Indian country.

B. A law enforcement agency receiving the report shall immediately transmit the facts of the report and the name, address and phone number of the reporter by telephone to the department and shall transmit the same information in writing within forty-eight hours. The department shall immediately transmit the facts of the report and the name, address and phone number of the reporter by telephone to a local law enforcement agency and shall transmit the same information in writing within forty-eight hours. The written report shall contain the names and addresses of the child and the child's parents, guardian or custodian, the child's age, the nature and extent of the child's injuries, including any evidence of previous injuries, and other information that the maker of the report believes might be helpful in establishing the cause of the injuries and the identity of the person responsible for the injuries. A volunteer, contractor or staff of a hospital or freestanding birthing center shall not make a report based solely on that finding and shall make a notification pursuant to Subsection H of this section. Nothing in this subsection shall be construed to prevent a person from reporting to the department a reasonable suspicion that a child is an abused or neglected child based on other criteria as defined by Section 32A-4-2 NMSA 1978, or a combination of criteria that includes a finding pursuant to this subsection.
